TENNIS CHATTER IN THE MUSIC WORLD.

New "Tennis Organizers' Club" Off For San Diego, Sunday, Sept 23; Fed's Sets 5 Annual Tourneys.

(By William Mells Watson)
(1655 Court St. Drexel 3742)

Say folks, a new bath tub fulla tennis stuff was uncorked during the last two weeks since the crowning of the 1923 champs and of a calibre that few of us hoped for.

First, the Federation got upon its hind hoofs and set six annual tournament dates, five of which are to be open affairs, meaning that anything or any body capable of waving a tennis paddle can drive in and grab the goobers. The dates include the Sunday before or the Sabbath after, they are: Memorial Day, May 30; July 4th; Labor Day; Admission Day, September, 9th; Armistice Day, Nov. 11; and Thanksgiving Day.

Each of the clubs were expected to ask for the privilege of handling one of the tourneys annually. The Alpha club was given the Armistice Day date, and the city open championship authority.

The West Side Ladies Club asked for the May 30 date and state championships, and the West Side Club was given Labor Day and the Southern California championships. July 4th is the Fed's Coast champ's date, and is not open to non-members.

Sept. 9th, and Thanksgiving Day are still un-asked for, but it is suggested to hold junior events on Sept. 9th.

The Delta Tennis Club of Oakland and other clubs out side this city can also hold corresponding dates minus the championships.

The New Club

The other big time dope is, that a group of the officers of the Fed in an effort to spread tennis propaganda thoroughly in the West, organized a "real boosters club" to be known as the Tennis Organizers Club with the following officers and members: Charles Monroe Cameron, president; Bill Tatum, vice president; Eddie Carlisle, secretary; Bertha May Brown, corresponding secretary; William Mells Watson, manager of publicity; Erma Tatum, Osborn Johnson and Charles Andrew Black. Nelly Magnolia Carlisle, treasurer.

The aim of the "Boosters" is, to write to neighboring towns people and arrange for a meeting and then the gang motors to the said city on Sundays and a new club is born, tennis will be played and a general good time is registered. Arrangements are already made for the Organizers to swarm at San Diego, Sunday, Sept. 23rd and, "Oh, joy."

West Side Carnival

The West Side babies are not asleep either. They've planned to hold a carnival and "cue dance" on the West Side tennis court Saturday nite, September 29th. A flock of booths (not booze) will be surrounding the merry "cue dancers", and many goodies and novelties will be sold at the bar. "Chinn and Chinn" musical fiends will keep the ankle acrobats stepping around at five cents (5 cents) per couple, the admission assessment is two jitneys per head. Be there.

Don't Fail.

"Don't Fail" to address the former Y. W. C. A. secretary, Miss Miriam Garrott as Mrs. Pelham Hall, should you chance to meet her since September 1, 1923 as it might be embarrassing.

"Don't Fail" to say Mrs. Nagansz A. Hawkins instead of Mrs. Sadie Louise McLaughlin, as she permitted Mr. Hawkins to tie her name to his August 17th last.

REVELATION

A voice
Out of the aeons
Speaks to me,
Revealing experiences
Once before
Incarnate.
Was I
In the limitless yesteryears
Such as now
In nobler moments
I seem to be and am?
Or why
Upstriding over
As there alone
Beyond the skies
Seek I the Perfect Hope
Of life?

POPULAR TEACHERS HOSTESS AT BRILLIANT SOCIETY FUNCTION —MARKS OPENING OF FALL SEASON

The Chrisman Apartments was the scene of a most delightful card party and beautifully appointed luncheon on last Saturday afternoon; the newly appointed teachers, recent graduates, business and professional women who have returned from their transcontinental tours, and the seasons' brides were the guests of Mesdames Bessie Bluett, E. Gertrude Chrisman, and Miss Pauline Slater.

Cards were the chosen diversion of the afternoon, after which the guests were ushered into the spacious dining room where a sumptuous luncheon was served.

Gold and green were the chosen colors. Masses of huckleberry, acacia, sprays of plumosa being tastefully arranged about the staircases, hallways and mantles. Beautiful streamers of plumosa and springeri gracefully trailed about the walls, mantels chandeliers, while the "T" shaped table presented a scene of unique art and grandeur. Gold and green circlets representing bridal rings ran the entire length of the table and were entwined with plumosa, La France roses and maiden hair. The green symbolical of the unsophisticated of the young brides and teachers(while streamers of satin gold-hued ribbons interlaced with delicate greenery were suggestive of the rich award which awaits the young business and professional women, as a result of their untiring efforts.

Tall burning tapers of gold with delicate green, almond baskets of the corresponding shade with tiny bows of maline bespangled in gala and napkins of gold floral designs.

Attractive place cards of minature brides, travelers and floral studies were done in irridescent script and marked covers for forty guests.

First prize was awarded Miss Manila Owens and Mrs. Ethel Asbury Reeves captured second and third to Mrs. Anna Smith.

Mrs. J. B. Thomas of 645 North Westmoreland Avenue gave one of the most elaborate dinners of the season on Sunday, September 9th, in honor of the following distinguished delegates to the National Baptist Convention : Mr. and Mrs. John Goins of Kansas City, Mo.; Dr. and Mrs. W. F. Botts, of Omaha, Neb.; Mrs. Avington, of Plattsburg, Mo.; and Dr. S. W. Bacotes of Kansas City, Mo.

The Zoning Commission has put the races property in the business district. This part of the district extends from Ivy Street on the West to Shamrock on the East, excepting the block in which the Charlotte Ave., is situated. The zone then extends North on Shamrock to White Oak Ave. The property on Huntington Ave., has advanced nearly fifty per cent in value. The A. M. E. Church owns a hundred and fifty feet frontage on Huntington and fifty five on Canton Boulevard.

Rev. and Mrs. Redding were the guests of their Brother and his wife, Mr. and Mrs. Akin of Huntington Dr., last Sunday. They worshipped at the Zion Methodist Church with his old friend, Rev. G. Reed.

Mr. W. D. Hollins motored to Elsinore Labor Day. He carried a party of seven.

Mr. and Mrs. D. N. Copeland, and Mr. and Mrs. Randolph of Pasadena, attended the morning worship of the A. M. E. Zion Church. They went away expressing themselves well pleased with the empressive service.

The motion pictures shown at the Methodist Church each Sunday evening just before the service are proving entertaining. The pictures show twenty six of the outstanding Events of the Old Bible, such as Creation, Cain and Abel, the Deluge, etc. This last will be shown next Sunday. Burton Holmes' Travels for the kiddies are also quite attractive, not only to the children but to the older people as well. The pastor, Rev. Dr. Reed, always preaches and appropriate sermon in keeping with the pictures. The auditorium was almost filled to its capacity, with both white and colored people last Sunday evening.

Monrovia was very busy entertaining the South West Rocky Mountain Conference, which met in the Shiloh A. M. E. Zion church of this city. From expressions made by the bishop and all of the delegates, the church did itself proud in caring for the delegation.

The conference was largely attended and on Sunday night Rt. Rev. Bishop Kyles preached at the First Methodist Church of this city. He delivered a sermon that will always leave an impression on the heart of that vast audience that was present to hear him. Rev. Harry Shepherd, pastor of the church spoke complimentary of the Rev. G. W. Reed, pastor of the local church stating that he was a preacher of ability. He also spoke of the work that Mr. Reed was doing here, a work which all of his race should be proud of.

After the sermon by the Bishop, the congregation repaired to the local Zion church where the Bishop read his appointments which were as follows: First Church, Los Angeles, Rev. W. E. Shaw; Shiloh, Monrovia, Rev. G. W. Reed; Prescott, Arizona, Rev. A. R. Simpson; Hanford, Rev. I. A. Moore; Boyle Heights, Ray, Ariz., Phoenix, Ariz., and Yuma, Ariz., to be supplied.

SAN BERNARDINO

Miss Rowena Muckelroy of Spruce Street, had as her dinner guest Sunday, 15th Messrs. Sidney and LeRoy Johnson, Edwin Jefferson and Thomas Southern, Misses Winona Winder and Edna Johnson, all of Los Angeles. Later in the afternoon Miss Muckelroy invited Messrs. William Lawrence and Kenneth Johnson, Sneedy Littles and Edward Reid, Misses Ruth and Dorothy Inghram and Mary Liverpool in to great her visitors. Dainty refreshments were served by the hostess, who is a sophomore in the U. S. C. A happy time was spent by all.

Mr. Kenneth Johnson has returned from the Santa Fe hospital in Los Angeles and his friends are glad to have him at home again.

Rev. Washington, Presiding Elder of the Southern District of the A. M. E. Conference delivered his last sermon at St. Paul's A. M. E. Church, before the Annual Conference, which convenes at 8th and Towne next week.

A number of San Bernardino's young folks enjoyed themselves immensely at a dancing party in Riverside Wednesday night given by Mr. Johnson and Miss Edith Carter, at the home of Miss Carter's sister, Mrs. Lloyd Nowlen. Those present from San Bernardio were: Misses Rowena Muckelroy, Ruth and Dorothy Inghram, Messrs. William and Lawrence Johnson, Sneedy Littles and John Lee. Refreshments were served.

Mrs. B. W. Inghram is entertaining as her house guests, her cousins, Mr. and Mrs. Davis, newlyweds from Oakland. Mrs. Davis was formerly Miss Hattie Sloan.

Miss Bessie Marison, from Pasadena, is spending her vacation at the home of her friend, Miss Zelma Shaw in Sixth Street.

Mr. and Mrs. Thompson and niece, Miss Mary Liverpool, motored down from Victorville to spend Sunday with friends.

Mrs. Humphrey has planned a concert to be given at St. Paul's A. M. E. Church Thursday night, Sept. 20th. She wishes all those interested to be present.

Mrs. L. Jackson of Redlands was the guest of Mrs. T. Beck, Sunday the 15th.

New Hope Baptist Church has planned a weiner roast social at the home of Mrs. Harris in Sixth Street, for Thursday evening.

Mrs. George Green of Base Line entertained friends from Victorville last Tuesday.

Mr. Fitzgerald visited with the Muckelroys of Spruce Street last Friday.

Many San Bernardino people will attend the Annual Conference of the A. M. E. Church which convenes at 8th and Towne Church in Los Angeles next week. We are hoping for the return of our beloved pastor, Rev. Fletcher, who has done such a great work this year.

Mr. and Mrs. Mayo and sister were visitors at St. Paul last Sunday night from Riverside.

Miss Ruth Inghram is at home from Pasadena spending a two months vacation.

Mrs. M. E. Sherman has had as her house guest during the month of August, Mrs. Ella L. Sulcer of Miami, Fla., who is her class mate and life friend.

They spent one week in Los Angeles the guests of Miss Maggie Glass and Mrs. Evelyn Jones.

The many friends from Florida living in Los Angeles spared no pains in making Mrs. Sulcer's stay a pleasant one.

Sunday, August 19th, Mrs. Cato of Gardena entertained at dinner: Mesdames Nelson Sulcer Glass, Sherman of Fla., and Mrs. White of Texas.

Thursday of the same week the friends gave a picnic at Redondo Beach. Miss Dora Perra of Florida also had Mrs. Sherman and Mrs. Sulcer to dinner at her beautiful residence on Essex Street.

On Sunday August 6th, here was a reunion of Florida people at the home of Mrs. Sherman.

The table groaned under the load of good things. Among those present were—Mr. and Mrs. Nelson, Mrs. Glass, Mrs. Sulcer and Mrs. White of Texas.

After dinner the party motored to Patton and Arrowhead.

The many social affairs ended with a luncheon given by Mrs. Sherman in honor of her guest, Thursday, August 30. Those attending were Mesdames Sulcer, Hilman, Harris, Harrison, Anderson, Dixon, Hamilton, Christian, Smith, Beck, Muckelroy, Halibarton, Foster, Hawkins and Misses Harts and Harrison.

Mrs. Sulcer leaves the 3rd inst. for the Grand Canyon and then Chicago, from where she will return to Florida where she will begin her school work September 24th.

NEW HOPE BAPTIST CHURCH

Many burning messages were delivered to us Sunday by stay-over visitors from the National Convention, among which were a wonderful sermon from the 23rd Psalm by the Rev. J. Franklin Walker, D. D., pastor of Metropolitan Baptist Church, Cincinnati, Ohio and President Ohio Baptist State Convention; also a short speech on "Woman" by Mrs. V. W. Broughton, A. M., Cor. Secretary of Womans' Auxilliary of Baptist State Convention of Tennessee; and a wonderful gospel song, entitled "I was there when it happened and I ought to know," by Prof. Britt of Louisville, Kentucky.

These people certainly uplifted the hearts of all who were present.

On Monday evening, September 17, a wonderfully arranged reception in honor of Rev. Lively and Mrs. Lively was given by members of the church at which time among other beautiful numbers on the program, the report from the National Baptist Convention held in Fort Worth, was delivered by the pastor. Rev. Lively reported that no other church exceeded New Hope in sending $100 to the Convention.

At the banquet table over which Mrs. V. H. Brandon presided, speeches, were made by all out of town guests and visiting ministers.

The Indoor Circus given Wednesday night by the ushers board of New Hope and Independent, was a howling success.

Madame Winston, gospel singer, will render a sacred concert at the church Sunday evening, Sept. 23rd.

Come, hear this wonderful woman of our race.

Rehearsals for the male chorus are now being held on Tuesday and Thursday evenings and Sunday.

Afternoons at 3:00 p. m. This concert will be given October 16. The young lady selling the most tickets will be given a trip to Catalina Island.

A cordial welcome is extended everybody at all times to New Hope Baptist Church.

Rev. A. Lively.

Sweet Friendship Memories.

As life goes on, our paths diverge,
New interests set our hearts athrill;
But somehow old time friendship's urge
Contrives to linger with us still.

New friends, new scenes, our lives surround,
And seek to drive the old away;
But in our moments most profound.
We find that they have come to stay.

Misunderstandings oft succeed
In severing the sweetest ties:
But who has been a friend indeed
Finds that real friendship never dies.

A hand divine unseen by us
Directs our feet in paths unknown;
But faithful friendship glorious
Follows to dungeon or to throne.

O yes, yes, there is flattery;
We've seen it fawn and felt its bite;
But there is also constancy
That changes neither day or night.

And often though it seems to change,
It does not so; deep in the heart
True friendship seeks to re-arrange
Things, and the hoped-for joy impart.

Friends ne'er so true have not the power
To do all for us that they would;
But we have no reproaches dour,
Believing they've done what they could.

And thus our lives escape the blight
And desolation that would come,
Believing God will make all right
That meant to be. That comforts some.

And then in Him we find a Friend
Whose friendship never, never fails.
He has no reason to pretend
Infinite power His plans avail.

The leanest years He can make rich,
With compensations sweet and vast;
There is a day to come in which
He shall make all things plain—at last.

Let us not then destroy the flowers
That volunteer along life's way;
But cherish happily the hours
When pleasant memories come to stay.

EDITORIALS

There is a kind of education God cannot use to an advantage. That education which is broad only on account of the thinness of its veneer, covering many subjects, only puffs up and makes its possessor think more highly of himself than is warranted by his success in life. Such education is unprofitable both to its possessor and God. The "little learning" also is a dangerous thing, unless its possessor has common sense enough to know that he knows a little.

HIGHEST IDEALS.

God used Moses because he had judgment enough to see the highest possible ideals and wholly unselfish and impersonal as well as sincerity of purpose. The lack of these essentials is the pitfall in which so many of them fall into ignominious and untimely graves. As a matter of fact the newspaper should be an agency from whose radius the purest of thought and highest ideals go forth for the continued progress and uplift of humanity.

PORTLAND TIMES SUSPENDS.

Another tombstone in the journalistic graveyard of the Pacific Slope is added as we are advised of the suspending of publication of the Portland Times. The paper was well edited and had bountiful backing, it is said that it was put forth to curtail the influence of another race paper published in the same town, if so, its demise is ample evidence of the fact that the survival of the fittest is apparent to all.

WHAT OF THE TEST?

In the "Ideal," a paper published at Pueblo, Colo., we note an editorial headed—"President Coolidge Meets His First Test;" it referred to the Anthracite Coal strikes in Pennsylvania. This is all right and now let us see his second test and that one, the Colored War Verterans Hospital at Tuskegee.

LAW AND ORDER.

This paper from time to time, in order that no one will misunderstand us, reiterates its stand for law and order. We are with the police in lawful efforts to suppress vice, we are with the Crime Commission in its efforts to lessen crime, we have no apology to make for crooks, parasites or vagrants. We are against the beating up of any citizen because he is suspected of crime. We are against rough-house methods in making arrests and searching citizens. We are against the policy of the police ruining the business of men who have license from the city to conduct legitimate business and for all of the above we shall at all times fight to main. If it's law, order and common decency—it goes for us.

WELCOME A. M. E. CONFERENCE.

Following in the wake of the great Baptist National Convention on next Tuesday at Historic 8th and Towne Avenue Church, there will assemble the delegates and members of the California Conference of the great A. M. E. denomination and the Soaring Eagle takes this occasion to extend to this great and progressive body a most hearty and royal welcome.

We appreciate most highly the great service of these intrepid messengers for the advancement of the Christian religion on these Western Shores and want them to know that we take cognizance of this great service to the utmost.

The publication of a newspaper should be inspired by the excellency of the knowledge of God in Jesus Christ. Only compared with the wisdom of God. Paul's knowledge could be used because he had sense enough to count all but lost for that the wisdom of the Egyptians was only foolishness when that education, therefore, that leads a man to the knowledge and appreciation of eternal values can be used by God.

The best thing to give to your enemy is forgiveness; to an opponent, tolerance; to your friend, your heart; to your child, a good example; to a father, deference; to a mother, conduct that will make her proud of you; to yourself, respect; to your race, loyalty; to all men, charity.

The Annual Session of the N. A. A. C. P. at Kansas City is reported as one of the greatest meetings in the history of this great organization and that it makes a new era for procurement of justice and a square deal for colored Americans.

Did you ever stop to think that the opinion you have of yourself may not be shared by any one else? You may be the only one who thinks about yourself that way.

There is great power in appearance. You are usually judged by the way you look and you usually look the way you feel.

An oppressed Negro means not only a weaker America but a weaker Caucasism.

GOVERNOR LAWTON OF OKLAHOMA AND THE KU KLUX KLAN.

All peoples who stand for law and order must admire the brave stand of Governor Lawton of Oklahoma, who has put the State under martial law rather than give over to the damnable Ku Klux Klan which has honeycombed the State and was about to undermine the body politic thereof. Lawton seems to be a man with a backbone and will stand his ground. The Ku Klux are making dire threats of impeachment and even threaten the Governor with bodily harm; so far these bombastic outbreaks are only idle boasts, for at their best the hooded band of cowards and cut-throats are cowards at heart and play only to the rabble. All good citizens of all the States of the Union should give to this intrepid executive their fullest moral support and apprise him of their appreciation for his efforts to thwart this hooded band of outlaws in their dastardly attempt to force upon the sovereign State of Oklahoma the stigma of "Invisible Government."

With the unprecedented reign of lawlessness that is sweeping the country, showing the brazen contempt for the measures that were made to govern society, and levied at the fundamental principles that enable civilization to exist—or dynamatic factors that are striking at the very foundation of our government. With the idea of World's Democracy already ringing in our ears and a cry for disarmament yet upon our lips and a world's court of justice the coming issue, has caused the eyes of the world to rest upon us in speculative and curious wonder. The rest of the world is wondering how America is going to establish peace and democracy abroad when within her domain notorious secret lawless organizations are passively allowed to supercede the law, where State Rights dominate Federal rights and protection that citizenship entails. All of this being done in defiance of the constitution which was framed by master-minds—minds that could not be excelled—A constitution, if rightfully interpreted, would do away with class distinction, prejudice and ignorance, and backward-pushed justice would come forth smiling out of the grave of oblivion if the law could be applied to the Negro as well as other races. While the world at large is looking on at this spectacle of scrambled justice that has placed itself on record for world's Democracy, etc., they wonder why we are not able to enforce the spoken principles at home, where crime is rampant, law held in scorn, lynching and burning a holiday and pastime—such is the spectacle—the riddle of which the world is trying to solve.

STATESMANSHIP.

Undoubtedly the highest function of statesmanship is by degrees to accommodate the conduct of communities to ethical laws and to subordinate the conflicting self-interest of the day to higher and more permanent concerns. But it is on the understanding and not on sentiment of a nation that all safe legislation is and must be based. Voltaire's saying, that "a consideration of petty circumstances is the tomb of great things," may be true of individual men, but it certainly is not true of governments. It is by a multitude of such considerations, each in itself trifling, but all together weighty, that the framers of policy can only divine what is practicable and therefore wise. The imputation of inconsistency is one to which every sound politician and every honest thinker must sooner or later subject himself.

The foolish and the dead alone never change their opinion. The course of a great statesman resembles that of a river, avoiding immovable obstacles with noble bends of concessions—seeking the broad levels of opinion on which men soonest settle and longest dwell, following and marking the almost imperceptible slopes of national tendency, yet always aiming at direct advances, always recruited from sources nearer heaven, and sometimes bursting open paths of progress and fruitful human commerce through what seems the eternal barriers of both. It is loyalty to great ends, even though forced to combine the small and opposing motives of selfish men to accomplish them; it is the anchored cling to the solid principles of duty and action, which knows how to swing with the tide, but is never carried away by it—that we demand in public men, and not obstinacy in prejudice, sameness of policy, or a conscientious persistency in what is impracticable. For the impracticable, however theoretically enticing, is always politically unwise—sound statesmanship being the application of that prudence to the public business which is the safe guide in that of private men.

COMMERCIAL COUNCIL GIVING LUNCHEON

On Friday evening, September 21st the Newest forward organization, the Commercial Council will give its first big luncheon in the big and spacious auditorium of the Pearl Garage and it is hoped by the members of the organization that this meeting will mark a new era along the line of progress in business affairs.

The Eagle appreciates the big effort of this organization to concentrate our efforts along business lines and it is time that our group should close ranks and present a solid front that we may get in on a place in the procession of progress.

The movement is one in the right direction and we hesitate not to give to the same our unstinted support and we call upon those who are ambitious for a greater showing along business lines to get in touch with this movement and to join hands for a greater progress in this great city along the lines of real business effort.

Forty thousand people should bring things to pass, but the only way to get them to work together for the common goal of success is to do so through some organization such as the one mentioned above. Let us all back up our Commercial Club, just the same as the other groups back up theirs.

NEGRO SCHOOL CHILDREN TAKE STAND

The California Eagle is solidly in back of the school children of Color of Imperial, who resent being segregated because of color—and we feel that it is high time for Americans, be they white or black, to stand up for justice especially in the educational ranks.

One half of the Negroes now confined in prison are either innocent, or were sent there for offenses of which any other race would have been admonished, or received sentnes in proportion to their crime. Especially in the South do we find wholesale deliveries to the penitentiaries of hordes of innocent Negroes, sent there because thy try to b mn. In other words, when a Colored man gets out of "his place" he has committed the vilest sin known to Southern Autocracy.

OPERATION SAFEST CURE FOR HERNIA

By E. B. Lewis, B. Sc., M. D.
1618 1-2 East 9th Street.

There is a misunderstanding in the mind of the average person about ruptures. The "ruptured" or torn wall which allows a loop of the intestine and its cover to slip from the abdomen into a pouch or pocket beneath the skin and fat of the groin or the navel is less important than the intestine or other portion of the anatomy that bulges into the newly made, artificial alley.

These hernias sometimes appear abruptly and accidentally, but often they have an inherited or congenital basis. They may be seen at birth or shortly aftedward, or not until the twenties or thirties. At times several members of the family may have them.

It is the better part of valor not to operate too soon upon infants and children in the matter of "umbilical" or "inguinal" hernias, as the navel and groin ruptures are technically called. Some of these heal up in early life, if squeezed into their normal place, and if adhesive plaster straps are used to fold the skin together.

Wool, rubber, wood or metal buttons can thus be strapped over the child's hernia. These "trusses" are safer and more hygienic than the average truss. Still, there are trusses to be had at instrument makers that are advantageous.

If, after a reasonable period, the rapture still persists, no further delay should be tolerated. The blind alley or sac should be stitched up permanently, and the hernia disposed once for all. A life held together by a mechanical factor such as a truss is a life largely insufficient and inefficient.

Grown-ups are better operated on at once. There is little cutting to be done, mostly tying and sewing. Thousands of such operation are being done yearly, and they are almost invariably successful. Alleged mechanical and injection methods, heralded as "non-operative cures of rupture," cannot correctly fit you for the battle of life.

Even trusses are abominations, because it is difficult to make them fit perfectly. If there were as many varieties of truss as there are persons—if they could be made to fit snugly in each crease, wrinkle and fold of the slender and the obese they might serve as temporary makeshifts.

At best, however, trusses are a survival of antiquity from before the days of perfected, modern surgery. Hernias are sometimes present in both groins. Double hernias should be tied at the same operation. Indeed if ruptures occur in the family it is a sane and eminently discreet procedure, though only one side is ruputured, to have the other operated on simultaneously as an insurance against the future.

A "strangulated hernia" is one that has suddenly become choked off and compressed, so that the veins and arteries cease to supply the "paralyzed" loop with its needed nourishment. When this catastrophe occurs—and there is always a threatened danger when trusses and non-operative substitutes are kept up—an immediate emergency operation is necessary.

If not done within the hour, gangrene, peritonitis and blood poisoning loom large upon life's horizon. If there were no less vital reason for an immediate operation to cure rupture, this would be demanded as a preventive measure.

Question: W. L. C. Since I have been doing wousework my finger ends are split. Although I have used many things on them, it remains just the same.

Answer: This may be due to alkali in the soap and hot water. Bathe the hands in glycerine and rose water and massage with olive oil.

Question: C. S. My daughter has several lumps in her left breast. She has uric acid more than is usual. Could that be the cause?

Answer: Do not blame so significant a thing as tumor of the breast upon that ancient and overworked nonsense, "uric acid." Every day your daughter delays an examination of her breast by a competent surgeon the worse it will be.

QQuestion: R. M. I have a coating of hair on my tongue. What can I do for this?

Answer: It is best to leave the tongue severely alone.

COMMENTS

By: W. J. WHEATON

Misfortunes eliminate all of the baser feelings of men and cement them in human sympathies. The recent catastrophe which befell the Japanese is one proof of the assertion. No sooner had the news of the disaster reached the shores of the Pacific Coast States, and that assistance was needed to care for the disabled and homeless, than machinery was put in motion to raise hundreds of thousands of dollars for their relief. Racial antipathies were for the time forgot, and only the sufferings of the thousands were remembered. Japanese aggressions were no longer remembered and the menace of the "Yellow Peril" was no longer the "Haunt." Black men and women vied with the white men and women in the giving. So it should be: For of one flesh God created all men.

The city of Berkeley in the State of California was visited with a fire which threatened to devastate it. The conflagration was confined to what is known as a "restricted district." Negroes, Japanese, or other races of color were taboo in that district, and woe to the person of color—No matter how respectable or refined—that sought a residence therein. But the flames had no respect for wealth or prestige and its red tongue rapidly erased the beautiful homes and rushed their inmates into the streets. Some of them had not the time to save their clothing, but as soon as the plight of the people was known to those who were fortunate in being restricted from that district they forgot all of the indignities which they had suffered, and worked and gave assistance to those who were temporarily made homeless. "Pride goeth before a fall."

We are awakening to the fact that to become factors in the coming events we must become producers. Production is the potent thing, the most efficacious means of bringing about that respect and regard for which all worth while citizens strive. After a survey of conditions, it is with no little degree of pride that we note the tendency to wrest from the soil a sustenance as well as to venture out in to the marts of legitimate trade. The most hopeful sign of all is, that we are taking those ventures as a matter of course. It used to be so that if Mr. B—opened up a Shining Stand that we heralded him as a pioneer in business circles. Perhaps he was: But now unless Mr. B—has ventured into a business of thousands of dollars no mention is made of it. We are rapidly learning the value of doing big things, and in a big way.

Our women are more venturesome in the field of business than are our men. They are not so conservative.

After all is said; Woman-hood is the standard of racial or national advancement. They pioneered the way. They never give thought to failure but will venture out with an assurance that brooks not of any failure whatever the discouragements. Credit must be given them for pioneering the way in every big venture which the race has been successful in. They have with inherent honesty kept every pledge which they have in a business way made to the public. On a recent visit we attended a "get-together" meeting of the agents of the Liberty Life—a race insurance venture—and I was surprised at the number of alert, energetic, young women who had made successful agents. They had qualified themselves for the business and the writer was told by the manager that to the women agents, the success of the venture was due. Production is the cry, the needing cry

Religious Reflections

Ceremony in worship may be all there is in it. We cannot despise ceremony. But if it usurps the spirit of worship, then that worship becomes a dead letter.

* * *

It is in accordance with God's scheme of grace that the workings of hi spower in us is conditional on the will rather than on culture. Culture may be denied us, but to will belongs to the poorest and weakest of us. If we will to do so, we can be saved. If we will it, we can come to spiritual gianthood. Therefore God's power may become our power, hence effective service may be ours whatsoever the degree of our culture may be.

Unregenerate humanity needs the very thing it does not wish. A divine Savior who has died, a divine Word to reveal, a divine Spirit to regenerate and sanctify—such a scheme slaps human sufficiency in the fact. God is all and in all.

BIG TENT MAKES NAME FOR ITSELF

GIVES SCHOLARSHIP

Last Sunday evening at the Big Gospel Tent at 23rd and Central Ave. the large audience gave a collection of $105.00 for a scholarship to Mr. A. E. Webb.

Since the beginning of the meetings Mr. Webb has been donating his vocal artistry each night at the Big Tent. Evangelist Rodgers sensed the great possibilities in this young man and decided to give the entire collection of the evening toward furthering this promising young man's education. Mr. Webb is now enabled to complete his musical and ministerial studies at Paicfic Union College.

Evangelist Rodgers has been expounding the gospel with the old time fervor. Many are claiming his preaching to be the greatest they have ever heard.

Every night finds crowds listening to the "new message" out of the Old Book.

Sunday night's sermon promises to be the most stirring thus far given. The subject is: "The Angels Holding the Four Winds!"

Miss Lowe, the Big Ten Choir and The Big Tent Quartet will furnish the music.

A PAPER WITH A HEART AND SOUL

$2.00 THE YEAR

VOLUME 37 — LOS ANGELES, CALIFORNIA, NOVEMBER 2, 1923 — NO. 28

THE NEXT THREE WEEKS ARE THE MOST IMPORTANT PART OF THE CALIFORNIA EAGLE'S CAMPAIGN

.....The bars are down, the track is clear—the race for The California Eagle's prizes, aggregating $4,000.00, has now begun. Headed by that fine, brand new $1,795.00 Reo Phaeton Automobile, the list of awards is attracting the eye of all Los Angeles and vicinity. Second only to the extraordinary value of the rewards is the signal honor and glory that will go to the proud winners. In truth, there is no way that an active candidate can lose, for, in accordance with the rules, every active participant will be paid for every minute of their odd moments used. "EVERYBODY WINS."

Proof of the popularity of The Eagle's liberal offer is the increasing interest that is being shown daily.

SEVERAL CANDIDATES NOMINATED

Although several people have been nominated, it will be seen by the vote standings, which are shown on page 9 that there is plenty of room for more "live wires" to enter the campaign. More votes have been cast by friends of the candidates for their favorites than most of those nominated have secured themselves. Those nominated have each been notified. It is expected that these will be heard from in the next day or so and interest increased in the race. ALSO, CANDIDATES WHO HAVE BEEN NOMINATED AND WHO ALREADY HAVE VOTES TO THEIR CREDIT ARE EXPECTED TO CALL THE EAGLE OFFICE, 822 CENTRAL AVE., PROMPTLY. Failing to report either by telephone or in person will mean that the names will be withdrawn and the votes canceled. And, right here, we want to remind readers again that votes cannot be transferred from one candidate to another. In view of the fact that every active candidate in accordance with the rules is guaranteed either a cash award or one of the bigger prizes, it is necessary for every candidate to get in touch with the campaign manager immediately. Failing to do so means that they automatically forfeit all rights to a big prize or a cash award and the votes will forthwith be canceled. This is fair warning.

MORE VOTES GIVEN NOW

Right now you get 15,000 votes for every one year subscription to The Eagle (for your first subscription you get 115,000). For a two-year subscription you get 35,000 votes; a three-year subscription get you 75,000 votes; a four-year subscription entitles you to 140,000 votes; a five-year subscription gives you 300,000 votes and a ten-year subscription credits you with 620,000 votes. IN ADDITION to the regular number of votes allowed on each subscription you get 100,000 EXTRA votes for every $25 in subscriptions turned in.

Very soon the number of votes given for each subscription will be greatly reduced. That's why these next three weeks are the most important part of the campaign. The candidate who makes the best showing during this BIG VOTE period will practically be assured of being acclaimed the winner of the $1,795 Reo Phaeton Automobile.

YOU CAN WIN

Some one from somewhere must claim these wonderful rewards, and in just a few weeks one of these costly prizes might as well go to you as to any one else. Every prize in the list, including the big $1,795.00 prize, will be given away absolutely free by The Eagle just exactly as announced.

All that is required to win is energy, ambition and determination.

SEE THE VOTE STANDINGS

During the past few days the campaign department at The Eagle office has been flooded with votes which were sent by friends for their favorite candidates. Evidently some of the candidates who have been less active in the past have enrolled the support of their friends and have entered the race to win. Subscribers when renewing or subscribing to The Eagle invariably have their favorite candidates in whose favor they wish to cast their votes.

See the vote standings this week on page 9. The recently increased activity makes us feel that there will be some surprises and shifting around in the standings of the contestants by this time next week.

EAGLE OFFICE OPEN EVENINGS

For the convenience of those who are unable to call at campaign headquarters during the day, The Eagle office is open each evening until 8 o'clock. Call at campaign headquarters, 822 Central Avenue, and get full information. Or, if unable to call personally, use the telephone: 829-244.

Miss Thelma Hamilton of Oakland, and Miss Daisy Taylor of Oakland are the house guests of Miss Marguerite Brown, 1920 Naomi avenue.

A RISING YOUNG DENTIST

DR. EUGENE M. CANADAY

Among the young men on the Pacific Coast who have been successful in attaining the title Doctor of Dental Surgery, we find in the person of Mr. Eugene M. Canaday, a young dentist who is daily proving to the Los Angeles public that he is a Master of his profession.

The young doctor's idea of the Dental profession is not the get-rich-quick idea, but he is a firm believer in super service for a reasonable pecuniary consideration. Dr. Eugene M. Canaday knows dentistry and knows that he knows dentistry and you may rest assured that any of his patients will indorse the same. Dr. Canady specializes in that which is known to the Dental profession as conductive anesthesia and to the public as the art of Painless Dentistry. That part of the public that visit dentists demand that the dentist be as easy as possible. Few dentists profess to be painless, but the young Dr. Eugene M. Canaday is proving to the Los Angeles public that his special training in the modern science of Painless Dentistry has enabled him to be a master of his profession. Patients who have gone through successful operations of painless dentistry certainly appreciate the fact that it was painless.

MRS. M. G. PATTON

Mrs. Patton is one of the most enthusiastic candidates in the Eagle's big Campaign. She has built up a large clientele as a fashionable dressmaker.

J. H. SHACKLEFORD RETURNS

MAKES PITHY COMMENTS ON BUSINESS CONDITIONS IN EAST AND MIDDLE WEST.

M. J. H. Shackelford, well known merchant and realtor, has returned to Los Angeles after an eventful Eastern trip, during the course of which he made stops at Denver, Kansas City, St. Louis, Chicago, Des Moines and Omaha.

While the trip was for pleasure, pleasure and business are closely akin, if not synonymous, in the opinion of his progressive citizen, and he made a close study of business conditions in the various places he visited.

"St. Louis and Chicago lead in racial business activity," said Mr. Shackelford, "but in neither of those cities is the home life in keeping with the wealth accumulated or energy expended. Taking into consideration the age, size and number of Negroes, there is no Eastern city which compares with Los Angeles, as regards ideal home life and living conditions.

"In Chicago, for instance, numbers of the group are acquiring large flat buildings, under heavy obligations; but for the most part they are old structures, and two years from now will be liabilities, rather than assets.

"Moreover, all the large Eastern cities have slum or tenement districts, which is not the case in our own Los Angeles.

"In none of the Eastern centers did the undertaking establishments begin to compare, in beauty and modernness with those we have here. The churches are, in the main, old edifices that white people have discarded, as it were. There are no new and modern church structures built by our group.

"So far as theatrical enterprises go, I found but one motion picture ture theatre, owned and managed by Negroes—in St. Louis. In all other cases, there was the white man in the background. There appeared to be a lamentable lack of race confidence, manifested in most places, which has a decided tendency to discourage race enterprise."

Mr. Shackelford also dilated upon the fact that the Negoes are deserting the agricultural field completely, and congregating in the large cities. In certain rural and small town districts in Southwest Iowa, there were not enough race people in the entire county to maintain one church.

As an example of the signal success which comes with race solidarity, Mr. Shackelford pointed to Chicago, where, as all who keep abreast of race politics and economics know, there are three Colored assemblymen, with strong prospect of electing a state senator and a municipal judge.

In all the principal cities visited, Mr. Shackelford was struck by the difficulties encountered by race members in attempts to acquire real property for residence purposes. In short, while living conditions are not perfect anywhere, but there exists a more favorable combination of circumstances, climatic, political and economic, conducive to an ideal home life and prosperity, in our own Southern California, than in other sections of the country.

Needless to say, Mr. Shackelford is as glad to be back in our midst as his many friends are to welcome his return—which is saying much!

MISS CYNTHIA HILL

Miss Hill has hosts of friends that are supporting her in the big Campaign.

NOAH D. THOMPSON

Mr. Thompson is another "live wire" candidate in the Eagle Campaign and his friends say he knows how.

MRS. E. C. BUCKNER

Mrs. Buckner is a very active candidate and she is getting results

One of the most noteworthy social events of the fall season was the marriage on Tuesday Evening, October 30th, of Miss Novaleate Brown to Mr. Anderson Logan, both of this city. The ceremony was performed at Hamilton M. E. Chuch, Rev. S. M. Beane, officiating.

YOU'LL NEVER MISS THE WATER TILL THE WELL RUNS DRY

By: CHANDLER OWEN

Yes, we have no more Summer! The snow flakes will soon deluge these United States and once more we shall be fast in the grip of Jack Frost. Those Negroes who have taken advantage of the period of comparative economic prosperity and laid something by in anticipation of the arrival of aforementioned Mr. Frost will not view with alarm his coming.

But how about those "good time" brothers and sisters who haven't missed a picnic, dance or party; who have gone on long automobile rides in rented cars; who have hired a taxi every time they had four blocks to go; who have kept up with the latest styles and fashions? Have they the wherewith to satisfy the landlord, the grocer and the coal man when the inevitable period of unemployment again grips the country? Can they afford to be out of a job for one month, two months, or three months?

Unemployment, dreaded by employer and employee alike, is a periodically recurrent phenomenon. It is as certain to arrive as the seasons of the year. We produce the necessaries and luxuries of life at a feverish speed for a certain period. Then we find the goods piling up. There is not enough money in the hands of potential purchasers to buy back the tremendous volume of goods produced. Not being able to sell what they already have on hand, manufacturers curtail or cease production. Less employees are required. The superfluous are discharged in accordance with sound business policy.

Those astute individuals who have foreseen this contingency and placed their hard earned money in the bank are well equipped to weather the storm. But what of the brothers and sisters who have derisively announced: "I'm gonna have a good time while I can," and "We ain't Gonna live but once?" As long as the folks have a job, all is well. But what of the time when the job has departed? Will they have a supply of the monetary water when the economic well runs dry?

Poverty, Pool and Polytechnics

In every large American city, especially in the north and east, are dozens of night and day schools where young men for a very small tuition fee, can prepare themselves to be proficient plumbers, electricians, plasters, bricklayers, machinists, telegraphers, surveyors, draftsmen, architects, linotypers, and dozens of other highly skilled trades. Some of these shcools are free. A couple of hours each evening for six months or a year are sufficient to fit an intelligent young man to work at one of these trades. For instance, the tuition fee at a certain linotyping school is $150. Young men can prepare for the average trade listed above for less than $100.

These schools should be crowded with Negroes. Instead we find most of our young men growing humpbacked over pool tables or sampling the local brand of synthetic gin. Pool is perfectly alright as a diversion but not as a diety. As a young man grows proficient in running fifteen balls off the table with a few skillful strokes, he finds it more difficult to get anyone to play with him. Pool balls are notoriously indigestable. On the other hand, the more skilled a man becomes as a workman, the more valuable he is and consequently the more desirable to an employer. The higher skilled he becomes, the more wages he can demand and receive. It should be perfectly obvious that polytechnics are far more profitable than pool—except to the proprietor of the pool room.

Civilization is control over the natural resources. The greatest civilization is that having the greatest control over its environment. The people who are the real foundation of our intricate machine civilization are the skilled workers. The key people in any modern industrial country are those with the greatest knowledge of the industrial arts. This is real economic power. If the Negro would become a greater power in the United States he must gain economic power—the directive force of every modern nation, the backbone of every ancient empire. The way to power lies through polytechnics. The way to poverty through pool.

Many will protest that if they spend money and prepare for such work they will not be able to get employment or to join a union. This conclusion is based on faulty reasoning. Labor is a commodity like iron, is in glass or iodine. It is the indispensible factor in production. Like other commodities it is subject to the law of supply and demand. When there is a large supply of iron, its price is low. When iron is scarce its price is high, whether the scarcity be natural or artificial. Precisely the same thing holds true of laboring power. When there is a large supply of carpenters, their wage is small. When carpenters are scarce, their wage, or price, is high, whether the scarcity be natural or artificial. This is true throughout the entire labor field.

Now iron is iron. An employer needing the commodity, iron, is not concerned whether the iron was mined by Chinese, Poles, Siberians, Negroes or Irishmen. He wants iron, in sufficient quantities at the cheapest price obtainable. The same thing is true of labor skilled or unskilled. The employer needs, say: 250 carpenters, 75 ironworkers, and 25 cement finishers. He is first concerned with the price of these skilled laborers. It is to his interest to pay the lowest wage, just as he pays the cheapest price he can get for iron, cement, lumber, etc. The larger the supply of any commodity, including laboring power, the more favorable to the employer. The smaller the supply of any commodity, including laboring power, the more favorable to the employees. This explains why most unions, openly or clandestinely, exclude Negroes, especially those organizations of the skilled workers. Not solely because they are Negroes, but because they wish to discourage people entering these trades in order to keep the supply of their particular labor scarce. Naturally racial differences are of great assistance. Of course, the unions are powerful and the employers do not antagonize them unless there is a likelihood of being able to carry on without them. That explains why employers are loath to employ Negro skilled workmen and women when they are in small numbers. However,

SLUMBER PARTY

It would be hard to say, just what did happen on last Saturday night when Mesdames Jeanette and Lucile Johnson who have been visiting in the east, returned and were entertained by Mrs. Clara Franklin, of 4202 Hooper Ave. Eight ladies participated in the "Slumber Party" festivities, which culminated in the serving of a delicous breakfast by the hostess at 6 a. m. Sunday morning.

Those presen were Mesdames Jeanette Howard, Lucille Johnson, Georgia Harris, Dr. S. S. Turner, Jaunita Scott, Hlizabeth Page, Ruby Watson and the hostess.

CAMPAIGN NOTES

Mrs. A. W. Hogue, well known for her organization work in Los Angeles is a new entry in The Eagle's Campaign. Mrs. Hogue starts off under very auspicious conditions and those who are going to help her say that she is sure to land the big $1,795.00 Reo automobile.

A new nomination this week is Miss Thelma Porter.

An enthusiastic worker is Mrs. Callie Brookins. She will be coming to the front soon with a vengeance.

Mrs. E. C. Buckner reports that she is getting her campaign organized with a view to "bringing home the bacon."

Miss Viola Crawford will prove to be one of The Eagle's "live ones."

Mrs. J. A. Allen is crowding her way forward in a way that shows she means business. Consistent results count.

Dr. A. L. Brown, San Diego, Cal., is a new nomination and San Diego is assured of having a real "live" representative in The Eagle's race.

Friends of Mrs. G. Gillespie predict that she will be the fortunate one when the judges announce their decision.

Mrs. Virginia Corry, of Pasadena is finding plenty of time from her many duties to add to her already good vote score.

Miss Eunice Roan has plenty of friends to count on to help her in The Eagle's campaign.

It must be encouraging to see friends taking such an active part as is the case with Mrs. R. M. Banks' supporters.

Miss Theresa Young, a very popular young girl, is right in line for an avalance of votes.

Mrs. T. J. Norris reports real success in her early efforts.

Mrs. A. C. Richardson has an active army of supporters who are determined that she shall be the Reo Phaeton winner.

Miss Cynthia Hill is a "go-getter" when it comes to adding to her vote score.

A popular society girl is Miss Oleander Donaldson and she is facing excellent prospects in The Eagle's campaign.

Mrs. M. G. Patton has the right idea in putting forth her best efforts now while the big vote schedule is in effect. Very soon now the number of votes given for each subscription will be REDUCED.

Another candidate who is taking full advantage of these "Big Vote" days is Mrs. Mabel Turner.

Mrs. S D. Scaggs is a hustling candidate who will always give a good account of herself.

Mrs. Augusta C. McCallister, prominent leader in church work and the First A. M. E. Church circles, was the beneficiary last week to the extent of several thousand votes, due to the activities of her friends.

One who has big plans for her campaign is Mrs. Chas. B. Dones of Redlands, Cal.

Marysville's candidate, Mrs. Wm. McTrent is getting them lined up on her side and rumors reaching campaign headquarters indicate that she will soon be making a big showing.

Miss Naomi Turnage seems to have no trouble in getting the votes.

Los Angeles' popular modiste, Mrs. Isaac Johnson is fortunate in having a number of friends "plugging" for her to win the Reo Phaeton.

Mrs. T. A. Thornton is getting a dandy start as her vote score shows.

Mrs. B. Highbaugh's vote score shows the result of her good work the past few days.

Mrs. Anna McGee reports that she is getting started in good shape.

Mrs. E. Chism has a number of promises that will soon mean a lot more votes to her.

Mrs. Charlotte Kimbrough is getting her campaign organized successfully and big results may be expected from her efforts.

One of the real "live wire" candidates in The Eagle's big campaign is EAGLE—TWENTY-FOUR Mr. Noah D. Thompson.

You will notice that Mrs. Myrna Shivers is right up among the leaders in the race for the Reo Phaeton.

"Whoever gets the first prize automobile will have to go some," says Mrs. Edith Slayton of Santa Monica, and she is going after the votes in earnest.

Mrs. Jas. Goodwin has a big bunch of loyal friends who mean to see her capture the first honors.

First place honors this week go to Mrs. Augusta McCallister. Will wager that there will be some shifting around by this time next week when the vote standings are again shown.

Quite a few votes have been sent in for Mrs. K. C. Venerable, which indicates that she has a large following and a number of boosters on her side.

Another candidate who has benefitted by friends who have paid up their subscription and cast their votes for her is Mrs. T. R. LeBlanc.

It s very seldom that a mail comes in which does not have votes for Ed. T. Hubbard.

A new nomination last week was Gilbert F. Allen.

Another candidate who came to the front in good shape was Rev. L. B. Brown.

Keep your eye on Miss Elizabeth Perkins. She knows how to get the votes and it takes votes to win this dandy Reo Phaeton.

Mrs .A. L. Ray is a new entry of last week and she is making a splendid showing.

The ladies have no monopoly in The Eagle's campaign. As proof of this, take a look at Rev. M. W. Irvin's score.

Additional proof of the above statement is in the showing that Rev. J. E. McCorkle is making.

With her eye on the $1,795.00 Reo Phaeton, Miss Idell Albritton is going after the votes like a veteran campaigner.

Watch out for Mrs. Adina Minnott. She means business, as her vote score plainly shows.

Mrs. Geo. Beavers, Jr., is planning to get busy while the "Big Vote" days are on.

Another new nomination which was sent in last week is that of Mrs. Jas. B. Lowe. Accompanying the nomination were quite a few votes.

An out-of-town candidate who is giving a good account of himself is Chas. Byrd of Pasadena.

Not all the vote-getting talent is confined to Los Angeles. Mrs. W. D. Hollins of Monrovia is a real competitor.

Quite a few good subscription promises are reported to campaign headquarters by Mrs. H. Spaulding. That's the way to go after them.

From the way that her friends are helping her, there is no queston but what Mrs. J. A. Bass will be a strong contender for the Reo Phaeton.

TRINITY BAPTIST CHURCH
West 36th St. and Normandie Ave.
Rev. J. A. H. ELDRIDGE, Pastor.

Our Sunday School was prescellent with wonderful attendance, and teachers were at their best. Many glorious truths were brought out. Dr. Skipwith conducted a short evangelistic service in the Sunday School, the results of which were felt very keenly. This great evangelist will be with us through the coming week, closing his revival effort Friday evening. He conducted three services Sunday, preaching powerful sermons at each service. He reached the mountain peak of his effort in the afternoon service, when he preached from the text "I have put off my coat, how shall I put it on". Solomon's Song, 5:3. Dr. Skipwith was with us also in the B. Y. P. U. and gave helpful instructions. Come and hear him each night and you will be graciously helped. Thursday night special sermon to men, but ladies are invited. We certainly have a pastor who is looking out for the best interest of the church, a man to be appreciated by any people who are looking upward. Come and enjoy the feast.

BIRCH ST. CHRISTIAN CHURCH
Cor. 14th and Birch Stretts
Rev. A. W. Jacobs, Pastor

Each Lord's Day brings to us many things for which to be glad. The Choir under the leadership of Mrs. F. B. Miller never fails to give sweet music appropriate for every occasion. Bro. I. J. Williams is striving to push his Bible School to the front rank in the "Standard of Efficiency." The Y. Y. P. S. C. E. cannot be given time to finish their heated discussions that are well attended and full of good thoughts. Bro. W. F. Thompson's address was a sermon within itself on the topic last Sunday evening. Regular preaching services are always interesting. Morning subject: "Study to show thyself approved unto God, rightly dividing the word of Truth." Evening subject: "Santification." Many historical and Biblical facts were brought out in these sermons and the minister was complimented highly for the clearness and plainness of it all. We were so glad to have Bro. R. B. Hayes with us. When you want to enjoy good services and of the day or evening. Come to Birch of the day or evening. Come to Birch Street, you are welcome. Services: 9:45 and 11 A. M., Sundays; 8:00 p. m., Thursdays; 7:30 p. m., Fridays; 7:00 and 8:00 p. m. Sundays.

The sermon was very impressive and quickened the hearts of those present. The choir rendered a beautiful anthem contributing its usual share by singing the gospel into the hearts.

A lesson on "Faith" was a great lesson in the Bible Class and next Sunday promises to be just as good on "Works."

At 8 p .m. Rev. Shaw delivered another splendid sermon from Luke 12:21 "So is he that layeth up treasure for himself, and is not rich toward God."

WHITE SUPREMECY IS SHACKY

"Whom the Gods would destroy they first make mad." The much-vaunted superiority of the white man is being challenged as never before in the United States. Despite all bars and obstacles the black brother is proving every day that he is the equal and often the superior of the whites. In business, athletics, music, art, literature, industry and general culture, he is alarming his white brother by his rapid strides. Naturally no one likes to have his position endangered by an "inferior". How can we preserve the myth of white superiority when Negroes of ability and courage in every walk of life are capturing first places? All around us we see the answer: Refuse to employ him in the skilled and professional positions. Don't play football or baseball with him when you can prevent it, or allow him to join your teams. Segregate him and discriminate against him at every opportunity. Don't allow him an inch because we know he is capable of taking a mile. What then, would become of our much vaunted "Nordic" ascendency?

It is this dreadful fear of the Negro and the other darker peoples capturing all the coveted prizes; intellectual, economic, artistic and athletic, that constitutes the foundation for the spirit of Ku Kluxism possessed by nine-tenths of our white brethren. Is the Negro an intelligent thrifty workman, liable to become a property owner? Then, since God of America is Property, we must, by hook or crook, keep him as far removed from the deity as possible, by the well known methods—discrimination and segregation. Is the Negro a great Athlete? Then we must refuse to box him, play football or tennis with him, or allow him to compete in any championship contests. Is the Negro a great artist? Then we must do everything to discourage him. Is the Negro a great scholar? Then we must do everything to prevent him from showing up the ignorance of second-rate white boys and girls.

But the black brother seems to get on closer to the laurels, whether or no. Despite everything his ruddy-skinned friend has done, he continues to threaten the seats of the mighty. Even though the white papers do softpedal the achievements of Negroes, the pale foce brethren in the mass are beginning to feel insecure. The fear that they may not be as superior as they have always believed—is gripping their hearts as never before. The idea of Negroes owning banks, locomobiles, mansions!

The destruction of a great idea is underway. In the general panic of 'Nordic' America, force is resorted to as the only alternative to stem the rising tide of color that it threatening white world supremacy. So we have Johnston, Stowe and the Indiana deportations.

How often will this happen in the future, with the dark brethren making rapid strides every day? No one knows. One thing, however, the Negro must resolve to do in the future: Not to leave his home and run away every time some white moron shoves a Ku Klux letter under his front door. Such conduct is inexcusable in people aspiring to full manhood rights. A man's home is his castle and he has a right, yes, a duty, to defend it. There are times to go and there are times to stay, but there is no special virtue in consistency. Negroes are coming North in droves. Good! They found it expedient not to stay any longer in the South. It was time to go, when Northern industry and better living conditions beckoned.

Now the Negroes are here. It is time to stay, and no time to go, even when warned by a vigilancecommittee. If the Negro could stand the endless drill, confinement segregation and discrimination of the cantonments in this country, and the filth, vermin, danger, disease, death, and soul-sickening experiences in France, to make the world safe for democracy, surely he should be willing and anxious to make America safe for himself.

CHANDLER OWEN.

Cholo Johnson with Crime Crushers : Bear Cat

East of Main street at this time is the scene of much activity on the part of the Crime Crushers and this particular detail is headed by one who is feared far and near by all of those who are wont to play and trifle with the law and his name is a by-word for you can hear them say: "Here comes Cholo;" and not unlike Jack Dempsey he comes weaving his way, looking into dark places and lining them up, as well as to load them up and send them to Central Station.

What a Change Will Do

Cholo Johnson has earned the hatred of all who break the law and many who do not; for per chance when his crew is pulling off a raid if you get too near the scene of action they rake everybody they see right into the bunch raided and much inconvenience in this way has come to many who are entirely innocent of being in any unlawful place. We therefore advise everybody to stay as far away from a raid as possible especially when the "Crime Crushers are doing their stuff."

There have been serious mistakes made by the Crime Crushers, but not to any particular group. Black men have been unwantonly beaten up also white men have fared the same fate and there has been much just criticism on the Crime Crushers for this manner of doing things. As for Cholo Johnson and his bunch we will be fair and say that no brutality has been reported on their part. We feel that law abiding citizens on the street will have no objections of standing a "frisk" when commanded to do so by police officers.

This paper has complained when they would seem to persecute legitimate business concerns and lay upon some particular place as if by command of some invisible hand.

Stand Up for Law and Order

We are with the police 100 per cent for law and order and have no complaint, when without brutality or unnecessary beating, the officers proceed to perform their duty.

We recall when colored officers under the same circumstances were performing their duty the hue and cry that went up against them by a certain element of our group and now they can realize that no matter what the color of the officer's skin the law must be upheld, and all good citizens cannot but acquiese in the efforts put forth in behalf of law and order.

Last week from Friday to Sunday this a partial list of activities as noted by the following arrests:

W. B. Boswell and Theo. Harmore, 1112 Central Ave.—Wright Act; Mattie Tolliver, 416 Seaton St.—Wright Act; Hazel Anderson—Possession Lottery Tickets; Pete Bates—Wright Act; Minnie Braxton, 1160 E. 10th St.—Wright Act; W. A. Minor—Wright Act.; Nannie Harris, 1150½ Central Ave.—Delinquency of Edna Floyd, 17 years, turned over to Juvenile Dept.; Ethel Freeman, 1013 Central Ave.

And the Crushers are moving on, and to our mind if you do not cherish being crushed—"live within the law."

Resume

Now take the above write-up as you like, we give the facts for their worth. We have at no time sanctioned brutality or persecution, but stand up for law and order.

There are other places which come in for consideration, which, if true, will take away the glamour of some of the work accomplished. But there is the rub. One investigator brings us the report that there is war in the underworld and one big director of this species actually gives orders who to raid and when to raid them. We have been unable to confirm this at this writing, but we certainly think the police should do its own directing unless they are using crooks to catch crooks and in the meantime the Crime Crushers move on, and the Eagle's Eye is upon them.

At the recent meeting of the participating societies of the Northern Baptist Convention ,the Board of Managers for the Correspondence Schools for ministers, missionaries, and social workers was appointed. This Board of Managers is composed of twelve members—college presidents, educators, publicists, and ministers. All courses of study—pre-ordination, introductory, standard four-year, and post graduate are prepared and supervised by this Board. The Correspondence courses of all educational institutions of the Northern Baptist Convention also come under its supervision.

In recognition of the educational work and activities of Dr. Wm. R. Carter, Supt. of Negro Work for this District, he has been elected a member of the Board, and has since been selected as member of the Executive Committee. Dr. Carter is the only Negro member of the Board, and colored Baptists are especially pleased and honored by the appointment.

ELDER ROGERS, ADVENTIST PREACHER DRAWS HUGE CROWDS TO TENT MEETINGS

23rd and Central Avenue

"On to the Tent" is now and has been for the past few weeks, the rallying cry of religions effort, and out Central Avenue by the thousands that have journeyed to hea rthis young man, who brings a real, impressive, and forceful message.

He is attracting the people to such an extent that ofttimes the big tent is inadequate to hold the crowd. On last Sunday night he preached a special sermon, "The Part the Negro Has Played in Civilization". And from the Bible proved beyond peradventure, that the Negro was the cornerstone of civilization.

Elder Rogers is a remarkable man, and a wonderful preacher. No one should miss hearing him. He is intelligent, and has delved deep into the Bible, and comes prepared to give to all the truth which makes of all humanity the better part for hearing it.

WOMEN'S DAY, SUNDAY, NOV. 18th, AT INDEPENDEN T CHURCH

What is Man that Woman Should be Mindful of Him?

A mere creature who is unable to find even his collar button, without the assistance of his wife. Every achievement, accomplishment, and height of fame that has been attained by men, has been reached through the influence of awoman. He publicly admits that all he is or ever hopes to be, he owes to the influence and encouragement of his mother, or his wife; but never to his father or his brother. She is the unseen power urging him upward and onward. She rules the world .Men and beasts bow before her. She is sweet as the fragrance of the flowers that bloom. Her love is so great, that it is the nearest living symbol that men refer to, when trying to portray the Savior's love. Yet she possesses an undaunting faith, and a determination as strong as the rock of Gibraltar. Through her strong determination she crushes opposition. Arriving at the tomb of the Savior, while man cowardly gave up hope, she was first and Jesus was forced to send her with a message to his desciples, men whom he had trusted, loved and lived among during his lifetime. They had forsaken him .Man betrayed, denied, doubted and abused the Son of God, but woman believed, trusted and loved on with an undying love and a hope that shone as bright as day. From infancy man has trusted her to guide his trembling feet and show him the way. She has guided and will guide him on to the end. Is there a place in God's Holy Word recorded, where woman has forsaken, denied doubted, abused and betrayed the Son of God? As she was true to the Savior, as she is the purest and truest being that man has to lean upon, so will she be true to her trust, when she promises the city of Los Angeles that one of her number will unveil the great Twelve Thousand Dollar Pipe Organ of the Independent Church.

O! Woman with a soul as beautiful as the sunrise,
A love as pure as the sparkling drops of dew,
A heart as true as gold, a faith that never dies.
For comfort and care of His children God depends upon you,
Laboring for Him may you ever be loyal, faithful and true.

ARNOLD DENIED PERMIT TO CONDUCT DANCE HALL

J. L. Arnold, not Ralph Arnold, was on last Tuesday, denied his application to conduct a dance hall at 9th and Central Avenue, by the police commission. This was not accomplished however, without the washing out of a whole lot of dirty linen, and the usual clash of arms when these proprietors came up before the Board.

Citizens Civic League Opposes Proposition

The chief protestan tgaainst granting the permit was the Citizens' Civic and County League, of which H. Douglass Greer is the President, and R. G. Lamar is Secretary. And it is said they protested on the ground that the applicant was not qualified to conduct a dance hall. And further, that the location was not a proper place. They brought before the Commission Court Records, affidavits, etc. to establish their claim.

The applicant stated that he had in the past, paid money to procure a permit from the County to the Secretary of the League. On being questioned, however, it was plainly brought out that he had only paid for being represented before the County Welfare Commission.

Quite a furore was created over this trivial affair, and much was said pro and con that might just as well have been unsaid. The application for the permit was denied, and passed up to the chief of police for investigation as to who was selling permits.

MR. AND MRS. ANDERSON LOGAN

At Hamilton M. E. Church on last Tuesday evening October 30th a pretty fall Wedding was celebrated, when Miss Novhate Brown, granddaughter of Mr. and Mrs. D. L. Brown became the bride of Mr. Anderson Logan of this city, with Rev. S. M. Beane officiating.

The church was beautifully decorated in cut flowers of pastel shades and ferns. Preceding the processional, Mrs. Naomi Pharr sang, "Because," accompanied by Mrs. J. R. Hudson and Mr. Malcolm Patton sang accompanied by Mrs. J. Parker.

After a brief pause Mr. Henry Prince of Pasadena who presided at the piano, broke into the strains of the Wdeding March by Mendelssohn, which announced the approach of the bridal party.

First in the processional came the Herald Girls—Misses Lois Collins and Lucile Winding—daintily dressed in white organdy frocks and carrying shepherd's croaks tied with huge bows of orchid and rose tulle. Following came the groomsmen and lovely bridesmaids, gowned in taffeta frocks and carrying beautiful French bouquets.

Miss Angelique De Lavallade was winsome in a gown of changeable green and silver.

Miss Kathleen Morgan, gowned in rose taffeta was very attractive.

Miss Emma Kate McKinney was sweet in changeable gold and green.

Miss Daisy Taylor of Oxnard was charming in a gown of changeable peach and gold.

Miss Elvira Kennedy was sweet in a frock of cherry taffeta.

Miss Mannie B. Hughes wore a beautiful dress of coral with headdress to match.

Miss Louise Harrison was beautiful in a frock of canary and gold.

Miss Gladys Thomas was adorable in a gown of orange and gold.

Miss Gertrude Freeman wore a beautiful gown of baby blue and silver.

Miss Carrie Davis was dainty in a frock of green and silver.

Mrs. Hattie Ellis, Matron of Honor wore a beautiful french gown of Chiffon and carried a bouquet of American Beauty roses and sweet peas.

Miss Thelma Hamilton of San Francisc, Maid of Honor, was delightfully captivating in a hand-embroidered gown of gold crepe de chine with old gold lace and carried a bouquet of American Beauty Buds and maiden hair fern.

The groomsmen were: Messrs. Willys Dudley, Henry Martin, Noble Crouch, James Criner, James Carnarton, Nathaniel Harper, George Roland, Robert Love, Jessie Strider and Mr. Wm. Colly.

Next came the sweet and demure little flower girls, Misses Betty and Jeanette Collins who were also dressed in white organdy frocks, followed by the ring bearer, little Miss Pearl Holmes who wore a Taffeta frock of French blue with a hair bow to match.

Then in radiant lovliness, leaning on the arm of her grandfather, came the bride clad in a basque gown of beautiful white duchess satin with a train which hung from the shoulders; gorgeously embroidered in seed pearls and rhinestones the entire length of the train, and wearing a long tulle veil dotted with rhinestones which was draped in caronet style caught in the front with a wreath of orange blossoms. She carried a lovely bouquet of orchids, lilies of the valley and bride's roses and fern.

After the ceremony a reception was held in the dining room of the church where delicious refreshments of ice-cream ,cake and punch were served.

This wedding unites two of Los Angeles' most popular young people, which is proven by the vast amount of beautiful and useful wedding presents received by them from friends—both far and near.

CAMPAIGN NOTES

Candidates Reporting Success

Candidates are reporting that they they are meeting with unusual success in inducing subscribers to extend their subscriptions to three, four, five and ten years. These are the kind of subscriptions that count the most.

No Switching Allowed

Candidates are warned that "switching" subscriptions will not be tolerated, and those who attempt to do so will have ample time—when it is too late—to wish they had heeded this warning. Every single subscription turned into the campaign department will be carefully examined by The Eagle and by the critical judges.

This is a campaign where the "best man or woman" wins—the contestant who secures the greatest number of votes will win this fine Reo Phaeton Automobile.

Just Two Weeks Left

Just eight weeks remain of the "First Period" BIG VOTES. If you want to make sure of winning, do everything possible in the way of securing subscriptions during these IMPORTANT days.

One $25 "club" of subscriptions will accomplish wonders. But you are not limited to one "club"—you can get two, three or more, so much the better. Every $25 in subscriptions gives you an EXTRA 100,000 votes in addition to the regular votes. Every $25 in subscriptions is worth from 300,000 to 700,000 votes.

Compare the vote standings today. Note the increases and gains on every hand. Then GET BUSY.

Right Now is the Time

From now until Saturday night, November 17th is the time to "dig in" and gather in the votes by the thousands. Remember, Saturday night, November 17th is positively the LAST MINUTE of the BIG VOTE.

These Are The Important Days

The winning votes can be secured between now and 9 o'clock Saturday night, November 17th. And this "First Period" will practically decide who the winners of the big prizes will be. You can't "dilly-daily" with such a valuable prize at stake—you must get busy in earnest and let nothing stand between you and the prize you have determined to win.

You Must Get Busy

The way to win is to pile up the largest number of votes. It takes votes to win—just VOTES. So the larger your vote score the better for you.

"Wishing" won't win for you—you must hustle, and hustle hard.

Big Subscriptions Count Most

The 2, 3, 4, 5 and 10 year subscriptions count most. Get as many of them as you can.

One five-year subscription counts 300,000 votes—four times as many votes as five yearly subscriptions. One ten-year subscription counts 620,000 votes—over four times as many votes as ten yearly subscriptions. On top of this, you get 100,000 EXTRA votes for every $25 in subscriptions.

The candidates who will be most successful in the end are those who make the best showing between now and Saturday night, November 17th.

Don't overlook a single subscription anywhere. The race is so close that one good subscription may determine who will will be ahead at the present BIG VOTE period.

Office Open Evenings

The Calif. Eagle Campaign Headquarters, 622 Central Ave., will be open each evennig until 8 o'clock to receive votes and issue supplies, such as additional receipt books, sample copies, etc.

Remember, to get credit on the present BIG VOTE schedule, all subscriptions must be in The Eagle office not later than 9 o'clock Saturday night, November 17th. In case of out-of-town candidates, all subscriptions that are mailed not later than 9 o'clock, November 17th, will count, even though they are not received at The Eagle office until later.

Now for the finish of the most important part of the campaign—these are the DECIDING DAYS.

Mrs. J. G. Allen has told her plans and from the looks of things she is going right after the Reo Phaeton.

W. C. Alexander predicts that he will be second to none in the Eagle's auto and prize campaign, watch him go after the $1,795.00 Reo.

He or she who hesitates is making a big mistake you must get busy while the BIG VOTES are in effect. Do it now!

Mrs. E. C. Buckner has her eye on first place. Doesn't look like she will be long getting there.

Mrs. G. Gillespie is right up with the top-notchers. She claims everyone will know that she is in the race.

Mrs Isaac Johnson is giving a good account of herself.

Dr. A. L. Brown, another out-of-town candidate who is being heard from regularly.

Miss Idell Albritton is forging ahead and will be right up in the running.

Mrs. Wm. McTrent of Marysville is working hard to win and her efforts are productive as you will notice by her vote standing.

Mrs. Cynthia Hill is going after the Reo Phaeton like a veteran campaigner.

Mrs. M. G. Patton promises to be another "live wire" in the Eagle's auto and prize campaign.

Mrs. Virginia Corry of Pasadena is in the race to win, watch her step right up in the lead.

Mrs. Chas. B. Dones is not going to be an easy one to pass. Her vote score is taking leaps and bounds.

Rev. W. M. Irwin is a regular vote getter.

Mrs. A. L. Jones of Santa Barbara will not be an easy candidate to sidetrack. She is gathering in the votes and taking advantage of the BIG VOTE period.

Mrs. H. G. Walker has lots of friends who are helping her to bring up her vote score.

Another "live wire" is Mrs. Augusta C. McCallister. She will be making the track a hot one.

Mrs. H. E. Norwood promises to be a real contender for first honors.

Rev S. M. Beane's name was lost in the shuffle last week, but he is in the race, and is being heard from regularly at Campaign Headquarters.

Mrs. E. Chism seems to have no trouble in getting her share of votes.

Another "live wire" is Miss Naomi Turnage. Her friends are giving her splendid support.

Leonard Ross says that he is in the big race to win.

Miss O. E. Thompson says that the Reo Phaeton car is the prize she wants and wont stop getting votes until the last minute.

Noah D. Thompson seems to hold his own in the Eagle's campaign.

Mrs. R. M. Banks certainly has a host of friends who say that they are going to push her right up in the lead.

Miss Theresa Young, another real contender, is making some real speed as shown by her vote standing.

Mrs. Georgia Shy is going at a nine ty mile an hour pace.

DON'T FAIL

To Hear Dr. Vada Somerville at Birch Street Christian Church, Sunday Eve., Nov. 11th.

RACE GETTING HOTTER AND KEENER FOR EAGLE'S 1,795 REO PHAETON AND CASH PRIZES

The big chance to drive home a victory in The Eagle's $4,000.00 automobile and cash prize race is stirring up a whirlwind of action. Thousands of votes are being cast by the contestants and friends of the candidates. The participants in the race for the $1,795.00 Reo Phaeton Six Automobile are certainly giving a vigorous account of themselves with the result that the vote scores are climbing up more rapidly than at any other time since the campaign began.

It is quite evident that all the contestants realize that extra strenuous effor now will later be rewarded very handsomely. The contestants further appreciate the tremendous importance of getting busy now while the BIG VOTES are in effect as very soon, now, the number of votes given for each subscription will be very materially DECREASED.

"To Win" Is Object

To win a luxurious $1,795.00 Reo Phaeton 1924 Model is the one object firmly fixed in the minds of candidates. It will not be long now until some "live wire" candidate will be riding around the streets in his brand new Reo Phaeton Automobile —a gift from The Eagle as a reward for their ability to hustle.

Many other big prizes will be forthcoming at the close of

WHERE TO ATTEND CHURCH

WALL ST. CHRISTIAN CHURCH
E. 8th and Wall Sts.

We enjoyed fine srevices all day last Lord's Day. Our pastor, Rev. F. C. Cothran preached both morning and evening and brought us two most inspiring messages, from God's word —They were uplifting and instructive. May our brother Cothran live long to preach the simple gospel of Christ. Our Bible School continues to grow in interest. The lessons of this quarter should not fail to create a missionary spirit in all who study the lessons in view of the point for which they have been given. We invite the public to come and worship with us. All are welcome. Order of services: Bible School, 9:4454 4A4. M.; Preaching, 11 A. M. and 7:30 P. M.

LINCOLN MEMORIAL CONGREGATIONAL CHURCH—

Rev. E. E. Lightner, Pastor

The Pastor, Rev. E. E. Lightner will preach at the morning service this Sunday, Nov. 11th. Rev. H. B. Quinn, teh Evangelist, will be the speaker at the evening hour. Good music is promised for both services.

The past Sunday was a glorious one with us. Instead of the usual services the Pastor gave an opportunity to the congregation to give expression to the feelings of their hearts before partaking of The Lord's Supper. Many were the expressions of renewed loyalty and allegiance to Jesus Christ and his church.

At the evening hour the pastor gave report of the Los Angeles Association of Congregational Churches which convened last week at Buena Park.

You are cordially invited to worship with us at all times.

BIRCH ST. CHRISTIAN CHURCH

Rev. A. W. Jacobs, Pastor

Every department of the church was in perfect harmony with the spirit of the Great World's Temperance. Sunday. It was shown first in the Bible School. Many wonderful thoughts were advanced from the lesson by the different teachers. At 11 the text from Matt. 26:7—"The Alabaster Box" was discussed by the pastor. From this we learned that anything done for the glory of our Creator will return as a blessing to humanity; even though he who does it be the object of criticism. We also learned that many precious lives are being wasted because they are not poured out for the glory of God.

Y. P. S. C. E. at 7 p. m. was good. Many splendid addresses were given from the Psalm . Preaching again at 8 p. m. by Rev. Anderson, who brought a message from Zech. 13:6, and we closed the day with much joy. Next Lord's Day Mrs. Dr. Somerville, returned Missionary, will lecture at 8:30 p. m., do not fail to hear her. A good program is planned. You will enjoy it all. Good music.

CHRISTIAN CHURCH
33rd and Hooper Ave.
Rev. F. M. Mitchell, Pastor

We had wholesome and inspiring services last Sunday. While the new church edifice is in cource of conerection, the services have consisted mostly of devotions. Next Sunday, November 11th, the morning service will be held in the new church, although it is not yet completed. The date of the formal opening has been set for the first Sunday in December.

In the meanwhile, we are not holding evening services. The Pastor and members are visiting other places of worship.

WEST SIDE MISSION A. M. E. CHURCH—
West 36th St.—1509
Major G. W. Prioleau, Pastor

Splendid services at the Mission on last Sunday. The S. S. was well attended and order was excellent, the offering was above the average.

The eleven o'clock service was conducted by the pastor, assisted by Rev Gantt, Confreence Evangelist. The pastor preached to a very attentive audience, many visitors were present. It is a treat to have a visiting minisited who comes to worship and not to criticise, down at the "big gate."

Thirty-two children were present at the Junior A. C. E. League, subject: Children of the Philippines. This lesson was represented by four members dressed in Philippine costume and an interesting talk by Mrs. Gladden and Mrs. Prileau who spent two years among them. The children were delighted.

The evening service called laymen's night was well attended, the chief speakers were Dr. Somerville on his travels to the West Indies and return; it was a treat to have heard him, the splendid audience sat spellbound as he took them from America to Jamaica. Many things told were as a revelation to us all. He was followed by Prof. Aaron Malone of Poro College, St. Louis, Mo. These philosophical truths which he hurled out in great churches will never be forgotten. Prof. Malone and Dr. Somerville are pleasing speakers.

The offering for the day was very good.

WARD CHAPEL A. M. E. CHURCH
1262 East 28th Street
S. R. Guy, Pastor

We had good services at this church last Sunday. Sunday School was conducted by E. A. Daniels, Supt. The morning services were General Class and Sacrament, which was wonderfully attended with spiritual power. Two persons came forward and united with the church.

Both Endeavors were interesting and instructive. At night the pastor spoke from the text, Seek ye the Lord while He may be found, Call upon Him while He is near.

Revs. Bryant, Redden, Hartnet and a goodly number of other visitors attended the morning services, and a number of visitors were present at the night services.

Next Sunday will be Trustee Day. Come and help us.

HAMILTON M. E. CHURCH
E. 18th and Naomi Avenue
Rev. S. M. Beane, Pastor

Sunday services were well attended, and much enjoyed on last Sunday. The pastor preached at the morning and evening hours, sermons that flashed, delighted, and edified those present. The Communion of the Lord's Supper was administered.

Sunday School and Epworth League were well attended, and much enjoyed.

Revival services will begin on Wednesday evening, November 14th. The pastor will be assisted in these services by Rev. Lewis, the singing evangelist. You are cordially welcome to attend each and all of these services.

You will always find a cordial welcome. Come and see.

WESLEY M. E. CHURCH
8th and San Julian Sts.
Rev. A. P. Shaw, Pastor

Sunday broke all record but one in the number of communicants at our great church. The pastor preached great sermons both morning and evening and six persons united with the church during the day.

This Sunday promises a feast of good things. Baptismal services will be held for all candidates for baptism. The pastor will preach a special sermon to the officers at the morning hour and you will miss a great treat treat if you fail to hear his Armistice Day sermon at the evening hour on: "The Need of the World Today."

The Revival fires continue to burn on our altars. Come where a real service of worship awaits you and a living gospel is preached. Come and see.

PHILLIPS CHAPEL C. M. E. CHURCH—
1406 Newton St.
Rev. R. W. Underwood, Pastor

Sunday last was Quarterly Conference Day. Rev. W. B. Butler, D. D., Presiding Elder preached morning and evening. He preached two excellent sermons.

International Songster

Rev. Lewis ,the International Songster is doing the singing. He sang several gospel songs. The door of the church was opened and 14 persons joined the church. Rev. Lewis is truly called to win souls for Christ. The pastor and members are quite jubilant over the success of the meeting. Some fifty persons have been saved during the few evenings' services. Come out Monday evening and hear Rev. Lewis' famous address "Stay in the Pan." Don't miss this address. He will sing Sunday morning and evening. The pastor will preach. Prof. R. M. Mitchell and the Choir will also render some special selections Sunday. Don't miss these services.

PHILLIPS CHAPEL
C. M. E. CHURCH
Rev. D. C. Carter, Pastor

The pastor occupied the pulpit both morning and evening. Had a record attendance all day. Evening services were preceded by the Epworth League; Topic, "Know that the Lord is Good", discussed very forcibly by Mr. Henderson and Rev. Ball. The pastor preached in the evening, his subject, "Watch", was beautifulll outlined, and a driving force to all who had the pleasure to worship there. Mr. Frederick Clark sang "The Kingdom Eternal", in that mellow baritone voice that melts your heart. The choir rendered excellent song service.

The Three Night Entertainment given by the Choir and Janitor's Club was a decided success. First Night's Prize of $5.00 was won by Elizabeth Brunson. Second Night's Prize of $5.00 found by Bernice Stout. Wednesday Night the Hallowe'en Party and a prize of Five Dollars will be given then.

TRINITY BAPTIST CHURCH—
West 36th St. and Normandie
Rev. J. A. H. Eldridge, Pastor

Sunday School largely attended. Morning service was given over to regular monthly covenant meeting. The testimonies of the saints were inspiring and uplifting. B. Y. P. U. was up to the standard, Sister Francis Spikes as president is still leading effectively. The pastor filled the pulpit in the evening, taking his text from John 14:15. If ye love me keep my commandments. The sermon was fully enjoyed by all, after which the Lord's Supper was served. The attendance at both morning and evening service was good as usual. A hearty welcome to all.

SECOND BAPTIST CHURCH—
740 Maple Avenue
Rev. T. J. Griffith, Pastor

Sunday was a glorious day in Zion —Sunday School well attended; the lesson on temperance ably discussed by the historian, Miss Mary Banks. Pastor filled the pulpit morning and evening. Subject at 11 o'clock, "Son Remember," Luke 16:25. Three additions to the church. In the evening the pastor preached from the 28th chapter of Deut. 1st verse, baptising and communion. Truly the spirit was manifest in the old church. The Choir is preparing for Sacerd Concert the 3rd Sunday night in November. The Feast of the Seven Tables was a glorious success. The B. Y. P. U. is doing nicely; we are asking more of the yuong people to come out and take an active part in the work; it is yours to make it what it ought to be. The sick of the church are improving.

Strangers are always welcome within our gates.

THE NEW TABERNACLE BAPTIST CHURCH
Cor. 27th and Paloma Streets
Rev. L. B. Brown, Pastor

The pastor has returned to the city and will be in his pulpit Sunday, 11 A. M.

The Sunday School is doing a great work in our modern Sunday School building. More efficient teachers are being sought. Madam Maddox is in charge of our Choir and things are moving up in music lines. She was Chorister from Union Baptist Church of Chicago, Ill.

B. Y. P. U. is in fine shape under the efficient leaders, Rev. Johnson and Rev. N. G. Pitts.

NEW HOPE BAPTIST CHURCH
1623 Paloma
Rev. A. Lively, Pastor

Sunday was a red letter day. Services were seemingly the best of the year. The spirit was certainly present during the covenant meeting in the morning. There was full attendance of the choir in the evening and the singing was excellent. The soloist for the evening was Mrs. Curry. The sermon on the "Last Supper" was indeed touching. A large audience was in attendance. The pastor, Choir and congregation will motor to Watts, Sunday afternoon, Nov. 11th to assist in the rally being held by the Rev. A. P. Ramsey.

Special music is being prepared by the Choir for services Thanksgiving morning at 11 o'clock. The Christmas Cantata, "Christmas Adoration" is also being prepared for Christmas morning at 5 o'clock.

A cordial invitation is extended you to attend New Hope.

METROPOLITAN BAPTIST CHURCH—
37th and Paloma Streets
M. C. Carter, Pastor

Those who visited Metropolitan, Sunday A. M. feasted upon the sjiritual message which fell from the lips of our pastor. His text was taken from Acts 1:8—"But ye shall receive power, after that the Holy Ghost is come upon you and ye shall be witnesses unto me both in Jerusalem and in all Judea, and in Samaria and unto the uttermost parts of the earth."

The morning soloist was Rev. Gibson who sang with feeling, "Leave it There." The usual foreign mission offering was taken.

At the B. Y. P. U. our own Rev. I. N. Whittin a bible scholar of no little fame illustrated the morning text showing the itinery of the Apostle Paul and others carrying the message Samaria and unto the uttermost parts from Jerusalem in all Judea and in of the earth.

The evening services were marked with the usual religious fervor and Hallelujahs that characterizes our covenant meetings. There were three accessions to the church; one for baptism.

The pastor will fill the pulpit Sunday A. M. His subject will be "The church." Miss Bessie W. Simon, Directress of the Industrial Settlement Home of Memphis, Tenn., will also speak at the morning services.

Metropolitan is looking forward to a great service on Thanksgiving Day. Dinner will be served by the Missionary Society. A cordial welcome awaits all.

BETHEL BAPTIST CHURCH NOTES

Bethel Baptist Church opened fire on the devil with Revs. D. C. Knox and D. H. Holder in charge, assisted by Miss Lizzie Bovier, Gospel singer and vangelist, and Mrs. M. C. Knox. The revival is to last three weeks. The public is urged to attend these rousing meetings, where eloquent preaching and splendid music will be featured.

The financial report of the Pleasant View Baptist Church it typical of what any church should aspire to make in the way of a showing, if desire to gain more prestige with the public.

BETHEL BAPTIST CHURCH
Y. M. C. A.—9th and Hemlock Sts.
Rev. H. D. Prowd, Pastor

Our Sunday School was attended with interest and encouragement. At the 11 o'clock service Dr. Prowd preached from Isaiahm 45:24—"Look unto me and be saved all ye ends of the earth." The Savior was lifted up and all enjoyed the message. The B. Y. P. U. session was delightfully helpful and the discussion on the subject was spirited. The sermon at night from the words—"I will look unto the Lord for He shall save me," were most instructive and comforting. One joined the church at the close.

This Sunday we have special messages in reserve for you—Come and hear them. The Lord's Supper will be observed at night. Come praying.

SECOND A. M. E. CHURCH AT FURLONG TRACT HAS WIDE-AWAKE LEADER

Rev. J. E. Fletcher, the new pastor at the Second A. M. E. Church, Furlong Tract, is a live-wire, and "progress" is the watchword. And under his leadership, the good work of Rev. House, who formerly held this church is not only being carried out, but new features added, which will bring forth the best of results for this church.

Rev. Fletcher is determined to leave no stone unturned which will tend to keep the church up to the highest possible standard, and the members and officers are standing squarely behind him.

CHRIST TEMPLE CHURCH—
Cor. 37th and Naomi Sts.
Elder C. P. Jones, Pastor.

Services at this place were held at the usual hour Sunday. The church has taken on new life since the return of the pastor two weeks ago, and the faithful ones are determined to do more for the Master than ever before.

Sunday School began at 9:45 a. m. with a fair attendance. Many beautiful practical lessons were gotten from the World-wide Prohibition lesson, which shall forever remain in the hearts and memories of those who gave the lesson a thought.

At 11:20, Pastor Jones delivered his morning's message from Rom. 14:13, 14. Text: Let us not therefore judge one another any more; but judge this rather, that no man put a stumbling block or an occasion to fall in his brother's way. I know, and am persuaded by the Lord Jesus, that there is nothing unclean of itself; but to him that esteemeth anything to be unclean, to him it is unclean. The Holy Spirit directed every word spoken by this man of God, so that at the conclusion of his message, every true hearer was fully convinced that the children of God are no more under the law as children of the bond-woman; but are made free through the blood of Jesus. Everyone present who knew how, was given the blessed privilege of feasting on the word.

At 7 o'clock p. m., held a good meeting and rendered an interesting program. At the close of the Young People's meeting, 20 minutes were given to testimonies in which many expressed their love for Christ. The Pastor then gave his evening's message from the text: And hope maketh not ashamed; because the love of God is shed abroad in our hearts by the Holy Ghost which is given unto us. Rom. 5:5. All returned home glad of their privilege to go unto the House of God. Many visitors attended every service.

A three-weeks series of meetings will begin next Sunday evening. Everybody is cordially invited to attend.

DETECTIVES STEVENS, BROADY KIMBROUGH RENDERING GREAT SERVICE IN POLICE DEPARTMENTS

Playing well their part, Lieutenant Stevens, Broady and Kimbrough figured prominently in the apprehending of major criminals during the past week; capturing a trio of fictitious check passers, when they put behind the bars, W. B. Gray, 711 Central Avenue, John Chiles, alias P. J. Wright, and another suspect.

Among other crimes committed by this gang of bad check men, was that of a swindle put over by representing themselves as foremen for the S. H. Simpson Contracting Company. They wen to R. H. Dunston, the well-known transfer man at 8th and Linden St., had him to make out numerous checks for various amounts and even had the checks perforated, and then would sign and pass them at different stores on making small purchases. Mr. Dunston was an innocent party, thinking that he was performnig a courtesy for a well known business firm.

Also John Allen, another of a gang of automobile thieves, two Maxwells and a Monroe auto were captured. Also Murphy Williams, who participated in the killing of a grocer at Bell Station, by Lieutenants of Detectives Sterns and Broady.

Two other members of the grocer murder gang were caught near Del Monte, by the deputy sheriff's making a clean up of this murder gang with the exception of James Warmley. The captured ones were Joe Petrocia and Sugar Baby, all colored.

NEW YORK HOUSING HOGS EXPLOIT NEGRO TENANTS

(Lincoln Service)

New York, Nov. 8—With the "black belt" expanding southward, landlords are supplanting white tenants with colored at double rents, protestants of both races complained to the State Commission on Housing and Regional Planing. It is said that 705,612 persons in New York City are without adapuate places of abode.

"How can the colored people pay twice as much as the whites?" asked a member of the commission. Joseph D. Flynn, representative of the West Harlem Tenants' Association gave as his answer that the landlords of white tennanrs to leave by not keeping up repairs, boosting rents or offering bonuses to move. Then the appartments are filled with colored tenants at twice the former rental rates. These tenants, Fylnn asserted, were herded into rooms, as many as fifteen to an apartment, sleeping on double and triple shifts and rendering to the landlords always double and sometimes triple his former rental returns.

ZEMANSKEY BROTHERS PRINCE OF MERCHANTS

For a number of years this paper has carried the advertisement of the United Loan Company, 517 South Main Street, which is owned by the two Zemanskey Brothers, as well as another store at Sacramento. This firm specializes in high-class jewelry, musical Instruments and loans. They deal strictly on business principles, and cater to the people. Accommodating, courteous, and generous to a fault, they have been among those who have made it possible for The Eagle to soar. We have had the privilege of figuring on huge jobs of printing, and have for years had them among our patrons. They freely admit that a goodly share of their trade comes from our group, and they appreciate to the extent that they never hesitate to encourage our enterprises, and without solicitation, we take this means of expressing aur appreciation for their support.

LODGE AMALGAMATION

Scottish Rite Masons, there will be a Special Grand Lodge Session held at lodge hall on Central Avenue at Adams Street, November 9th,10th, 12th, for the purpose of amalgamating the Most Worshipful Alpha Grand Lodge and the Hyram of Tyre Lodge. The work has been accomplished, and they will soon be rejoicing with one strong voice.Now that they have come together, let us hope that they will ever stand together with all the success of the Ancient Free and Accepted Masons of the State of California.

SOUTH CAROLINA GIRL GETS EXCLUSIVE RECORDING CONTRACT

Last week, Miss Josie Miles, who hails from Summreville, S. C., was signed up by the Star Piano Co., of Richmond, Indiana, as an exclusive singer of "Blues" for the "Gennett" records. All of which means a great deal when you know that prior to a week ago Miss Miles had never warbled her melodious voice in a recording horn and is the first Race artist to be signed up to sing exclusively for that company.

On the recommendation of Jos. M. Davis, under whose direction she is now working, Miss Miles made a test for Gennett and was immediately offered a tempting contract calling for forty "Blues" numbers during the twelve comnig months.Two days following the signing of the contract Miss Miles made "Baby's Got the Blues" and "Kansas City Man Blues," which will be released shortly.

Although Miss Miles never had and recording experience, she isn't an utter stranger to the public, as she was quite a favorite with the "Shuffle Along" company, which enjoyed long and prosperous runs ni New York and other big cities.

Veteran phonograph men who have had the pleasure of hearing Miss Miles' maiden record predict she is a real find and that she will be a sensation within a few months.

STATE OF GEORGIA ORIGINALLY PENAL COLONY

London, Eng., Nov. 8—A tablet brought to light in removing the bones of Gen. James E. Oglethorpe, founder of Georgia, , from Craham, England, to that State, says: "About 700 felons, rendered strangers in their own country by long confinement in prisons, were conducted by Oglethorpe to America in 1782, thus forming the Colony of Georgia".

GREAT INCREASE SHOWN IN BIRD BANDING WORK

Since July 1, 1923, over 12,000 birds have been banded by the Biological Survey of the United States Department of Agriculture or by its voluntary cooperators in bird-banding studies. The large increase in the number of bands used, which amounted to more than one thousand per week during two of the least active months for this work, indicates a rapidly growing interest in the study of migratory birds and their habits. During the fisca lyear wh dnehidec thm ing the fiscal year which ended June 30, 1923, more than 25,000 birds were banded, a decided increase over the approximately 6,000 banded in 1922.

At the present date about 1,200 returns from banded birds have been reported. This is considered by the Biological Survey a very good percentage. The greatest activity in banding is in the upper Valley, on the Pacific and North Atlantic coasts, and in the great Lakes region, before the ducks and other birds take flight for the South. Ducks are banded exclusively at seven stations. There were 850 permits for banding work issued by the United States Department of Agriculture up to September 22, 1923.

Returns from banded birds are expected to throw light on such questions as to how fast, how far, and how long individual migratory birds fly in their trips; whether or not one floch leads all the others continuously or whether flocks pass over one another in alternate periods of rest and flight; whether the same routes are always followed, with the same stop-overs for feeding; the relation between the breeding and wintering grounds; where the birds go that do not return to the vicinity of their original nests; and how long birds live.

EARTHQUAKE RECORDS AID IN TIDAL WAVE WARNINGS

While seismological or earthquake records cannot be used directly in predicting quakes, they have other practical uses. When these records are collected and studied they throw a great deal of light on the nature of earthquakes generally, and it is conceivable that at some future time this information may lead to successful methods of prediction.

In one way, hover, which is illustrated in the practice of the Hawaiian VVolcano Observatory, conducted by the weather Bureau of the United States Department of Agriculture, seismological records are of immediate practical utility. Severe earthquakes within oceanic areas frequently are atended by so-called tidal waves. There may be an interval of many hours between the occurrence of the quake and the arrival of the destructive oceanic wave at any given place. When a violent earthquake appearing to have occurred in the Pacific Ocean is registered at the Hawaiian observatory, the officials send out a warning by cable or otherwise to the regions likely to be affected by the accompanying tidal waves, so that the people may not be caught unprepared. This service is said to have resulted in a great saving of life and property.

ADOPT FEEDING-PROBLEM SHEET

In connection with the drive for the better feeding of livestock which is being conducted by various States and the United States Department of Agriculture, the department is now distributing to county agents and extension workers of cooperating States copies of the new feeding-problem sheet which is the basis of the work. This sheet provides for a brief outline of the problem. There is a space for comments and recommendations of the county agent. The information desired is then furnished by the State agricultural college, to which the blank is sent, or by the United States Department of Agriculture. As a rule the states will answer questions relating to conditions within their own limits, while the department will give information on problems of a more general character or those on which it is conducting special investigations.

FORRESTRY ADVISORY COMMITTEE NAMED

Twenty leaders in the American Pulp and paper industry have been asked by Secretary of Agriculture Wallace to form an advisory committee to work with the United States Department of Agriculture in formulating and carrying out its forestry policies which relate to the supply and use of timber in making paper and kindred products. Among the activities of the department closely concerned with the pulp and paper industry are the research in pulp and paper making conducted at the Forest Products Laboratory at Madison, Wis., forest research in the growing of timber crops now under way at various forest experiment stations, and the development of Federal and State policies for the production of timber upon the country's forest lands. It is thought that the creation of an advisory committee of men in and paper industry will be beneficial in dealing in a searching and practical way with the fundamental problems of the industry.

RECEPTION GIVEN COMPLIMENTARY TO THE MALONES MAMMOTH AFFAIR.

The reception on last Thursday at the given in honor of her sister by Mrs. W. M. Cooper was a mammoth affair and from 3 to 9:30 o'clock the guests came and paid their respects. The decorations were declared to be the prettiest possible and everything went off in a most splendid way.

The ladies wore gowns of the latest creation and the service by those assisting Mrs. Cooper was commented upon for its par excellence.

My Friend Recommended You to Me.

Nine persons out of every ten who come into my office write or call me by phone for appointment, greet me with the six following words: **My Friend Recommended You to Me,** and I appreciate those words beyond expression, they mean more to me than all the gold in the world; for those words show the confidence that reputable citizens have in me and in my business methods. They more than repay me for the effort and hard work that I put forth to save my clients money and worry. I have striven to make a friend out of everyone whom I have had any business dealings with, and those words assure me that I have succeeded. There is not enough money in the whole world to tempt me, or cause me to betray the confidence reposed in me by my clients and I believe that everyone of my clients has sent his or her friend to me. To those seeking homes, or other property, may I serve you? A few of my special prices and terms:

BANKERS URGE BUILDING FOR RECORDER FROE

Washington———Declaring that the public interest of Washington demanded that the crowded, unsafe condition of Recorder Arthur G. Froe's office be immediately relieved, the District Bankers' Association went on record with its support for a new $500,000 building to adequately house the priceless records under the Recorder's care. The resolution says that the danger to which these records are subjected in case of fire or otherwise, a hazard which the people of the city would be compelled to assume, would take on the aspects of an irreparable character. Mr. Froe has fought valiantly for enlarged facilities, and has secured the unreserved cooperation of President Coolidge, who suggested the inclusion of the building in a proposed program.

JEALOUSY OF MISSIONARIES BEWILDERS NATIVE AFRICANS

(Lincoln Service)

London, Nov. 8—Setting forth the depredations committed upon peoples and crops by lions, elephants, and other wild beasts, a report from Africa, released by the Colonial Office, also refers to the deleterious effect that rivalry between the missionaries from various organizations is having upon the natives. "It is greatly to be regretted," runs the report, "that a spirit of rivalry has manifested itself in certain districts between Christian missions of different denominations. It arises from a very natural and sincere belief in the superiority of that branch of the common faith, which it is their duty and pride to teach to the heathen, but it often results in an undignified competition. This open display of religious differences cannot react but to the damage of the Christian faith.

"Missionaries, by offering one doctrine here, another close by, and still another a few miles away, achieve little more than the complete bewilderment of the pagan native, and unless these organizations can get together at least to the extent of establishing spheres of influence, the natives will eventually turn to their idols, upon the assumption that they do at least agree with each other."

COULD ENFORCE PROHIBITION BUT NO LAWS FOR LYNCHING

Washington, Nov. 8—At the exact moment that Senator Carter Glass, of Virginia, was inveighing against Congressman Hill, of Maryland, for violation of the Volstead law, in permitting wine to ferment in his cellar, a Negro named Carter was being taken from the Virginia authorities, near Richmond, to be lynched.

Senator Glass was speaking before the Citizenship Conference, in session here last week, and said: "If Congressman Hill was in Virginia, I would find an officer who would arrest him if he allowed wine to ferment in his cellar or his parlor either. In Virginia we teach respect for the law by punishing its violators, and that is why Virginia is a law-abiding community."

If what the Senator was saying was literally true, probably Carter, who was accused of attacking a white woman, might have had a trial by jury in order that the facts could be disclosed, instead of displaying that the Virginians would rather take a life than take a drink.

CAMPAIGN GETTING HOT
(Continued from Page 4)

the race. Altogether a list of $4,000.00 in prizes will be distributed absolutely free among the candidates who hustle the most—and the next few days will practically decide who the big winners will be.

Big Interest Being Shown

The public mind is being largely centered on the outcome of the race. Nearly everyone has his or her favorite candidate who is striving to bring honor to the many friends he or she represents as well as to gain a mammoth personal reward. In some cases the entire neighborhood and city seems to have risen to the occasion, determined to see that their favorite comes out ahead.

FALSE STORIES

It is no doubt natural, with such intense interest being shown in The Eagle's great race, that some candidates and friends of contestants would discourage others by circulating rumors more ingenius than accurate. One hears all sorts of stories. But the tales that are heard are so highly embellished with frills, so utterly inconceivable, that their untruthfulness is apparent. These exaggerated stories are deserving of no consideration, and the wise candidate is too busy getting votes to listen to them, let alone being influenced by these "wild reports."

SACRAMENTO

The Exodus is showing its effects here. Almost daily new arrivals are putting in their appearance, some stay, others go, and housing conditions here are becmoing a problem and the tragedy of it all is that there is not a first class rooming or apartment house controlled by us. The red caps at the stations are put to their wits ends to try to assist those who seek location. Almost weekly some woman or girl must stay around the station for hours, sometimes all night until some place can be found for her to stop. The folk who have good homes don't take anybody and those that don't have good homes can't. Then somebody says they can stop at any of the hotels or rooming houses—sure they can if they have money enough to push their case through, but where will they stop while hey push the case. That reminds me of some people's thinking about preachers that live here and board in heaven, but the thing we are here discussing is that something must be done and that shortly for the housing of colored people.

You can't rent, neither can you buy—that is, except where the real estate association wants you to—and yet we go on in this slip shod way, looking for "George to do it," instead of poling interests and backing someone or doing something for the good o fus all here.

Real estate values are soaring higher and higher, the town is in the midst of a period of prosperity and we sit asleep at the switch—while the Star Real Estate Co. has nothing to do, the company that should be increasing in its volume of business so as to employ some of our own boys and girls.

Our business enterprises here consist of a barbershop and two restaurants, a recent real estate office. No doctor, no dentist, no attorney, no apartment house, no lodge building—but four prosperous lodges and four auxiliaries, all meeting in rented buildings—no not even one ice cream parlor nor a root beer stand. Yes, we have a good town, a fine people, but we are facing new conditions that require new methods and new thinking and real leadership.

The Allen C. E. League, had its social committee at work on Hallowe'en night at the church and a bushell of fun was had. The prize winners for the best mask were John Evans, Harry Slaughter, Helena Harper and little folks Lucy Elba Greer and Lois Margaret Hughes.

Robinson, who for the past three years has been its director and who recently resigned on account of her health. Mrs. Earl Gray made the presentation speech and presented Mrs. Robinson a beautiful piece of bronze statuary called the "Fascinator," which was very appropriate as it represented a young musician fascinated with the beauty of his music. Light refreshments were served.

Mrs. Fred A. Hughes was one of the speakers Tuesday at the all day missionary meeting of all the societies in the city at the Oak Park M. E. Church.

Rev. Melrose Goda Sishuba, a native of Queenstown, South Africa, will give a stereoptican lecture at St. Andrews Church, Tuesday evening, Nov. 13th.

The Trip Around the World which was given by members of the Second Baptist Church and conducted by Mrs. Nettie V Jones last Monday evening was ahowling success. It has been many a day since such a jolly party was given. Leaving Redlands going as far as France and then returning to all the other countries and being served at each stop, everyone felt pretty full when they had returned home. The trip was made by auto and when it was over some wanted to know when we would make the trip again.

A message comes to us from Mr. and Mrs. J. H. Johnson of Somerton, Aris., formerly of this city, that they are doing well and send hello to all their friends in Redlands.

Sunday will be a big day in Second Baptist Church. Big Rally on and all day services.

A glance at the vote totals will show that a few subscriptions for any candidate will make a new leader in the race. In fact, ENTIRELY NEW candidates could, by a little easy effort, climb to the the top of the list and acquire leadership for the $1,795.00 Reo Phaeton Six Automobile.

And, when one takes into consideration the value of the prizes to be awarded and the extremely short time the campaign is in force, these rich rewards are worth any effort that might be required to get them. Intense, though suppressed, excitement prevails among the candidates who are competing in The Eagle's grand campaign, as each one realizes that he or she is within reach of a prize worth $1,795.00—all to be won or lost within the next few days.

Success depends almost entirely upon the supreme efforts of the candidates NOW while the BIG VOTE days are in effect. For in a very short time, The Eagle's "Everybody Wins" stupendous gift election will come to a close and the beautiful $1,795.00 Reo Phaeton Automobile and hundreds of dollars in money will be distributed absolutely free to the participants.

The "First Period" BIG VOTES come to a sudden close in just 10 more days.

In addition to that, 100,000 EXTRA VOTES are allowed on every $25 in subscription turned in.

Just three 3-year subscriptions would give you 225,000 votes and one 4-year subscription would give you 140,000 more votes, making 365,000 votes. Besides this you get 100,000 EXTRA VOTES, which make a grand total of 465,000 votes—away ahead of the others.

Surely you have four such frineds who would help to put yourself in first place toward winning this beautiful $1,795.00 Reo Six Phaeton. Try it and see. In fact, ENTIRELY NEW candidates, with no votes at all to their credit at this time could, by a little easy effort, climb to the very top of the list.

Out of town candidates are cautioned to get all of their subscribtions in the mail post marked not later than 9 o'clock, November 17h in order to get credit for the "BIG VOTES" Contestants located in Los Angeles may turn in their subscriptions and votes at the Eagle office up to 9 o'clock P. Life is compared as a little wilderness, surrounded by a high dead wall. Within this space, we muse and walk in quest of the new and happy, forgetting the insuperable limit, till, on another side, we find ourselves stopped by the dead wall; we turn away and muse and walk again, till on another side we find ourselves close against the dead wall. Whichever way we turn—still the same.

Christianity is the same amid the various and changing evils of the world. It is most consultory to reflect, that religion, like an angel wlaking among the ranks of guilty men, still untainted and pure, retains, amid all these black and outrageous evils, the same benign and celestial spirit, and gives the same independent and perpetual pleasures. The happiness of the good seeks not the smile of guilty power nor dreads it frown.

We are pleased so far to be among the number to uphold Chief Vollmer's hands in all his efforts to maintain law and order.

The City Council will do well to give the proposed lease of beach front to Titus Alexander to the end that there will be a widening out of space for the people to enjoy themselves upon the beach.

We are pleased to note that we have such wide awake, progressive and Christian Ministers as the Rev. Major G. W. Prioleau, who retired with the rank of Major some two years ago. He was not satisfied to be retired, but wished to be of continued service and reared up a wonderful edifice on the West Side, doing great work for the Master. March on, Major Prioleau, march on!

MUCH ADO ABOUT NOTHING.

Such scenes as enacted at the City Hall on last Tuesday before the Police Commission when the permit of J. L. Arnold for a Dance Hall was opposed will not get anybody very far in the struggle for advancement.

In the first place, the thing asked for was not of such proportions as to call for any great hub bub and pyrotechnics. Arnold had a perfect right to apply and the Civic League had a perfect right to oppose the granting of the permit. And an organization standing for the principles as vouchsafed in the constitution of the same would most certainly carry more weight than the effort of one man and the application would be denied.

But it seems the applicant, grasping at the proberbial straw, made a significant remark that all permits had to be paid for that were granted by the Commission. The Commission wanted to know something about this; Arnold was pressed, could not come through and the matter was referred to the Chief, and the daily press, in order to carry on its propaganda against Central avenue, gives the story front page position and headlines as big as a box car.

SUNDAY FOR HOUSTON HEROES.

It is well that through the efforts of the N. A. A. C. P. that Sunday has been designated and will be generally observed by the people of our group as Houston Martyrs' Day. Prayers and petitions will go forth in behalf of the commutation of the sentence unjustly imposed upon these men, who in defense of honor, were sent to prison by a prejudiced court. We hope our people realize their duty toward these soldiers. You are not asked for money or other than to bestir yourselves to the extent of signing a petition and sending it to headquarters of either the local or national N. A. A. C. P. Whatever you do be sure and sign one of the petitions.

THE BEACH RESORT.

For many moons Titus Alexander has tried to prevail upon the city officials to lease to him a 200 foot of beach property near El Segundo, joining Hermosa Beach, but owned by the city of Los Angeles. The same was looked upon favorably by the Board to which the application was made. It was favorably reported to the Council, and just at this time it seems the Ku Klux Klan and all other elements of citizenship in and around the beach discovered that if Alexander did get this 200 feet of frontage and make a resort, that it would be segregattion and that segregation was very, very wrong and on this ground one of the protestants argued before the committee that the lease should not be given to Mr. Alexander.

Now, as a matter of fact, Alexander's purpose would be for a resort for the people, he would never draw the color line, even if the law would permit it at any place where he could prevent it.

As a matter of fact the people will be grateful indeed for this added space for recreation and pleasure on the ocean front. Much embarrasment is caused from time to time at the presence of certain groups and they are even denied in places of public, but with the great city of Los Angeles making this lease to Mr. Alexander a resort in due time will be established for the delectation of all the people, regardless of race, color or creed.

And then again Mr. Alexander is a citizen of high repute and what good reason can be advanced against him leasing this particular spot than any other American citizen.

FALSE WITNEESS

Per C. P. Jones

"Deliver me not over unto the will of mine enemies: for false witnesses are risen up against me and such as breathe out cruelty".—Ps. 27:12.

David had experiences that were severely testing ones. By faith alone and the exercise of divine wisdom he stood out under his trials as to go on with God, and he bequeathed to the ages the rich inheritance, the sweet savor, the wondrous beauty of a holy life.

Solomon said to his son, "By wise counsel make thy war".—Pro. 24:1-7. It is because of this that the persecuted man always comes out strong, helpt and blest, while his persecutors perish. He gains wisdom by experience, and in his suffering the pity and mercy and love of God come to his side. Even Ahab, when he puts on sackcloth is pitied of God (Kings 21). Nineveh repents unbeknown to Jonah whose very name "Dove", betrayed the gentleness of his nation, but who wanted badly to see Nineveh destroyed becaure he had said it was going to be, and because he thought it to the best interest of Israel. As long as Pharoah repented he obtained mercy with God and Moses. When a man takes the sword of judgment ni his hand and begins to persecute, mercy rises against Judgment and soon turns his sword into his own heart.

(1) Fulfilment ni Jesus. These prophesies of old were not set forth to merely give the experiences of the writers, valuable as that might be; they were written to describe the sufferings that the Christ went thru to redeem you and me. Jesus is the fulfilment of the scripture, the all in all of godliness.

Our text describes the experience of Jesus, whom, we believe, adore, love and serve to the saving of our souls. "Deliver me not over", that was his cry to God. As a man Jesus was entirely in the hands of his father, to do and suffer what the Father willed. He lived by faith the life of a man. He was delivered by prayer. He delivered us by prayer. He indeed ever liveth even now to make intercession for us. "Deliver me not over to the will of mine enemies". He felt his destinies not to be in his own hands, but in the hands of the Father, God. Since he took man's place, he must leave venbeance to God.

"Enemies". Yes he had them. He had done no sin neither was there guile found in His mouth, yet He had enemies. He was Goodness itself personified, yet he had enemies. He did good wherever He went; He blessed every home He entered, every town He passed through, every community in which He sojourned, yet He had enemies. Meekness, kindness, love, lowliness forbearance, gentleness, long suffering, helpfulness were written all over His face, and in all his movements. Yet He had enemies.

Some enemies He could fight and expose, yet not in such a way as to stop them. He just had to take them to God and run Goh and wait on God for deliverance.

(11) JESUS THE WAY. In thus making His foes an object of prayer and turning them over to heaven, he was showing us how to deal with ours. What is the matter with civilization today? Why does the pot of human affairs boil unceasingly, and why does the skum thereof put out the fires of human hope and love? Why do the hearts of men fail them for looking after the things that shall come upon the earth? Why do the

My dear Neighbor:—

I shall always be pleased to hear from or se members of this organization, and when the committee calls upon me I will be mighty glad to talk to them.

Nov. 6, 1923.

Dear Mrs. Lindsey:-

Many thanks for your kind favor of even date. Ihave just talked with Mrs. Bass, owner and editor of The California Eagle, who says that she will call with her machine, for you Friday afternoon at 2 o'clock, to go to Sawtelle for the information desired by congressman Fredericks.

Mrs. Bass will receive a copy of this note as a reminder of her engagement.

Gratefully yours,
NOAH D. THOMPSON,
Editorial Department.

Nov. 6, 1923.

Noah D. Thompson, Esq.,
Los Angeles, Calif.

My dear Mr. Thompson:-

Through an article in The Eagle I have just become acquainted with the sad condition of the colored soldiers in Sawtelle Home. I am referring to those in War 2.

I am indeed sorry to know that these veterans of the late war are lonely and practically without means of entertainment or relaxation outside a deck or so of playing cards.

Most of these men are, I am informed, sick, numbers have been gassed; others still suffer from shell-shock while some are paralized as a result of their services to their country.

It is my purpose to visit these men in the next few days and get their stories. If any of them are entitled to compensation, which for any reason has been delayed, I have the promise of Congressman John D. Fredericks, that he will personally look after their interests when he returns to Washington. What is now especially needed is a detailed report showing the names of the men; their war records and such data as is available in regard to their compensation claims.

I am certain that the American Legion will aid in securing justice for the disabled soldiers, while I shall myself do what is possible to secure for them a phonograph, and records, as well as other things that may serve to lighten the weariness of waiting. Perhaps cigarettes and some books or magazines might help, and, it seems to me, that your people might form a visiting committee that would cooperate with the Legion.

Any data that you can secure will be of material aid to Congressman Fredericks in securing aid for these neglected men.

VeVry sincerely,
ESTELLS LAWSON LINDSEY
Department Editor

MALONES EXHIBIT MOVING PICTURES. BEACH PARTY AND ACTIVITIES WHILE HERE.

Quite a pleased crowd wended their way home after the exhibition of moving pictures given by Mr. and Mrs. A. E. Malone at the 1st A. M. E. Zion Church on last Tuesday evening. The Beach party was faithfully portrayed in pictures, also the games and various scenes at the Beach. Also pictures of the Cooper home and other homes in Los Angeles. The pictures of friends who came to pay their respects were thrown upon the screen.

These pictures will be shown thruout the country and the people were much pleased that Mr. and Mrs. Malone gave to them an opportunity to see these pictures before going abroad.

A gay bunch of young folks including Misses Cornetta Camol, Florine Williams and Mr. Fred Wilson were the guests of Miss Theodora Jones of the Exclusive Beauty & Art Shopee during Hallowe'en.

The party danced at the Majestic Dancing Academy, dined at Morton's Grill and motored out to the Old Plantation. To our surprise the rest of our party was there—the Misses Sarah Evans, Mattie Davis and Edna Turner.

WOMEN'S DAY, SUNDAY, NOV. 18th, AT INDEPENDEN T CHURCH

What is Man that Woman Should be Mindful of Him?

A mere creature who is unable to find even his collar button, without the assistance of his wife. Every achievement, accomplishment, and height of fame that has been attained by men, has been reached through the influence of awoman. He publicly admits that all he is or ever hopes to be, he owes to the influence and encouragement of his mother, or his wife; but never to his father or his brother. She is the unseen power urging him upward and onward. She rules the world .Men and beasts bow before her. She is sweet as the fragrance of the flowers that bloom. Her love is so great, that it is the nearest living symbol that men refer to, when trying to portray the Savior's love. Yet she possesses an undaunting faith, and a determination as strong as the rock of Gibraltar. Through her strong determination she crushes opposition. Arriving at the tomb of the Savior, while man cowardly gave up hope, she was first and Jesus was forced to send her with a message to his desciples, men whom he had trusted, loved and lived among during his lifetime. They had forsaken him .Man betrayed, denied, doubted and abused the Son of God, but woman believed, trusted and loved on with an undying love and a hope that shone as bright as day. From infancy man has trusted her to guide his trembling feet and show him the way. She has guided and will guide him on to the end. Is there a place in God's Holy Word recorded, where woman has forsaken, denied doubted, abused and betrayed the Son of God? As she was true to the Savior, as she is the purest and truest being that man has to lean upon, so will she be true to her trust, when she promises the city of Los Angeles that one of her number will unveil the great Twelve Thousand Dollar Pipe Organ of the Independent Church.

O! Woman with a soul as beautiful as the sunrise,
A love as pure as the sparkling drops of dew,
A heart as true as gold, a faith that never dies,
For comfort and care of His children God depends upon you;
Laboring for Him may you ever be loyal, faithful and true.

ARNOLD DENIED PERMIT TO CONDUCT DANCE HALL

J. L. Arnold, not Ralph Arnold, was on last Tuesday, denied his application to conduct a dance hall at 9th and Central Avenue, by the police commission. This was not accomplished however, without the washing out of a whole lot of dirty linen, and the usual clash of arms when these proprietors came up before the Board.

Citizens Civic League Opposes Proposition

The chief protestan tgaainst granting the permit was the Citizens' Civic and County League, of which H. Douglass Greer is the President, and R. G. Lamar is Secretary. And it is said they protested on the ground that the applicant was not qualified to conduct a dance hall. And further, that the location was not a proper place. They brought before the Commission Court Records, affidavits, etc. to establish their claim.

The applicant stated that he had in the past, paid money to procure a permit from the County to the Secretary of the League. On being questioned, however, it was plainly brought out that he had only paid for being represented before the County Welfare Commission.

Quite a furore was created over this trivial affair, and much was said pro and con that might just as well have been unsaid. The application for the permit was denied, and passed up to the chief of police for investigation as to who was selling permits.

CAMPAIGN NOTES

Candidates Reporting Success

Candidates are reporting that they they are meeting with unusual success in inducing subscribers to extend their subscriptions to three, four, five and ten years. These are the kind of subscriptions that count the most.

No Switching Allowed

Candidates are warned that "switching" subscriptions will not be tolerated, and those who attempt to do so will have ample time—when it is too late—to wish they had heeded this warning. Every single subscription turned into the campaign department will be carefully examined by The Eagle and by the critical judges.

This is a campaign where the "best man or woman" wins—the contestant, who secures the greatest number of votes will win this fine Reo Phaeton Automobile.

Just Two Weeks Left

Just eight weeks remain of the "First Period" BIG VOTES. If you want to make sure of winning, do everything possible in the way of securing subscriptions during these IMPORTANT days.

One $25 "club" of subscriptions will accomplish wonders. But you are not limited to one "club"—you can get two, three or more, so much the better. Every $25 in subscriptions gives you an EXTRA 100,000 votes in addition to the regular votes. Every $25 in subscriptions is worth from 300,000 to 700,000 votes.

Compare the vote standings today. Note the increases and gains on every hand. Then GET BUSY.

Right Now is the Time

From now until Saturday night, November 17th is the time to "dig in" and gather in the votes by the thousands. Remember, Saturday night, November 17th is positively the LAST MINUTE of the BIG VOTE.

These Are The Important Days

The winning votes can be secured between now and 9 o'clock Saturday night, November 17th. And this "First Period" will practically decide who the winners of the big prizes will be. You can't "dilly-dally" with such a valuable prize at stake—you must get busy in earnest and let nothing stand between you and the prize you have determined to win.

You Must Get Busy

The way to win is to pile up the largest number of votes. It takes votes to win—just VOTES. So the larger your vote score the better for you.

"Wishing" won't win for you—you must hustle, and hustle hard.

Big Subscriptions Count Most

The 2, 3, 4, 5 and 10 year subscriptions count most. Get as many of them as you can.

One five-year subscription counts 500,000 votes—four times as many votes as five yearly subscriptions. One ten-year subscription counts 620,000 votes—over four times as many votes as ten yearly subscriptions. On top of this, you get 100,000 EXTRA votes for every $25 in subscriptions.

The candidates who will be most successful in the end are those who make the best showing between now and Saturday night, November 17th.

Don't overlook a single subscription anywhere. The race is so close that one good subscription may determine who will will be ahead at the present BIG VOTE period.

Office Open Evenings

The Calif. Eagle Campaign Headquarters, 832 Central Ave., will be open each evennig until 8 o'clock to receive votes and issue supplies, such as additional receipt books, sample copies, etc.

Remember, to get credit on the present BIG VOTE schedule, all subscriptions must be in The Eagle office not later than 9 o'clock Saturday night, November 17th. In case of out-of-town candidates, all subscriptions that are mailed not later than 9 o'clock, November 17th, will count, even though they are not received at The Eagle office until later.

Mrs. R. M. Banks certainly has a host of friends who say that they are going to push her right up in the lead.

Miss Theresa Young, another real contender, is making some real speed as shown by her vote standing.

RACE GETTING HOTTER AND KEENER FOR EAGLE'S 1,795 REO PHAETON AND CASH PRIZES

The big chance to drive home a victory in The Eagle's $4,000.00 automobile and cash prize race is stirring up a whirlwind of action. Thousands of votes are being cast by the contestants and friends of the candidates. The participants in the race for the $1,795.00 Reo Phaeton Six Automobile are certainly giving a vigorous account of themselves with the result that the vote scores are climbing up more rapidly than at any other time since the campaign began.

It is quite evident that all the contestants realize that extra strenuous effor now will later be rewarded very handsomely. The contestants further appreciate the tremendous importance of getting busy now while the BIG VOTES are in effect as very soon, now, the number of votes given for each subscription will be very materially DECREASED.

"To Win" Is Object

To win a luxurious $1,795.00 Reo Phaeton 1924 Model is the one object firmly fixed in the minds of candidates. It will not be long now until some "live wire" candidate will be riding around the streets in his brand new Reo Phaeton Automobile —a gift from The Eagle as a reward for their ability to hustle.

WHERE TO ATTEND CHURCH

WALL ST. CHRISTIAN CHURCH
E. 9th and Wall Sts.

We enjoyed fine srevices all day last Lord's Day. Our pastor, Rev. F. C. Cothran preached both morning and evening and brought us two most inspiring messages, from God's word—They were uplifting and instructive. May our brother Cothran live long to preach the simple gospel of Christ. Our Bible School continues to grow in interest. The lessons of this quarter should not fail to create a missionary spirit in all who study the lessons in view of the point for which they have been given. We invite the public to come and worship with us. All are welcome. Order of services: Bible School, 9:4454 4A4. M.; Preaching, 11 A. M. and 7:30 P. M.

LINCOLN MEMORIAL CONGREGATIONAL CHURCH—
34th St. and Central Avenue
Rev. E. E. Lightner, Pastor

The Pastor, Rev. E. E. Lightner will preach at the morning service this Sunday, Nov. 11th. Rev. H. B. Quinn, teh Evangelist, will be the speaker at the evening hour. Good music is promised for both services.

The past Sunday was a glorious one with us. Instead of the usual services the Pastor gave an opportunity to the congregation to give expression to the feelings of their hearts before partaking of The Lord's Supper. Many were the expressions of renewed loyalty and allegiance to Jesus Christ and his church.

At the evening hour the pastor gave report of the Los Angeles Association of Congregational Churches which convened last week at Buena Park.

You are cordially invited to worship with us at all times.

BIRCH ST. CHRISTIAN CHURCH
Cor. 14th and Birch streets
Rev. A. W. Jacobs, Pastor

Every department of the church was in perfect harmony with the spirit of the Great World's Temperance, Sunday. It was shown first in the Bible School. Many wonderful thoughts were advanced from the lesson by the different teachers. At 11 the text from Matt. 26:7—"The Alabaster Box" was discussed by the pastor. From this we learned that anything done for the glory of our Creator will return as a blessing to humanity; even though he who does it be the object of criticism. We also learned that many precious lives are being wasted because they are not poured out for the glory of God.

Y. P. S. C. E. at 7 p. m. was good. Many splendid addresses were given from the Psalm. Preaching again at 8 p. m. by Rev. Anderson, who brought a message from Zech. 13:6, and we closed the day with much joy.' Next Lord's Day Mrs. Dr. Somerville, returned Missionary, will lecture at 8:30 p. m., do not fail to hear her. A good program is planned. You will enjoy it all. Good music.

CHRISTIAN CHURCH
33rd and Hooper Ave.
Rev. F. M. Mitchell, Pastor

We had wholesome and inspiring services last Sunday. While the new church edifice is in cource of connection, the services have consisted mostly of devotions. Next Sunday, November 11th, the morning service will be held in the new church, although it is not yet completed. The date of the formal opening has been set for the first Sunday in December.

In the meanwhile, we are not holding evening services. The Pastor and members are visiting other places of worship.

WEST SIDE MISSION A. M. E. CHURCH—
West 36th St.—1509
Major G. W. Prioleau, Pastor

Splendid services at the Mission on last Sunday. The S. S. was well attended and order was excellent, the offering was above the average.

The eleven o'clock service was conducted by the pastor, assisted by Rev. Gantt, Confreence Evangelist. The pastor preached to a very attentive audience, many visitors were present. It is a treat to have a visiting minister who comes to worship and not to criticise, down at the "big gate."

Thirty-two children were present at the Junior A. C. E. League, subject: Children of the Philippines. This lesson was represented by four members dressed in Philippine costume and an interesting talk by Mrs. Gladden and Mrs. Prileau who spent two years among them. The children were delighted.

The evening service called laymen's night was well attended, the chief speakers were Dr. Somerville on his travels to the West Indies and return; it was a treat to have heard him, the splendid audience sat spellbound as he took them from America to Jamaica. Many things told were as a revelation to us all. He was followed by Prof. Aaron Malone of Poro College, St. Louis, Mo. Those philosophical truths which he hurled out in great churches will never be forgotten. Prof. Malone and Dr. Somerville are pleasing speakers.

The offering for the day was very good.

WARD CHAPEL A. M. E. CHURCH
1252 East 25th Street
B. R. Gay, Pastor

We had good services at this church last Sunday. Sunday School was conducted by E. A. Daniels, Supt. The morning services were General Class and Sacrament which was wonderfully attended with spiritual power. Two persons came forward and united with the church.

Both Endeavors were interesting and instructive. At night the pastor spoke from the text, Seek ye the Lord while He may be found, Call upon Him while He is near.

Revs. Bryant, Redden, Hartnett and a goodly number of other visitors attended the morning services, and a number of visitors were present at the night services.

Next Sunday will be Trustee Day. Come and help us.

HAMILTON M. E. CHURCH
E. 18th and Naomi Avenue
Rev. S. M. Beane, Pastor

Sunday services were well attended, and much enjoyed on last Sunday. The pastor preached at the morning and evening hours sermons that flashed, delighted, and edified those present. The Communion of the Lord's Supper was administered.

Sunday School and Epworth League were well attended, and much enjoyed.

Revival services will begin on Wednesday evening, November 14th. The pastor will be assisted in these services by Rev. Lewis, the singing evangelist. You are cordially welcome to attend each and all of these services.

You will always find a cordial welcome. Come and see.

WESLEY M. E. CHURCH
8th and San Julian Sts.
Rev. A. P. Shaw, Pastor

Sunday broke all record but one in the number of communicants at our great church. The pastor preached great sermons both morning and evening and six persons united with the church during the day.

This Sunday promises a feast of good things. Baptismal services will be held for all candidates for baptism. The pastor will preach a special sermon to the officers at the morning hour and you will miss a great treat treat if you fail to hear his Armistice Day sermon at the evening hour on: "The Need of the World Today."

The Revival fires continue to burn on our altars. Come where a real service of worship awaits you and a living gospel is preached. Come and see.

PHILLIPS CHAPEL C. M. E. CHURCH—
1406 Newton St.
Rev. R. W. Underwood, Pastor

Sunday last was Quarterly Conference Day. Rev. W. B. Butler, D. D., Presiding Elder preached morning and evening. He preached two excellent sermons.

International Songster

Rev. Lewis the International Songster is doing the singing. He sang several gospel songs. The door of the church was opened and 14 persons joined the church. Rev. Lewis is truly called to win souls for Christ. The pastor and members are quite jubilant over the success of the meeting. Some fifty persons have been saved during the few evenings' services. Come out Monday evening and hear Rev. Lewis' famous address "Stay in the Pan." Don't miss this address. He will sing Sunday morning and evening. The pastor will preach. Prof. R. M. Mitchell and the Choir will also render some special selections Sunday. Don't miss these services.

PHILLIPS CHAPEL
C. M. E. CHURCH
Rev. D. C. Carter, Pastor

The pastor occupied the pulpit both morning and evening. Had a record attendance all day. Evening services were preceded by the Epworth League: Topic, "Know that the Lord is Good", discussed very forcibly by Mr. Henderson and Rev. Ball. The pastor preached in the evening, his subject, "Watch", was beautifulll outlined, and a driving force to all who had the pleasure to worship there. Mr. Frederick Clark sang "The Kingdom Eternal", in that mellow baritone voice that melts your heart. The choir rendered excellent song service.

The Three Night Entertainment given by the Choir and Janitor's Club was a decided success. First Night's Prize of $5.00 was won by Elizabeth Brunson. Second Night's Prize of $5.00 found by Bernice Stout. Wednesday Night the Hallowe'en Party and a prize of Five Dollars will be given then.

FRIENDSHIP BAPTIST CHURCH—
Watts, California
Rev. A. P. Ramsey, Pastor

We report good services all day last Sunday. The pastor preached on the subject of Prayer.

O nnext Sunday morning, Nov. 11th Rev. W. M. Shipley will preach and at 3 p. m. Rev. A. Lively will preach—his great Choir will sing and his church will also come to worship with us. We will also ordain a deacon—Bro. Brown.

All are invited to come and worship with us.

TRINITY BAPTIST CHURCH—
West 36th St. and Normandie
Rev. J. A. H. Eldridge, Pastor

Sunday School largely attended. Morning service was given over to regular monthly covenant meeting. The testimonies of the saints were inspiring and uplifting. B. Y. P. U. was up to the standard. Sister Francis Spikes as president is still leading effcetively. The pastor filled the pulpit in the evening, taking his text from John 14:15. If ye love me keep my commandments. The sermon was fully enjoyed by all, after which the Lord's Supper was served. The attendance at both morning and evening service was good as usual. A hearty welcome to all.

SECOND BAPTIST CHURCH—
740 Maple Avenue
Rev. T. L. Griffith, Pastor

Sunday was a glorious day in Zion—Sunday School well attended; the lesson on temperance ably discussed by the historian, Miss Mary Banks. Pastor filled the pulpit morning and evening. Subject at 11 o'clock, "Son Remember," Luke 16:25. Three additions to the church. In the evening the pastor preached from the 28th chapter of Deut. 1st verse, baptizing and communion. Truly the spirit was manifest in the old church. The Choir is preparing for Sacerd Concert the 3rd Sunday night in November. The Feast of the Seven Tables was a glorious success. The B. Y. P. U. is doing nicely; we are asking more of the yuong people to come out and take an active part in the work; it is yours to make it what it ought to be. The sick of the church are improving.

Strangers are always welcome within our gates.

THE NEW TABERNACLE BAPTIST CHURCH
Cor. 27th and Paloma Streets
Rev. L. B. Brown, Pastor

The pastor has returned to the city and will be in his pulpit Sunday, 11 A. M.

The Sunday School is doing a great work in our modern Sunday School building. More efficient teachers are being sought. Madam Maddox is in charge of our Choir and things are moving up in music lines. She was Chorister from Union Baptist Church of Chicago, Ill.

B. Y. P. U. is in fine shape under the efficient leaders, Rev. Johnson and Rev. N. G. Pitts.

NEW HOPE BAPTIST CHURCH
1623 Paloma
Rev. A. Lively, Pastor

Sunday was a red letter day. Services were seemingly the best of the year. The spirit was certainly present during the covenant meeting in the morning. There was full attendance of the choir in the evening and the singing was excellent. The soloist for the evening was Mrs. Curry. The sermon on the "Last Supper" was indeed touching. A large audience was in attendance. The pastor, Choir and congregation will motor to Watts, Sunday afternoon, Nov. 11th to assist in the rally being held by the Rev. A. P. Ramsey.

Special music is being prepared by the Choir for services Thanksgiving morning at 11 o'clock. The Christmas Cantata, "Christmas Adoration" is also being prepared for Christmas morning at 5 o'clock.

A cordial invitation is extended you to attend New Hope.

METROPOLITAN BAPTIST CHURCH—
37th and Paloma Streets
M. C. Carter, Pastor

Those who visited Metropolitan, Sunday A. M. feasted upon the spiritual message which fell from the lips of our pastor. His text was taken from Acts 1:8—"But ye shall receive power, after that the Holy Ghost is come upon you and ye shall be witnesses unto me both in Jerusalem and in all Judea, and in Samaria and unto the uttermost parts of the earth."

The morning soloist was Rev. Gibson who sang with feeling, "Leave it There." The usual foreign mission offering was taken.

At the B. Y. P. U. our own Rev. I. N. Whittin a Bible scholar of no little fame illustrated the morning text showing the itinery of the Apostle Paul and others carrying the message Samaria and unto the uttermost parts from Jerusalem in all Judea and in of the earth.

The evening services were marked with the usual religious fervor and Hallelujahs that characterizes our covenant meetings. There were three accessions to the church; one for baptism.

The pastor will fill the pulpit Sunday A. M. His subject will be "The church." Miss Bessie W. Simon, Directress of the Industrial Settlement Home of Memphis, Tenn., will also speak at the morning services.

Metropolitan is looking forward to a great service on Thanksgiving Day. Dinner will be served by the Missionary Society. A cordial welcome awaits all.

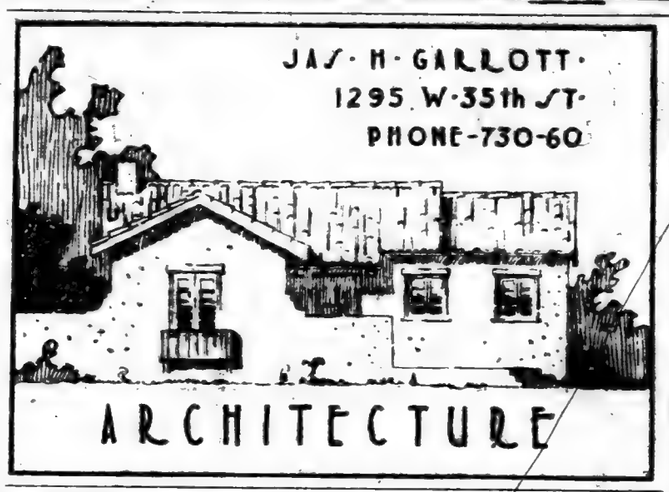
BETHEL BAPTIST CHURCH NOTES

Bethel Baptist Church opened fire on the devil with Revs. D. C. Knox and D. H. Holder in charge, assisted by Miss Lizzie Bovier, Gospel singer and vangelist, and Mrs. M. C. Knox. The revival is to last three weeks. The public is urged to attend these rousing meetings, where eloquent preaching and splendid music will be featured.

The financial report of the Pleasant View Baptist Church it typical of what any church should aspire to make in the way of a showing, if desire to gain more prestige with the public.

BETHEL BAPTIST CHURCH
Y. M. C. A.—9th and Hemlock Sts.
Rev. H. D. Prowd, Pastor

Our Sunday School was attended with interest and encouragement. At the 11 o'clock service Dr. Prowd preached from Isaiahm 45:24—"Look unto me and be saved all ye ends of the earth." The Savior was lifted up and all enjoyed the message. The B. Y. P. U. session was delightfully helpful and the discussion on the subject was spirited. The sermon at night from the words—"I will look unto the Lord for He shall save me." were most instructive and comforting. One joined the church at the close.



This Sunday we have special messages in reserve for you—Come and hear them. The Lord's Supper will be observed at night. Come praying.

SECOND A. M. E. CHURCH AT FURLONG TRACT HAS WIDE-AWAKE LEADER

Rev. J. E. Fletcher, the new pastor at the Second A. M. E. Church, Furlong Tract, is a live-wire, and "progress" is the watchword. And under his leadership, the good work of Rev. House, who formerly held this church is not only being carried out, but new features added, which will bring forth the best of results for this church.

Rev. Fletcher is determined to leave no stone unturned which will tend to keep the church up to the highest possible standard, and the members and officers are standing squarely behind him.

CHRIST TEMPLE CHURCH—
Cor. 37th and Naomi Sts.
Elder C. P. Jones, Pastor.

Services at this place were held at the usual hour Sunday. The church has taken on new life since the return of the pastor two weeks ago, and the faithful ones are determined to do more for the Master than ever before.

Sunday School began at 9:45 a. m. with a fair attendance. Many beautiful practical lessons were gotten from the World wide Prohibition lesson, which shall forever remain in the hearts and memories of those who gave the lesson a thought.

At 11:20, Pastor Jones delivered his morning's message from Rom. 14:13, 14. Text: Let us not therefore judge one another any more: but judge this rather, that no man put a stumbling block or an occasion to fall in his brother's way. I know, and am persuaded by the Lord Jesus, that there is nothing unclean of itself: but to him that esteemeth anything to be unclean, to him it is unclean. The Holy Spirit directed every word spoken by this man of God, so that at the conclusion of his message, every true hearer was fully convinced that the children of God are no more under the law as children of the bond-woman: but are made free through the blood of Jesus. Everyone present who knew how, was given the blessed privilege of feasting on the word.

At 7 o'clock p. m., held a good meeting and rendered an interesting program. At the close of the Young People's meeting, 20 minutes were given to testimonies in which many expressed their love for Christ. The Pastor then gave his evening's message from the text: And hope maketh not ashamed: because the love of God is shed abroad in our hearts by the Holy Ghost which is given unto us. Rom. 5:5. All returned home glad of their privilege to go unto the House of God. Many visitors attended every service.

A three-weeks series of meetings will begin next Sunday evening. Everybody is cordially invited to attend.

Examiner Publishes False Report

NO RIOT!

The greatest American agency for the spreading of race hatred has been the daily newspaper. For example last Tuesday evening an automobile driven by a white couple, a Mr. and Mrs. E. W. Joy of 1120 W. Forty-eighth St., collided with a car driven by Mr. H. Brown of 519 Ceres Ave.

It is said by an Eagle reporter, who was on the scene at the time that Mr. Joy stepped out of his car, faced Brown, using very abusive language, which, of course, Brown resented, as did a white woman, who appeared on the scene at the time and advised Mr. Joy that he was in the wrong neighborhood to attempt such procedure towards a colored man, to which Joy answered that if he had Brown in Texas he would lynch him.

As a matter of fact 9th and Central Ave. is the center of Negro enterprise, hence the Negroes in this immediate section are enterprising and sagacious, and were it not for the professional bootleggers and Dope venders from Hollywood, who come in and encourage vice, the situation would be all that one could hope for.

The Examiner reported that many came out of stores armed with axes, pickhandles and other weapons, and surrounded Joy; all of which statement is absolutely false.

The Negro has never been a rioter, a student of I. W. W. propaganda, or anything other than an American Ox, when it comes to patiently bearing whatever burden heaped upon him.

But this does not mean that he can't grow weary of this sort of treatment and rebel.

The Georgia and Texas "Crackers" who come to California, come with the idea that the Negro is to be accorded the same treatment here that he received in these States. On the other hand the only reason for Negroes leaving these sections is the fact that they are seeking a cleaner and better atmosphere in which to exercise their manhood rights.

The persons present at the little automobile skirmish are at a lose to know why such a reputable newspaper as the Los Angeles Examiner should feature this as a RIOT!

Mrs. A. L. Washington, wife of Rev. James Washington, Presiding Elder, has returned from Brooklyn, N. Y., where she represented the Woman's Mite Missionary Society of the California Conference Branch in the Quadrennial Convention. This was the largest and greatest Missionary Convention ever held by any denomination in the United States.

Mrs. Washington was the delegate from the California Conference and rendered a splendid report from the Golden West.

She visited a number of cities on her return trip and reports an excellent time.

MAKING GOOD.

Well known indeed to the merry-makers of Los Angeles is the famous Black and Tan, a musical organization, which, for the past ten years, has set the standard for excellence with our Colored public, in the matter of high class music for dances, entertainments, banquets, etc. This superb organization is a credit to our group and is entitled to the special consideration of the public.

The Black & Tan, in its personnel headed by Mr. Harry Southard, not only aims for and reaches the loftiest heights of musianship, but in their relations with other business firms, shows a spirit of reciprocity that cannot be too highly commended. In other words, every dime, nay, every dollar that they expend, goes, when possible, to some colored business enterprise. The Black & Tan is a help, and not a hindrance to Race progress in our community.

Deservedly popular, also, is Ory's Famous Creole Orchestra, a splendid agregation of musicians, much in demand for high-class entertainment, and loyal in their support of other Race enterprises.

There are those among us who talk Race Pride, but many, alas, do not practice what they preach! We are not imitating the Ku Klux Klan in disseminating race hatred and dissention. . . . . but we cannot see why any white man (or woman either) should invade these musicians' territory and bid for Colored patronage in their dance halls or other places of amusement.

EASTSIDE REALTY SCORES HEAVILY

Central Avenue Subdivision Closed Out

With the sale on Saturday, November 10th, of the lot in the famous Central Avenue Subdivision, the Eastside Realty Company brought to a climax one of the most sensationally successful projects ever launched by a Race firm.

Within a phenominally short time the lots in this meritorious Tract have been disposed of, to a host of satisfied clients. The Eastside Realty Company is to be sincerely congratulated on this achievement.

This Company, comparatively young among local firms, has indeed done well to be in a position to place such a project before our public—a project comprising home and industrial sites in one of the most promising sections of Southern California., on the highway to Los Angeles harbor, our great seaport, and surrounded by white development that will cause the land to soar in value in the immediate future, making the acquisition of real estate property here one of the most lucrative, and at the same time, sound investments ever offered our people.

Messrs. Ingraham, O. L. and H. L. Banks, officers of the Company, declare that they have no intention of stopping at this point in their rapid march of successful endeavor, but, as "subdividers" they will continue to "set the pace" in this special line of activity.

MRS. ESTELLE LAWTON LINDSEY TO SPEAK SUNDAY

FORMER COUNCILWOMAN TO GRACE WOMAN'S DAY PROGRAM AT INDEPENDENT CHURCH OF CHRIST

Woman's Day, Sunday, November 18th, will be a Red Letter Day at the Independent Church of Christ, 18th and Paloma streets. A brilliant program has been arranged, and unquestionably the women will sweep on to victory on the crest of a towering wave of financial success.

The principal speaker next Sunday evening will be Mrs. Estelle Lawton Lindsay, one of the most distinguished writers on the staff of the Los Angeles Express. Those who keep abreast of the time will recall Mrs. Lindsay, as the first Councilwoman Los Angeles ever had. Both as a writer and by her civic activities Mrs. Lindsey has won a host of admirers; her stand for fair play has always been unshakable in behalf of "the people" regardless of Race, Color or Creed.

A treat is in store for all who give themselves the pleasure of hearing Mrs. Lindsey on next Sunday night.

EAGLE EDITOR AND EXPRESS STAFF WRITER VISIT COLORED VETS

On Thursday afternoon of last week, Mrs. E. L. Lindsey former councilwoman and now staff writer on the L. A. Express, together with Mrs. C. A. Spear-Bass, Managing Editor of The California Eagle, paid a visit to the colored division of the Soldiers' Home at Sawtelle.

They found the boys comfortably established but complaining of the monotony of their lives, unrelieved by any form of diversion or entertainment, such as certainly could be provided by the citizenry for those who fought and bled in their behalf.

Mrs. Lindsey promised a victrola and a supply of records, which would make music available at all times, and Mrs. C. A. Bass agreed to try to have a diversified program given at least once a month, by one of the Los Angeles musical organizations, for the entertainment of "our boys."

OFFICERS CORLEY AND SHEFFIELD ARREST MUCH-WANTED AUTO THIEF

Tom White, a notorious automobile thief and burglar, was arrested Wednesday by Officers Frank E. Corley and M. B. Sheffield, at 12th and Boaz streets, and booked at the Central Police Station on a charge of grand larceny.

White, who has been twice previously convicted for burglary, went to the rear of the home of Philip Franalila, an Italian residing at 1411 Wilson St., jimmied his garage door and drove away with Franalila's automobile.

However, he was apprehended by the officers mentioned within a half-hour after the robbery.

McDAY PLEADS GUILTY TO MURDER CHARGE

SENT TO STATES PRISON FOR LIFE FOR KILLING OF MRS. DORA ALEXANDER

On last Friday, November 9th, Thos. E. McDay appeared in Dept. 19 of the Superior Court, and entered a plea of guilty to murder in the 1st degree.

McDay was arrested some time in August accused of the brutal murder of Dora Alexander in the Goodyear Tract. His arrest, which was several days after the murder, was due to the unfailing efforts of Detectives Broady and Kimbrough, assisted by Green and Garrott.

The prisoner upon pleading guilty, made a request that the court give him a life sentence; the same was granted by Judge Schenk, who presided.

TRAMPS ACROSS CONTINENT TO SEE "SUNSHINE SAMMIE"

There are fil midols and film idols. All have their worshippers and admirers. And little Ernie Morrison, otherwise "Sunshine Sammie," is far from being an exception!

For little Albert Hudson, fourteen years of age, "hoboed" his way from his home in Connecticut clear to Los Angeles, to see Sunshine Sammie, and if possible, secure an engagement with him!

Such were his plans, as he disclosed them to Mrs. Fryerson, Sammie's teacher, when she found him on the Hal Roach Studio lot the other day. The youngster said he started from home with $15 in his pockets. On arrival, his capital had been reduced to 14c. He had been in Los Angeles two days, had slept behind the Fairbanks Studios the night before and had smuggled his way into the Roach lot at five o'clock that morning!

He was introduced to Sunshine Sammie, who besought his director to give the newcomer a "part," but this was not feasible, naturally, on the spur of the moment. Little Albert is a bright, as well as courageous boy, and has made many friends, who will see to it that he gets a chance to make good. And he has the pluck that goes over the top. We'll say so!

HEAR! HEAR! HEAR!

Mr. Louis Michel, Humanitarian and Champion of Justice for the Negro, at Hall 206, Tajo Building, 1st and Broadway, on Tuesday, Nov. 20th at 8 p.m. Mr. Michel is a brilliant speaker and his address on the subject of "The Negro's Place—Who Shall Assign it", will be an intellectual treat. Admission Free. Don't Miss This!

BIG VOTE PERIOD ENDS SATURDAY NOVEMBER 17TH---9:00 P. M.

This Saturday night, November 17th, at 9 o'clock sharp, is the last chance for the "BIG VOTES." Promptly at 9 o'clock the doors of The Eagle's office will be closed. No one will be permitted to enter after that time for the purpose of turning in subscriptions on this present BIG VOTE offer. Those inside at this time, however, will be waited on before the present BIG VOTES end.

ONLY A FEW MORE DAYS OF THE BIG VOTES

In that short period, candidates in The Eagle's mammoth prize-giving event have their last opportunity of landing votes on the "double quick" and "literally cinching" the brand new $1,795.00 Reo Phaeton Automobile.

Never before has a race of any kind been so extremely close or so hotly contested. This fact has undoubtedly served to arouse the wonderful interest that is being shown in the final dash for the "BIG VOTES." It is doubtful if there exists a single home in this community that is not vitally interested in the success of one of the favorites in the battle and waching every gain and every move with anxiety and eagerness, hoping and trusting that their choice will come under the wire first and be acclaimed the champion of champions—the proud winner of this beautiful $1,795.00 Reo Phaeton Automobile.

Remember, to get credit on the present BIG VOTE schedule, all subscriptions must be in The Eagle's office not later than 9 o'clock Saturday night, November 17th. In case of out-of-town candidates, all subscriptions that are mailed not later than 9 o'clock, November 17th will count even though they are not received at The Eagle office until later.

ATTENTION CANDIDATES

Be careful in filling out your subscriptions, always writing or printing the name of the subscriber plainly so that there will be no mistake in entering the subscription. Candidates should not neglect to sign their names so that the proper vote credit will be given.

Special attention of out-of-town candidates and those who may work out-of-town is called to the arrangement that has been made which afford every worker the advantage of securing subscriptions right up until the last minute of this BIG VOTE period, no matter where they may reside. All subscriptions placed in any postoffice anywhere before 9 o'clock Saturday night, November 17th, will be counted in the present BIG VOTE offer even though they do not reach The Eagle office until later.

MOST IMPORTANT THING

This is the most important time of The Eagle's race. You can get the winning votes between now and next Saturday night, and remember that it is better to win by several thousand votes too many than to miss winning by just a few hundred. Whoever is ahead at the end of this period will practically be sure of capturing the big $1,795.00 Reo Phaeton Automobile prize.

It is impossible to overestimate the importance of these BIG VOTE days. To some it will mean a glorious victory. But, to the ones who "lay down" now, it will mean a stinging defeat. What are you going to do?

You must decide at once and act accordingly.

GET BIG SUBSCRIPTIONS

Keep in mind, too, that a few of the big subscriptions will make a vast difference in your vote score, especially if you get them now before the vote schedule is DECREASED.

For, remember, each 5-year subscription counts you 300,000 votes and every 10-year subscription is worth 620,000 votes.

Aside from the members of the family, business associates and friends shared in the hospitality of the Colemans on this date.

Motion pictures of the entire gathering were made by Will Herman, head of Will Herman Productions, Incorporated, and who has "shot" many notable public and private gatherings in recent months. CITY EMPLOYEES HOLD ROUSING MEETING

Need for Solidarity Emphasized.

On Saturday night, Nov. 3, at Odd Fellows Hall, the City Employees' Fraternal Association held an inspiring meeting. The principal speaker on that occasion was Hon. Boyle Workman, President of the City Council. Other representatives of various city departments were there. An entertaining program was a feature of the occasion, a number worthy of mention being a reading from "Toussaint L'Overture" by Mrs. Williams.

Among the striking points brought out by the various speakers, was the call for greater numbers among the working classes, and closer bonds of fraternity among the black workers.

It was a source of great surprise to those attending this Association meeting for the first time, to discover how few among our group workers appreciate the need for formal organization and the economic recognition which will only be accorded the different classes of laborers when their numerical strength and unity of purpose compels the same from the employer.

Mr. Oliver, one of the pioneers in this "organization" movement, and his co-workers, deserve the highest commendation for their efforts to promote the same, and which will unquestionably result in much benefit to our group.

In short, if the black worker cannot have membership in the white upion, he can only enjoy the rights and privileges enjoyed by the white worker, when he forms similar organizations of his own.

The funeral of Mrs. Sarah Berry, of Glassell Street, was held from Conner-Johnson funeral parlors, Wednesday, November 5th, at 11 a.m. Dr. H. D. Prowd, officiating.

Dorsey, who was one of the early preachers in the A. M. E. Church, holding the pastorate of historic St. Andrews for several years.

Mrs. Viola McFarland went to San Francisco Saturday to attend the funeral of her husband's aunt, who died in Banning, California, recently.

Born to Mr. and Mrs. Austin Brown, a baby girl, early Sunday morning, Nov. 11th, at the Sacramento hospital. Mother and baby are doing nicely. Her name, oh yes, Lena Margaret.

WHERE TO ATTEND CHURCH

FIRST A. M. E. ZION CHURCH
Cor. Pico and Paloma
Rev. W. E. Shaw, Pastor
1217 Paloma Ave.

The closing day of Home-Coming Harvest Festival will be observed Sunday, Nov. 18th with appropriate services. Everyone is filled with the spirit of the affair. Mrs. Maude Morrison addressed the meeting Sunday evening in her sweet, commanding way, telling of the Missionary work to be done in Africa. She told many striking stories of her impressions of Africa and its need.

The musical number rendered by Mrs. Bessie Dones, violinist; Prof. Wm. Bynum, saxophone and Miss H. Gottschalk, piano, were unexcelled. The Choir sang very sweetly a number of beautiful selections. Mrs. Banks had a paper on "The Prodigal Son," which was a rare treat.

All through the week the exercises will be of a high standard.

Rev. Shaw preached from the subject "Awake O. Zion," Isaiah 52:1. This stirring sermon marked the opening of this week's festivities.

Two infants were baptized and one new member enrolled last Sunday.

Visit the Bible Class and Varick C. E. each Sunday evening. Good program.

A cordial welcome awaits you and your friends at Zion.

WEST SIDE MISSION A. M. E. CHURCH
W. 36th Street
Major G. W. Prioleau, Pastor

Although there were other great attractions to divide the congregation on last Sunday, the Mission was largely attended by members and friends. The Sunday School sustained its record for attendance and contribution. The pastor preached at both services to appreciative audiences. Many expressed thanks for the message they received; that is so encouraging to any pastor.

One was received into full membership. The pre-thanksgiving dinner, the first of the season, was a grand success. Look out for the next one.

Rev. Thomas, Pastor of the First Baptist Church, recently celebrated his First Anniversary. An excellent program was rendered. Rev. Brown, from Los Angeles, preached a splendid sermon to an enthusiastic concourse. Owing to the recent death of Mrs. Harris, the reception planned for the Pastor was postponed until a later date.

WARD CHAPEL A. M. E. CHURCH
1252 E. 25th St.
Rev. B. R. Guy, Pastor

The services at this church are very encouraging. Good Sunday School last Sunday and at the morning services, the pastor spoke on the subject of "Love." The large crowd of earnest listeners expressed thir appreciation of the services. Both Endeavors were well attended and both had good lessons.

At the night service, the pastor continued speaking upon the subject of Love. A number of people spoke well of the services, and are cordially invited to return soon and often. The funeral services in memory of Sister Thelma Morris, held from this church last Wednesday were well attended and the floral offerings were of an excellent character.

WESLEY M. E. CHURCH
8th and San Julian Sts.
Rev. A. P. Shaw, Pastor

Sunday was another fine day at Wesley. The pastor's sermons both morning and evening were of a high order. Six persons united with the church, two of whom were converts. The music by our great choir was up to the usual high standard.

This Sunday will be one of unusual interest. An old fashioned service will be held at the morning hour. Old fashioned singing and an old fashioned sermon by the pastor. Don't miss it.

We have put on a $2000 Drive to end Dec. 16th. It will be a contest between the men and the women. In a night attack last Sunday night to raise the expenses for printing and envelopes, the men led with $7.00 and the women with $5.08. The men are already boasting that they won the first skirmish.

Hear the pastor's great sermon on "World Service" at the evening hour. Our great Choir will be in its place and will render special music. Come and hear and see and believe. Hear the Rousseau Family at the evening service.

LINCOLN MEMORIAL CONGREGATIONAL CHURCH
34th St. and Central Ave.
Rev. E. E. Lightner, Pastor

Rev. Geo. T. Simmons, the Director of Religious Education for the Southern California Congregational Conference will be with us and preach at the morning service the coming Sunday. Every member and friend should hear this man of God. The Pastor will occupy the pulpit at the evening hour. Monday evening, Nov. 19th will be the Annual Fellowship meeting of the church. Good music and splendid speakers.

The Pastor preached at the 11:00 o'clock service the past Sunday, using as his subject: "The Source of Peace." Evangelist H. B. Quinn was the speaker in the evening and gave some proofs that Jesus is the Son of God. You are cordially invited to worship with us at all times.

TABERNACLE BAPTIST CHURCH
12th and Hemlock Sts.
Rev. J. D. Gordon, Pastor

On last Friday night, Nov. 9th the members entertained in honor of their Pastor and his wife, with a most elaborate Banquet, enjoyed by many friends and visitors. The various departments of the church presented to the pastor and his wife a token of appreciation for their return, consisting of a beautiful electric reading lamp, silver jewel chest, cash money, silver clothes brush, and silver salt and pepper service, a most interesting program was rendered, consisting of choruses, solos and readings.

Sunday morning the pastor continued his series of sermons on the Lord's prayer, by taking up "Thy Kingdom Come, Thy will be done on Earth as it is done in Heaven."

The attendance was large and each Sunday shows an increase in attendance and a greater interest in the services. The presence and power of the Holy Spirit was acknowledged by many. At night the Pastor took for his text, Psalm 16:9—"The Gladness of the Lord." Many were present to listen to this very interesting subject.

METROPOLITAN BAPTIST CHURCH—
37th and Paloma Streets
M. C. Carter, Pastor.

If it had been possible for every Christian as well as sinner to have heard the beautiful exercises on the "Church" which was delivered by our pastor Sunday past they would have been greatly benefitted. It was so wonderfully handled that it left no doubt in our minds as to the meaning of the real "Church." His text was taken from Matthew 16:18.

At the evening services Rev. Deane filled the pulpit. There were two accessions to the church; one a young candidate for baptism taken in thru the Sunday School.

Rev. Watkins of Chicago and Rev. Brew of Long Beach were pleasant visitors at the Missionary Society on last Monday.

The following members were reported on sick list:- Sis. Scott, 940 E. 33rd and Sis. Daisy Williams, 1356 E. 23rd St.

Don't forget the Thanksgiving services at our church. Thanksgiving Day at 11 a. m. also the luscious dinner to be served by the Missionary Society.

The pastor will fill the pulpit Sunday A. M. and at the evening services, Rev. M. J. Gibson will preach. Come and hear the gospel messages.

FRIENDSHIP BAPTIST CHURCH
Watts, California
Rev. A. P. Ramsey, Pastor

The spirit ran high all day at Friendship last Sunday, Nov. 11. Rev. Wm. Shipley preached for us in the morning and indeed our hearts were inspired by his message.

In the afternoon service Bro. Frank Brown was ordained as deacon of this church. The speaker of the day was the noted Rev. A. Lively, the pastor of the New Hope Baptist Church. He preached a soul-stirring sermon as he always does. With the Rev. Lively came many of his members and his entire choir with their efficient directress, Mrs. V. Brandon.

The congregation for the afternoon was so large that many were unable to enter our small edifice. May God bless our friends. These good people left upon our collection table for our building fund $31.59 for which we are grateful to all.

At the evening service our pastor filled the pulpit and spoke on the topic "The Pureness of God's Word."

BETHEL BAPTIST CHURCH—
Y. M. C. A.—9th and Hemlock Sts.
Rev. H. D. Prowd, Pastor

The Lesson in Sunday School was discussed most helpfully and the central truth was thoughtfully driven home by Superintendent Dr. Evans. Our Secretary Miss Kinzy was given a hearty welcome on her return home from New York.

At the 11 o'clock service Dr. Prowd gave us a great message from St. John 15:26—"When the Comforter is Come." It was indeed a season of refreshing. The Testimony and Song Service at 7 p. m. was inspiring, and made way for the Communion service which followed. We urge all to be present this Sunday—and we request that they come praying for a blessing.

NEW HOPE BAPTIST CHURCH

Sunday was Senior Missionary Day. The trend of the services was toward Missionary work, as well as in remembrance of Armistice Day. Five veterans of the World War who went over seas, were the guests of honor at Sunday evening services.

Eight or ten machines, filled to capacity, took the crowd that attended the rally at Friendship Baptist to Watts in the afternoon: Rev. Lively was at his best as was the choir also. Every inch of space was taken in the church, and many were unable to get inside.

The soloists for the entire day were, Mrs. Hudspeth, Miss M. Robinson, and Mr. A. P. Johnson.

Sunday, November 18th is $5.00 Rally Day. The proceeds of which will be used for current expenses during the rainy season. Weekly services are as follows:

Sunday School, 9:30 a.m.
Sunday Services, 11 a.m. & 7.30 p.m.
Tuesday Night, Junior Missionary Society, Bible Training Teachers' Course.
Wednesday Night, Prayers Meeting.
Friday Night, Choir Rehearsal, Senior Missionary Society.

A cordial welcome is extended to all.

REV. A. LIVELY, Pastor

TRINITY BAPTIST CHURCH
W. 36th St. & Normandie Ave.
Rev. J. A. H. Eldridge, Pastor

Our Sunday School on last Sunday was very good, and full of interest. The men's bible class, taught by the pastor, is the leading class financially. Men who are interested in God's word will be greatly benefited in this class. Our pastor is indeed a great teacher. He filled the pulpit at both morning and evening service, bringing us two very helpful and inspiring messages. At 11 o'clock his subject was, "Lovely, though Invisible", his text was: "Whom having not seen ye love", 1st Peter 1:8. At 7.30 his subject was, "Christ, the stronghold". His text was, "Return, ye prisoners of hope; even today do I declare that I will render unto thee double." One person was added to the church. B. Y. P. U. is still making wonderful progress. Sunday will be women's rally day. Come out and help us go over the top. A welcome for all.

BIRCH STREET CHRISTIAN CHURCH
Cor. 14th and Birch Sts.
Rev. A. W. Jacobs, Pastor

Above all else do we praise God that His spirit was with us on last Lord's Day. Then, too, we were filled with joy because of the interest manifested in all the services of the day. Also glad because of the many distinguished visitors who worshipped with us, and expressed the pleasure it afforded them to be present. Bible school was good. At 11 a. m. the pastor took the Text from John 7:34, "Finding God". We were so glad to realize that many present had really found their Lord. Y. P. S. C. E. was very interesting. At 8 p.m., Text from Psalm 118:8 was discused, "It is better to trust in the Lord than to put your confidence in man." Following was a rare treat presented by the Ladies' Social Hour Club, Mrs. S. A. Richardson, Pres. Mrs. Dr. Summerville was introduced who gave the account of their trip to the West India Isles, Panama, and Central America. All were very enthusiastic as they listened. You will always enjoy the time you spend worshipping at the Birch Street Christian Church. Come. You are welcome. Good Music.

BTHEL CHURCH OF CHRIST HOLINESS
Rev. Wm. A. Washington, Pastor

Services were as usual. Sunday School at 9:30 o'clock. Attendance good. At 11 o'clock, we were blessed with an excellent sermon by the pastor. At 3:30 o'clock, the Willing Workers had their regular services. The Young People's Union opened at 5:30. A splendid program was rendered. Evening services were well attended. The sermon delivered shall be remembered and cherished as a precious jewel.

WALL ST. CHRISTIAN CHURCH
E. 8th and Wall Sts.
Frank C. Cothran, Pastor

Our services were fine Sunday. Bible School up to the standard. The pastor preached at both services and brought us inspiring and uplifting messages. All felt better for being present. Brother Hollins, one of our Elders, lost his daughter, Saturday, Nov. 10th at 5 a. m. and could not be present at our services Lord's Day. Sis. Langton had a long illness, but she bore it patiently unto the end. The Lord says be faithful unto death. Bro. Hollins and the husband Mr. Langton and the rest of the family have the sympathy of the church and a host of friends. We invite all to come and worship with us. Order of services: Bible School, 9:45 a. m. and preaching 11 a. m. and 7:30 p. m. Elders G. W. Hollins, L. Booth and Wm. G. Hopper.

CHRIST TEMPLE CHURCH—
Cor. 37th and Naomi Streets
Elder C. P. Jones, Pastor

Morning Service

Sunday was a beautiful day to the people of God at this place. Sunday School began at 9:45 with a goo dattendance. Much Spiritual Strength was derived from the study of the Songs of David.

Pastor Jones preached in the morning from the text: "Every branch in me that beareth not fruit, he taketh away: and every branch that beareth fruit, he purgeth it, that it may bring forth more fruit"—John 15:12.

This minister of God impressed upon his hearers the fact of God's hope toward the world is His Son, Jesus Christ, the Christ as the life: for he said, "I am the Way, the Truth, and the life." L

The service was a Spiritual feast.

Evening Service

Pastor Jones' evening message was delivered from the text: "The Righteous shall flourish like the palm tree: he shall grow like a cedar in ebanon!"

The righteous person is compared to the palm tree because he shall forever prosper. He shall grow like a cedar in Lebanon because he shall live and be blessed.

Progressive Missionary Bapt. Association Board Meets

THE UPSTRIDER

A Story of a Stubborn Fight and the Soul's Triumph

By Wendell P. Gladden, Jr.

This is an age of travel, research, and illustration, luring men and women to remotest places. And for youth as well as for age, there is a strong appeal in the tang of the rolling seas, changing colorful skies, great desert wastes, vast spaces; white weather-beaten sails, and steel vessels, and the anchoring in new harbors—meeting new and interesting peoples and learning their history and customs and progress.

When John Dugue was still in high school he desired to see the world. He was brilliant. John was impulsive, however, and when he was graduated he felt the urge of the water-ways and road-ways, and joined the crew of a cargo ship.

For more than three years he journied to foreign lands, remaining for long periods. Egypt with her historical background and aged sphinx and pyramids; gaping African interiors; Spain, Italy, France, most of Asia and North and South America were a source of inspiration and knowledge for the young Duque. Many and veried were the thrilling expeciences which he had encountered. John was always cognizant of his surroundings and never lost an opportunity to learn more or gather interesting material.

He now possessed a world vision, he thought. When he read the newspapers and magazines John Duque had a broader understanding of events. He knew more about human nature and was quick to recognize in others unusual ability and to learn of their aspirations. So John was back home in one of the great cities of the southwest. But he was broke and without a vocation. Oh yes—he would find employment as a mechanic, since he had had some experience in the automobile shop in school—and then—

BIRDMEN

By Wendell P. Gladden, Jr.

Swinging high in heaven's blue,
Mounting up through space:
Up among the clouds they flew,
In their endless race
To heaven's door.

Soaring near the winding lanes
That great eagle's found:
Spinning, dipping with their planes,
Mid the buzzing sound
Of engines' roar.

Among those who attended the Chauffeurs' Ball at K. of C. Hall, in Pasadena, were: Mr and Mrs. Young, Mrs. Mable Miller and Mr. C. A. Blunett.

Rev. G. W. Wooby, noted lecturer and author, will address the Men's meeting at the Y.M.C.A. Sunday afternoon, on his famous World Outlook subject: The public is cordially invited to attend.

Service to Boys

November is boys' month, and we are using every effort to increase our services to 100 additional boys. Kind reader, you can aid us by selecting a boy, and furnishing him with a membership in our Branch.

The Week of Prayer

The first series of the Week of Prayer which began last Sunday afternoon, November 11th, was very instructive and inspiring. A large number of men and women heard Rev. R. P. Shaw on the subject: "Come Unto Me" Mr M. W. Lewis, noted evangelistic singer, conducted the music and sang many gospel songs. Mrs. Markham assisted him at the piano.

HI Y Quartet at Conference

Plans for the Older Boys' Conference at Pomona are under way. Among the many features of the conference will be selections by the 9th Street HI Y delegation quartet. Eight boys and two secretaries will represent our Branch.

S. C. ALUMNI ASSOCIATION

The Southern California Alumni Association made quite a step forward Sunday past, when Miss Vassie Williamson, our popular local teacher, presented an art program. The exhibit, all the work of her own hands, done during the summer session at Berkeley, was a thing of beauty—an exquisite lamp shade, pottery, bead and wax work, pottery, raffia, and reed trays, and satin flowers of most lovely design and color combination were all placed before a large, admiring audience. Miss Williamson explained each article in a splendid talk. The Berkeley students leaving here in January, will be guests at a reception by the Alumni in its December meeting. Members take notice—All invited.

BASE BALL

By: WILLIAM MELLS WATSON

The boys would do little with Doyle's slants after his wildness in the second round when three free tickets and a one bagger by Riggins netted two bell taps.

Joe Pironne thought to let Doyle rest in the eighth and took up the burden, but ran into considerable trouble in the 9th spasm when a single by Miller, an error a triple by Blackman and a four ply swat by Fred Bell, who had relieved Brother Jay Bell in the fourth, counted for a quartet of marks.

CIRCUITER MILLER

Percy Miller thrilled the fans both Sunday and Monday by shoving out four cushioners and is now haled as "home run Miller" with two to his credit.

THREE GAMES WEEKLY

General Manager Cobb plans to play three games weekly, Saturday, Sunday, and Monday, and by the huge proportions of the multitude of fans that thronged the first three shows numbering around 6,000, it looks as though base ball has returned to the throne.

A three game series is scheduled for Saturday, Sunday and Monday, November 17, 18 and 19th with the White KKing Soap Co. nine which aggregation will give our boys quite a tustle.

SATURDAY'S GAME

EDUCATIONAL NOTES

Alpha Epsilon Entertained

Visiting members of Alpha Epsilon chapter of the Alpha Phi Alpha Fraternity, located at the University of California, were guests at a delightful party given by the Alpha Delta Chapter of U. S. C. at the Home of Mr. Malcolm Patton, Saturday after the game. The house was beautifully decorated with fraternity and school colors. Every member of the Golden Bear chapter expressed a great evening.

Golden Bear Followers Enjoy Evening

Coming down for a rollicking good time, about eleven students from the University of California were the recipients of the same when they were the guests of Mr. Howard H. Allen at a wee-hour party at his home, Saturday evening. The Allen home was gorgeously decorated with California and U. S. C. colors. Everyone enjoyed themselves to the uttermost. Dancing was the feature of the evening.

Educator Addresses Local Chapter

Professor Eason, one of the leading educators of this city, speaking on the subject of "The Negro and Anthropology," gave the members of the Alpha Delta Chapter of the A. P. A. fraternity much food for thought when he addressed them on Sunday, Nov. 4th. Professor Eason discussed this subject in detail, giving his hearers a keen insight of the race as seen from the scientific standpoint.

U. S. C. Students Proud of Riddle

Every student of the University is proud of the playing of Johnny Riddle in the contest with the University of California last Saturday afternoon. Riddle was in every play, stopping California's fast backfield combination time after time. Whenever Riddle was given the ball, he always made good yardage before being downed. U. S. C. lost to the Golden Bear but by no fault of Johnny Riddle.

HIGH SCHOOL NOTES

By William Narcisse

Last Friday Jefferson closed her football season by dropping the final game against L. A., 14—0. Jeff has lost every game played this season—lost ignominiously. Spark Plug Williams, Jack Prayer and Bisco played the game as though their lives depended upon it. TheophilusSmith deserves a lot of credit for his playing at fullback for L. A. Every pass tried by L. A. while he was in the game, was thrown by none other than Smith. Today L. A. meets Manual in the deciring game for the cityrag at the Los Angeles coliseum.

Slick Stocks, Pasadena lightweight halfback, is playing faultless football for that institution. Slick does the passing and punting—some player, he is.

Charles Dade and Kenneth Levy lightweight halfbacks, proved themselves worthy of that title by their showing against L. A. High's Midgets last Thursday. Dade tock the ball for large gains on end runs, throughout the game.

Yesterday Lincoln's lightweight football team hooked up with Hollywood's for the championship. Neither team has been defeated this year. The railsplitters, however, are strong favorites to trim the Movie City aggregation. Otis Whiszar, sensational halfback, wearing an Orange and Black suit, was rearing to "strut his stuff" as he expressed himself to the writer in a recent interview.

Most likely the reader thinks that the boys in thee high schools of today spend too much time with athletics. But this is not true, because any boy who participates in competitive sports must pass in three-fourths of his studies and must be in good standing during that season. Besides keeping our bodies healthy and strong, it enables one to shew a better attitude toward his studies. This statement is made not at random, it is a considered one. Everyone in high school should go out for some branch of sport. He should not be contented with second place merely, but should strive to excell.

My Friend Recommended You to Me.

Nine persons out of every ten who come into my office write or call me by phone for appointment, greet me with the six following words: **My Friend Recommended You to Me,** and I appreciate those words beyond expression, they mean more to me than all the gold in the world; for those words show the confidence that reputable citizens have in me and in my business methods. They more than repay me for the effort and hard work that I put forth to save my clients money and worry. I have striven to make a friend out of everyone whom I have had any business dealings with, and those words assure me that I have succeeded. There is not enough money in the whole world to tempt me, or cause me to betray the confidence reposed in me by my clients and I believe that everyone of my clients has sent his or her friend to me. To those seeking homes, or other property, may I serve you? A few of my special prices and terms:

REFLECTIONS

By E. W. Kyle

AN OBJECT LESSON

THE SOURCE which springs the prevailing unrest, violence and lawlessness throughout the country can be dated back half a century. The moudlers of popular sentiment, especially the press, have been giving countenance and encouragement during this period to extraneous, questionable and illegal methods for the alleged purpose of preventing "Negro domination" and to maintain "white supremacy."

NO CRIME was too heinous, no offense too grave and no deed too dastardly if utilized for the accomplishment of the purposes referred to. In several of the reconstructed state of the South, the disorganized and defeated remnants of the Confederate army were reorganized in the form of military clubs, fully armed and equipped, and as such, took charge of those governments vie et armis. Intelligent people knew then, as they know now, that those methods were used, not to prevent the domination of one race over the other,but the domination of the political party with which a majority of Negro voters were identified.

THE METHODS thus adopted and enforced, although under flase pretenses ,have become so popularized that they are now nationa instead of local, and are utilized for any and all purposes. The criminal, as a rule, draws no race lines when he has a purpose to accomplish. Hence he reasons that if the Constitution can be nullified and the Statutes disregarded and disobeyed for one purpose, why not another? If secret organizations can be formed to take the law in their own hands and tar and burn human stuls alive without being brought to account. If the men who uphold the law are to be impeached and brought to account. If the men who uphold the law are to be impeached and by the men we send to the legislature to uphold the law then we just as well do away with this form of Democracy and let the Invisible Empire take its place.

THE POOR MAN feels it his right and privilege to force the rich man to divide some of his riches with him. So we have the condition resulting from the tolerance of illegal methods. It makes the enforcement of law and respect for those in authority common and therefore not respected—and as public sentiment is stronger than law, there is no remedy for the wrongs thus committed until there is a change in popular public sentiment.

* * *

GOOD CITIZENSHIP

The Eagle believes that to be good citizens we must have a good, clean-cut government one that does not seek to show discrimination between its citizens on account of their color or previous conditions of serviture. The Jew in America leads in keeping within the law. Very seldom do you find him settling his difficulties in court, and when he does, his case is seldom lost. The Negro does not have to commit a crime in certain sections of America to be hauled into court. The South's jail houses, chain gangs and penitentiaries are full of them sent there because they tried to demand fair play and justice for themselves and families. Hordes of them are sold as human cattle, year in and year out, right under the dome of the Nation's Capital, where justice stands sentinel upon the outposts of American Democracy. They call it peonage this inhuman slave traffic—this southern Hell that the Black man must pass through and be satisfied so long as he remains a citizen therein. How does the South reason upon the question of Good Citizenship? How many practice it? Is to deny the Negro a right to vote a sample of their pretended superior qualities of Good Citizenship? Is it Good Citizenship to work our women in cotton fields and swamps from 12 to 18 hours a day and at the close of the year come out in debt, charging them thrible the required amount for groceries and other necessities? Is it Good Citizenship to take advantage of them while their husbands are away, with their deceit and cowardice? And yet the South wants us to believe it's a friend to the Negro. Southerners really believe they are chivalrous and virtuous and refined; that their standard of excellence is what the pillows of the Constitution rests upon. God forbid that the Black man must remain at the mercy of such debauchers of human souls; that justice and mercy and truth long dead must again awake and stamp out of the South these silly beliefs, these slave drivers have long held, that they are superior to the rest of the people of the world. It will take nothing but Good Citizenship to stand the test to clean up the South and its hell holes of vice, murder and pillage and cause to be let loose from the penitentiaries and peonage farms thousands of innocent Black men now serving life terms for offenses they committed themselves. They want Black Men to be Good Citizens—to respect the law—the law they made—the law they break at will and demand that we keep sacred.

CHRISTIAN CHURCH

33rd and Hooper Avenue
Rev. M. Frederick Mitchell, Pastor

We had delightful services last Sunday morning. Next Sunday, Nov. 18th, the Church edifice will be completed. We will hold our first services there, and all members are earnestly requested to be present

The formal opening is scheduled for the first Sunday in December. The program will be announced in next week's issue of this paper. The Opening Program will commence on December 2nd and continue throughout the week.

PHILLIPS CHAPEL C. M. E. CHURCH

1406 Newton Street
R. W. Underwood, Pastor

Last Sunday was a great day at Phillips Chapel. The pastor preached a wonderful sermon at 11 a.m. Rev. Bro. Lewis sang some beautiful selections, after which the doors of the church were opened and 36 persons came forward and joined. 14 of them were converted during the service. Sunday evening was given to songs by Rev. Lewis. On Monday evening at 8 p.m. Rev. Lewis delivered his famous address, "Stay in the Pan". This was a splendid address. Everybody seemed to have enjoyed it. Eighty-six persons were saved during the meeting. The pastor will baptize Sunday immediately after preaching the Holy Communion will be administered to the new coaverts.

SECOND BAPTIST CHURCH—

740 Maple Ave.
Rev. T. L. Griffith, Pastor

Sunday School largely attended last Sunday. Pastor filled the pulpit taking his text from 2nd Kings 5:1 "Naaman a Mighty Man." Two things were wrong with him, one his spirit the other his body, when he made up his mind to obey the man of God he was cleansed both Soul and Body, we learned a lesson of obedience in this very act.

The evening service was changed principally to a service of song by the Choir which every one seemed to enjoy. Quite a few sick among the members of the church.

Funeral of Rev. Watkin's, father of Mrs. Ayred was held at the church Monday; also the funeral of Mr. Frank Williams. Our deepest sympathy goes out for both families and pray that God may sustain them in this sad hour. Remember the prayer service every Friday evening. Come get your spiritual strength renewed. Strangers always welcome.

Y.W.C.A. ASKS PUBLIC ASSISTANCE

We are asking that anyone having anything in the line of clothing, especially children's clothing, shoes, hats, food, cash, etc., for needy families, and magazines, candy, chewing gum, smokes, etc., for the old soldiers in the Old Soldiers' Home in Sawtelle to please communicate with Mrs. Jessie Terry, 1358 E. 23rd St., Humboldt 2454 J; Mrs. Anita Conway, 1328 B East 21st St.; or Miss Hurd, Y.W.C.A., Metropolitan 5878, and the same will be called for and appreciated.

BUSINESS MASS MEETING AT 14th STREET SCHOOL DRAWS BIR CROWD. MUCH ORATORY BRINGS FORTH ENTHUSIASTIC APPLAUSE

From a standpoint of numbers, the Business Mass Meeting at the 14th Street School House, on last Sunday afternoon was a big success. However, to our way of thinking, there was just a bit too much oratory, and not enough of the business side of the affair put forth. We are satisfied that it was Dr. Shields' purpose to put over this business program, but his speakers got away from him, and now he intends to make another effort, when there will be less oratory and more business.

The program, however, was a good one. It was more than that, it was a hummer. That Douglass Temple Choir, unbeatable it is, and it sang as it never sang before. Mr. Edward Atkerson, its director, is indeed entitled to great credit for the point of efficiency to which he has brought this great musical organization.

Attorney Grasty presided with rare grace and dignity.

Dr. J. D. Gordon, far famed pulpiteer and renowned orator, lived up to his reputation, and thrilled his hearers and made a most wonderful address.

Titus Alexander made a forceful address along patriotic lines and took his usual fling at the Ku Klux Klan.

Mrs. J. B. Bass made a short address along the lines of cooperation, and for the success of all efforts to promote industry, such as proposed to make possible the greater Cambridge Laundry industry.

H. S. McCarty, Deputy District Attorney spoke along the lines of good government. Dr. G. W. Shields closed the meeting with a stirring address along business lines, and announced that there would be another mass meeting called.

Afterwards, we are looking for a message and great things from a sage filled with turkey.

DEATH CLAIMS A CITIZEN

Mr. Frank William, formerly of Seguini, Texas, who has been living in Los Angeles for the past three years, died last Friday at his home, on 16th Street; after being confined to bed but a short time. He grew up from a boy at the blacksmith trade and when the late war broke out he was employed at Fort Sam Houston, in that department. He was a man of exceptionable character and had a host of valuable friends. The community has lost a valuable citizen, the church, an untiring worker; and the family altar, a broken link that was its main support; but with a song upon his lips, heaven welcomed him among the redeemed. We extend the ebreaved family our heart felt sympathy.

Dr. H. H. Towles, whose office is located at 14th and Central Avenue, left the city on last Thursday for Omaha, Nebraska, after having been called to the bedside of his sick father. But all in vain, his father passed away before he arrived. His many friends and acquaintances offer their deepest sympathy.

SATAN

Many people have much to say derogatory to the devil. But if questioned closely, few would be able to tell whether Satan is a person, a thing, or simply an influence. If you are uncertain on this matter, you will be interested in reading an answer to the oft repeated question

Is there a Personal Devil

There was war in Heaven. Michal and His angels fought against the dragon; and the dragon fought and his angels, and prevailed not, neither was their place found any more in heaven. And the seventh dragon was cast out, that old serpent, called the devil, and Satan which deceiveth the whole world: he was cast out into the earth, and his angels were cast out with him. Rev 12.7-9.

Even the most casual observer is bound to admit that there are two great antagonistic forces at work in the world. These forces have come in for their full share of discussion by the philosophers of every generation. In the main there have been three classes of explanations as to the existence of these antagonistic principles. The first denies altogether the existence of evil. The 2nd admits its existence, but explains that everything is but the embryotic state of good. Hence what is evil in one generation is good in the succeeding. Good and evil are but relative terms. The last, we believe to be correct, that there is a real evil principle at work, and that this evil principle is the direct result of the workings of a master personality Satan.

There is another mall class who acknowledge the existence of evil, but deny the existence of a personal devil To them all evil is the outworking of the principles of sin we may have inherited from preceding generations.

The study of history and the development of sin will lead the most skeptical mind to acknowledge that back of the scenes a mysterious force has been at work. The workings of the "Mystery of Iniquity" further indicate the same thing -clever design.

Every situation has been utilized by the great apostasy. More than a human hand has directed the affairs and formulated the doctrines. A great principle of mischeivousness permeated the whole with admirable skill and cunning.

Again, all the way through the history of the human race there has been the most active and persistent resistence to every effort made on the part of the powers of righteousness to uplift and better conditions. There is more than a passing resistence due to inertia. It is open animosity, and hatred and warfare. The intolerant attitude of the representatives of th power of evil toward those whose lives represent principles of righteousness can be explained on no other basis so easily and so satisfactorily as that there is an invisible personality of supernatural wisdom and cunning who inspires them. Else why should a government persecute and exterminate its best citizns as Frane tried to do the Huguenots? Why should a king try to compel all his subjects to bow down to a golden image, and then when his most honored, trustworthy, and conscientious counselors refused to violate their allegiance to Jehovah, why should he, in insane rage, thrust them into a furnace seven times as hot asusual.

Even in nature we see the same principle at work. Animals destroy each other. Plants grow only to wither and decay. This must be far from the ideal condition. Surely God did not design so much suffering, misery, and death. He can not be pleased with the present order of things. But to deny that there is in the world this personal devil, is to place on the Creator the blame for every sin, for every pain, for every sickness, for every heartache, and for every death.

If we leave out the belief in a personal devil, we are driven to the conclusion that Jehovah is really the originator of all wrong and all the consequences of wrong.

Now if God is responsible for sin as He is if there is no personal devil, then sin is eternal. The present order will continue, and, after all, sin is just as pleasing to Jehovah, as much in harmony with His character, as is righteousness. Nor does it merit destruction any more than good does, for He must have designed it.

This is surely an absurd conclusion in view of what the inspired Word has to say about sin. Can we who know God's great character of tenderness and matchless love accuse Him of creating suffering? Would He, who, while on earth went about healing diseases have deliberately caused the very condition that produces that disease?

Would He who raised the dead and so fully sympathized with the bereaved have instituted that which causes death? Would He who forgave sin and gave power to overcome it, and gave His life to save men from its guilt and power of consequences, have consciously planned it? Not by any means is God responsible for its existence, even because of the conditions under which it came in. He may have permitted its continuence. However, it is but temporary. When its fruit has ben fully ripened it will be destroyed.

So then, in order to get a satisfactory explanation of the very evident struggle that is all around us, we must postulate a supernatural being, commonly called the devil, to stand at the head of evil as its inspiration and director. And further, our own experience demonstrates the existence of this being. Otherwise how can we explain with any degree of satisfaction or show of reasonableness, the tremendous struggle that is waged in us and through us when we try to do right? There is more than inertia in our natures and about us to overcome. Each inch of ground is fiercely contested. Advance moves are made only at the cost of intense agony. Then we find we are in continual danger of losing what we have gained.

There is a foe who has intimate knowledge of our natures and adapts his advances to suit our weaknesses. He sets actual traps for our unwary feet. He leads us into temptation. His skill along this line is nothing short of marvelous. It reveals his six thousand years experience. Now consider for an instant, the various and numerous delusions that are carried on at present. They are so varied that they suit every class of mind. They are very cleverly conceived. A person who does not love God, and is not on the alert at every moment to stay on the side of right and truth, is almost sure to be entrapped.

He may otherwise turn in scorn from one delusion, only to be caught by another. Surely no one will question that the supernatural phenomena of spiritualism reveal an invisible intelligence. That this intelligence is really antagonistic to the principles of the gospel is very clear from all its authoritative teachings. In fact, there goes with it an immoral tendency that can not be well controverted. And back of all its endeavors can be seen the presence of a master mind. This can be none other than that "personal devil."

The Bible, as our authoritative guidebook assumes the existence of such a being. It makes no conscious effort to prove it any more than it attempts to prove God's existence. The devil is always referred to as a person. He is personified as much as God is. In fact, if there is no personal devil, there is no personal God. The Bible is really the story of the conflict between these two great persons. God with the powers of good arrayed against Satan with the powers of evil. Who, then, is this being, "Satan? Where did he come from and what has he been doing? will he always continue his work? These and other questions now come into the mind

The conflict mentioned above began several centuries ago, about the time of the creation of the world. It all started in a little jealousy and envy. An inferior became dissatisfied with his position and wanted the place of his superior. He was, at the time, occupying the highest position in heaven for which his capacity and nature fitted him. He was a created being and filled the highest place that any creature could occupy. He stood next to the throne of God as the covering cherub. None was so beautiful as he, nor could sing so sweetly. His name was the synonym of brightness and beauty. Lucifer "Son of the Morning".

At the time the creation of this earth was planned, it seemed that Lucifer became jealous because he was not consulted with reference to the creation of man. Disappointment ripened into discontent, then into resentment. The more he brooded over this supposed slight, the more he felt he had been treated unjustly. He came to look upon God as an unreasonable tyrant, who was coercing His unwilling subjects with the continual threat of death. The law that was so necessary for the well being of the universe became to him a yoke of of bondage.

So he left his place to go out among the angels to sow in their minds the same seeds of rebellion that had sprung up, ripened, and were bearing fruit in his life. Insidiously, and under cover he continued his work. He made the angels believe that he was working for their best interests, and the general uplift and welfare of heaven's inhabitants. At this time he did not forsee the terrible results of his rebellion, nor to what he was being led by his suspicions and envy. Even after an interview with his creator, he persisted in his propaganda campaign to villify the character of God.

Then Jehovah called a great council meeting of the angelic hosts to lay the situation before them. Nothing, however, could get Lucifer to overcome his pride and change his course, even though he was convicted and convinced of his error. No other possibility remained open. God could not tolerate the continuance of this rebellion, for continued forbearance would be interpreted as an indication of weakness. So Lucifer and all his sympathizers, after a struggle that John, the revelator describes as "war in heaven" were forcibly expelled from their places in heaven.

When there was evidently no possibility of their being allowed to return to their places in heaven, they decided on a plan of campaign that involved the conquest of the various inhabited planets, one by one. After this had been accomplished, they could carry their campaign on until they had dethroned God, and thus would succeed in their original design. We know the sad results of this decision. We all know how they gained access to this world of ours. We know by sad experience the terrible results of this reign of sin that was ushered in. The other inhabited planets did not yield to his seducive snares.

Adam lost out. He sold his dominion as the "son of God" or the patriarch of the earth to Satan. He could not represent the earth in the council of heaven. Thenceforth the advisary was to be the prince of this world.

SACRAMENTO

"What do you care if the burden is heavy
Your brother must carry alone?
If he drops by the wayside because he is weary,
Why should you care to atone?

Much is being said these days about the young folk: "What's going to become of them? Where are they headed? Etc." "Petting parties" are pointed out, the schools, colleges and even the churches are condemned—some of theem should be, the way they treat the young people—because they are not producing the type of womanhood and manhood that the pessimists think they should. We talk of the unchaste girl, and the bad boy, and throw up our hands in holy horror, shrieking they are going to the bow wows; but what are we doing for them; what provisions are being made for wholesome recreation—NONE. When it comes to talking, we are right there, but when it besomes necessary to spend money to put over a program we close up. It is the old story over again of the Insurance man telling of the wonderful benefits of his company; each time he would specify the amount given for the loss of an eye, or foot or hand, etc. An old fellow sitting in the rear kept saying "Write my name down". Finally when all the wonderful things the company would do were told, the agent then said, "Now friends you get all these benefits for one dollar a month. The old man in the rear called out, "What's that you say, brother?" The agent repeated a dollar a month, the old man, who had been saying, "Write my name down," now said "Spell my name out."

Now, folks, that's us. We are Johnny on the spot until it costs us something, then we yell out, "Spell my name out". Here in our own town we need a Community Center for the social welfare, educational programs, and athletic activities of the younger set. The sentiment was created and the enthusiasm worked up, but the cold cash seemed to soothe us all to sleep. Ours is a boom town right now. Never was there such a period of expansion. Then why not get in the vanguard of progress and be in on the ground floor? It's now or never. Let's go forward, and don't forget the fellow who had no roof on his house, because in summer he didn't need it and in winter he couldn't fix it. Forward.

Wm. McTrent, of Marysville, died Thursday, and was buried Sunday. Rev. Dyer, of Portland, Oregon, formerly pastor of the Baptist Church in Marysville, officiated, assisted by Rev. Riddle, the pastor. MONROVIA

Monrovia is on the upward march. Her colored citizenry are engaging in every kind of business. Grocery stores, restaurants, refreshment stands, taxis, and mechanical activities.

Mr. L. Miller who has been in Monrovia for some time in search of health, passed away last Saturday night. He was buried last Tuesday. Rev. G. W. Reed officiated. He was without relatives so far as known to the people of this city. He was buried by the county aided by the A. M. E. Zion Church.

Mr. W. H. Watkins of E. Maple St., together with a number of friends, went to San Diego a few days ago on a hunting trip, they returned last Saturday with hunting bags filled with goose eggs.

The entertainment put on by Mrs. Cleves for the benefit of the Second Baptist Church last Thursday night, was a very pleasing affair. Mrs. G. W. Reed, pastoress of the A. M. E. Zion Church, and one of the leaders in the club life of Monrovia, together with Mrs. Cassell of Los Angeles, and Mrs. McDonald of Pasadena, who, were appointed by the reciprocity meeting of the federated clubs of Southern California, as a committee to look after the reported condition of the negro soldiers at Sawtelle, went to that institution on last Wednesday. The report will be made to the Federation at its next meeting.

Three interesting meetings were held at the Zion Methodist Church last Sunday. Rev. Mr. Reed, the pastor, preached a great sermon last Sunday, on the "Priest of Peace". The morning service was in keeping with Armistice Day. Rev. W. R. Slaughter of the Metropolitan Baptist Church of Pasadena, preached at this church in the afternoon, his choir accompanied him an dsang. He preached a fine sermon. At night a splendid literary and musical program was rendered by the vested choir of this church. Miss Leondie Simmons of Los Angeles sang a beautiful solo. The program was highly complimented as a whole.

Mrs. Sunshine Miller of Los Angeles was the house guest of Mrs. G. V. Edwardes last Sunday.

REAL CHAMPIONS.

When ou take in consideration the barriers which are up and the status which the Negro maintains along all of the various lines of effort, he must be appreciated, and we are by no means kidding ourselves when we say so. We cite for example the baseball situation in this country today. To anybody who knows, there is no question but what there are teams of Negro players which could be pitted against the Yankee team, which won the recent World's Series and make them look like selling platers at a horse race. Yet, these same players are denied officially an opportunity to play for the championship solely, because of the fact that they are colored. Therefore as a matter of fact the New York Yankees fail as to being real champions and are only cheese champions. By right the Kansas City Monarchs are the World's Champions for 1923, they bar none, and will defend their title against all comers. This makes of them real champions. The same conditions obtain in the boxing game. Jack Dempsey, the conqueror of "Firpo" is but a cheese champion. His continual dodging a match with Harry Wills takes away from him the mantle of champion, he is no real champion, he's a cheese champion of the white race only.

ABOUT MAYOR CRYER.

The New Age Dispatch takes a vicious poke at Mayor Cryer through an article by its anonymous first page, first column contributor "Moonfixer." We do not think Mayor Cryer deserves this castigation by any means whatever. We have found him always ready to lend a listening ear to even the most humble. That he has been imposed upon through the machination of false leaders of our group and his own group goes without saying, but for a raw recruit into the maze of political activities, we are satisfied that Mayor Cryer has done his best to act as the servant of th people fair and impartially. Tremendous indeed have been the problems, but in his own good time he has met them unflinchingly without dodging the issue at any step in the road.

True our group has failed to any direct recognition by appointment by the Mayor and in this he has not departed from the course of his predecessors. We make no excuse or apology for this phase nor do we hold any brief for honor, but we stand at all times for a fair and square deal.

PUT A "CRUSHER" ON DAILY PRESS AND PREVENT CATASTROPHE.

We would speak to Chief Vollmer to use his good office as Chief of Police of this great city, to call upon the management of the Daily Times, also the Examiner and protest against the headlining of absurd lies which could very easily work up the people in this community to such a state of mind as to cause a race riot. The same tactics caused one in New York, in Washington, Chicago, Omaha and do you want one here? If so, the daily Examiner and Times of last Wednesday morning are paving the way. This sort of journalism is crime breeding and reflects discredit upon its owners and the people whom they serve likewise. As a matter of fact, for the good of all concerned, this headlining and featuring of rumors, risking the fate of a community in the hands of skuttle head reporters, with their groundless and foolish imagination, should be called to a halt.

CHIEF VOLLMER'S PROGRAM.

The program submitted to the Police Commission and by them referred to the City Council for the creation of 7 or more Central Police Stations is not only constructive but progressive to highest degree. The gist of this lengthy survey, and the reasons therefore, mark Chief Vollmer as one of the greatest geniuses engaged in police work. Any person of the everyday, average intelligence can read and reading understand the reasons as well as the benefits gained by adopting the plan outlined by the Chief. We are strong for the recommendation of the Chief, for in its fulfillment we see lawlessness at its lowest ebb, we see justice maintaining its place and every man and woman will receive their just recognition in this great city where law, order and common decency is its keystone. All races, all creeds will rejoice in the fact that there are yet high officials who stand for the people, regardless of what may come to pass.

COMMENTS

W. J. Wheaton

It seems as if there can even be disagreements between the Knights of the Sheet and Pillowslip. Serious ones at that: So serious that religious hate, racial malice and one hundred per cent Americanism is entirely forgot, and murder is the only recourse. It is hard to determine why the editor of the Imperial Night Hawk which is the official organ of the "Invisible Empire" and Attorney Cobourn, who at one time was chief invisible something in San Francisco, disagreed to the point of murder; but they did, and the editor of the Night Hawk placed four bullets in the anatomy of his foe and consequently there is one less of the "Hooded Klan".

It is believed that finances were the cause of the feud. Charges of gross mismanagement of the funds have caused numerous law suits, and ury by the gullible dupes, cohere money which has poured into the treasury from the gullible dupes, who are carried away by the cant of prejudice, has been, seemingly, diverted from its channel and the "cut" has not been equal. The one hundred per cent American, it appears, has been measured in dollars and cents, and patriotism has spelled graft.

Whenever "Thieves fall out" there is bound to be trouble of a most serious nature A prominent Negro, who has been one of the main factors in a chimerical, illusionary project which had squandered the ill-got dollars of a trusting if ignorant clientage, decided that he was not getting a slice of the melon of sufficient size, and withdrew his activities from the organization. But the graft had been so easy that he started to organize a similar project. There are at all times fanatics, and in this case there was no exception, and murder was the outcome.

The N.A.A.C.P. has made a special plea for the restoration to freedom of those soldier boys in the Federal prison at Leavenworth. Some time ago this column made special mention of the cause of their incarceration, and the injustice thereof. The signatures petesting their further punishment should pour into the headquarters of the Association so fast and numerous, that it would take a special train to transport it to the Capital. This is a worthy cause, devoid of any semblance of graft, and, should enlist the ardent cooperation of every Race man, woman and child. Let's do the work in America before starting for Africa.

It is estimated that the Negro population of the United States was, in 1900, 11.6 per cent; 1910, 10.7; and 1920, 9.9 per cent. Why is the decrease? It cannot be due to increased mortality. Except in very remote cases, the Negro has kept pace with improved sanitatica The "White plague" which devastated the race in certain localities, has been practically stamped out. Of course the falling off of the birth rate may have something to do with it, but not to that degree. Below the Mason and Dixon line no difference how fair, they know when there is one drop of alien blood and they classify accordingly. We have numerous acquaintances who better their working conditions by not wearing their racial sign on the sleeve. Of course they fail to count in the census.

The art of division is as old as society. The ancient chiefs were wont to keep the loyalty of their subjects by keeping them angry at somebody else. It was one of the old tricks of our enemies to keep dissensin in the ranks of the Negro. To whisper in the ear of George that Bill was his enemy, and vice-versa, was the scheme by which the enemy kept the Race, for years, from making progress. Finally we "Got Hep" and presented a semblance of solidarity. Things became better and we advanced. Proscription drove us together, and we commenced to talk and act business. Wealth and culture followed in the wake of prosperity, and the OTHER fellow began to worry.

A visionary came along with a scheme to found a State for the Negro .Ships manned by black men were to sail the seas of the earth and carry in their holds earth's treasures. He organized Legionares and nurses with an insignia on their caps—The Black Cross—The Legionares drilled, and the nurses practiced the art of bandaging wounds, all in preparation for the conquering of an empire. A band of Irishmen, sympathizers with their struggling countrymen were arrested because they were plotting against a "Friendly country". They were in earnest, and might have created international trouble. The organization of the legionares and their auxiliary was winked at by the government. It was harmless and diverted the mind of the American Negro from the more serious happenings which concerned him. It created a diversion.

The backbone of a nation is the home builder, home maker. The men and women who are firmly planted in the soil. The American Negro is making rapid strides in the maintaining of homes and thereby increasing his moral as well as his financial status

AMBITION

By Chandler Owen

It was Richard Ely who said "People suffer from two lacks. First a lack of goods for the higher wants. And second a lack of wants for the higher goods." Both types of wants are essential to be satisfied. For upon examination it is obvious that if one continues to lack the goods his wants will atrophy; and vice versa if one has no wants, no desires and no yearnings for higher things, there is little likelihood that he will get them because no effort will be put forth to attain the higher goods.

What do we mean by higher wants? The desire for education, culture, real estate, personal property, manhood rights, and all those subdued and finer sentiments, which, when embellished by poetry, music and art, throw a beautiful and irresistable charm over human life. This means that our young men and women should have higher ambitions than merely to wear gaudy clothing, to display diamonds and jewelry, and ape the rich in consuming beverages and viands which they can ill afford. This has become all too true of he city life of today. Our young men and young women are too prone to mere "society" life. It is all front and no back. We might call it a sort of "dickey" existence. Again, there is a group amongst us which is satisfied simply to earn money irrespective of the source. For instance, in many of our cities the leading Negroes have earned their money or secured their property by the running of gambling dens, speak-easy joints, houses of ill fame, and other criminal and illegal practices. Moreover, there is a type which has little regard for manhood rights. This group will shut its mouth, turn its head, or wink its eye at any sort of proscription, caste and wanton narrowing of race opportunities, so long as it can hold political jobs or be continued in vice protection. Sometimes a group is not particularly seeking financial gains but simply desires to be let alone and freed from activity.

This easy going group is a menace because of its sins of omission. Those who oppose are less dangerous than the apathetic, the lethargic, the inert, and the indifferent, because the will to combat is not far from the will to believe. This group will throw away thousands of dollars in cabarets, but will not give a cent to fight against segregated schools, jim crow cars, discrimination in public amusement, or for an anti-lynch bill.

Of course these classifications do not include all the Negroes, even though the race may marshall a few thousand batallions out of this drone class. Pressure must be brought to rid ourselves of this group, and if riddance be too difficult or impossible, then to reduce it to a minimum. There is no need of carrying dead wood, especially when the load is too heavy at best. We have observed for some time that Negroes do not lack money so much as they do organization of their dollars, along with the ambition to make these dollars bring in the greatest return. We, by no means, are blind to the economic condition of the Negro, yet we feel fairly certain that among his great needs is the need to breathe into his soul the breath of manhood ambition, so that this moribund man of color may have life, and have it more abundantly.

The Advancing Young Peoples Club will appear in their first musical and literary program on Friday, November 16th, at the A. M. EE. Zion

Progressive Bapt. Asso. Holds Great Session

The meeting of the Progressive Baptist Association, held in Los Angeles recently, is reported to have been one of the inspiring religious gatherings of the current year. It is said that more than twelve churches have joined this newly organized religious body, and from the tone of the last session, the Progressive Baptist Association is stepping toward the first ranks.

Among the ardent workers connected with the Association are: Rev. Ramsey, Rev. Knox, Rev. Turner and many others whoose untiring labors in hte Vineyard of the Master are bearing spiritual fruit that will flourish for years to come.

An elaborate program was rendered which was a source of great pleasure and inspiration to auditors and participants alike.

As for the practical work of the organization, far-reaching plans for the State of California in the coming year were outlined in effective detail. The last year, according to the formal statement issued by the officers of the Association, closed with a clean slate, and the officers and members are at liberty to dedicate all their energies to practical accomplishment during the coming season.

LAST CHANCE FOR SECOND PERIOD "BIG VOTES" ENDS SAT., DEC. 1.

MISS CYNTHIA HILL WINS THE $50.00 SPECIAL MERIT PRIZE

NOW FOR THE FINISH

'Tis the coward who quits to misfortune
'Tis the knave who changes each day
The battle is fought on the home stretch
Then throws all his chances away.
The time to succeed is when others
Discouraged, show traces of tire
'Tis the fool who starts like a whirlwind
And WON twixt the flag and the wire.

Contestants who expect to be among the big prize winners equally that it is necessary to do hair line figuring to determine the finish as to who the real winner will be. The above is not of this kind. but each of the "live wire" candidates who are fought out during the next few days, for the Campaign comes to a fateful close in just two weeks from this Saturday. JUST TURNED IN THE MOST NEW YEARLY SUBSCRIPTIONS rumors nothwithstanding the struggle for supremacy will be the leader up to the present time.

It is a strange coincidence too. something unusual in affairs and surprises. These are the days which will test the resourcefulness and energy of the candidate. Here is where their courage takes the stiffness out of their kness and leaves them trailing in the dust. WHICH WILL IT BE? WILL YOU BE AN ALSO RAN? Supreme courage is needed in this fight, "Do or Die" spirit is vitally important and your greatset efforts must be put forth NOW.

The first period which closed last Saturday night was a very productive time for the candidates. Thousands of votes were cast, and even as we go to press this week, the aggressive contestants are hitting a fast and furious pace—urged on to do their utmost because of the realization that Saurday night, December 8th, is the last day of the race.

The competition, therefore, so far as the relative standings of the contestants is concerned depends almost entirely on the results accomplished by the various workers between now and last two final weeks. The LIVEST and most IMPORTANT PART of the campaign is now at hand. And while all the candidates are practically on the same footing—those who want to win—those who have the ambition and energy to make a real showing in the vote column are afforded the biggest opportunity of the whole campaign to forge ahead and get the winning votes. From now on to the finish is the time when 100 per cent work and 100 per cent results count.

And now for the whirlwind finish. Now for the sensations It is a subscription campaign, and you will have to get subscriptions to win.

Votes will be piling up much more rapidly during these 14 DAYS.

SECOND PERIOD VOTES IMPORTANT

The last big vote offer of The California Eagle's short campaign comes to a close in just two weeks from this Saturday night, December 8th, at 10:00 o'clock

After next Saturday night the lowest vote of the entire campaign goes inte effect. Between now and Saturday night, December 1st, a one year subscription counts 12,000 votes—a two year subscription counts 30,000 votes—a three year subscription is worth 65,000 votes—a four year subscription credits you with 125,000 votes—a five year subscription is worth 280,000 votes, and a ten year subscription credits you with 610,000 votes. The 100,000 EXTRA FREE VOTE OFFER remains in effect throughout the entire program. For example—just 17 one year subscriptions at $2.00 each will count 304,000 votes between now and next Saturday. Two five year subscriptions and one ten year subscription will count you 1,270,000 votes. By a little figuring you can se that a few very big subscriptions will put any candidate in the lead—or in fact an entirely new candidate with no votes at all to his credit at this time could outdistance all his competitors.

BETTER BE SAFE THAN SORRY

A few more laps and the course will have been run.Only a short time remains for you to choose between victory and de.at. WHICH SHALL IT BE? Don't overlock a single chance to better your condition to win—avail yourself of every single chance these next few closing days.

THE SUBSCRIBER'S PART

Contestants must necessarily depend upon the assistance of their friends and acquaintances to win or lose. IF YOU have not as yet paid up your subscription—do so at once, and help one of the ambitious candidates along.Your subscription will be welcomed and an offer of voluntary assistance will meet with just appreciation of the recipient. You probably intend taking The California Eagle. You need it and should get it if you want all the ntws; so why not pay for two-three-four-five or ten years and give the votes to the candidate of your choice.

WARNING

It should be remembered that the last of the big votes will be discontinued after Saturday night, December 1st, at 9:00 o'clock, after which the very lowest vote offer of the campaign goes into effect. IT IS IMPERATIVE for the candidates to work hard every remaining day if they wish to win.

Attention is again called to that part of the rules and regulations which says that should any candidate become INACTIVE, failing to make a weekly cash report he or she will thereby forfeit all rights to a prize or a cash commission. There is no cause for a misunderstanding of this rule,and it will be strictly enforced. There are some candidates whose names appear in the standings of the

A RACE SELLER EXPOSED AGAIN

By: CHANDLER OWEN

The Pittsburgh Courier this week has scored a scoop on a notorious Race Seller. Into its hands fell a letter from the sable Emperor of Africa, one Marcus Garvey, sent to a United States Senator. The Senator in all probability handed it over to the Courier. Such letters are by no means new to Senators. Every once in a while some Negro presents some little scheme for colonizing Negroes in Africa, Mexico, some Southern state, the moon, Mars or Heaven. Only about two years ago Professor Neval Thomas of Washington happened into a conference with some senators and congressmen where another hat-in-hand Negro was trying to get some money from Congress supposedly to carry out a colonization scheme in Texas. Of course this Negro did not explain how he was going to get Texas, and how he was going to get all the white people out and all the Negroes in. By the same token Marcus Garvey is constantly floored when asked these elementary questions. Garvey's letter is a fitting sequel to his Ku Klux Klan statement of a year and a half ago. Consequently from the point of view of venality, silliness and absurdity, no one is or should be surprised.

Despite the recognized absurdity, however, of the going-back-to-Africa fanatics—this is a fallacy which needs constantly to be refuted. It is a well known rule of psychology that a lie often repeated gets to be believed. It cannot therefore too strongly be reiterated that the Negroes should not go to or back to Africa if they could, and what is quite as important, the Negroes could not go to Africa if they would.

Next, Africa does not need any more Negroes: it has too many already. Africa needs to have Negroes leave it. If about fifty million Negroes could migrate from Africa, it would have an effect upon the continent very much like the effect of the Negro migration during the past few years from Dixie to the North. In other

Women Go Over Top.

Last Sunday, November 18th, at Independent Church, the women were in charge of the day's activities, and, needless to say, covered themselves with glory.

Speechds, music and other features enabled the clever, industrious and loyal feminine cohorts of the Independent to go over the top, and demonstrate that Woman is Man's Equal in Any, and Superior in many, fields of Endeavor and usefulness.

An address by Mrs. Estelle Lawton Lindsey, brilliant journalist and humanitarian, was a noteworthy feature of the day's program.

The men have not had their inning yet, bu tit is safe to say that to woman triumphant will fall the honor and glory of unveiling the great pipe organ within a few days.

THANKSGIVING

By Violet Alleyn Story

As we have gathered in rich harvests
from Thy fields,
As we have taken lovely fruits from
bending trees,
So gather Thou, O God, Thanksgiving
from our hearts,
So take Thou gratitude from those
on bended knees.

We sowed the ground with humble
seeds, but Thou hast sown
Our minds with wisdom and our
hearts with faith and love,
And if, from such a source our harvest was so fair,
Oh, how much fairer should Thy
harvest be above?

We've seen our tiny seeds yield flower, and fruit, and grain,
A myriad blossoms in each garden
bed,
Frail petals formed into the apple,
pear, and plum,
And sun-filled wheat from which
we'll bake our winter's bread.

So may'st Thou see Thy seeds have
born Thee beauty too,
Delightful songs and poems, pictures like glad flowers,
And kindly thoughts become great
deeds like ripened fruits,
And thankfulness to give Thee
cheer in quiet hours.

As we have gathered in rich harvests
from Thy fields;
As we have taken lovely fruits
from bending trees,
So gather Thou, O God, Thanksgiving from our hearts,
So take Thou gratitude from those
on bended knees.

WHY BOYS LOSE FIRST POSITION

Lack of responsibility, unwillingness to work hard, lack of thoroughness, false notions about salary and promotion and lack of principle are the five reasons why (90) per cent of the boys and girls of the United States lose their jobs, according to a report made to the Chicago Association of Commerce. Report noted that 90 per cent of the boys and girls lose their first position. The record also shows that in nine cases out of every ten the loss of position can be traced to one of five reasons noted.

Lack of sense responsibility is shown by neglect of work, failure to put the most important things first, and the expression of a general "I should worry" attitude.Unwillingness to work hard is shown by being late to work, stretching the lunch hour, and stealing a few minutes at the end of the day, watching the clock and wasting the time by social conversations and telephone calls during business hours. Lack of thoroughness is indicated most frequently by unwillingness to begin at the bottom and go through the drudgery of mastering each step before going ahead.

The real secret of promotion lies in doing more than you are paid to do. Keep yourself underpaid, as soon as you are overpaid you are bound to go backward. Lack of principle is shown in concealement of mistakes, untruthfulness and the constant making of excuses.

PASTOR AND FAMILY ROYALLY ENTERTAINED AT SAN FRANCISCO

Editor of The California Eagle:—

After wishing you and the entire force of the soaring Eagle a happy Thanksgiving, allow me to say that we were royally entertained by the citizens and churchmen of San Francisco, Friday evening, November 9th.

The ladies of the Junior Stewardess Board, of which Mrs. G. W. Morris is the efficient president gave us a royal welcome. When we entered the spacious lecture room which was filled with happy people from both sides of the bay, we were ushered to the center of a row of tables rectangular in form, and which were filled with a merry crowd.

Here the ladies of the church and board began to serve us with a splendid repast consisting of chicken salad on lettuce, saltines, olives hot coffee, ice cream, cakes and after dinner mints. About the time we began to enjoy the repast, Mrs. Tulip Jones came forward with the program of the evening, which was rendered as follows:

BRILLIANT RECEPTION AND DANCE

One of the most interesting events of the season was last Thursday evening, Nov. 15th, when Mr. and Mrs. Henry F. Nelson, of 2105 Arapahoe St., gave a reception and dance at Normandie hall for more than one hundred friends and acquaintances.

Mr. Nelson and a few of his closest friends spent more than two days decorating the hall. The color scheme was red, green and yellow, special decorations were prepared. Each corner of the hall and the South-end of the platform stood tall date palms, while on each side of the hall stood baskets of various chrysanthemums, on the north corner of the platform sat a huge bowl of holly berries and pointsetta, while at each door and in the ladies parlor stood floor lamps.

The double doors were thrown open into the dining room which made a lovely view and back ground, in the center of the table stood a large basket of chrysanthemums, while on the south-end was a large cut glass punch bowl filled with ice cold punch, to quench the gentlemen's thirst, who stood around in large numbers in their full dress suits admiring the ladies at the north-end of the table, as they stood about in their dainty togs around a beautiful square silver platter filled with various kinds of home-made cake. Mrs. Nelson wore a beautiful imported beaded sarice gown, she was assisted in receiving by Mrs. Lizzie Patterson who wore a lovely beaded gown; Mrs. Irene Butler, wearing a spangle net, over a pale pink satin with a large bow of tulle pink and blue tied on each side.

The guests included: Mr. and Mrs. J. A. Graham; Mr. and Mrs. A. Alexander; Mr. and Mrs. J. T. Wilson; Mr. and Mrs. Albert C. Brown; Mr. and Mrs. C. Ball; Mr. and Mrs. W. B. The Sunday School was largely attended on last Sunday. The order was very good, it was so good that the Monitor could not decide which class out of two was the most meritorious, there were 69 in attendance. On the first Sunday in December will be Sunday School Rally for the piano. The pastor was given the nice sum of $25.00 besides the regular collection toward the piano.

The pastor preached at both services to appreciative audiences, many visitors worshipped with us, they left the Mission seemingly benefitted and expressed appreciation of the cordiality with which they were greeted. Come again we are always glad to welcome you.

PHILLIPS CHAPEL C. M. E. CHURCH

After which the pastor baptized the candidates who were converted during the meeting. The pastor will baptize Sunday at 11 a.m. Ninety-six persons were brought to Jesus during the meeting. BIRCH STREET CHRISTIAN CHURCH
Cor. 14th and Birch Streets
Rev. A. W. Jacobs, Pastor

All services on last Lord's Day were good. Bible school at 9:45 a.m. was conducted with the usual amount of enthusiasm. Regular preaching services at 11 o'clock, subject found Matt. 6:33: "Do the first thing? first." Y.P.S.C.E. at 7 p.m. very good. Evening services brought a message from Job 14:14. "If a man die, shall h elive again"? The entire congregation felt very grateful to the Heating Plant Committee, Messrs. R. Turnage and S. Lee, who have completed the task of having the steam radiator system installed. The steam heat is now in, and is giving entire satisfaction. Quite a large crowd was in attendance. The Choir under the direction of Mme. Mozelle Te Outley rendered special music which played its part in making the services above par spiritually. There was one accession to the church also one candidate was baptized at the morning services.

The Missionary Society had with them on last Monday afternoon, Rev. I. N. Whittin who gave them a helpful lecture on the subject "Blazing the Way." Rev. Watkins of Chicago will address the Society next Monday.

PEOPLE'S INDEPENDENT CHURCH OF CHRIST
Cor. 18th and Paloma Sts.
Rev. N. P. Greggs, Pastor

Many of the recent events of this church institution are characterized by a significance that will mark an epoch in the history of not only this organized christian body, but will add to the distinction of the city of Los Angeles. Last Sunday was Women's Day. The women placed their names in the registry of fame in their telling efforts to reach their goal. Their speaker for the morning services was, Mrs. Ida H. Ford, who delivered an excellent sermon from the text, "Rejoice ye with Jerusalem". All music numbers were very good. In the evening an excellent discourse was given by Mrs. Charlotta Bass, Managing Editor of the California Eagle. Her talk was filled with logic and was very inspiring to women as well as instructive to men.

Next Sunday, November 25th is Men's Day. The men of the church are extending to the public a cordial invitation to be present at their Men's Day program. Peerless speakers of the day. At 11 a.m. a masterly sermon will be delivered by Dr. N. P. Greggs. Text, 1st Epistle of John, 3rd Chapter and 1st verse: "Behold what manner of love the Father hath bestowed upon us that we should be called the sons of God.". The morning services will be featured by unusual activities of the men of this and other churches and organized bodies of men of the city. Special music of rare excellence is to be rendered. The evening program will be very inspiring, musical a nd instructive. Los Angeles' favorite speaker, an orator of National fame, will cap the climax and crown the occasion with a matchless address. Financial reports will be heard from both men and women, the decision of which will give to the victor the right to unveil the magnificent pipe organ. Those desiring seats or standing room should come early to both morning and evening services.

On the second Sunday in December on the 9th, the great pipe organ will be unveiled. The following Monday night, Dr. Ray Hastings will give the first pipe organ recital. On next Thursday morning, Thanksgiving special thanksgiving services will be held ta the hour of 11 o'clock. The Eastside Board will serve dinner. At night a special musical program will be rendered.

WARD CHAPEL A. M. E. CHURCH
1252 East 25th St.
B. R. Guy, Pastor

Regular services a tthis church last Sunday. The Sanday School showed great interest. The offering increased creditably.

At the morning service the Pastor spoke from the text, Enter ye in at the straight gat e. There were many visitors present, and the large mixed congregation gave special attention and a number of Amens, were heard in different parts of the congregation.

Both Endeavors had good lessons, and at night, Rev. Redden preached from the text, Never Neglect an Opportunity. The mixed audience gave good attention.

Next Sunday will be Trustee Day and you are cordially invited to be with us.

We are laboring for a Special Thanksgiving Spiritual Rally for Nov. 29th. Come and give thanks with us at 11 a' m, that day.

TABERNACLE BAPTIST CHURCH
12th and Hemlock Sts.
Rev. J .D. Gordon, Pastor

Our Sunday School with Mrs. Reglar as Superintendent, was well attended, and is doing great work among the young people of our Church, and is growing both in interest and attendance.

For the morning service the Pastor continued his series of sermons on the Lord's Prayer, "Give us this Day Our Daily Bread, many were present to listen to this wonderful subject explained. We are glad to note the fact that the dove of peace has returned, in Tabernacle Church, and its a joy and pleasure to mingle with its members, therefore we extend an invitation to all who wish to listen to a gospel that is elevating and soul-stirring, our members continue to return back to their home of worship, on the 25th. of this month the Rev. Lewis, the great song evangelist will start his campaign in Tabernacle, and the public is invited to come out and hear him, our pastor Rev. Gordon will fill the pulpit.

Sunday night the pastor took for his text, Psalms 19:7, Subject: "Perfect Peace." At no time since his return has the pastor been at himself, as he was Sunday night and the presence and power of the Holy Ghost was so great that men and women without a church home rushed in and those unsaved cried out for Prayer.

WESLEY M. E. CHURCH—
8th and San Julian Sts.
Rev. A. P. Shaw, Pastor

Women's Day will be celebrated in great fashion this Sunday at Wesley M. E. Church. Among the morning speakers will be Miss Bessie W. Simon, Social Worker of Memphis, Tenn. The whole service will be in charge of the women. A fine program is being prepared for the evening service. A great treat is in store for all. Come early for a seat both morning and evening.

Last Sunday's services were good. The pastor's sermons both morning and evening were of a high order. Five persons united with the church during the day.

The $2000 drive is on in earnest. Dec. 16th will be the closing day. Both the men and the women are determined to excel each other in the offering. The winners will be banquetted by the losers on Thursday night in the Christmas Holidays.

Our motto is "Everything at its best this year. Come and see!

NOTEWORTHY TRIBUTE TO PASTOR

REV. FLETCHER LAUDED

Rev. J. E. Fletcher, a very capable pastor of twenty-one years' experience, and who has pastored a great many churches in California, very successfully, has come to os AnLgeles to take charge of the 2nd A. M. E. Church. He comes to us from San Bernardino, California, where he did a wonderful work for such a small community. When he took the charge of pastoring St. Paul's A. M. E. Church, there was an indebtedness of $2500.00. That was in October, 1922, and in July, 1923, a short space of time amounting to nine months, he had paid off the $2500.00 debt and had made a $850.00 improvement on the parsonage and church. The church was in a very poor condition; grimy, very much in need of paint and numerous other rundown conditions.

Since coming to us at the 2nd A. M. E. Church, he has reorganized the Community Improvement Association, started the Ladies' Aid Society to work for the new year, and organized a Forum, which promises to be a very interesting issue.

From the sermons that I have heard him expound on, I can say, that the 2nd Church will soon be ablaze with the fire of hope again. He is a very capable and amiable leader and speaker. Judging from the way the people of the community are responding to his call for support, we will not have room for the accommodatin of them in the small church we have, but will have to branch out and find a larger one.

May God help him to succeed onward, upward, and forward.

MRS. JULIUS M. BAKER,
Social Editor of the 2nd A. M. E Church.

LINCOLN MEMORIAL CONGREGATIONAL CHURCH—
34th Street and Central Avenue
Rev. E. E. Lightner, Pastor

A Thanksgiving message will be given by the Pastor Sunday morning and Rev. H. B. Gantt will preach at the evening hour. Rev. Geo. T. Simons, the Director of Religious Education for the Southern California Congregational Conference was with us the past Sunday and brought a splendid message on: "The Mind of Christ." The pastor occupied the pulpit at the evening hour and spoke on: "The Church." The Ladies of the Church will serve a Turkey Dinner at the Church Thanksgiving Day, Thursday, Nov. 29th, beginning at 11:30 A. M. Make your reservations early.

You are cordially invited to worship with us at all times.

BETHEL BAPTIST CHURCH
Y. M. C. A.—9th and Hemlock Sts.
Rev. H. D. Provid, Pastor

Our Sunday School was attended with usual interest. The lesson—"Jesus The Missionary," was read and discussed most profitably. One in the Pastor's class was so impressed that she expressed a desire of following the Saviour. Our Vice-Superintendent, Mrs. Gallerson is on the sick list, but she is convalescing and will soon be out with us again.

At the 11 o'clock service we enjoyed a season of refreshing from the text, "O, send out Thy light and Thy Truth and let them lead me unto Thy Holy Hill, and unto Thy Tabernacles.

The B. Y. P. U. session was very helpful. The subject "How to study the word of God" was discussed by all.

At night the pastor spoke from Luke 17:17, "Where are the Nine?"

Our services are more than ever delightful and encouraging. We cordially invite all our friends to them—but come praying for a blessing.

HAMILTON M. E. CHURCH
E. 18th St. and Naomi Ave.
Rev. S. M. Beane, Pastor

Great revival services are in progress at this church, conducted by Bro. William Lewis of Chicago. The spirit of the Lord is working mightily, and many have been added to the church, and many have gone to other churches of the city. On Sunday the pastor preached to audiences that taxed the large capacity of the building, and in a fine and devotional spirit, Bro. Lewis conducted the evangelistic services. His singing touched all hearts and brought the large audiences to tears as he poured out his soul in song, for the Master whom he is lifting up. The coming of Bro. Lewis to this church and to this city is a benediction and a blessing. Each night during the week the church has been crowded with persons eager for the message and the gospel songs. Special features marked the services each night. Mr. and Mrs. Fishburn spoke during the services, and delivered messages that thrilled each heart. Bro. Shaw preached a great sermon at the "Old Time Service on Monday night." On Wednesday night Mrs. Minnie Lindsay of our church delivered a fiery and appealing address, which was followed by a sermon by Prof. Johnson. On Friday night everybody that came dressed in something white, and the pastor preached a sermon from the text, "They shall walk with me in white because they are worthy." These services will close on Monday night, November 26th, with a great lecture by Bro. Lewis known as the "Bottle Lecture." You cannot afford to miss hearing this lecture, nor can you afford to be absent at the Sunday services. A cordial welcome awaits you.

MADAME TYREE BRILLIANT

Those who were fortunate enough to hear Madame Bertha Dickerson-Tyree last Sunday afternoon are still being thrilled by the memory of her vocal accomplishments.

Madame Tyree is the most accomplished singer that has come to us from the East. She is the possessor of a large voice, of wide range and wondrous sweetness. Although billed as a dramatic soprano she seems equally at home in coloratura, as was shown in the aria "Caro, Nome" from Rigoletto.

A charming personality, plus brains, which is lacking in many singers, assist in making her a fine artist. The large audience was vociferous in its applause of this deserving singer. Although greatly handicapped by the low pitch of the piano which prevented the best points of her voice from being heard she gave a good account of herself throughout the program. It is hoped that she will be heard under more favorable conditions in the near future.

The Bridgetower trio assisted in varying the program.

RACIAL CONSCIOUSNESS.

To the Editor of The Eagle:

When will the Negro be invincible and invulnerable? When he realizes the utter futility of passion's sway, when conscience and thought point a nobler way. The only thing that will adjust the inter-complex racial problems and racial antipathies is a concrete and consistent programme of racial solidarity.

The recent uprising in Oklahoma, and the precedent advanced by the Mayor of Johnstown, Penn., are positive indications that the partiality frozen in the veins of the whites is intensifying as the days roll on.

Providence will never modify mob-lawlessness, iniquity, injustice, ruthlessness which encircles the American Negro. The remedy lies in harnessing all our power and pooling all our strength in an effort to create a proper social and moral standard so that we could neutralize and counterbalance the abominable atrocities and hatred which had hitherto percolated the atmosphere of America.

The Jew is not ostracized from society like the Negro. Why? Because he has an industrial status, and is the greatest factor in the financial and commercial world, therefore, recognition is coerced as a sequence. If the Negro had an economical and financial status, which can only be acquired through sheer co-operation, he would be given greater respect and recognition by the Caucasian race. Again, we may ask, Why? The answer is this—because he would then stand for something in the machinery of the world's commerce and trade.

The Caucasian may not champion the idea of giving the Negro greater recognition out of love, but if his position, economically and financially, was like that of the Jew, commercial necessity would compel greater recognition. A great many people try to scorn the Jew on account of his race, but they are compelled to look up to him because he controls the money market of the world.

WM. KING BLACKBURN.

GREAT SERVICES COME TO A CLOSE

Great Revival services have been conducted at the Hamilton M. E. Church, on the corner of 18th Street and Naomi avenue by Brother William Lewis, for the last ten days. He has been greeted on each evening by huge crowds that have taxed the seating capacity of this very splendid building. He has sung his way into the hearts of men, and many have come forward to renew their vows and accept the Savior for whom he is pleading. These evangelistic services will come to a close on Monday night, November 26th with a great lecture by Brother Lewis, known as the "BOTTLE LECTURE." Come and receive the lessons it will teach. This will be the farewell service for this church. The Choirs of Wesley M .E. Church and Phillips Chapel C. M. E. Church wil ibe present and render some selections. This will be a great service. Don't miss it.

"FEMALE OF THE SPECIES" By Edna Steward

There is a time (set aside by hte Church) when woman in the fulness of wisdom and glory presents herself to the public. This time has been christened "Woman's Day."

On this day woman reigns supreme. She sings and the angels hover near, she speaks and her audience is spellbound at her utterances. She superintends or governs with judgment and grace as she moves about clothed in beauty and poise.

If you have seen "The Female of the Species" so enveloped and wish to review the scene, or if you have not witnessed such a glorious and grand scene, come to Wesley Chapel Sunday morning and evening and see her governing the church exclusively of men; hear her speak on:

"The Power of Thought in Every Day Life," by Estella Walker.

"The Call to Woman—Will She Heed it," by Bessie Simon.

"The Negro Woman in the World of Science," Dr. Vada Somerville.

"Woman," by Lula Slaughter.

You will always regret it if you do not accept this invitation.

TRINITY BAPTIST CHURCH
West 36th St. and Normandie Ave.
Rev. J. A. H. Eldridge, Pastor

Our services all day were good and up to the standard. The lesson taught in the Sunday School was full of interest and inspiring. At 11 o'clock, the pastor, in his Christ-like manner expounded the word of truth to us. His text was taken from Mark 2:4. It was very plain, but practical and helpful. Our B.Y.P.U. is very much alive. A great progress is shown. Rev. J. Madison Young, one of the Baptists' strongest theologians, filled the pulpit at 7:30. He spoke on the great love of God. His text was taken from John 3:16; "For God so loved the world that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life". We always feel very highly honored when it is our privilege to have Rev. Young with us. He spoke very encouragingly about our pastor and the work we are doing. Come out and help us make Trinity a greater church. A welcome for all.

IN THE MUSIC WORLD

By John A. Gray

In the current issue of the Etude, which, by the way, is of special importance on account of its being the fortieth anniversary number, there is an editorial called "A Master Lesson."

This editorial attracts great attention for two special reasons. The main one is the value of the article itselfself and the great principle set forth therein. The second one is the fact that this master lesson is given by a colored man.

The master lesson as set forth there, gives the very essence or kernel of a master lesson from any of the world-famed teachers. Its principles are the root and foundation of all good playing. It immediately shows the reason why there are so many players and so few artists. It tells why students waste so much time and accomplish so little. It appeals to the mind of a pupil. It shows him why. It is the real master lesson.

Since it is given by a colored man, the conversation is in dialect and is true to life. We are proud that in this special anniversary number of the Etude, whose circulation is in the hundred thousands, and whose pages are read by people all over the world, that an editorial is written around a "Master Lesson" which, even if fictitious, is attrabuted to the brain of a Negro.

Beneath the humor of the lines, one is conscious of the fact that a great honor is being paid to the race, in that it proves that he is capable of producing something greater than the barbaric strains of Jazz.

But then, let us give you the article complete, for your own consideration:

A Master Lesson

Esau played the slide trombone with more exopthalmic joy than any dusky descendant of the African veldt we have ever heard. Each brazen note pealed forth with the hsoul of Esau exalted to the earnestness of Gabriel. Every spare moment in the day found him with the trombone pressedd to his lips. Nighttimes he kept it under his bed.

Once Esau's teacher, who also hailed from Georgia, visited him and found the pupil practicing. We overheard a lesson, which was pedagogically so much finer than many we have heard in so-called high-class conservatories that we recount it here. During the lesson Esau was mute save for trombone toots and blasts and intermezzi of uncontrollable, joyous laughter.

"Mawnin', Esau. Look here, boy. What you all doin'? Call dat practicin'. Humph! You done gone play dat same note over 'bout a hundred times. Yas, I know it say it dere in de music; but how come you ain't use yo' haid? Ef you can walk there ain't nothin' more to learn about walkin'. You jes naturally walks. Wat's all. What you want to learn is to dance. You got to learn to buck and wing on that tube. Yo uain't never gone to learn to dance by jes walkin'. You's afeard to to buck and wing. 'Fraid you gone to fall down an' bust yo' haid. Gimme that trombone. Now play this lak I do. Thats right. Of course yo' make mistakes; but if yo' spen' as much time trying to buck and wing as yo' been spendin' 'walkin,' yo' gonna get up in the secon' line in de band. Stop! Stop! What kind of noise is that? Yo' got blinders on yo' ears. Yo' got to taste music with yo' ears, boy, just like yo' tastes chicken with yo' mouf. If it don't taste right, try another bite till yo' satisfied. 'Tain't no use yo' blowin' on that tube like yo' blowin up an automobile tire. Remember yo' makin' music, not jes makin' wind."

"B Square" Masonic Club Entertains State Grand Master J. H. Wilson

(By William Mells Watson)

The "B Square Masonic Club", a group of Masons from the five local lodges as well as those of neighboring cities with Joseph L. Oliver, Senior Warden of Holland Lodge as its president, and while only four months old now boasts a membership of 76 Master Masons, who on the second Wednesday night of each month meet at Parish Hall where the most enjoyable, educational and thoroughly interesting times possible for 76 regular fellows to have are had.

On the night of October 10, the club out did itself in entertaining its honored guest J. H. Wilson, Grand Master of the State of California, and just about went over the top in its declaration of support toward the proposed asonic Temple which the Grand Master assured us is to be erected here instead of Oakland as originally planned.

Hot shot and live wire remarks that preceded Grand Master Wilson's never - to - be- forgotten talk were made by Claude McKinney, the famour 'parliamentarian,' Rev. Byron and the illustrous orator W. O. T. Also our most distinguished "past master," Wallace Clark shot a wad of salt peter into the enthusiastic assemblage in his usual jovial and interesting manner.

Everything was at attention when the Rev. J. H. Wilson, State Grand Master arose and electrified the Solonmites with his most timely remarks and agreed to become a Square Club member and to pull with the crowd in building of the Masonic Time Masonic Temple here as soon as possible.

The closing words just before the big eats by President Joe Oliver completed the program and every square and compass packer present agreed that every mason not members of the "B" Square Masonic Club" are simply camping out.

GARVEY HEARD IN LOS ANGELES

BY: E. L. DORSEY
Staff Reporter

The New Tabernacle Baptist Church was filled to overflowing last Monday night, to hear Marcus Garvey extoll

GARVEY SPEAKS

his theories and philosophy of the Negro Race, discussing its ills and defect, and suggesting their remedy, as he sees it.

His recent incarceration in prison dies not seem (outwardly at least) to have daunted his ambition and determination to carry thru his program as originally launched. In fact, he was more fiery than ever, and the 1500 or more people who packed the church edifice to capacity and more, were held spellbound for an hour and a half by his eloquence.

The merits and demerits of Garveyism have been a subject of public discussion for some time, throughout the country.

His visit to Los Angeles and the West at this time has aroused a great deal of interest, pro and con, and will have a more direct bearing than anything else as to whether Garvey is to continue or be submerged by recent events which placed him in the shadow of the penitentiary, caused one of his former leaders to be assissinated and several others to be arraigned for misappropriating the funds of the organization.

Mrs. J. H. Shackelford, well known realtor, is traveling extensively thruout the East and Middle West. He reports having a highly enjoyable trip. Mr. Shackelford is a keen observer, and promises interesting and illuminating comments on conditions in general, upon his return.

EDUCATIONAL NOTES

What the Night School Offers

Opportunity lies, trampled upon, like a banel-hoop beneath your feet. You walk upon it, it flies up and hits you in your face, you curse it, cast it aside and go on. Every night hundreds sit within the walls of one of the city schools, seeking opportunity, hiding in her lair while others shun her as tho she was a deadly leper.

The young bricklayer, plasterer, day laborer, sits for a few hours fitting himself to become the boss, foreman, and eventually the contractor while a thousan dof his fellow workmen squander their good wages upon the pool table, dance floor, and street corner, laying the foundation for sorrow, bitterness, disillusion and what-might have-been-had-I-done-so-and-so.

The house girl, maid, stock girl, etc., sits in a movie, while a fraction of her sisters plugs away at the old typewriter, bones away at stenography, millinery, dressmaking, beauty culture, and the other subjects that the study of will cause to be better and bigger men and women.

A hundred young Negro men sweat and frolic upon the dance hall floor while one studies house wiring, ignition, auto mechanics, sheet metal, etc., and has time to go home to his well-earned rest.

Five hundred young Negro women perspire and frolic upon the dance hall floor while one studies for her future.

Ten years hence there will be one hundred porters, bootblacks and scavengers, to the one independent electrical contractor. There will be five hundred cooks, servants, and other menials, mediocre wives and uneducated helpmates to the most common of the fellows as compared with the one woman in the independent position who is then the companion to the man who has gone ahead.

Young man, young woman, old man, and old woman, acres of diamonds are under your feet, wealth and position are but for the grasping. Ask yourselves where and what you'll be when June rolls round. Seek and find out what you can be when June rolls round. Join the night school class, use the time you throw away. When June comes your time will be worth more to someone else. That's what really counts. That's what the night school offers.

SERVICE

The young women of this city who have struck the eye of this observer as having had a thought to the public welfare as well as being representative members of their particuular groups are Misses Addie Hutchinson, Berthella Glenn, Hilda Johnson, Edith Hundnell, Mildred Washington, Edna Hurd, Rowena Muckelroy, Edna Johnson, Naida McCullough and Rosamell Hebert.

From conversation and association "Observer' has noticed that these are not content with being merely social butterflies, but want to do something. The people can expect great things of the above.

Rev. Douglas of Louisville, Ky., one of the most distinguished elders of the Apostolic Faith, and a member of the P. F. of W., is visiting Elder W. M. Carson and congregation at their beautifuulu new edificeg at 1122 E. 33rd street, near Central Ave. Rev. Douglas is not a stranger in our midst. We remember him for hihs soul-stirring sermons here a few weeks ago at the above named church. Rev. Douglas is known throughhouht the East and Middle West as an authority on Biblical theology. He will be in our midst until Elder W. M. Carson is fully able to resume his duties as pastor.

The public is cordially invited to attend all the services and hear this great man of God.

MEN'S SCORE

THE BRANDON MALE CHORUS MAKES CREDITABLE HISTORY

Perhaps never in the annals of Los Angeles musical world was such performance of rhythmical succession of harmony displayed by a chorus consisting of more than thirty male voices as was staged at the New Hope Baptist Church last Tuesday evening by Madam Brandon and her male chorus. When the competent teacher of the chorus emerged from an anteroom in view of the audience, her face was so dazzled with the musical art that the audience was enthralled with her majestic presence. Ere long a note was sounded representing the very poetry of motion, more than thirty men followed on, and halted at the command of their leader, and then, in an outburst of harmonious melody they sang the "Rose Maiden", and before the enraptured audience could control itself under the spell of such an unprecedented experience, the thirty or more voices rang out in still more thrilling tones, in Negro Melodies, "Its Me, Oh Lord," "The Gospel Train." Just in time to save the rapt audience from a complete state of ecstacy, a change in the program took place. Gilbert Allen at the piano displayed unspeakable technique in "Impromptu," and, "Rustle of Spring." Prof. J. C. Banks appeared in "Lasca," (a Texas Romance), and a humorous selection. These were so esthetic and pleasing that he was encored time and again. Laurence Pollard's "Invictus" by Bruno Kuhn added another spell of jovialness. Then the Brandon Jubilee Quartette consisting of Messrs. Hollins, Von Meter, Coleman and Biggers in "Come Where the Lilies Bloom" added several degrees to the musical thermometer. The Chorus again sang, "O! Lovely Night." Space would not permit to speak of the most excellent skill with which Ashford, in "My Task", Atwell Rose, "Mole Perpetuo" and Dewey Johnson's "Invocation to Life" and "Lullaby", "Miserere" led by Madam Anna Range, Soprano and Mr. Chas. H. Boston, Tenor, with the Chorus joining in. Finale "Goodbye", by the Chorus. The sentiment of all present was voiced in one expression by one of the guests of the evening, (white), "We have never listened to such wonderful talent, and behind it all stands a capable instructor. My Friend Recommend You to Me.

Nine persons out of every ten who come into my office write or call me by phone for appointment, greet me with the six following words: **My Friend Recommended You to Me,** and I appreciate those words beyond expression, they mean more to me than all the gold in the world; for those words show the confidence that reputable citizens have in me and in my business methods. They more than repay me for the effort and hard work that I put forth to save my clients money and worry. I have striven to make a friend out of everyone whom I have had any business dealings with, and those words assure me that I have succeeded. There is not enough money in the whole world to tempt me, or cause me to betray the confidence reposed in me by my clients and I believe that everyone of my clients has sent his or her friend to me. To those seeking homes, or other property, may I serve you? A few of my special prices and terms:

Lieutenant Glenn and Attorney Clinton Ross have a practical experience of just how far our good white folks will go to keep us down.

DISCRIMINATION.

The Civil Service continues to be a great big joke. Only recently Lieutenant of Detectives Glenn passed the test for promotion with flying colors. As a matter of fact he stood number three on the list for a Captaincy. Was he appointed? Why we should say not. Reason? A damning prejudice keeps this highly capable officer down. If he had happened to have been white, he would have long since been perhaps Chief of Police of this wonderful city.

EQUALITY BEFORE THE LAW.

Lawrence Johnson, who with his wife on Central Avenue, near 20th street were out walking; a rough neck it seems obstructed his path. In order to pass the obstrepous rough neck, he touched him slightly. He threatened Johnson, used vile language before Johnson's wife, Johnson knocked him down. The rough neck ran, it is said, to get a gun; he met his brother, his brother became infuriated also, they went to Johnson's house. They said they were going there to kill him. He pushed open Johnson's door (so the story goes) made a motion as if to draw his gun. Johnson did not intend to go that way if he could help it and in fear that he would lose his own life, fired, the rough neck fell mortally wounded and died.

This case comes up on next Tuesday before Judge Avery in the Superior Court. Hrris, the man who was slain, was a white man, Johnson was a black man. Does anybody for one moment think Johnson will have an equal go before the law? If you do you have another thought a-coming, for already propaganda is being used to stir up prejudice and race hatred in the minds of jurrors. Harris has a host of relatives nd friends, they will swear to anything to hang Johnson. No one has come to the forefront to help this defenseless man, the one white witness who was fair enough to testify to the truth and this truth would have made Johnson free. But he cannot be found, therefore Johnson needs to fight with his back to the wall against great odds that the truth should assert itself despite those who would swear away his life. Attorney E. Burton Ceruti and Joseph W. Ford will represent Mr. Johnson and all that lawyers can do will be put forth by both these noted criminal lawyers.

NATURAL MORALITY.

"Honesty is the best policy," but he who is honest because it is the best policy is no longer honest." Maybe so. It depends upon the meaning given to the term used. At any rate, it is a far cry from the practice of the "natural man" to the position taken in the above statement.

And yet we believe that to be honest, truthful, etc., is perfectly natural. The apparent discrepancy between this statement and human conduct lies in the fact that honesty and other moral conditions are relative in the impression they make on the consciousness. A man may steal bread to keep himself from starving, and protest that he was not immoral. Indeed, a court has sometimes held that, in such a case, the act was illegal but not immoral. Hence, the relationship of an action must first be determined in order to make it appear moral, or immoral.

Personal interest stands high in the natural, untrained mind, and the conscience approves whatever will advance it. For this reason, lying, thieving, the exercise of brute force, and so on, are approved by a savage as a means to add to the individual welfare. The first upward tendency that serves as a check on this is loyalty to his family. He would not steal from one of them. Then follows rapidly loyalty to his clan, tribe, and nation. It may be observed, however, that it is his personal interest in these wider spheres of reltionship that directs his action. Finally under divine training, comes his interest in his fellowman and he will no longer do anything that will be injurious to him.

Now, the morally untrained boy or girl who takes what is not his, or who tells an untruth, is no worse naturally, than the better trained one who will not do these things. A similar amount of training will not produce the same results in each of two children. But in each case, that amount of training which gives a like impression to each child, (other things being equal) will bring the same moral action. The point where personal interest receives a different outlook, cannot be located in a general way, hence the general necessity for individual attention.

Proceeding from the individual viewpoint, it is known that a child who will not, for instance, falsify for personal gain, will do so out of loyalty to his playmates. This is not an immoral but a moral action, as he sees it. Moreover, it is useless, as a rule, to try to impress upon him who has done this that it is wrong.

COMMENTS

By: W. J. WHEATON

The American Legion, composed of the men who fought, or who were drafted in the late World War, is meeting in San Francisco. Legionares from all of the states in the Union are representing their different Posts. North as well as South. The writer has a very close acquaintance who officered at the head of a company of infantry, and was a participator in the thrilling offenses which led to the defeat of the German army. He introduced us to a "Buddie" who served with him; the "Buddie" hails from Alabama. During the course of a conversation the Alabaman commented on the difference in the treatment of the Negro here and in Alabama. When he was asked the reason why he said "The Negroes of my section are not refined; are uncouth." Then he was asked if it was not the fault of his particular section that ignorance and uncouthness prevailed. When he was shown the dissimilarity between the educational advantages given to the Negro in California and Alabama he readily acknowledged that the public facilities given the Negro for an education, even elementary, was sadly lacking. HE WAS A BROAD MINDED SOUTHERNER.

The lack of us taking advantage of the splendid opportunities for an education which will fit us for the battle of life, has often been commented upon in this column. It is a rare sight to see one of our boys or girls graduated beyond the Grammar grade—although parents may be fully able to give the student a more advanced schooling. We do not believe that the parent of today has lost the stimulus which led the parent, barely removed from thraldom, to sacrifice that their offspring might be given a chance to cope with the problems of life, rather do we lay the apathy to the offspring. Studiousness is an unknown quantity among nine tenths of our young men and women. The aping of "elite society" and the tendency to frivolity is the lure which is drawing the masses away from things which benefit.

A party of young folk were having a contest at tennis, and it was a beautiful sight to see with what grace and energy they entered into the spirit of the game. One could not but help notice their vigorous bodies; the brightness of the eye, and the grace of movement. Ah! Here is the foundation that will make of the race a people; a people who will overcome by sheer virility and mental capability the barriers which confront them. We pictured them bending over some intricate problem under the shaded light, or discussing some medium thru which they might serve their people or humanity, but alas! Instead, they planned to attend a dance and were discussing the newest dance steps. Laughter and mirth are youths own, and pleasure in the dance and the sports is their right, but we are not as yet far enough removed from previous conditions to subordinate all racial interests to them. There is a serious side.

It may be a jolt to the ego of some who already believe that they are "Moses", but when the emergency arises, according to history, the right man appears. We have them now rattling around and demagouging; trying to exploit their fellowmen politically and industrially, but the leader is yet to come. Eventually he will come. If not from the ranks of the collegiate then, from some other source.

Longing eyes are cast toward the ranks of the budding generation. Will they meet our expectations, or will they fail us utterly? We know that the leader who is to pioneer us to a fuller citizenship has not yet arrived. He must be unselfish; working for the interest of the masses. He must be honest in his dealings with his fellowmen and allow no cajolery or promise of personal reward to swerve him from the path which he has chosen to trod. He must be without fear, and when the ends of justice are sought there should be no compromise. From Moses to Abe Lincoln and down, emergency has created the right man.

Two men were arguing. One of them, a preacher, was defending the divinity of Jesus. The other while acknowledging human leadership of the Nazarene doubted his divine origin. We wonder that if the world could be brought to a knowledge of the humanness of Jesus and soundness of the doctrines which he espoused for th ebetterment of humanity, and subordinate the theory of divinity as a non-essential in furthering the brotherhood of man; would not bring a closer perspective in the new knowledge of life. It is remembered that many barbarities were committed in the name of the Christian God. History is full of ancient attracities under its guise. Not many generations back one was not a "believer" unless he believed in infant damnation. It is a beautiful Idyll, the humanity of Jesus, and it is splendid to believe that God can soothe the bruised soul of humanity. The more that one solves the humaneness of the Nazarene the nearer are we brought to Divinity. "I will draw all men unto me" was uttered in the spirit of human love. Jesus was a great leader. Unselfish, fearless, without compromise for a principle. He has lead down the ages.

REFLEX ACTIONS ARE BODY GUARDS

By E. B. Lewis B. Sc., M. D.,
1618½ East 9th Street

"REFLEX ACTION" is an expression used frequently in printed matter and lectures, but seldom made plain to most persons. Reflection is the mental digestion and thinking over of knowledge and judgments. When a man reflects upon a matter he is supposed to exert his best thoughts and judgments upon all of the real, obtainable facts.

Reflection is, then, one of the chief human physiological activities. It is man himself, as a higher and reasoning animal, far removed from his blood brother, the ox. A "reflex action" on the other hand, is the extreme contradictory of reflection. It is a simple, swift and unconscious response of something alive to something else.

Living things co-ordinate and adapt themselves by unconscious or "reflex actions." Human kind is "what it is" because of the beautiful adaptations of our structures effected by the reflex activities entirely outside of all conscious knowledge.

WHAT REFLEX ACTIONS ARE

Reflex movements in man and other animals may be illustrated by the kitchen cook who intends to serve frogs' legs as a dinner delicacy. The legs of the beheaded and about-to-be-cooked creature, when pinched will bend an ddraw up sharply. If the skin of th eheadless animal is moistened with lemon juice or other acid, the leg on the affected side will scrope off the offending agent, just as a dog scratches himself for fleas.

These actions are called "reflex" because the irritant upon the foot or the skin disturbs the senses. The unperceived messages are flashed to the lower relay station of the spinal cord, which switches them directly to the nerves, and then they make their exodus from the spinal cord to the appropriate muscles.

In a word, a reflex action is a beaten pathway, the shortest distance between two living points for the desired purpose. There is a definite end in view in reflex actions, despite the absence of consciousness. A reflex action appears swift and simple in its perfection. It is ready-made, inherited and originally complicated. It is an instinct.

SHORT PATHS TO SAFETY

Automatic winking of the eye is a reflex action. Whenever there is a slight irritation of the sense of contact, be it from air, wind, dirt or muscle strain in the eyelids, they flash into a "wink." The reflex actions of the beheaded frog have been frequently duplicated in victims of accidental injuries to the spinal cord at the neck, "broken neck" as it is termed.

To the uninitiated, such movements spell thought. Novelists are at times keen to play upon the credulity of those who would like to know "what executed criminal thinks." If he wiggles hi stoes the instant after execution, they hail it as a message from beyond the grave. What consciousness is cannot be definitely affirmed or denied. What it is not, after its behavior o rmanifestations have had the major senses, muscles and the brain interpret it, is plainly apparent. Reflex actions can occur independently of the nerves and brain. They may sometimes respond on the instant to direct contact or even to the distant wave of some other substances.

This is notably true of materials sent through the blood channels. Thyroid substances, as well as the principles of many other textiles of animals, immediately bring into play som edefinite activity of man and other creatures, according to the kind and the amount of the fluid as well as the points they reach. Evidently, "reflex actions" are short paths through which the machinery of life most quickly and accuurately reaches the goal and scores a touchdown for health, wealth, conquests and happiness.

CAMPAIGN NOTES

The next vitally important daye, will, no doubt, be ever productive for the "live wires" in The Eagle's Big Campaign, and so far this week none of them have slackened their pace to get votes for most of them realise that the campaign comes to a sudden close December 8th, at 10 o'clock p. m. One lady said that she was just commencing to get started and that she had not even seen half of the people that she was going to get subscriptions from. The campaign up to the present time has been a neck to neck race, and the contestant who makes the biggest effort between now and December 8th by jumping in and getting a few long term subscriptions can "boost" this score at a winning pace. Remember—you can't get too many votes—

From now on it is going to be a keen race, and at 10 o'clock Saturday night December 8th, which is the closing date of the Eagle's BIG campaign some energetic person is going to be just $1,795.00 richer.

Remember—that the votes decrease after December 1st quite a bit, so you must put on all "steam" and take advantage of this period. The way to "Boost" your vote score is to work on the 2, 3, 4, 5, and ten-year subscriptions.

Mrs. Callie Brookins continues to add to her score, and her friends predict a whirlwind finish for her.

Mrs. E. Lofton is also "whooping" things up, and with the effort she says she is going to make will be in the lead soon. Watch her step right out.

Mrs. F. R. Brooks, of Seattle, hes been going right after things, and she is determined to walk away with the first prize.

Mrs. R. M. Banks is going to get the big ones which count the most.

Dr. A. L. Brown, of San Diego, has not been idle, and bids fair to make some of the fast ones get busy.

Mrs. Augusta C. McCallister has some fine additions to her vote score, which have been passed in by her friends at the Eagle office.

Mrs. E. C. Buckner is a "go-getter", and always has good news when she reports.

Mr. Chas. S. Broady knows the value of keeping right on getting votes in this second Big Vote period.

Rev. L. B. Brown keeps on plugging away. It's hard to keep a good man down.

Miss O. E. Donaldson has some friends who are determined she shall win the Reo Six Phaeton and her vote shows that her friends are backing their talk with subscriptions.

Mrs. Bessie Dickerson, of Pasadena, is now getting her campaign started in earnest, and will no doubt make some of the leaders nervous before the next count is announced.

Mrs. Wm. McTrent is a hustling candidate from Marysville, and we learn she is preparing for a whirlwind finish.

Mrs. Virginia Corry, of Pasadena, is working hard and her efforts are meeting with unusual success. She will not be satisfied with anything but the first prize and her friends predict that she shall have it.

Mrs. F. C. Clines, Jr., is piling up the votes, and while she is very busy with other duties she finds time to get some big subscriptions while they count the most.

Mrs. Chas. B. Dones of Redlands, California, has fattened her already nice vote standing and will make it hot for some one before the campaign is over.

Peter Mitchell, of Hanford, Calif., seems to know just how and where to get the big subscriptions and has not overlooked a single chance to get one during the past week.

Rev. M. W. Irwin is coming along and promises to be a real contender for first honors.

Mrs. Isaac Johnson is still piling up votes and is not overlooking the fact that this is the time to get all the big subscriptions possible.

Mrs. L. Lofton is getting her campaign organized nicely, and she says that she intends to be leading the field before the next vote score is made up.

Mrs. H. E. Norwood is a very consistent worker, and is daily adding to her fine vote score. She says that if the rest of the contestants expect to win the Reo Phaeton they will have to "step" some.

W. C. Alexander, of El Centro, knows how to get the big votes, and he is making full use of knowledge the way he keeps bringing the votes in.

Mrs. Anna McGee is hitting them hard, and when it comes to putting over the big ones—she's there

Miss Anna Louise Griffin has also received a lot of votes during the past week.

The out-of-town candidates seem to be holding their own in the BIG race, and it is evident that they mean business the way they are sending in votes to the Eagle's office.

Mrs. Mabel Turner's friends are surely anxious to see her come out on top.

Mrs. J. G. Allen has organized her campaign in fine shape and she has made some big strides in the last week.

Mrs. M. G. Patton is another contestant who bids fair to make things "hum" in the next two weeks.

Mrs. G. Gillespie has things going now and big things are expected. She will be bound to line up by December 1st.

Mrs. Charlotte Kimbrough reports that she has any number of prospects that she will be bound to line up by December 1st.

Ed. T. Hubbard is one of the busy candidates who is getting busy these last vote days.

Miss Winifred Ragsdale promises that she is going right after things from now on since she has found out that it takes votes to win the Reo Phaeton.

Miss Cynthia Hill has been one of the "live wire" workers, she is making things "hum" in her campaign to win the Reo Phaeton.

Mrs. Clarence Jones is getting her share of votes from day to day.

Mrs. J. Hickerson's friends keep on "boosting" her vote score regularly.

Miss Elizabeth Perkins has by no means forgotten the foot that now is the time to keep on pulling up votes.

Mrs. A. L. Jones, of Santa Barbara, Calif., is making some wonderful strides, and we expect her to outdistance a number of others who are in the race to win the Reo Phaeton. Votes are flocking in to her credit.

Miss Theresa Young has given good account of herself, and says she wants that Reo, and won't stop getting votes until the last minute.

Eagle's Contest Ends in Seven Short Days

SEVEN MORE DAYS—then the question will be answeded as to who will win the $1,795.00 Reo Six Phaeton Automobile and all the otheer big and valuable prizes to be given away by The California Eagle.

Next Saturday night, December 8th, at 10 o'clock sharp is the last minute of the now famous $4,000.00 Grand Prize Distribution. The time that all the candidates have been working for is almost here—the fatal moment whereby someone will be made just $1,795.00 richer not to consider the glory and honor that goes with the winning of such a superb prize.

Even to the disinterrested outsider it is apparent that every one of the "live wire" workers is redoubling his or her efforts in the final dash for supremacy and rich rewards. The vote standings are mounting higher and higher. The fight is at white heat—the rivalry is intense and the battle is bringing out surprising ability among the best hustlers who ever competed for an award. The best man or woman is going to win, but so far the race is so hotly contested that it will never be known until the last minute who has been the most successful.

Last Big Vote Days

After this Saturday night at 9 o'clock, the lowest vote of the entire campaign goes into effect. Now you can get votes in the Double Quick—up to Saturday night, December 1st, at 9

RECITES FACT THAT ANY PERSON ENTERING THE PREMISES MASKED OR IN DISGUISE IS SUBJECT TO FINE AND IMPRISONMENT IN STATE PENITENTIARY, ACCORDING TO LAW.

Humboldt, Tenn., Nov. 1.—(Special)—On account of the formation of the Ku Klux Klan in Gibson County, Judge Thomas E. Harwood has charged his grand juries as follows:

"You are further instructed by the statute in this state that if any person or persons in mask or disguise shall prowl or travel outside or walk thru the country or towns of this state, to the disturbance of the peace or to the alarm of the citizens or any portion of the state, upon conviction shall be fined not less than $100 or more than $500 and imprisonment in the county jail at the discretion of the jury trying the case.

"It is further provided that if any person or persons in disguise or in mask by day or night, shall enter the premises another, it shall be prima facie evidence that his or her intention was to commit a felony and upon conviction shall be imprisoned in the penitentiary not less than ten or more than twenty years, and that if any person while so prowling, traveling masked and in disguise, assault another with a deadly weapon, he or she shall be deemed guilty of an assault with attempt to commit murder, in the first degree and shall be punished with death or with imprisonment for not less than ten nor more than twenty-one years, and these acts the court is required to give you in charge.

"It is likewise a violation of the law for any person, whether in disguise or masked or not to do any of the things before enumerated to the disturbance of the peace, or the alarming of the citizens of any portion of the state, or for the purpose of injuring or destroying the property, or for the intimidation of any of the citizens of the state in any form or manner, and the punishment is is a fine and imprisonment.

"This is a brief epitome of our statutes on this subject and should it become material in your deliberations to have before you these acts, call on the attorney-general, who will furnish you with the same.

"In the midst of great unrest and disturbed conditions of any civilized country there is always a disposition to originate and prescribe all manner of nostrums or panaceas to overcome the fruits that follow in the wake of such chaotic conditions. Christianity or civilization has never been furthered or forwarded by means of any secret political or secret religious orders, and never will be, as history reveals. The ongoing of Christianity and civilization is retarded by secret organizations and inimical to the teaching of the Master in both the Old and New Testaments. That vice and crime may be or seem to be rampant, is in my judgment, the legitimate outgrowth of the indifference and moral cowardice of those whose duties as good citizens it has even been to fight it in the open and help enforce the laws and not violate them.

"If the well-meaning organizations because of such purpose receive public approval and exemption from the consequences of violated law, it then becomes impossible to restrain the lawless and vicious, and why should not this be the logical result?"—Nashville Banner.

OPPRESSION DISINTEGRATES THE OPPRESSED

By: WILLIAM PICKENS

This is certainly the rtsult of oppression beyond a certain point of oppressiveness. We often say of the oppressed, "They don't stick together—they are not united. They quarrel too much among themselves—they are jealous of each other; well, they are all inferior."

It is simple for those who are not being oppressed to denounce those "weaknesses" in the oppressed. Ten years ago the proud and mighty German might have said to the Negroes of Georgia and Alabama, "You people are being oppressed, and yet you bicker and fight among yourselves. If we were in your place, we would all stick together."

But in 1923 we see the Germans under the oppressive heel of France, and killing more of each other than the French kill. The extreme oppression has simply disintegrated their society, and the forces which formerly pulled together are now pulling apart and against each other. They are either scattered or antagonistic. And whatever difference there is, is in favor of the American Negro; for the German has had five years of oppression, while the Missippi Negro has had about three hundred and five.

To picture the ultimate effect of exreme oppression, imagine a block of wood, a section of tree trunk, subjected a lineal pressure in a vice or under a hydraulic press. As the pressure is gradually applied, it will at first only demonstrate the cohesiveness of the fibres and wood structure; they will resist the pressure at their ends, they will resist rupture, they will support each other.

But as the pressure passes beyond a certain point, those fibres will burst away from one another and begin to bulge out. The fibre that at first strengthened and stiffened its neighbor, now pushes its neighbor out. Formerly friendly fibres now becomes enemies. Their proximity, which was their power, is now their weakness. Each splinter and fibre becomes, as it were, an ally of the pressure that would destroy all of them; while that pressure pushes at their disintegrated ends, they in turn push each other.

In the Ruhr some Germans are helping the French. In Georgia and in "Liberty Hall" in Harlem, some Negroes are helping the Ku Klux.

But man has one possible advantage over the wood fibres and splinters, if he will use the advantage: Man can think, and, as a result of thought, can will and even reverse his actions. The wood fibres and splinters will go on disintegrating under the action of the blind, inexorable natural forces.

But when a group of men find themselves disintegrating under the hostile forces of oppression, if they have brains enough they may call in the super-force of intellect, take heed to their ways, reverse their tendncies—and RE-INTEGRATE!

WOULD OUST SAN DIEGO NEGRO FIREMAN

Objection to Negroes being located as firemen at the Kearney street fire station was made to the common council this morning when a bulky petition setting forth the objections was filed. The objectors say Logan Heights is a residence district and that the location of colored firemen there will result in Negro residents moving in, resulting in "injury and damage to and dissatisfaction of the white residents."

The petitioners also declare that the station is located in the immediate vicinity of one of the largest junior high schools in the city and that "perhaps the most important reason why a colored crew should not be maintained at this fire station is that it is located right in the immediate vicinity of one of the largest graded schools and one of the largest junior high schools in the city, and that it is a well-known fact, as everyone will concede, that children naturally look upon policemen and firemen in their uniforms as men of higher rank and dignity than the average human beings, and such an impression in young minds, is right and proper, as conducting to good citizenship and patriotism."

The petitioners also say:

"To place a colored police force in the vicinity of these schools, or a colored crew of firemen is plainly an unwise, unpatriotic and shortsighted act when viewed from the proper point, and is contrary to the best interests of the community, the city and state. To place a colored crew there is unfair, both to the firemen as a body, of the police department, as well as to the city as a whole. The influence of such a move is far reaching and tends to form race prejudices, embitterments and quarrels, resulting eventually in race wars, such as afflicted our national capital only a few months ago, and which arose, we believe, from just such unwise action as that of elevating colored men to conspicuous places in white communities.

"The races cannot assimilate, and it is always best to keep them as much apart as possible, and especially is it desirable that race prejudice and quarrels should not be propagated in schools by the establishment of institutions in the immediate proximity thereto that will tend to produce the unhappy conditions that everyone knows eventually will arise where the races are thrown into contact."

The petition has been in circulation since November 8th, and as filed contained the names of about 400 residents of Logan Heights.

"Lost Beaut yof Japan"

The above was the subject of a most charming and illuminating address by Mrs. Estelle Lawton Lindsay, journalist, humanitarian and world-traveler, at the meeting of the Sojourner Truth Club last Monday afternoon. Mrs. Lindsay visited the Island Empire just before the recent devastating earthquake and her discourse, from the historic and geographic viewpoints was an intellectual treat, greatly enjoyed by an enthusiastic attendance of members and guests.

MISSTATEMENT CORRECTED

Two weeks ago an erroneous report as published to the effect that Dr. Towles of 1435 Central Avenue, who was called to the bedside of his father in Omaha, arrived only after the death of his parent.

The fact was, he found Mr. Towles, Sr., greatly improved, and the doctor returned to Los Angeles at once. Latest advices from Omaha indicate that his father is well on the way to recovery.

HANDLE ALL LINES OF GOODS

Washington, Nov. 28—The members of our group are finding it profitable to engage in trade clearly indicated by the fact that 23,526 are retail dealers, who are selling to satisfied customers, most everything that can be alphabetically listed from A to Z, or from agricultural implements to xithers. Included in the list of tradesmen and business enterprises conducted by them are 6,339 dealers in groceries; 3,194 hucksters and peddlers; 3,009 butchers and meat dealers; 1,759 dealers in coal and wood; 1,132 junk dealers; 689 produce and provision dealers; 256 furniture stores; 262 dealers in dry goods, fancy goods and notions; fruit dealers, 216; boot and shoe, 143; clothing and men's furnishings, 128; jewelry, 95; hardware, stoves and cutlery, 74; lumber, 60; and automobiles and accessories, 55. There are also 884 general stores; 910 druggists and pharmacists; 573 candy and confectionery stores; 194 cigar and tobacco stores; 10 department, and 13 five-and-ten-cent stores. Other dealers specialize in such things as art and artists' materials, bicycles, books, carpets and rugs, coffee and tea, crockery and glassware, flowers, flour and feed, furs, gas fixtures and electrical supplies, harness, ice, leather and hides, milk millinery, music and musical instruments, oil, paint and wall paper, optical goods, rags and stationery. With proper racial support it is easy to believe that the number and the business volume of these establishments could be materially increased and thus give employment and training to hundreds of our young men and women, many of whom find it difficult to obtain other than menial work.

MEN ENTERTAIN CHOIR

On last Monday Evening, November 26th, the men of New Hope Baptist Church Choir showed how artistically they can entertain without the assistance of the ladies. Covers were laid for fifty guests, mostly members of the choir, in the church dining room.

The lights were covered with burnt orange shades which made a beautiful soft light. The three long tables were magnificently decorated with pink carnations laid in crosses and dunce caps of as many colors as the rainbow, which covered each place, and which were worn by all present durinng the evening.

Viola H. Brandon acted as toastmistress and toasts or short, spicy, talks were given by all present. Elaborate refreshments were served and all present xprssd thmslves as having spent the most wonderful evening of the season.

Yells, led by Mr. R. B. Johnson, were indulged in as well as the song, "What's the mater with New Hope". The hosts for the evening were; Mr. R. B. Johnson, Chairman; Messrs. W. Brooks, H. Van Meter, S. Porter, J. B. Slintwell, J. Hines, M. Moore, H. Roberts, and H. Williams.

CONVALESCENT EX-SERVICE MEN ENTERTAINED

No happiness exceeds that derived from bringing happiness to others. Such was manifested in the courtesy extended to eight of our ex-service boys, now convalescing in the hospitals in the Soldiers' Home at Sawtelle by the invitation of Mrs. Ella L. Cassells and her co-workers, they were honored guests at the first performance of the show given at Dunbar Theatre for the benefit of St. Philip's Episcopal Church.

After the performance the young men were conveyed to the hospitable home of Mr. and Mrs. J. M. Edwards, 1330 East Seventeenth Street, where they were cordially welcomed by a bevy of beautifully gowned young ladies, and an impromptu program of song and dance was rendered to the delight of all, the boys, for two happy hours forgetting that they were invalids. At 11:30 hot coffee, ham sandwiches, ice-cream and cake in abundance were served and at 12 o'clock the ex-soldier boys were returned to the hospitals at Sawtlle, delighted with their first glimpse of the social life of our younger set.

The young people present and adding so much to this pleasant affair, were; the Misses HazelGottschalk, Leonidas Simmons, Ruth Sykes, Berthella Glenn, Mary Ragland, Louise Carter, Melba Simpson, Margaret Sims, and Mr. Henry Brooks. Serving the merry party were the Mesdames Edwards, J. M. Gordan, Hattie Baldwin, Arthur Cade, Grace Simpson, Tennie Little, Mollie Moore, Delia Follis, Ella Cassells and Mr. J. M. Edwards.

ELKS IN BIG SMOKER

Last Friday night the Elks, together with many of their friends, gave a stag that will long be remembered by any one who attended it. At 9 o'clock all seats in the hall at Washington and Central were filled, and an hour later standing room was at a premium, with the crowd still pouring in. The fire works started with the Elks' crack 20 piece band playing "No, No, Nora", and from then on until early in the morning, when everyone but Bills were in bed, there was a plenty of entertainment.

Bill Elgin recited "The Face on the Bar room Floor".

Bill J. Williams sang, "That Old Gang of Mine" and "Yellow, Brown and Black Blues."

Bill E. Williams pulled off some tricks that would make Alexander take in his shingle and go back to the farm.

Bills Davis and Elgin kept the crowd in an uproar with their high class comedy.

The Elks quartet sang two numbers that made the population from the south homesick.

Other high class acts too numerous to mention were rendered.

At midnight Bill Heflin and Ellerby (who always have something so different, were responsible for an act that made the old feel young and spry. We won't tell just what it was, but ask any Bill and then weep because you weren't there to witness it.

Next, Sam Langford and Kid Bullet entertained the crowd with two stiff rounds at boxing. Sam was in old time form which made the kid step to get a draw.

To top this gala evening, hot tomales, chili and the fluid that made Milwaukee famous were served. During the arm-crooking session, Bill "Fat" Rushing played and sang some Oklahoma Blues. Nuf Sed.

After this the weary crowd went home with but one thing on their mind—"The Elks' Stag".

The Young People Union was opened at 5:30 o'clock by the president, Bro. Clarence Jones. A very good lesson of interest was discussed and a lovely program was rendered.

You are invited to worship with us. We are expecting an out-pour of the Holy spirit.

Sunday, Dec. 2, is the day specified for the opening of our new church home, located at Adams and Hooper Sts.

WEST SIDE MISSION A. M. E. CHURCH—
West 36th St.
Major G. W. Frisbee, Pastor

The services at the Mission last Sunday were above the average all three; a record-breaking attendance at the Sunday School and at the morning and evening worship. The pastor preached at both services; the presence of the Holy Spirit was in evidence, the large congregation and visitors apparently were benefitted for coming out to the Church. The pastor was delighted to see so many visitors present and the liberal response to the invitation of the trustees added to the pleasure of the day. Come and see us. Come and imbibe some of the spiritual atmosphere that characterizes the services and worship in the Mission. The pastor extends a cordial invitation to all.

WARD CHAPEL A. M. E. CHURCH
1252 East 28th St.
E. M. Guy, Pastor

Services at this church last Sunday were encouraging. The Sunday School was well attended, good order and offering commendable. At the morning service the pastor spoke from the text, "God is a Spirit, and they that worship Him must worship Him in spirit and in truth." Two persons came forward and united with the church. Both Endeavors were well attended, and had good lessons. At night Rev. Bryant spoke to a mixed congregation from the text, "War, a good Warfare". One person came forward and united with the church. Next Sunday will be general class and Sacrament Day. Come and worship with us.

WESLEY M. E. CHURCH—
8th and San Julian Sts.
Rev. A. P. Shaw, Pastor

Women's Day last Sunday was the most successful in the history of the Church. The programs both morning and evening were well rendered and very helpful. The offerings were many tims larger than ever before and the men are already trying to find an alibi.

This Sunday will be a great day. More than four hundred people are expected at the communion service. The pastor will preach both morning and evening. A great spiritual treat is in store for all. Wesley promises helpful preaching, inspiring singing and a general good fellowship to all who worship with us. Come and see.

SANTA MONICA, CALIFORNIA

November 25, 1923.

Providence made it possible for Rev. Wade to spend the day with the pastor and members of Calvary Baptist Church last Sunday. The members of Calvary are able to tell Southern California that whenever this doctrinal genius visits a local church, he does so with rolled up sleeves and unsheathed sword! Thus he works in every departmental division of the Church, keeping Christ and His cause before the people. He preached both morning and evening, with such inspired eloquence that the pastor was tempted to ask for both sermons in writing. The services were well attended.

Rev. FRANK JONES, Pastor.

BETHEL BAPTTISH CHURCH
Y. M. C. A.—9th and Hemlock Sts.
Rev. H. D. Prowd, Pastor

Our Sunday School essLon "Christian Missionaries" was most profitably discussed by all present.

At the 11 o'clock service Dr. Prowd preached a very timely and helpful sermon from Psalm 107:31—"O, that men would praise the Lord for His Goodness, and for His Wonderful Works to the Children of Men." At the close our noble sisters, assisted by the men, had their concluding conference for Thanksgiving dinner.

At night our B. Y. P. U. was in regular session and all enjoyed the excellent program. The pastor again preached on the subject of Thanksgiving using Psalm 117—"O, Praise the Lord all ye nations: Praise Him all ye people, for His Merciful Kindness is great toward us: and the truth of the Lord endureth forever. Praise ye the Lord."

There was great rejoicing over our Sister Calhirson who comes back to us fully restored to health. We invite all to our services—Come praying for a blessing.

TABERNACLE BAPTIST CHURCH
12th and Hemlock Sts.
Rev. J. D. Gordon, Pastor

The Tabernacle Sunday School under Mrs. Reglar as Supt., is in fine shape, and well attended each Sabbath morning with interesting lessons and musical progress, at night the B. Y. P. U. under Mrs. Bessie Settles as President, there is always a large attendance especially on last Sunday night there was a interesting feature and an enjoyable musical program. Mrs. Florence entertained with an interesting reading, and Little James Lewis, Jr., with a reading, also Mrs. Lizzie Hawkins with a beautiful solo, "In the Secret of his presence."

At the morning service the pastor took for his text Psalms 37:4 subject: "Thing's I desired of the Lord." There was a large attendance in the morning with many visitors present. The pastor preached a powerful sermon on the desire of the soul, at the close of the service, there were two additions. At night the Rev. J. E. Pitts a member of our church, filled the pulpit, taking for his text John 10:10, subject: "Life more abundantly." There was a good attendance at night to listen to the young Minister, who handled his subject well, and pleased every one present. Wednesday night, Rev. Lewis, the great song evangelist will organize his campaign in Tabernacle, for the saving of souls, and all are invited to attend. The Pastor and Rev. Rozier of th Pleasant Hill Baptist Church will do the preaching.

TRINITY BAPTIST CHURCH—
West 36th St. and Normandie Ave.
Rev. J. A. H. Eldridge, Pastor

Our Sunday School conducted by our superintendent, Bro. A. A. Lasiter was very good and well attended. The pastor filled the pulpit at eleven o'clock taking his text from Mark 14:8, "She hath done what she could." Subject: "Woman." Those who were not there misse da treat.

Our B. Y. P. U. was largely attended and lesson taught with power. Rev. Jordan formerly of Chicago preached for us at 7:30. His text was found in Rev. 3:20—Behold I stand at the door and knock; if any man hear my voice and will open the door I will come in and sup with him and he with me. A spiritual feast was enjoyed by all. May he live long to preach God's unsearchable riches.

You are cordially invited to worship with us at any and all times. We wish to thank those most heartily who helped us to make the chicken and waffle dinner given by Mrs. Moland at her home at 1288 W. 35th St. a grand success. The pastor's aid club thanks her again and again for her most splendid work. $23.50 was turned over to the treasure by Mrs. Moland.

LINCOLN MEMORIAL CONGREGATIONAL CHURCH

....The past Sunday was a good day at Lincoln. ..The pastor filled the pulpit at the morning hour and gave a thanksgiving message on: "God's Goodness." Rev. H. B. Gantt gave an excellent sermon at the evening hour using as his subject: "Our Standby." The Christian Endeavor Society held an interesting session at 6:30 o'clock. ....This Sunday, December 2nd is Communion day. The Lord's Supper will be administered at both services. Let not your seat be vacant at the Lord's table. Strangers cordially invited to worship with us at all times.

BIRCH STREET CHRISTIAN CHURCH
Cor. 14th and Birch Sts.
Rev. A. W. Jacobs, Pastor

We have many things to thank God for as we enjoy this Thanksgivnig season. Every hour of Service last Lord's Day was good and well attended as usual. The regular high spirit of enthusiasm prevailed in the Bible School, the 11 o'clock, and evening services, also the Y.P.S.C.E. at 7 p.m. Next Lord's Day, December 2nd, 1923 will be a great day. Don't miss it. Come. It is not a rally that is on to set how much money can be gotten from you. No, not that; but a day of home-coming, a day of welcome and greetings, a day of brotherly and sisterly friendship, a day of Holy Communion. We shall spend the entire day with God.You need not bring a lunch for the sisters have already arranged to serve an old-fashioned free dinner. Everybody welcome. A warm reception awaits you, regardless of weather conditions. Our new steam-heating system is 100% comfort.

The Ladies Social Hour Club has charge of the special features of the day. Mrs. Sallie Richardson, Pres.; Mrs. F. B. Miller, Chairman of the Committee on Arrangements. Good singing and music at all services. Come. Miss Eveline Tatum, Organist.

NEW HOPE BAPTIST CHURCH
Rev. A. Liveley, Pastor

Sunday,November 25th was Junior Missionary Day. All members of the Junior Missionary Society wore badges. The pastor was at his best in two excellent sermons.Six persons united with the church, one of whom was a candidate for baptism, and was baptized Sunday night. Soloists were Miss Russell and Mrs. Moore.

The atendance at the prayer meeting reached 45 last week. The prayer meeting is growing rapidly.

Thanksgiving services were wonderful. The choir was at its best in two Thanksgiving anthems. Miss Dedrick sang "Oh give Thanks". Choir rehearsals are being held each Tuesday and Friday evening, preparatory to the rendition of the cantata, "The Christmas Adoration" to be rendered at 5 o'clock Christmas morning.

PHILLIPS CHAPEL C. M. E. CHURCH
1400 Newton St.
Dr. R. W. Underwood, Pastor

Phillips Chapel is yet mindful of her duty as a church. Members are joining each sabbath. The old time fire continues to burn.

The pastor preached two excellent sermons Sunday. Subject, "The continuity of Heaven." The speaker grew quite eloquent while he portrayed the message of the cross. The souls of the people were replenished with many good things, whil the pastor in a very humble way portrayed the message of Calvary to them.

Prof. R. M. Mitchell and the Choir are singing the gospel to the people. Sunday is Communion Day. Every member is requested to be present. Phillips Chapel is the home for any person looking for friends. Are you a stranger? If so, come to Phillips Chapel, see!

ANTI-KU-KLUX ORGANIZATION PERFECTS "DRIVE" PLANS

Washington,Nov. 28—With the avowed purpose of curbing the Ku Klux Klan's activities, through the enactment of laws prohibiting the wearing of masks or hoods in any public place and providing for drastic punishments for those convicted of taking part in mob violence, an organization has been incorporated here under the name of the National Vigilance Association. Prominent men, from every part of the country, it is said, comprise the Association's national committee, which, for months has been quietly at work perfecting plans for driving the Klan from this district.

Local membership is said to be made up of the Colonial Daughters of America, the heads of nationally known colleges and universities, national business organizations, patriotic societies, and leading lawyers and jurists.

RACE PREJUDICE IN FRENCH CONGO

Paris, Nov. 28—Rene Maran, a state employee in the Kongo, has just arrived for a series of lectures in which he will plead for better fellowship between blacks and whites, that French prestige in Africa may not vanish. Maran last year attracted attention by winning the Goncourt prize with his novel "Batouala", wherein he described, with remarkable precision, the native traditions and habits.

Assigned by the colonial ministry to study conditions in the Kongo, he now complains that the government's white employees, as a result of contact with their British and American colleagues, are beginning to treat even educated Negroes as inferiors, restaurants refusing to serve them at the same tables with whites, and railways not allowing them to enter carriages until all white Frenchmen are seated comfortably.—(The New York Herald).

The many friends of Mr. Geo. W. Caldwell of Newton street, are very pleased to hear that he was able to return to his home after several weeks at the hospital as a result of a broken leg; and all hope for him a speedy recovery.

N. D. THOMPSON IS VICTIM OF FALSE RUMORS

SEGREGATED SCHOOL QUESTION NAILED AS FALSEHOOD

Quite a furore was in evidence during the past week when the rumor was prevalent in and about the city that Noah D. Thompson, well known employee of the Daily Express was circulating a petition for separate schools. Of course with Thompson coming up with a lead of this kind would naturally perturb those who have known his stand for race progress in this and other communities in which he has resided. To prevent any quibbling or passing of the buck, Thompson wrote Mrs. Dorsey, Supt. of Public Sshools and her answer dispels the cloud and all may know first hand that Thompson stands innocent of the charge of maneuvering for separate schools.

November 24, 1923.

Mrs. Susan M. Dorsey,
Supt. of Schools,
Los Angeles, California.
My dear Mrs. Dorsey:

For several weeks it has been rumored that a petition is being circulated for the purpose of changing our school system.

The change, according to the rumor, would separate the children of African descent from all other children attending Los Angeles public schools. In other words: special or separate schools for Colored children.

A reply from you to this communication will, I am sure, set at ease many minds that are disturbed by the rumor referred to.

With all good wishes for the success of your work, I am,

Sincerely yours,
NOAH D. THOMPSON.

LOS ANGELES CITY SCHOOLS
761 Security Building
Office of the Superintendent
November 26, 1923.

Mr. Noah D. Thompson,
Editorial Department,
The Evening Express.
My dear Mr. Thompson:

In reply to your letter of inquiry of November 24th, stating that a rumor is abroad that a petition is being circulated for the purpose of changing the school system in the matter of segregation of colored children, permits me to say that I have heard of no such rumor, nor have I heard of any such plan.

Very truly yours,
MRS. SUSAN M. DORSEY,
Superintendent.

TIMELY SUGGESTION

[Editor's Not] The following article penned by Mrs. Danley to our mind is a very timely suggestion. We are pleased from time to time to give publicity to those who would venture a thought on the things worth while.

Editor of the Eagle:

While listening to Mrs. Bass' eloquent remarks, at the Independent Church of Christ Sunday evening, and the rehearsal of woman's achievement; the opportunities that yet lie before her; especially the suggestion of a "Woman's Vigilant Committee" to relieve he tense situation of Central Ave., it brought to my mind a very happy idea. Now, before I mention it, I hope I will not be one of those who is much maligned every time a new idea is presented for what they think is for the betterment, that they are for segregation.

A Park adjacent to Central Ave. is one of the most urgent needs. There are and always will be people who prefer to be in the open, with only the canopy of the heavens.

Some may say it would encourage loafing. No more than Pershing Square or the Plaza, where hundreds of men sit day after day reading or they wile away the time watching the mass of humanity go by. Then, too, Pershing Square is too far from the Eastside. Why not have a place between Ninth and Twelfth, where the congestion seems to be the greatest!

It is hard to convince the unfortunate who has nowhere to go that he or she is a nuisance. Those who have their homes can have their pleasure and recreation in them. They may show little sympathy, and yet the unfortunate has as great a human instinct for recreation as they.

There must be concrete action. A convenient Park in that vicinity and a section reserved for women, children and their escorts would greatly solve the perplexing problem. If the women would like to do some real constructive work, I submit this project for their approval.

MRS. MARY B. DANLEY,
502 Garfield Avenue,
Pasadena, California.

ANOTHER TIMELY THOUGHT

Dear Madam:

This week at the Orpheum are four colored entertainers, dance artists and unexcelled. Boost them through your paper. That arouses interest among people of your race and in time gets the management of the show houses to showing a little more concern. Possibly in time more courtesy will be shown and instead of shoving the purchaser of a ticket away off in an undesirable seat he will be given the same recognition as other folks. That's what I have been trying to effect in my own peculiar way. I have seen a result already. If the colored people would demand certain seats they would get them, but to do that they must be procured ahead of time generally. I have the same seat in the balcony at the Orpheum every week and prefer it to any in the house. B C. D, 15, 17, 19 and across the Isle on the opposite side cannot be equaled. If this is known and those seats secured this unjust prejudice might in a measure be overcome, but it remains for the people themselves to stand for their rights. No one, white, black, yellow or nidigo can stand aside with his thumb in his mouth and not expect to be walked on. We have more colored entertainers traveling now than has ever been known. They are not recognized by the press though as they should be. They are barely mentioned if spoken of at all while the merits of their offerings far outclass most of the others.

Sincerely,
MYRA R. COLLINS.

P. S.: Here sometime back we scarcely knew of a book in the library by a colored writer until we commenced in an underhanded method to calling attention, when books were unearthed none of us had ever heard about.

No wonder prejudice exists when people are kept in ignorance.

SAN DIEGO

By: A. L. Brown

San Diego is to have a new Tabernacle when the Bethel Baptist Church structure is completed. The candidates for baptism from this church will be baptised Thursday night at the Mt. Zion Church, 39th and Greeley Sts.

Hon. Senator E. P. Sample, a real friend of the Negro Race, is among our many subscribers, and the Scouts join the Scout Master in thanking our many loyal supporters in this campaign.

Mr. J. O. Hosman, one of San Diego's leading business men, has also lined up with the Eagle and has aided the Scouts with his subscription. Mr. Hosman owns and operates an auto shop on J street.

Miss Johnnie Miller passed away at the Hospital last Tuesday. Her remains were shipped to her father at El Centro, Calif.

Mrs. Belle Johnson is rapidly recovering from a severe illness.

Atty. H. E. Macbeth of Los Angeles was in San Diego on a business trip, last week.

Eagle Reporter Interviews Mr. Sylvester Stewart

Despite the fact that two places of business owned by Mr. Stewart were situated in the business block destroyed by fire in Tia Juana last Friday, we found Mr. Stewart far from being downcast over his loss. On the contrary, he announced his plan to rebuild his places at once, and a host of friends whom Mr. Stewart has made by his generosity and spirit of good fellowship are greatly pleased to learn of his intention.

While a man of the world and a purveyor of pleasure, Mr. Stewart yet manifests those characteristics that find favor in the eyes of the Master—love for his aged mother, charity for the needy, loyal comradeship for his friends, and while the writer longs to see the day when Mr. Stewart will acknowledge the Christ who has spared him these many days, we confidently await the day when this will be so, and meanwhile join with many others in the wish that good fortune may ever befall one who shares it so lavishly with others!

The Federated Clubs are doing a great work in California, and an inspiring and interesting meeting was held last Thursday evening at Bethel A. M. E. Church, with Mrs. L. J. Knight in the chair. A delightful program was rendered when business has been disposed of, with Mrs. Grace good as mistress of ceremonies. Mrs. Harper, our San Diego songbird, thrilled her audience with a marvelous performance. Mrs. Snowden also rendered a solo which was received with enthusiasm.

The piece-de-resistance of the evening was a paper, written by Mrs. Harriet Marshall and rad by Mrs. Dodge. Mrs. Marshall is a lady 88 years of age, and the paper was a masterpiece of construction and style. It is well worth publication, and to have heard it read was a rare treat.

After visiting relatives and friends in Los Angeles, Mother Cofield is back in harness, and announces that she is ready to put over a great program for the Master.

Help the Boy Scouts in the Contest! Give them your subscriptions to the Eagle! Thank you—the Scout Master.

Mr. H. Stegall, Mrs. Carlack and Past Master E. P. Dort and our McLees will please accept thanks for their subscriptions to Ye Soaring Eagle!

Construction started November 27 on the Bethel Missionary Baptist Church. It is hoped that the new building will be ready in January, 1924. A big rally is to be held Sunday. The public is cordially invited.

Mr. Sylvester Stewart, who has been spending several weeks in the East, returned to San Diego on the 15th, accompanied by his mother and two sisters, Mesdames Hogins and Cabes.

Chas. DeMann, one of the members of Troop 16, Boy Scouts, was run down and injured by an automobile last week. He is getting along nicely at this time, at the hospital. Scouts are asked to remember the scout laws.

Queen Esther Circle of the Kings Daughters and Sons met at the home of Sister Lucy Parker, 726 G street. Devotional service was led by Sister Martha Pirkle. The usual good program was carried out, with an excellent membership present. The ladies of the Circle will distribute Xmas baskets to the poor and needy. Mrs. K. Griffin of Cincinnati, and Mrs. Wallace, joined the Circle. After business was disposed of, refreshments were served.

Mrs. M. Bruc, who has been ill at the hospital, is said to be in a critical condition.

Mr. and Mrs. Thos. Johnson of this city are mourning the recent death of Mrs Johnson's mother at Riverside.

A good turn was recently rendered the Boy Scouts by Mr. Sylvester Stewart. The Scout Master approached the manager of a certain white business house to solicit a subscription in the California Eagle's vote campaign. The manager said he would be glad to aid me, if the project were endorsed by a certain member of the Race. When I interviewed the gentleman referred to, I was told that he had already seen the business man in question, had told him my proposition was "no good" and to let it alone! The writer was appalled to thus learn that individuals of the Uncle Tom genius still exist among us, to be obstacles in the path of our race progress!

I mentioned the occurrence to Mr. Sylvester Stewart, who has purchased a Caddillac car from the aforesaid business firm—and who promptly made an appointment to meet me there, guaranteeing that the Scouts would be given the desired subscriptions!

AMONG THE FOUR ROUND BATTLERS

One of the best cards of the season was the offering of Rufus Toles for Promoter Brown at the Madison Square Garden Arena on last Wednesday evening. A huge crowd was present and enjoyed the offerings as never before. It was a crowd of typical fight fans and appreciating as they do the real exhibition of the manly art of self defense, they came away well satisfied.

The Bouts

As a curtain raiser The Black Mask vs: Young Ford, weight 150 pounds, right off the reel keyed the fans up to the highest pitch and fought four rounds of all action. The decision was close in favor of Young Ford.

Second Bout

Johnnie Alexander vs: Joe Rowe (White). This bout was by two clever boys weighing 126 pounds. The old master, Johnnie Alexander, met his match and was declared the loser. Two clever boys made the going seem too tame for the fans and they failed to receive a heavy hand.

Third Go

Eddie Morton vs: One Round Norman, 145 pounds. Both Colored. This go was full of action. One Round Norman had things all his own way for the first round and likewise the second until he ran into a haymaker and went down for the count of ten. Norman made a big protest at the count and claimed that he was on his feet at the count of ten. If he was, he was too groggy to go on with the fight. He lost fair and square.

Fourth Battle

Kid Blondie vs: Lee Ros (white), weight 115 pounds. This was a go worth while. Any battle in which Blondie fights can always be depended on as one with plenty of action. He is extremely popular with the fans. Lee Ros proved to be a tough bird but Blonde put him on ice by out boxing and out slugging him all the way, as a matter of fact Blondie had his man all but out in all of the last three rounds of fighting. Blondie got the decision.

Semi Wind Up

Young Sam Langford vs: Young Long (white). Young Lang was a set up for Sam who laid for his wild rushes and swings. Young Lang managed to stick two rounds and was knocked out in the third round.

The Main Event

Sunny Jim vs: Joe McKenna (white). When Announcer, Billy Donaldson introduced these two fighters and McKenna hailed from Dallas, Texas, bedlam broke loose and every human seemed to want the Texan to lose. He had been touted as a hard nut and this only made the bout more interesting as Sunny Jim is a known quantity in these parts and his equal as a fighting piece of machinery are few and far between.

The Battle Is On

Sunny Jim steps out. McKenna looks fit as a fiddle as they spar for an opening, in fact with his long reach he looked extremely dangerous and he really did land some good jabs to Sunny Jim's face. Sunny was cool and collected and set about his task in a methodical manner. He put the big Texan down for the count of six in this round and it was Sunny's round by a wide margin.

Round Two, Sunny started right into finish the job and with right and lefts he punished his man severely and with two knock downs to his credit he put on the finishing touch and put him down and out.

This was the cause for another demonstration by the fans who swarmed into the ring and performed all sorts of antics finishing up by carrying Sunny Jim to the dressing room on their shoulders.

Heard About the Ring.

Art Collins is giving eminent satisfaction as a referee and keeps things moving right along. He is the right man in the right place.

Ted Frenchie says that with two more fights in this section he will move on Portland looking for big game.

Bobby Pierce, the clever middleweight says that he will open the eyes of the fans in his next start and will retrieve all his lost prestige for his poor showing sometime back in the go with Lightning Davis.

With Mack House and Young George in the main event on next Wednesday night, the Arena should be packed. All know Mack House's prowess in the ring and Young George goes some himself. There will be plenty of action in this bout.

R. W. Baker and his friend from New York are still ardent ringsiders.

Somebody must keep right close to Dr. B. A. to keep him posted as to when a blow is landed.

Boats Hines the old regulator is making a reputation as time keeper, second to that of no other person who serves in a like capacity.

TENNIS CHATTER

FOUR CHAMPIONSHIPS FOR FRISCO IN 1923 CLAIM; DAVID SANDS, HOLLY McCLELLAND, LEE PURNELL AND MISS VICTORIA SHOREY, CANDIDATES

By William Mells Watson.

A communication from up around the fog belt outlines just how profusely we Southerners will be wined, dined and entertained by members of the Racquette Club of Oakland next July 4, when our four champions invade the North for the annual hostilities at Golden Gate Park and incidentally it was also stated that at least a quartet of the eight crownships will be dropped in the bay district.—(?)

Their Argument

Lee Purnell's showing here Labor Day by winning te men's doubles championship and giving Bal Kemp an awful battle for the singles crown demonstrated clearly that he is at least the second best recketer on the coat now and with the anticipated improvement, who will beat him next year?

Miss Shorey Also.

Notwithstanding Victoria Shorey's failure against great odds here, she nevertheless is the queen of the North in singles, doubles and mixed doubles the same as eis Juliaett Harris here, and when playing on her home lot as the writer can testify is almost unbeatable and is likely to spring a surprise on somebody.

The Berkeley Student

Of this college boy David Sands and Holly McClelland, we know of them only on paper, but young David is said to play rings around Purnell and McClelland is Lee's equal, so there is little douht that we are due a cleaning next year.

Parthenial's Dance

The Alpha Partheniai girls and the Westside Jazz Band will entertain the citizens with a matinee ankle excursion Armistice Day afternoon at the Ross Snyder Play Ground club house 1608 E. 38th St. Everybody is expected to be armed with "at least" a quarter and a few jitneys for sodas and puppies will be appreciated by the strugglers.

Don't forget the Federation meets Monday, November 6th, and a stack of big business is on the calendar.

Plays and Players.

Richard Courtney as Alexander in "Chuckles" is given the opportunity to show that he is areal comedian. Mr. Courtney has played with several companies in the East. So impressed with his work Mr. G. A. Perkins has engaged him as a permanent member of Pierson's Producing Company.

Miss Helen Boyd of "Chuckles" took a trip to San Francisco but because of the coming production of "Chuckles" she shortened her visit and will appear Oct. 30th.

Jake Moore who entered the theatrical world only as a pass time, will forsake the stage after Oct. 30 to settle down in his new home in Pasadena. Jake will farm, etc.

Milton Brown and George Brown will do character parts in "Chuckles." Brown as Pedro the runner, Bronson as the "henpecked hubby" and Juan Pancho.

Herman Higgs the well-known coast entertainer has joined the Pierson Producing Company.

Billrew Quartet have joined "Chuckles" and will be featured in the coming Production.

Billy Tucker's Buzzing Around Company will soon produce the production. The Books and lyrics by Billy Tucker and Louis Vernon.

Viola Warner is leading lady for the Buzzing Around Company. She has a wonderful voice and personality.

T. H. Perkins states that 3000 will see "Chuckles" Oct. 30th. Change your tickets now.

Affirmative, Mr. J. Monro, New Hope, and Miss Dorothy Hayes.

Negative, Miss Fostena Scott, Independent, and Mr. Jecerson Brown.

Great credit must be given these young people for discussing and handling such a big subject. Both sides made good points but the Judges decided in favor of the New Hope Literary in winning the debate from the Lyceum Independent.

Judges:

Atty. E. C. Jennings, Independent Church.

Mrs. C. Love, New Hope.

Mr. Thurman, Tabernacle.

On Tuesday Oct. 17th, the Young People's Literary Society of New Hope Baptist Church intertained Mr. J. Monroe and Miss Dorothy Hayes and their friends in honor of winning the debate from the Young People's Lyceum of the Independent Church. Ice cream and cake were served. The Literary meets every Tuesday night. Everybody welcome.

CHICAGO DEFENDER

This has been a year of upsets in big sports. The first shock came when Morvich, who turf writers hailed as greater than Man o' War, the retired king of race horses, failed to come through as a wonder and added more poor souls of the betting hope to the endless chain than any ten race horses. Wall Street and the Chicago Stock Exchange combined. Morvich filled the woods full of hopefuls that never will come back. There is a peculiar sentiment about a horse player from other speculators. Sentiment is against him from the start, when they fail and draw checks on their employers' accounts. He is prosecuted to the limit of the law. On the other hand, the oil fool sometimes gets a lease on life. Sometimes these suckers win. Horse players never win. No man can beat the game of horse racing betting on them.

Upset Over There

Another line of real sport, second only to horse racing. That's boxing. The idol of two continents slipped the public the biggest upset it has ever had, from the ring standpoint. No other than Georges Carpentier's defeat by Battling Siki threw a Black Friday in the money ring of promotors of boxers. One in particular, Jack Kearns, the manager of the champion, Jack Dempsey. Carpentier was the set affair that Kearns had put in camphor to pull off another killing in Paris that meant almost a half million dolars. It's the old story of a greedy manager with Carpentier trying the old American trick, commercializing his champion setup and easy marks for the money that was in it. The sport end of the game never crossed his mind. When Siki first challenged Carpentier about a year ago, it was a laugh. Siki was not taken seriously by ring experts. But matters took their own change; without the aid of the press, Siki became the public's choice. When Carpentier's manager saw that a showdown had to come from Siki's challenge, he used the old American trick—drew the color line. This was about the worst thing he could have done in France against another French subject. The press and public jumped on hif with both feet. Carpentier's manager held his head on figures, and saw that Carpentier would get every cent that came at the agte, except what the government got, and thinking that all Siki would receive would be a good licking. The moving picture hogs got in on the big deal. It was ill framed that Carpentier should fool along with the easy mark, Siki, it seven rounds. When finished, it was so strong that the American and Canadian rights were sold. It became a fad to drive out to see Carpentier pull off his dress rehearsal. Every afternoon it cost more for seats to see him train than it did to see the real contest.

It never crossed his mind, or the mnds of his friends that Siki had a ghost of a chance. There were all kinds of rumors flying around Paris that Siki was not training. The fight was fixed, the sure thing. Betters were offering as high as 10 to 1 against Siki. The moneyed people and classes were with Carpentier, but the masses were with Siki. Frenchmen are the greatest gamblers in the world, on horse racing, roulette, etc., but don't care to bet on prize fighting. The contest worked up so much interest that it was made an event. The races were postponed for the fight. The largest paying crowd ever known in France turned out. As many people were turned away from the gate as were admitted. Then came one of the ring's biggest upsets. Carpentier as usual did his toredor stuff to the ladies' delight. It looked at first as if the show would be run off according to specifications. When Carpentier knocked Siki down the first time, the specially selected referee, Carpentier's best friend, made Siki get up, advised Carpentier to be careful or he would spoil the billion-dollar moving pictue. Siki seemed to be taking the whole thing as a joke, until he got angry in the third round. It's needless to go through it all. What's more. Siki put Carpentier out of the running for life in the history of this late day of the ring. No champion was ever beaten up so badly as Carpentier. He lost his championship, beauty and the best wishes of the people of France.

SPORT

Edward Shaw, William Stoard and O. Dials again proved their athletic ability by placing in the annual tract meet at Riverside Saturday. Shaw placed second in the 440, and High Jumps. Stoard received second in the 100 and 220 yard dash. Dial, third in the century.

William Bratton was elected captain of the High eleven. Bratton was the lad that played fullback on the Y squad that defeated Pasadena last year. William (Speed) Narcisso was elected captain of the midgets. Narcisse will be the signal caller. The selection of these skillful men will insure victory for the 'Y' squads. Altho the first team has not been picked this will probably be the line up:

Harris and Hurd, ends; R. Johnson and L. Johngon, tackles; Banks, guard; George Johnson, center; The backfield: Bratton, fullback; Dials, quarterback; Diggs, right half and L. Dye left half. Substitues (Narcisse for Dials) (B. Jackson for Bratton.)

The L. A. Times gave George Johnson a very good write up Thursday. Johnson was declared the individual star in the Hollywood and Poly lightweight game. Johnson plays fullback.

Our Reporter Interview Prof. Wilkins

Our reporter interviewed Prof. Wilkins of the Wilkins School of Music on Wednesday in regard to the presentation of Miss Lucile Banton, his star pupil, in recital. The Professor made this statement.

"I have great hopes for Miss Banton. It has been a little more than five years since she applied to me for lessons. She came as a fatherless young woman, ambitious to learn to play the piano. She had no knowledge of music, didn't even know the meaning of the term "musical phrase" altho she had had a few early lessons from an old German, door to door teacher, who claimed to know everything and in fact knew nothing.

To make a long story short, Miss Banton has worked hard and faithfully. A deserving young woman, possessing, real talent she has developed into a very good teacher, to which the progress of her pupils testify. Naturally retiring of disposition she lacks confidence in her ability. However with the support and encouragement of our many friends and the generous public, who have always been so kind and indulgent of our every effort, encouraging us with their attendance and hearty applause on every hand, I feel that in time Miss Banton will develop into a real artist of the first rank.

"Yes, we intend to present Miss Banton with a teachers certificate after over four years of apprenticeship of teacher's work. At the time of our presentation of Miss Banton, we will also explain some of the difficulties of teaching, something about form, analysis, construction, biography and the poetic ideas of the master composers. It is intended that the music lovers and music students shall benefit from this program. It is our aim to develop each year our musical educational sources."

Such were the outpourings of this Soul of Music. We all realize how ambitious Professor Wilkins is to obtain somewhat of the highest in music. How unselfish he is, how zealous for others who are striving with him.

The concert will be given Thursday evening, November 2nd at the Independent Church. Admission 25 cents. Proceeds will be used to further Miss Banton's musical education.

Presents for All

Each of Mr. Gray's pupils were given gaudy presents while Madam Murdock's scholars received handsome gold, silver and bronze medals as prizes. Mr. Forsythe and Miss Freeman won first and second prize according to a recent rating of their ability by a local white professor.

After he had awarded the happy young artists their prevents Rev. Greggs made some very pleasing congratulatory remarks.

Song Birds Applauded

The third number of the second half of the twenty beautiful selections saw the charmingly gowned, sweet voiced soprano singer, Miss Nellie Johnson, and her handsome and talented brother, choister and baritone singer and Prof. Thomas Johnson in two most heart gripping vocal duets—Love and War by Cooke, after acknowledging the only and a most enthusiastic encore of the evening, they were simply smothered with arm loads of flowers by their friends.

Flowers and Decorations Grand.

Each of the entertainers were overwhelmed with the most georgeous bouquets of choice flowers which they in turn banked around the altar itself already a bower of beauty with huge palm and numerous vases of ferns and sweet peas artistically placed about the walls adding beauty and grandure rarely obtained and unsurpassed.

CHUCKLES COMPANY SCORES BIG HIT IN FLORENCE, CAL.

Friday evening a portion of the Chuckles Company journeyed to Florence, Cal. to give an entertainment for the Open Forum. The High School Auditorium was packed to overflowing. The program continued to overflowing. The program continued the moment Mrs. Lottie Bolds Anderson rendered the opening overture to the last number the applause was spontaneous. Mr. Malcolm Patton was at his best in Mr. Joanie Anderson's song "Some Day." He was encored until time forbade him responding more.

Lottie Bolds-Anderson, the Chuckles comedy cyclone actress was a headliner with comedy songs also burlesque dance with Mr. Richard Courtney. Miss La Nelle Pierson sang a lullaby that made one wish he were a baby in his mother's arms. Miss Pierson was ably assisted by Harris, Russell, Pullen and Sanford, a male quartet.

Mr. Joanie Anderson rendered a saxophone solo which was well received.

Mr. Malcolm Patton, leading man in Chuckles is a versatile actor. He did a comedy sketch with Mr. Richard Courtney, which deserves special mention. Mr. Courtney who is a "destroyer of sorrows" is black faced comedian in Chuckles.

Miss Fern Caldwell leading lady of Chuckles was a dainty little school miss, who recited, sang and danced to a delighted audience.

Mr. Gus Perkins held his audience for twenty minutes with character impersonations.

For this occasion Mr. Pierson, the manager of Chuckles prepared a brand new sketch entitled School Days which compares favorably with Edwards School Days which [illegible] the Chuckles several years

FLORENCE COLE TALBERT

ralisms by all the artists.

Madame Cole-Talbert's rendition of the aria from Bonnambula was simply wonderful, equalling by her grace, her deep breath and easy lyrical ascendancy and descendancy any of the best white singers here or anywhere. Her Ave Maria was sublime, as was her song of India and her sensitive water song. All the rest of her numbers, including "Nymphs and Fauns," "Oh my Love," "Love's in my Heart' and "Homing" were rendered in true artistic style, showing her to be a woman of both great talent, as well as keenest lyrical judgment!—Madame Talbert is a delving and knowing race student, as she evinced by her charming folk songs of African, American, Indian and American Negro melodies.

"Je Suis Titania" from Mignon from Polacca was grandly sung by Madame Cole-Talbert and the audience knew by this superb singing that a new great star was knocking at the big door of world admission into the realms of greatest artistry, that Madame Cole-Talbert would demand a first rank place among the very greatest artists on this earth!—And no longer can the fitting and deserving honors be withheld from this gifted singer, for what America neglects, Europe will surely make good, in taking this exceptional songbird unto the old country's protecting and patronizing bosom.—

Her cutest piece "The Cuckoo Song" brought the house down and two or three other encore lyrics were liberally given by the diva in truly bewitching style.

We have never heard an Ethiopian singer of greater sweetness, of more bewitching charm, of a better education, of a deeper and more exalted appreciation of her obligation to the artistic world and also her own suffering, downtrodden people. Black Patti, the old pioneer was never any better, and in deepest culture, probably not quite as far advanced as this new star-woman is and none of the others, including Cleota Collins, Mme. Zelicka, Mme. Anita Patti Brown, Mme. Jackson and the rest can take the first stellar role away from her.

She is as big, as great, as learned, as flawless, as commanding as a foremost singer can be and upon her big, womanly shoulders weighs a great and trying responsibility—the noble responsibility to make the race great and respected and justly treated through her winning artistic supremacy and world leadership! Florence Cole-Talbert really is a great pathfinder and light bringer to the race—her wonderful singing must help to burst the shackles and break the chains!—What more can we say for and to this great artist?!—

She is as great as Schuman-Heink, as nimble and rich in her notes as Johanna Gadski, we like her better than Anna Case and she can surpass the Jewish singer, Alma Gluck, easily; she is as big a singer as the Ethiopian race has so far produced and she reminds one of the famous Marie Geistinger, who in the seventies and the eighties of the last century had Germany at her feet through her wonderful Lieder-singing.—

White America is insulting this grand woman by keeping away from her recitals, as this same stupid white America can only learn art, manners and charm from her—the great, but crucified Black Madonna, Prima Donna of the Ethiopian people!—

But Madame Florence Cole-Talbert will have her deserving innings, for a kind fate will be with her and a huge satisfaction, if not retaliation, will be hers!—

She will go to Europe and her success in Germany, Russia, France, Italy, England and other countries will be so vast and impressive that America will become ashamed of herself and finally must recognize her own sweet Ethiopian girl of the lyrical art!—

And that Ethiopian singer whose art will compel America through European indorsements and loud plaudits to finally take her to her redeemed breast of uniform public affection and honor—ah, yes, at last America's heart must open up for her beautiful Black singer—will be Madame Florence Cole-Talbert!—

And we ask what greater mission can any living Negro artist carry out than what destiny has in store for this lyrical genius?!

Let Europe decide and America must respect Europe's love for art!—

Space forbids to say any more, except that all the other artists were worthy co-workers with their great star-leader.

Negro For State Secretary Of New York.

NEGRO EDITOR FOR STATE SEC- OF NEW YORK. . A. PHILIP RANDOLPH NOW ON STUMP FOR AMERICAN LABOR PARTY

By Floyd J. Calvin.

Monday afternoon, October 9, A. Philip Randolph, co-editor of The Messenger magazine, left New York City for Poughkeepsie where he made the initial speech of his state-wide campaign tour for the office of Secretary of State.

Randolph has received the highest political honor of any Negro in American politics since Reconstruction. He is universally regarded as a man of unusual intelligence. There were two white men running against him for the Secretary post on the Farmer-Labor ticket but they figured not to support the candidates of the American Labor party simply because A. Philip Randolph, a Negro Socialist, has been nominated for Secretary of State. It will come as a surprise to the editor that The Call heartily agrees with this ad-Randolph is no more entitled to the support of Negro voters because his skin is colored than Edward F. Cassidy, our candidate for Governor, is entitled to white votes because his skin is white.

"The question is not one of color in politics, but of program. The American Labor party nominated Randolph, not because he is a Negro, but because he represents a working-class program. It nominated Cassidy, not because he is white, but because he represents that program. The party would not support either candidate if he did not accept this program. The Negro who supports a Negro for public office because he is a Negro is no more advanced in political knowledge than the white who supports a white because he is white."

In a speech at Commonwealth Hall, 135th Street and Fifth Avenue, New York City, October 8, Randolph himself answered Geo. W. Harris. As reported in Harris' own paper, Randolph said:

"We are not endeavoring to overthrow the American Government, nor the republican institutions, but we are endeavoring to overthrow the diabolical capitalistic system by which they are held and by which they are subsidized."

A despatch from Poughkeepsie in the white press on Oct. 9 said of Mr. Randolph:

"Formerly launching his state tour, A. Philip Randolph, Socialist Secretary of State, will address a meeting in Poughkeepsie today under the auspices of the local branch of the Socialist party. Randolph, who is the only Negro running for a state office, will make a swing around the circuit from Poughkeepsie, including in his itinerary Albany, Schenectady, Utica, Oneida and Syracuse.

"Randolph has achieved a nation-wide reputation because of his brilliant editing of the Messenger, the only radical Negro publication in the country. He became a Socialist in 1916 while at college and joined the Socialist party the following year. He organized the first Negro branch of the party in New York in 1917.

"Mr. Randolph was named for Assemblyman by the Socialists in 1918 and 1919 and for controller of New York State in 1920."

Mr. Randolph's campaign headquarter are at Albany. While stopping for a few minutes Tuesday, Oct. 10, before making his speech Tuesday night, he gave out the following interview to a white correspondent of a New York dily:

"The Amerlcn workers are awakening. Signs multiply on every hand that the long night of the workers' sleep is nearing its end. Slowly but surely a new, militant worker's consciousness is being born. Out of the appalling and nameless desolation and ruin, precipitated by the war and a blistering red tempest of hate and intolerance that swept and devastated the world, the workers are emerging more conscious of their power to fulfill their historic mission of emancipation and the salvaging of civilization.

"Among some of the most prominent and significant manifestations of this revolt against the old, time-worn, foolish and disasterous policy of voting for their masters' political parties is the formation of the American Labor Party of New York. While it is too early to prophesy as to the final form or future progress of this great and epochal experiment, it is obvious to the clear thinking that it marks a definite turn toward constructive working-class political endeavor."

The Socialists are not strong enough to elect a State ticket, but they give evidence for fair play. Frank R. Cross waith, a young Negro of New York City, graduate from the Rand School of Social Science, is the Socialist nominee for Congress from the 21st Assembly District in Manhattan.

In the Interest of Public HEALTH !

It costs the taxpayers of California $25,000.00 annually for the Medical Board to carry on its prosecution of chiropractors, their competitors.

The Medical Board, not the District Attorneys of the respective counties, is carrying on this war of attempted extermination of chiropractors, and chiropractic.

Dr. Dana L. Tasker, who for fourteen years was a member of the Medical Board, states that medical control of osteopathy is absolutely unfair and unjust.

If in fourteen years osteopathy could not find a way to get a square deal under a medical board, is it not stupid to think of placing chiropractic under medical control?

In twenty-two states provision has been made for licensing Chiropractors by separate State Boards of Chiropractic Examiners; having thus made STATE MEDICINE IMPOSSIBLE in such States.

State Medicine is no less un-American than State Religion—and political medicine is fighting its hardest to establish STATE MEDICINE.

EVOLVES SAFETY CHECK SYSTEM

Local Man Invents Plan to Overcome Errors in Writing Checks on Banks

There will be no more return checks "account insufficient funds" if the dream of Morris Harris, inventor of the Harris Safety-First Check System, comes true and he receives from the United States government the copyright and patent for which he has applied.

The safety method by Harris consists of a coupon attachment which must appear on each check to assure the person receiving it that the amount of the check is on deposit at the bank indicated. The coupon bears a serial number furnished by the bank and is given the depositor in various denominations for use on checks to be drawn. The "Safety-First" method, according to Harris, will prevent one from overdrawing by check, because when there are no coupons on hand, there are no funds in the bank to the credit of the check maker.

Mr. Harris has just returned to his home in Los Angeles from Washington, D. C., where he exhibited his checking scheme to the head of the government patent office and others in the government service for the purpose of obtaining the government recommend the system to the national banks of the country. Before leaving the national capitol. Mr. Harris, through his legal advisors, filed application with most of the foreign countries for patent or copyrights.—Daily Express.

Man Invents Device to Eliminate Forged Checks

There will be no more grief caused by checks being returned to the payee marked "insufficient" if the dream of Morris Harris, Los Angeles inventor, comes true. Mr. Harris has invented what he calls the Harris safety-first check system, involving the use of coupons representing the amount of money on deposit. The coupons are detached from the check stub and pasted on the check as the funds are withdrawn. Upon the principle of "no funds, no coupons," Mr. Harris hopes to eliminate losses from forged, raised and fictitious checks.—Los Angeles Times.

HIGH LIGHTS IN MASONRY

PRINCE HALL GRAND LODGE OF MASSACHUSETTS NOT RECOGNIZED BY THE GRAND LODGE OF ENGLAND.

Eternal vigilance is the watch word. In order to protect our organization from cantact and contamination with spurious, irregular, unwarranted and clandestine bodies, measures have been ingituted to safeguard, as effectively as possible, the [illegible] Rites and Beneficent Purposes for which it was ordained. It becomes an insult to the dignity of the Craft and effrontery to the intelligence of those who constitute its membership to have these falge standards continually set up for our guidance, done especially by those who know little or nothing of Masonic history, written or unwritten.

If it be true that the Grand Lodge of England did grant a charter to African Lodge No. 459, at Boston, Mass., on September 29th, 1784, and if this same African Lodge organized the African Grand Lodge of Modern Masons of Massachusetts on the 24th of June, 1791, (which now is the Prince-Hall Grand Lodge of Massachusetts) we ask: what was the matter, cause and reason that the Grand Lodge of England failed and refused to recognize the Prince-Hall Grand Lodge of Massachusetts?

No one will gainsay or deny that the attitude of the Grand Lodge of England proves beyond peradventure of a doubt that they (it) had never issued Masonic Credentials to such a body as that one claimed to be.

We realize that it is hard for a man to surrender what has been to him a fond hope and a cherished illusion, but in face of facts, historical data, specific instances of chronology, all this Masonic speculation and conjecture must fade away and clear the road for the development of those true spirits of Masonry as set down by the founders of the Craft.

TWO WHITE MASONIC GRAND LODGES IN ENGLAND. ONE ORGANIZED IN 926 AND THE OTHER ORGANIZED IN 1739.

The first Grand Lodge organized among the white Masons of England was organized at the city of York, England, in the year of 926, and the second white Grand Lodge of England was organized at London, England, in the year of 1739. (See Mackeys Encyclopedia of Masonry; also see Mitchell's History of Freemasonry; see the Voice of Freemasonry, published in Chicago, in the month of June, 1867.) The members that composed the second white Grand Lodge of England when it was organized in 1739 was made up of expelled Masons from the first Grand Lodge of England that was organized in the year 926, and the second irregular and unlawful Grand Lodge of England that was organized at London, England, in the year of 1739 is the same Grand Lodge. R. Holt was DEPUTY GRAND MASTER and WILLIAM WHITE was the Grand Secretary. It was from this second irregular and unlawful Grand Lodge of England that the African Lodge No. 459 claims that it secured its charter.

If, in all fairness, the Grand Lodge of England granted a charter to African Lodge No. 459, at Boston, Mass., it being a clandestine Grand Lodge, it would follow beyond all dispute that African Lodge No. 459, at Boston, Mass., was unlawful and clandestine. It has been said by the Grand Lodge of England that they (it) did not grant a charter to African Lodge 459, at Boston, Mass.

The author of these articles would have it thoroughly understood that he is prompted by the friendliest feelings for those who may differ with his expressions exhibited in these writings. The day has come when make-shifts and pseudos must give way to the dominant facts of our historians, in whose opinions we are led to know that there are those who, by their innovations in Masonry differ somewhat from the ancient origin, and would have the public believe that to maintain a separate lodeg of Masons here is contrary to Masonic Law and customs; we admit the correctness of such view, but for many of the fixed and peculiar customs of North America to exclude some nationalities from certain rights and privileges because of their race, color or conditions, their claims fall flat at the feet of the lawgivers as absurd.

THE SYMBOL A. F. & A. M. ARE NOT ARBITRARY SIGNS-THEY HAVE A REAL SIGNIFICANCE.

The words A. F. & A. M. mean ANCIENT, FREE AND ACCEPTED MASONS, which words and title are of ancient orgin and should be used and adopted by every well-regulated Masonic subordinate lodge and Grand Lodge in this country, the entire world for that matter. This would be in keeping with the early ancient Masonic Laws, rules and regulations of the Masonic Fraternity.

MICHIGAN IN THROES OF MASONIC REACTION

The Grand Lodge of F. & A. M., of the State of Michigan has been working under the National Compact Grand Lodge, F. A. A. Y. M. of North America. In the year A. D. 1865, the M. W. National Grand Lodge of the United States of North America granted a warrant to "The Grand Lodge for the State of Michigan" and they have that warrant in the archives of Union Grand Lodge, F. A. A. Y. M., of Michigan, where it is kept as a relic. (See official history of Freemasonry among Colored people in North America, by Grimshaw.)

WAS JOHN A. BELL OF GRAND RAPIDS EXPELLED FROM THE MASONIC ORDER?

Yes.—The records of the United Supreme Council, A. A. Scottish Rite, 33rd degree Masons, for the Southern and Western Jurisdiction, United States, its territoires and dependecies, organized at Washington, D. C., April 5th, 1869, (its period of duration being perpetual) shows that Mr. John A. Bell, H. C. Scott, H. S. Brown, B. F. Warner, 33 degree, Los Angeleg, California, G. A. Wrenn, 33 degree, Los Angeles, Calif., Isaac H. Layton, Los Angeles, Calif., R. H. Slatten, 33 degree, Los Angeles, Calif., were all expelled in 1900, and W. S. Hill, 33 degree, Los Angeles, Calif., was expelled in 1894, together with the group of men who organized the "CLANDESTINE AND SPURIOUS TEMPLES OF THE MYSTIC SHRINE ALSO A BOGUS IMPERIAL COUNCIL," one in St. Louis, Mo., another bogus Imperial Council was organized by expelled members with headquarters at Baltimore, Md. and Washington, D. C. This spurious Imperial Council was instituted as the records will show, by Eugene Phillips, of New York City; Magnus L. Robinson, of Alexandria, Va., J. J. Hill, R. H. Gleaves, Thornton A. Jackson, James O. Bampfield, John Freeman, Roger F. Watts, of Washington, D. C., Isaac Holland, of Philadelphia, Penn.

The Union Grand Lodge get final decree."

"We are indebted to Grand Master J. C. Parker, of the M. W. Mt. Sinai Grand Lodge, A. F. & A. M., Jurisdiction of Michigan, for copy of decision mentioned hereafter. Grand Master Parker expressed gratification that the decision put a stop to Bell further imposing on the Colored people of Michigan and especially that it will prevent him (Bell) from misleading the people to believe that his organization and the M. W. Mt. Sinai Grand Lodge are in any way connected.

State of Michigan-In the Circuit Court for Washtenaw County, In Chancery. John A. Bell, the most worshipful, John A. Bell Sovereign Grand Lodge, et al. Plaintiffs, vs: The Most Worshipful Union Grand Lodge, et al., Defendants. No. 180. (Copy)

At a session of the circuit court for the county of Washtenaw held in the city of Ann Arbor on Tuesday, the 8th day of August, A. D. 1922.

The above entitled cause coming on to be heard upon the Bill of Complaint filed the same, and the said plaintiff by his counsel having offered no proof in support of his bill, and the case proceeding on the defendant-s cross-bill, and the court having heard the testimony and the arguments of counsel and being fully advised in the premises, does find the following state of facts:

That the said plaintiff, John A. Bell, having been lawfully expelled from a regularly constituted Lodge of Colored Masons for the State of Michigan and the said John A. Bell never having been restored to Masonry by the authority which expelled him, that he is not, and can never be, a regular Mason in any organization whatsoever until he has been so restored.

And the Court further finds that any organization that he appears to be the head of is fraudulent and fraudiently organized.

NOW, therefore, the court doth Order, Adjudge and Decree that the said plaintiff, John A. Bell, the Most Worshipful John A. Bell Sovereign Grand Lodge, and any and all persons acting under him or his organizations or by their authority be, and the same are, permanently restrained from holding themselves out as Masons or from wearing the badge, buttons, emblems, decorations or insignias of a Mason; that each of them is further permanently enjoined from adopting or using the name of Masons in associating with any other name or any derivative thereof and from claiming to be a member of any benevolent or charitable organization or corporation that uses the name of Masons that may deceive persons not members of the Masonic Order."

George W. Sample,
Judge for the
County of Washtenaw.

Now in so far as the legality of Colored Masons in the United States of America (and California) is concerned, we are the holders of the last will and testament, in black and white, for Masonic recognition from the most distinguished Masonic authority on earth, which is indisputable evidence of Masonic legality.

LOS ANGELES MINISTER RETURNS HOME FROM NATIONAL BAPTIST CONVENTION, A COMMISSIONER.

We welcome back to our city of Los Angeles, California, the Rev. D. C. Knox, D. D., Evangelist Pastor of the St. John Missionary Baptist Church, and vice moderator of

the California Progressive Missionary Baptist Association, President of the Ministers Deacons, Union Executor, Chairman of the "Harris' Safety-First Check" System of the World, who returns to us as a delegate of the National Baptist Convention, held in the city of Nashville, Tenn., from Sept. 6, to Sept., 12. Rev. Knox has lived to overcome many obstacles, slanders and criticisms, and has gained much fame in this city, and State as a gospel Minister and successful pastor. Five years ago he came to this city as a licensed Minister of the Antioch Baptist Church and a student of the Kentucky State University, taught by Rev. G. F. Watson of Louisville, Ky. On his arrival to this city he joined the New Hope Baptist Church, after which time he was elected as secretary and general superintendent of the Young Minister's Missionary and Education Association of California, Arizona and New Mexico to do his successful work as superintendent he was called to the St. John Missionary Baptist Church in the month of May, 1920, ordained and set apart for the Work by the New Hope Baptist Church. Rev. A. Lively pastor to take charge of the same, for he has successfully wrought a great Work, and remains today as one of the prominent leaders and pastors of the race. He has been able to build up to great membership and plans are being made for our new edifice to be erected on the corner of 25th and Compton. We feel that we have a God Sent Man in the person of our Pastor, therefore the Church decided to send him to the great National Baptist Convention of America. On the 23d of

L. A. MINISTER RETURNS
(CONTINUED FROM PAGE 11)

August, 1923 to represent his work there was an eight week vacation, with pay and money for expense to tour the many States as might be mentioned in his report.

He has made good and is making good everywhere, and we feel proud of such a young man and gospel minister, who can fill his place, and holds his own in the school of fame. He comes back to us highly welcomed, and highly honored with many honors conferred upon him by the prominent men of the World, with National recognition and reputation as a commissioner and secretary of the Foreign Mission Board and a member of the National Evangelist Board of the Territory of California, Arizona and New Mexico. The Mt. View Baptist Church feels highly honored to have a man of his standing with conference and

port and the influence of the Public to aid us in helping to put over this program that is worth while and help to build up one who is worthy of being heard and obeyed by ten thousand Worlds like this.

THE BOARD OF DEACONS.
B. M. McGLORY, Church
Clerk, Reporter of Pastor.

Leaving the city of Los Angeles, August 23, at 12:00 o'clock noon, accompanied by Mrs. Mary Jones, of San Antonio, Texas, with the host of members at the Station of the S. P. to bid me a successful trip with music prayers, the presence of some persons made me feel that God would take care of me in the midst of the great strife. Arriving in the city of New Orleans, August 26, at 7:45 p. m., there awaited me, cars and a host of friends. I was entertained by many of the honored citizens as guest. Leaving for Talladega, Alabama Monday, Mrs. Susie Knox,

a great host of Ministers and teachers awaited to join me. BE IT KNOWN TO THE WORLD, that Talladega, knows how to entertain strangers when one is worthy of the same. The city turns out. I was invited to the Mt. Canyon Baptist Church by the Rev. Dr. Bailey, to preach the following morning and Rev. Dr. Reed of the Knoxville Church to open an Evangelist meeting. The same was accepted by me and the results were three souls accepted Christ on the simple terms of the Gospel, preached by your humble servant. Leaving for Anderson, on a short trip September 3, we made many friends and acquaintances and God pronounced the benediction on all of our services. On my return to Talladega, a Banquet awaited me September 4, at the home of Mrs. Mary Taylor, after which we visited Talladega's College, Hospital, and Hog Farm of the same. Accompanied by the Reverend Dr. Bailey,

awaited thousands of delegates assembled in the Great Hall of Fame to do business for Our Lord and Master. We there engaged ourselves in the Work for the interest of all people. I deemed it can truthfully be said every delegate went about doing their work that gives credit and comment to the race. We feel the session of this Convention one of the greatest held in its history. On Saturday, Sept. 9, we witnessed the funeral of Dr. R. H. Boyd. One of the tallest oaks in our denomination has fallen in the Hall of Fame. Leaving Nashville, to witness the Funeral of Dr. Morris, President of the National Baptist Convention in cooperation, we were impressed with the idea as the two great leaders had just hushed in to join the Convention above that God intend for us to get together, and

we were delighted to be favored with the privileges and opportunity of preaching two sermons in our mother Church from whence we came and to witness the opening of the school session of the Kentucky State University of the supervision and leadership of Dr. Parish. Leaving Louisville, Ky., for New Albany, Indiana, to preach one sermon and from there to Indianapolis, Indiana, to visit Mr. Joe Knox, my uncle, and was entertained with much honor and joy by him, we preached one sermon for the First Baptist Church, and leaving at 4:30 a. m. for Louisville, Ky., where we spoke to more than three hundred ministers. Leaving for Nashville, Tenn., to bid farewell to the many friends, I stopped one week with Mrs. Ouie Davis and family, and was entertained by Miss M. K. Potter 925 9th Avenue—South. En route to New Orleans we were met by our Pastor,

James A. Bingham, pastor of the First Baptist Church of New Orleans, October 2, morning and evening. Arrived at Magnolia, Mississippi the following Monday morning. We spoke to the Fifth and Sixth Grade school there and stopped at the home of Mr. and Mrs. Henry Simms, and Tom Simms. Our stay was very much enjoyed. Arriving back to New Orleans, October 3, we preached our Fare-Well sermon at the Church Home of my mother's Petty's Chapel. Leaving the same night for Los Angeles, a little ill but not serious.

BE IT KNOWN to the general public and to the many churches and pastors the 19th day of November is the National Memorial Day of the late Dr. Boyd. A program will be found in the Union Review. The Public are welcome to attend our Revival Service beginning November 19th. Come and hear the Gospel of His Son as God

IN HONOR OF ROBERT V. REYNOLDS

The following poem written and dedicated to the memory of Robert V. Reynolds by one of his many friends, Mr. Julius C. Behnke, a white gentleman expresses somewhat the esteem in which Mr. Reynolds was held. A man who died in the service of his country, who gave his young manhood in civil, naval and military service thereto.

In 1900 he enlisted in the navy and helped to quell the boxer uprising in China. In 1905 he went to the Phillippines with the 15th Cavalry and while there accepted a position as Clerk in the Phillipine Civil Service.

During the world war he was a sergeant major with the 11th Cavalry headquarters. He was elected a vice-commander [illegible] of the American Legion here.

PASTOR FALLS DEAD IN HIS PULPIT

REV. CALDWELL OF SAN DIEGO SUCCUMBS TO HEART FAILURE

Rev. Caldwell, pastor of the Mt. Zion Baptist Church at San Diego, formerly a resident of this city and well known as a Baptist minister, at the close of the service at his church on last Sunday evening, dropped dead in the pulpit. Death was attributed to heart failure.

Intense excitement reigned over the tragic happening. The funeral was held on last Wednesday.

COMMERCIAL COUNCIL STIRS 'EM UP.

BIG MASS MEETING HELD TUESDAY EVENING AT Y. M. C. A.

At a special mass meeting held at Y. M. C. A. Tuesday evening quite a deal of enthusiasm was manifest at the various reports submitted and addresses made.

The correspondence was submitted on the coming of Prof. Carver, the noted scientist and wizard of Tuskegee. The bringing by this organization of such a genius to the Coast means much for this organization and more to the people of all classes, for his message is one for real production from the soil of the Earth. His efforts and contribution to science is excelled by no other person, not excepting Burbank, the noted propogandist of the virtue of mother earth.

Prof. Clement Richard, President of the big church schools in Missouri at Kansas City, was present and made quite a pleasing address which was most highly appreciated.

Miss Bessie Simon of Memphis, Tenn., who is a leader in settlement house work, extended the club an invitation to attend a mass meeting in the interest of the school at the Tabernacle Church on Hemlock St. Sunday afternoon.

Mr. Williams, prominent and well-known journalist, also made appropriate remarks.

A new drive for the purpose of obtaining more business for the business men of the race was suggested and met with hearty support. The fact was forcibly presented that of the $20,000,000.00 or more spent annually in this city by the race, that the concerns conducted, or those in contemplation, should receive a greater amount of this business than at the present time.

NOAH D. THOMPSON LOSES FIGHT

A lively tilt was precipitated when Mr. Noah D. Thompson of the Los Angeles Express offered a motion to endorse the message of President Coolidge, referring to his stand on the Negro.

The motion, after the eloquent speech of Thompson was just about to go over the top, but shades of the brink on which the organization might land, or perhaps the memory of false pretense and hypocritical promises even in our local representatives of the Coolidge klan, could not be overcome as the Eagle Editor arrested the question and a few pointed remarks seemed to have put a damper on the enthusiasm manifested when Thompson spoke and a motion by George Grant to lay the motion on the table was carried with but one dissenting vote and that was cast by Noah D. Thompson.

POPULAR MUSICIAN WEDS SPORT WRITER

One of the most pleasant of local social circle surprises took place Wednesday evening, December 12th at the home of Mr. and Mrs. Henry R. Rosemond of 1189 East 34th St., when they gave in marriage the hand of their charming and accomplished daughter, Maud-Etta Velma, to William Mells Watson, son of Mrs. Lillie J. Watson, 1555 Court street, well known Sport Editor of the California Eagle and the originator of the famous "Tennis Chatter" column of this paper.

The ceremony was performed by Rev. J. D. Gordon in the presence of but a few immediate friends and relatives.

The bride is one of the most capable and accomplished piano and voice culture instructors on the Coast having recently returned from Chicago where she attained a very high distinction in the eastern music center.

Mr. Watson for seven years an employee of the Los Angeles County, is the only race man ever certified as a chauffeur under civil service.

The happy couple will be at home to their many friends at 1624 West 36th street after January 1st.

PRESIDING ELDER JAMES WASHINGTON BEFORE TRIAL BOARD OF A. M. E. MINISTERS

On last Wednesday evening the trial of Presiding Elder James Washington at the A. M. E. Church began the hearing of his case. In true court style was the hearing, being conducted with Presiding Elder J. H. Wilson as trial judge and a jury of Elders of the connection.

E. Burton Ceruti and Rev. James M. Brown of Pasadena represented the accused, while Willis O. Tyler and Rev. Johnson and Bryant were arrayed on the side of the prosecution.

Rev. A. M. Ward was the star witness against the Presiding Elder, but his shot failed to land on a vulnerable shot; Rev. W. H. Speese was another witness, neither one of them delivered.

The hearing was adjourned until Thursday night, when the prospects are that it will be concluded.

A large crowd of laymen as well as ministers were present, it was no star chamber affair and Presiding Elder Wilson presided with utmost fairness to both sides.

From inquiry of those on the inside and other facts the Eagle man is forced to the conclusion that it is the same old story of "Sour Grapes" antipathy and malice.

Some preacher failed to get some certain brand of grapes and he is seeking revenge and hesitates not, at anything to get the Presiding Elder.

Quite a hostile sentiment prevails against the prosecution in this case and all who have disclosed their hands against the Presiding Elder are ostracized to the utmost and the pastor of the 8th and Towne Ave. Church comes in for the major share. The other fellows are considered as minnows and of course nobody pays them much mind.

They say if Washington had not been elected delegate to the General Conference the case would have never been heard of and that his Alternate wants to get him out of the way so he can go. This is what they are saying and they don't look over their shoulder to see who is listening when they say it.

The fate of several lights in the church will rise or fall with the case. They have come to the public with church affairs, the public press is now det in, and we are going to review both men and measures henceforth, all for the bettering of conditions as they now exist.

Watch the Soaring Eagle and learn the inside of the causes which thwart and stifle the growth of the Church and the present apathy in this particular denomination.

CENTRAL AVE. BRANCH CALIFORNIA BANK HOLDS GRAND OPENING

MARKET AND PRODUCE BRANCH THE CALIFORNIA BANK GIVES GRAND OPENING ON LAST MONDAY

Last Monday at Eighth and Central Avenue in their enlarged location the Market and Produce Branch of the great California Banking System threw open its doors to the public, and it was a sort of get-to-gether

MR. J. G. MAULHAROT
Manager of the 8th and Central Ave. Branch of the California Bank

day. Manager J. G. Maulhardt and Assistant Manager Wooldridge were courteously escorting the patrons to all places of interest, and showing them the modern conveniences of this branch, which is by far the most pretentious Banking institution east of Main Street.

The marvelous progress of this bank reads like fiction. Only five years ago its genial and most energetic and efficient manager, J.G. Maulhardt, came to its old location at 9th and Central. Under his guidance and pleasing personality, reinforced by a sunny disposition, and courtesy to all, the business of the branch grew by leaps and bounds. At this time there was only one person employed beoutgrew its place of abode and moved to 8th and Central, and opened up in quarters which it was thought would serve it for a decade at least, but the guess was far from the mark to which it grew, and the opening on last Monday was the response to the great California Bank for its patrons. Every modern convenience for banking is provided at this bank, which now employs eighteen persons in contrast with the two persons when Mr. Maulhardt took charge. The interior furnishing of this bank is on a par with any other bank in the city. The marble and glass fixtures, with inlaid tiling and frescoed walls, give it a setting not unlike Wall Street in New York. One side is devoted to the savings department, while the other is for the commercial banking. A retinue of obliging and courteous tellers and clerks take pride in caring for the needs of the customer. The branch also maintains a specialty equipped safety deposit box department.

WORTHY INDEED

The zeal and energy put forth by Mrs. Chas. Conner in managing the Hope Chest and its successful conclusion at Normandie Hall on last Monday evening is worthy of special mention and we appreciate the unselfish interest manifested for a cause which is indeed worthy, the call of today is for more such workers as Mrs. Conner.

Mr. B. W. Ingram of San Bernadino was a visitor in the city Wednesday where he attended the trial Board at the A. M. E. church. Mr. Ingram is prominent in church work and has a brilliant future before him.

He is the head chef of the Chocolate Palace Cafe of that city and as a consequence is interested in the line of endeavor. He gives friendly and constructive criticism on the cafes of this city, among other things mentioned he says the waiters fail to give service, neglect patrons and the management fails to take interest in patrons as they should. Pep and due concern for patrons is the bone and sinew of the modern cafe. Really it is an art and must be studied out in all details to bring about success.

APPEAL TO PHILANTHROPIST FOR COLORED YOUTH

Mr. Neval H. Thomas of the Dunbar High School, has written an appeal to Mr. Mr. Milton S. Hershey, multi-millionaire of Hershey, Pennsylvania, asking him to remove the color bar from his magnificent gift to the white boys of Pennsylvania and the nation. Mr. Hershey has just given his entire plant, the hershey chocolate factory, and nearly all of the rest of his fortune to found a boys' grade school and boys' home in Hershey for poor white boys. The gift amounts to sixty millions. Mr. Thomas, sensitive to the immense opportunity lost to the colored boys of the land whose needs are far greater than those of the white, addressed an appeal to Mr. Hershey. "The same Christian spirit that prompted your generous gift," the letter reads, "will, I an sure, impel you to remove every restriction based upon race or color, for the Master was no respecter of persons, and His great heart went out to him whose need was greatest. While the lot of the poor white boy may be hard, that of tthe unfortunate black boy is infinitely harder. We all hope, that you will take your little brothers in black unto your generous heart." Many people in the state claim that the movement for separate schools, sponsored by the minority of Negro leaders and their followers is responsible for this damaging discrimination. In private philanthropy, for the closing of so vast an opportunity as the sharing in such a huge sum as this which Mr. Hershey has given offsets whatever the colored people will get in salaries in the state.

Dear Editor:—Should we not go to the colored people of the nation to get them to appeal to Mr. Hershey to let our boys share in such a blessing as this? I know you will think such an effort one of the first of our duties.

Yours in His cause,
NEVAL H. THOMAS.

IN THE MUSIC WORLD

By John A. Gray

Now that the musical season is in full swing, it will be of interest to glance quickly over the country and note the activities of Negro musicians.

The Fisk University Singers who have successfully toured the country since 1871, are preparing for their annual tour this season.

Aside from Roland Hayes, whom we have previously mentioned, there is Carl Diton, pianist, who is playing in recitals and composing. Sylvia Ward Olden, soprano, pupil of Frank La Forge is on tour. She is also a graduate of Fisk University. Abbie Mitchell, of stage fame, with Cole and Johnson productions, is concertizing. Nicholas Balanta Taylor, a native of Sierra Leone, Africa, is winning recognition at the Institute of Musical Art, New York, where he has been a student since 1921. He will be heard in a recital of his own compositions this season.

The Manhattan Harmony, Negro quartet, will travel extensively thru the country this season giving recitals. The soloist with the quartet is Marie B. Houston, who was educated at the Oberlin Conservatory. The accompanist is Lorenzo F. Dyer, a Conservatory graduate and organist of the Mount Olivet Baptist Church. The members of the quartet are Charles Simmons, Tenor, J. A. Bowers, Baritone, Harold Desverny, Tenor, and William Vasty, Bass.

Roy Tibbs, Prof. of pianoforte at Howard University, announces several recitals at the University this season.

Nora Douglas Holt Ray, pianist, who has been spending several weeks in Europe, recently gave a recital in Geneva, Switzerland. Mme. Ray will return to America soon and appear in a number of recitals. Hazel Harrison, pianist, will be heard again this season in recital.

The Hampton Singers are quite active and are well received wherever they appear.

"Lift Every Voice and Sing" is now being adopted by Negro organizations stirring martial hymn, depicting the struggle and rise of the Negro from his slave days to the present time. The song is being taught in all of the Negro schools and colleges, and it has also been adopted as the hymn of the National Association for the Advancement of Colored People. The words of the song were written by James Weldon Johnson and the music by J. Rosamond Johnson.

WHERE TO ATTEND CHURCH

TRINITY BAPTIST CHURCH
West 36th St. and Normandie Ave.
Rev. J. A. H. Eldridge, Pastor

Our Sunday Sshool was largely attended and lessons taught with power. The pastor filled the pulpit at eleven o'clock, bringing to us a burning lesson from the 19th Psalm, 14th verse: "et the words of my mouth and the meditation of my heart, be acceptable in Thy sight, Oh Lord, my strength and my redeemer." It was enjoyed by all present: a blessing was received. Our B.Y.P.U. is doing nicely. Rev. F. C. McCall spoke at the evening service. His text was taken from John 144:1-3. Come and worship with us at all times. A welcome for all.

CORNERSTONE M. B. CHUURCH
1428 E. 14th St.
Rev. A. Redd, Pastor

Morning Service —Sunday Sshool from 9:30 to 11 o'clock; Prayer meeting and testifying until 12 M., sermon by the pastor, subject: "In the beginning was the word." St. John 1:1

Evening service:— B.Y.P.U, from 6:30 to 7:30 o'clock. Prayer meeting, and Testifying. Scripture reading by the pastor and sermon by the assistant pastor.

PLEASANT HILL BAPTIST CHUURCH
Cor. Court St. and Bonnie Brae
Rev. W. H. Rozier, Pastor

Pleasant Hill is still in the fight against sin. The truth hurled from the rostrum is a two edged sword, cutting sin right and left. Rev. Rozier's sermons are for cosmopolitan people. All can understand them, even the most unlearned, can understand them. So full of truth and power that the most scholarly can enjoy them.

On last Sunday, our church raised over $2,000 to pay a moral obligation due for materials purchased by contractor Lawson, to build our church.

I beg to make a word of explanation to the public. Our church is free of debt, but the contractor fell short over three thousand dollars, and we feel it our christian duty to pay this debt, not from a business standpoint, but from a moral one.

Visitors and strangers are given special attention, and are made to feel at home. A core of young women usherettes will meet you and assist you in any way possible. A good dinner is served every Sunday in the dining hall, free to all.

You are cordially invited to worship with us. Services will be held all day Christmas at Pleasant Hill. Also baptismal services.

TABERNACLE BAPTIST CHURCH
12th and Hemlock St.
Rev. J. D. Gordon, Pastor

Last week was a glorious week in Tabernacle, it being the end of the first battle in soul saving, with Rev. Lewis, the song evangelist, many were adden to the church, and others were sent to the church of their choice. The Sunday Schelo and B.Y.P.U. is steadily growing, and the young people are showing much interest. The B.Y.P.U. is becoming a drawing card.

We are glad to note the interest the young men who are just arriving in the city, are showing in presenting themselves to the church. They are keeping their church vows taken in their home churches. Sunday morning the pastor preached a strong sermon on the surrendered life, and many were present to listen with interest. There were many visitors present. Each wek brings back to the fold some one of those, who, by unfortunate circumstances, left the church.

At night the pastor preached from John 3:7. Subject: "The New Birth". A very large audience greeted the pastor at this service. This week promises to be a great week in battling for souls, while the Sunday School and B.Y.P.U. are making great preparations for christmas exercises.

MT. ZION BAPTIST CHURCH
50th and Hooper Ave.
Rev. Archie J. Williams, Act. Pastor

We had three great services Sunday at our new place of worship. The Sunday School was well attended. At the morning service the pastor spoke from the subject: "Mt Zion Rejoice". At the afternoon service Rev. R. N. Holt, Moderator of the Western Baptist Association, and Pastor, St. Paul Baptist Church, preached. Rev. Holt brought us a great message. We were delighted in having so many of the members of the Second Baptist church, Mt. Olive and St. Paul with us. At the afternoon service, Rev. W. R. Carter was the master of ceremonies. The B.Y.P.U. was very well attended. At the evening service the pastor spoke from the subject, "The Fullness of God". The soloists for the day were: Rev. A. J. Williams at the morning service; Miss I. Marshall, and Mr. VV. Willis of Mt. Olive, Mrs. A. Brown of Mt. Olive and Miss Moore of the First A. M. E. Church.

Next Sunday the pastor will speak at both services. In the afternoon the Mt. Zion Baptist Church will hold a service at the old folks home. The pastor will preach and the Mt. Zion choir will sing.

NEW HOPE BAPTIST CHURCH
1623 Paloma St.
Rev. A. Lively, Pastor

The weather did not affect New Hope Sunday. The congregation was just as large, the collection just as great, the sermons just as good, and the music just as pleasing as at other times, and five persons united with the church. This goes to show the wonderful spirit that exists in New Hope at the present time.

Prayer meeting on last Wednesday night was led by the children of the church. The prayer meeting is constantly growing and proving itself the backbone of New Hope.

The Bible training class on Tuesday evenings is a wonderful help to Sunday School teachers and others as well.

The Christmas tree and program by the children will be given Christmas eve., Monday, December 24th. A splendid program is being arranged.

One of the most beautiful cantatas ever rendered in the city will be the "Christmas Adoration" at 5 o'clock Christmas morning, December 25th, by the New Hope Choir, assisted by Mr. Dewey L. Johnson, noted baritone. Mr. Johnson's appearance will be a wonderful asset to the already beautiful collection of choruses, duetts, solos, trios, and quartets, all proclaiming the birth of Christ.

The public is cordially invited to attend this musical fete.

WEST SIDE MISSION A.M.E. CHURCR
1509 W. 36th St.
Major G. W. Prioleau, Pastor

The stormy weather had but very little effect upon the attendance of Sunday School children last Sunday. Every teacher was at her post of duty, not leaving out Bro. Washington and Bro. Ballard. The Sunday School rally for the piano was gratifying, the amount was $15.00. The pastor preached at both services. AAt the morning service the spiritual tide ran high. "Weighed in the balance" was the theme. One joined the church. The 7:30 o'clock service was not so largely attended, but those present expressed themselves as profited for coming out. Taking the lead of the Sunday School lesson, the pastor preached from Acts 8:4. Dr. and Mrs. Phelps of Pasadena, were worshippers with us. We look back upon a day well spent in the service of God.

HAMILTON M.E. CHURCH
Cor. E. 18th St. and Naomi Ave.
Rev. S. M. Beane, Pastor

The pastor preached two splendid sermons last Sunday. At the morning hour his subject was, "Worth Seeing", and at the evening worship he preach from the topic, "The Christian's Vocation". Despite the extremely windy weather a large number of auditors were present. In the afternoon the annual "Every Member Canvass" was held, when every member of the church was visited and his pledge for the year taken. It was the most successful canvass that we ever held. The World Service Program of the Church was over subscribed. Plans are on foot for the opening for a Lyceum under the auspices of the 4th department of the Epworth League. The First Quarterly Conference will be held on the 19th of the present month, after which there will be a reception tendered the new members of the church. The pastor will preach at the morning and evening hours next Sunday. You are cordially invited to be present. A cordial welcome and hand shake await you. Come and see.

FIRST A.M.E. ZION CHURCH
Cor Pico and Paloma
Rev. W. E. Shaw, Pastor

Despite the severe windy weather of last Sabbath, most church goers were found in their regular pews. Rev. Shaw preached a splendid sermon from Job 3:17. "There the wicked cease from troubling: and there the weary be at rest." Rev. J. D. Edwards delivered the evening sermon. It was another good sermon on "The Prodigal Son". As the holidays draw near, the spirit of good will and cheer are manifested in our churches. Rev. Shaw, large hearted as he is, announces that on New Years Day, as on last New Year's Day, there will be a dinner provided for all poor and especially for the boys without homes or friends, also the aged and helpless. Send them over to Zion. There will be plenty to eat and to spare.

The choir, under Prof. Bynum, is doing a splendid work, and on the Sunday evening before Christmas, a beautiful sacred concert will be given. A very rare treat in store.

This church is a friend to all mankind, and especially welcomes strangers.

PHILLIPS CHAPEL C.M.E. CHURCH
1406 Newton St.
R. W. Underwood, Pastor

Sunday last was unusually cold, but it did not stop the faithful ones. The pastor preached an excellent sermon at 11 a.m. Everybody seemed to have enjoyed the message. The Sunday School is growing nicely under the leadership of Brother E. B. Maxey. He seems to have a grip on the pupils.

The Epworth League has put on new life. Brother Charles Cook is its first president. He understands how to make things go; with Mrs. A. E. Miller as secretary. A nice program is being rendered each Sabbath. Sunday will be a big day. Everybody invited.

Sunday was a great day at this church. The pastor preached at the morning hour. The sermon was much enjoyed by those that were present. In the afternoon, Rev. J. W. Price, of Grant Chapel A. M. E. Church visited us, and preached a great sermon from the subject, "A Torch." His congregation was present and we had a great hour together. At the evening hour the Choir from the Macedonia Baptist Church was with us, and had charge of the service. They rendered a splendid program under the efficient direction of Mr. Fred Skinner. This program was much enjoyed, and the effort they put forth proved them one of the best aggregation of musicians in the city. The Sunday School was finely attended, and the Young People's Meeting was up to its usual standard. On the furth Sunday in December, Rev. Underwood of Los Angeles, will preach for us and his magnificent choir will sing. Everybody is invited to attend this service which will be at thre o'clock. The pastor will preach next Sunday at the morning and evening hours. All are cordially invited to be present.

WARD CHAPEL A.M.E. CHURCH
1252 East 25th St.
Rev. B. R. Guy, Pastor

We praise the Lord for the excellent services at this church last Sunday. The Sunday Sshool was well attenden, lessons good and offering creditable. At the morning services the pastor spoke from the text, "Blessed are the meek, for they shall inherit the earth" The large mixed congregation was attentive and three came forward and joined the church. Both endeavors were well attended, the lessons were good and interest commendable. At night the pastor spoke from the text, "Blessed are the merciful for they shall obtain mercy." The audience was very attentive. We are now in revival work looking forward to the quarterly meeting, December 30th.

WESLEY M. E. CHURCH
8th and San Julian Sts.
Rev. A. P. Shaw, Pastor

The men of Wesley and the city carried away the honors in the services last Sunday at Wesley. In spite of the windy weather the congregations were large both morning and evening. The singing of the Men's Chorus under the leadership of Prof. J. B. Jones was excellent. Mr. Leon Edwards presided very efficiently at the organ. The pastor preached a great sermon using as a text: Judges 9:54, "Draw now thy sword and slay me; that men say not of me: A woman slew him".

There was not a dull moment in the evening services. Every participant was at his best. One of the features of the service was the presentation of a bouquet of flowers by the married men to their wives preceded by an address by Mr. J. W. Bryant, Manager of the married men. The space alloted us by the papers will not permit us to tell the full story of the program. You just ought to have been there.

This Sunday will mark the closing of the contest. Dr. L. T. Gould will preach in the morning and the pastor will preach in the evening, at which time the results of the contest will be announced. Come and see.

BETHEL CHURCH HOLDING ITS SERVICES IN THE Y.M.C.A. NINTH AND HEMLOCK STREETS

There was great interest in the lesson in Sunday School. The subject, "The Outreach of The Early Christian Church", seemed to have had a special message for all Christian workers, and it was delightfully entered into by all. At the 11 o'clock service Dr. preached from Psalm 50th, 23, "Whoso offereth praise glorifieth me." The word was with power and evidence of The Divine approval. At 7 P.M. the B.Y.P.U. carried out its program. Acting president Bass offered the timel suggestion, of going innto various classes, and each class make a vigorous campaign for enlargement. The Lord's Supper was afterwards observed, and the hand of fellowship given to three. Come and go with us. Come praying for a blessing.

H. D. PROWD, Pastor.

BETHEL CHURCH OF CHRIST HOLINESS
Rev. Wm. A. Washington, Pastor

"I was glad when they said unto me, let us go into the house of the Lord", was the sentiment of the worshippers of Bethel, Sunday; and didn't our hearts burn, and rejoice, within as the Lord spoke to us thru our pastor, Rev. Wm. A. Washington, was very readily detected in the countenance of the majority of the faces.

At three o'clock we were honored with a spirit filled sermon by Rev. C. P. Jones, pastor of Christ Temple, and founder of the Holiness Churches throughout the entire nation.

For evening service the auditorium was filled and the Lord blessed with showers of blessings and gave quite a soul stirring message, using as an instrument, the pastor.

The altar call was largely responded to. It was quite encouraging to see souls hungering and thirsting after rightoeusness—and they shall be filled, saith the scripture.

Our rally was quite a success. The amount raised was $200. This amount was raised exclusively by free will offering.

LINCOLN MEMORIAL CONGREGATIONAL CHURCH
34th St. and Central Ave.
Rev. E. E. Lightener, Pastor

The pastor will fill the pulpit at the morning service this Sunday, Dec. 16th. In the evening, Rev. T. J. Watson of Chicago will be the speaker.

The past Sunday was a good one for Lincoln. The pastor's message at the morning hour on: "Christ's estimate of the church" and in the evening on: "Christian Preparedness" was well received by the splendid audience in attendance. In the afternoon the "Every Member Canvass" was made in which several teams from the church visited the entire membership to secure pledges for the work of the church in 1924. The canvass was one of the most successful in the history of the church.

You ar cordially invited to worship with us at all times.

PEOPLE'S INDEPENDENT CHURCH OF CHRIST
Cor. 18th and Paloma Sts.
Rev. N. P. Greggs, Pastor

In spite of the blustry weather on last Sunday, the services were marked with a surprising degree of interest The pastor preached a stirring sermon both morning and evening. Mr. Anthony sang an excellent tenor solo at the morning service. The congregation was given a rare treat by two excellent baritone solos of Mr. George Dewey Washington, the star singer on the third week's entertaining at Grauman's Metropolitan. The entire church is enshrouded in a mist of sadness from the death of one of their well known and faithful church workers, Mrs. Lillie Washington. Mrs. Washington was not only a front line worker, but was sacrificingly faithful in all her labors, and faithful in the performance of her duties. Her presence and assistance will be greatly missed. The Young People's Lyceum, of which Mr. Leon Whitaker is president, scored a high degree of honor and placed the organization further in the lime light of literary accomplishments in the Oratorical contest given last week under the auspices of said Lyceum. All contestants did honor to the occasion. The two best out of seven were Richard James Huey of Wesley Chapel Literary Society, first prize winner, Leon Whitaker, Young People's Lyceum of the People's Independent Church, second prize. The judges were Mrs. Malcolm Patton, Mrs. Bessie Brufington Bluett, and Atty. E. Burton Ceruti. The prizes were awarded by Mrs. Bluett.

Next Sunday is scheduled to be "THE DAY of days" in the epoch and history making activities of the church. Extraordinary and special services both morning and evening. At night, the Mamoth Pipe Organ, the pride and prize of the long put forth efforts of this historic institution, will be unveiled by Mr. George Beavers, Jr., under the auspices of the Men's Day programers. Dr. Eugene C. Nelson, President of Los Angeles Commercial, CCouncil, will deliver the Dedicatory Address for the occasion. Program begins at 7:30 P.M. The public is also looking forward to a rare treat in the "Student Musicale". Pupils of Sinclaire White Murdock and John A. Gray, Violin and piano, Friday evening, December 14th, at this church.

WALL ST. CHRISTIAN CHURCH
E. 8th and Wall Sts.
Rev. F. C. Cothran, Pastor

Our services last Lord's Day were good, notwithstanding the disagreeableness of the weather. The Bible School was increased both in interest and in numbers. Our pastor delivered two wonderful messages, by which all who heard them were inspired and uplifted.

Sister Catherine Keith, the missionary worker from Chicago, has taken up her work, assisted by her sister. Many visitors were present.

We are still looking to and trusting Him who promised that if we would be faithful and patient unto death, we should have a crown of life. We welcome all to come and worship with us.

MONROVIA

The writer of this item of news from this city, has been plied with many questions as to why no news of our busy city has appeared in the papers lately. The only answer that the writer can give is, that he has been so busy that time has not permitted him to do any writing.

Master Arnold Reed, the little son of Rev. and Mrs. Reed, is fast recovering from what the doctors think to be a modified case of infantile paralysis. The quarantine was lifted last Thursday. This news comes to the delight of the many friends of Dr. and MMrs. Reed.

The meeting of the Duarte-Monrovia Art Club which was held at the home of Mrs. G. W. Reed some time ago, was very largely attended. Mrs. Slaughter, ex-state president of the Woman's Federated clubs, Mrs. Cassell, MeMmber of the Executive Board of the State Federated clubs, and Mrs. Stewart, of the Los Angeles Day Nursery, was the honored guest. The club was delightfully entertained by Mrs. Reed, the hostess.

Mr. George Hollins, o local singer of promise, is preparnig to leave in the near future for Fisk University for training along musical lines. The A.M.E. Zion Church is assisting and will continue to assist him while he is in school.

Mr. and Mrs. J. S. Simple who recently moved to Monrovia, a brother-in-law of Mrs. Mattie Jones, of 1301 Shamrock Avenue, lost his entire personal effects in a fire at the home of a rich family by whom he was employed at Altadena last week. They are now stopping at the home of their sister, Mrs. Mattie Jones.

Mrs. I. S. Botts and Mrs. A. Clark, as the writer understands, have gone to the Los Angeles County Hospital for operation. Each of these parties has a host of friends in this city who hope for them a spedy recovery.

Mrs. David Ross, of 239 E. Huntington Drive, the wife of Mr. Ross, is stopping at the ranch home of Mrs. J. W. Polette. Mrs. Ross has been down for some time. But at this writing it is reported that she is getting along very nicely.

The churches of Monrovia are very much alive. They are having splendid service each Sunday. Each of them is planninng elaborate programs for Christmas exercises. The choir of the Zion Methodist Church, under the directorship of Mrs. Cora Fisher will render a special anthem on Sunday night before christmas, and on Monday night the Sunday School will carry out its program, which effort is destined to excel all the other programs put on here for like occasions.

MONROVIA YOUNG PEOPLE ON ENJOYABLE EXCURSION

The advancing young people's club of Monrovia hiked to Mt. Lowe last Friday, with a large group of young people from Pasadena and Los Angeles. They met at the end of the Lincoln car line in Pasadena, and hiked through Millard's Canyon up to Mt. Lowe. After enjoying themselves on the famous mountain, they started down the steep government trail. It was very dangerous, but all descended safely, and stopped at Miss Myrelle Holland's home on Logan St., Pasadena, where they were revived by dancing and delicious refreshments served by the cordial hostess, Mrs. G. Holland. All enjoyed the wonderful trip and look forward to another in the near future.

A treat was afforded the music-lovers of Boston on the evening of November 20th, when Mme. Abigail Hubbard, coloratura soprano, and Miss Hortense Phrame, gave a joinnt recital at Ebenezer Baptist Church.

Favored with an unusually large and appreciative audience, Mme. Hubbard seemed inspired and captivated her hearers with an excellent rendition of her program.

In every respect Mme. Hubbard proved herself to be an artiste of a very high order, every number was superbly executed, but the Swedish cradle song by Warren was especially enjoyed by the writer, because of its effective interpretation and perfect nuance. The florid passages in Strickland's "Blue Bird's Return", Densmore's "The South Winds are Blowing" and Verdi's "Caro Nome" afforded her splendid opportunities to prove herself worthy of being ranked as one of the Race's most promising coloratura sopranos.

Both artistes were recipients of bouquets contributed by many friends.

Miss Phrame, violinist, rendered that part of the program entrusted to her with the feeling of a natural-born musician and the technique of an artiste. Special mention should be made of her rendition of Godard's Berceuse from "Joselyn".

Mrs. Anna Terry, accompanist, ably supported soloist annd violinist.

H. HUBBARD.

SAN DIEGO

By A. L. Brown

Among the newcomers to San Diego is Miss Ruth Taylor of L. A., who is spending the winter with Miss Ella McClure, 2635 Newton Ave.

Mr. and Mrs. Smith of San Diego, this week received the sad news of the sudden death of Mrs. Smith's mother, at Alexandria, La.

Mrs. E. Ross, a prominent business woman of Los Angeles, together with Mrs. M. Pittman, mother of the Lower California Development Company, and Mr. J. Roberson, were in San Diego last week, en route to the Santa Clara Ranch, in Mexico.

On last Saturday morning the last sad rites were performed for Percy Keith Hines, who passed away after an illness of two years. The youth was a well-beloved member of Boy Scouts Troop 16, and had a host of warm friends who deeply mourn his untimely death, and the Eagle staff joins with them in extending sympathy to the bereaved family.

The strength of the Garvey Movement was brought home to us last Sunday afternoon, when Mrs. Catherine Everly, of Los Angeles, held a great audience spell-bound longer than an hour at the First Baptist Church. Rev. Thomas made a stirring address which swept the Garvey Movement to the front on a wave of favor before the arrival of the speaker of the day, delayed by the lateness of her train. Rev. J. Johnson of the First Street Baptist Church, and his famous orchestra rendered a number of well received selections.

The Scoutmaster is glad to report that the strenuous efforts of one Mr. Henry H. Woods to prevent the Troop from receiving subscriptions in the Eagle Campaign from Mr. Morris, came to nothing, thanks to the timely intercession of Mr. Sylvester Stewart, ever active to aid a good cause! The Cadillac Garage responded generously to our appeal, and it is to be hoped that Mr. Woods' misguided zeal will henceforth be expended for a more worthy cause.

Dr. A. L. Brown spent two days in Los Angeles, in business, and incidently witnessed the wind-up of the Eagle Campaign. He was accompanied by a Mr. Herbert.

Mr. H. Harper, who is a citizen of Mexico, and is living in Mandela Valley, spent a few days in San Diego last week, visiting friends.

Mrs. Viola Carney, who is visiting friends in San Diego, is ill. However, she hopes to be able to accompany her friends, Misses Janice and Edna Rucker, on a Christmas visit to El Centro.

Mrs. Casey, who has been on the sick list for some time, is still confined to bed.

Mrs. Bruce is still critically ill. We hope for her ultimate recovery.

Now that the Eagle is well established in San Diego, Dr. L. A. Brown will proceed to launch a vigorous advertising campaign. PATRONIZE THOSE WHO PATRONIZE US! will be our slogan. Mrs. E. Wallace is starting the movement. Stop at her attractive place when in San Diego. The advertisement of the Sun Cafe will also appear in these columns shortly. If you want high class food at moderate prices, patronize the Sun.

Bethel Baptist Church is still planning big things. Revs. Knox and Butler are getting things in shape for a building drive. Last Sunday's church services were all well attended and of the usual high order.

Past Master E. P. Dort showed lively and active interest in Troop 16 in the recent subscription campaign. He did not stop at a two year subscription but advised the Scoutmaster to launch a contest among the boys, the winner to receive a nifty new uniform for Christmas. The prize was won by Chas. Obertree, who scored 36,000 votes.

The Scoutmaster thanks the Scouts for their support in the subscription campaign.

Rev. Caldwell is still on the sick list, but is able to get about slightly.

A MERRY CHRISTMAS

County Jail Scandal Exposed

On the tenth floor of the Hall of Records, last Thursday afternoon, the Civil Service Commission with Mr. Chappell in the chair, as acting judge, listened to the eight charges brought against Miss Rose Ruff, matron at the county jail by the Sheriff's office.

Miss Ruff was represented by Atty. Lineman, while the county was upheld by a Mr. Geo. W. Dowd of the Sheriff's office.

After the eight charges had been read, all of which were flimsy and inconsistent, and if due any credit at all, about all one could say, is that they were deeply dyed by colored with prejudice.

Among the first persons called to the stand was sheriff Traeger himself, but his honor denied any first hand knowledge concerning the so called "riot" at the county jail, and beat a hasty retreat.

It was then briefly discussed as to which side of the case would be heard first, and "judge" Chappell could see no reason why the defense should not offer his case first, but Atty. Lineman, with her very pleasing Irish accent pointed out wherein the defense would be helpless to defend without the prosecution first putting on witnesses to substantiate the charges brought forward against Miss Ruff, to show why she was unsuited for matronship at the county jail. and these witnesses were: Mr. Cronshorn, jailer; Mr. Miller, asst. jailer; Mrs. Oreda Sullivan and Mrs. K. Waddell, matrons; Mrs. McDonald and Mrs. Anna Tiernan, inmates; and all of whom testified that Miss Ruff's method of dealing kindly with the girls had won for her their love, and esteem, and upon being closely questioned by Mr. Chappell as to whether or not this method contributed to disorder, rather than order, the prosecution was helpless in pointing out any instance when disorder prevailed under Miss Ruff.

The prosecution made a strenuous effort to convict, but lost every point. Mr. Dowd, who was chief counsel to the prosecution used as his leading question which he did not hesitate eo put to each and every witness, "Did you ever see Miss Ruff kiss Rachel DeVine? (colored). Yes, came from several, while others of the prosecution witnesses floundered when the quqestion was put and were uncertain as to whether Miss DeVine kissed Ruff, or Miss Ruff kissed Miss Devine.

The following witnesses testifyed for the defense, and, the weak and flimsy case of the prosecution fell to the ground, Rachel Devine, Babe Washington, Willie May Thompson, Genevive Albritz, Ella Bradt, Elenore Walling, Ramona Von Lippen, Louise Lynch, Bernice Dodge, and matrons, Mrs. Bartoo, Mrs. Francis Wallis, Mrs. J. C. Cole.

A Net Work of Scandal

The Ghost of Ex-Jailer Bailes Still Walks at The County Jail

To say the least, out of all the testimony produced it disclosed a mos deplorable state of affairs, intrigue, prejudice and rank discrimination as between black and white criminals on the part of the jail officials.

The ghost walked. Now Bailey and accusing Matron, Mrs. K. Waddell had sworn vengeance simply because Miss Ruff could discern no fault on account of the color of the pigment of one criminal from another.

Evidence was brought out showing Bailey's hatred against colored prisoners also Mrs. Waddel's antipathy against them. In fact, the whole situation was nothing more or less than color prejudice, and disclosed the fact that Mrs. Waddel should have been the one on trial instead of Miss Ruff. Bailey long since walked the plank but seems to yet hang on the county pay roll in some lesser capacity than the Sheriff's office.

Letter signed by the women prisoners give the real inside of "riot" at county jail.

It is about time that the truth is published about the "riot" in the women's qquarters of the county jail.

To begin with: we have only four colored girls in our quarters, three at the time that the trouble started. One matron, Mrs. Waddell, had a failing of calling one of the girls "Toysy". When asked not to do it by one of the other colored girls she looked all three in the "dark cell" (punishment cell). She also made the remark that she [illegible] and asked one of the girls what she was going to do about it. This nearly caused a riot amongst the white girls as these colored girls have a good deal whiter souls than those that are supposed to be white.

So much for that. A very general remark was made by a Mrs.Tierman about another woman prisoner. When asked to retract this statement she deliberately taunted the one she had slandered. Things that are trivial on the outside amount to mountains in here. Taunts in here where every one is high strung were a little more than this one girl could stand. Mrs. Tierman was neatly slapped on the mouth. When she went to the matron's department to report the argument, Mrs. Waddell opened the door. Mrs. Tierman, trying to get in all the words possible before refused admittance. Mrs. Waddell listened to her complaint and while Miss Ruff was in another room, slammed the door in Mrs. Tierman's face, saying, "Miss Ruff is on duty, if she can't the girls qquiet she hasn't any business in the capacity of matron". Then "Bang!" goes the door. Now, we all realize that we are prisoners and that therefore we should not criticise our superiors. But where are we to go when we need protection, if not to the matron? If said protection is denied us there, where are we to go and what are we to do? Exactly what we did do—take it in our own hands.

When Mrs. Waddell was ready to go home, about thirty of the thirty-nine prisoners were grouped about the door. Mrs. Waddell was asked by the "entire company" to repudiate the statement made about Miss Ruff. Understand this, we did not demand an apology, but asked politely that the statement be retracted. The girls blamed, principally the ten that were taken downstairs, were not "leaders" in the group that was by the door. The girls were led by Helen June Osborn. I am within my bounds when I say led and sincerely believe that I am not making too broad an assertion when I make that statement. The mentioning of the names hasn't and bearing on the case now. as Miss Osborne has ben assured of her probation, from the results of turning against Miss Ruff when at first she was for her. Mrs. Waddell asked us if we should like to have our privileges taken away for a week, then asked Miss Ruff to open the door.Miss Ruff opened it without hesitation, althe she has been accused of refusing, and Mrs. Waddell passed out.

Next morning we were grilled by Mr. Cranshorn. Everyone knew nothing except what I have told. altho two of the inmates swore that we had planned to take the key from her. Altho accused of being one of the "ring leaders". I knew nothing of this.

Later in the morning a fire was started. None worked harder than the accused "ten" to put it out. We were questioned about this, Mr. Cranshorn had no more than reached the downstairs office when another fire was started. Again we worked and again we were questioned. This time all the girls were in the hall talking with Mrs. Dorr. Some of the accused were even downstairs conferring with their attorneys. Again we were questioned. The number being reduced each time.

By this time we knew that some of us were bound for the "dungeon". It was fun to see which way the wind was blowing. When the fourth fire was started most of us (the ten) were in the back dormitory. Three of us were talking to Mrs. Sullivan, the matron on duty. Still we were blamed. All questioning was waived this time. Ten of us were lined up: Genevieve Albitz, Bernice Dodge, Willie May Johnson, Louise Lynch, and Babe Washington were put in one dungeon and Ella Bradt, Eleanore Walling, Rachell DeVine, Pauline LaMarr and Romona Von Lippen in the other one.

We were in the dungeon tank possibly three hours when the girls began to faint, Bernice Dodge and Pauline LaMarr had to be carried upstairs to the matron's department. Willie May Johnson and Genevive Albitz had to be taken to the doctor's office because of this we were removed to tank 18.

We have absolutely no complanit to make of our treatment down stairs. The jailers, Mr. Higgins, Mr. Miller, and George Frank the head trusty, were strict, but wonderfully kind.

The papers have published everything but the truth in this case, We stood together and came back together. Romana Van Lippin and Genevieve Albitz had to be removed to the hospital. Geraldine Crebie, who demanded to be brought down later, was sent to San Quentin. Louise Lynce was released on bond.

We were down stairs four nights and four days. We could have been back upstairs by apoligizing, but why should we apoligize for something we did not do? Mrs. Waddell was induced by Mr. Cranshorn to apologize to us and thereby admiting her guilt. We compromised by saying that we would behave ourselves if taken back upstairs. The papers, that printed the story that we begged to return upstairs, printed an absolute falsehood.

Miss Ruff is loved by all the girls for the simple reason that she treats us as women should be treated. Not with sarcasm or with the insinuations that we are crazy and should be treated as the inmates of Patton, which Mrs. Waddell does. Miss Ruff has never, to my knowledge, had a girl disobey her. She asks, not commands, and I can truthfully say that there isn't a girl but that loves her for these qualities.

Mrs. Waddell entered the living room one morning and sweetly remarked, "What do you think, girls? I had to borrow car fare from an utter stranger to come t work this morning. I locked up my pcket book in order not to tempt the girls and went home and forgot it." Nice remark, yes?

I am writing this for the girls and in behalf of Miss Ruff, who is unjustly accused. Anything that we can do towards lightening things, we are only too glad to do. Mr. Higgins, Mr. Miller and Mr. Craunshaw also Miss Ruff, may be assured that we will do our level best and that they can depend on us.

Now you have the truth in regards to the riot so far as we know it.

Since the trial before the Civil service Commission, Jailer Cronshorn has written a letter to the board correcting his testimony to a great extent.

The board took the case under advisement. Miss Ruff only fights for vindication and states under the conditions existing at the county jail she would not go back under any condition.

DR. EUGENE C. NELSON

No Holiday issue of the California Eagle would be complete without a line about this popular and progressive Physician and Surgeon; always to the forefront and a strong supporter of racial enterprise, he has during the past year initiated a movement along business lines which will be of inestimiable value to the future progress of the race.

It was in the fertile brain of Dr. Nelson that the idea for the formation of the Commercial Council originated, and he immediately put the thought into action and every since that time there has been a decided improvement along the line of business opportunity. We appreciate it very much when our professional men will take the time to be a part and parcel of the people and assist along the line of their material welfare.

JUDGE J. W. SUMMERFIELD OF THE SUPERIOR COURT

The name of Judge J. W. Summerfield, as a result of his wonderful service on the bench of the Superior Court of Los Angeles County, has gone forth to the four corners of the earth, as a judge of unusual capacity for the dispensation of justice. As an arbiter in the divorce courts he has a record eqqualled by few and surpassed by none.

The people of Los Angeles are proud of the achievements of Judge Summerfield, for he is truly one of them. He has been with them in all their trials and efforts to rise, and has never forsaken them, and he never will, for the people long since recognizing his sterling worth with almost a unanimous vote, expressed their confidence in him. He has never betrayed their trust, he has more than made good, and no man stands higher in their estimation than this eminent jurist, J. W. Summerfield. We have looked for him t oeven ascend to higher fields of effort and that he will dispense justice on the Supreme court of our land.

The doctor a pronounced success himself is wholly unselfish and is doing all in his power to assist the race in its onward march.

PULLS A BONER RIGHT OFF THE REEL

On last Saturday evening, the new head of the vice squad, Captain Plummer, with almost the first stroke against vice, pulled off a spectacular raid and swooped down on the office of Dr. E. C. Nelson, 1339 E. 12th St., without any warrant or other authority, broke open the door and searched the premises in quest of a still.

They gave as an excuse that they received an anonomous call over the phone that a still was in operation at that address. Dr. Nelson's brother, who was on guard at the office, says the men were rough, and forced him to get in one room, while the premises were being searched, and one of the officers called him vile names and said: "I don't like Niggers anyhow". Of cource n ostill was found.

Now we feel that these officers exceded their authority and when conducting a raid on any reputable physician or other person should at least be armed with a warrant.

No doubt some enemy of Dr. Nelson inspired the raid and Capt. Plummer, gave them a hand by responding.

If anybody thinks, for one moment, that the doctor will stop short of getting satisfaction they have another thought coming. Look for particulars in our next issue.

CHRISTMAS GIVING

Christmas is thought of in a special way as a time of giving. But to the loyal, true and generous, the whole year is a time of giving; for the best gifts are not merley those which beautify life, but inner gifts—gifts of personality, gifts of our own best selves to those we are journeying with to the bright land of the future.

There is no record of Christ making any material gifts, yet He was the most generous giver that the world has ever known, for he gave to it the exceeding riches of a perfect love andpeace. The miracle of this manner of giving is that it enriches the giver. This kind of giving is all the more unselfish in that it is likely to be unconscious.

The difficulty with this kind of giving is that those who want to give in this way and upon whom there have been bestowed many rare gifts, so that they can give, have also been gifted with the beautiful gift of humility. They feel that "it is more blessed to give than to receive", in that to always be receiving and never giving anything in return means that one taints himself with the sin of ingratitude. But how shall one give unless he has something to give? So each says to himself, "others have been enriched with many precious gifts beside which mine are poor and mean. I want to give, but I am a mere beggar in my Father's House and have nothing to give". They see the imperial gifts of eloquence, or beauty, or leadership, with which others have been endowed—gifts that shall carry these shining ones to the bright places with distinction. In seeming to themselves so empty-handed, they little suspect that some stray fairy has passed their way and left in their keeping some magic gifts of happiness, goodwill and affection. They little suspect that the finest gifts that heaven sends not the gifts that set us apart and above others, but the common gifts, have, like the sunshine, shower the joyous gold of good cheer on all alike. And what are some of these unsuspected, hidden gifts, dear reader, that will make you happy if you will learn to use them for the Master?

1923 XMAS NUMBER

A strenuous subscription campaign prohibited us from our usual mammoth holiday special. However, just a few days effort puts us in a position that we have no fear as to comparison with other race journals.

Again we are proud to note that every line of composition and mechanical effort is the product of the race.

We present to you the only race paper in the world with an Automobile Section. Also a most splendid array of advertising and feature write ups.

The "Soaring Eagle", with both a heart and soul, in this section extends to our enlarged clientele a Merry, Merry Christmas.

FORD WITHDRAWS

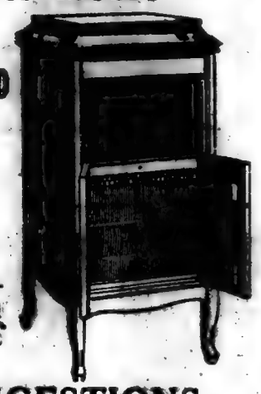
The Abraham Lincoln of the Automobile World has silenced his own boom in declaring for President Coolidge, and therefore, between fishing and cutting bait he has chosen to do the latter.

GOVERNOR FRIEND RICHARDSON

We take off our hat to Governor Friend Richardson as a man who refuses to be swayed by any hue or clamor when after mature consideration, he makes up his mind.

When he made his campaign for governor he did so on a promise to reduce the budget of State expense. Of course this act on his part created a mighty howl from the pie eaters, but to no avail. The Governor kept his word. The public trough brigade hollered and are still hollering, but the Governor stands pat, and we have an abiding faith that the people admire him for it.

Now comes the mighty Insurance Corporation, which seeks to evade the payment of $100,000 and keep a man, who committed a most heinous and atrocious crime from paying the penalty of his act, for no other reason than that above stated.



The Board of Prison Directors has lined up for the Insurance Company, but not Governor Richardson. And again the people appreciate his stand and hold in contempt the ulterior motives of those who are striving to save a murderer, it is said, in order to save the Insurance Company $100,000.00.

AN ASSET OR LIABILITY

By R. J. City

Is the colored real estate dealer an asset or a liability in the community?

This question is daily argued pro and con by home buyers, agents and the average citizen.

Much can be said both for and against the question, but after all, the balance of argument must be in favor of the man in business.

Within the past year hundreds of homes have passed through the dealers' hands to satisfied owners, and no few business locations have been secured. The successful dealer must do many things that home seekers know little or nothing about. He must constantly have canvassers out canvassing neighborhoods and districts where they might secure homes for their clients. He must be versed in handling and filing legal papers in escrow. He must be able to have a car at the disposal of a customer to visit different prts of the city trying to satisfy.

Homes are becoming scarcer and scarcer each day, and it keeps us dealers at wit's end trying to get houses listed. True the real estate dealers like other concerns, hav a few onions in theis flower bed. These they weed out whenever found, but generally speaking, we keep pace with the time and everything considered, ar an asset to the city.

My Friend Recommended You to Me.

Nine persons out of every ten who come into my office write or call me by phone for appointment, greet me with the six following words: **My Friend Recommended You to Me,** and I appreciate those words beyond expression, they mean more to me than all the gold in the world; for those words show the confidence that reputable citizens have in me and in my business methods. I have striven to make a friend out of everyone whom I have had any business dealings with, and those words assure me that I have succeeded. swordfish. The latter dainties served nowhere else in the world but at Catalina Island, where these game sea monsters are caught. Then there are sandabs, crawfish, and abalones, also a seafood distinctive of the island.

"Cream, butter and cheese are kept in another refrigerator. Along one wall of the kitchen are special screened shelves, artificially ventilated, into which cooked foods are placed before being put into the big refrigerator.

"A large ice plant is part of the kitchen equipment of the Hotel St. Catherine. Several tons of ice are manufactured here. There is machinery for moulding into blocks, chipping and shaving huge ice cream and sherbert machines. Rodney Jefferson's frozen dainties are famed. The ice plant also supplies the entire cooling system of the hotel kitchen. The hotel kitchen also has its own electric plant.

"Then we come to a warmer clime the bake shop. Here Baker Henry Haneman plies his art. The cookies, tarts, cakes, bread, Johnny-cake, gingercake and oh! too many goodies to tell about, are made. Gallons and gallons of rich Middle Ranch cream, cases on cases of eggs, sacks of sugar and all the good things that go into the richest of pastry are consumed. Electric mixers, kneaders and creamers are the baker's assistants. His large brick oven is kept busy twenty-four hours of the day.

"But let us look around the main kitchen. Here are electric toasters, egg boilers, electric griddle cake and waffle irons, tea and coffe urns, roll warmers, long steam tables, enormous ovens and stoves.

"Oh, yes, how about the dish washing, that nightmare of all cooking? An electric dishwashing machine washes, sterilizes, dries and polishes fifteen thousand dishes per hour. It takes ten men to feed this machine and receive the clean dishes to put away on the shelves. The men who take the sterilized dishes from the machine wear sterilized white cotton gloves, so each dish comes to the table of the Hotel St. Catherine chemically clean. Even the refuse of this big kitchen is taken care of in a sanitary way—put fresh into a separate refrigeration vault where it is kept twenty-four hours and thoroughly frozen before being hauled away.

"Rich, wholesome food, prepared by a master chef in an ultra cleanly manner—small wonder that the cuisine of the beautiful Hotel St. Catherine at Catalina makes you hungry to even think about.

"What must such truly Southern dishes as baked Virginia ham with candied yams, roast suckling pig, with baked apples, Kentucky burgoo, smothered equab chicken with green corn fritters, Johnnycake, ginger, bread, are daily dainties at Hotel St. Catherine.

luscious food would make even an invalid sit up and take notice."

Chef Jefferson has made an enviabe record; in the entire five years on the Island, he has never been one minute late for a single meal, though bakers have walked out, and the Union men struck, but the Chef knows every department and can do ten men's work, and as his head assistant, Mr. Sweatman, one of the hundreds of splendid young colored men he has trained, who is holding big jobs said: "The men love him and greater patience, I have never seen. I hope in my life time I can be just one-half as good. He can cut up any beast or fowl without ever using a saw—he knows the anatomy of the carcass so well. In fact, he is an all around man, a close student, who attends strictly to business and is always on the job."

Chef Jefferon explains his keen interest in this fashion: "For a man of the Wrigley caliber, I would not be more careful and judicious in the handling of my own business than his trust. He has been the whittest man in the world to me, and I love him because he expects every man to produce and I am going to stay with Mr. Wrigley as long as I can get results." He twitched his head to one side as he smiled characteristically and added: "He has been so nice, I wouldn't have nerve enough to leave him. I came here expecting to stay six months, and I have been here five years."

As a little surprise for Mr. Wrigley, Chef Jefferson has prepared over a ton and a half of figs in 20 different styles, just to show the Big Boss what can be done with the vast quantity found on the island.

Chef Jefferson is a man past fifty, still he is in the best of health and mounts the steps to his private rooms, three at a time. He says it all depends on what you eat, and from the number of people who get well at Catalina Island, following the dietary plans laid down by Chef Jefferson, we suppose he must be right.

Chef Jefferson became reminiscent when he spoke of Eddie Wicks, his friend, and the late Senior Steward, who passed away. "Well" he consoled himself, "when he became incapacitated, the Company did everything for him and his pay went right on. They paid his hospital bill of over $1,000 and then sent him to Kansas, and paid all the expenses of his wife and brother Charlie, who now has advanced to his place on the steamer." The little fellow was touched, and his words came with an effort as he proceded: "Mrs. Wrigley is a great big mother to everyone and he is wonderful. What he tells you, you can rely on." He grew eloquent as he burst out, "I do not believe there is another couple in America like them. There is nothing I would not do for them."

We will never forget Catalina, for tears came to our eyes as the Island Orchestra played a beautiful Hawaiian farewell tune as the boat very slowly if not reluctantly, moved out in the deep blue sea. Fondly, we gazed until blue sea, the giant rocks were lost to sight. Notwithstanding we did not even tell of our trip on the Glass Bottom Boat, showing the wonders of the sea, we add our approval to this unique revelation of the ocean secrets and the enchanted isle of "mother's home cooking" in the universal language of every visitor, "In all the World, No Trip Like This."

PROGRESS THE GRAY MURDOCK PUPIL RECITAL

The piano and violin recital given at the Independent Church, December 14th by the pupils of Mr. Gray and Mrs. Murdock was much more than a fine affair. The whole thing was an exhibition of Progress. For the past three years I have been watching Mr. Gray's work in his studio, and the high standard which he sets before his pupils, with pleasure, knowing that in time his pupils must register for him what everybody saw them do in the recent recital. The playing of every piano number was highly creditable and four of the pupils deserve special mention.

Miss Edwards rendered the beautiful Schubert-Liszt's, "Hark, Hark, the Lark" and the Liszt Second Hungarian Rhapsody. In advancement and brilliant playing Miss Edwards out ranked all else on the program. The second Rhapsody involved more difficulties than the first number, and was not as perfectly given as the first. The Liszt Rhapsodies are based on the Hungarian folk song, and the themes are worked out in different mooda and variations, which require great skill to ballance them well. Miss Edwards gives promise of big things. As much can be said for little Miss Shamboy. Miss Dorthy Brown and Wallace Markham gave an exhibition of fine melody playing in tone picture. Both showed the soul of the artist. Markham's playing was the most perfect in fine finish of all the piano pupils. All of the piano playing was characterized by utmose refinement, and with no shadow of silly gyrations and claptrap.

Mrs. Murdock showed fine teaching in the work of her pupils. The first number of ensemble playing was especially well done. The very finest violin playing of all the pupils was done by Miss Evelyn Kennedy in her rendition of Massenit's "Thais" and next to her for fine work was Miss Gertrude Freeman.

From Gounod's Version of Faust, Lawrence Lassiter gave th eoig walts closing with the march representing the return of the German soldiers. For this he was awarded the popular prize by the audience. He was clearly the most advanced of the violin pupils in the recital. But his playing was anything but the best. But the very nature of the piece, given with gusto and swagger as it was, won the audience with great applause. With such fine work as Mrs. Murdock does, it is more than regrettable that the giving of a popular prize should be allowed. Such a performance in a "cake walk" would be all right, but it has no place in such a program as Mrs. Murdock presents. It does no good but always incalculable harm in its effects on both the loosers and the winners. And especially on the winners in any educating of the audience to see and understand fine art.

But a fitting conclusion is to repeat what was said in the beginning, that the whole thing was an exhibition of progress.

Aside from the program, the fine auditorium of the Independent Church was something fine to see and that Rev. Gregg should open it without charge to advanced educational things and culture, is something, not only fitting, but an exhibition also of his own progress in forwarding desirable things in the community.

'REO'

AUTOMOBILE INDUSTRY HAS A MOST PROSPEROUS YEAR

Perhaps no concern has enjoyed the confidence of the Automtive public more than has the Reo Motor Car Company of this city. I nmaking afew informal calls on several of the large conserns of the city it happened to be my good fortune to visit the Reo Motor Car Company headquarters at 12th and Hope, and I must admit I was somewhat staggered as I was courteously shown through its various departments from show rooms and offices to wash rack and exit.

No finer outfit is to be found in the city. Wonderful beyond description are the sights I saw. And, more wonderful the system instituted for disposing of what looks to be, and no doubt is, the best car on the market for themoney.

In an interview with Mr. Byron C. Foy, General Manager, he expressed himself as more than pleased with results obtained through the new sales method.

Yes, says he, our business is selling those who wish a car one of our real automobiles, and to that end the Reo Motor Car Company is sending the car to your door for inspection, rather than asking you to call at our headquarters, pleased as we are to have you call. But we believe that the time one spent in traveling through heavy traffic could be saved by just stepping around the corner looking over the several models on display, having the demonstrator take you for a ride, and completing the sale at the office when you return. All of which sounds like a fish tale, but its so. Seven out of every nine that have stepped in for a ride in their looking about for a good car have become purchasers, and the other two, Oh well, they just didn't want a car at the present time, but assured us of a sale when they did.

Happy to meet this individual was I, much more surprised that it was necessary to use a jimmy to get a concrete facts about the best car for the money

A SMITH

Detroit, Dec. 20 - This has been truly a prosperous year for the Auto industry. The business has not only held its own, but increased in volume to the surprise of every one. Just now, there is considerable rivalry between many factories, each trying to shove the other out of the honor of having turned out the largest number of cars available for 1924.

As has been said before in the columns of this paper, Detroit is a wonderful city from a manufacturing standpoint, and one would think, judging from the number turned out daily that detail was overlooked, but not so. Acute and precise to the most minute degree, is every car, and its parts.

Again, all concerns are swamped with orders in this neighborhood, and California and the Great West at this moment seem to be leading the procession.

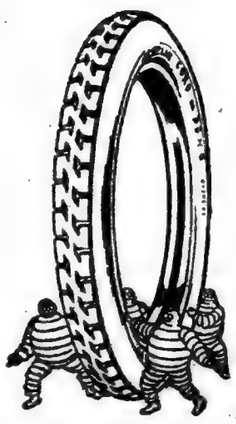
Hudsons, Buicks, Essex's Dodges, Fords, Cadillacs, Lincolns, and hundreds of other makes turned out in the great Northeast, are flying in all directions on freight train specials to fill the Xmas demand.

Yes, this has been a great year for all concerned. In fact the greatest in Automobile history. Better cars, greater profits to the business in general, despite the substantial reduction in price, which has remitted in a larger volume of business.

Prosperity in a marked degree is on parade. Success is grand marshall of the day, and Good times represent the make up of those in line of march, and with colors flying, voices crying, "Hurrah for '23; they are marching toward the new year, '24, with marked degree. May the confidence of all concerned in this great industry repose at ease in the minds of the public.

TO REDUCE CARBON

Carbon in the cylinders can be reduced to a minimum if the mixture is set a little lean and the oil properly regulated.



A Reo Sport Phaeton, two of the cities best, and a bit of Seal Skin, make a wonderful picture when you have Los Angeles scenery for a back-ground. By the way, Miss Hill, on the right, is the owner of this Reo Sport Phaeton and her life-long friend, Mrs. A. E. Adams is the other good-looking person across the way.

WE THANK YOU

Not a day or week passes that we are not asked about the next automobile issue. Mail of an inquiring nature from everywhere and everybody customers, auto dealers, and by the way, our friend, the Evening Express went out of its way to pay us a compliment. Made us feel that our effort, after all, was worth while, and we were mighty glad, thankful too, to each and all for that necessary coeration so essential to success.

MR. EDGAR L. DORSEY

X-MAS

True Xmas comes but once a year to bring us each a bit of cheer, and the spirit displayed is buoyant to all. Rich and poor alike commensurate with your condition hangs out on your door step the sign "Peace on earth, good will toward men." And I'd suggest that we all attend, at least once a year, the Synagogue, over which John Stevens McGroarty presides from his pulpit in the green verdugo hills. Don't know of any pastor that presides over such a large congregation and accomplishes so much good.

ACCIDENTS

Wonder if you have been keeping in touch with the many accidents that are daily happening from the careless use of the automobile. If not one should. Reading the bible helps us to be ever mindful of our religious obligations, and keeping in touch with the accidents that happen, if we have any brains, helps us to avert them by being more careful.

TRAFFIC

Every day in every way its getting worse and worse. Horses in their day and time seem to have shown more brains than many self styled auto drivers who seem only to know and remember that every auto has a gas throttle and it is used many times instead of the forgotten brake. Between horse sense and the above indicated driver, give us horse sense.

WHAT WE WANT TO SEE IN 1924

Noah D. Thompson of the Express, Attorney Jennings, Mr. and Mrs. Ellis Cook, Geo. Warner, T. A. Green and Attorney Becks called on The Eagle in their new car they were talking of, but as yet have not got.

HUBS ADVICE

'Twas an automobile she wanted.
Not a thing in the world else would do
And the planning of how she could get one,
Kept her and me busy, its true.
At dinner, at breakfast, at supper,
Night time, morning and noon,
The automobile was on hand at each meal
For discussion! Oh boy, 'twas a pain.

I says to her dearie now listen,
There's a contest that opens next week,
And the prize, its a beautiful auto.
And the way we can get one right cheap
I tell you. You enter the contest,
And we'll canvass the town through and things,
For votes and subscriptions to get one
And I'm sure 'twill be ours when its through.

She took hub's advice, and she has one
Ist a dandy, a peach, its a bird.
'Twas done by pa and mars efforts
The thing that folks said was absurd.
I tell you my friends, and I'm speaking
Says the girl with the automobile,
Just marry a man who has pep in his plans,
And nerve for to carry them through.
And like myself this man's wife,
Without any strife, an automobile you'll have too.

GASOLINE

America's consumption of gasoline in round numbers, is, just think, 160 million barrels annually. Rather somewhat alluring figures. Particularly interesting to know when the back yard of Los Angeles has become the oil capitol of the world as suddenly as President Coolidge ascended to the head of this gvernment.

In this country, there are at present, 13 million machines, enjoying mobile health, and consuming 8 billion gallons of this liquid fluid annually. Our liquid gold, like the Klondike nuggets of yesteryears has a limit.

It is useless, of course, to speculate on the probability of certain fields in the United States going dry or gradually slumping in production. Authorities who are presumed to know seem to be unanimouns in their opinin on that just such a condition awaits around the corner. Experts sometimes prove not to be so expert, however, in telling what is below the surface f the earth and just about the time some well known chap in the line of oil hunting gets through making a report on certain fields in which he state port on certain fields in which he states that there is no trace of oil, some nervy wildcatter opens up said field with a bang.

It is true, however, that the outlook is far from promising, considering the present producing fields and the greatly increased demand for gasoline, which mounts higher month by month.

The search for a substitute goes on with increased interest and government forces are conducting constant experiments in the hope of securing a motor fuel equal to gasoline.

In the meantime let the 500 thousand of this neighborhood who are forced to use autos be thankful that we live at a source and production, where gas, the best crude, retails at 15 cents per gallon, and not in Australia or a few other places where gas sells for 75 cents per gallon, and, too, let us pray that the government will be successful in finding that substitute whatever it may be, before the well goes dry.

WORTH REMEMBERING

When repairing a chain, gears or other units which consist of different parts, do not place a new section with another badly worn member. Noise will result, and the new part will not give good service. It is best to install all new parts.

COLONEL DRAKE FIRST DRILLER

Oil was first used as a liniment under the name of "Rock Oil", and was collected from surface seepage. Following the analysis of oil by a chemist in 1853, its commercial value was recognized and several companies formed to gather it from springs and streams. Colonel Drake conceived the idea of drilling and organized the "Senica Oil Company", which erected the first crude derrick and won the distinction of being the first drilling company to lose faith and go bankrupt. With reorganized backing Colonel Drake struck oil on August 28, 1859 at a depth of 69½ feet. During the first four months the well yielded 4000 barrels at $20.00 each, and is still on a paying basis. This was, incidentally, the shallowest well ever drilled in Pennsylvania.

THE HOUSE OF MICHELIN

Michelin is the oldest of all the automobile tire makers for it was Michelin who introduced the world's first pneumatic automobile tire back in 1895.

Importance of Michelin's Unexcelled Experience.

Other manufacturers may make as many tires as Michelin but none has made tires for so long a time.

When you consider that it literally takes years after a tire manufacturer has made an experimental change in his product before he can know conclusively the results at all seasons, in all climates, under all driving conditions and in the service of all kinds of people—then you realize the importance of Michelin's extra years of experience.

The Great Tire Specialist

Michelin is also distinguished as the great tire specialist. It has been said that practically all the important forward strides in science, invention and production are the result of men giving their lives to one thing. All Michelin's efforts have always been devoted to a single purpose—to make the world's best pneumatic tire equipment.

Other manufacturers may make hot water bottles, garden hose, rubber shoes, golf balls and a host of other articles, but Michelin makes only pneumatic tires and pneumatic tire equipment.

Traditional Leadership.

For this, and other reasons, Michelin's leadership in the tire industry has become traditional. Here are some of the more important developments for which Michelin is responsible:

1891—World's first detachable bicycle tire.
1895—World's first pneumatic automobile tire.
1905—World's first successful non-skid.
1906—World's first demountable rim.
1911—World's first ring-shaped tube.
1913—World's first steel disc wheel.

In view of Mr. Michelin's unrivalled record of leadership, isn't it logical that Michelin tires should be the best in the world.

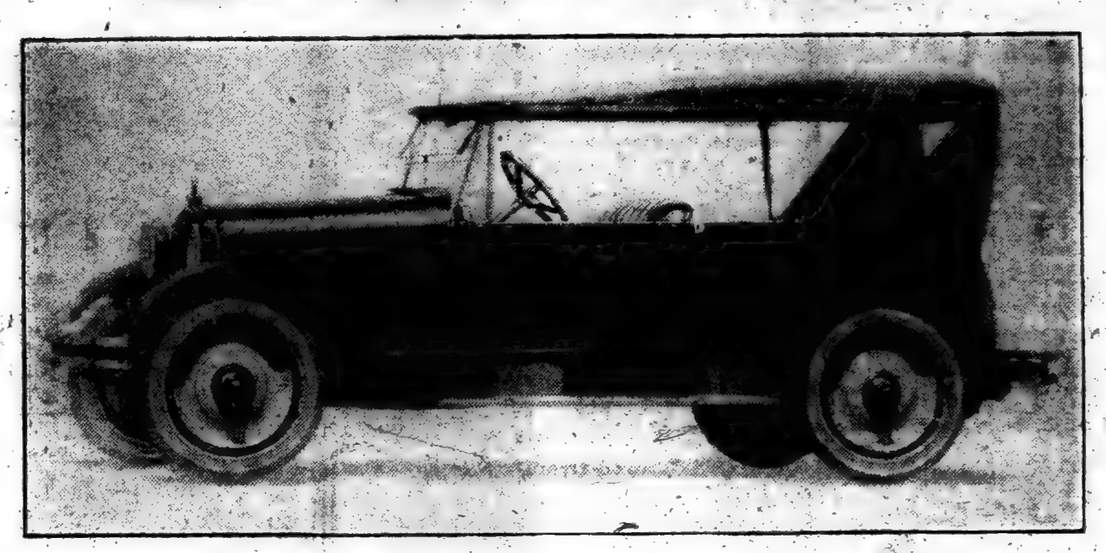
Under the new law, each owner of a motor vehicle in Pennsylvania must hereafter have a certificate of title of his or her car similar to a real estate title. The fee for registry is $2.

There are 31 countries of the world each having a registration of 10,000 or more motor vehicles.

ELITE TAXI

The Elite Taxi Company is the oldest taxi cab company in the city, and needs no introduction to the general public.

However, by way of appreciation, it wishes, through Mr. Hubert Tuckerley, to acknowledge its gratitude to the riding public, which has found its service so convenient, and extends Yule tide Greetings.



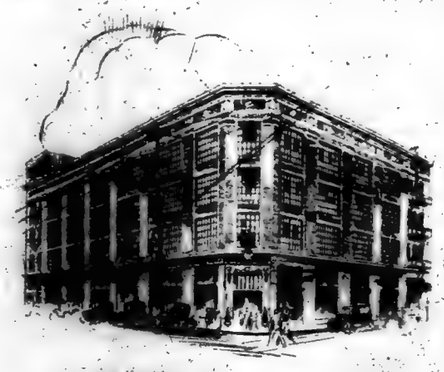
MOTORS IN SPAIN

In Spain motorcycles are used by the army, telegraph and police services as well as by wealthy young men for sport purposes.

More automobile troubles can be traced to lack of lubrication than to any other cause.

Never depend too much on brakes for quick stops.

REO



Smart lines that appeal to the artistic, combined with complete sport equipment which leaves nothing o buy, beautiful finish, luxurious upholstery of Spanish leather—all these on the sturdy Reo Six chassis, double-framed to withstand shocks and prevent weaving make the Reo Sport Phaeton a car entitled to leadership in its fild.

The Reo passenger car line includes—in addition to the Sport Phaeton—the Reo Six Sport Brougham, a four-door, close-coupled sedan; the Reo Six, four passenger Coupe; the Reo Six, five-passenger Sedan, and the Reo Six, five-passenger Touring Car.

All these are powered with the famous Reo Six motor which delivers full fifty horsepower at only 2000 revolutions per minute. With intake valves in the head and exhaust valves off-set at the side, the ultimate in power is developed without warping or over-heating of valves and rods. From one to sixty miles per hour in high gear, without special carburetor adjustment, is possible with this flexible power plant.

DANGER POINTS in Your Motor

500° PENNZOIL withstands 500 degrees of heat —100° more than ordinary oils.

Hot weather or mountain grades may bring temperature to here.

Or a partially clogged water circulation may cause this much over-heating.

400° ORDINARY OILS break down or actually burn at 400°

A loose fan belt on a leaky radiator may cause this temperature.

A too lean fuel mixture, a missing spark plug or a sticking valve easily brings the temperature this high.

300° NORMAL HEAT of your motor is 300°

Even this temperature is too near the breaking point of ordinary oils for safe lubrication.

Here

is the hottest part of your motor—cylinder walls, pistons and wrist pins. Here is where your motor works fastest and hardest—where wear is greatest and most costly—and where Lubricating Oil is under greatest stress. Here is where Pennoil protection is unfailing and thereby saves many times its cost.

SUPREME PENNSYLVANIA QUALITY

PENNZOIL

SAFE LUBRICATION

OIL INDUSTRY JUST 60 YEARS OLD

Started with First Well in Pennsylvania in 1860, Near Present Pennzoil Refineries

It's really not so long ago that the oil industry made itself known to the world. This year, we celebrate its sixty-fourth birthday.

It was born at Titusville, Pennsylvania, in 1859, where the first well was erected. This well, which is still a lucrative producer is not over sixteen miles from Oil City, the home of the Pennzoil Refineries.

"The tremendous growth of the Oil industry has, in a general way, been made known to everyone," said Mr. N. Day, Sales Manager of the Pennzoil Company. "It is a remarkable fact with all the colossal development of petroleum and its infinite number of uses that the highest type of lubricating oils should still originate from this very region where the first production occured.

"There are two main reasons why this should be so. The first is that the origin of Safe Lubrication is in the crude from which it is refined. The highest type of lubrication cannot be extracted from a crude which does not contain the highest lubricating qualities. Pensylvania crudes are of paraffin base and are recognized by unbiased authorities as the best known source for lubricating oils. Pennzoil is extracted year after year entirely from Premium Pennsylvania Crude—and for that reason is unvaryingly uniform and of the highest standard of value.

"The second reason is to be found in the method of refining experience under conditions which preserve the lubricating values of the Premium Pennsylvania Crude to the fullest degree, and give a lubricating oil of the highest fire point and greatest durability it is possible to produce. The filtration methods used avoid the use of injurious acids and sulpho compounds, leaving a lubricating oil of Supreme Pennsylvania uality."

BUYING USED CARS

By: A. L. JOHNSON

What is the value of a used car? Is it worth considering in a trade or purchase to take a chance and get one?.

There are many angles to the used car story. The used car has wrecked and broken up many persons on the one hand, and it has given tremendous satisfaction on the other. Cars four or five years old have in many instances, been found superior in point of service to the person purchasing a used car than a car only a year or so old. This, it might be stated, is due largely to

the fact that the five year old car has had the best of care, and use while the car a year old has been abused. But one, after all, must place his faith more in the dealer he deals with than in the appearances of the car, for it is largely upon the dealer's information that the sale is made. In buying a used car, therefore, one should be extremely careful lest he fall into the hands of one of the thousand and one sharks that infest the used car business, ready upon a moment's notice to rob the perspective investor of his hard cash in exchange for a car that has every thing the matter with it from tire rim to consumption of the carburetor.

buyera tsoes osttt aSgno sras fs-sisli

As long as we have automobiles, there will be used cars just as there is used furniture stores and other second hand concerns. So if it must be a used car look well before you buy and be sure you purchase it from one who is absolutely on the square, and a dealer in preference to an individual just seeking to unload.

FORGING AHEAD

The Independent Rubber Company today enjoys the distinction of handling more tire business than any other exclusive retailer on the East side.

Born in its present location just five years ago on the 18th inst, it has climbed gradually, degree by degree, until today it has outgrown its present site and must, ere long, move into larger quarters in order to give its hundreds of customers service without apologies. Their stock of new tires is complete as to size and they are general dealers. Handling all standard makes such as Michelm, United States, Miller, Racine, and other well known makes. The proprietors of this well known concern are E. Dorsey and Wm. Fambro.

John Wesley Coleman and His Remarkable Career, Success and Contribution for a Better Citizenry.

JOHN WESLEY COLEMAN

You cannot write truly of men who by grit and determination have made a success, and especially so in this great Western section, unless you write right up at the top of the list, this great commoner, James Wesley Coleman. We write this with sincerity, and a history which proves every word we write.

Coleman occupies a conspicuous place in the growth and progress of our group n these Western shres, and his life and accmplishments are a practicable demonstration of the opprtunities which await those who strive and are willing to work and sacrifice in order to bring about success. He is a man who has ever aspired to "Be something", Do Something, and to have something, and at the same time to work inn unison as well as to cooperate for not nly the advancement fo himself, but for his race as well. No movement along the line of racial advancemennt has failed for lack of support by Mr. Coleman.

BORN IN LONE STAR STATE

Born in the town of Columbus, Texas, he was the only child of the family. His lot was the same as that of other children of his time, but early in life the "Star of hopt" was implanted in his mind, and every effort was bended toward that star. At the early age of nine years he was placed in the schools of his city, nad later, in Tillotson College, which place he left in 1884. Firmly imbued with the lessons learned, he kept the star of hope as his guide, left the farm at Austin, and came Westward.

Having an abiding faith in himself, he never faltered by theway. He had a vision for real and lasting success, and was confident that success would crown his effort.

ARRIVES IN LOS ANGELES

On October 10, 1887, he arrived in the city of Los Angeles without means but with plenty of grit and a determination to make his way. From that moment, the history of the progress of the Negro in Los Angeles could not be written without the name of J. W. Coleman. He has been a part and parcel of every movement which meant progress. He himself set the example by taking the lead in many a instances. His first employment was as driver for the Black Diamond Coal Company. He had visoins of a business career, and this position prooved irksome to him, and he opened at 1st and Los Angeles Sts. a first class cafe. After successfully conducting this business for a year, he disposed of it and became a landscape gardening contractor, which business he followed for thre years, when he decided to further his experiences with travel. He worked as a Pullman porter for twelve years, going to all sections of the country, meeting all kinds and conditions of people.

START BUSINESS CAREER

Returning to the home of his choice he opened up his permanent business career by establishing tne first hostelry conducted by a member of our group in Los Angeles, namely, the Hotel Coleman, at 145 South Pedro Street, which place he successfully conducted for five years. He also conducted for two years, the first furniture store. His next venture was the insurance business. He was the pioneer among our people along this line of effort. In connection with this business he was advertising agent for Venice and Santa Monica Bay, as well as superintendent for Dr. Burner and his chain of sanitoriums, also at the same time serving as deputy constable.

BECOMES EMPLOYMENT KING

At this period, reinforced by his rich and varied experience of effort and travel, a student of psychology, he opened at 211 E. Second Street, Coleman Employment Office, and from this station Coleman's name became a household word thrsout the land. In this realm he had found his talent, his fame goes forth as a reader of men and he has in the period of his existence at this location, sent forth more than 50,000 persons to positions ranging in all the various lines of effort, and many substantial citizens readily testify to the fact that it was Coleman who started them on their way to success on these western shores.

He keeps in the closest touch with employer and employee, and is on the going line at all times giving the best that can be obtained to his patrons.

Few people conceive or will give credit to the great service Mr. Coleman has rendered his race. A pioneer in this line of endeavor, he is, at all times on the watchtower, and can discern the true economic conditions which confront the race more so than any other one man in this section. He is a notable success and due credit must be accorded to this energetic and far sighted citizen who has overcome all barriers, and gone over the top, and is truly the Employment King of Los Angeles.

HAS CIVIC INTEREST

Though a busy man and swamped with calls for help and those seeking positions, he has managed to give of his time and means to further the interests of all movements for the civic betterment of this city and community. He is a prominent member of the Forum, served two terms as president thereof, prominent and charter member of the Independent church. He is a 33rd degree Mason, Shriner, and an Odd Fellow.

He called the first National Convention of People of African descent, was elected National President of the same, and put on the most unique and spectacular parade ever held in this city. The work of this organization being so near in principle to that of the Garvey Movement, Mr. Coleman gave way, andbecame one of the prominent leaders in the U. N. I. A.

ACCOMPLISHMENT

Mr. Coleman has always given f his time and means for any worthy cause, and has never let the dollar mark stand in the way of putting over any program for the advancement of the race, and on several occasions has stood the burden of cost amounting to more than $1,000 in order to keep the flag of progress from faling to the ground.

His attitude is in strong contrast to many of our men of means who scrooge like squeeze on to their pennies rather than help the race. And this trait, to Mr. Coleman's credit, has made him prosper and we know that he is happier than all of the close fisted reactionaries which could be brought together in so many moons.

Mr. Coleman has accumulated property conciting of two flats with 16 and 17 rooms respectively, 2 five and six room cottages, several large vacant lots, from which properties he enjoys an income of more than $350 per month, and as we aforesaid, this came to pass without shirking any of the responsibilities of real, genuine, and progressive citizenship.

PIONEER FAMILY

Aside from Mr. Coleman's genial and sympathizing helpmate, who has endeared herself to all with whom she came in contact, is Mrs. Coleman Bynum, the venerable mother of the subject of this sketch, who, with her distinguished son, is among the sturdy pioneers of Los Angeles. Mr. Coleman's mother is quite a character, and at her age, full of activity, the affection between mother and son is one of the greatest forces which has contributed to his remarkable success.

FAMILY REUNION

On October 29th last, Mr. Coleman decided to have a general reunion of the five generations of which the family consists. The accompanying cut with this article is a group picture of the family. The occasion was one long to be remembered, and moving pictures were taken, and at the conclusion of the picture taking, a grand reunion feast, which Mr. Coleman had provided was partaken of by the family, and a few invited guests of whom the writer was one.

BETHEL CHURCH OF CHRIST HOLINESS

Our Sunday School was quite interesting. The lesson discussed was very inspiring. The sermon delivered by the pastor at 11 o'clock was unusually helpful. The choir (under the leadership of Bro. E. F. Steward, who is quite competent), sang beautiful and uplifting songs.

Young people' Union opened at 5:30 and the lesson was led by Master Walter Smith, and thoroughly descussed and many beneficiary remarks were mande. Bro. C. J. Tigner and committee had prepared a very nice program.

PHILLIPS CHAPEL C.M.E. CHURCH
1406 Newton St.
Rev. R. W. Underwood, Pastor

There were interesting services held at Phillips Chapel C. M. E. Church last Sunday. The Sunday School is yet growing under the leadership of Brother E. H. Maxey. The pastor was at himself Sunday morning. He was full of fire and delivered a burning message to the people. Many wept while he told the message of the cross. The doors of the church were opened. One sister came forward and joined the church. The church is growing in membership. Rev. J. W. Johnson preached a powerful sermon at 8 p.m. All members are requested to be present Sunday to hear the special sermon on "Sowing and reaping".

ST. PAUL INSTITUTIONAL BAPTIST CHURCH
1885 E. 21st St.
Rev. R. N. Holt, Pastor

Service seems to have been the day's "Them" at St. Paul—morning and evening the pastor made the way so plain in his defense against Sin and Satan, using as a subject "God's Ploughman". At the close of these wonderful sermons we registered twelve men and women saying "Lord, here am I, send me, send me".

3 P.M.—A battle fought, a victory of Mt. Olive Baptist Church, with his congregation arriving on the scene in due time, gave the key to the program though they opened up that shiney way that every heart saw Jesus only. Following was Rev. Hines, with his congregation of Frst Baptist Furlong. Reading the 48th Div. Psalm, which was as water to a thirsty one. Madam C. D. Robinson, President of Woman's Work, and Mistress of Ceremonies, at this point introduced Mrs. Hubert, president of a district mission, who in turn made a timely appeal that there be a ...

to decorate in pose, and that the field be claimed for Christ.

Matthew 16:18—"The Value of Missions", this paper by Mrs. Davis is long to be remembered. Sorry space will not permit special comment. But it is hoped that the entire field will hear this paper. Special Selections by the choir were in evidence. That solo by Mrs. Nichleson was a thrill to the entire audience.

The Climax—The first sermon on the mount to this living age by Rev. W. H. Rozier, Pastor Pleasant Hill Baptist Church and his congregation representing one solid front. At this point the subject "Service", being so simplified that we were made to see Christianity in its most feasible stage. Nor did we stop here, but all there is to Christianity was summed up in this one text.

6 P. M.—Dr. Wm. R. Carter, in company with Dr. Wilbur Richardson, president of Western Baptist College, Kansas City, Mo., delivered a wonderful address. This was indeed inspiring and encouraging to one and all to press on and on; this being no extrairdinary occasion, but just another day in line with the King's program. Serving humanity in earth. Prof. M. J. Johnson, at the head of the Sunday School department, a captain that knows no defeat; claime the community for 1924.

Christmas—The birth of him, who, possessing all things, chose the best among them to bestow upon His friends, who gave them love, health and service, sympathy and self, may he give these gifts to you one and all.

Visit us at S.t Paul.

Rev. S. M. Beane, Pastor

Sunda services were largely attended than ever before. The pastor preached at the morning and evening hours, sermons that helped and uplifted those that were present. The choir sang as never before. Indeed their singing was an inspiration and a benediction. The choir will be robed for the first time on Sunday morning at 11 o'clock, and at the evening hour will sing the magnificent Cantata, "The Salvation of Israel', under the efficient direction of Mrs. Helen Wortham.

Th Qarterly conference, which was held on the 19th of December, showed the work of the church to be in a healthy condition. At the close there was a social hour in honor of th eSuperintendent and the new members of the church. A splendid evening was enjoyed.

The Elks will hold their Xmas tree at this church on Monday afternoon.

You are cordially invited to attend services at this church.

METROPOLITAN BAPTIST CHURCH
37th and Paloma Sts.
M. C. Carter, Pastor

The pastor filled the pulpit Sunday morning and preached with power, a strong intellectual sermon from the subject: "John, the Baptist, a model Christian". Special music was rendered by the choir, under the direction of Mme. Mozelle Te Outley. There was one accession to the church. At the evening servicesat Rev. Watkins of Chicago preached.

The pastor will fill the pulpit at both services, December 23rd. His morning text will be "The Government shall be upon His shoulders". Evening, "His Name Shall Be Called Wonderful".

With the passing of Sister Rose Scott, 942 East 23rd Street, Metropolitan lost its first member. Sister Scott, a staunch, Christian character, endeared herself to all who met her, especially Metropolitan. We can only say of her:

Rest on,dear soul, with slumber sweet
Rest from your labor here, complete.
Rest, 'til we meet at Jesus' feet,
And cast off every care.

Mrs. Anna Bang, who has been visiting friends in this city for the past nine months, will leave Wednesday for her home in Chicago. On Friday night past the members and friends of Metropolitan Choir with which she has been associated while here, arranged a most unique surprise for her at the home of Mme. Mozelle Te Outley, 705 E. 39th St.

PEOPLE'S INDEPENDENT CHURCH OF CHRIST
18th and Paloma Sts.
Rev. N. P. Greggs, Pastor

Perhaps the greatest treat ever given a Los Angeles audience was that of the high class Musicale by students of Mme. Sinclaire White-Murdock, "Violin", and Prof. John A. Gray, "Piano". Having, in the past, meritoriously won the high honor and unlimited appreciation of the public as to prestige in the musical world, it is candidly conceded that a recital managed by these two artists is always of a magnitude to draw the biggest crowd and spell for the occasion an aver whelming seccess. At this recital, the students in both the Piano and Violin displayed an artistic touch with a degree of efficiency that music critics might have attributed to one and all, the title of artist. At the close of the program, Mr. Noah D. Thompson, thru his diplomatic method, with the audience acquiescing, rendered judgment, after which Dr. N. P. Greggs presented the first prize to Mr. Lawrence Lassiter, and with very fitting remarks, presented the second and third awards to the piano students.

Last Sunday the services of the church were marked with historic inspiration all day. The pastor preached one of those able and soul-stirring sermns. At night a program was rendered that will ever register fame for this historic christian body. Prof. C. A. Biggers, acting as Master of Ceremonies, fittingly introduced and presented the speaker of the evening. Dr. Eugene C. Nelson, the speaker, delivered a very pointed and inspiring address. And in this Dedicatory address, he gave a brief history of the marvelous growth and accmplishments of the church, complimenting the pastor Dr. Greggs, for his masterly performances as a pastor of a peerless, reputable leadership. Following Dr. Nelson's address, the crowning event, the unveiling of the Mammoth Pipe Organ by Mr. George Beavers, Jr., assisted by his little son, Master Prince Beavers and the eldest minister in the church, Rev. Nathan Price, as alternate for Mr. J. W. Coleman. The audience burst into applause of ilaastor S:ova gheeflo ootolb mosoTo greetings of joy.

Last Monday evening, th eOpening Organ Recital by Dr. Ray Hastings, (Organist of the Philharmonic Auditorium) assisted by a number of the best local talent of the city, was an event that a packed house can never forget. Dr. Hastings seemed to be at his best, and demonstrated his fam at his best, and demonstrated his fame as a matchless and celebrated Pipe Organist. Space in the columns of this paper will not permit a deserving expression complimentary of this long-to-be-remembered occasion. The local talent of artists assisting were: Mrs. J. R. Watkins, Master Samuel Brown, Madam Mozelle Te Outley, Master Lawrence Lassiter, Miss Nellie Johnson, Mrs. Naomi Pharr, Messrs. Nathaniel Smith and George Beavers, Jr.

ELDORADO GOLD STAR HAS BIG PROGRAM—1924

The claims made by the Eldorado Gold Star mining Company regarding its two hundred and sixty acres mineral lands, embracing thirteen Mining Claims situated in Clark County, Nevada, are correct and true, and worthy of the confidence and support to the fullest extent on the part of the subscribers to its stock. During the years 1921, 1922, and 1923, the attention of many of the substantial stockholders of this company was turned was turned over to the Oil Industry and was made to believe by the promoters of said concerns, that great riches were available and would be paid to all investors in oil stock in a few months. The time for paying dividens has passed, and many of the Promoters are now in the clutches of the law, on trial for misrepresentations; while others have already been sentenced to the penitentiary. The truth of the matter is, their duped stockholders will never realize a penny on their investments.

The Eldorado Gold Star Mining Company is operated under the authority from the Commissioner of the Blue Sky Laws, because its claims are genuine, and the property is being judiciously developed. The management is confident that ten dollars on each and every dollar invested in its stock, will be returned eventually in dividends; that candid opinion is based on the fact that several cars of crude ores were shipped to the Salt Lake Utah, Smelters. In addition, several bullion bricks of gold and silver were made directly from the ores on the property. The large tonnage of milling ore on the workings, and the vast quantity of the higher grade awaiting development, is absolute proof of a profitable yield from the claims. A Mill House with an outlay of $30,000, has been erected, and the property extensively developed.

For a profitable prosecution of the operations, an Air Compressr, machine drill and other essentials must be installed and five thousand dollars being required for that purpose.

The company could offer the property for sale and get what would appear a big price, but it would be cheap and like giving it away at that, and therefore, would it not be much better, to use a little more good judgment, patience and sacrifice; raise a few thousand dollars for the installation of the proper machinerr, and go over the top with the greatest mining program ever undertaken and gain ten dollars to one instead of breaking even by a sale?

The management is positive, that, with the cooperation of the stockholders, the mines can be placed on a dividend paying basis before the 1924 annual meting, which thing would bring joy and gladness to the hearts of many; $5,000 must be raised immediately for quick action to begin first part of 1924. Stockholders are urgently requested to increase their present holdings from $20 to $50 or more if possible. Persons not already stockholders, may become such by purchasing not less than fifty shares at $1 per share.

PASADENA

On last Sunday evening the services at Metropoltan Baptist Church were well attended as usual. The members and friends had the pleasure of hearing Mr. Mackey, who has the distinction of serving one church as a deacon for forty years, deliver one of his famous lectures. Mr. Mackey's subject was "The Value of Time and Knowledge", and everyone enjoyed hearing him.

Mrs. Thelma Nelson gave a rendition of a beautiful solo, "Bear Your Burdens With a Smile". The words of that song alone, are sufficient to lighten almost any labor or pain, and the irresistible charm of Mrs. Nelson's singing has for its back ground an unusually complete musical experience.

The pastor, Rev. W. L. Strauther, preached a wonderful sermon; after which the right hand of fellowship was extended to one.

Rev. Mrs. Rolling, of Winona Street is able to be out again after a brief illness.

MONROVIA

Monrovia enjoyed the greatest Christmas in the history of the Gem City. There seems not to be a single person left unhappy because of the lack of the usual things that go to make the Day a joyous and happy one. The Municipal Christmas tree was one of radiating splendor, from which Santa Claus dispensed gifts to more than three thousand happy and expectant children. In addition to the foregoing all worthy poor of the city were helped. In each of these things our race group shared equally and without discrimination. Rev. G. W. Reed, pastor of the Zion Methodist Church, who was this year elected a member of the Municipal Christmas Association, was alert to the interest of our people. He was a member of the distribution committee.

The churches of the city carried out the customary Christmas programe. The Methodist and Baptist Churches both had a Christmas tree together with excellent Christmas exercises by the Sunday Sshools.

Miss Anna Mae Edwards, the daughter of Mrs. S. V. Edwards, is still confined at the home of her mother. She recently underwent a slight operation from which she seems not as yet fully recovered.

Major and Mrs. G. W. Prioleau, of Los Angeles, together with Mrs. Gladden and the mother of Mrs. Prioleau, were in Monrovia last Wednesday paying a holiday visit to his old friend and comrade, Col. Cornahan. Whil here he also called on Rev. and Mrs. Reed of the Methodist Church and the Jones family of Shamrock Avenue.

Mr. Blaine, recentlw of Los Angeles, but now of this city, has opened a very neat restaurart on the corner of Shamrock Avenue and Cypress St.

Little Arnold Reed, the youngest child of Rev. and Mrs. Reed, of whom it was thought some weeks ago to have had infantile paralysis, is recovering very stisfactorily from his attack.

We need a physcian and dentist in Monrovia. The colored populatin of the place has grown to where men of these two professions would do well. a.btatr isitedd latu-dv tlepua hpo ona

SAN BERNARDINO

The Yuletide season passed with a blaze of glory. There were many Xmas festivals, everybody in the city received some kind of a token of the season, and the best of good order was observed. No rowdyism of any description has reached the public press.

The Sunday Services and the childrens' exercises at both of the churches were well attended and splendidly carried out. Miss Dorothy Ingraham, a very young but capable girl, had charge of the services at the A.M.E. Church. And many who attended say that it was the best that has been staged at this church. Though short, every number was a delight. The services of the past two Sundays have been very remarkable in attendance and contribution and demonstration of the operation of the Spirit. On Xmas Sunday one young man professed saving faith and united with the church, Mr. Sharp. The contribution of the two Sundays amounted to fifty five dollars.

Many incidents of interest have taken place in the past few weeks: Mrs. Lawson, niece of the Muckleroys' who has recently come to the city, has organized a girls' club, they gave an opening exercise Saturday night at the white Y.W.C.A. Every number was a thrill, and compliments were showered on the organizing ability of Mrs. Lawson and the ability of the girls to perform so well with such little time to prepare. No wonder to us, but to them.

Mrs. Andrews entertained in honor of Mrs. Lawson Thursday night. All quotations were said from Dunbar. The evening was a pleasant one and an appetizing repast was served.

Mr. and Mrs. Beck and Mrs. Lawson recently made a trip to Oakland to be present at the marriage of their sister, Rev. F. A. Hughes, Sacramento, formerly a pastor at San Bernardino officiated. It was a brilliant affair.

Miss Roena Muckleroy, talented daughter of Mr. and Mrs. Muckleroy, of Spruce Street, spent the holiday at home with her parents. She is attending the U. S. C. specalizing in music, vocal and piano. She gave a few selections at th girls' club's opening. The white music lovers detained her long after the program was over feasting on her ability to sing and play.

Rev. D. Hill, well known minister, has just recently made a trip to San Diego and El Centro. He reports the work there in splendid condition. Rev. Hill has had several years of experience in the active ministry, and the call to servce is pressing hard upon his consciousness to reenter the active service. His ability and qualities are rare.

Rev. L. S. White, Pastor

This goes to press to let you hear of our Christmas holidays beginning with the fourth Sunday, at 11 o'clock, Dr. W. B. Butler, Presiding Elder, preached a wonderful sermon. At 3 P. M. an overwhelming crowd taxed every inch of space in the church to hear Dr. R. W. Underwood, who preached a soul stirring sermon. His subject was: "And He Shall Wipe Away All Tears From Your Eyes". This was followed by that magnificent choir of Philips Chapel, Los Angeles, which sang their way into the hearts of the people. This was the start of our educational effort to assist our ppastor, who has successfully passed his entrance examination at the Bible Institute of Los Angeles. This effort will close the second Sunday with a bank rally. In the afternoon, Hon. Frederick M. Roberts and Editor J. B. Bass, of the California Eagle, will speak at 3 P.M. Program will be rendered under the auspices of Mrs. M. L. Polk.

Last Sunday was a high day. The pastor spoke both at the morning and at the evening services from the subject: "Christ is all in all". He also introduced the theme of a series of sermons for the new year.

Christmas morning service was very interesting. This was followed by a Christmas tree which was greatly enjoyed by youngsters. Watch night services were splendid. Program by the Sunday School and a New Year's tree, closing with spiritual feast were the special features.

The first Sunday of the new year, the pastor will preach both morning and evening. At the morning service the subject will be "Christ, the Savior of the World". At the evening service the subject will be, "Christ, more than a Savior". Holy communion will be administered at both services.

SERVICES UNIQUE

The inclemency of the weather failed to retard that enthusiasm of our many worshippers. All departments were wide awake. Under the leadership of Bros. Johnson, Kirk and Rogers, our Sunday School is second to none. B.Y.P.U. with President C. D. Johnson in the chair. Tom will have to cross the Rockies to find a challenger. Sunday morning at 11 o'clock pastor Holt stepped out upon that high of promise, and with that irrevocable gospel, caused men and women, old and young, to spring to their feet as they acclaimed the King of Glory.

Bro. Lewis, having pitched a battle here for thirty days against sin and Satan, made an ardent appeal for volunteers for Jesus. At this time, vehicles of every description, having been secured to take the entire congregation and friends to Pomona as guests of Mt. Zion, were received with an elaborate luncheon, this being an incident of the Feeding of that Five Thousand Among Men.

Madam Robinson presented Pastor Holt to a large audience of white and colored citizens of Pomona, giving them an excellent address.

At the close of this excellent program Pastor Holt and Director Cloyd V. Pitts, with his "Hallahujah" Chorus was given special invitation to return to Pomona at an early date as guests of First Baptist Church (white) by its pastor, Dr. Shepherd.

We were delighted, having added to this singing force the services of Madam Tropia and Mr. Whitfield, baritone soloist. Our doors stand ajar as one of the examples of God in modern life. As a fountain of inspiration, which mission is to show men and women that vision of a heavenly character.

Visit us at St. Paul. Dr Lewis is here.

FIRST BAPTIST CHURCH

The spirit of our services throughout this Yuletide have been filled with enthusiasm.

On Xmas eve we had wonderful 11 o'clock service, at night we had an evening with the children and an inspiring program was rendered.

After the program over 200 healthy bags of oranges, apples, candies and asorted nuts were given those present after which Xmas dinner was served to same absolutely free of charge.

The table was elaborately decorated with Xmas holly. The church was beautifully decorated by members of the Junior Missionary Department.

On last Sunday we had a great spiritual blessing the Pastor filled the pulpit. We had with us one of our visiting Brothers in the person of Rev. Dr. Jordon of Chicago.

You are cordially invited to attend our nightly Bible Studies.

BETHEL BAPTIST CHURCH
Y. M. C. A.—9th and Hemlock Sts.

Rev. H. D. Prowd, Pastor

The Lesson in our Sunday School was appropriate to the occasion, and was heartily entered into by all present.

At the 11 o'clock service Dr. Prowd preached a very timely sermon from Joshua 23:14—"Not one thing hath failed of all the good things which the Lord your God spake concerning you". It was indeed a just presentation of the goodness of God to His unworthy children, which calls for thanksgiving and praise: and furnishes good reason for faith on our part for the continuance of His providential care. It was truly a time for testimony of mercies received. At the usual hour Mrs. Bass presided over the session the B. Y. P. U. and carried out a good program. The subject, "Christian Inventory," was ably and generally discussed, Mrs. Bass guided the proceedings.

At night the pastor preached from Nehemiah 9:21—"Forty years did thou sustain them in the wilderness, so that they lacked nothing, their clothes waxed not old, and their feet swelled not." We had a full day of God's blessing. We have special sermons for the New Year, this Sunday, and invite all our friends to come and worship with us. To everyone in our morning service, Dr. Prowd will hand —Come yourself for no one will be a very suitable gift for the New Year allowed to take a gift for any at home. God bless all the people with a happy and prosperous New Year.

We had excellent services last Lord's Day. Our Bible School was up to the standard. Our pastor brought us two excellent messages; they were edifying and inspiring. We hope to enter the New Year, 1924 with the same old zeal, full of faith, looking to the author and finisher of our faith. We pray God, our Heavenly Father to spare us another year and to enable us to do even a greater work for his cause than we have ever done in the past. May His benedictions rest upon us and all of his true followers and may we prove true and faithful to the end. All are invited to come and worship with us. You are welcome.

HEALTH HINTS FOR THE BENEFIT OF THE WISE AND OTHERWISE

By G. H. Wyman, M. D.

Owing to the winter season which has made its appearance in Los Angeles, and thase who are here and who have been here during said season, know of its conditions, rainy, cold and interchangeable.

I deem it imperative to inform those who have recently arrived and those who are enroute to our city of sunshine, of the maladies which accompany said season.

They are the following: Caryza (or cold in the head), Aquina (or sore throat), Laryngitis, Pharyngitis, Croup, Bronchitis, both acute and chronic, Diptheria, Pneumonia, Labar-tabular Broncho-Pneumonia, Pleurisy, the most dreaded, White Plague, or both dry and with effusions or liquid, as some call it, Consumption, 3 Bugs, T. B. or Tuberculosis.

Warning: Prepare for war in time of peace; remembering an ounce of prevention is worth a pound of cure. Ignorance is no excuse for performance. Let this be your guide thru life:

Negligence is "Crime".
Carelessness is "Worse."
Memorize this "sign".
"Safety first".

Should any of the symptoms of the above take you, consult a qualified physician who may examine, diagnose, treat and prognose in these deviations from the normal standard, HEALTH.

PLAY AND NEGRO PROGRESS

Negroes in 47 cities are now enjoying programs of community recreation, announces the Playground and Recreation Association of America, which maintains the Bureau of Colored Work of Community Service. Prof. Ernest T. Attwell, an outstanding Negro thinker, directs the field work of this Bureau. He has made community play his profession, so that he can help his race to obtain much needed play facilities and play leadership.

Wholesome and abundant play, think many authorities on social conditions and race relations, can make one of the strongest contributions to Negro progress. America's more than ten million colored citizens, whether they live in the South or in the North, the city or the country have found few opportunities for the right kind of recreation open to them. In many sections normal social life for Negroes is entirely lacking. But both colored groups and their towns and cities have lately been turning their attention to this problem. The present 47 effective programs of community recreation for Negroes are offering a shining example.

Community Service recreation programs for Negroes are supported by contributions from colored people, often helped by white friends and by the city government. In Norfolk, Va., the city appropriates $5,000 each year toward the colored Community Service Work. Organized community play activties among Negroes include playgrounds for children, boys' and girls' clubs, music dramatics, athletics for folks of all ages and social evenings. In many cases the activities center around a community house, such as the one in Fort Wayne, Indiana, which has been attended by more than 1,000 colored people a month. Douglass Community House in Kalamazee, Michigan, is the center of social life for the Negroes of the city and its influence also extends out into the country.

Not only have these community programs fostered health and fun and neighborliness among Negroes, but through their artistic side they have enriched the life of cities as a whole. The "Festival of Negro Music" presented by the colored Community Service of New Haven, Connecticut, made musical history in that city. No other people can sing the Negro spirituals with the same sympathy and spontaneity as colored people, and the performances of the spirituals as well as of music by modern Negro composers by colored community choruses in a number of cities has helped to preserve this typically Negro music and to familiarize all with its beauty. A recent pageant of Negro progress in Rockofrd, Ill., brought out a large crowd of both white and colored people and received enthusiastic praise from leading white citizens.

In cities which support Departments of Recreation, special recreation for Negroes has often been arranged. During 1922, seventy cities maintained playgrounds exclusively for the use of colored children, reports the Playground and Recreation Association of America. Indianapolis has set aside for the recreation of her colored citizens a tract known as Douglass Park, equipped with playgrounds, tennis courts, baseball diamonds, horseshoe pitching courts and a huge concrete swimming pool built at a cost of $70,000. Colored play leaders are in charge. The way in which Indianapolis colored folks have been flocking to enjoy this park proves how much in need of just such recreation they have been.

Though public recreation facilities are needed by all, they are especially needed by Negroes, who as a rule can get no recreation except the expensive and often degrading commercialized kind. Splendid laws recently passed by the states of Iowa and Illinois should be of interest to all Negroes living in these states who desire playgrounds, parks and other public facilities for wholesome recreation in their cities. These laws oblige a city or town to submit the playground and recreation proposition to the voters if a petition to this effect has been signed by a small proportion of the voters—10 per cent in Illinois, and 15 per cent in Iowa.

EDITORIALS

FOR 1924.

Starting another year the Soaring Eagle acknowledges the strong support which has been ours for the past year and we assure our patrons of our deep sense of appreciation and shall even strive to merit the confidence reposed in us.

For 1924 our program must continue to be one of progress and a united effort for production to the end that we may truly line up as an integral part of the army of progress.

Everybody is alright with the "Soaring Eagle." We stand for the continued progress of all the people, all the time, we want to see and to help everybody to go forward, this goes absolutely for all. We have no grievance against anybody or any set. We only depreciate crooks and crookedness. We have no faith in hypocritical leaders and "pussy footing" preachers—this sort and this sort alone, is the only element which we must fight.

DUE CREDIT TO ROSCOE SIMMONS.

The great victory before the National Committee which restored the delegates of the Southland and kept from wiping the hand of the Black Man out of National politics was so large and grand that all who assisted in any way can share in the same. But to give the fullest credit possible, the outstanding service of Colonel Roscoe Conkling Simmons must be rendered unto him. His great effort before the Committee was perhaps the most telling and resistless proposition ever presented to this august body. Time after time he was interrupted bu tumultous applause and when he was about to stop the Committee urged him to go ahead. Some of our papers refuse to give Simmons this credit, but that is small stuff and we believe at all times and under all circumstances in giving to each and every man his due.

HOLLYWOOD IN THE SPOTLIGHT AGAIN.

Note, if you please, as the pendulum swings, just how often Hollywood gets to the forefront in police circles and on the major crime calendar. Poor, old Central Avenue is actually backed off the board as the Movie Stars scintilate in the murky clouds of vice. And truly now, if down along Central avenue some poor, misguided, unfortunate mortal should overstep the deadline and fall into the clutch of the law, it would not be so startling and surely not to such an extent as to call forth the usual tirade of our daily press. For of all the sections of the great metropolis of the West Hollywood, fair Hollywood, carries off the honors a hundred fold.

LONG TIME SUBSCRIBER.

Eugene Walker, Merchant Prince, and a marked success in the realm of business, has been a subscriber of the California Eagle for thirty years. In the near future we propose to run a story of his life and his remarkable business success to express in a small way our appreciation for his support and encouragement. There has never been a time when he has failed to rally to a cause worth while, and of such characters we cannot help but take inspiration.

MAKING THE SACRIFICE.

We are watching with much interest the valiant fight being waged by the New York Age on lawlessness in that city. Few persons realize the great sacrifice which must be made by the Editor in order to prosecute this sort of campaign, also the actual danger he undergoes at the hands of these law-breakers who will endeavor to frame him or even inflict upon him personal injury. In fact, there is nothing to which crooks in a big city like New York will stoop in order to keep clear of interference for their unholy as well as unlawful trade.

COMMENDATION.

In speaking of fighting editors who stand up to the rack, in season and out of season, we cannot fail to mention the brilliant and forceful Lieutenant W. A. Betts of the Wichita Protest. And we congratulate his successful effort in thwarting the Birth of a Nation in his home town.

WE ARE ON OUR WAY.

Regardless of who runs for President and who guides the destinies of the several candidates, we are on our way for greater progress along all the various lines of effort. We find that it is after all largely a matter of opinion as to who is the most desering and stands up for the people.

Colonel Jack Dempsey, coached and advised by his sidekick, Major General Jack Kearns, are demonstrating propaganda spreading to the utmost for the following result—to make all the money possible for the pair of them and by all means to avoid meeting Harry Wills, who without doubt, would wreck of the syndicate.

GETTING TOGETHER

On last Monday evening the Eagle Editorial Staff gave to the Eagle force a rousing banquet in appreciation of their loyalty and service for the year 1923.

The affair was just as great and grand as it was possible for us to make it, for we stopped at neither pains nor expense. Both our Managing Editor and our Auto Editor worked like trojans to make the affair a grand success.

THE DRED SCOTT DECISION.

When Judge Taney, Chief Justice of the Supreme Court handed down the Dred Scott Decision in 1856, he little suspected it would be one of the most remarkable travesties in the annals of legal jurisprudence, to the effect that the "Black man had no rights that the white man was bound to respect". This startled the legal and thinking minds of the world, as well as these human chattels, then bound and fettered and manacled by the yoke of slavery. Though their condition then was already abject to the third degree, so much so as to almost lose faith in humanity, yet with silent fortitude and aching hearts, they kept on in their belief in a higher power. Years later from the epochal moment, civil war broke out and raged throughout the land, only ending in broken chains for these chattels and the emancipation of this mass of cruched humanity, steeped in ignorance and poverty—stricken with this new heritage of freedon bravely turned toward the unknown future.

Under the 13th, 14th and 15th amendments of the Constitution of the land, statutes were framed guaranteeing them all the rights and privileges that citizenship entails, and that no legislation could be made to abridge his rights on account of color, or previous condition of servitude.But at the close of this dreadful war, the disgruntled South and its sympathizers, filled with the gall of hate and bitter defeat, and seeing the end of their most cherished institution (that of slavery), which had brought wealth and a uence to their door, finding themselves impoverished and no longer able to use the Black man as a chattel legally, then they began those devilish machinations of insidious and deadly propaganda directed against the rights of their former slaves.

Racial hate was constantly fanned by scurrilous newspapers and the population of the south, that they had grievances against the Black man, as an economic force, and in the new constituted democracy, this action of the press forced the states and government to do many things not sanctioned by justice, and to make this more effective, the cry of "Black Supremacy" sounded throughout the land. Little by little their rights were abridged all over the South until becoming emboldened by the non-interferance of the Federal Government, the Ku Klux Klan was organized in the South, in one of the states that at the beginning of the civil war was first to secede.

This noxious Klan, or invisible empire, as they chose to be called, conceived in the womb of racial hate and ignorance, had its birth at a time when the country's condition was in a chaotic state in the aftermath of the late war. Already their cowardly and infamous methods, with their reign of murder and outlawry are being taken in hand by the thinking men of the land, and their own officials appeal to the President to wipe it out, or its cheap political power and organized red spirit, will disrupt the tenet of the Constitution and the usurpation of the laws will give way and the forces of evil enthroned.

With the mountainous forces to combat, from adverse rulings of the Supreme Court, racial hates, prejudices and labor troubles, in which we figure as an economic force, the condition of the Negro (while grave) forms quite an advancement to the position held when the Justice of the Supreme Court handed down his infamous decision, which seemingly at that period, took all hopes from us—the memory of which comes reverberating forth from the walls of time.

Already we have outlived these forces of evil. We have gone on through it all. The silent forces of Justice are at work and we have already taken a new spirit of racial consciousness and unity. We expect to hold our own and advance slowly in racial progression, until the full rights of the Constitution have been achieved and the protection of the Stars and Stripes spreads its protecting arms over all American citizens alike! "We have no rights which the white man is bound to respect" has melted into "One Big Brotherhood"of man.

SEATTLE, WASHINGTON NEWS

By F. R. Brooks

Rev. Jones pastor of the A.M.E. Church, this city spoke the last words over the body of Mr. Ernest Slaughter, December 24, 1923. Then he was carried away to Lake View Cemetery and placed in the silent tomb, while his wife and many friends mourn his loss, and we are in deep sympathy with his wife, and wish her much happiness thru life; his wife being a sister of Mr. F. R. Brooks, 118 22nd Avenue N.

Miss Eva Ford is again back home after spending quite a long stay in Portland, Oregon. She returns home saying Seattle for her always.

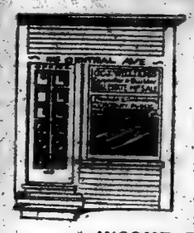
The Alfa Tennis and Outing Club gave a matinee dance January 1, 1924, at the Tennis Club Dance Hall, from 2 P.M. to 5 P.M. Music was furnished by Babe's B. B. Orchestra of Ladies.

The I. B. P. O. E. of W. are having a big social entertainment at their home, 18th and Madison Streets, January 1, 1924, staged exclusively by their two Chinese members, who cordially invited the public to come early and stay late.

A dinner party given by M. and Mrs. Ed Pitter, at their home, 2214 East Madison Street, December 26th, 1923. Covers were laid for seven, and the host and hostess. A delightful evening was spent. On the next day, December 27th, at the same home a dinner was given in honor of Mrs. Arthur Brwn and Mrs. E. J. Goldstone, and covers were laid for six. An enjoyable time was had. All the beautiful decorations of Christmas were nicely displayed.

Messrs. Baker and Walton, the proprietors of the magnificent Billiard and Pool Hall, 1203 Jackson Street, have added quite a lot more to their place in making it more beautiful. When up on 12th tnd Jackson Streets, drop in and give them a call, and in the meantime give the place a look over, and meet Mr. French, Manager.

Mrs. Emma J. Goldstne, of 118 22nd Avenue N., gave a dinner party December in honor of her many friends and they surely enjoyed themselves immensely. The guests remarked that it was the most enjoyable evening they have spent this Christmas. Those present were: Mr. and Mrs. Schloss, Mr. and Mrs. Brooks, Mr. E. B. Murray, Mr. Walter Parker, and others too numerous to mention, and the worthy hostess, Mrs. Emma Goldstone.



Mr. and Mrs. Brooks entertained twenty-three relatives and friends at a Christmas dinner, and a Christmas Tree Party. Christmas decorations were used effectively on the table with red candles and holly sprigs. Following dinner Mr. Shelton Ragland played Santa Claus, when each guest received gifts from the host and hostess. Mr. R. T. Schloss acted as radio messenger and E. B. Murray as toast master for the evening. Mrs. Emma Goldstone gave a short sketch of Pola Negri in "The Cheat". Mrs. R. T. Schloss, in her sweet way, recited two of Paul Lawrence Dunbar's Poems. Mr. F. R. Brooks gave a few brief remarks and the key to the guests for a real good time, saying, Xmas comes but once a year. Mrs. F. endearing all present. Dancing and R. Brooks gave the welcome address cards were enjoyed until the wee small hours in the morning. Then a kindly good night.

Don't forget when you want The California Eagle to call East 1344. F. R. Brooks will answer your call in a hurray.

Mr. O. J. DeNard, 753 East 9th St., Los Angeles, Cal., F. R. Brooks, 118 22nd Avenue, N. Seattle, Wash., send greetings to you, and best wishes for the new year.

REVENUE SERVICE

Rules that will be observed by the Internal Revenue Department in making assessments, refunds and credits of income and excess profit taxes, in the case of returns filed for 1918 upon a fiscal year basis, were received from Washington yesterday by Collector Rex. Goodcell.

Approximately $3,000,000 in claims filed in the Southern California District by 2,000 income taxpayers are affected by the line of policy announced.

In income and profits tax cases where the taxable year is a fiscal year ended during the year 1918, the time from which the five year period for making assessments begins to run is as follows:

(1) In cases where prior to the enactment of the Revenue Act of 1918, a return was filed under the Revenue Acts of 1916 and 1917, and after the passage of the Revenue Act of 1918, a return was filed under that Act, the time from which the five year period begins to run is the time of filing the return filed subsequent to the passage of the Revenue Act of 1918.

(2) In cases where prior to the enacting of the Revenue Act of 1918 a return was filed under the Revenue Acts of 1916 and 1917, and after the passage of the Revenue Acts of 1918, no return was filed under that Act, the five year period of limitation for the making of assessments is not applicable, and assessments for that period may not be made at any time.

(3) In cases where prior to the enactment of the Revenue Act if 1928, no return was filed under the Revenue Acts of 1916 and 1917 and after the passage of the Revenue Act of 1918 a return was filed under that Act, the time from which the five year period for making assessments begins to run is the time of filing of the return filed subsequent to the passage of the Revenue Act of 1918.

(4) In cases where no return was filed either under the Revenue Acts of 1916 and 1917, or under the Revenue Act of 1918, the five year period of limitation is not applicable, and assessments may be made at any time.

In income and profits tax cases where the taxable year is a fiscal year ending during the year 1918, the time from which the five year period for making refunds and credits begins to run is as follows:

(1) In cases where prior to the enactment of the Revenue Act of 1918 a return was made under the Revenue Acts of 1916 and 1917, and after the passage of the Revenue Act of 1918, a return was made under that Act, either by the taxpayer or by the Commissioner, a collector, or a deputy collector, if the taxpayer made no return, the five year period begins to run from the due date of the return made subsequent to the passage of the Revenue Act of 1918, which is the due date provided under that Act.

(2) In cases where prior to the enactment of the Revenue Act of 1918 a return was made under the Revenue Acts of 1916 and 1917, and after the passage of the Revenue Act of 1918, no return was made under that Act, either by the taxpayer or by the Commissioner, a collector, or a deputy collector, the time from which the five year period begins to run is the due date of the return filed under the Revenue Acts of 1916 and 1917, as fixed by those Acts.

(3) In cases where prior to the enactment of the Revenue Act of 1918 no return was made under the Revenue Acts of 1916 and 1917, and after the passage of the Revenue Act of 1918, a return was made under that Act, either by the taxpayer or by the Commissioner, a collector, or deputy collector, if the taxpayer did not make a return, the five year period begins to run from the due date of the return made after the passage of the Revenue Act of 1918, which is the due date provided under that Act.

(4) In cases where no return was made under either the Revenue Acts of 1916 and 1917, or under the Revenue Act of 1918, either by the tax payer, or by the Commissioner, a collector, or a deputy collector, the five year period is not applicable.

PROMISES ? ? ? ? ? SAVING

Participation by many communities in Southern California in the natural resources of the Colorado River was brought a long stride nearer of realization by the announced decision of the Board of Public Service Commissioners of Los Angeles City to seek additional water and water-power supplies from the Boulder Canyon section of the river.

The Los Angeles City Board declared that securing a fraction of the Colorado's flood for that city was an absolute necessity for two reasons: First, because the demands upon the citys' municipal power and light systems already exceeds its supply; and second, because the present Los Angeles aqueduct capacity provides for only 2,000,000, which population, according to William Mulholland, chief engineer of the aqueduct, will be reached by Los Angeles within the next ten years.

That the water and water-power projects of Los Angeles City are inseparable and that power as well as water for Los Angeles' use must be developed at the Colorado River to build and operate the proposed aqueduct, and augment the present power and light system of the Angel city, were positive declarations of Chief Engineer Mulholland.

Mr. Mulholland asserted that this would be the opening wedge in the coming battle to assure participation by all those communities in Southern California topographically located to receive water and water-power from the Colorado's flood. He said the building of the proposed aqueduct would be a collossal undertaking and that it should be done on a scale commensurate with the bigness of Los Angeles.

Certification that Los Angeles' Municipal Power and Light Bureau was earning a surplus despite the low rates it charges for municipally owned and operated power and light was made recently in an audit-report by Price, Waterhouse & &Company, nationally known public accountants. The surplus earned in the year ending June 30th, last, was fixed at $2,693,624.34 and the earned surplus since the Bureau began operations was $5,423,203.76.

Chief Electrical Engineer E. F. Scattergood, of the Municipal Power and Light Bureau, declared that the saving in power and light rates to the people under the rates charged in communities outside of Los Angeles, exceeded $20,000,000 since the power bureau began business. Scattergood asserted that revenue from the proposed aqueduct and power development from the Colorado River would go far toward helping pay for it.

REDLANDS, CAL.

Both Sunday Schools had their Xmas exercises and tree Monday evening. Christmas evening a wonderful sermon was held at the Second Baptist Church, at which time, Rev. W. C. Young, of San Bernardino, preached a wonderful sermon.

Rev. and Mrs. W. H. Young and daughter, of San Bernardino, were in the city Christmas Day, visiting Rev. and Mrs. Dones, of Alta Street. The little folks of the city were entertained at a party given by Class No. 2, of Second Baptist S. S. The party was given at the home of Mrs. Jessie Taylor, 103 E. Stuart Avenue, Christmas Day at 3:00 o'clock. The children had a wonderful time and all left feeling very glad after having partaken of lots of goodies to eat.

On Christmas Day Miss Evelyn Black, daughter of Mr. and Mrs. Black of High Avenue, was married to Mr. Causon of Los Angeles. The ceremony was performed by Elder Rodgers, of Los Angeles. Many Los Angeles friends and acquaintances were in attendance. And the little bride was very beautiful in white crepe de chine. Many beautiful and useful gifts were received by her. The young couple are in Redlands for a while.

Mrs. Annie Brown of Los Angeles, and children, were in the city Sunday visiting her parents and relatives.

Mr. and Mrs. J. D. Richardson of San Bernardino, and son, are new comers in our city, and are stopping with Mr. and Mrs. Carruthers, 1002 Tribune Street.

Mrs. Emma Kinnard of East High Avenue, was hostess at a five course birthday dinner given in honor of her husband, Mr. LeRoy Kinnard. Covers were laid for Mr. and Mrs. Antonio Clay, Rev. and Mrs. Herron, Mrs. G. Cooper, Mr. and Mrs. Clay, Mr. and Mrs. Ware, Mr. C. Thomas, Mrs. S. Gordon, Mrs. N. Harris, Mr. and Mrs. Kinnard. The dining room was beautifully decorated in the season's colors. Carnations, smilax, and Chinese lilies were used as center piece for the table which was very beautiful.

Services were very good all day in Second Baptist Church, it being Missionary day. Rev. W. H. Young preached at the morning service.

WORLD

Text: And the Lord Said Unto Me, "Amos, What Seest Thou?" And I said, "A Plumb Line." Then Said the Lord, "Behold, I will set a Plumb Line in the midst of my people, Israel."

At times, you will note that the Lord makes His message into a striking dream, that is, He holds a plumb line, and makes it talk to His people. "Behold, I will set a Plumb Line in the midst of Israel." The plumb line here referred to, is God's method of teaching and it is very effective, and again it is used in the form of an application, and it stings as of fire, touching the very souls of men.

Whenever the Lord wants to use us, He calls us each by name. The Lord called Saul by name when he came near Damascus, so it was with Amos. The plumb line is the similiarity of love. For God is love. If we be guided by the plumb line, it means that we belong to God, and that God belongs to us. It means that we are satisfied with God, and that God is satisfied with us; it means that God and we are one in love, and again, the plumb line here dropped into such a fellowship, reveals that in a straight line, in God, in us, is one and the same straight line; i. e., God and us and one in all things. What is God's message to the World, through the plumb line?

I answer by saying, "Man is a responsible creature; he is responsible to himself, he is responsible to his fellowmen, and he is responsible to his God. Man's responsibilities are the most solemn fact in all of his history, and that is because he has a deal with God. What is the plumb line?—Christ is the plumb line.

THE SHADOWED WITNESS

—By—

DORA L. MITCHELL

Lester Logan, attorney and counselor-at-law, fresh and fit after his customary cold plunge, took his usual seat in the little dining room of the Young Men's Athletic Club, and as the waiter withdrew his breakfast order, casually picked up the morning's paper. It was the "Herald," Ardmore's yellowest journal.

!!!ASSEMBLYMAN JOHN PETERS MURDERED!!! YOUNG NEGRO IN JAIL CHARGED WITH THE CRIME!!!

shrieked the headlines. The attorney uttered an exclamation and with scarcely a glance at the pictures illustracting the article, scanned it hurriedly.

"John Peters, Assemblyman from the 41st District, was stabbed to death last night on North Boulevard, near Nineteenth, by a young Negro who gave the name of D. Douglas. He was arrested by Officer James MacDonald.

"That officer, who was rushed to the scene by an eyewitness to the crime, nabbed the murderer crouching over the body of his victim. Robbery prompted the deed, as the assassin, when collared, held an envelop he had just taken from the dead man's pocket, containing several hundred dollars in currency. The arrested man stoutly maintained his innocence. He declared he saw Peters lying on the pavement, thought him ill and stopped to help him.

"Douglas is a stranger in Ardmore, having arrived here from the East a few days ago. He was employed by Randolph Carrol, vice President of the Standard Auto-Equipment Company as chauffeur. His young bride of two weeks is with him. When she learned of her husband's arrest, she firmly reiterated her belief in his innocence.

"Peters was well known in political and club circles, and his death comes as a shock to many. It is t obe hoped that this time the authorities will not let the perpetrator of a cold-blooded and brutal murder escape without paying the full penalty for his crime."

The last sentence made Lester smile faintly, the words "this time" a mild slam at Farwell Nichols, the brilliant but unpopular district attorney, who had already been subjected to some caustic criticism by reason of his failure to convict in three sensational cases within the last six months. Moreover, Farwell Nichols was a southerner of distinctly prejudiced tendencies, which had been accentuated in the case of Lester, the only Colored attorney in Ardmore, who had scored over him in two different legal actions during his term of office.

Lester then glanced at the cuts. He knew John Peters, in a way. It was the picture of D. Douglas, the alleged murderer, that held his horror-stricken attention. For a moment he stared at the pictured presentation of a broad-shouldered youth, dark of skin but well featured—Donald Douglas! Lester's mind leaped back across three year of time, and through his memory there flashed the picture of a dinghy bobbing over the blue waters of Lake Adrian. He was in that dinghy, exulting boyishly in the joy of his first sail, while a short distance away a power boat was running him a friendly race. A quick turn of the rudder—a sudden gust—and he was struggling in the water, struggling clumsily, helplessly, futilely, for he had not yet learned to swim. In an awkward effort to save himself, he struck his head against the side of the boat. Stunned, blinded by spray, choking and gurgling, he felt himself engulfed. At that crucial moment he was seized by powerful arms and pulled aboard the motor boat. When he had somewhat recovered, his rescuer, a bronze giant, a stalwart young athlete, had laughingly introduced himself as Donald Douglas.

This pictured face was unquestionably that of the man who had saved his life. Now, a stranger in a strange city, he was in prison, accused of an atrocious crime, enmeshed in the deadly net of circumstantial evidence!

The waiter appeared with a tray. Lester signed his check, and leaving the meal untasted, hurriedly departed for his office. There he stopped only long enough to give a terse message to his stenographer. "Tell Tommy we won't serve those papers on Peter's—he's dead. I'll be back in an hour."

And thus it came about that when Lester Logan and Donald Douglas met for the second time, their greetings were exchanged through a grating of steel.

"I can't begin to say how grateful I am, Lester," began Donald, rather huskily.

"Don't try to, old man," said Lester briskly, as he drew up a chair.

"You see, neither Alice nor I know a soul in Ardmore—except the Standard People, and they turned me down when I asked them to help me. I suppose they think I did it," he added, bitterly. "And now Alice—"

"Rest easy, as far as she's concerned, Don, old boy," exclaimed Lester, warmly. "A dear girl whom I know will take care of her until we get you out of this scrape." Donald nodded and for a moment did not trust himself to speak. Lester tactfully busied himself sharpening a pencil. "Now, Don, tell me exactly what happened last night," he said, finally.

Donald said his employer stayed late at the plant; he had then driven him to the railroad station, there Carroll had taken the 11:30 train for San Francisco. Donald had started back to the factory garage with the car, and had been driving slowly in his roadster down North Boulevard when he noticed, by the light from the street lamp, the body of a man lying half in shadow, in the entrance to a store.

"As I slowed up at the curb I heard a groan. Thinking the man was sick or hurt, I jumped out and ran to help him. He was lying on his face. When I turned him over, I saw the sidewalk covered with blood! It—it almost unnerved me! But I noticed the poor devil kept trying to gasp out something, clutching his hand to his breast. I thought he wanted to open his coat. I started to help him—and my hand touched the handle of a knife. It—it was buried to the hilt—" The young man broke off with a shudder.

"Take it easy, old man," admonished Lester, writing rapidly.

"He was still trying to speak—I bent over to hear, and caught the word 'box.' I'm sure he repeated 'box' two or three times. And then—God, Lester! I'll never forget that horrible rattle in the poor fellow's throat—he—he died right in my arms!" Donald's face went white with the horror of the memory and his lips twitched.

"And then—" prompted the young attorney.

"I laid him down, and at the same time saw something white on the pavement beside the body. I hardly knew what I was doing—I picked it up—it seemed to be an envelope, a large thick envelop with papers—and as I started to get up two men ran at me. One was an officer. He grabbed me by the collar, handcuffed me—

"And the other?" asked Lester quickly.

"I couldn't see his face well in such a light, but he was excited and kept repeating over and over again that he saw me stab that man! Lester, did he lie in cold blood? Or—or maybe he really thought he saw me do it!" The young man slumped down despairingly and buried his face in his hands.

"Come, come!" urged Lester, energetically. "You said the dying man repeated the word box.' Did you see a box of any kind—"

"No, no—nothing like that! Only that accursed envelop that turned out to have money in it—And they said I stole it—"

"That's all right," soothed the young attorney, writing busily. "I'll look after that. Cheer up," as he finished, and rose from his chair.

"Lester, tell me—" question the prisoner, rather huskily. "What do you think....."

"I know you're innocent, Don. And believe me, I'll leave nothing undone to prove it, to restore you—" he added, smiling, "to liberty and—your little wife. I'll see that she's well cared for, old boy, and I'll get her a pass to see you tomorrow."

As Lester passed thru the grim portals of the jail out onto the street, a swirling gust of wind almost snatched his cap from his head, and the chilliness of the breeze was such that he stopped at his office to don a high-collared overcoat before sallying forth on his trip of investigation. Mere trifles, seemingly irrelevant and in the natural course of things, but, by the irony of fate, destined to play and important part in the drama of life and death that centered about the prisoner, Donald Douglas.

The Street Cleaning Department of Ardmore had taken no action as yet at the corner of North Boulevard and Nineteenth. It was a poor neighborhood, marked by vacant lots, empty stores, and tumbledown shacks, for the most part abandoned. The district had been given over to the homes of factory workers, who, with the coming of the war time prosperity, had left for more desirable localities.

In the entrance to a vacant store, in a one-storied brick building on the corner, a large red-brown stain marked the spot where John Peters had met his death.

Lester, looked about carefully but discovered no trace of anything resembling a box. A miscellaneous collection of trash littered the gutter, and for some minutes the young attorney raked through it with a stick, without discovering a particle of any size, he suddenly perceived a small black box and hurriedly picked it up. He examined it minutely. It was of lacquered tin, without a lid, and in size about three inches long, two inches wide and an inch deep.

And then, as though subconsciously aware of another's presence, Lester looked up and saw a man watching him from around the corner of the store building, about a hundred feet away. At the same moment the stranger came forward with jerky and at the same time slightly dragging steps. He was obviously striving to see the object Lester had picked up—and which the attorney instinctively concealed as he observed the man's singular eagerness to see it.

COLLEGE FRATERNITY

(By Wendell P. Gladden, Jr.)

III.

We have endeavored to point out clearly how deep-rooted is the spirit of the college fraternity, as in other organizations where mutual understanding and cooperation are factors. More than this, the relationship of fraternity men was discussed, not in detail, but sufficiently to stimulate interest and thought. These are fundamental ideas. The actual programs are worked out only after careful, concerted and intelligent action, based upon oneness of aim. Now we shall consider the college fraternity from another angle.

Fraternities create desire in the members for high scholarship attainment. In many of the large universities the grades of the various fraternal groups are placed on the bulletin boards where students and faculty may ascertain their standings. This method in itself has unlimited influence has a tendency to uphold the standards of the institutions. Sometimes prizes are awarded, and honor is given to those who merit such distinction. It will be found that fraternity men top the lists of the scholars because of the competition and urge, and the honor and glory necessarily redound to their organizations. Scholarship attainment can not be emphasized too much.

During the regular sessions the various clubs and groups encourage well-rounded development on the part of all students. It is not the daily routine of study alone which makes for the all-round college man, but participation in the activities about the campus and in the community whenever possible and practicable. Dramatics, athletics, debating, rallies all have their peculiar attraction, and new students and old display talent. And those who have possibilities of developing are given opportunity thereby. But back of all the ambition of the men their brothers are giving them aid and encouragement. They know how much any honor will mean to the fraternity. In politics social activities, and the Y. M. C. A. lies a wide field for worth-while endeavor not only for personal satisfaction and help, but for fellow-students who need the contact of elevating personalities and inspiring souls.

The kindly word, the good strong hand-shake, and interest shown others will serve as a boomerang and in the days to come those same students will show their gratitude. Here is another grand opportunity for fraternity men to make college life more beneficial and make life-long friends. Constant consideration for others in college pays.

There are many students in college who do not desire affiliation with the fraternity. Nevertheless, fraternity men should not be partial, and too discriminating with them. Association and helpfulness will mean much to them. They will begin to see how much can be accomplished through co-operation and friendliness. If they have been regarding the fraternity men as students holding themselves aloof from the mass of students, they will show a different attitude when they learn that the attempt is ever for achievement and fellowship.

Service in the community, based upon love and devotion is the grand opportunity awaiting men of the fraternities. These selected men of the campus and class-room and of the community are regarded as leaders. Much is expected of them. Let them not disappoint those older men who have treaded similar paths to their goals in the various vocations of life. The development of the human soul should be paramount and the ultimate end of the efforts of the college fraternity.

THE YOUNG MASTER WORK AT SUMMER SESSION

(By Wendell P. Gladden, Jr.)

II.

On other occasions John played his violin. He loved it. It was his great ambition to master this most difficult of string instruments. He rendered classical and jazz music with ease. John had acquired that poise and technique which stamps the great virtuoso.

There were times when with the wide sweep of bow and the quick manipulation of his strong long fingers, the Young Master, as they called him about the campus, brought forth beautiful and touching music that held the boys amazed. There were expressions of joy and gladness at times. Then familiar strains rose. Home thoughts, love of the great out-of-doors and the sea, the birds, and trees; of adventure of war, and of peace. These were the hours of happiness for the boys. Sometimes there were tears welling up in eyes which had sparkled with joy of living and activity. All their sacrifices, and strivings for knowledge, their self-denials, seemed worth-while during the thrill of those memorable moments, and the spell of exquisite music. Yes, John Hartsook was truly the Young Master; and everyone loved him.

Football practice began in earnest about the middle of October. The Young Master, although a good player, was a little "soft" as he expressd it to me. Sometimes we would rise early in the morning for a jaunt of five or six miles, returning in time to prepare for breakfast. Occasionally we would wrestle and go through with some exercise in the gymnasium. When I had heard him play that last night at the sorority house, I cautioned him against playing the rugged American game. But he would not heed my warning. He was in college to make good in anything he attempted. It was not such a long grind for the Young Master to condition himself for the grid-iron I felt that he would make the team. He was a wonderful end and also a backfield player of no mean ability. So I concluded he would fit it in one of the positions. Practice, line-plunging, tackling, signals, bucking, were the things that made life a continuous swirl for us. We were determined to make the team; nevertheless, had wear the coveted sweater and letter which all college men prize so highly.

BLACKIE RICE RETURNS TO LOS ANGELES FROM ARIZONA

Blackie Rice, classy middleweight formerly of New York, but now of Los Angeles, returned recently from Arizona where he engaged in a ten round bout. It was Blackie's from start to finish.

He had been here only a few days when the Madison Square Garden Arena celebrated its re-opening under the management of Fred Windsor, formerly Dempsey's manager. A double Main Event was scheduled but one of the fighters failed to enter the ring, so Blackie substituted.

His opponent was Mexican Battling Ortega, who was almost unbeatable in his prime, and still a hard man to combat. Rice had not trained for the fight, consequently, he was not in the very best condition, but he won the favor of the fans by his repeated attacks and boxing skill in the first two rounds. Although he tired slightly afterwards, he was never in danger. He fought a good draw against a man who weighed twenty pounds more than himself.

Blackie knows the boxing game, as attested by his clever fighting tactics and wonderful foot-work. He is the kind of fighter the fans like; clean, aggressive, with a fighting heart. His followers and admirers predict a great future for him in the pugilistic ranks.

IN THE MUSIC WORLD

By: John A. Gray

It is interesting to read what the great musicians have to say about their art and how they work. Perhaps if more students read what these great ones had to say they would be more patient and work harder. The following extracts are taken from an interview with Madame Sigrid Onegin, the Scandinavian contralto, who was a sensation at the Metropolitan last season. The interview was published in the Etude for June.

"The true artist must always study and also must work very hard. I, for one, have learned the value of hard work. There is no resting on one's laurels, even if they are possessed; one must always keep up to the mark. I give at least a full hour or more every day to vocalizing and breathing exercises. This does not mean, of course, that I work a full hour without stopping. No, I break up the hour into quarters, doing fifteen minutes at a time; then I rest a bit and do something else. I soon begin again. Working for short periods should be kept up, and if they are varied with some restful occupation, you will not become tired.

"Every student of singing should be able to play the piano. The piano is the most necessary of all instruments for the singer. Without some knowledge of it, she is greatly handicapped. Think what it must mean for the singer to be always at the mercy of an accompanist! Not that she must be her own accompanist in public, but familiarity with the piano enables her to study her voice far more profitably, for she can know to what she is singing, she can play over new music, and be much more thorough in her work.

"When studying a song or part I do not use full power, except occasionally when I wish to determine the effect. When singing in public I must adapt the power of tone to the size of the room or hall where I am to sing. For a small, intimate space, great power is not needed; it would be out of place. If I know I am to sing in a large hall, I choose some songs that are big and powerful; whereas, for a small hall I arrange the program accordingly, using songs that are more quiet and do not need great force of tone."

SOUTHERN CAL. ALUMNI'S PROGRAM

(Continued from Page One)

is to prepare the child to fight the battle of life, with as few odds as possible against him."

Much emphasis was laid upon business training and study of familiarity with economic conditions. "Indeed," Mrs. Bass continued, "we, as a race, need fewer doctors, lawyers, ministers, and more business men and women—people of action.

"For a business, in economic achievement, lie the Negro's great opportunities for progress. Only when the Negro is an important economic factor, an element to be reckoned with in the great world of business, will he be in a position to force the Caucasian to accord him the rights he demands; only then will his just claims be recognized.

"The Negro should not aim to become a mere 'economic factor,' however. He should become a menace. Japan and her yellow men are respected, because their power is so great as to be a menace to the white man.

"And the black man will be respected in proportionate measure, as he exalts himself in the world of commerce and business."

She lauded the people for the progress already made and added that, "The day is past when man can live by his natural wit alone. Training and education are essential to success, even to survival. And selfishness can no longer be the keynote of individual action. Social service is indispensable to progress."

Many graduates received honorable mention. Among these were: Rev. W. Miller Beane, A. B., D. D.; Samuel E. Danley, Jr., A. B.; Atty. Bert McDonald, A. B., LL. B.; Mrs. Ethel Asbury Reeves. Several high school students received praise for their work.

The list of graduates includes the following: Teachers' College, five; U. S. C., ten; Business College, one; Pacific Union College, two; High Schools seventy-eight. A complete list of Southern California graduates was published in the columns of this paper of July 6th.

Organized in 1909, the Southern California Alumni Association has worked toward the objective to encourage literary knowledge and endeavor; to stimulate educational effort; and to foster the development of highest ideals of manhood and womanhood."

Each year the association offers two scholarships: First to Howard University, Washington, D. C.; Second, a prize of fifty dollars to the graduate who resumes a higher course in a Southern California institution of learning. This year the Howard University Scholarship was awarded to Miss Robines Robinson, who was graduated from the L. A. High School. Mr. Leon Whitaker was awarded the Southern California Scholarship prize. He has won the scholarship for two years—1923-4.

The association boasts of a large membership enrollment. Many interesting features are planned for next year with the new and enthusiastic officers.

Atty. Asa McDowell, U. S. C. graduate, presided. Miss Nellie Hemphill, Chm. Program Com. Miss Lucile Cook is the Secretary. Miss Berthella Glean, Cor. Secy.

SANITARIUM AT SANTA CLARA

SANITARIUM CAMPAIGN SWEEPS LOS ANGELES. COLORED CITIZENS UNITE TO RAISE QUOTA

Whites Await Colored Showing to Complete Hundred Thousand Dollar Fund

(Pacific Coast News Bureau)

Under the supervision of Miss Dorothy Armstrong, a young high schol girl who has caught the vision of the need of checking the enormous colored tubercular death rates, the campaign for the sale of bricks in the Santa Clara Sanitarium is sweeping Los Angeles. Every community in which colored citizens reside, has its block captains appointed by Miss Armstrong who are approaching each resident man, woman and child in the block to either buy one or more 50c bricks in the Sanitarium or make a substantial contribution on the subscription list which the block captain presents.

$20,000 Fund to Be Raised

Forty thousand bricks at 50c each are being sold among our people. The remaining $10,000 is being raised by popular subscriptions. Mrs. Charlotte Hyser Bass has started the popular subscription fund with a donation of $100.00.

Disposition of Funds

The $31,000 heretofore subscribed by prominent white citizens of Los Angeles will not be collected until the building operations are ready to begin. Architect Paul R. Williams has completed the preliminary plans for the Sanitarium, and building operations will begin thirty days after the quota of the colored citizens has been raised.

Every brick sold is numbered in duplicate and an accurate record is kept of each sum of money received An audited report of all funds collected will be presented to the city of Los Angeles in accordance with the rules of the Social Service Commission under whose supervision the campaign is proceeding. This report will be published in all newspapers

REDLANDS

By Lavia Dupue.

Mr. and Mrs. Ray Carmichael, Mrs. Elizabeth Hughes and her daughters, Fannie Bell, and Elizabeth, spent the Fourth of July at Bruce Beach.

Mrs. S. E. Jackson of 6th Street, went to Los Angeles last Tuesday to visit with friends returning Wednesday evening.

The Social at the A. M. E. Social Hall promoted by Messrs. Israel Beal, and Roy Kennard, last Saturday night was a great success.

Mr. and Mrs. Franklin Smith, of E. 24th Street, Los Angeles, were in the city the Fourth of July and were house guests of Rev. and Mrs. Edwards.

David Bullock and family are new comers in our city from San Bernardino and are at present stopping with Mr. O'Neill, down on 6th street.

A letter from Mrs. R. B. Burton, who is now visiting relatives in Waco, Texas, informed her husband here, Mr. Robert B. Burton, of the very serious but improved condition of a sick sister at home. Mrs. Burton is expected home about the 20th.

Mrs. Mattie Albritton, fo Los Angeles, is visiting with her daughter, Mrs. Dones, out on Alta Street.

Sunday School of Baptist Church is planning for picnic in near future. Watch for announcement of time and place.

Born to Rev. and Mrs. C. B. Dones a son, Dexter Raymond. Mother and son are doing well.

Mr. Sam Jackson of State street, received a broken hand and a very badly damaged automobile last week on returning from Los Angeles when his steering gear broke and his car ran wild and collided with a tree.

Service was up to standard last Sunday in both Churches, local pastors filling their respective pulpits.

Union service was held at the Baptist Church, the Rev. Edwards being the preacher.

NEEDLES

ST. JAMES BAPTIST CHURCH—

Rev. Shockley, Pastor.

We had Rev. Wade, our Missionary with us Sunday a. m. and evening services which were well attended. Owing to the extreme heat many were forced to remain inside. Rev. Wade occupied the pulpit Sunday evening, while Rev. Shockley and Rev. Holt enjoyed the sermon. Rev. Wade spoke briefly concerning the Lord's Supper. This being Communion night which was well received by a full house.

SOCIAL NEWS

Mr. Alfred Berry returned to the city after a few days visit to his family in Los Angeles. Mr. Berry is one of the skilled shop workers of the Greer forces.

Mrs. Steve Melton, one of the younger set, was called home by wire to Dallas, Texas, owing to the serious illness of her father. We hope him a speedy recovery.

The Sheik of Sheiks had a card from his old pal, Mr. Oscar Clark, in Chicago, the other day stating he just could not get lonesome. Now on his last leg to the clearing ground.

The bunch sends regards.

Oh say, boys, Oscar Greer just can't find time to do nothing but write to Los Angeles. Here of late he is now busy telling his best friends to excuse his dust. Oh well we will vouch for one thing she must be a dove to the sheiks. Hands up hat at that some bargain.

Miss Grace Davis spent a few days visiting friends and relatives in San Bernardino and Los Angeles.

WATTS NEWS

Mrs. Andrew on Thaxter Street has been on the sick list for some time.

The Clements, on Thaxter Street, are preparing to build a beautiful home.

Many pleasures were enjoyed by Watts folk on the 4th, and all seemed better for a little holiday relaxation.

Miss Agnes Grant is spending her vacation at home.

Many strangers are coming to Watts from the valley.

Mesdames Cunningham, Walton and Wright, with other Watts people, attended the Grand Lodge Session at San Diego, and returned with glowing reports of the progress of the Order. Also the news that the Grand Lodge will convene in Watts in 1924. Hurrah! Hurrah for Watts!

Mrs. Lucy Roberson, formerly of Chicago, now of Los Angeles, was to undergo an operation on the 12th.

Mrs. Cunningham, on Thaxter St., has recently suffered from a severe attack of indigestion, but is slightly improved at this writing.

Mrs. Lucy Gates and family, with about forty guests, motored to Bruce's Beach on July 4th, and report a most enjoyable outing. Mr. Cunningham helped solve the transportation problem by requisitioning his truck.

R. Williams spoke to a mixed congregation that gave good attention to the sermon. Sunday July 22 will be our Second Rally Day. All men are asked to give $5.00 each, or more, and all women are asked to give $2.50 each, or more. All cordially invited to come and help this struggling Mission. Our 4th Qurterly meeting is set for August, 12th. Do not forget it. Nor neglect to attend it.

RIVERSIDE, CAL.

We welcome the return of Rev. Simpson, who was recentl yhurt in an auto collision. He has spent a few weeks at his seaside home in Santa Monica, where he also has charge of the A. M. E. Church. Rev. Simpson is one of the pioneer citizens of this city and community.

Mrs. D'Almida is no more—D'Almida. The happy young couple (Mr. Reggins and Mrs. D'Almida) eloped to San Bernardino last Tuesday and were joined in matrimony. While it was expected by many of their friends that this would be the outcome of such an ardent friendship, when the news came all who heard it gasped for it was guarded with such secrecy.

Prof. Bynum of the Zion A. M. E. Church and Mrs. Novela James, and Mr. and Mrs. Hicks of 8th and Towne A. M. E. Church, Los Angeles, passed through the Fourth on their way to Elsinore, they stopped over for a few moments at the A. M. E. parsonage.

It was quite a representative number that went to San Bernardino Thursday night to attend the meeting at which Dr. Greggs of Wilberforce delivered a lecture. The meeting was very inspiring and many were glad to hear of the great institution from its president.

Mr. and Mrs. Daniels, members of Ward Chapel and other friends motored to Riverside Sunday and spent the day with friends, they were worshippers at the A. M. E. Church.

Other visitors: Mrs. Millie Davis, 1359 E. 32rd St., Los Angeles is spending a week with her mother Mrs. Gordon on East 13th and High Sts. Mr. and Mrs. T. A. Cole of the Tabernacle Baptist Church, Los Angeles, passed through Monday on their way to Elsinore for a vacation. Mr. and Mrs. Brunsen stopped over for a farewell on their return from a week's stay at the famous resort.

All churches report good services the past Sunday. Rev. Riddle, Field Missionary of the Northern California Baptist Association spent the day with Rev. Cooper the past Sabbath, preaching morning and evening. Rev. McCorkle of the A. M. E. Church gave two character sketches the past Sabbath. The one was of the Apostle Peter, and the other of King Saul. They were reported to be unique as well as helpful. Rev. Seaton reports good services all day.

DELAYED NEWS

SACRAMENTO—

Suppose

If all we may say
In a single day,
With never a word left out,
Were printed each night
In clear black and white,
'Twould prove queer reading, no doubt.
And then just suppose,
Ere one's eyes he could close,
He must read the day's record through;
Then wouldn't one sigh,
And wouldn't he try
A great deal less talking to do?

Miss Fay Williams of Red Bluff came down Wednesday to spend the day with her sister Mrs. Ora Lewis.

The Ladies Monday Club hall a splendid entertainment at Forresters Hall, Wednesday night. A dandy program was put over by the kiddies.

Columbia Lodge, K. of P., Eastern and Western Hemisphere, held their annual installation Tuesday night at their Castle Hall and Silver Leaf Court installed their officers Monday night.

Miss Reginia Holland entertained sixteen young misses at a dainty luncheon Wednesday evening at her home. The house guests being her cousin Miss Lois Davis of San Francisco and the newlywed, Mrs. Chas. C. Duncan of this city.

Walter Webb of Santa Monica is visiting in the city.

Mrs. Milton W. Lewis of Los Angeles, who recently lost her husband, returned to the Southern City, Tuesday after several days' rest here recovering from the shock.

C. Chandler of Oakland, grandson of "Mother" Chandler is spending the week in the city the guest of friends.

Mrs. J. H. Brinson is convalescing after an attack similar to flu.

The Whist Club composed of several of Sacramento's prominent citizens, motored up the mountains Sunday to R. A. Johnson's camp and enjoyed the day with eats and everything.

Rev. and Mrs. T. Allen Harvey have a new baby in their home. It is seven months old, and her name is Ardonia Hortense Harvey, and according to Dr. Harvey she has just arrived there.

Mrs. E. Knox of Fresno visited friends here Saturday en route to Santa Cruz to spend the summer.

Columbia Lodge and Silver Leaf Court, K. of P., E. & W. H., gave their annual 4th of July picnic in Shadowland Grove in Yolo County. A big crowd was there to enjoy the festivities.

Mrs. Bridges is the presiding officer of the Oakland chamber. Mrs. Clayton is making her official visits leaving here for Woodland.

Mrs. Theresa Colbert of Fresno, mother of Mrs. J. H. Nichols is spending a few days with her daughter.

Wm. H. Neal, wife and children, John, Evelyn and Gladys of Los Angeles and Mrs. Jackie Harris of Fresno drove up to visit the Nichols, Tuesday and with whom Mrs. Nichols and children will return for an indefinite stay.

Mrs. J. H. Walker, Fema Huma Cornetist, our own local soprano, gave a recital in Odd Fellows Hall, Oak Park for benefit Kyle Temple A. M. E. Zion Church, Friday night to an appreciative audience. She was accompanied by Mrs. John Johnson, an accomplished musician. Mrs. Walker is destined to become one of America's best singers.

A family quarrel nearly ended seriously at the home of J. H. Nichols, Saturday night when both wife and husband were painfully injured in a melee.

Mrs. E. W. Robinson, president of the Allen C. E. League put over a very unique patriotic program Sunday evening in the young people meeting at St. Andrews. After the lesson each participant was given a fire cracker, the fuse of which was attached a motto when pulled out. Then there were four bundles of firecrackers ranging from very small to large representing (1) small things in life; (2) true education means better government; (3) honesty, loyalty and sacrifice; (4) love; a roman candle represented good habits, manners, etc., to make a beautiful land and the skyrocket represented our Missionaries who carry the message to distant lands. It was a great stunt and the whole thing meant the league arsenal. The church was decorated in flags, flowers, etc.

The N. A. A. C. P. pulled out of the 4th of July parade at the last minute and did not enter their float which would have been a winner, owing to the fact that the parade was to be at six o'clock in the evening and most of our folk would be away at a picnic at that hour.

The Stanger Says: That when you ask some folk to join the N. A. A. C. P. they say what has it ever done? They spent $14,000.00 in the Arkansas riot case and six Negroes are free, peonage is writhing in death throes and lynching has decreased two-thirds per cent this year. Get in, you small bore fellow who wants to know what it has done, you may need it next.

That you ought to buy a paper and quit borrowing the other fellow's.

THE SHADOW WITNESS

(Continued From Page Five)

everytime I kiss my girl she closes her eyes and hollers."

Adolphus—"I say she do."

Jules—"What's that?"

Adolphus—"I say, do she?"

Conductor—(to passenger who is running up and down the aisle)—"Do you want to get off?"

Passenger—"No, I'm trying to stay on."

Clancy—"I'm after a ticket to Chicago."

Agent—"Do you want a round-trip ticket. One that will take you there and back?"

Clancy—"What's the sense of me paying to go there and back when I'm here already?"

"Lost anything, mister?" queried the stranger with an ingratiating smile. He was well-dressed and appeared to be about thirty years of age. Lester's keen eyes took swift note of his yellowish skin, dry almost to the point of scaliness, the thinness of the black hair below his hat, and the shifting graygreen eyes whose iris was extraordinarily contracted.

"Yes," he replied, unobtrusively slipping the lacquered box into his pocket.

"What was it?" quickly demanded the other.

"Oh, nothing of any importance," returned Lester, while his eyes, shadowed by his cap's visor, scrutinized the stranger's face searchingly.

"Well, I lost something myself. Lost something, I say, right along, here too. Yes, just about this place." The man's tongue seemed suddenly loosened and he appeared to be chattering with a volubility beyond his own control.

"You don't say! What was it?" asked Lester, with affected indifference.

For a mere second the man hesitated, then blurted out: "A little box! A little tin box. Did you see it? I must have lost it around here. God! I've got to find it! I must" He stopped abruptly and eyed Lester with a mingling of suspicion and cunning. "You see—I—I had some money in it."

"Money?" smiled Lester. "Well, old man, you're not likely to recover that—but I wish you luck."

He turned as if to leave the scene. The stranger, muttering to himself, after a final glance around, walked away in the opposite direction. Lester crossed the street and followed until his quarry entered a billard hall some blocks distanct. From a nearby drugstore Lester telephoned the Rainey Dectective Agency, and fifteen minutes later the searcher for the lacquered box was under surveillance.

The State hastened Donald's preliminary examination, which was held next morning.

Lester realised that the people's case against Donald was strong enough to hold that young man for trial in the criminal courts, but was utterly unprepared for the shock received when he recognized in the State's star witness—the man who had sworn he saw Donald Douglas kill John Peters—the stranger who had accosted him the day before at the scene of the crime!

While Cuthbert Williams gave his damning testimony, Lester watched him closely. The witness labored under a nervous excitement that bordered on hysteria. Words gushed from his lips in an almost incoherent torrent. He repeated hemself again and again, but with no variation in his story. He did not recognize Lester—thank to the cap that had shadowed the young advocate's face on the previous day— and scarcely looked at Donald and the group about him. In fact, as the interrogatory ended, he collapsed and had to be carried from the room.

After a few words of encouragement to his client, Lester returned to his office, impatiently awaiting the Rainy operative's first report on Cuthbert Williams—the man whose rambling, almost incoherent babble, if it stood unshaken as testimony, would send Donald Douglas to the gallows.

A misty December rain seeped down through leaden clouds; chilling winds snapped fitfully around the ivy-bound corners of the grim old court house, but in the criminal department on the third floor electric lights glowed mildly, and a comfortable warmth filled the court room where Donald Douglas was on trial for his life.

WORTHY OF STRONG SUPPORT

The demonstration of real merit as put forth by Mrs. L. W. Johnson who is carrying on the work established by her husband and herself at 2019 Central Ave. is worthy of the staunch support of all the people who have occasion for any work in Cleaning, Dyeing and Repairing, gents or ladies clothes. While the unfortunate incarceration of Mr. Johnson for defending his home must last until he can have a trial before a jury of his peers; it is commendable indeed that his wife with undaunted courage is carrying forward the work with such a great degree of success.

NINEVEH THAT GREAT CITY

Subject to be found in the 3rd Chapter of the book of Jonah 9th. and 10th verses inclusive—9th verse. Who can tell if God will turn and repent and turn away from his fierce anger that we perish not.

10th verse. And God saw their works that they turned from their evil way and God repented of the evil that he had said that he would do unto them and he did it not.

Those who are versed in the history of the rising and falling of nations, the overthrowing and reestablishing of kingdoms, and the destruction of great cities, as history repeats thru the process of time, we are convinced by observation and personal experience that the two fundamental causes of our ups and downs are righteousness and sin, both collectively and as individuals as well. Because in holy writ we are taught that righteousness exalteth a nation, but sin is a reproach to any people. It is through righteousness that nations and peoples of the earth rise to honor and true prosperity, being naturally evil continually, thus in great prosperity he gets beyond himself, and eventually turns his blessing into a curse of wickedness. The bible and history show us this to be true of nations and people through all the ages. But God being always mindful of his creatures, sends us this warning, by calling our attention to the great city of Nineveh for an example. Now from what we learn of the great city of Nineveh as we read the book of Jonah it was a large, popular, prosperous and a very wicked city, a noted one like many of our great cities today, and one of them namely Los Angeles, California.

As I have before said, that Nineveh was known as that great city, great even in size, just another Los Angeles of today. So we read in the 1st Chapter, 2nd verse of the book of Jonah, that God commanded Jonah to go to that great city and cry against it, because the wickedness of that people had come up before God. In the 3rd chapter, 3rd and 4th verses we read where Jonah finally went, and as he entered that great city he cried out and said, yet forty days and Nineveh shall be overthrown. And this is what came to pass. Read beginning at the 5th to 10 verses of the 3rd Chapter of the book of Jonah, which reads thus: So the people of Nineveh believed God, and proclaimed a fast, and put on sack cloth, from the greatest of them even to the least of them, for word came unto the King of Nineveh, and he arose from his throne and he laid his robe from him, and covered him with sack cloth and sat in ashes. And he caused it to be proclaimed and published through Nineveh, by the decree of the King and his Nobles, saying, Let neither man nor beast, herd nor flock, taste anything, let them not feed nor drink water. But let man and beast be covered with sack cloth, and cry mightily unto God. Yea, let them turn every one from his evil way, and from the violence that is in their hands. Who can tell if God will turn and repent and turn away from his fierce anger that we perish not. And God saw their works that they turned from their evil way and God repented of the evil that he had said that he would do unto them and he did not

What a wonderful example of repentence. What wise consideration they used as this given in the subject. Through humble and determined pleading God was moved to repentence. What a wonderful thing to know even though God may in his fierce anger, because of our wickedness threaten us with destruction, but as we see in the example of Nineveh, that we can so earnestly repent and turn from our wicked way and cry unto a merciful God with such might that God himself repents even though he promised to destroy us.

Here in the great city of Los Angeles, which is known far and near for her glory and grandeur, blessed with her delightful climate. Where the hand of God has designed a most beautiful garden. And because of the special blessings that the State of California is endowed with, it is very natural that her large cities especially, will be sought by people from all over the world. Therefore her gates are crowded with every kind and character and as the scripture teaches us that the imagination of man's heart is naturally evil. Therefore in great prosperity he gets beyond himself, and finally turns his blessing into a curse as previously explained. Los Angeles is a very prosperous city and so much so until it has forgotten God in a true sense. Because of her glory and grandeur and carefree attitude, her influence has invited the carefree, pleasure seeking and fortune hunting characters of people from the four parts of the globe. These carefree characters just mentioned, who seem to think only of self and ease, in their worldly pleasure lust, and mad rush for money have built up a stronghold of wickedness and so much so until the history of that great city of Nineveh is being repeated here in the great city of Los Angeles, for truely the wickedness of this people has come up before God. And as God visited that great city Nineveh in the person of his servant Jonah, with a dreadful overthrow if repentence and wickedness, likewise I come and in the name of Almighty God I set my hand to this task, hoping and praying that the people of this great city will take warning and follow the noble example of the people of that great city Nineveh. We must remember that God has no respect of persons, and as He saw their work of repentance and spared them, that they perished not, why should we not believe that he will do the same for us, if we repent as did the people of Nineveh. In the language of the subject we ask the question they did. Who can tell if God will turn and repent and turn away from his fierce anger that we perish not? My prayer is may God help us to turn from our evil way and from the violence in our hands and call mighty unto the Lord. That he may be so touched with our earnest endeavor, that the evil that he has said he would do unto us soon or late. We also hope that God will repent and do it not. For God has no pleasure in the destruction of the wicked, but we provoke him to do so even to his own hurt. Let us consider how our loved ones provoke us sometime. Very often those we love even dearer than we do our lives, provoke us to such a rage of anger, that we destroy them, and ever after repent, and so it is with God our Lord and our dear Saviour.

For he loves us dearer than is possible, for any two creatures of earth to love each other, therefore he is swift to mercy and slow to anger. O that we may realize that Jesus loves us and gave his life that we might live, and as a servant of God I plead with all to call mightily on his holy name. Though he withholds us for a time to try our faith and determination, yet not one ever called on him earnestly, faithfully and patiently, but what they received the blessings that come to the true and faithful. We do not believe that the Almighty and All Wise God of heaven seeks to destroy us in any way, but like every other being that loves, it is the ones that we love most that can provoke us the most. And isn't it very natural, because it is for those we have the care. We care what they do. We want to know of their whereabouts at all times. We want to know all and especially if we are true lovers, we want that true devotion that love owes love. And so it is the same with our Lord and Saviour, the supreme fountain of true love. Just think what a price he paid for those he loved. How can we think of Gethsemane's agony, and the cruel cross he bore to the summit of Calvary and there suffered the shameful agonies of death, nailed alive to the cross he bore, and shed his blood that we might live. When we remember this sacrifice we can't help but be sorry that we sin against such a one. O how terrible it must be to provoke such a love as this to anger. God help us to be sorry and turn from sin to thee. Let us take the timely warning and follow the example of the subject of this message.

Remember San Francisco and let her be our warning. Because San Francisco had her warnings before that great disaster just a few years ago. And I am told by eye-witnesses that many laughed to scorn those who gave the warning. We well know that Los Angeles or the entire State of California is not the only wicked place in the world, but because of the special blessings which it is endowed with, it is more responsible than the many other places that are less endowed. Traveling down the western border of this country from the North en route to a Garden of Eden so to speak, the very rocks cry out against us, if we refuse to see the glory of God in their many mysteries, for here and there the great monuments of rock just as God has placed them, seemingly stretch their lofty peaks in effort pointing upward, and in their silent way they tell us to look up to the God who exhibits the glorious wonders before our eyes. With such an experience on arriving in the great State of California and city of Los Angeles we should have no other resolution, but to help make it a Paradise or Eden instead of a Calvary or a place of skull. How shall we escape the wrath of God, if we blind our eyes with the vain glories of this world, and turn his Glory into shame. Stop and search thyself, O man, and with a dieing determination possess thy soul. In the name of Almighty God we propose that all the ministers and head official of this city take council together and proclaim from every pulpit and publish through every press this message to the people of this great city and if possible carry out the example of the noble repentance of the people of that great city Nineveh to the latter, and in conclusion we repeat that wise question of the subject. Who can tell if God will turn and repent and turn away from his fierce anger that we perish not?

And God saw their works that they turned from their evil that he had said that he would do unto them and he did it not.

W. D. ATKINSON.

GIVE CALL TO STOCKHOLDERS

THE MISSOURI GROUP MINING SELLING PROPERTY AND THE STOCKHOLDERS OF THE COMOBABI CONSOLIDATED MINES

I am here to get money to finish up the show up of our property to sell and I want all the co-owners, especially those not present at our meeting to try to see me before I return to the mines on or about the 17th of this month. I have only good news for you. Our delay has been unavoidable, but the compensation that has come to us thru this delay is overwhelming and doubles the safety of your investment—for besides the getting into the contact of the great vein system on our central showing we have cut large important veins in each of our three tunnels, and have had ore all the way down in our second shaft assaying as much as $100 a ton. The worst of all of our problems has been overcome and worked out and down to a practical basis. The only delay that can now occur is financial, but we have stopped the wheels by just recently discovering free gold or free milling gold ore, meaning gold decorated thru the vein rock in nuggets, wires and stains. We now have all of our forces concentrated on this free gold, and expect to make this discovery put our big selling property over by the small added assistance we get from you and your friends. It is this free gold discovery that I claim has compensated for all of our delays, because it is more than a local discovery of free gold in rock but it means to us that in a certain kind of rock in a certain geological period, with a certain third factor present, we can find free gold in any mining region, and especially this applies to our Comobabi property to make special effort to see me before I return to the mines, you can leave word at the following places for me to call on you or call you up—The Eagle Office, this New Age Office, Mrs. Hattie Baldwin, South 3210, Mrs. Conlonberry, Main 3200. Mr. James A. Warren is in charge of our affairs, and is our representative. Your last visit information and co-owner interests call call him up—Phone Main 1000.

S. W. MILLER,
Promoter of the Missouri Selling Property and President of the Comobabi Consolidated Mines Company.

Enforce the law—justice is cheap at any price.

Nations, no more than individuals, can long exist on pretense.

A man might as well lie to his wife, she won't believe him any way.

The best way to avoid evil is to be so busy doing good that evil finds no place of lodgement in your life.

A great deal of trouble in the world is caused from the spirit of meanness in the people. So we will do a great service to overcome that spirit as it is dangerous to the life of the divine soul and human goodness and its progress in peace of man's and woman's uplift.

In this age of progress, the people who go on before must bear the torchlight of intelligence must be abreast of every hour; must read between the lines.

A man who lives right and is right has more power in his silence than another has in his words. Character is like bells which ring out sweet music, and which, when touched, accidentally even, resound with sweet music.

President Harding on his Alaskan trip as well as on his way and returning is leaving no stone unturned to get the ears of the people. He is keyed up on all subjects and no President has ever made a greater effort to satisfy or appease than our very own President Harding. Be it known that this trip is wholly impersonal and void of politics absolutely so.

QUEER CAPERS THESE.

We have in the past seen real red-blooded men who would stand up for law and order on a principle but we have never before witnessed such a mad scramble of parasites, who are trying to stand against vice, until they can get in on the trimmings. We are informed at this time that strenuous efforts are being made to dethrone the present vice squad in order that a certain Central Avenue character with a record as a trimmer, extortionist and all around political hobo can hand-pick another squad who will do his bidding—what is the country coming to?

We have been watching with disgust the influx of foreigners who cannot speak a word of English, being brought to this country, given jobs in hotels, restaurants and even city construction and other positions, and not one Negro can secure one of these places. The labor personnel of the entire city of Los Angeles is drifting away from the Negro to the foreigner, with a few exceptions. The Negro has been grossly mistreated under present labor conditions. He is paying tax and assessments to keep up the expenses of the city and county and the only position he can hold is not worth mentioning. Give the Negro a square deal and help him to grow big and develop the powers within him of becoming a real red-blooded American citizen.

Now that school has closed, what are you going to do, Mr. Student, the remainder of the Summer months? Will you go back home and help your old father and mother to work, or will you be too proud to be seen working? The average boy, or girl pays but little respect to those who are laboring to make men and women of them. Some of them are ashamed of their parents after they return from college. God pity the boy or girl who so forget to honor their parents who are suffering death that their children can come up under better conditions than those they came through. Pay more attention to your parens and let them feel that you appreciate all the efforts they are putting forth for your welfare.

A QUESTION!

The Soaring Eagle in this situation of police activities begs leave to ask these questions:

Why is there such violent efforts made by the officers who are not on the Central Avenue Vice Squad to get on it?

Why is it that well known crooks are sent out with petitions asking withdrawal of present Vice Squad in order to put in one of their own choosing?

How long must the people of this community be browbeaten, exploited at hands of these trimmers and political rum dummies, who are playing to rake the chestnuts out of the fire at the expense of the people?

We know who Sampson is now and a viler crook never lived. We call on the Police Department to give us relief from the specie of vampire who sucks the life blood of the community and leaves turmoil and strife at every turn.

HARD KNOCKS.

Hard knocks never downed any man who had hard steel in him. They tend to spur on those who have a stiff backbone, and crush the ones who can't stick. "I can't stand Hard Knocks" are the worst of enemies, and in every conflict, "I Can't" always loses.

In the course of time nearly all of us run across a man who thinks he is better than his associates. When he meets new people he can't down that impression. In his every-day that one meets every day in this wide-awake age of enlightenment are the "common people."

The man who can't be natural, stay on earth and meet his fellow man on an equal basis, ought to learn how to be just an every-day American man; for he is missing one of the greatest pleasures in life.

THE NEGRO FRATERNITIES.

One of the greatest hindrances to the progress of the Black man's fraternal side of life is that they elect to membership some men and women whom they wouldn't have the nerve to invite into their homes and introduce to their families. There seems to be no standard to which one must reach in order to become a member. All one has to do is to have some pull and the price of admission and he can enter without question as to his character, or reputation in the community. The insurance features of the fraternities, some claim, make it difficult to weed out the applicants who may apply for membership; paying little attention to the social side of the order. The hurt comes when these questionable characters have to meet in social gatherings and mix with one another. Not only are the fraternal societies being threatened with questionable characters but they are making inroads into everything they can get into, and are bringing on a serious condition, that if let alone, will destroy what little respect we hold in the community. Let us be careful in electing people to membership in these orders if they are to serve the high place they have set forth to reach. Let the officers be men and women with spotless characters and not those who cannot stand up in the midst of present conditions without selling out their race and honor to those who are thriving and growing fat because these leaders double-cross us and tell all what happens in the society and the home. Not that we shouldn't help these who have fallen, but we must have some line of demarkation stretched between good and evil; and let none cross until they have been purged and cleansed of all sin and shame.

COLOR LEGISLATION.

Color legislation is responsible for a condition that does much to lower the standard of sexual morality and the home life of the nation. In all the Southern states are laws prohibiting whites marrying Negroes and yet every other person you meet has the Caucasian blood in their veins. The record shows eight out of twelve millions are mulattoes. There is no law in the South to protect the young Negro women, and even the married, against the wishes of these despoilers of outraged womanhood. She is inferior in the day and queen at night. The only time a Southerner will wake up, is when a Negro crosses his fireside and gives him a dose of his own medicine. There are enought Negroes in the South to wipe out, eternally, this stain upon their lives. It cannot be done in running, whining, or fighting single-handed, but by organization, by standing together—man for man—even until death, for rights this government has sworn to give to every citizen, regardless of color, or creed, or conditions of servitude. If the other races can burn, lynch, mob, and crucify the Black man for crimes some of them commit upon their own women, then why can't we do a little dieing for our own women, who stand pleading, begging and praying for protection against the human ingrates—these debasers of character—these one hundred percent Americans who preach race purity for themselves and race segregation, discrimination and hate for others. If we were together as the white man, peonage, the worse form of chattel slavery, would not exist, we would not have to run away from our farms, our homes and families because we resent the wrongs of our oppressors. Let the South make all the laws it wants to keep us in "our place," let it build mountains around its firesides to keep us out, but let us too do some building around our fireside and keep out these vultures of the night who are too proud to be seen in the day with us. Don't be too afraid of dying. You died like sheep to protect the white man—can't you do a little for your own race? You are going to be killed anyway—why not for a principle. Until the South changes its attitude toward the Black man; until her laws are written for him as well as his own; until the Negro woman is safe in any part of the South and this color prejudice is buried in oblivion, will there be a problem and a growing unrest between the two races.

SYSTEM YET NOT SYSTEM.

Since this editorial is written with one idea of aim, if you please, and is to throw whatever light within our power on the subject with the hope of benefitting some individual with whom we come in contact daily we deem it necessary to first of all give Mr. Webster's definition of the word, which is: SYSTEM—Method or order, regular or orderly arrangement of parts in a connected and interrelated series or whole; as, system lightens labor.

The man who creates or gives birth to ideas or in other words an organizer is not necessarily a good business manager. The systematic arrangement or manipulation of a business depends largely upon those employed, they either make or break the business. If a man does not put the best that he has in his job when he is working for the other fellow, he will never be able to put anything in anything for himself. The best training that one may get along the line of business efficiency is by taking pleasure in doing his best for the man, or woman for that matter, who employs him.

A False Conception

The average young Colored man is diseased with the idea that if he puts too much in the other man's business he will not have anything left for himself when he starts. As a rule this sort of thinking spells failure to begin with.

The young Colored man must realize that the Gold Age has passed. Truly there are acres of diamonds but they are at your feet if you would but stop and dig deep enough to unearth them. It is pitiful to hear the young man of today say that he has plenty of time to get his—plenty of time does not mean the number of years old that you are but the number of ways that you have conserved your strength, energy and the God-given qualities that go to make up a real man.

An humble beginning rightly interpreted spells a better foundation for a successful business career than the silver tongue proposition.

John D. Rockefeller's father was an herb doctor, and peddled his herbs through the rural district of New York State in a pack on his back. The present John D. came on the scene and picked up the herb trade where his father left off and by his consistency and sticking to business he sunk his pick below the herb family and oil sprung in his lap, and today this once humble herb peddler controls the oil industry of the world, and until a few years ago when Henry Ford came sizzling through in his "Tin Lizzy" was the richest man in the world. And now, "Youth," take a hint.

EDUCATION

Hundreds of young Negro boys and girls have graduated from the various schools, and our June periodicals have been lavish in giving praise to those who have gained scholastic honors.

The crop of graduates seems to be a promising one, and the Race should be benefitted greatly during the next decade.

There was a meeting in San Francisco, recently, and it brought together men and women from the nations of the earth. China, India, as well as the European countries met and conferred as to the best means of disseminating knowledge. University professors and the country "school marm" exchanged ideas. But after all was said the address which interested the most was one delivered by a modest little teacher from up the mountains, who said that "The foundation laid in the little 'Red School House' was after all the most useful for it lingered when the recollections of the higher institutions of learning had been forgot."

She was right: Think back, you old boys and girls, if it is not so.

There's a fuss over the originality of the design for the "Black Mammy" Statue, or monument. Sculptor Dunbar claims that another, P. Zolney, stole his idea of the tablet which he had moulded some 16 years previous.

The tablet depicts a 'Black Mammy' holding a white child in her arms, while the children of her own womb look pitifully up into her face and clamour for attention.

It would seem that any civilization would be ashamed to depict to the world that it had so submerged the natural affection of a mother as to cause her to become indifferent to the anguish of her own babes.

There seems to be a misunderstanding as to the official status of Napoleon Bonaparte Marshall, formerly of the law firm of Wheaton, Garrot and Marshall, New York.

The Negroes of the United States were led to believe that Marshall was to have a position of authority as a representative of the U. S. in Hayti.

Now it seems as if Marshall has the status of a clerk and therefore is not entitled to official recognition by the Haytian government.

Dunn, a hold-over in the diplomatic service from the Wilson regime, is the Charge de Affaires in Hayti and has recommended the recall of Marshall and that the position of CLERK be given to some man less prominent than Marshall.

Verily, the Harding administration has proven a fizzle where the Negro has been concerned.

We are waiting patiently to see the final results of the Tuskegee Hospital embroiglio.

WHERE DO WE GO FROM HERE?

Now that the echoes of commencement orations and salutations have died away, the admirable blush and seductive charm of the sweet graduates have faded and gone, we may lay aside exuberance, gaze through the mist and ascertain just where we are. Well would it be as a suitable aftermath if some bright scholar would take as his theme this spbject: "Where do we go from Here?" Last Friday evening as I sat with the Alumni group, gazing with childish glee upon a spectacle rich with color, enjoyable in setting and scheme, suddenly a thought crept over my mind and stole that overflow of enthusiasm I had experienced during the evening; my search for truth and wisdom had led me along these same avenues. I had reveled in this same atmosphere of triumph and victory; I had worn the cap and gown and hood twice and passed in silent review to take the highest our greatest university could give as hundreds applauded. That was not all, it was scarcely a beginning. I thought how painfully it dawned on me in my day and how soon would it reach the attention of my fellow students. There were certificates of merit, of scholarship and of efficiency rewarded but what do they amount to when there are no jobs, no landing in sight for those who launch forth. The greatest incentive for progress and triumph is an objective. We went to school because we felt that in the end we would be personally fit and our efforts and sacrifices would be amply rewarded with better positions and remunerations in life and now, at the end if we fail to accomplish this end there is personal discouragement and those in school are made the laughing stock of their uneducated compeers who stroll leisurely in handsome autos as we gaze wild-eyedly and wonder, "if it pays." It does pay, but it takes time to tell. The young graduate has spent out of money and funds. He faces a world, barren and cold, waiting for him to do almost the impossible in his particular line of endeavor before it notices him or becomes a patron at his shrine of endeavor. The youthful doctor is eyed with suspicion until he raises the dead; the young lawyer only gets a few notes and deeds until he snatches all of the crooks and bootleggers from the throes of legal procedure; the dentist must rejuvenate some elderly mamma and implant a set of sixteen year old teeth in her jaws fit and fine or he is not on to his business. This confronts the youth who raps patiently at the door of opportunity. However, there is hope and it is most favorably sustained because people—white and black—are realizing that young men are for counsel as well as for war. They are alert, active, aggressive and studious. They keep abreast of the times, and bring to everyone's attention all that is late and up-to-date.

"Fellow students, we are not thoroughly aware of our ultimate destination but we are game enough to set sail keeping in readiness to focus our attention on any spot which suggests a suitable landing. So on with the dance! Let joy be unconfined."

HELPING A DEAF CHILD TO HEAR

A deaf child is often more handicapped by its elders than by its sad and unfortunate visitation. Frequently those same parents could have prevented the loss of so valuable a sense. When "a mild attack of sore throat," running nose or a "slight cold" appeared, proper treatment by a throat specialist, with the subsequent removal of adenoids and tonsils responsible for the "colds," would very likely have warded off any such mischance as this of deafness.

However, the evil has been done and other things must now be carried out. It is worse than harmful to be downcast about it, because such melancholia reacts upon the child. Dumbness is by no means a concomitant of deafness. Indeed, it is sometimes initiated by parents, who cease their seemingly futile efforts to talk to the deaf youngster. The elders must talk to and with their deaf children.

Talk to Him

A deaf child is not different from children with good ears. He needs no more coddling than others. Indeed, the deaf child must be safeguarded from indifference, selfishness, impatience and irritability in the same punishable fashion as other children. A deaf child must not be spoiled because of the mishap. He or she must obey, work and play just as other children do.

Sounds affect hearing just as weights reach the earth. That is to say they appeal to the ear as the square of the distance. If you say "Johnny" in a certain tone of voice at six inches from a deaf child's ear, and repeat it in the same tone two inches from it, it will be twelve times as loud at two inches as at six.

Most healthy children from their birthday anniversary to the end of the second, learn rapidly to comprehend what they hear. Then they speak in sentences. Much of all they thus acquire is from their mother. If their mother is ungrammatical, slovenly of speech, or given to baby talk, the child, despite its later schooling and associations, will, as a man, carry its careless speech into many high places.

It is a grave error for parents to give up trying to speak to a deaf child. A deaf child should be spoken to, if possible even more than a child with normal hearing. Those around the deaf baby should speak more loudly as well as more distinctly, more carefully, more slowly and much nearer to the little one's ears.

Do Not Grimace.

But grown-ups should never exaggerate their speech or make grimaces and contortions when speaking to a deaf child. Instead of aiding the child these grimaces dampen its ardor, distract its attention and serve only to confuse it. Many parents thus innocently add to the deafness of their children by making them depend on reading their lips.

Contortions, grimaces, exaggerated facial movements, gesticulations defeat the very purpose intended—the strengthening of the acuteness of audition. When the eyes or gaze of a deaf child is fixed on the mother's face it is beseeching her to speak to him. According to Mr. John Dutton Wright, founder and principal of the Wright Oral School for the Deaf, the habit of the deaf infant looking at the face of the speaker, and the habit of the mother to observe his gaze, and when it wanders, to pause in her talk until he looks at her again, are two very valuable aids with which to develop the deaf child.

The mother should also sing to the little one often whil ein her lap with her mouth close to his ear. On her lap, too, she is able to speak directly and distinctly into his ear. She must never use baby talk, nor such words as "ain't got." Furthermore, she should be careful never to use incorrect pronunciation. Let the mother talk closely, clearly and lovingly of daddy, pussy, doggie, birds, toes, brothers, sisters, flowers, trees and Mother Goose rhymes, just as she would to the other babies.

QUES. My little son, 3½ years old, has had a cold for one month, and it has left him with a severe cough. I have had two doctors, but they have not helped him. What do you advise?—J. L. J.

ANS. Have the adenoids and tonsils looked after, and if there is the slightest sign of ear trouble, consult an aural specialist. You have changed doctors too often. Stick to one for some time, and do not be too hasty. There may be catarrhal infection of the respiratory tract, and if so it requires time and persistent care before health will be restored.

QUES. Kindly advise how to remove callous spices from the feet.—T. R.

ANS. After the feet have been soaked well in soap and hot water each night, put a few drops of the following:

Extract Cascara Sagrada ..... 5 Drops
Salicylic Acid ..... 1 Dram
Bicarbonate of Soda ..... 15 Grains
Collodion ..... 1 Ounce

TEACHER, PUPIL, PARENT

Clayborne D. Cookrey

The average pupil of today is only successful by co-operation with the parent. If for instance a child has an appreciable amount of talent for music and before he or she starts studying, they build beautiful castles in the air of being a great pianist because of having seen some good performer on the instrument namely the piano.

So far, so good, the teacher arrives to begin the first lesson. In the mean time the castles are still standing in the air and as the pupil advances they begin to notice that each lesson is slightly more difficult. The castle is wobbling on its foundation. After a while as the teacher continues to hear the recitations, he notices there is not as much interest or enthusiasm as at first. By and by the lessons begin to be poorly studied or practiced as is verified by the recitations.

What is the trouble, Mary? Oh, I don't believe I want to take music, mother! Why, my dear? It is too hard. At this point the "Air Castles" are demolished.

Now if the parent is a quick witted one they will at once take steps to locate the difficulty. Also to judge whether the pupil is really talented enough to encourage further study on the instrument.

At any rate when this occurs, the teacher should confer with the parent. Now, talent can't always be detected especially in small children. But after consultation the pupil is found eligible for further study, the child should be compelled to study. In many cases good musicians may be produced by forcing a child to develop that God-given talent.

Just a word about that great master—Beethoven—Is said that his father, early recognizing that little Ludwig possessed unusual musical ability, with shrewd intent of developing a musical prodigy he kept him, often weeping, to his practice.

There should be a regular practice period, the same as the regular meal time. It should also be a serious concentrated practice in order to become proficient. A pupil, whether he or she is a genius, talented, the average or dull require practice. The same result may not be realized in each case but the same means must be adopted.

Playmates should not be allowed to interfere with the regular practice hour if lessons are to be learned.

Moreover there are parents that want the child to learn in an awful haste for the sole purpose of "showing off" for friend and acquaintances. Some go so far as to ask the teacher how long do you guarantee to have the pupil "playing the piano."

This undue haste and "showing off" is very detrimental to the child because if it falls—breaks down—it is something the child never gets over. Cases of this kind are very bad as it is detrimental to the quality of good music development. If the pupil succeeds in a premature performance and is praised, and perhaps petted he becomes spoiled. Parents of pupils and also the musically untutored can derive much benefit by attending all concerts and recitals, it also shows a sign of interest in music.

Wm. Wrigley Gives Big Job To Colored Man. Rodney.W.eerson Whole Works at St. Catherine on Chewing Gum Magnate's Catalina Island. Highest Paid Chef in U. S.

THE WIZARD OF THE ST. CATHERINE ON THE SANTA CATALINA ISLAND

The first and only bona fide interview with America's foremost Chef, Rodney W. Jefferson, the originator of the "endless chain" and "food that tastes like mother used to make", bringing tens of thousands back again every year to Wm. Wrigley's Magis-Isle.

By Edgar G. Brown

CHEF RODNEY JEFFERSON, ST. CATHERINE HOTEL, CATALINA ISLAND, AND HIS STAFF. NOTE THE GREATER NUMBER OF COLORED AMONG THE HIGH PAID MEMBERS OF THE ORGANIZATION.

Last Spring Mr. W. H. Stanley, Secretary and General Manager of the great Wm. Wrigley, Jr., Company, manufacturers of chewing gum, the flavor of which has lasted so well that most of the competition has just forgotten to exist, donated a handsome sum towards the success of a new Boys' Club in Chicago, saying at the time that he wished to give more colored lads a chance to make good in a big way like Mr. Wrigley's remarkable Chef, Rodney W. Jefferson, out at Catalina.

At the time, we were so impressed in helping the boys we did not stop to investigate just how big an opportunity this organiation had given a colored man. But this year, when we got ready for our yearly donation, Mr. Stanley introduced to us, Mr. Wrigley and then we took advantage of the occasion to ask him personally about this colored man out on Catalina Island in thePacific Ocean! The Hon. Mm. Wrigley, Jr., owner and founder of the most unique business in the world, selling only one product—chewing gum—and that confined to three generally advertised brands until his son, Philip K. Wrigley, another booster for colored Boys' Clubs, added the now fast selling "P.K's", talked fully an hour about Chef Jefferson and his remarkable achievements at Hotel St. Catherine on Catalina Island. To sum up, he just gave up trying to tell the whole story and threw up his hands saying, "Well, Jeff is the whole works out there".

So your humble servant, always alert for a big story, and knowing the sincere effort on the part of our leading publishers for information as to the success of colored men when given an opportunity by big hearted and true blue white men, started for Wrigley's Santa Catalina Island in the Pacific Ocean via Los Angeles, California.

CATALINA ISLAND

"In all the world, no trip like this"; courtesy, kindly attention and every employee from the highest to the lowest, a genuine representative of Mr. Wm. Wrigley, Jr., the host of every visitor to the island. From the moment you leave the ticket office at Los Angeles, where Mr. J. N. Stewart, Vice President and Traffic Manager, gets you started pleasantly on the first lap of your journey, which is made on the limited electric service to Catalina Terminal, Wilmington, Catalina, a suburb of the city proper, where Mr. D. P. Fleming, Secretary of the Terminal Company introduced us to Mr. Harry S. Allen, "the personal escort,, who used his good offices in securing a seat for us on the upper deck with the Captain of the ship, wh ogives us the benefit of his long seafaring experiences as he heads for the island, through the Pacific fleet of battleships of the United States Navy, including the largest and the fastest. This sight alone is incomparable; it is worth a life time, as it truly opens up a new world to the islander from back East.

Then, Mr. Fred Braxton, the colored steward on the Pacific Coast and the Senior of the Wrigley Crew, comes and tucks a blanket about your feet to protect you from the winds of the open sea. Mr. Braxton also advises that the Vice President, Mr. Stewart, has ordered that a stateroom and every convenience be prepared for our party.

Now, yo uhave left the land behnid, and as the good ship "Avalon" speeds along at about 18 miles an hour (fifteen knots is the language of the sailor), in every direction you gaze only on the deep, sapphire blue of the smooth waters of the Pacific Ocean; this expanse seems to end only where the sky meets the sea.

In turn, as the first mate, then the second mate, took the place of the Captain, we learned more and more about wonderful Catalina Island; and as we neared her shores after traveling about thirty miles, we were awe-stricken by the great mountains of rocks extending out of the sea nearly 10,000 feet into the heavens. The first discernible object was the modern white castle of Mr. Wm. Wrigley, Jr., overlooking the arbor and city of Avalon. It stood as a beacon light on one of the highest peaks. This beautiful mansion of a hundred rooms glistened in the sunlight, as the brilliant diamond, set off, as it were, by myriad flowers, like the smaller gems of the ring, and completely enveloped with the marvelous background of nature created by God's own handiwork.

On nearer sight, we saw nestled at the foot of the mountains, at the very water'sedge, the beautiful St. Catherine Hotel, made famous the world over by Chef Jefferson's "endless chain" and "food that tastes like Mother used to make". Now the ship goes around Sugar Loaf, a giant rock blasted from the mainland in order to make a passageway to St. Catherine. We are about to land on the enchanted island.

Our welcome to Avalon, the only city on Santa Catalina Island, was no less cordial than our treatment by Mr. Fleming on the mainland. Again, Mr. Allen escorted us ashore where he introduced us to Mr. D. M. Renton, Vice President and General Manager of the Island. In his car we sped to the St. Catherine Hotel, where he introduced us to Chef Rodney W. Jefferson, as the man who, backed up by Mr. Wrigley, the king pin of the whole organization, as Mr. Stewart remarked, had given the St. Catherine Hotel the right to preface the Catalina slogan with 'The cook, the cook, 'In all the world no trip like this' ". Mr. Renton added, "Mr. Wrigley often repeats the old adage in accounting for the world wide fame of this island from practical obscurity only five years ago, 'The way to a man's heart is through his stomach'. Jeff's meals have made this spot a wonderful summer and winter resort, the year around mecca for the homesick traveller." Mr. Stewart, the Traffic Manager and Vice President, confided that Chef Jefferson was the Czar of this realm. Mr. Renton, the General Manager, became reminiscent. "Jeff sits here at his desk, or walks up and down this line, putting a plate here on the waitress' tray, or advising a cook, never a word, always quiet and just like clock-work if there are 100 or 1000 in the dining room. He is a general, an organizer, thorough and almost uncanny in his knowledge and versatility. Like the message I heard over the radio the other night; The lecturer said, only a very small percent, between 10 and 20%, I believe it was, of the human race, thinks. Well, Mr. Jefferson is in that minority class of thinkers. I suppose he is one of the highest paid chefs in the United States. Last year we gave him a $1,000 bonus when he went on his vacation for thirty days. You see he is a good, clean, moral man himself, annd the organization knows it. He keeps his own counsel and understands his place; he does not associate or mingle with the other employees either on or off duty; he does not permit visiting and talking between the cooks and waitresses, and consequently, the work always functions harmoniously. He is strictly business and we notice the difference when he is away on his vacation."

MR. FRED BRAXTON AND MR. CHARLES WICKS
The Only Colored Chief Stewards on Private Ships in the Pacific Ocean. Assistant Stewards: Chas. C. Brantley; D. D. McNeeley; L. McNeeley; W. B. Triffe; Leonard Duncan; I. Murray, Jr.; James Jackson; Fred Young.

These lines crossed my mind, as I gazed from Jefferson's desk down the length of that kitchen: "Far from the maddening crowd's ignoble strife." There was White and Black, Mexican and Jap, Jew and Gentile, Catholic and Protestant, all working to please the visitors to Catalina Island. Some in authority and high place were white, some were black, some were Catholics, some were Protestants, some were Jews, some were Mexicans, some were Japs, but all working peacefully and neighborly one with the other, each recognizing the other's position, be it great and mighty or low and humble: working harmoniously, not alone for self, but learning how to better serve their fellow man. This wonderful and extraordinary fellowship and appreciation, one for another, knowing no creed, this institution that recognizes men and their capacity did not just happen.

There is a master mind back of it all; there is a real white man at the helm, with a soul divine in its dimensions and a heart that beats like that of the martyred Lincoln, with no less noble purpose, inspiring all, touching all, and permeating all with the same lofty ideals. The Hon. Wm. Wrigley, Jr., is that extraordinary genius. He owns and directs Catalina through Mr. J. H. Patrick, President of the organization of this magic isle.

What a good old world it would be if all of us could pray each night and day that simple prayer that we might always have that humble spirit which also was in Christ Jseus.

JEFF STARTS PHILOSOPHIZING

"There is only one class of people that I cater to", said Mr. Rodney W. Jefferson, the premier colored Chef of America, "and those are the little children who cannot tell you what they want. I make a specialty of taking care of them, either at night or in the day. The further you go into cooking, the more you realize you do not know", continued Chef Jefferson, pointing to his library of over 1200 books. "In an entire lifetime, no man could ever hope to learn it."

What the country demands is young men who are ambitious and have a little brain," added our host. "I have had to sacrifice a lot of pleasure and I am just getting started, I never had time to attend dances or social functions. But I believe in the law of compensation, and I am still studying until 12 and 1 A.M. nightly. I am working now to make line men and practical young men who us escience instead of brute force, so that they can carry on and bolster up the rather impaired traditional reputation reputation of colored cooks. The cook of 25 years ago is a back number today. My teacher, Mr. Taylr Jrdan, f Cincinnati, in the 80's was one of the best all around men in his day.

"Cooking in 1923 is more than the preparation of food—it is a system", continued the little man, known as the Wizard of the St. Catherine, as he looked up from his desk, and, looking down the line of twenty men, he called to his broiler, that the fowl should be taken from the fire. It is common knowledge around Catalina Island that Chef Jefferson's sense of smell is even greter than his keen observation and uncanny perception of detail.

There is no place in the world, according to the best authorities, that has come nearer the absolute ideal of the modern evolution of the culinary art, than the St. Catherine on Catalina Island. This present day criterion, which is none other than that summed up by the familiar boost, "It isn't like Mother's cooking!" has been realised by Chef Jefferson with his system, known far and wide as the "endless chain", which gives home cooked meals, the very best quality and the most palatable the year around, at one half the cost anywhere else for half the satisfaction to 2000 guests a day from every clime.

THE CHEF'S HISTORY

If we can be permitted to depart for a moment from the philosophy of cooking established by this extraordinary colored man, let us note the early beginning of Rodney W. Jefferson, colored chief at the St. Catherinne Hotel of Mr. Wm. Wrigley, Jr., on Catalina Island.

He was born in Middleport, Ohio, in 1867. He has two brothers; one, W. V. Jefferson, an Attorney in the Sanitary District of Chicago; and the other one is the Foreman of the Construction work on the beautiful, palatial home of Secretary Mellon in Pittsburgh.

His first experience as Chef was obtained at the Griffin House in Detroit. "Here, at the feet of Captain Griffin, I learned in the early morning hours the fundamental principle of how to run a house, treating friend and foe alike", Chef Jefferson mused, as he puffed his cigar. "He was an Irishman, but one of the whitest men I ever worked for. He was exacting, but he was clean cut and a square man. He is one of the very best friends I have today".

From Detroit, Chef Jefferson went to the famous Beaumont House at Green Bay, Wisconsin. Then he took charge of the kitchen of the Pioneer Limited from Chicago to St. Paul and Minneapolis, serving with Dan Healy, the greatest dining car man since the advent of railroad service. Later, he came West with the Pacific Railroad. Here he was "discovered" by Clyde Opelt, and with him,after the purchase of Catalina Island by the world famous merchant, Wm. Wrigley, Jr., of Chicago, came out in the sea and put the St. Catherine, Catalina Island Hotel, on the map of every country, in five years, as the one spot in all the world where the traveller could enjoy real Southern Cooking, or the favorite dish of his own country, which Chef Jefferson knows better than the native cook, if we read aright the thousands of testimonials from foreigners who have dined at Catalina Island, now the greatest summer and winter resort in the world.

THE ENDLESS CHAIN

I followed Chef Jefferson around for three days and sat up with him until early morning hours, as he expounded the intricacies of refrigeration, the essence of how to handle and preserve the food after your protective boys it, about his years on travel with Fred Gibson, the great authority on mushrooms, and his labyrinth of knowledge covering the evolution of modern coking back to where it started, which gives the food its natural flavor, or, as some would say, the idea is to approximate "Mother's Cooking" and still satisfy thousands at one meal instead of five or six.

The following description written by Mrs. Overholt, an authoress of national reputation for the 1921 October number of the Los Angeles magazine, the Arrowhead, tells better of Chef Jefferson's idea of an "endless chain" where all the food comes from Catalina Island and then is scientifically preserved and prepared in the $100, 000 annex and kitchen equipment of the St. Catherine Hotel. In 1921, when the following article was written, there were four large ice boxes; today, there are eight, and Chef Jefferson says, "I am going to ask Mr. Wrigley for $6,000 more worth of refrigeration". It is our guess that he will get it.

"In the stories of Arabian Nights, or the intriguing tales of the Black Forest, we read of the sovereign and all powerful kings who gave half a kingdom for the possession of the finest cook; of wars that were fought because of wagers lost on the ability of a favorite chef to prepare a rare and savory dish—and oftenest of the cook, who lost his head, via the chopping block. This in the pages of history too—but no cook of myth or history had a task greater than the one managed by daily and with perfect ease by Rodney Jefferson and his sixty assistants at the Hotel St. Catherine at Catalina. a-a ydkyb kofthet hdnrm .oCMo duu

"To cook for a King and his guests was a small feat as compared to overseeing the preparation of a seven-course dinner for one thousand guests at a single meal, and that is the rule for each luncheon and dinner at the Hotel St. Catherine with breakfast guests only diminished in number by the early risers who go on fishing expeditions at dawn and take their "snack" with them—and a substantial one it is—all prepared by the chef before they start.

"The domain of this king of the kitchen of the present day is filled with romance in itself, so let us take a peep at its wonders. The first impression we get on entering the huge kitchen of the Hotel St. Catherine is that of immaculate cleanliness. Long wooded tables scrubbed until they gleam in their whiteness; rows upon rows of glistening aluminum pots, shining copper cauldrons; and just as clean looking in their white uniforms and caps, the sixty assistants of Rodney Jefferson, each at his appointed task, quietly and skillfully carrying out the instructions of his

"The Hotel St. Catherine, with its thousand guests to serve at one meal, must keep a huge store. In hotels of big cities the wholesale markets are close at hand. Catalina is cut off from these supplies by sea and must depend on shipments brought in by steamer and the products of Middle Ranch—a farm situated in the interior of the Island where live stock, vegetables and fruit of the finest quality are raised exclusively for the consumption of Hotel St. Catherine.

"Potatoes are brought in from Middle Ranch by the truck loads—from ten to twenty a day—and stored in special vegetable vaults kept at a temperature of 42 degrees, several truck loads of green vegetables in season, beans, peas, carrots, squash, cabbage, and cauliflower—both the later growing to enormous size on the ranch—water cress, endive, celery, lettuce, radishes and herbs, huge pumpkins, and then the wonderful fruits—all grown without irrigation on a fertile plot of ground in the mountain fastnesses of the island. Berries, apricots, peaches ,pears and apples, plums and figs of such size and flavor that the choicest fruits of the city markets pale into insignificance. It is a scientific fact that the wild flora and growth of Catalina Island is different from any found on the mainland in size nd splendor of coloring.So it is with domestic vegetation. The honey dew melons and watermelons of Middle Ranch are of a sweetness and flavor unexcelled anywhere else in the country—Rodney Jefferson, the colored King of Cofe from Dixieand must know.

"So we have the huge vegetable refrigerating room in the kitchen of the Hotel St. Catherine which opens another pantry where the paring and cleaning are done. Here is an electric potatoe peeler into which an entire sack of potatoes is emptied at once. They are whirled around and around against corrugated iron sides and constantly washed with fresh water flowing into the peeler.

"Then we must look at the butcher shop—an entire institution of itself. A meat vault, kept at 35 to 31 degrees, holds some twenty dressed steers, 60 lambs, as many hogs and suckling pigs, all brought in from Middle Ranch. A butcher is in charge of the meats and skillfully carves the cuts wanted by the chef. Then comes the poultry vault. Here are several hundred fat dressed hens, for chicken gumbo, a hundred and fifty ducks, a hundred turkeys and six to seven hundred squabs. Three to four hundred of the latter are frequently needed for one meal alone. All are carefully cleaned and packed on ice daily.

PHILLIPS CHAPEL C.M.E. CHURCH
Hamsecur Ave., Watts, Calif.

Our services on Sunday were well attended. Sunday School was interesting and profitable. The pastor preached at the morning hour, to a splendid audience, and also at the evening hour. In the afternoon the pastor preached at the Baptist Church, Rev. Flemming, pastor.

Rev. Butler, the presiding elder, will be with us on next Sunday, and will preach at the eleven o'clock hour. Rev. Underwood, of Los Angeles, will preach at three o'clock, and his choir will make the music for the occasion. All are cordially invited to be present. The Quarterly Conference will be held on Monday night he 24h.

WARD CHAPEL A.M.E. CHURCH
1252 Eas 25th St.
Rev. B. R. Guy, Pastor

The Sunday School at thi sChurch elected its officers and teachers for the ensuing year. At the morning service the pastor spoke from the text, "Loose him, and let him go"". A splendid mixed audience gave earnest attention and three persons came forward and joined he church, and one young man knelt at the altar for prayer, truly convicted. Both endeavors had good lessons and attendance. At night the pastor spoke from the text, "There shall be no night there". The audience was very attentive and one person came forward and united with the church. We thank the Lord for His great work in this part of the city. Next Sunday will be Trustee Day. Every person please bring 50 cents or more for the trustee work. Our Quarterly Conference is set for Dec. 30th. Quarterly Conference on 31st. FoHowed with Watch Meeting Services. You are invited.

TRINITY BAPTIST CHURCH
West 36th St. and Normandie Ave.
Rev. J. A. H. Eldridge, Pastor

Our Sunday School was up to the standard, and the lesson was taught with power. A powerful sermon was profduced by our pastor at 11 o'clock on "Witness for Jesus". His text was found Acts 1:8., "And ye shall be my witnesses unto me both in Jerusalem and all Judea and Samaria and unto the uttermost part of the earth". Our B.T.P.U. is still making wonderful progress. Children living in this vicinity will be greatly benefited by attending this union. Rev. Walker filled the pulpit at 7:30. His text was found John 8:12. His subject was "Jesus the light of the world." It was inspiring and helpful. Come and worship with us and we will do thee good. A welcome for all.

BIRCH STREET CHRISTIAN CHURCH
Cor. 14th and Birch Streets.
Rev. A. W. Jacobs, Pastor

Services last Lord's day were very good. A wonderful spirit of interest and fellowship existed throughout the entire day. Bible Ssbool was well attended. Regular preaching services a 11 a.m., brought a message from II Cor. 2:5, in which the power of imagination was shown. Y.P.S.C.E. was good. At 8:00 p.m. Rev. W. P. Banks gave a wonderful sermon from Matt. 5:13, "Ye are the salt of the earth". The past week brought some very interesting events one of which was the surprise party led by Sistor W. J. Thompson. On Tuesday evening a number of sisters and brethren called at the home of the pastor and rendered a lovely program, with tea, and gave a handsome silver offering to the little son who is the youngest member of the Birch Street Christian Church. Next Tuesday morning at 5 a.m. the membership with friends are esked to meet for early prayer services. Don't miss it. Start the Christmas day as he would have started it. Also the Christmas program Sunday evening, Dec. 23, at 7 p.m. Everybody is welcome, Come. Wishing you a Merry Christmas and Happy New Year.

CHRISTIAN CHURCH
33rd and Hooper Ave.
M. Frederick Mitchell; Pastor

Good and wholesome services last Sunday. The pastor filled the pulpit both morning and evening. Four to take membership Sunday morning. Lively Sunday School with Prof. T. S. Anderson as Supt. The Young People's meeting at 6:45 p.m. reached a high water mark in attendance and interest in general. A large group of young people of the community of the church was present and took active part on the program. The evening's service was enhanced with the presence of a goodly number of new faces. Every department of the church is growing. Next Sunday a hearty welcome awaits all who will come.

NEW HOPE BAPTIST CSHUCH
1623 Paloma St.
Rev. A. Lively, Pastor

A real treat was missed by those who failed to attend services, Sunday, December 16. The sermons were excellent, and each carried a wonderful lesson. The soloists were, Miss Lane and Mrs. E. Washington. Sunday, December 23rd, is the anniversary of our pastor, Rev. Lively, who has ably filed our pulpit for the past eight years. Much credit and praise is due Rev. Lively for the success that New Hope has made. And the great secret of that success is that Rev. Lively is a leader by example, from a moral standpoint, and from a religious standpoint. To celebrate the occasion services will be held at 3:30 Sunday afternoon, at which time Rev. J. P. Gordon, pastor of Tabernacle Baptist Church will preach. An interesting program has been arranged in connection, by the Junior Missionary Society, including numbers by the New Hope choir. On Monday night, December 24th, the Christmas tree will be given for the children under the auspices of the B. Y. P. U and Sunday School. The presidents, Mrs. Washington and Mr. Boles are sparing neither pains nor finances in order that every child's heart will be made glad.

And then on Christmas morning at tata entitled "The Christmas Adora- 5 o'clock, the greatly anticipated cantion", by Carrie Adams, will be rendered by the choir.

Promptly at 5 o'clock the herald angels will blow their trumpets proclaiming the birth of Christ followed by the processional. A cordial welcome is extended to everyone to attend this wonderful musical program.

MT. ZION BAPTIST CHURCH
50th and Hooper Ave -
Rev. Archie J. Williams, Act. Pastor

Sunday was another good day with us at Mt. Zion. We were pleased to have so many visitors with us at both the morning and evening services.

The pastor spoke at both services. At the morning service the subject was: "Faith and Acceptance", the subject at the evening service was: "God's Wonderful Love For Man".

Next Sunday the pastor will speak at both services.

All are welcome.

HAS LOS ANGELES AN INDUSTRIAL FOUNDATION?

Is Los Angeles established on a firm industrial foundation?

While occasionally some visitor will come to the wrong conclusion after spending a very brief period here, the person who digs into the facts and figures is due for an agreeable surprise.

For example, it will be found that the annual output of the Los Angeles industries is now conservatively estimated as being betwen $1,000,000,000 and $1,100,000,000 while some even see the possibility of the 1923 figures going as high as $2,500,000,000 for the metropolitan area. This city now stands eighth, and possibly seventh, in the country as a manufacturing center.

These figures are interesting when it is noted that the annual production for 1922 was $959,806,503, while for 1921 the figures stood at $800,926,641 and in 1920 $788,652,885.

The population of Los Angeles is now conservatively placed at 1,000,000.

At a recent luncheon of the Los Angeles Chamber of Commerce, celebrating the passing of the million mark, it was shown that statisticians of the Los Angeles R. R. return a population of 1,023,000. The gas companies report a population of 1,032, 212. Figured on the basis of school attendance, with a gain of 85 per cent since 1920, a population of 1,002, 835 is shown. If the population figures are based on building activity or building permit, 100,792 new families have been housed since 1920, and with 4.3 persons per family the answer is a population of 1,014,210.

From the above figures it can easily be seen that there is a healthy condition here as far as population growth is concerned. But of the 1,600,000 tourists and visitors that have been coming here during 1923, one out of every 10 has decided to stay. At that rate Los Angeles is growing at the rate of 160,000 yearly.

The Los Angeles Clamber of Commerce has recognized the need for industries to take care of the workers that are constantly arriving in the city.

If the present industrial growth continues until the first of the year, there should be no les than 4750 industries here, of which 550 will have been secued during the present year.. It will be seen that with the securing of 550 new industries, the industrial campaign of the Los Angeles Chamber of Commerce has taken hold and started the ball rolling.

From a banking standpoint, Los Angeles is in a healthy condition. Clearing figures for November show that for the 11 months of the present year the figures show a gain of $1,748,292,2445. For the month of November of last year of $148,849,332.

The 11 month total this year stood at $6,384,302,394, against $4,636,010,149 for the same period last year. This tremendous gain is even more remarkable when it is considered that for the entire year of 1922 clearing figures stood at $5,152,311,839, while ten years previous, in 1912, they amounted to but $1,168,941,800 or less than the gain this year over last year.

A report recently released by Collector of Internal Revenue Rex Goodcell shows that California corporations reported more gross income for the business year 1921 than the combined gross returned by the corporations of 16 big western states. The report further shows that more income tax was paid by California corparotions than the combined tax paid by similar business concerns in 16 Western states, with Delaware, Iowa, Vermont, New Hampshire and Hawaii added.

It is shown that for one year California corporations reported gross income of $3,544,932,721, which exceeded the combined gross income returned by Arizona, Alaska, Arkansas Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Utah, Washington and Wyoming.

During the first six monthe of 1923 there passed through the Panama Canal a total of 5,6444,837 tons of intercostal commerce of which the port of Los Angeles alone originated or received 3,727,340 tons, or more than 66 per cent.

The above figures were set forth in the compilation of intercoastal traffic for the first half of 1923 by the United States Shipping Board, which is keping track of the intercoastal tonnage of every port in America.

It is also interesting to note that along with the rapid building activity of the city that forest products received at Los Angeles Harbor for the first six months of 1923 totaled 739,281,216 board feet. This was almost twice as much as for the same period of 1922.

The facts that have ben given here do not by any means cover the many remarkable gains that have been made by Los Angeles. In every line of endeavor substantial gains have ben made during 1923. Business leaders see no reason why new records should not continue to pile up during 1924. Some assert that nothing can stand in the way of Los Angeles' growth if the subject of ballanced prosperity continues to occupy the attention of the industrial leaders.

WHAT OF CONDITIONS ON CENTRAL AVE.?

Central Avenue has been commented upon favorably and unfavorably perhaps more than any other street in the past several months. But after all we know of no business in the city whose moral status, all things considered, is any better, nor where business, proportionally speaking, has increased any more in volume, or a greater bit of sectional pride displayed by those in legitimate business than on Central Avenue.

One hears of the expression, Greater Pico, Greater Broadway, Greater Western Avenue, but take it from one who knows, none is destined to become greater than Central Avenue.

CITIES, LIKE INDIVIDUALS, HAVE HEARTS AND THIS IS THE FINANCIAL HEART OF LOS ANGELES

WHAT BUSINESS MEN HAVE HAD TO DO

The biggest fight on the Avenue has been by business interests to help protect and retain the decent name in the interest of all concerned, and the city of Los Angeles in particular, against a very unfavorably high handed, cowardly attack by one or two of the uptown dealers, who, every time their reporters hear of a Jew and a Gentile, a Jap and a Greek, or a Black and White American attempting to aimiably settle some small unpleasant differences, put out in great glaring head lines, RACE RIOT, and then proceed to tell a tale of lies that would shame the very innmates of hell.

NOT IMMUNE

Pico, Western Avenue, Spring or Broadway, great as they claim to be, are not immune by far from such trifle incidents that these dailies make capital out of to gain a few extra pennies and nickels, at the expense of a group already saddled with hardships and problems.

BOOT LEG AND ASSIGNATION HOUSES

The records of the police department will not substantiate the purported accusations flung broadcast by this same channel of information that Central Avenue, and its neighborhood tributary is the only location where boot legging, houses of ill repute, dope and narcotics are to be found, and indulged in from a busness stand point. Indeed we emphatically deny that they do exist, and if they do it is only in equal proportion with other thoroughfares. and neighborhoods.

With the last ninety daye the neighborhood of Western Avenue has been highly excited at the police discovery, thanks to Chief Vollmer who has been crushing crime violators, matters not what the neighborhood, of two of the most modern equqipped boot leg distilleries turning out a fiflu-id that robs the undertakers of the necessity of embalming the victim.

THE TROUBLE

Crime is the arch enemy of every decent, respectable person in our city, and Centra l Avenue and vicinity enjoys its share of respectable representatives. The price paid in advertisement to the dailies for ads in their papers by big influential business interests, so powerful that some newspapers must do their bidding, and that lack of advertisement support given our own papers spells the difference between what we receive inversed and adverse comment. Every time there is a wedding, dinner party, or dance, some of us interested in the affair are johnny on the spot to have it favorably commented upon. Every time trouble, or reported trouble breaks out, the officers of the Central Avenue publications are crowded with dozens wishing to break into print.

A SUGGESTION

Suppose, just suppose that you and I, who are in business and do not advertise, joined the volume of those who do contribute toward supporting our Central publications, not out of sympathy for them, but because it is a business proposition, would bring you mere customers, consequently larger profits, and too, strengthen the hand of your public spokesman, friends, the only channel you have through which your interests may be looked after and protected.

I say the only channels through which your interests may be looked after and protected, and if you don't believ e it,take an article to the majority of your uptown dailies for publication and see what happens to it. Why because, you Mr. Business Man, great race man, in fact, when it costs nothing, are 100 per cent race man and American citizen, do not contribute ta that daily's upkeep and support. We'll agree with you that one individual or a group advertising in the columns of these dailies could not make them our spokesmen, but must acknowledge it would bring some consideration and create better feelings.

Just suppose you who want more business, and those individuals who have money and means, and we have a bunch, had the cataracts cut from their eyes that they might see and visualize results to be gained.

The controversy between Bullocks and a large daily and which ultimately cost the latter a few hundred thousand a couple of years ago, is an example of what failure to advertise cost them in publicity. While the controversy was supposed to be in the interest of the city's property, rights, that prved to be only camofiage, and that is why we citizens, and the good name of Central Avenue are constantly being assailed.

Commencing with today, not tomorrow, not Jan. 1st, but today, get busy start a propaganda by supporting our Central Avenue publications and in particular the California Eagle, that along with one of its contemporaries has born the brunt of maintaining the high standard equilibrium forall citizens irrespective of race, creed, or groups.

There is nothing unusual the matter with Central Avenue, only it needs your sincere and hearty support.

REALTORS AND REAL ESTATE

By William H. Gamble

I have had several men and women to come to me during the year and ask me what they should do to obtain Real Estate License, as they were desirous of entering the Real Estate business. Most of them seemed to have thought that Real Estate Licenses were all that was necessary to make them fully competent, capable and trustworthy for the public to place their life's savings in their hands; and just as soon as the license were granted, they would be,

WM. GAMBLE

then and there, able to direct investments; make appraisals, draw all kinds of legal documents., advise which is better for their clients. Trust Deed or Contract, and protect their client from falling into the many traps set by dishonest and unscrupulous persons who are out to get any one in any and all kinds of ways.

To them I endeavor to point out the great responsibilities and obligations of a realtor. The realtor is second only to a Medical Specialist in importance to the human family. Health and wealth go hand in hand. When a person's life os at hazard, or when he is dangerously ill, the best physician is called, not because he is licensed to practice, but because of his known ability, because of his experience inthe great field of Medical Science, and because of his trustworthiness. The physician is called to aid the patient or client on to wealth. Without health one cannot enjoy wealth, and without a home one cannot enjoy health or independence. Consequently, we find the efficient and dependable realtor, and the skiled family physician occupying relative positions of importance to the men and women whom they serve. The real estate dealers who will eventually make the greatest success and enjoy the confidence of the public, will be those who use discretion in placing their clients at the minimum commission allowed by the real estate commission of the State of California.

There is a class of people who make a practice of buying property as low as they can get it hmere in the city, and putting it up for sale immediately for all they can get for it, and they find ready victims to prey upon, as there are many people who think that if they purchase direct from the owner, they get their property cheaper, whn as a matttr of fact they could have purchased better property at a lower cost through a reliable realtor. Today the experienced and dependable realtor takes pride in his work, he is an expert in his line, and he will find the property that best suits his client. He knows values; he knows how to invest, without him our great city would not be where it is today. The realtor and the Chamber of Commerce have done more to push our city ahead than any other one grou

It requires the better part of the laboring man's life to save enough money to porchase a home, then why not be careful in selecting a realtor to advise him or her, as the case may be, as to the best possible investment, its value, and its chance for increasing in value, the legal instruments necessary to properly convey the property to him. Everyone who possibly can, should invest in some kind of property. The land that can be bought today at a fair price and terms cannot keep from increasing in value. We cannot help growing, we cannot help the expansion. Los Angeles is in the midst of a steady growth. This is not a boom, it is a stable advancement, it is the result of natural resource combined with the millions of dollars that are being brought from all over the world to our city, and being invested in great manufacturing and industrial plants.

I cannot understand persons who are not taking advantage of these wonderful opportunities, for there will be a time, and it is not far away, when a single lot will cost you as much as a whole block is now worth. I know that everyone has a right to his or her own opinion, but I cannot for the life that is in me, see how a man in his right mind will continue to pay high rent, when he is able to make the first payment on a home his own. So I say, BUY NOW, while the prices are still within your reach, and to the ones who DO NOT purchase, I say, You will pay a great price for negligence.

OUR POPULATION

No one that has actually had the opportunity of seeing Los Angeles, can fail to agree that she is destined to become one of the greatest cities of the world. Already there is within the precincts of the city, a population of over one million. Nor are these figures reached promiscuously. Our Chamber of Commerce, and such other authorities as the Merchants' and Manufacturers' Association, our Colored Realty board, and many other reliable authorities are responsible for this statement that the million are here.

Visit the industrial section on the East side and you will not only agree that the one million are here, but that every one of that million that wants to work has a job or position to support him. And that is the most important reason why Los Angeles is growing in such a healthful manner. Because the industries are here to guarantee each individual that enters a chance to earn a livelihood and buy a home without subjecting themselves to unnecessary hardships. With the coming of industries came the expansion of banks until at the present time each bank has from one to three five or seven branches. Nothing can stop the city's pregress, so let's each of us do our part toward making a greater Los Angeles because the city rests upon a foundation that is sound.

FORGING AHEAD

Perhaps no mame in the realms of local business is better known than that of Mrs. Mamie V. White. Mrs. White conducts one of the largest employment agencies in the city and enjoys the distinction of being the only woman in that avenue. Hundreds of new comers to our city owe their present prosperity to the fact that through the business enterprise of this energetic young woman they were, following their arrival, able to secure well paying positions that gave them their start. Mrs. White is well known, and popular, and deserving of the patronage of all.

V. M. COLE—VENERABLE REALTOR

ORANGE REALTY CO.

Ere long the year 1923, which came in so promisingly, and lasted so well, will have sung its swan song and departed and in its stead, we shall be living in a new year, a new age.

During this year the Orange Realty Company has been one of the few concerns that has found it necessary to increase its office space, so heavy has been its increased volume of business.

Mr. V. M. Cole, president, wishes to acknowledge his appreciation for the confidence placed in his concern by the public and wishes each and all a happy new year.

EASTSIDE REALTY COMPANY

The Eastside Realty Company needs no introduction to the public. Their rapid rise from an unknown business concern to one of the leading lights in their line has been indeed spectacular. Subdivisions were unheard of before among colored dealers until the Eastside opened up and sold out a large tract in the Southeast part of the city. The Company is responsible for many new steps taken in the business by others and has under consideration several huge propositions for the coming year that are destined to revolutionize the real estate business as now conducted. In this, the closing issue of the year they extend season's greetings to each and all.

READ THIS!

Recently in this city, there appeared at the door of a colored property who, after exchanging morning greetings with the owner's wife, stated her owner a stylishly dressed white lady, mission as very desirous of purchasing said property for a colored doctor, and offered nine thousand dollars. That evening when her husband came from work, the wife told him of the offer to buy them out, and the amount which was six thousand, five hundred more than they paid for it. The story sounded real until in a conversation the following day with another colored citizen who owned property in the neighborhood the fact was bret out that they too, had a similar offer, only it was for a colored lawyer from the East. Great Scott! What could be happening that there was such a demand at those prices for their homes for colored professional men; when homes of their style and order could be purchased for much less elsewhere. The truth was finally brought to light that said lady really did want to purchase the homes, but not for the purposes stated. It was to rid the neighborhood of its colored neighbors. Thus far the temptation has not proved inviting enough, and folks still enjoy their home fire. Don't be too anxious to sell if satisfied, because there is a big difference between yesterday and today.

Young Broker Successful

Among the progressive real estate brokers of the city is Walter J. Lowe, perhaps the youngest of the brokers here. Mr. Lowe is a native of Costa Rica, coming to this country at the age eleven. He received his education in the schools of Costa Rica and at Tuskegee Institute.

Four years ago he came to this city and started as a rea lestate salesman, and by perseverance and constant forging head, is doing an excellent business thru his office located at 977 E. 12th Street.

The interest of his client is always foremost with Mr. Lowe, and any

WALTER LOWE

piece of property which has been bought through him can be sold today at a fine profit. His command of the Spanish language has brought him a large Spanish speaking clientele.

$100,000 worth of property has been sold through his office in 1923, a few deals having been made by salesmen of the company, and in association with other brokers; but the majority of the sales were made by Mr. Lowe alone.

If you are looking for square and courteous treatment and an investment which will mean much to you in this fast growing city, call at the Walter J. Lowe Company, 977 E. 12th Street., Metropolitan 3338.

GREETINGS OF THE SEASON

Commercial Council of Los Angeles

GREETINGS:

Our first Holiday greeting is a wish for a MERRY CHRISTMAS and HAPPY NEW YEAR—also a fond expectation for a brilliant future before us and a mighty progress along the avenues of business, and that all Colored Citizens may join in the movement for a greater activity and stronger support for our various business concerns.

GET IN THE PROCESSION

It is estimated that for the necessities of life the 45,000 Negro population of Los Angeles spend nigh unto Twenty Million Dollars Annually. ROBINSON RANKS HIGH IN SERVICE OF COUNTY

L. G. Robinson, since the memory of man runneth not to the contrary, has been in the service of Los Angeles County. And in this service he has made an enviable record. He is not only a credit to himself, his race but to the county of Los Angeles, and is noted for his integrity, industry, and efficiency. In fact with him efficiency is the key note of his success.

L. G. ROBINSON

With a pleasing personality, no person can meet Mr. Robinson except to appreciate him and learn of his worth in organizing the large force of workers under his supervision for efficient service.

Mr. Robinson takes no credit unto himself, but rather gives the same to the men who have never hesitated to cooperate with him for the service of the county. He also gives high credit to the supervisors for their cooperation and interest in this particular branch of service.

In all affairs for the civic, religious and fraternal betterment of this county L. G. Robinson can be found to the forefront, and a strong supporter of enterprises conducted by our group.

The Soaring Eagle appreciates his worth, his interest and support and hesitates not to chronicle these lines to this fellow servant whom we believe to be a friend to man.

IN THE MUSIC WORLD
By John A. Gray

Many of the disappointments that parents experience in their children's development could be avoided if they would use preventive measures in time.

For instance ambitious parents will deprive themselves of many necessities and makes untold sacrifices. In order to send their children through college or university. Their greatest hope is to be able to see them blossom forth into great men and women. How rudely are they disappointed when these same children for whom they have suffered so long, return from school and find that father and mother are old-fashioned, somewhat crude in manners, and unfamiliar with even the common topics of today. In short, they are ashamed to present their thoven or Brahms. The parents find new friends to father and mother. And why are they ashamed? Who must be blamed for this condition?

If father and mother had realized years before that in order for their children to be proud of them, they would be compelled to improve themselves culturally, such a condition might have been avoided. And it seems that the more parents have sacrificed the less the children think of them.

It is better for a young man or woman to work all summer, in order to be able to go to school next winter, than it is for him to loaf all summer and expect father and mother to finance him the next winter. The latter procedure only makes him unappreciative and lazy. No child is too good nor too precious to work for his own advancement.

There are different mental strata just as there are different strata of earth and rock. One is higher or lower than the other. When an individual begins to develop his thinking faculties, he commences to ascend to a newer and higher mental plane. It is natural for him to look down on those mentally inferior. Mother and father might have used their money in buying books and periodicals and might have used some of their time in studying them. Night schools are open for everyone where instruction is free. At least they would be conversant with modern topics and would have an intelligent view of the present conditions. How surprised would son or daughter be to find that their parents are able to keep the conversation going and are able to express themselves intelligently when the occasion arises. More important, however, is the fact that they can, in some measure, appreciate the achievements of the children. If the child has chosen music as his medium how disappointed is he to find that no one at home can appreciate his Bach, Beeonly noise where they should find lofty thoughts, beauty, character.

We know of cases where parents have sent their children to Europe and upon their return have found much more pleasure in hearing them play jazz music than in playing the music of the masters. How foolish to make such a sacrifice and not be able to appreciate the result. No wonder children are ashamed.

Up with the times, up with the race. We must study, read, hear good music and develop, if we would really be able to appreciate our coming young musicians. We have a Roland Hayes, a Florence Talbert, a Hazel Harrison and others. How many of us can really appreciate them? Is it not time for us to start if we would have them feel proud of us instead of ashamed?

PROF. CLAUD V. PITTS SUCCEEDS PROF. AUSTIN

Prof. Claude V. Pitts' promotion as head of the Los Angeles Music and Sing Association comes as no surprise to his friends, for he is one of the city's most prominent musicians.

Those who have had a standing acquaintance with Prof. Pitts, realize that he has always aimed at the stars in his profession, and they do not hesitate to prophesy that his success will be abundant.

As head of the Association, Prof. Pitts has much room for expansion, and it is believed that through him the voice of the Association will be heard, not only in Los Angeles, but on the Pacific Coast, and from coast to coast.,

MRS. RUTH BANKS

Immediately upon her arrival in this city in June, Miss Banks began to seek the companionship of those engaged in the profession of teaching. She learned that the time for the city examination for those aspiring to be teachers was close at hand and determined to be among the aspirants. Her efforts were crowned with immediate success; for she received an appointment to the primary department of the Palo Verde School.

Miss Banks comes from the middle West and is a graduate of the Kansas State Normal, which is one of the best institutions of its kind in that section.

Miss Banks holds the position of secretary of this organization, and has proved herself very efficient. She is untiring in her efforts and has the ability that the association is very proud of.

And it would not be complete to close this sketch without mentioning Miss Helen Beavers, our stenographer, who is a very worthy addition to our organization. She has a pleasing personality, and takes care of our office work in a very satisfactory manner to the extent that the school would be at a loss without her services.

MOZELLE TE OUTLEY
Pres. Los Angeles Music and Sing Association

The subject of this sketch is a woman well experienced in the musical world. She is an alumnus of Roger Williams University, Nashville, Tenn., and was, at one time, assistant music teacher at that institution.

Mrs. Outley was pianist of the choral class of Olivet Baptist Church, Chicago, Ill., of which Dr. L. K. Williams is pastor, for five years. While holding this position she began the study of the organ under Prof. W. Alphonso Johnson and after two years study, was elected organist of the Pilgrim Baptist Church, which is now located at 33rd and Indiana Ave., of which Dr. S. E. J. Watson is pastor. She held this position until moving to Los Angeles, Cal. in 1921.

Mrs. Outley was pianist for the National Baptist Convention which convened here Sept. 1923, and her work was so satisfactory that she was elected National Baptist Pianist for the Convention which will convene in Nashville, Tenn., September, 1924.

Mrs. Outley has traveled very extensively as pianist and reader for Chautauqua and Lyceum Bureaus, and the experience gained thereby has placed her in the first rank in her special line.

She is teacher of piano, sight singing and elocution in this conservatory and because of her personality and keen insight of human nature, one will be amply repaid to sit under her instruction.

BIG MASS MEETING IN INTEREST OF INDUSTRIAL SETTLEMENT HOME

The Big Sunday afternoon meeting of the past week at Tabernacle Baptist Church, 12th and Hemlock Sts., was a glorious success. Los Angeles citizens rallied to the support of Miss Bessie Simon who has been in Los Angeles for the past few months in the interest of the home. It is believed that many substantial donations will be secured for the home during Miss Simon's stay in Los Angeles, and the Eagle says, let every support.

HARRIS & FRANK

Spring street would not hold its place on the great map of Merchandise if it were not for this firm known not only to Spring Street as leaders in Ladies' and Gent's most fashionable Merchandise, but to Southern California.

Harris & Frank differs from the average house of Merchandise in this one particular—it has within its borders the spirit of brotherhood which no doubt is due to the presence of Mr. Frank whose pleasant smiling countenance is a source of pleasure to the many thousand pleased customers who visit this store during a week and avail themselves of the splendid bargains in first class ladies and gents wear.

At this X-mas season the decorations and holiday suggestions are up to the usual standard, and one with fastidious taste feels that in shopping at HARRIS & FRANK he or she has had all that could have come through a visit to Gotham.

LOAFING AROUND PLACES OF BUSINESS

It is a common thing to visit an office or a business establishment owned by our people and see two or three men who are out of employment, or who may be employed, but off duty, sitting around engaged in a useless conversation or a heated argument that attracts the attention of pedestrins on the streets, and particularly persons who come in stores or business places to transact business. Such persons may be there because they have nothing to do, or have no other place to go, or because the proprietor wishes them to come in to gossip. Let the circumstances be what they may, it is bad policy, and poor judgment from a business standpoint.

or sitting around observing their purchases, especially women. People who go to a doctor's or Lawyer's office, as a rule, go there on private business. They do not want to see anyone sitting around listening to their conversation or wondering what the trouble may be; and as it is with the businesses and offices mentioned, so it is with every kind of business in which we are engaged. We always prefer when we go into any business establishment that no one be present, except the person or persons we are to do business with, or to make our purchase through.

Barber shops, pool and club rooms are supposed to be places where men gather to waste their time and engage in useless conversations. Often these do-nothing people who gather about different places, get so loud and boisterous that they can be heard by persons passing on the streets of by customers coming to the place to transact business before they enter. Or when not too loud, they often show equally as poor breeding by continuing to sit, talk and laugh, when customers come to transact business with the proprietor. Such conduct constitutes a nuisance, and the sooner the "boss" of the place learns that and puts a stop to it, the better it will be for his business.

Many a doctor has lost a good patient who came near enough to hear or see people loafing in his office, and desiring to see him personally and not being seen, have passed by his office and gone to some other doctor where more privacy is observed. Especially is this true of women. The same thing holds good for all the businessees and professions.

A business place of whatever kind, should be used strictly for the purpose it was established for and should be kept clean and inviting at all times. A place of business should "clean out" every thing but business during business hours.

Major G. W. Prioleau, Pastor

The Sunday School, which was largely attended last Sunday was ably and very efficiently conducted by Mrs. Adelaide Gladden, Mrs. Prioleau being unable to be present on account of physical disability. The pastor preached at the eleven o'clock service to an enthusiastic congregation, and in the afternoon he took nine members to Duarte and he, there preached for Rev. Prince to a large congregation. The A. C. E. Jr. had their Musicale at night at 7:30 o'clock, this excellent entertainment was gotten up and conducted by Mrs. Gladden. It was largely attended and the renditions by the children were excellent. Those taking part in the entertainment aside from our own, were Mr. Barton Duncan, violin solo; Miss Camelia Wilson, instrumental solo; Fannie Hayes, vocal solo; Rita Cohen, instrumental solo; Cathlene Warren, instrumental selections and Leonard Warren, recitation, this was exceptional. Margaret Williams, vocal solo. The offering, which was liberal, was for the payment on the piano. Will some big, loving hearted brother or sister or organization or friend send us a check for $10.00 so that we may make the $100.00 payment.

Next Sunday, December 23rd, is Quarterly Meting at Mission. We expect to have Rev. Price of Watts to preach for us at 3 p.m. His choir to take part. P. E. Wm. Washington will conduct the services in the afternoon and at night. Xmas sermon by the pastor at 11 o'clock.

ATTY. SLOYD'S FIRST CASE

By: JEFFERSON M. BROWN

Hold! gentlemen, hold! For God's sake wait, just one moment's speech please, just one little request. I realise that no power on earth could stay the crime fur which they are destined. Fully do I know that not one of you would endeavor to spare my life. But won't you be so good as to permit me to see my mother? Thre years have passed since I have looked into her face. I have been away to college. I have just finished Harvard Law School and have returned home to visit her, my mother. I was on my way to her house, which is about three miles down the road, and I was happy as the lark which you hear in the meadow, when you men seized me. For what? I do not fully know. For some crime no doubt, of which I am innocent. But because I appear to be a stranger, my face is black and because your hound dogs sniffed at my legs, you laid hold of me crying, "Lynch him! Lynch him." An dthat is what you are planning to do. Already you have thrown a rope over the lower branch of that huge oak. The spirit of lynching has contaminated your minds and bodies. Yes, even now you yell "Lynch him! Lynch him!"

Surely you can lynch me. What could one black man do against 300 whites? Yes, what could one white man do against 300 black ones?—— Nothing! But that isn't the question. Being a lawyer, as I am, I could, in the course of time prove to you as citizens of these United States, where in you are basely wrong. I could influence you to see the great civic injustice that you commit in lynching me. But in the end, all this would be of naught. For you are determined in your hearts to hang me to that tree.

It isn't my life that I want, gentlemen, no, it isn't that. I could have it if I did, there I do not. But, oh, men of the Southland! God created men sons of honorable and noble American citizens, it is this one request that I beg you grant me. Please let me journey down this very road just over the summit of that wooded hill to a little brown house where I may see and kiss for the last time my dear mother. This is all I ask. "What!—you rear back no? You yell still louder—lynch him." Are you men, have you souls, is there any human in you at all, or are you the lowest of heathens who would not permit an innocent boy to see for the last time his mother?

THE UNIVERSE

By William Rux, Jr.

The tremendous strides made by science in the past decade, have eclipsed all former period for variety of achievements. No branch of science has been without some striking advancement. The layman has viewed the successive results of scientfiic research with varying opinoins. He is certain to ridicule anything, be it science or what you will, if in his mind the data are not clear. It is not always the new things which serve to puzzle his incomprehending mind, but the facts of old, even ancient subjects are scoffed at. The facts of Astronomy perhaps the oldest of the sciences, the results of the study of which bears relations of utmost importance to our daily life, has received perhaps more than its share of depreciation. Belief in the conclusions arrived ta by scientists comes only after long study of the procedure and methods involved in the determination of the facts. Moreover, no scientist is able to broach a new theory or discovery, but that it receives the closest scrutiny by the scientific world before it is accepted. So the laymen who cares to delve in the field of pure science can be assured that the basic facts are incontrovertibly true.

The earliest recorded history of man contains evidence of an interest in the stars which were no doubt placed there by the great Creator, as he sent this insignificant portion, spinning in space. The early studies resulted in a series of myths, which have left their imprint, since many of the names, of mythology are still used in designating the "stars". But it was necessary for Galilio to invent the telescope for great progress to be made. Since then it has been a matter of time and of genius for the facts to become known. The marked improvement in optical mechanics, the adaptation of photograhy to astronomical observations, the perfection of the spectroscope, have all been important factors, in the attainment of the results as they are. These instruments and others together with intricate mathematical processes have given us data previously almost unhoped for. The determination of the speed of light which was first obtained astronomically was the first step toward further knowledge.

Light is proven to have a speed of 186,000 miles per second and from this is is shown clearly why some "stars" move, and others do not; why some have shape and others are merely points of light of varying intensities; in other words why some are planets and others merely stars.

Since a beam of light will travel 186,00 miles per second in one year it will travel 31½ times that distance, this resulting quantity is termed a light-year, and many of the brighter stars are known to be many light-years away. For the reason, any orbital motion they may have cannot be noticed by methods of observation in use at present.

The planets Jupiter, Neptune, Vranus, Mars, Venus, Saturn and Mercury are "closer" to the Earth, and are known to travel in orbits and to be spherical in shape. Jupiter, the largest, has seven moons, and Saturn has a peculiar system of "rings" encircling its equater. Mars has a system of canals, on its surface which have been photographed, and Dr. W. W. Campbell, states that, "there is liwe on Mars without a doubt." Many other interesting data has been discoyered of this group.

The earth is known to be 92,000,000 miles away from the sun, a distance called the astronomical unit. Some of the planets are closer to the sun, some are further away; Jupiter being 60 units away. In point of size Jupiter is many times as large as our earth but all the planets together represent less than one per cent of the total matter in the system, the Sun contains the remainder.

This group of planets with a few small stars revolve around the Sun in orbits or paths that resemble elipses. If we represent their orbits as slightly elongated circles, and make them on a scale of one inch equals one astronomical unit, they could all be placed ni a box 5 feet square and one-half-inch deep, and then we would have, on a small scale, a plan of our solar system.

The planets which make up this solar system are arranged quite similarly, each with its axial motion and orbital motion, moving in concentric paths in the same plane.

There are other planetary systems of the same eype, each with its "sun" and each quite independent of the others. That there are other "suns" is clearly shown for Betelgeuse, the outstanding star with the Constellation Orion, is many times larger than our Sun, but appears, owing to its great distance, as a bright point of light.

A great deal has been said by the learned and unlearned relative to the Sups motion. To quote Dr. Campbell again, in substance, the Sun with its planets is hurtling through space at the rate of 400 miles per second! Veritably the "Sun do move."

With the dates approaching, upon which the Sun and Moon will be observed in eclipse, the ordinary public is paying slightly more attention to the things above us. May some minds among our negro youth feel a compelling urge to venture forth into some field of original research and blaze his name on Time's book of achievement.

WILLIAM RUX, Jr.

LURE OF THE OPEN ROAD

It was late in the afternoon. The sight of the setting sun shedding its last flickering rays gave the sky a mixture of soft colors. Everything seemed fresh and fragrant. Far out the green foliage of the trees and shrubbery and grass was pleasing. Contented, well-fed cows munched lazily.

Just beyond great gorges a lone cow puncher, riding his trusty steed, moved slowly, noalg. His appearance was very picturesque with the Arizona country.

As we climbed steadily up the grade we could see a few horses grazing near fallen trees and broken branches. The pasture lands were exquisite—little streamlets meandering here and there in miniature valleys. We also saw many stately pine trees on the hillsides.

All the while the swy was softening and the end of day was fast nearing

As I gazed at the great bounlers and masses of rock which resembled huge collections of Egyptian mummies I had visions of Egypt and the great Sahara of the Egyptians and their rulers. Between these brown and gray mountains, and above, the blue sky with dabs of motionless white clouds could be seen.

Mrs. Spear Bass Gives Hundred Dollars to Sanitarium, Dr. Eugene C. Nelson Donates Like Amount.

Backing up the splendid gifts of Dr. Norman Bridge, Editor Harry Chandler, Dr. John R. Haynes, Mayor Geo. E. Cryer, Dr. George P. Clements of the Los Angeles Chamber of Commerce, and others, the Colored Citizens of Los Angeles opened up their drive for donations to raise their quota of the Santa Clara Sanitarium fund. Mrs. Charlotta Spear Bass, editor of the California Eagle led the list by subscribing $100.00 donation. A committee of young women of the race is calling upon every prominent colored man and woman to do his part in building this much needed institution.

As soon as the 30,000 bricks allotted to us have been sold strong white friends stand ready to complete the 0100,000 fund, and within thirty days thereafter begin the erection of the sanitarium in the wonderful Santa Clara Valley, Lower California, Mexico.

Miss Dorothy Armstrong is leading fifteen patriotic young women of our race in the brick selling and subscription campaign. She is being assisted by Miss Hazel Matteson. To date 1,500 of the 30,000 bricks have been sold.

Don't fail to buy your brick and mawe your subscription.

Last week another one of our people died of tubeqculosis because of lack of sanitarium treatment. **Buy a brick and donate to help save these lives that are being needlessly wasted.** Help today. It may be your turn to need help tomorrow.

STOCKHOLM, (Sweden)—Aug. 3—Rallying to the request of American Negro delegates, Baptists of all races in attendance at the third congress of the Baptist World Alliance here elected the Rev. Dr. L. K. Williams, president of the National Baptist Convention and pastor of Olivet Baptist Church, the largest Church in the world, to the executive committee of the alliance.

The Negro delegates were led by the Rev. C. H. Parrish of Louisville, Ky., and the Rev. E. Arlington Wilson of Dallas, Texas. They were appointed by Dr. Williams, as head of the Baptist Convention, before they left America.

Other delegates were: T. S. Sandefur, Camden, Ark., J. H. May, Shreveport, La., C. S. Brown, Winton, N. C., J. W. aBiley, Marshall, Tex., R. A. Adams, Dermott, Ark., Miss Fannie Givens, Louisville, Ky., F. W. Williams, Norgolk, Va., W. H. Ricks, Newark, N. J., J. P. Robinson, Little Rock, Ark., J. H. Henderson, Knoxville, Tenn., Walter H. Brooks, Washington, D. C., E. R. Carter, Atlanta, Ga., W. H. Rozier, Los Angeles, Cal., A. A. Graham, Phoebus, Va., Mrs. S. B. Brown, Reidsville, N. C., C. H. Parrish, Jr., Lousiville, Ky., O. J. Allen, Statesville, N. C. and D. S. Klugh, Boston, Mass.

Dr. Williams, chosen for the new honor, has had a meteoric career in church work, starting in a small way in Texas and rapidly achieving the sort of things to cause his constant advancement. He came to Chicago during the World War and quickly assumed a place of leadership in the city's affairs, being made a member of the Lowden Commission on Race Relations, and revivified the work of the great church to which he had been called.

SELECTION IS ALMOST AUTOMATIC

It is thus apparent that light—which is real, tangible, electronic material and not a glea mof empty space as many believe—is a substantial thing, which hits you like a man's fist, but much more gently, in the eye. The various colors are pleasant or unpleasant, perhaps, according to the size and strength of the blows. Blue rains down sharper and shorter waves much more frequently in a given time than does red.

Red is a series of slow, long particles that are like the tapping, gently tapping of some soothing lotion. Black rains up most of the blows and thus frees the eyes from the knocking and banging, while bright light fairly beats a drum fire of seventy-fives upon the retina. Colors, of course, differ not only in the legions of hues, but in their brightness and luminosity. Yellow and adjacent colors are much brighter than the others. It is a psychological difference, not a "psychic" one.

There is also in nature a reflection or a mixture of white light in many colors seen. This dilutes the strength of the color and makes "grays" and hues of "reduced value". Rays of light are not mere vibrations as is still taught by some books. They are actual loss of substance from the source of illumination sent out far and wide. The particles travel as clouds of dust do. The rate at which they travel makes the hue. If small and close together in waves sent out rapidly they are seen as violet by bees as well as man, by birds as well as butterflies.

Yous mental processes have no more to do with it than they have to do with the recognition that a mountain is different from a mole hill, that the nightingale's song differs from the squak of a sea gull. If the waves of particles are slowly sent out in wide circles, and very large, red is seen. The impression or "ideas" or "phantisms" or "images" received by the retina differ as color according to the worldly realities of the wave length of each cloud of likht particles that strike the eye.

Colors are as unconsciously interpreted as the fact that the whole is greater than any of its parts, that the eye is made to see, that a circle cannot be squared, because the very definition of a circle is something that is contradictory in physics, metaphysics and language to a square.

LOCAL Y. M. C. A. BOYS TO ATTEND SUMMER CAMP AT SAN GABRIEL

Member Back When—

Game and hike and swimming ended,
Sky aflame with setting sun,
Campfire glow with twilight blended,
Bugle call—the day is done.
In the hush a boy's voice falters,
Uttering an evening prayer;
Stars and woods and stream his altars—
God is very near him there"

More than 25 boys between the ages of 12 and 18 have already signed to spend the ideal vacation at the Y. M. C. A. summer camp in the Sierra Madre mountains August 16 to 23.

The camp which is under the supervision of Harold Wilson, is 4,000 feet above sea level on the West Fork of the San Gabriel river, back of Mt. Lowe and Mt. Wilson, in the heart of the Sierra Madre Mountains. The camp nestles on the side of the canyon, in the shade of large spruce and oak trees, with a beautiful mountain stream running through the camp grounds. This stream feeds a fine cement swimming pool.

There is splendid opportunity here for hikes, fishing, baseball, baskef ball, volley ball, swimming and many other joyful activities.

Mr. Wilson, who is spending the summer home, has been attending Western University in Kansas City, Mo., conducted the camp last year when he organized the Rangers Club, composed of the following boys: Wallace Markham, Kenneth Levy, Eugene Benjamin, Henderson Benjamin, Theodore Ecton, Wilbur Sadler, Vernon Harding, Stanley Curtis, Thomas Nelson, and Earl Robinson. The leader is a young man of exceptional merit, chosen especially for his ability and personal qualities. He is prepared to give real service and expert wide influence for good upon the boys placed in his charge. The kitchen and cooking will be handled by Harry Silke an expert cook who has successfully presided over this important part of comp the past two simers. He will be under the immediate supervision of the camp director.

A series of three concerts by the boys will help defray expenses of the camp. Each boy will be assessed $10 for the eight days, but in order to meet other minor expenses programs will aid greatly. The first concert was given at the Watts Community Hall. Following was the program offered: Saxaphone Solo—Wilbur Sadler; Reading (original) Opportunity—Henderson Benjamin; Vocal Solo—Stanley Curtis; Acrobatic Stunts—Harold Scott; Vocal Solo—Miss Florence Lishey; Comedy Sketch—Henderson and Eugene Benjamin; Finale: Bishops Condlesticks—one act play by Ellis Salisbury, Leroy Dent, Tolita Meeks, Julia Ellis, Reginald Lishey. A large audience was present and a donation given the boys. Other concerts are at 2nd A. M. E. Church, 1736 E. 53d St., Friday night, August 10; the final at the Y. M. C. A. August 15.

Camp traditions make the Rag a thing earnestly sought and highly prized. This system of Honor badges is now used in all the camps of this state. The Blue Rag is awarded as a recognition to those showing the proper Camp spirit. A Brown Rag is given to those Blue Raggers who throughout the year, and in Camp, have proven themselves worthy and have shown an increased Camp Spirit. A Red Rag represents Camp's highest honor. Honor men have a large part in conducting the Camp activities. An unknown committee judges upon these things: Health, neatness, promptness, cheerfulness, manners, service, trustworthiness, obedience. That committee makes its recommendations to the Camp Director. After the boy has memorized Ragger's Law and ceremony, he is presented with his Rag, the appropriate color bandana, in an impressive secret service attended only by the Raggers and the boy being initiated.

An initiation ceremony of the Blue Raggers was held at the Y. on the 27 when the following boys received blue rags: Kenneth Levy, Henderson Benjamin and Theodore Ecton. Wilbur Sadler, Wallace Markham, and Vernon Harden are the other raggers.

All packs and money should be turned over to the camp director at Y. M. C. A. on or before the 13. Two trucks will be engaged to take the packs and boys to the mountains. The Why of Camps may be summed up thusly:

An ideal vacation for the boy.
A summer outing at nominal cost.
Health and character building activities under trained Christian leadership.
Fellowship with God and man in beautiful mountain camp.
Hikes, games and supervised swimming in cement plunge fed by mountain stream.
Bible Study and Camp-Fire decision meetings.

Situation at Negro Veterans Hospital at Tuskegee Reveals Lack of Doctors and Specialists

Report Shows Also Yearly Increase of Doctors and Nurses Needed to Adequately Aid Suffernig of Race

(By Wendell P. Gladden, Jr.)

Some very interesting facts concerning the Government hospital for Negro veterans suffering from mental disorders and tuberculosis, established recently at Tuskegee, Alabama, were disclosed in an article which appeared in the July 18 issue of The Outlook.

It was necessary to create a staff of specialists for the two difficult fields already mentioned and a large number of trained nurses. According to the statement in the magazine, the original plan was to have a white staff of doctors and head nurses, the other nurses colored. Later the plans were changed so that there might be a complete Negro staff. Meantime, the hospital was opened with a skeleton staff of white doctors and nurses. The task of replacing that staff with competent doctors would have to be made under regulations of the Civil Service Commission, which would appoint eligibles whether white or colored.

An adequate staff of Negro X-ray men, bacteriologists, and dentists, was developed, the article pointed out, but the number of specialists in mental disorders and tuberculosis was very limited.

Several days ago the situation grew tense, when the white population at Tuskegee objected to having Negroes comprise the staff on the grounds that there was not a sufficient number competent, and the community might be endangered. The N. A. A. C. P. requested the Government to send troops to the scene. This act, according to The Outlook, was "injudicious," because it incited members of both races.

A report from the Department of the Interior in collaboration with Howard University showed that the average number of doctors and dentists graduating from various institutions throughout the country is 63, while the number of trained nurses is 90. It declared further, that in order to meet the demand adequately 500 doctors and dentists, and 600 trained nurses should be the yearly increase. The fact was brought out that more doctors and dentists are practicing in the five large cities, New York, Chicago, Cleveland, Philadelphia, and Washington than in all the 16 southern states where the population of Negroes is approximately 8,000,000.

If the trouble arising over the Veterans' hospital and the investigation did nothing more, it proved the amazing lack of medical men and nurses and especially specialists of the race. It has long been argued that young men and women should venture into other fields of endeavor, because the medical profession was crowded. Since the investigation it can be seen clearly that there is indeed great need for men and women in other vocations, but that training in medicine is still vitally needed. Education and efficient services should be extended so that all classes in all sections of the country may be reached. The objective is worth striving for. These facts are significant to all progressive thinking colored men and women, and should stimulate them to know always the true condition of the race.

When hostilities are threatened any group should seek the protection of the law. The N. A. A. C. P. may have acted a little hastily as stated in the article, but it appeared to be endeavoring to curb the seemingly approaching conflict. And if that was the aim, it was wise. One of the Negro papers reported that some of the leaders fled the city for their lives. If that was true, it was an unwise step—for at any critical time cool, intelligent leadership is needed to represent the masses. The article may be read with profit, as it is certain to provoke much thought and prove informative.

RIVERSIDE, CAL.

PAYNE MIDDLETON WITH THE A. C. E. LEAGUE IN RIVERSIDE.

The past week has been one of the most impressive in the history of the church, as it relates to protracted meetings. This the statement of men who have seen Riverside in its making, ma who speak facts before sentiment. During the week the church was spiritually revived; some twenty odd people presented themselvs at the consecration altar and arose with a pledge to come out of the ultra social sect and no longer follow the sign that points to the downward path some claimed reclamation with tears streaming down their cheeks; many pointed to specific benefits that they have derived from the meeting. Each evening was well attended. One of the other very helpful products of the meeting was the demonstration that the youth of to-day is as readily impressed with religous ideals as the men of matured years, and that they are looking for the principles of life and not for the sensation of religionists. So impressed were the officers and friends that they petitioned another week of the services. Both of the other churches report good services for the past Sabbath.

The past week Mr. Middleton was the guest of Rev. and Mrs. McCorkle; he will be the guest of Rev. and Mrs. Johnson the next week.

Mrs. Elizabeth Mathis Carter, Chicago, Ills. stopped over in the city and was the pleasing guest of Mr. and Mrs. William King 392 E. 12th. Street. The Madame was a member of the delegation of th N. Mr. White passed thru Sunday with a party on on their way to Elsinore to spend the day. They dined at the Sunset Cafe on the return trip.

Mr. Middleton and Mr. and Mrs. Rev. McCorkle were the breakfast guests of Rev. Simpson Tuesday morning, and the dinner guests of Mr. and Mrs. C. D. Robinson Sunday. The party including Mrs. A. McGee visited the Mission Inn. Brother C. H. Daugherty gave Mr. Middleton a trip Saturday carrying him to Mt. Rubidoux, Arlington and the Sherman Institute.

The Daily vacation Bible school closes Tuesday ,their average daily attendance has been over a hundred. When opened provisions were made for about fifty.

Comment: In a survey made by the Homilitic Review on the "Young peoples problem in the church" the following comment was made: the principle causes of worse condition among young people is—bad example and lax dicipline of parents, modern dance, and immoral suggestions of the movies. It would seem therefore, that instead of this generation going to the devil, that it was the last generation that went, and that this generation has but to imbibe the hell in which they are brought up. They are neither responsible for the modern dance, the movies or their own existence. 6

PROGRESSIVE BAPTIST
(Continued From Page Two)

see you electing as your leaders such giants in intellect, courage and Christianity, I do not doubt your future

"I take pleasure, and my heart goes out to you when I hear you sing the praises of the greatest constructive genius—of this day and generation, and the greatest baptist known of these times, our lamented Dr. R. H. Boyd. You do well to honor him. His memory is a heritage priceless to our memory and to posterity. In yonder city of Nashville, where he labored and died, a monument to tell future generations of his mighty force, must be erected. I rejoice that you have agreed to assist in this splendid work.

Our faces are now turned to Fort Worth Texas. And when you leave Los Angeles in September, I assure you, you will meet at Fort Worth, Texas ten thousand mighty, strong, vigilant orthodox ministers and disciples who have not bowed their knees to Baal. The sunshine of hope glows throughout their hearts. Their children are taught the lesson, that God helps those that help themselves. Race hatred is no part of their creed. Neither are they cringing inconsistent parasites who stand the century through declaring their inability to do without a master mind to guide. They believe firmly that what others have done, they can do.

"I implore you to make steadfast the Gospel of the Son of God. Keep shining the indomitable stories of love and beauty. Let the world know that you are a builder of eternity and that you must work while it is day.

"Sing on. Pray on. Work on. And in the happy early dawn of tomorrow, a bright sunburst will illuminate and inspire our children.

PROF. ELMER C. BARTLETT PRESENTS PUPILS IN SIXTH ANNUAL RECITAL
By Mrs. Pearl Roberts

On uesday evening at Eighth and Towne Avenue Church, Prof. Elmer C. Bartlett presented his pupils in his sixth annual piano and pipe organ recital. A large crowd listened to an interesting program of some thirty or more numbers consisting of solos, duets, six, eight and twelve-hand piano numbers. The audience was particularly delighted with the unusual ensemble numbers which included, "If I Were King" for three pianos and twelve hands, and "Overture to William Tell" for two pianos and eight hands.

Assisting on the program were Miss Velma White, juvenile soprano; Miss Ada Ross, reader; Miss Anna Mae Griffith, lyric soprano, and Mr. Atwell Rose, violinist.

The stage setting, unusually beautiful and unique, was a delightful surprise to the audience. Majestically occupying the rostrum or stage proper stood three Sohmer concert grand pianos. At advantageous places in the choir loft where the pupils were seated, were arranged lovely colorful floor lamps and around the foot of the stage were beautiful baskets of flowers. The whole lent a soft, classic atmosphere quite in keeping with the artistic occasion of the evening.

The pupils rendered their numbers creditably and with an assurance that showed they had been well prepared for the concert night with good common sense instruction. Prizes were awarded for scholarship and application and the Bartlett Studio is to be especially commended for this simple means of encouraging its pupils to strive for the best. The prizes were awarded for merit regardless of grade of advancement. They were presented by Assemblyman F. M. Roberts.

Miss Mattie Nelson, winner of the first prize, a gold medal, played Mendelssohn's "Dondo Capriccioso" in a manner that showed exceptional talent. Miss Cartherine Bowers rendered extremely well "Concert Piece No. 2" on the organ. She is one of the best of the younger student organists and if she continues with the rapid progress she is making, she will rank high as an organist. Both Miss Bowers and Miss Nelson are to give recitals in the fall and winter.

Mary Jane Clark, winner of the second prize, the silver medal, played Schubert's "Impromptu." Although a very young girl, Mary Janes showed unusual talent in her dexterity of finger work, her pretty tones and singing melody. She has been well taught and if she continues, one sees in her a real pianist.

Little Willie Polk was the youngest prize winner. A bronze medal was presented her as third prize. She played "Cinderella" by Kuhn very well and says that next year she will strive for the gold medal.

Tuesday night Elmer C. Bartlett renewed the impression of his worth as a teacher. Perseverance and earnest study has rewarded him with a piano and organ class of which he may justly feel proud. The Bartlett Studio has adopted the University Course of Music Study and Prof. Bartlett has been especially trained to teach this course. He is an affiliated teacher and holds a certificate for same from the National Academy of Music. His studio is located at 936 East Pico Street.

NEW TABERNACLE BAPTIST CHURCH MAKES WAY IN SUPPORT O FPURCHASE OF SPLENDID PROPERTY AT 27TH AND PALOMA STS.

The New Tabernacle Baptist Church under leadership of Rev. L. B. Brown is now safely lodged in their new home at 27th and Paloma, which was formerly occupied by the Haven Methodist Church (white) It is one of the most modern churches in the entire city, and it was indeed a progressive move, when Rev. Brown and his congregation were successful in procuring this property at the sum of $27,000.00. It has a seating capacity of from 15 to 18 hundred persons and modern in every detail. The building is made for 17 different departments. In at the church will be made institutional. There are also two roof gardens connected for Primary Sunday School classes.

The big Rally is now on to raise $5000 on the purchase price of this cuhrch. The people of al idenominations and in general will rally to the support of this advanced step that the wheels of progress will keep moving on its way. Those who desire to assist this movement will kindly see the pastor, Rev. L. B. Brown or T. A. Cole, Chm. Trustee Board and be sure to attend services at this church and be a part in its mighty success.

The editorial staff worshipped there a few Sunday evenings past and was delighted with the cordial welcome, so much so, that $10.00 was our donation to one of the clubs.

CHRISTIAN CHURCH—14th and Birch Sts.

We had an increasing at this church at the morning hour. Bro. D. C. Allen who is with us, preached all day. At 11 o'clock from 2 Tim. 3:16 All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, fo rinstruction in righteousness. He brought some very vital points to our attention. The young people's meeting at 7 p. m. was indee da treat and at 8 p. m. Bro. D. C. Allen brought another one of his stirring messages to us, using for his subject, Matt. 16:18—And I say also unto thee, that thou a rPeter and upon this rock will I build my church ;and the gates of hell shall not prevail against it.

The church has called Bro. A. W. Jacobs to the pastorate. Bro. Jacobs we believe to be a strong and devout Christian minister. Bro. Jacobs will take charge next Sunday, August 5th.

At 9:45 a. m., Sunday School; 11:00 a. m., Preaching; 7:00 p. m., Endeavor; 8 p. m., Preaching; Bible Drill and Prayer Meeting Thursday eve., 8 to 9 p. m.

REV. ROZIER EN ROUTE TO SWEDEN WITH DELEGATION WRITES OF DELIGHTFUL VOYAGE.

Rev. Rozier, pastor of Pleasant Hill Baptist Church, and delegate to the World's Ministerial Alliance, meeting at Stockholm, Sweden, writes home of his successful journey across the Atlantic. He states that the Olympic (the ship on which the delegates sailed) was one of the largest passenger ships on the seas, with a spacious library 60x60, well supplied with books, stationery and and everything necessary for the comfort of the ship's patrons. The very best food is served in the dining room, and waiters at one's service every hour in the day.

The Olympic has a church and pastor of its own, and frequently services are held on the vessel. The Negroes on board played a conspicuous part on the program, and when not in service, the white people were begging them to hold services.

Rev. Rozier writes that the people seemed to have forgotten that they were at sea, instead of on land. They were participating in sports of different kinds, boxing, baseball, racing and many other sports. The Atlantic was never known to be more calm than at this time, and the trip so far, states Rev. Rozier, has been a very successful one.

We pray God's blessing on the entire delegation.

A cablegram dated July 17th reads: "Arrived in Paris. All well and happy."

From time to time first hand news from the delegation in Sweden will be given to the public in these columns.

August Oliva of San Francisco Public Spirited Citizens Stands for All the People and as an Outstanding Figure for the Square Deal.

Prominent in the latter days of business as well as political effort, stands the undaunted and forceful personality of August R. Oliva of San Francisco, who stands in the front ranks as an advocate and a square deal for the great common people. Knowing no man by race or creed, but for their worth.

Mr. Oliva was born and reared in the evirons of San Francisco, and came up from the hustings as a worker with his hands, and while a student in the school of adversity, he graduated with high honors and today stands as a living monument to thrift, honesty and integrity in the community which he lives. Like the Danes, who in time of warfare would destroy the hearing of their horses that they would not become frightened in battle, he has turned a deaf ear to all the things which would impede progress and has risen on his merit as one of the leading business men of the great Pacific Slope.

From the Tribune of San Francisco we quote as follows:

Had we the ability to narrate his story worthily we could surely do so, as there is nothing either sensational or thrilling in his whole life. It does not take much time or great space to tell the round, simple, unvarnished, yet sympathetic tale, because his convictions were always firm, his enthusiasm always ardent, and his ideals always lofty; because he has always had a worshiping fervor for his daily task and always was an honest defender, not a despicable flatterer.

He always extended a helping hand to the poor without discrimination of race, creed or color, and the few of the many letters which he received and which we publish below, amply testify to this fact. With equal generosity he assists the negro, the Jew and the Gentile, cherishes the heart of the forgotten veterans of the World War, and thinks about the neglected poor children of San Francisco.

"Many a Christmas Santa Claus passed me by," said he, reviewing his boyhood days. And remembering how sad were those Christmas days for him, creates a fund so that every poor boy and girl may have his or her stocking well filled when the Day of Days for children comes.

In all history, both ancient and modern, there are some characters to which we are especially attracted, and which have for us an interest beyond expression.

There have been men great in name who have given us examples unworthy of imitation, but some men there have been who surrounded by difficulties and obstacles have chosen to walk in the path of justice; men who have gloried to pass through conflicts that they might better the world and that their pure example might be a benefit and an inspiration to others. Such is the effect of the life of August R. Oliva.

Among the various groups which have had occasion to come in contact with Mr. Oliva none are more appreciative of his genuine sincerity to assist humanity on the upward trend than the Colored people of San Francisco and surrounding territory, and the soaring Eagle, hearing from them first hand, has no hesitancy in heralding the same to our big family of readers that all may be enlightened as to who's who when the question of the Square Deal comes to pass.

Born in 1890, worked his way through life by toil and knocks, and rising to be one of the business forces in a great city like San Francisco truly is a program worthy of emulation.

A DESPERATE EFFORT TO SAVE ORPHANAGE PROPERTY
Will You Help?
APPEAL FOR ORPHANS
Afflictions for Neglecting Them.

"Ye shall not afflict a fatherless child. If thou afflict them in any wise and they cry at all unto me I will surely hear their cry and my wrath shall wax hot and I will kill you with the sword; and your wives shall be widows and your children fatherless."—Exodus.

"Let their days be few and let another take his office. Let his children be fatherless and his wife a widow, let his children be continual vagabonds and beg, let the extortioner catch al the hath; and let the stranger spoil his labor, let there be none to extend mercy unto him; neither let there be any to favor his fatherless children. Let his posterity be cut off; and in the generations following let their name be blotted out, let the iniquity of his fathers be remembered with the Lord and let not the sin of his mother be blotted out, let them be before the Lord continually that he may cut off their memory from the earth because that he remembered not to show bercy but persecuted the poor and the orphans that he might even slay the broken in heart; therefore let cursing come to him, let blessing be for from him; let this be the reward for his conduct."—Psalms of David.

Thousands of letters have gone, and you have, no doubt, received one, or at least by this time heard that we were trying to finish the mortgage debt against the Orphanage. We are making the fight of our lives for you here. Please answer this appeal at once. You have money that we ought to have for this work.

Read the above scriptures in Exodus nad the Psalms of David and see what God has in store for them that hate Him in neglecting orphans. Let us hear from you with money to pay the balance of the mortgage which was reduced last year from thirty thousand dollars plus eight per cent interest to fifteen thonsand dollars plus eight per cent interest. Do it now—God loveth a cheerful giver. The liberal soul shall be made fat. He that giveth to the poor lendeth to the Lord. Our treasurer is bonded. It is heavy to pay mortgage and interest, upkeep and maintenance. The State provides at the expense of its taxpayers support for white orphans but nothing for its negro orphans. Until the State comes to our rescue, we must go on with this responsibility.

Little or much—send it to a needy

EDITORIALS

There is only one race, the human race.

No man can rise until he understands himself.

The only certainity is principle—Do you posess any?

That might makes right is the argument of cut-throats and thieves, never of honest men.

The doctrine of inequality is emphatically a science of white peoples—it is they who have invented it.

From the manner in which the Negro is being beaten on the anvil of adversity, it would appear that he is being fitted for some vital task.

Can a man that is kicked, cuffed, beaten and insulted every waking moment o fhis life, be an efficient worker? Will not the thoughts that should be devoted to his work be centered on his condition?

If you continually point out the thoughts of the ordinary man and try to impress upon him what a very inferior creature he is, you will succeed in most cases in making him a debased spiritless thing. On the other hand if you praise his good qualities, you inspire him to do better and may make a truly noble creature out of him.

HELP THE DOWN AND OUT

We say that we are full of the Holy Ghost and have our tickets straight to Heaven, when we have not done one single thing to help the man or woman from the gutters of sin and despair. Our religion prevents us from going into the slums and gambling dens and compelling these unfortunates to lead different lives. Other races are working daily for the salvation of their young people while we just sit idly by and do nothing. We need to tighten the cord of affection and of Christian fervor around our own group and let them feel that they are human and that they have a soul.

YOU MAY HAVE ALL THE WORLD BUT GIVE ME JESUS

Is it a fact that black man has too much religion which causes him to lose his part of the world's goods? Does he cling to the old belief that to have some of the world's goods will send him to hell? This was taught him back yonder when to keep him in ignorance and superstition was to make him a slave, but to teach him to think, and save and do right, would free him, is why the south has never let go its efforts to "keep the Negro in his place." To get away from this fogyism let's make the best in any line of endeavor we may undertake—it is the lever to uplift the black man to the higher side of life. "You may have all the world but give me Jesus," has died away. The black man is getting both.

RULE THAT BRINGS SUCCESS.

"Whatsoever thy hand findeth to do, do it with thy might."' This rule followed will bring success to all who seek it. The real foundation to success lies in doing all things well. Many of us get discouraged and lose interest in our work because we think the positions we are filling are too humble and that we are not given an opportunity to display our talent and worth to the world at large. There is no profit in repining, just be faithful to the work at hand, no matter how ignoble it is classed. The smallest and least lovely task can acquire a dignity by the fine and enthusiastic performance of it. If we are not willing to do our duty cheerfuly and faithfully in that which is least there is no certainty that we could accomplish more on a larger scale.

THE POLICE SITUATION

The precarious condition of the police department as a result of the upheavals during the past few days, reveals the fact that the "SOARING EAGLE" was on the right track when we opened up the fire works and in both these columns and in person the editor of this paper called for a show down on pernicious political activity in the department. Matters had reached the stage, when denizens of the underworld could with unerring prophesy announce on the street corner, just what officer would walk the plank and tell us who would take his place and give the exact time that "our change would come." This condition was protested against, and now out of the present shake up better conditions will obtain, all for the purification and betterment of police conditions in Los Angeles. Of course we are wise to the many ramifications of this whole affair, but we could hardly catch the angle until the bombs of the last few days began to burst, and now we trust all things will be made right and we can again be on our way for a real and lasting peace for the good of the community in which we live.

LYNCHING MUST GO

That the black stain of mob-violence should continue to disgrace the fair name of America is a thing that seems impossible. Even the most savage African tribe of the jungles can not equal in barbarity the infamous lynching record of the republic, with its churches, schools and colleges—with its hundreds of years of culture and refinement. When before in the history of the world, from its darkest moments until now, has there been a country where its citizens are dismembered, burned alive, and every other form of atrocity which a fiendish ingenuity can devise, be visited upon them just because their skin is black, or they show any marked progress, or if they stand up for their rights or become saucy. We have had so much lynching that it is now accepted as one of our American institutions and sports. The conciehce of the nation is numb. Not an executive has ever gone out of the way to put a stop to it and when the daily papers advertise the lynching, long before it happens, these officers of the law sneak off to quieter quarters until after it is over, or become one of the leaders in assisting the mob to get its victim without having to break the jail door. There is too much catering by the better classes to the ignoble spirit in the lower classes here in America. Indeed every man, be he president or peasant, who upholds the theory of Negro inferiority, is in his own way an aid and abettor of lynching for lynching is after all but the culmination of this error But National indifference to lynching does not minimize the horror of it. Think of the excruciating pain of a burnt finger, then imagine what it must be to have the whole body in flames. Where is the superiority in the white man if he is content to fold up his arms while fifteen million of human beings are treated worse than cattle and undergo tortures worse than death? If he is genuine, if he has the soul qualities of humanity surely he will rise up with his strong arm and demand that lynch law and mob violence, and even discrimination shall cease, and give the black man the same rights he is entitled to under the constitution.

COMMENTS

By: W. J. WHEATON

According to the statistics on lynching issued by the N. A. A. C. P., there has been a slump in the activities of the promoters of the rope and torch during the past six months. In the year 1922, up to the present, there were thirty-three illegal burnings and hangings, but this year, 1923, there has been but 11 murders by the mob. There is a reason, and we are forced to ask: Is it a humanitarian or an economic one? There has been in exodus of Negro labor from the states which, heretofore, had made no attempt to stem the wave of lawlessness. Those states were the greatest sufferers from the shortage of labor. The crops—worth millions of dollars—rotted in the field. The element which were the foremost in the lynching bees, would not respond to the call of labor. One live horse is worth a thousand dead ones: A dead horse can not work. Come up this way brother! Life may be a bit more strenuous, but then, what should the progeny of Attucks, Peter Salem, LeOuverture, and the hosts who aided in the preservation of the Union, and the "Keeping of the world safe for democracy" care for that. The builders of this nation were made hardy by struggle. The progress of the race must be gained through sacrifice.

Senator Hiram Johnson of California has anticipated President Warren Harding, formerly of Ohio, but more recently of Washington, D. C., and when he returned from his trip in Europe let loose a broadside from the craft, Anti-World Court, which has caused the Republican Pachyderm to squeal. The President had announced his subject, Our Foreign Relations, for his speech in San Francisco, the citadel of the doughty Senator, and will be delivered before this goes to press. We are anxiously waiting to hear what he will have to say in defense of his negligence of urgent domestic affairs. We would not say for a certainty but we have a hunch that when the Senator spoke of our failure to reduce our murder status to that of Europe, that he had in mind the nonchalange with which the Government has looked upon lynching. One thing is certain: There is so many laws which our domestic courts could enforce, but don't, that there is little need for the establishment of International Tribunals. Not now.

An ineident is reported from Paris, France, which if allowed to continue without protest from REAL AMERICANS, will do more to lower the boasted civilization of the United States in the eyes of the world than any other one thing.

A party of tourist from this side protested to the presence of a party of black Frenchmen being served in the same cafe. It was without avail. Espying a number of Negro Americans, one of the number demanded that they sing the "Star Spangled Banner," and waved his hands to conduct the music. But, after a little consultation, the American Negros broke out in song, and it was the Marsalleise. The orchestra which had put up it instruments when the boisterous "Pecks" made our national anthem rediculous, joined in the volume of song with their instruments, and the singers were cheered vociferously by the foreign patrons of the cafe. It is such people as those tourist which place the government of the United States in such rediculous positions abroad and cause the nation to be detested for everything but its money.

A case of such cruelty as has been rarely unearthed, is alleged to have been perpetrated by a step-mother on a girl child who was kept in a stye like a pig, fed like the swine and denied of every comfort a human being is entitled to. The step-mother, a white woman, is said to have kept the child so confined for years, it was totally ignorant; did not understand how to play with toys, and was as deficient in its vocabulary as a two-year-old child.

The wife of Robert Brown died some years ago, leaving to his care a baby girl. After a length of time Robert again married. It was not long after his second venture into matrimony that he made his demise. Every day the second Mrs. Brown could be seen carrving to and from her home huge bundles of washings. Very recently the issue of Robert and the first Mrs. Brown graduated from the high school. The Mrs. Brown, second, was a proud spectator, and says that she hopes to give Marv a thorough education. All concerned are Negros. That is, the Browns.

At Columbia, Mo., it took the jury which tried George Barkwell for complicity in the lynching of James T. Scott, just eleven minutes to free him. And that after witnesses and testified to seeing him adjust the rope about his neck and shove him from the bridge to which Scott was hanged.

The prosecution of the case was made by the prosecutor, R. N. Hulen, who declared that the "prosecution might prove a warning against the transgression of the law." It is impossible for the man up a tree to see where the liberation of a culprit who was positively identified as the mob leader in a murder can have any moral tendency to cause any apprehension whatever to the murderers.

If we could only think in untiy for the common good; if we could mass the individual mind to think for the good of all, much would be accomplished for the race.

How you are Really Able to Distinguish Between Colors. L L L L L L

By E. B. Lewis B. Sc. M. D. 118½ East 9th Street

The "wallpaper" which lines the innermost surface of the eyeball gives the sensation of light to the human individual. It is upon this that real objects outside of you are centred. It is not true, as far as experiments and facts warrant, to say—as many books and writers do—that the sensation received on the retina is interpreted in the brain. All that can be truly said is that the brain is a threeway switch or central station through which the ravelled sleeves of sensation, experience, emotions and notions are knit together from the multiplied impulses of all parts of the living fabric.

This innermost layer of lining of the eye is called the retina, and it has a supersensitive spot in the center of the back wall. An impression received at this point is more distinctly perceived than at any other point. For instance, when you look upon a landscape only a small part focused on this central point of the retina is seen in any detail. The rest of the scene is missed because it falls on the parts of the retina other than its "bull's eye."

The general and greater part of the retina, then, merely gives you a faint glimmer of its truth, a vague idea of your environment and its relation to other things. That is to say, you can see only one thing at a time in all its ramifications, while the rest of the eye tells you that there are more real things in heaven and earth than you are capable of knowing. If you wish to know something of the others do not keep your outlook on life glued to one keyhole.

Shift you gaze frequently in order to get new truths, new points of view and brighter images of misty and confused impressions, which are very likely to be prejudices, bigotries and partisan narrowness.

WHAT COLOR APPRECIATION IS

Color vision complicates uncolored realities still more. While color is wrongly held by many physiologists to be a mental attribute, those same savants hold that animals distinguish colors without the shadow of a doubt, yet animals have no "psyche", no powers of the intellect. Color appreciation, however, comes from the effect analogous to the recognition of differences in size, shape, health, vigor, weight, noises, music, distances. That is to say, the appreciation of color is sensation plus memory. It is a distinction in reality, therefore a physiological activity, which results from the influence of the physical world, not the phychic states.

Briefly, then, experiences, knowledge, training, healthful tissues and instincts make you know checkers from fleur-de-lys, red from blue. All arise in the world around and not inside you. It is the separation of the rays or waves of white light into sizes and groups that make red, orange, yellow, green, blue, indigo and violet. When white light is thus broken up or disassociated, some tints, such as red and yellow, take in less space than the others, blue, for instance, although they do not differ correspondingly in wave length.

The spaces occupied in a rainbow or a spectrum by the different colors are proportionate to their differences in length of light waves.

SLOW MOVING PICTURES AT BRANCH TO DEMONSTRATE STROKES IN TENNIS

At the Tuesday evening assembly of the Northwestern Federation, Mme. Carter, of Chicago, was the principal speaker.

One of the most interesting adn valuable reports rendered was by Mrs. James, of Arizona, relative to the tubercular sanitarium in that state.

A most illuminating paper pertaining to "The Narrowness of Women," was read by Mrs. Gray of Oregon.

The benediction was pronounced by Rev. R. N. Holt.

On Wednesday evening Mrs. Joanna Snowden Porter presided. She entertained those present with a vivid account of her transcontinental trip, and of her journey down the coast, and spoke in glowing terms of the hospitality lavished upon her in the Northern cities.

Mrs. Porter and accompanying delegates were met at Sacramento by the First Vice President of the California State Education, Mrs. Irene Belle Ruggles and Mrs. Hettie B. Tillman, Past President. After an enjoyable sight-seeing trip, they were royally entertained by the Monday Club, of Sacramento. They visited the capitol and had the pleasure of sitting in the seat of our Assemblyman, Frederick M. Roberts. Later they left for Oakland, where they were met by the Art and Industrial Club of that city, the President's Council, in automobiles decorated in the Club Colors.

They were tendered a reception that evening by the Fannie J. Coppen Club, at the Community Center. On the following day they were taken on a grand sight-seeing tur by the Art and Industrial Club, and a reception by the President's Council.—At the Mme. C. J. Walker Club, San Francisco.

Percy, Godlen West Woman's Club, Bakersfield; Coleridge-Taylor Music Club of Bakersfield, Mrs. Oliva Gary; Lowery Musical Club, Mary Parks, President, and Marjorie Drisden, Representated the Club, with a Piano selection.

Miss Susie Hall, Supt. of Domestic Science, Golden West Women's Club and Miss Fanny Tigg, deserve great credit for the demonstration of their skill exhibited at an exquisitely appointed breakfast for the delegation. Mrs. Tigg is chairman of the Central Section, State Federation.

On the following morning the delegation left for Los Angeles, escorted by Mrs. Winters. Here they were met by the hostess club, the Ne Plus Ultra, and friends, and taken to the Y. W. C. A., where a charmingly appointed tea was tendered them.

On Wednesday evening, after the program, Mrs. Hunter Reeves of Chicago, Chairman of Ways and Means, staged a fashion show, and a packed house greeted her. The ladies were beautifully gowned, many in Paris creations. Stunning sport suits were pre-eminent among the lovely togs displayed; also exquisite afternoon tea gowns, garden bonnets, and evening gowns were advantageously displayed.

The demonstration of Mme. Carter's Hair Pomate by Mrs. Pearl Lowery Winters, with Mrs. Dodge as the subject, was a feature of great interest.

A collection of fifty dollars was taken up. Mrs. Elam, of Chicago, won a handsome bedspread, and Mrs. A. C. Richardson captured the prize cake.

On Thursday evening the installation of officers was held. The new incumbents were installed by Mme. Carter. After the ceremonies, a reception was tendered the delegates and frinds.

Thursday night marked the official cloes of the convention, one of the most auspicious in the history of the Federations. All sessions had been well attended, and the progress reported and planned for the future was of the most gratifying.

On Friday Mrs. Essie Saunders, President of the Phys-Art-Lit-Mo Club, with her committee, escorted the ladies on an automobile ride thru Pasadena and Hollywood, Santa Monica, Venice and Bruce's Beach, where they were served with an elaborate dinner, and entertained with an excellent program. They also enjoyed a dip in the blue Pacific.

Later in the evening they returned to Los Angeles, where a reception was tendered the delegates at the home of Mrs. A. C. Richardson. Incidentally, the delicious cake won by Mrs. Richardson on the previous day was cut and passed among the appreciative guests. Pictures of the delegation were taken.

DINNER FOR DELEGATION

The President's Council entertained the Northwestern Delegation on Thursday evening, July 19th, with an elaborately appointed five-course dinner at St. Paul's Baptist Church. The banquet hall was beautifully decorated; yellow and white was the color scheme skillfully and artistically carried out.

About forty ladies were present, including the Council and their guests.

The installation of officers followed.

THOMAS FINN FOR RE-ELECTION AS SHERIFF OF SAN FRANCISCO

The election takes place this fall, and among other positions to be filled will be that of Sheriff. Now as a matter of fact the present incumbent, Thomas Finn, has served in this position so long and faithful that the people refuse to look any further and just re-elect Tom Finn.

Nobody asks the question, "Who is Tom Finn." They all know who he is and in knowing him they know a man of absolute courage, honor and integrity, they know a man who is efficient to the highest degree and a man who will give due consideration to the humblest citizen of the great city and county of San Francisco. This writer knows Tom Finn and we can say for him that he measures up to the highest possible standard as a real man who appreciate to the utmost the rights of persons. We shall never fail to speak up for such characters as Tom Finn, for in this day of travail and sorrow, men of his type are few and far apart.

The Colored citizens of San Francisco in return for his broad gauged spirit have always been among his strong supporters, and at the coming primaries and election they no doubt will line up in one solid phalanx for the greatest peace official in all Northern California, the Hon. Thos. Finn, to succeed himself.

CAPTAIN GRASTY

(Continued from Page One)

To show the democratic spirit of this Camp Dix. Of course, he was promoted at the time of going on the General's staff.

lawyer, it is only necessary to relate how he shocked all the, Army officers at Camp Dix by posting a notice that any enlisted man could come to him, if he had a cause without first getting permission from the First Sergeant some other non-com. A great protest went up and Captain Grasty appeared before a board and there told them that there was no military or civil law against it, and the board had to agree with him. Therefore he became the most popular officer among the enlisted men in the camp, and this was one of the causes for the request of the General.

After the war Captain Grasty went to South America on a business trip for one of the largest corporations in the United States, in the capacity of Contract Agent. He visited every city in South America, and on his return was stopping in Rio Janeiro, Brazil, where he fell ill with a stomach disorder. He spent many months there, and in Cuba, in hospitals. This sickness covered the period from December, 1919 to May, 1922, when he arrived here, weak and gaunt, from a sanatorium in Wisconsin.

The subject of this sketch has a very charming daughter, Lillian E. Grasty, who is now in the east, at Hartshorn College, where she will finish her course before joining her father.

In San Francisco, Captain Grasty was the moving spirit in every matter that tended to raise the standard of our people, and now that he has fully regained his health, we hope that he will join the ranks of those here who are striving as he formerly did in the northern part of the state.

FAREWELL TO MISS MILDRED SCOTT

Miss Myrna Shivers on last Sunday afternoon with a formal luncheon for Miss Mildred Scott, who left that same evening for Topeka, Kansas, where she will spend the summer months with friends and relatives, returning to Los Angeles in September for the fall term at U. S. C.

Among those who enjoyed Miss Shivers' hospitality on this occasion were Miss Laura Williams, Mr. Harry Tracy, Mr. Thomas Moore, Mr. Phillip Munn and the honored guest.

Schwab, President of the Bethlehem Steel Corporation of Pennsylvania, was married in Chicago, on Sunday, July 22nd to Mrs. Norah Holt, wealthy widow of the late George Holt, of that city. Mr. Ray's wedding gifts to his wife include a $22,000 residence, and $10,000 in Bethlehem Steel Corporation bonds.

THE SHADOWED WITNESS

—By—

DORA L. MITCHELL

With shoulders squared and head erect, Donald sat between Lester Logan and Tommy Deaker. The latter was a newly fledged attorney whom Lester had befriended in his college days; he had attached himself to his benefactor with boyish devotion and had pleaded to be "associated" with him in the Douglas case. Lester had finally laughingly granted Tommy's plea, all unaware of the momentousness of his decision.

A morbidly curious, coldly hostile crowd packed the chamber. Far to the rear, Alice Douglas, like a frightened child, sat beside Helen Dudley, Lester's finance. Helen held Alice's left hand and occasionally squeezed it encouragingly.

Lester Logan appeared cool and self-possessed almost to the point of indifference. During those first few impressive moments after court convened, there was nothing to indicate that he felt the full weight of the awful responsibility that rested upon him in this, his first murder case; the realisation that he alone stood between Donald Douglas and——the gallows.

The jury was soon impanelled, inasmuch as Lester, to the surprise of all, offered none of the lengthy technical objections usually interposed. The jury sworn, Farwell Nichols plunged into the case without preamble.

The District Attorney was a tall, slender, fastidiously-groomed young man, smooth in manner and face. His mouth was satirical, his gray eyes cold and repellant with an expression of sardonic cruelty, partly masked behind the glasses he wore attached to a fine gold chain.

The testimony of the coroner and undertaker was first heard. The county physician, tersely questioned by the prosecution, testified that he had observed six knife-wounds in Peters' breast, including the one in which the knife had been imbedded. The knife was offered in evidence and the fact brought out that its handle bore a thumbprint similar to that of Donald Douglas. Officer McDonald was called, and testified to having arrested the accused beside the body of the slain man, and identified the envelope inscribed with the name and address of the deceased and containing five hundred and ten dollars in currency, as the one the accused had held in his hand when arrested.

Lester Logan cross-examined none of these witnesses.

Tommy Deaker looked doubtful, then surprised and finally anxious—but Lester sternly frowned down the question that hovered on his associate's lips. He whispered a few terse words of reassurance to Donald. That young man smiled; his confidence had not been shaken by his counsel's unusual tactics.

However, the faces of the jurors were grimly set. The countenance of the presiding judge was cold as that of a stone statue of justice.

Alice sat wide-eyed and tense, watching and listening without comprehending the significance of the proceedings, but to the sophisticated spectators it seemed that Donald Douglas was being speeded to the gallows with a swiftness and directness that actually robbed the grim proceedings of almost all interest.

Finally Farwell Nichols, manifestly elated by the case with which he was winning his victory, rose and announced that the State was ready to call its chief witness.

As Cuthbert Williams was sworn in by the clerk and took his seat in the witness's chair, a murmur of sympathy and interest rose among the spectators. Williams was pale and haggard. Lester, watching him keenly, saw the tremendous effort he was making to control himself. To the sympathetic and untrained eye, his intense nervousness offered all the symptoms of extreme illness.

Nichols quickly drew out Williams' evidence, which was briefly:

While walking down the east side of North Boulevard on the night of September 10th, he had noticed an empty automobile parked at the curb on the west side of the boulevard, near Nineteenth Street. Almost simultaneously, his attention had been drawn to two men engaged in loud argument on the pavement a few feet from the car. He had seen one of them suddenly flash a knife and stab the other several times in rapid succession. The wounded man had fallen; his assailant had stooped over his body. Williams had then rushed for help. A half block away he had come upon McDonald, patrolling his beat.

The voice of the witness rose shrill and piercing. Occasionally he stopped to draw a long, stellant breath, as though in pain; again, he paused to mop perspiration from his face with the handkerchief he clutched in a shaking hand. He had the sympathy and the confidence of the crowd. Judge and jury listened to his straight-forward testimony with unmingled grave intentness. It might well seem that Donald Douglas was doomed.

"And do you see in this room the man you saw stab John Peters on the night of September 10th?" intoned Nichols, in the perfunctory tone and manner of one merely going through a routine form.

"Yes, I do!" shrilled the witness. "He's there—sitting by his lawyer."

At that moment Lester, whose eyes had not left Williams' face, with seemingly inexcusable awkwardness knocked over a stack of books piled near the edge of the table. As he leaned over to pick them up, Nichols announced, with thinly veiled triumph:

"The people rest."

Lester rose. "If it pleases the court, I would like to ask for a recess of twenty minutes." As Nichols started to object, Lester added, almost apologetically. "I'm sure the Prosecutor will be willing to grant this time to look into certain matters pertaining to our defense."

Farewell Nichols barely repressed a sneer. Certain the jury would bring in a verdict of guilty within ten minutes, he attributed the tame, almost cringing attitude of young Logan to the fact that the latter had practically no defense to offer.

"The people accede to the desire of counsel for the defense," he said, contemptuously, "and suggest that a recess be taken."

When court re-convened, Lester Logan was seated near the end of the counsel table, as in the morning. At his right sat a young man, bent forward, his head resting on his arms. At his left sat another young man, jotting down notes from an open book before him.

Lester addressed the court and asked that Williams be re-called for cross-examination. As soon as Williams had taken the stand, the young man at Lester's right nervously plucked the young attorney's sleeve. With a brusque movement, Lester shook off his hand.

"Leave me alone!" he said, sharply. "I'm handling this case for you." At the same moment he wheeled around on Williams, who was watching him distrustfully.

For a full half-minute Lester focused upon the face of the witness a look of friendly interest, whose effect was most disarming; the young advocate knew that browbeating, bullying or sarcasm would only add to the sympathy Williams had already inspired. When the witness's expression of distrust and defiance had given way to one of easy assurance, Lester began to question him in a manner at once courteous and conciliatory. The first fifteen minutes were given to an interrogatory that merely re-covered the ground gone over by Nichols, and as the witness repeated his original story without variation, the face of the Prosecutor took on an expression of satirical boredom.

"That's all for the present, Mr. Williams," said Lester Logan, quietly. The witness started to rise with pleased alacrity.

THE CONQUEST OF COOMASSIE

An Epic of the Mashanti Nation
By: Aldebaran

Reviewed by Wendell P. Gladden, Jr.

Africa, land of unearthed diamonds and forests primeval, has long claim-the attention of the civilized world. Interest in the "Dark Continent" has been renewed by the seething unrst of the dark peoples everywhere, described as "The Rising Tide of Color," and the discovery of the tomb of Tutankhamen, ancient ruler of Egypt. Archaeologists, historians, scientists, and travellers now spend much time in investigation and research because of this most recent development which has influenced our art and styles and thought.

The forth-coming work, "The Conquest of Coomassie," by Aldebaran, will be the cause of further interest. Among the many literary men of national reputation to read the book is Mr. D. M. Shreve, editor of the Worth While Magazine, reviewer, critic and philosopher, who says:

"The Conquest of Coomassie, beautifully told by Aldebaran in an epic poem, is a vertification of the theory of H. G. Wells and other writers that Africa was the cradle of the world's civilization."

Another comment may be added. Mr. John Steven McGroarty, author of the famous Mission Play and Editor of the Los Angeles Sunday Times Magazine, writes:

"It is indeed an epic, really Homeric in its strength and beauty. I have read it with the deepest pleasure."

Coomassie is the capital of Mashanti formerly included all the country lying in the watershed of the Niger River. This territory is now known as the United States of West Africa, but is referred to as "Ashanti or Ashantee." In the Ochi tongue, however, it is M'Shanti, and called by the natives Mashanti.

The English and the civilized nations in general attempted to justify the vandalism and greed which resulted in the campaign that brought about the disintegration and destruction of the powerful Mashanti people. The author says in part:

"This country which is so little known to the western world possesses records of have dealt with, and been known to the Arab and Moslum peoples, as early as the twelfth century, and as far east and north as Egypt and the Mediterranean.

"Early in the 17th century there came to the throne of Manshanti a monarch named Osai Tutu. This monarch was to that rich extensive country, exactly what Peter the Great was to the scattered tribes of Russia, and Frederick the Great was to the great German Confederacy.

"He conquered the territory of Akim and Assin, reduced the powerful kingdom of Denkira to a tributary, subjugated Jaman, Tufel and a great extent of the country beyond the Tanno River and extended his authority even to the Great Desert of Ghofan in the north."

This monarch brought the Moslum states into the confederacy and built Coomassie, making it his capital, and won for himself the title of Osai Tutu the Great.

The conquered states, on the death of Tutu, attempted to revolt, but were put down by his successor, Osai Opoku, who conquered the kingdom of Dagomba, and exchanged embassies with Dehomey and Akwomu, according to the writer. Osai Kwesi, Osai Tutu Kwamina, the Great, followed in succession.

A series of events, during the reign of Osai Tutu Kwamina, brought the people in contact with England, and ended finally with their destruction by the European power.

Lord Wolsey led an expedition against the Mashantis in the year 1874 and said regarding his gallant foes that, "From the Ashanti I learned one important lesson, namely: that a virile race can become paramount in its own region if it possesses courage, constancy of purpose and self-sacrifice."

It is said that they never appealed to the sword if there was opportunity to secure peace; nor were they known to violate treaties. The Mashantis have been lauded for their skill and bravery in war; diplomacy and patriotism; and regarded as the most formidable people of the Gold Coast.

Our book then, attempts to epitomize these industrious, progressive, and brave people. It will stand as a monument to their achievements and memory, for the Mashantis were, as Aldebaran states: "Without doubt, the most powerful and orderly native African institution which, but for its wanton destruction by the treacherous, imperial English, has bid fair to extend its beneficient and civilizing influence over all of the native tribes of West Africa."

The poem is divided into five cantos with a prologue and an epilogue. Descriptive scene, tense situations, filled with native beauty and atmosphere and action throbbing with interest and suspense, are noticable throughout. African culture, traditions, and characteristics, picturesque settings, entanglements, forests, and the wide stretches of scenic Africa, are emphasized. Ceremonies, narratives of the past, military engagements teeming with the cunning of native chiefs and the bravery of warriors hold our attention. More than this, the reader is reminded of the dress of the natives and their original art and designs, of primitive, stirring, but rythmical music. It is all a picture of grandeur, of pomp and power, and blood; it is a story of jealous, greedy military power, and a prosperous and rich country, with gallant and able leaders as attested in the character of King Prempey, which is related in the epic.

Following is the Prologue which tells of the departure of the black British Colonial troops from Jamaica for Africa:

"The pick of the doughty Second West,
On their way to do the King's behest;
Had left the shores of Jamaica's land,
A blue-green gem in the coral strand.
For England's King he had sought their aid,
For England's Might it was sore afraid."

Canto One depicts the array of the British troops and defy by the Mashanti King Prempey:

King Prempey, chief of a war-like tribe,
Had scorned the proffer of England's bribe;
He would not barter Mashanti Land
To the white king's mercenary band.
Therefore, England gathered her fighting men,
From field, from mart and from Highland glen;"

In stanzas XI. and XII. King Prempey says:

"I Prempey sit on my Golden Throne!
I rule Mashanti and I alone!
My sov'reign Power and Sacred Sod
Shall bow to none but the Black Man's God!"

"Far back in ages long gone by
When Earth was yst a mystery
When vapours rolling from the deeps
Wrapped heaven's dome in purpled sweeps,
And monsters roamed the wild plains o'er;
And murd'rous talons reeked with gore
And venom talked and death reigned king,
And man was still an infant thing;
Our fathers ruled this ancient land."

Thus he tells in this and preceding stanzas when he addresses his people, of the glories and achievement of ancient Aethiopia.

The second canto—The Oracle and Prophecy, is a description of native ceremonies. It also includes the invocation of the Oracle. When the Oracle speaks, the outline of the whole history of the rise to greatness, pride and fall of the black peoples of the world, is given, and it ends with the prophecy of a redemed Aethiopia.

Note the beautiful description in the second stanza:

"Or if some demon of the air
Vext by their fleecy whiteness fair;
Had drained a martyred Spirit's blood
And steeped them in the sanguine flood."

But soon a sombre curtain fell
On lurid eve; and down the dell.
Throbbing and moaning with affright
Came clam'rous echoes from the night."
"'Tis Sakro-Bundu's mystic drum
Whose echoes from the midnight come!"

In another scene the natives fall prostrate and call upon Sakro-Bundu, whom they praise and call, "God of us all!" Further an Ode to Bundu is given. It begins with the following:

"O Thou who spread'st the desert sands
To mark the bound of Aethiop's lands!

* * * * * * * * * * * *

Great Bundu! In thine August Might
We call upon Thine Ancient Name,
Now, then an devermore the same!

Stanza seventeen in the Invocation is worth adding, because of its range and beauty:

"She spoke, the gleaming blades descend,
The victims' shrieks the darkness rend,
And gurgling o'er the sacred floor
In crimsoned streams, librations pour."

And eighteen:

"The laden air with sweet suffume
Had canopied the midnight gloom,
And hung, like Suttee's writhing curse
Above the prostrate worshippers."

Canto Three or The Golden Spear, is descriptive of the marshalling of native tribes for war:

King Prempey sent the Golden Spear
To Afric's Chieftains far and near,
To claim their aid in league that day,
To battle England's proud Array."

* * * * * * * * * * * *

"The jungle beasts had rest that morn,
Nor slunk behind th'accacia thorn;
The blinking crocodile swam free
Nor dread the poisoned shaft to see.
The vicious wild-cat spat his ire
But could not tempt the hunters' fire;
For Afric's men from far and near
Had seen the Golden-shafted Spear."

The Golden Stool is the title of Canto Four. tf tells of the coronation of the Mashanti King. In this canto a seer warns Prempey of the destruction of the country by British Colonials.

"Deep-voiced, the priest now chants the song
In tones that thrill the gazing throng.
Thou Lion of the forest-glade!
Thou warrior-chieftain unafraid!
Mashanti's Sov'reign Stool I bring,
Osai Qua-kou Dua, King!"
King Prempey has mounted "his golden throne
That like the sun, for brightness shone,
And courtiers and maidens fair,
Osai, Prah, and Kabbocier
In homage bend before the king."

But the ceremony is now disturbed by "a bent form, old and withered" which gives the warning to the king. Notice in the following lines the depth of sentiment and poetic emotion which search the soul:

"When glow the forest-lamps by night,
And dread shapes flee their fitful light;
When deep sleep binds with chains of brass
The tired frames then true souls pass,
And out, beyond dim portals go,
Bathed in the Future's mystic glow.
While thus beguiled in Fancy's maze,
Dread scenes unfolded to my gaze."

Again:

"Their Christian masters taught them well!
For now with England's shot and shell,
From out the Western Isles they come
To work Coomassie's shameful doom."

We come now to the last canto which is the story of the Conquest. Perhaps in no other setting is there such wide range of description and color and action. In this cene is given the actual wanton destruction of the mighty Mashantis. These sketches run the gauntlet of the emotions. Courage, bravery, cunning, maneuvering, marching, glinting steel, fire, yelling and groaning, and moaning, gorgeous costume and military array, the dumb and hiding wild creatures: but alas! blood, and borrowing, and smouldering ruins of a once great empire; are part of the surging tide of battle and the result of greed. Such are the events which follow. Note the effect of this bit of description:

"The Phantom Dawn, had conquered Night;
Nor sped the Sun one shaft of light,
But like a guilded warrior bold,
With sword of flame and shield of gold
He, crouched in pregnant splendour, lies
Behind the parapeted skies.
It was the hour when woods and hills,
And lazy dunes, and slumb'rous rills
Paused to recount the tales of fright
Molok had whispered to the night.

* * * * * * * * * * * *

"So still the morn, that not a breeze
Rippled the miamossa trees,
Where bold Jumbala's ambush lay,
Waiting the dawning of the day."

In the combat between an English soldier and a Kongo chief there is much action.

"The nostrils swelled, the eyes shot fire,
And like a panther in his ire
He sprang. But swift as changing light
The English soldier's dagger bright,
Its vivid gleam likht lightning sped
To meet the charging chieftain's head.

* * * * * * * * * * * *

"But swift as was the soldier's skill,
The Kongo chief was swifter still.
'Ere Gordon's puzzled wits could show
The purpose of his jungle foe—
A grip like tightened iron band
Had wrenched the dagger from his hand."

A panther has been killed by Jumbala. These lines show more of the author's ability.

"With bulging eyes the huge beast fell;
And down Makoba's wooded dell,
The echo of his gurgling groan
Resounded like a demon's moan."

And later:

"Noon-tide. Beside Sangara's glen
Halted Samadu's desert-men
For call to prayer and light repast,
Their quaftans on the sand dunes cast,
And mufti sounds the muezzin's call—
'Give praise to Allah! One and all!
For God is Great! and but One God
Rules sky and sea and boundless sd!'"

In stanza forty-six King Prempey is described turning from his burned empire. All is lost! He goes to his council hall and sits upon his golden throne:

"They found him there, proud England's men.
Mashanti's Lion in his den.
And nobler heart ne'er broke or bled
Than broke this heart, to exile led!"

Concluding, the poet writes:

"But who shall say, the lust-mad fire
That lit Coomassie's funeral pyre
Put out, with the last tortured cry
That winged it's protest to the sky?
For who can tell where, hides the spark,
Enkindled in Greed's Caverns Dark?"

"The Conquest of Coomassie" is a classic. Its author has travelled extensively. He has spent years in Mashanti studying the people and gathering and compiling material for his book. Copious notes make the work even more significant. It is profusely illustrated with five full and five half page half-tone drawings. Henry W. Brooks, a brilliant young colored man of Los Angeles is the artist. He deserves much credit for his painstaking efforts and talent to make the book an artistic and literary triumph.

George S. Grant, promising young writer, has written the preface to the Conquest of Coomassie. Mr. Grant says in part that, "The Conquest of Coomassie," challenges the Western Civilization; reveals its paucity of purpose and prophesies its downfall.

Against the glorious background of culture, under the rule "of wisdom, truth, and right," is thrown the pitiful picture of a money-mad world; where the rapacity of an insatiable greed bankrupts the human soul."

There is an Autograph Edition of the Conquest of Coomassie now on the press. (Worth While Publ. Co., Long Beach, Cal.) Pocket or Classic size, done in beautiful leather and gold. The cover design includes a sketch of the golden stool which was used by the Mashanti kings.

In order to meet the great demand for this work, the first thousand copies of the popular edition will follow immediately.

The race may be justly proud of this literary achievement. Many poets have been produced, but none have surpassed the author of the Conquest of Coomassie for attention to detail in description, sterength and beauty in lines that glow with imagery and stand out pre-eminently Homeric. It is an epic of the Mashanti people and it is a monument to the culture and pride of ancient Aethiopia. Black peoples of the world over should welcome this most wonderful picturization.

The Book is Dedicated

"To the memory of Y. Andrew Roberson, author of "Ashes," whose untimely death cost us the most brilliant novel of the century, "Rodas, Princess of Dawn," upon which Mr. Roberson was working at the time of his lamented death."

One good flivver with piston rings,
Two rear wheels and one front spring.
Has no fenders, seats of planks,
Burns lots of gas, hard to crank,
Carburetor busted half way thru,
Engine missing, hits on two,
Seven years old, eight in the spring,
Has spark plugs and everything,
Radiator busted, sure does leak,
Differential dry, you can hear it squeak,
Twelve sokes missing, front all bent,
Tires all blowed out, ain't worth a cent,
Got lots of speed, runs like the deuce,
Burns either gas or tobacco juice,
Tires all off, been run on rim;
Darn good flivver for the shape it's in.

NEWS OF CALIFORNIA STATE

SANTA BARBARA

The services all day Sunday at both churches, Second Baptist (Rev. H. B. Thomas, pastor) and St. Paul A. M. E. (Rev. C. A. Harris) pastor were inspiring and well attended.

The children of Second Baptist Sunday School have been very busy socially during this vacation. The weenie roast with their pastor, Rev. H. B. Thomas as host, was a huge success and he won great praise from the little folks.

The Willing Workers Club of the 2nd Baptist Sunday School organized by the children themselves with Lillie Mae Pruitt, president; Ruby Miles, secretary and Bernice Thomas, treasurer, gave a dinner Thursday night which was cooked and served by them—the notable feature being the fact that cooks and waiters and waitresses ranged from 6 to 13 years. Service was their motto and all the grown ups are loud in their praise of the affair. They were thus able to add $22.70 to their bank account, there being enough over and on hand to amply take care of the union picnic needs without drawing from this fund which they plan to use in another way in the near future.

Mrs. Wm. Boykin has been ill but we are glad to say she is improved to att SHRDLU CMFWYP SHRDL 22 so that now she is up again.

Get ready for the ball game and races, folks. Remember the Union Sunday School Picnic held July 19th at Oak Park. All are welcome.

July 4th was an ideal day and the children of the Baptist Sunday School, as guest of their elder brother, John D. Stewart, spent it as such. It was also the National Day of Mr. George Jones of 27 East Gutierrez St., who was 50 odd years old and combining the two parties one big time was held. Everyone enjoyed the bounteous spread which consisted of two dozen fried chickens and all the fixings along with two gallons of ice cream and plenty of cake. After being rested upon orders, etc., short talks, by the pastor, Ass't. Supt. of the Sunday School, Mrs. E. J. Alexander, Mrs. M. Causey, Mrs. H. J. Stewart, Mrs. Nettie Jones, Mrs. H. B. Thomas, Mr. McKinley Causey, the Elder Brother Stewart and last but not least a speech by the man who was 50 years old, Mr. George Jones, an excellent time was had. A ball game was held afterwards with a score too large for counting.

Mrs. Bessie Williams of 405 Rose Ave., with her children Andrey and Clifford is spending a fifteen days' vacation with her sister, Mrs. J. A. Teat of Pasadena.

The Junior Missionary of St. Paul A. M. E. enjoyed a weenie roast on the beach last week and they plan another in the near future.

Mr. Charles S. Newton, formerly of Chicago, Ill., but recently of Los Angeles, Cal., a licensed Real Estate dealer is a visitor in our city and expects to locate if conditions permit. Mr. Newton is a cousin of Mr. J. K. Payne who is already a business man of our city.

Mrs. Mattie Kennedy left Monday morning on an extended visit to Los Angeles, Pasadena and San Diego, she expects to return in a fortnight.

Mrs. Clarence McGawen has returned from Monrovia after a week's visit much improved in health.

Mr. J. J. Reeves of the firm of Green and Reeves garage has moved to the southern city for the benefit of his wife's health.

SACRAMENTO NEWS

The Stranger's News goes to press every week but sometimes his column fails to show; it's someone's fault—but not his.

Among the recent purchasers of automobiles are Geo. Dunlap, Willys Knight seven passenger closed car, the last word in modern conveniences and W. P. Taylor, Chevrolet touring of the latest model.

Mrs. Guy Smith and daughter Peggy of Marysville are visiting relatives and friends in the city.

Mrs. Mayme Atkinson left Saturday for a few days with friends at Vallejo.

Mrs. B. A. Johnson and party left early Sunday morning for the Johnson Camp up near Lake Tahoe.

Mrs. R. G. Jones and Mrs. Irene Bullock of Tuscon, Ariz., are recent arrivals in Sacramento where they will probably locate.

COMMOHABI CONSOLIDATED MINES CO. AND THE MISSOURI GROUP MINING CLAIMS ARE BEING SHOWN UP TO SELL.

To Afro-American citizens of Los Angeles, and especially, first the co-owners of the Missouri selling group of mining claims, and second, the stockholders of the Combabi Consolidated mines company; that we are in sight of the harbor of success; our success has been made doubly sure by our recent discovery of free gold about six weeks ago.

The brief history of our efforts is that I brought the Comohabi Mines Company to the attention of the Los Angeles Afro-American public in October, 1915, eight years ago to finance, which was only partially successful, the main reason being that we were never able to get the support in a large way that our great, valuable property and plan called for by those of our people who could have put our great plans over, overwhelmingly long ago, but those who were able to do so, not only refused to get together and give my claims and presentations a thorough and intensive investigation, as to the truth and practicability of my claims, but many, very many, went into the opposite direction, of extreme opposition to head off in every direction possible the placing of our stock here, and their opposition based on not a scintilla of facts. So, seeing that this wide spread unreasonable opposition and misrepresentation was keeping the great masses of our people in doubt and long ago having decided to make this city the grand headquarters of our great mining business; and financial plan, and to consolidate here before wider national expansion, my close associates and I decided that the best way to overcome the confronting situation, in order to strongly finance our great Comobabi plan and get the confidence of the great mass of our wage earning people, was to get together a large group of mining claims and do enough work on them to outline their true value in quantity and quality of ores and then sell them to big, powarful mining capital, we started to show up this big property the past July, one year ago; we have put down shafts and put in tunnels, we have great out-croping bodies of both low-grade gold and copper, and their true avlue has been approximated, which the ordinanry prospection was not able to do, and in both our shafts and tunnels we have cut large veins of ores which give both quality and quantit and the finishing up of these shafts and tunnels that has been placed at important strategic places will give us double safety; meaning that we would be able to ship the richer ores and keep full faith with our co-owner investors, if for any unforeseen reason we could not sell at a reasonable advantage when we are ready; which we are going to make a supreme effort to do some time this coming fall, we will at least be in a position to take care of those of our co-owners who have special obligations ot meet. I am able to say this because we capped the climax of our year's efforts by making a great free gold discovery about six weeks ago. I mean by free gold, gold distributed through the vein quartz in suggets, wires, and scales, meaning further that if it becomes necessary that we can make this free gold roperty more than finance the finish up the show up of our great 600 acre selling property either by selling the free gold property first and separate, or by shipping some of the extra rich ore. At this point I wish to say to our co-owners that instead of decreasing your pro rata in this sale, the more money we have to spend in the short time remaining to finish up this sale, the more your part will be, and to you who this letter interests see me first before you ask the advice of others or see someone friendly to our aims and efforts before deciding; because if you have not had a wide experience with the public, you will find every effort you try to make blocked. I write in this vein because I know financial organization is the supreme necessity of our people and it's my supreme ambition and desire to contribute the very best that is in me to that end, and I know that my plan as outlined by the Comobabi, mining, real estate guarantee and business plan is the greatest ever offered any people at any time for financial freedom and security; so fortunate will be you who help to put over this selling property for your good fortune will just begin, you will be remembered all the way and especially when after our sale we turn to our great company plan, in conclusion I want to ask is it true that according to U. S. census report, that the Negro death rate is equaling the birth rate; if true is it not appaling, and does not individual selfishness on our own part lie as 'the basic cause? The law of co-operative effort is beautiful beyond description, it is saving and protective. Let us organize our earning and spending power, and the law of being our brother's keeper will begin operation ever growing into more perfect comprehension; and my great Comobabi plan that I brought you eight years ago which is now nearing success through our great Missouri Co-owner selling group, is the greatest basic practical plan ever offered to any people, and our free gold discovery will make things move fast from now on, to hesitate and wait is to lose —I will be here 8 or 10 days longer, but I warn you that one of our men who has been with us in all of our showing up left for Pittsburg and New York a few days ago at his own expense to get the money to finish our showing up declaring that our people in the East have no conception that Negroes have in their possession 1,700 acres of valuable mining property. He hopes to prevent a double sale of the property realizing that by selling the 100 acres of free gold property as a part of the 600 acres of gold, silver and copper property will bring a much larger price so he has gone back to his home state to raise the money to finish up and make one sale instead of two. Those wishing to see me leave word at both the New Age and Eagle offices and at my stopping place, Main 3209.

G. W. MILLER,
Promoter of the Missouri Group of Selling Claims, and President of the Comobabi Consolidated Mines Co.

HOLD GRAND SESSION

KNIGHTS AND DAUGHTERS OF TABOR HOLD FORTH IN SAN DIEGO, CAL.

The Grand Temple and Tabernacle, Knights and Daughters of Tabor, International Order of Twelve, Jurisdiction of California-Arizona, convened in the city of San Diego, California, Tuesday July 3rd at ten o'clock.

The Chief GGrand Mentor, Sir W. J. J. Byers called the session to order, and ordered the roll of officers and bodies read. This showed a full attendance of officers, and rerepresentatives from all bodies, with the exception of two.

The annual address of the Chief Grand Mentor, was a splendid review of the accomplishments of the Order during the year. It was well received and the several recommendations were incorporated into law. The Session was brought to its feet, when the Chief Mentor dramatically exclaimed that, "Tabor has taken its place in the very front ranks of Fraternalism, and every member must pledge himself anew to its progress and its ideals."

Dtr. A. E. Bomar, the Grand High Preceptress, who had but recently undergone a very serious operation, was able to be present and make her report. This showed the Tabernacles under her charge to be in a very fine condition. This address showed her interest and contained many very fine recommendations.

The report of the Grand Chief Scribe, Sir S. M. Beane, showed the establishment of several new bodies during the year. There are forty-six bodies in the jurisdiction with a total membership of eleven hundred and fifty-two. This is a very splendid increase over last year. The report showed all bodies represented as far as their financial reports were concerned. There were more than seven hundred dollars collected in Grand Dues and assessments.

The Grand Queen Mother, Dtr. Sadie Alexander, reported for the Tents, and showed the very fine growth of the department. The report showed a fine grasp of the work, and carried several splendid recommendations.

The Death Benefit Department, established less than three years ago, thru the reports of the Secretary, Sir J. E. Walton and the Treasurer Sir R. A. Johnson, showed a balance of over four thousand dollars in the treasury with all obligations paid up to date. This department paid out in claims last year more than two thousand dollars. This is a wonderful showing for the time of its existence.

The Burial Fund, thru the reports of the secretary Dtr. Eliza Warner and the treasurer Sir A. Turner, showed a balance on hand of more than twelve hundred dollars, with all claims paid up to date. This department paid out in claims during the year more than Five Hundred Dollars.

Before a large concourse of people, the Grand Session was welcomed to San Diego; on the part of the city by Mayor Bacon, in an address that rang with words of welcome and brotherhood; on the part of Tabor by Dtr. A. A. Knight, in beautiful and well chosen words; on the part of the citizens and Fraternities by Mr. Saunders, in a very fine address. Responses on the part of the session were made by Dtr. Dorena Flewellen and Sir S. M. Beane.

The entertainment of the Session could not have been surpassed, San Diego sparing no pains to make the delegates comfortable and contributing its share in making this the greatest session in the history of the order on the Pacific Coast. The Committee in charge gave a picnic on the 4th of July at one of the beaches and furnished the "eats" for all who attended. It was a great day and immensely enjoyed by all.

It was a great session, enjoyable, brimful of interest, and enthusiastic. It was an inspiration to be present and listen to the splendid reports that were on a high plane. Things were were on a high plain. Things were done and action taken that will redound to the benefit and uplift of the Order. Everybody returned home determined to do more for the progress and advancement of Tabor than they have ever done before. The job ought to be easy, for no fraternal organization on the Coast is offering as large returns for the money invested as the Knights and Daughters of Tabor. For $13.50 per year a member gets sick dues, and $375.00 at death. It is impossible to pay more than that amount in a Temple or Tabernacle. That is fixed and cannot be changed. If one wants protection he has it here in abundance and for a nominal price. You cannot duplicate it anywhere.

The following officers were elected: C. G. M., Sir W. J. J. Byers; G. H. P., Dtr. Dorena Flewellen; V. G. M., Sir G. W. Brown; V. H. P., Dtr. Alta W. Clark; C. G. S., Sir S. M. Beane; C. G. R., Dtr. A. A. Knight; C. G. T. and Treas. of Burial Fund, Sir Turner; C. G. O., Sir Jones; C. G. P., Dtr. Jackson; G. P. P., Sir Warren Woode; C. G. Q. M., Dtr. Sadie Alexander; G. I. St., Dtr. Kathrine James; Burial Fund Secy., Dtr. Eliza Warner; Death Benefit Dept., Sir J. E. Walton; Death Benefit Treas., Sir R. A. Johnson.

These officers elected were installed in a beautiful service with the appointive officers on Friday night.

The session closed to meet in 1924 at Watts, California.

EDITORIALS

The fruit of the spirit is love.

The weaker a man is, the stronger his habits grow on him.

The people who are content are really those who don't know an ybetter.

COMBATTING THE DOPE EVIL.

Los Angeles has devoted one day towards the combatting of the Dope Evil that has become alarming and almost a national menace. The City of Los Aigeles has made extensive preparations to unearth this awful traffic, but has been unable to locate the source of production. The public should join in this war upon "Dope Peddlers" and check this one thing that destroys the mind, shatters the nerve and makes demons and criminals out of the flower of youth. Lots of these peddlers are high up in society and make their living in destroying human souls and wrecking human lives. Even though they are hiding behind the law and their social and political pull in the community, they are of the worse criminals and should be put behind the bars forever.

Some have advanced the idea that education will solve this problem; that people ought to be warned properly of the effects of this deadly drug upo nthe system. Ignorance is the breeder of crime and the one central figure to combat, if we are to save our children and make them useful American citizens. One has but to pass the street and look into the faces of the young boys and girls and watch their unsteady step, their blaring eyes and dancing heads to know that they are using some form of dope. Before it is too late, take your children in consultation and tell them the other side of the case. The dope peddler has told them his side to make money, you can save them by telling them the side that will save their lives.

ELIMINATION.

The day of division, distrust, enmity and jealousy is at an end and everything points to a nera of combination, trustfulness, good will and disinterested regard for the perpetuity of the race. Some things now occurring are the results of ignorance, other things are the results of carelessness, and others because of a disposition to do as one pleases. Sometimes in the face of clear examples, men go along in an endeavor to carry into effect their designs with signs of danger placed all around. That man is a criminal at hert, and has decided to take the chances even at the expense of a few lives and the pledge of his own. What a splendid example would he set, if at the moment of commission, he would lay down his weapon and resolve to reform. The commission of one crime makes it easy to commit another.

As a race, we must eliminate the crimes that necessitate the forfeiture of human lives. Another thing which has done and is doing much to break down the race habit, (we mean bad habits) is the habitual use of tobacco, fermented liquors and drunkenness; the habit of gluttony and revelry; the habit of gambling and betting. There can be no argument in favor of any of these classes because of a few cases where men have gotten by without disasters.

The tobacco habit in its up-to-date form of cigarettes, has been condemned a thousand times by the medical fraternity, and yet men of the profession use it extensively. Doss that not seem foolish? The greatest danger lies in acquisition by the youth of the land. The uny, sickly boys—the hot-beds of tuberculosis are the results.

Another great detriment to the youth of today is that of revelry and the loss of sleep. No boy can get his youthful grasp upon life who will leave his bed at night unrumpled and find himself creeping in just before daylight and prepare to do a day of labor. No girl can hope to rise beyond her present condition who attends all kind of public functions where everybody is invited—the good and the bad all together. No sensible man will go to a public ball room to select a wife; he only goes there for a good time. Take a hint you folk and take a start upward. If you are employed take the proper rest so you can render efficient service to your employer. The men and women who have lived best and done the most for humanity are those who have observed the rules of sobriety, frugality and thrift.

THE SQUARE DEAL AND COUNTY OFFICIALS OF LOS ANGELES.

Next week we will publish an article from Attorney Clinton T. Ross having to do with recent experience which was his in essaying, through meritorius effort to gain the position of Deputy District Prosecutor or Defender, which position by competitive examination he had gained and stood way up at the top of the list. His name was duly certified by the Civil Service Commission but our new District Attorney it seems displayed more science in dodging this particular appointment, than was ever displayed by Jack Johnson in avoiding the fist of an adversary in the squared arena. This brings most forcibly to the attention of all who read, that as constituted now in this particular office there will be no square deal wherein an applicant for the emoluments of office happens to have a dark skin. This to our mind is more of a reflection on the part of the appointing officer than it is upon the applicant. For in all justice to himself to the County which he serves, would it not be the sensible and right thing to do to give representation to 45,000 of his constituents. While Ross loses out temporarily and the race likewise their future is before them and in due time District Attorneys will come who like Theodore Roosevelt will not hesitate to give all the people a fquale deal. The Soaring Eagle speaks up for the people at this time and absolutely unafraid of any consequences, that there are men future who will be District Attorneys who will not hesitate to be just to all classes of his consituency and render unto them a fair and square deal and that time will be in the not far distant future.

NAMING JUDICIAL OFFICERS.

It is up to our Supervisors in a few days to name several judicial officers made possible by new legislation enatced at the last session of the legislature.

For one of the place of Justice of the Peace three names o fhighly reputable and able jurists of our group have made application and we suppose that they are being backed up by their friends. The Eagle commends each one of them as high class and qualified in their profession and we look to our Supervisors to at least out of all their appointments at present and in the past, to choose one of these three; they are E. Burton Ceruti, Paul M. Nash and E. C. Jennings.

We appreciate the many angles and persons which the Board must satisfy and where all sides of the many other applicants are bearing down upon the Supervisors the one best bet, is to reach way up yonder and pluck one of these very competent and capable attorneys as mentioned above.

organ of sight which is the chief factor in the education and intellectual development of man, and by its aid, the form, color, size, distance, position and characteristic objects become known.

...The sense of sight lies in the brain not in the eye, and may be divided into three classes of perception—light, form and color. ..Light sense is the faculty of distinguishing illumination and its graduations of intensity. Form sense is the.. faculty.. of recognizing shape or outline. Color sense is the highest development of vision and enables the eye to.. appreciate.. light waves of.. different.. frequencies. ..In general, all three divisions of visual perception are present but either of them may be lacking in a particular case

Island and as such was noted for his efficiency. He is a property owner, churchman and all around man of affairs and his friends are legion.

We also met the talented and brilliant educator, L. J. Williams, who has for many years been a reader of the Soaring Eagle and we appreciate him for his forcefulness and energy in the prosecution of any proposition which he undertakes.

At San Francisco we met the District Grand Director of Odd Fellows, Mr. Orval Anderson. Mr. Anderson is also on the side when not at his post with the Santa Fe R. R., quite a scribe and contributes generously to a local paper. He is one of the rising members of the Odd Fellows and secretary of the famous Golden West Lodge at San Francisco.

At Oakland we met S. C. Moore Deputy Grand Master of the Odd Fellows, who extended to us every courtesy and who was all in his glory at the successful setting up of a new Lodge of which he was the promoter at Berkeley. Mr. Moore is serving his second term as deuty District Grand Master.

At Fresno we stopped at the beautiful new home of Mr. and Mrs. Barnes 1412 D Street and we appreciate the progressiveness of this couple who have improved this section to such a large degree, they have recently erected a most modern six room home with every modern convenience and luxuranly furnished throughout. No home in all California shows to any better advantage than this home of Mr. and Mrs. Barnes.

At San Francisco we will not close by failing to mention our meeting with the sage and politician, John Taylor, who is a patron of the Eagle and acknowledge the courtesies extended us. Also we must mention a new Eagle subscriber, Mr. H. Alexander, who conducts a flourishing cafe on Sutter near Fillmore. Nor Mr. A. Alberga, the hustling genius of Golden Gate Lodge.

HOUSTON SHANNON ON ROAD TO HEALTH

During our recent visit at Oakland, we visited Mr. and Mrs. Shannon, at their beautiful home on 19th Avenue, and we are glad to note that after quite a serious illness, Mr. Shannon is raidly gaining his health and will soon be able to be up and around.

Eagle readers will remember that Mr. Shannon was formerly connected with this aper here and later as our Northern representative. He was an entergetic worker and rendered valiant service to this publication. Mrs. Shannon, his estimable wife, has always been a staunch supporter and booster for the Soaring Eagle and the editor appreciates most highly the hospitality and friendship of Mr. and Mrs. Shannon.

COMMENTS

By: W. J. WHEATON

The members of a Negro lodge of masons purchased a lot at Jefferson and University Ave., Berkeley, California. A protest was entered by a comparatively few of the citizens (white) because, it was claimed, that the erection of the temple to be dedicated to Masonry would cause a depreciation in the value of th surrounding property. Protests to the Mayor and the members of the City Council have thus far been in vain, but we learn that overtures have been made by interested persons to r-purchase the property, and that some of the custodians of the property for the lodge are seriously thinking of re-selling, arguing that it can be done at a profit. We hope that the lodge will retain the property, and lay aside any financial interest for the moral effect which their determination will have on all concerned.

The Japanese have invaded the select East Sacramento residential district, and are ereeting an apartment house in that exclusive society colony. The usual protests have been made, but the Nipponese go on building. Women's Clubs and other civic bodies have entered protests, and offers to purchase the holdings have been made to the Japanese, but without avail; and there is no law which can prohibit the building. It is to be used to house the subjects of the Mikado, who work in the laundries. Remember that the Japanese are being made the objects of discrimination, and a surrender to the clamour of prejudice would be an acknowledgement of the inferiority which is claimed. So they hold on to that which they have. Even at a financial sacrifice.

Dr. Hyde, of Hillsboro, Oregon, speaking recently before an assembly of Spanish American War Veterans, said: "The mixing of white and Orientals is to be deplored and discountenanced, as it invariably creates a degenerate type. This in the face of a statement from one of the best authorities on racial types, who recently after a test, pronounced the progeny of a white woman and her japanese husband perfect types of mental and physical childhood.

It is claimed that the Negro as a type is inferior, yet of the twelve million credited to the Race fully eight million are of mixed blood. Looking back to race achievements it would be very hard to determine, whether it was the preponderance of the white or black blood which had given the best results to civilization.

The increase in the number of Nero undertakers, or to be more polite, Mortuarists, should be a cause for health investigation by our Race health experts. It is said that business is a sure barometor of the progress of governments, and if the same is applied to groups, then, we have cause to be alarmed at the increase in the business of the persons who see to the "last sad rites." Acordcing to government statistics, the increase death rate among the Negroes is alarming. And the majority of the deaths are from preventable causes. Tuberculosis, Cancer, and diseases from infection are among the cause registered. Of course we know that we are handicapped. Even when improvement to the present conditions could be made from a sanitary standpoint are pointed out; heed is seldom given.

There is much work cut out for the young men and women who have been fortunate enough to receive an education and are equipped for service to humanity. Sacrifices are to be made; doctors, and the graduate nurses must join with the teachers in the work of welfare. The work must be concentrated on the children; It is the only hope for the perpetuation of the race. Yes, our Doctors, Lawyers and Teachers, must learn that their obligations to the people don't stop with their graduation Thesis, nor the reception of their diplomas. It is only the beginning. As long as we have to be buried it is well that the caskets be manufactured by Negroes and that Race undertakers bury us, but we hope that there will be rather a decrease than increase in their numbers in the next decade, and that the decrease will be from the fact that improved sanitary conditions have increased the length of our days.

Down in Tuskegee, the town which was placed "on the map" by the late Booker T. Washington, the K. K. K. have told the United States government, that "had they known that the hospital erected by the Government for the care of disabled Negro veterans of the late war—which, by the way, was fought for the perpetuation of Democracy—was to be manned by Negro doctors and nurses, they would never have given their consent to its erection." To think!—THEY, would never have given this government of one hundred and ten million people the privilege of erecting a hospital. Those seven hundred sheeted and pillow-slip "Night Riders" who paraded their defiance of the constituted authority of a nation.

0——00——0

Look at it as you will, the concessions made by the Administration to the whims and demands of the South, is, where the Negro is concerned, due to the spineless attitude of that same administration.

The United States Government is not awed one whit by the activities, or parades of any sect or klan. Hines, as the spokesman of the President, has said that he did not want to invite disorder by doing anything that would create disorder in that vicinity. Shades of our forefathers! Here is a representative of this great nation telling a measly crowd of Negro baiters, that ten million people are afraid of them.

Crispus Attucks was killed on Boston Common. Col. Robert Shaw led the 54th Regiment of Negro volunteers from Boston to Fort Wagner during the war of the Rebellion, and now today, exactly 147 years have passed a Negro boy reads the Declaration of Independence from the balcony of the old State House.

Charles C. Dogan, Negro, Honor Student of the English High School, Boston, was selected by the committee to read the historic document, July 4th. Protest had been made to the Mayor of Boston for the selection of young Dogan, but the only satisfaction gained by the protestants, was an unmerciful excoriation by the Mayor.

The death of Attucks, the valor of the 54th Massachusets regiment, and the reading of the Declaration by Dogan the Negro boy, are epochs in the trend of Negro history.

Let us think! As long as we think intelligently, sanely, the Race is safe. We can acknowledge leadership, but should do our own thinking. Leadership does not make the man infallible. Let us THINK!

GUARDING CHILDREN AGAINST PARALYSIS

As long as the winds of heaven blow and the dust rises, the germ of infantile paralysis may find its way to any human being, regardles sof class. The child of the tenement who sits in the railroad station may leave upon the bench a nest of bacilli for the woman of fashion to brush up in passing and to transmit to her own child.

The scientific name of the malady is derived from the Greek words "polios," meaning gray, and "myelos," or marrow. Therefore, "anterior poliomyelitis" means disease of the gray matter of the spinal cord, especially in the front or anterior portion.

The co-operation of every citizen is necessary in measures to prevent the spread, and, in order that he may take proper precautions for his own household, as well as for others, he should know something of the nature of this insidious disease.

Now, for instance, when some explosion breaks a street conduit and disrupts the cables within it, the effect is felt all over the neighborhood. Electric lights go out, machines stop for want of power, the electric fan comes to a stop, the telephone is useless and the functions of a system of communication, one perfect, are deranged.

So it is with the spinal cord, a cable of tissues in a conduit of bone. From it at intervals there issue the nerves, which are led out from the sections of the spine, the bertebrae, to the various parts of the body.

In a word, this dread scourge of al cord. It injures or destroys a substance in which originate the nerves children is due to disease of the spinal of the body. The insulation of the great cable of life is damaged, the wires are destroyed and communication is demoralized.

Just as a telephone seems "dead" when the telephone operator at the central switch fails to life the key, the arms and legs no longer respond to the brain impulses, muscles wither and decrease in size for want of nourishment, and all the senses are more or less impaired by the baleful virus of infantile paralysis which has invaded the system.

The disease is extremely infectious and contagious, particularly in the careless and sloven. For this reason the victim should be quarantined for at least six weeks. The ger mmakes its headway in warm weather and tepid dampness. It does not seem to be affected appreciably by either cold or dryness, and is, therefore, hardy. It lives a long time in dust, as well as in the silky long hair of the Pomeranian in the splendid home on Wilshire Blvd., the dog that rolls on his back in the vacant lot, the cat that prowls in the cellar, the horse that stands in the gutter and the fly that flits from flea to flower.

The law of cleaiiness must be enforced. The mere going to the country carries no immunity from this modern plague. The conditions in the farm house or in the village or the hotel may be worse than those from which the little darlings escaped. Too much care cannot be exercised in seeing that all places are free from decaying material.

Fatigue invites infection. Of course every day you take into your body organisms which float in the air or are brushed from the clothing. If you are what you ought to be, you can withstand them, but the chances are that if the forces of your body are at a low ebb through lack of food and of rest, the perils are increased in times of epidemic.

Advice to Parents

See to it that your children have abundant meals of substantial and wholesome food, that their nervous systems are not put under heavy tension by excitement or exertion. Keep your house clean, keep th echildren clean, keep their bowels open, keep them away from crowds as best you can and put them to bed early.

As the portal through which infantile paralysis enters the system is the nose, keep the nasal passages clean. The irrigation with an alkaline solution is especially helpful. Boracic acid solution is also effective. Finally, "swat the fly" with more vim and vigor than did the little tailor of fairy tale lore, who killed seven flies at one blow. Keep the windows well screened dand go after the fly with whatever trusty weapon comes to hand.

QUES. My palite is often down, and htey advised me to close my eyes and have someone to pull a lock in the crown of my head and this would bring the pallate up again. It used to help me, but of late, it is of no avail. Please tell me what to do.

ANS. From my knowledge of anatomy, I cannot see where there is any attachment of the pallate with any lock of the hair. Neither have I seen where the closing of the eyes would affect the palate. You have never been helped by the therapy that you have named.

If you would take the time to use your thinkin gfaculties, you would note the inconsistency of the advice given you. Supposed that you were bald-headed, how would that system of treatment work? Have your throat examined by any physician, and I am sure that the diagnosis will be an elongated inflamed or diseased uvula. In that case, treatment or amputation will give permanent relief.

QUES.—N. F.

ANS. If you will send a stamped and addressed envelope repeating your query, I may be able to help you.

JURY EXONERATES WOMAN IN KILLING

The Coroner's Jury at the Conner and Johnson Undertaking Firm on last Wednesday brought in a verdict exonerating Miss Dunbar for shooting to death Jim Toland.

It developed at the hearing that Toland was a fiend incarnate, that he tortured the poor woman nigh unto death before she shot him and to the minds of the jury she was amply justified in her act and hence the verdict.

KILLINGS AMONG GROUP COMMON THINGS

The shooting to death of Fred Ainsworth on the corner of McKinley Avenue and Austin Street on last Saturday night marks the half hozen of killings among our group within the last thirty days, and it is pointed out that something must be done to put a stop to this sort of pastime before it really becomes contageous.

Woman The Cause

The killing of Ainsworth was the sequel to his romance with a woman who had been known to carry his name, although it developed at the coroner's inquest that they had never been married, but had lived together as common law man and wife, so it is said. They became estranged. Ainsworth could not stay away from her, and on Saturday night appeared where she was, forcibly, it seems, entered her bed chamber, struck her. She followed and Joe Quinlan, who was in an adjoining room, came into the room and fired one shot which passed through Ainsworth's heart killing him instantly.

Jury Holds Quentan For Murder

Ordinarily the act of Quinlan would have been construed as chivalrous, but not, so in this case, for, it appears, bad blood previously existed between Ainsworth and Quinlan, and only a few days before a gun play had been made between them. It is said the fued came about by a shift of affection from Ainsworth by the woman in the case. This was of such a commanding force that the jury held the defendant, Joe Quinlan for murder to the Grand Jury. Quinlan will be defended by Attorney Hugh E. Macbeth, and was represented at the coroner's jury by him.

BRUTALLY SHOOTS DOWN HIS WIFE AND ESCAPES

On last Friday evening, Kenneth McClure, at W. 36th St. and Normandie Ave., stopped his wife from whom he had been estranged as she was on her way to Trinity Bapt. Church, where she was a member of the choir, and to which place she went on every Friday night for choir practice. He implored her to return to him, this she steadfastly refused to do, and in desperation he shot her down and made his escape. She died on her way to the receiving hospital. The body has been at the firm of Smith and Williams awaiting arrival of her relatives to come for her fimeral.

Brother Arrives For Body

On last Tuesday the brother of Kenneth McClure, of San Antonio Texas, arrived to take the body back to Texas and not until his arrival did he learn that she had been murdered by his own brother. Mr. McClure, of San Antonio is a brother of Kenneth, and they, two married pisters. He consulted on learning this his brother at the office. He left yester- for San Antonio.

L. A. JOURNALIST CALLED GENIUS

California Eagle and Other Race Papers Gave Him His Start

That Negroes of the Pacific coast are beginning to come into their own, is evidenced by the recent recognition given them in some of the big eastern papers and magazines. A few years ago it was a rare thing to read in an eastern publication of prominent Negroes living west of Chicago.

It semed that every man or woman of the race worth mentioning lived either in Washington or New York City or Chicago. Once in a while something would be said about the Malones of St. Louis, which gave them their proper place of prominence among race folk.

NOAH D. THOMPSON

A year or so ago a big New York publication mentioned the name of a Los Angeles Negro, who, along with nine other nationally and internationally known Negroes, might have saved the Garvey movement had its leader known how to work with men of brains and power. The Messenger, The Crisis and several other eastern publications recently published articles from the pen of "far westerns" and otherwise spoke of their work and achievements.

Comes now the current issue of the Dearborn Independent, a magazine published and owned by Henry Ford, with a very illuminating article on "The Jewish Attempt to Bolshevise the Negro". The article deals with "Manhattan's Red Propaganda Employed to Stir the Negro Workers of Harlem, New York", and suggests, among other things that: "Men like Wm. Stanley Braithwaite, poet, critic and anthropologist, of Boston; Dr. Wm. A. Hinton, instructor in the Harvard Medical School; Noah D. Thompson, librarian of the Los Angeles Evening Express and Daniel Murray, librarian of Congress, be enabled to develop their genius regardless of gro race". "Briefly, says the writer, the fact that they belong to the Ne- "were this the case, colored men of the calibre of W. E. Burghardt DuBois, a poet and a scholar of the highest water; Dr. Wm. S. Scarborough, formerly president of Wilberforce University, one of the foremost Greek scholars in the country and now assistant economist in the United States Department of Agriculture; Prof. Alain Leroy Locke, a Rhodes scholar, Prof. of philosophy of Howard University, one of the brightest minds of the Negro race; Charles S. Johnson, a sociologist, psychologist and anthropologist of brilliant promise; Ernest Just, the biologist and others, had [illegible] groes, America, and civilization would be enriched by it."

Noah D. Thompson, of Los Angeles, whose photo is shown above, is the man who, with several others are making the world know that here on the Pacific coast, we have men and women who can hold their own among people of any racial group who do things worth while.

Recently it was brought to our attention that Mr. Thompson, besides holding down the big job referred to in the magazine article, has been acting as assistant instructor of a class in Journalism in one of our big Universities.

Asked how he got his start as a journalist, Mr. Thompson modestly replied: "By contributing news items free of charge to some of our race journals in Chicago; The Broad Ax, The Chicago Defender, The Appeal, The California Eagle, and several other papers whose editors were good enough to give me space and encouragement".

We have here in Los Angeles and elsewhere, a number of educated young men and women who would like to become famous writers, but unlike Thompson, they always want to begin at the top, in other words, they think it beneath them to try to contribute readable articles to a race journal. No They want to begin at once to write editorials, not knowing that most editorial writers of note got their experience by writing for some small town daily or weekly paper as reporters or maybe printer's devils.

This paper, as have many other progressive papers, has plenty of desk room for the energetic young race man or woman who, like Mr. Thompson, is willing to give the best that is in them while learning to write articles that are worth printing. There are many departments to an up-to-date publication, where men and women of the race may find lucrative employment for duly qualified. Mr. Thompson [illegible]

POLICE DEPT. MAKES AMENDS TO DR. E. C. NELSON

Last issue readers no doubt aspercd the article giving the account of the police department, and that without any warrant or other good reason they broke open the door of Dr. Nelson's office, searched same and departed.

Now the doctor, when he learned of this diabolical act, got busy and went right after the officers for their unlawful act. In fact he planned a suit for $100,000.00. This act, however, proved to be unnecessary upon the police chief August Vollmer's addressing to him the accompanying letter, which is a fac simile of the document. Ths letter completely exhonorates Dr. Nelson, restores damage done, and restores to him all property loss, and thus none can say but that justice has been done.

The doctor is to be congratulated on the course which he pursued in the premises and in the result attained. The act is a practical demonstration of the calibre of man that Dr. Nelson is, and that Chief Vollmer is a big man who sees to the fact that wrongs commited by the police department under his regime will be righted if possible.

DECLINE IN MOB MURDER

Decline in Mob Murders Laid to Agitation For Federal Law and Migration. Mississippi and Florida Lead With 5 Each

New York, December 21—Sharp decline in the number of lynchings in the United States during the year 1923, the figure being 26 as against 61 in 1922, was laid to the agitation for a federal anti-lynching law, and to the northward migration of Negroes, in a statement today by James Weldon Johnson, Secretary of the National Association for the Advancement of Colored People, 69 Fifth Avenue, New York.

Mississippi and Florida lead the list of lynching states with 5 mob murders each. Georgia is second with 4. Oklahoma third with 3. Arkansas and Texas have 2 each. Other states in which one lynching occurred are: Louisiana, Missouri and Virginia.

Only 7 out of the 26 persons were charged with assault upon women, and in the case of one of the seven, the janitor of the University of Missouri, grave doubt was subsequently cast upon the guilt of the mob's victim. Other offences for which lynchings occured include; mistaken identity, aiding in escape, associating with white women being in an automobile accident, remaining in town where Negroes were not wanted, and frightening white children by walking harmlessly along a country road. Two of the victims of lynching mobs were white men. One colored woman was lynched in Pickens, Mississippi.

"Two main causes brought about the decline in lynching in 1923," said Mr. Johnson. "First was the agitation on the floor of Congress, and throughout the country, for a federal anti-lynching bill, the measure introduced by Mr. Dyer passing the last House of Representatives by a vote of 230 to 119. The second main cause was the northward migration of Negroes by the hundreds of thousands. This has borne in on the South that lynching will have to be stopped if the best labor of the South can get for its plantations and industries is to be retained. Prospects for the enactment of the Dyer Anti-lynching Bill in the present Congress are excellent, in the light of President Coolidge's anti-lynching pronouncement in his message to Congress. It is to be hoped that in a very few years, the crime of lynching will have been completely wiped out in America."

Three important cases have been fought lately by branches of the National Association for the Advancement of Colored People. One of them is an extradition case, one a protest against the showing of the "Birth of a Nation" film, both in New Jersey; and the third is a civil rights case won for a colored girl in Des Moines, Ia.

My dear sir:

After conducting an examination of your premises on last Saturday night Captain C. I. Plummer and officers of the Vice Division are of the opinion that the anonymous information received by them to the effect that gambling and bootlegging was being conducted in your office was without any foundation of fact and no doubt sent for the purpose of inflicting an injury upon your reputation and general standing in the community. They found nothing in substantiation that violations of law were being committed on your premises.

It is always a matter of regret when unscrupulous persons for spiteful and selfish reasons purposely convey false statements to us, careful to conceal their identity when doing so, and apparently for no other purpose than to jam the police up with some law abiding citizen. Their object is clearly to discredit both the citizen and the police and bring about a breach in the relationship that exists.

I have given instructions that your property shall be repaired for any damage caused it during the visit of the police, and that you shall be reimbursed for any loss suffered at the same time.

I trust that this action will assist in clearing up any misunderstanding that may have arisen out of the unfortunate affair.

Yours truly,

August Vollmer,
CHIEF OF POLICE.

[illegible] Governor Silzer had said he would permit the man to be extradited to Georgia, the National Association for the Advancement of Colored People stopped the extradition by a writ of habeas corpus. Klemmer Kalteissen and William B. "BIRTH OF NATION"

Prompt and energetic action of the N.A.A.C.P. Branch in Camden, New Jersey, has resulted in the withdrawal of efforts, though it has been exhibited in neighboring towns.

Irving T. Nutt, of the Camden Branch, N.A.A.C.P. seeing the announcement of the picture promptly communicated with the Director of Public Safety and with R. E. Finnigan, Secretary of the Branch Executive Committee appeared before the Board of Censors to oppose the showing of the picture. The Board thereupon voted unanimously that the picture be not shown. When the exhibitors claimed that objectionable features had been removed, and claimed that the picture could be shown in every city and state in the Union, Mr. Nutt communicated with the N.A.A.C.P. National Office in New York and secured [illegible]

CIVIL RIGHTS CASE IN DES MOINES

The Des Moines, Iowa Branch of the National Association for the Advancement of Colored People, reports that a court verdict has been rendered in favor of Miss Dottie Hughens, a colored girl, thrown out of a Rose Theatre on November 11, 1921, because she was occupying a section that had been set apart for white people.

FIRST CHARITY BENEFIT

The First Annual Charity Benefit given by the Delta Sigma Theta Sorority, of the University of California at Los Angeles, on the 15th inst., was an unqualified success socially and financially.

The Benefit was in the form of a box social at the home of Miss Marion Robinson. Through the kindly cooperation of Alpha Kappa Alpha Sorority of the University of Southern California, a large number of attractive boxes were sold. Each box was sold at a gratifying price due to the generous and lively bidding of members of the Kappa Alpha Psi, the Omega Phi Psi, and the Alpha Phi Alpha fraternities with M. Sumner Thompson acting as auctioneer.

The Sorority was able to provide Christmas dinners and gifts for four needy families including fifteen children. Thus these young ladies are striving to carry out the high ideals of Delta Sigma Theta Sorority.

PROMINENT REPUBLICAN ASKS IF PARTY "WILL COMMIT SUICIDE" SUICIDE

John E. Milholland, a prominent Republican, and one of the oldest members of the National Association for the Advancement of Colored People, has written a letter to John T. Adams, Republican National Chairman, inquiring if the Republican Party intends to commit suicide.

Mr. Milholland gives as the reason for his question, the Republican Party's disregard of the Negro voters.

"The Negro voters of this country," says Mr. Milholland in his open letter, "cannot be corraled as formerly, by their time leaders." The Republican Party" continues Mr. Milholland, "has pledged itself for forty years to right the wrong of disfranchisement in the South, but it hasn't even cut down the Democratic representation in Congress and in the Electoral College, as commanded by the Constitution."

The Negroes, asserts Mr. Milholland, "will follow the Republican Party in blind faith as their fathers have done and if they are going to get anything out of the South they realize that they must do so through their own efforts. Their own efforts lead them to take the obvious way, that is, to cross the border line to the North where there is plenty of work, their wages paid in good cash, and very little lynching or bad treatment to worry about."

ST. LOUIS ARGUS AND A.B.B. ENDORSE N.A.A.C.P. UNITED FRONT APPEAL

Endorsement of the appeal of the National Association for the Advancement of Colored People, for a united front of all organizations in the movement for the release of the Houston martyrs, has come from the St. Louis Argus, and the African Blood Brotherhood. The St. Louis Argus said editorially in the issue of December 14:

WANT UNIFIED ACTION

The National Association for the Advancement of Colored People, with headquarters at New York, has written the Equal Rights League of Boston, asking for "United Action" in our effort to liberate the men of the Twenty-fifth Infantry, now imprisoned at Leavenworth, Kansas.

We quite agree with the N.A.A.C.P. in this effort for a united front in this case. The patriotic and justice-loving people of the petitions here and there, sent to the White House will not be near so effective as the great mass of petitions presented at one time.

Just think for a moment the power, influence, weight and the moral effect that one hundred thousand signatures in regular petition form would have on any case. So we see the reason for a united effort on the part of those who are earnestly seeking the release of the boys of the 24th infantry.

The shouting will come when the wall falls and there will be glory enough for all, when the men are free.

The National Association is the logical medium through which to work for their release. We, therefore, urge all organizations and individuals to stand till your Strength through this organization. "In Unity there is Strength."

The Boston [illegible] also [illegible] praised generous commendation of the N.A.A.C.P. Meeting in a letter stating that members of the A.B.B. had been instructed to sign N.A.A.C.P. petitions. The A.B.B. letter in a blow against racial division, and against the attacks among Negro organizations working for common ends.

EDITOR'S APPRECIATION

Many times the Managing Editor and editor have had occasion to express their appreciation for courtesies extended, but there has been no occasion when we more forcibly expressed it than on last Christmas Day when Attorney and Mrs. C. Accompanied by our Linotype operator, Mr. J. E. Frewd, we will leave it to Mr. and Mrs. Jean as to whether or not we qualified about the line of devouring that bird, and of course we had to call up Wells Fargo Company to express our appreciation since it was so great.

SOCIETY LOOKS FORWARD TO GRAND OPENING.

Monday Evening, December 31st promises to be an event of events in local society circles when the Quality Cafe and Tea Room with its beautiful furnishings, exquisite hangings and service paramount, will open its doors for the public. Reservations in great numbers have been made and practically every available space has been taken for that even where service and entertainment will be the greatest feature. The Manager, Mr. W. E. Davis is to be congratulated on the excellent arrangement of the interior, which bids fair to out-rival anything of its kind in L. A. He has also secured the services of Mr. Ralph N. Porter as his assistant supervisor of services and party work which will be personally supervised by this well known decorator and bespeaks that his establishment is in a position to handle luncheons, afternoon teas and dinners with the decorations and service unexcelled. The building will be open for inspection on Sunday afternoon between the hours of 4 and 6 P. M. and the public will be welcomed by the management during these hours.

TO THE FOREFRONT IN HIS PROFESSION

The phenomenal progress of Lewis K. Beeks in his profession as a lawyer is worthy of more than passing notice, for it demonstrates that by hard work, sacrifice and unselfish devotion, despite all obstacles, a man can succeed. And we facy that no man who has ever gone forth under the same circumstances as the subject of this sketch has made a better showing of a real and lasting prorress than Lewis K. Beeks.

Recuming from his graduation at Howard University early this year, he successfully passed the California Bar examination and in April put out his shingle. Since that time Attorney Beeks has steadily gone forth as an advocate worth his steel, championing the cause of his people. His success as a oung barrister has bordered on the marvelous aside from a goodly amount of Civil practice he has stood out as a Criminal lawyer who brings things to pass. He has gone up against the best of his profession and never for a moment suffered by his lack of tack or other qualification of his profession.

A few cases which is a criterion to his skill follow:

People vs. Abbott, forgery charge, acquitted; People vs. Buchanan, auto theft, acquitted; People vs. Nichols, associate counsel, acquitted of statuary crime; People vs. Murphy Williams, charged with first degree murder, for killing of Coleman Stone of Bell Station. After a deliberation of 12 hours the jury brought in a verdict of second degree murder, thus making a notable and signal victory for Attorney Beeks. Judge Keetch congratulated Mr. Beeks on his superb handling of this case and his argument to the jury.

His office at 323 Central Ave. is a busy place and clients who have known him from his boyhood and watched his career are among his warm supporters. He is Associate Counsel for the Commercial Council, Citizens' Home and Investment Company and the California Eagle.

This is brief in the progress of one of our very own young men with a determination to make good.

WARD CHAPEL A.M.E. CHURCH
1262 East 25th St.
1262 East 25th St.

Christmas Services at this church last Sunday were impressive. The Sunday School was well attended and arrangements were made for a pleasant program and Xmas tree for December 24th, at 7:30 p.m.

At the morning service the pastor spoke from the text, "The wages of sin is death; but the gift of God is eternal life through Jesus Christ our Lord". One person came forward and knelt at the altar for prayer, and four persons joined the church. Both Endeavors were well attended, and lessons were good. At night the pastr spoke from the text, "Grow in grace, and in the knowledge of the Lord Jesus Christ. The audience gave strict attention, and showed their appreciation.

Next Sunday will be quarterly meeting at 11 a.m., 3 p.m. and 7:30 p.m. All are invited to come and worship with us.

WEST SIDE MISSION A.M.E. CHURCH
1509 W. 36th St.
Major G. W. Priceleau, Pastor

If you were not at services at the Mission last Sunday you missed something which, if added to your Christmas experiences, might be of assistance to you this week. Seventy in attendance at Sunday School, it was a splendid review.

At the eleven o'clock service, which was well attended, the pastoor spoke on the subject, "The Joyous Message". At this service was a very large number of visitors including Rev. Eugene Johnson, D.D., who will preach for the Mission Next Sunday morning. At 3:30 p.m. Rev. Price, of Watts, and his splendid choir had charge of the service. This was the service of the day. The sermon and music were inspiring. At the 7:30 o'clock service, Rev. Prince came all the way from Duarte and preached an excellent sermon. He filled the place of P. E. Washington, this being Quarterly Conference meeting day. Rev. B. R. Guy, and Rev. Green of Boyle Heights took part in the services of the day.

WALL STREET CHRISTIAN CHURCH
E. 8th and Wall Streets
Rev. F. C. Cothran, Pastor

We had excellento services last Lord's day, a good bible school and high interest, Preaching morning and evening by our pastor. He brought us two beautiful messages on the Nativity of Christ. They were interesting and inspiring. We are doing well. Come and be one of us, and help to enhance God's kingdom. All are invited.

BIRCH STREET CHRISTIAN CHURCH
Cor. 14th and Birch Streets
Rev. A. W. Jacobs, Pastor

Merry Christmas services were held Last Lord's Day, and every one present seemed to get into the spirit of the occasion. Bible School was very good. Bro. Owens, the newly elected superintendent, gave a very helpful address at the close of the session. Bro. I. J. Williams is being sent by the church to take up the work at Watts Station, on Compton Blvd.

The first Sunday in January, 1924 marks the real beginning of the Mission Branch of the Birch St. Christian Church. We rejoice to see the interest and welcome on the part of the members and friends at Watts. At 11 a.m. the minister preached from Matt. 22:-41, "What think ye of Christ? Whose Son is He?" Y. P. S. C. E. was very good. At 7:45 a Christmas program was well given as the result of faithful service by Mrs. Sterling Lee. Every one enjoyed it, also a splendid solo by Mr. White. You miss real treats when you do not come to Birch Street. Tuesday morning at 5 a.m. a splendid prayer service was held in the Church auditorium. Everyone present felt the Spirit of Him, who was born in the manger, at Bethlehem of Judea. Services every Lord's Day, Wednesday and Thursday. All invited. Good Music.

WESLEY M. E. CHURCH
8th and San Julian Sts.
Rev. A. P. Shaw, Pastor

Sunday was a fine day at Wesley. The pastor's Christmas sermon was a great effort and was much enjoyed by all. The Cantata in the evening by our great Choir was one of the best in the history of our church. One person united with the church during the day.

This Sunday promises to be one of unusual interest. The pastor will preach both morning and evening on subjects appropriate to the closing of the old year. Watch Night services will be held on Monday night beginning at 10 o'clock.

Memorial services in honor of Rev. H. W. Kinchen will be held Sunday afternoon, Jan. 5th. Further notice of the same will be made next week. Wesley promises a great treat on all who circulate with us this Sunday. Don't fail to [illegible]

BUSINESS MEN'S MEETING
Rev. Chas. P. Jones will be speaker at the Y. M. C. A.'s Orange Blossom Dining Sunday afternoon, Dec. 30. All men and boys are invited.

ST. VICTOR'S HALL DEDICATED TO SOCIAL AND RELIGIOUS ACTIVITIES

With the assistance of five hundred catholics and their friends, the Right Rev. Bishop John J. Cantwell, Bishop of Los Angeles diocse, dedicated St. Victor's Hall, 16th and Essex streets, Sunday afternoon. The speakers of the occasion were: Joseph Scott, Attorney; Rev. Father Nullans of the Cathedral and Noah D. Thompson of the Los Angeles Express.

A fine musical program was rendered.

Mr. J. W. Palmer acted as Master of Ceremonies.

BETHEL BAPTIST CHURCH—Y. M. C. A.—9th and Hemlock Sts.
Rev. H. D. Prowd, Pastor

Our Lesson in Sunday School was most profitably discussed. Particular attention was called to the promised inheritance and possession of The Christ.

At the 11 o'clock service Dr. Prowd spoke from Isaiah 55:24—"I have given Him for a Witness to the People, a Leader and Commander to the people." The pastor took occasion to speak on and emphasize the true spirit of Christmas. The congregation was urged to contemplate the blessings in possession and not to unfit themselves for the enjoyment of the season, by thoughts concerning what they have not. Dr. Prowd said that the joy of Christmas should come from within, rather than from expectations—from without. The B. Y. P. U. carried out a splendid program.

At night Dr. Prowd preached on "The Inheritance of Christ."

We regret to report that Sis. Alice Johnson is ill.

Come out this Sunday.

PEOPLE'S INDEPENDENT CHURCH OF CHRIST
18th and Paloma Sts.
Rev. N. P. Greggs, Pastor

Spiritual enthusiasm registered high last Sunday when the Pastor, Dr. Greggs delivered one of his masterly sermons. The Choir sang sweetly. The Choir Director, Prof. Johnson sang one of his heavy numbers, accompanied for the first time with music of the newly installed pipe organ—Mrs. Fannie Benjamin, organist.

At 3 o'clock in the afternoon, the Federated Clubs of Women assembled at this church—Mme. Hicks of Pasadena, presiding, as Misstress of Ceremonies. A thrilling address was delivered by Miss Hallie Q. Brown, President of the National Federated Clubs of Colored Women. She spoke in particular of the work of the National Federated Club of Colored Women, also of the effective work and fruitful efforts of the various local branches in the several states, in behalf of the Race. A fitting response was given by Mrs. Lula Slaughter, an ex-president of the local body. Others were introduced and made instructive and encouraging remarks. At night, the Choir rendered a very interesting program. The Christian Endeavor Society re-elected officers, putting back into office all of the old staff of officers. Charles A. Biggers, the President, appointed a few new committees, gave a brief outline for the future work; and with this an interesting program was planned for next Sunday evening.

TRINITY BAPTIST CHURCH
West 36th St. and Normandie Ave.
Rev. J. A. H. Eldridge, Pastor

Last Sunday was a day long to be remembered. The Holy Spirit met us in the Sunday School and remained with us throughout the day. The National Evangelist Wm. Lewis was with us. The power in songs was thoroughly demonstrated by this wonderful man of God. The pastor filled the pulpit at both services. At the morning service his text was taken from Matt. 2:2. We have seen his star in the East and are come to worship Him." His text was influential in leading one to Christ.

The B. Y. P. U. was well attended and lesson was interesting as well as helpful.

The evening text was taken from Luke 2:7—"There was no room for them in the Inn." Subject: "Crowding Jesus Out."

We are lifting up the standard at Trinity. Come and worship with us. We wish you, one and all, a Merry Christmas and a Happy New Year.

THE MADAM RADYE BOCHRANE CHADWICK RECITAL

Mrs. Chadwick gave a very pleasant song recital at the Lincoln Memorial 1924. She has a beautiful voice, well trained. Perhaps the first group of songs were the most acceptable. "The Swallows" by Cowan was especially delightful of this group. One could almost hear the chatterings of the swallows and the murmur of the coming on of Spring in the rendition of the song. This was followed by the tender song of Ole Speaks, "To You", and "I passed by your Window," by Brahe, both well given. Of the other songs—there were eleven in all—"The Pirate Girl", Bingham, "Nobody Knows," Burleigh, and, "Nothin' but Love", Cadman, were the best. There were too many numbers and too little variation in the character of those given for the best effects. The Ardith number, especially, could have been well left out to shorten the program, that number being well suited to the "top gallery" which was absent from the audience.

The entire family of each member was present, which consisted of all ages from Mother Clanton to Ramona Nelson and at one time every there were stepping to the music.

From 8 to 11 was spent in all manner of amusing stunts, then the party was seated in the spacious library to receive presents from the Christmas Tree.

Space will permit of mention of only a few of the most valuable ones:

Atty. Jennings, a jumping jack; Dr. Garrott, a mouth organ; Mr. Blodgett, a roller horse; Mr. Palmer, a tin horn; Mr. Howard Skanks, a tin rooster; Dr. Nelson, a powder puff; Mr. Gillespie, a doll; Atty. Burnett, a whistle; Mr. Harry Skanks, a monkey box; Mr. Milton Johnson, a paper of pins; Woodson Wickliffe, a harp. The ladies and children, whistles and horns.

When order was restored delicious refreshments were served by Mrs. Mildred Williams and Mrs. Howard Skanks and the guests departed declaring that the world would be a poor place to live if there was no Idle Hour Club.

MRS. ROBERTS' PARTY

One of the best appointed and most elaborate luncheons of the season was given at the Blue Lantern Inn, by Mrs. Fred Roberts. Covers were laid for ten. The table was beautifully decorated in pink. Abundance of beautiful pink sweet peas were used to carry out the color scheme. Seated under the Giant Radio Set, recently installed by the management of the Blue Lantern Inn; Mrs. Roberts and her party listened in to local and distant broad casting stations, rendering beautiful music, while they feasted on squab chicken, as the main course of that famous Blue Lantern five course luncheon. Mrs. Roberts had as her guest Mrs. Shackelford, Mrs. T. A. Cole, Mrs. M. Patton, Mrs. Cheatem, Mrs. S. R. Strickland, of Pasadena, and Mrs. Moore.

Mr. Jimmie Smith entertained Sunday with an especially appointed dinner at the Blue Lantern Inn; Mrs. Robinson, Mrs. L. Harden, and Mr. O. P. Chatters. This was elaborate.

Atty. and Mrs. Roy Barnett entertained at the Blue Lantern Inn Sunday.

Atty. Ceruti and wife had their lobster as usual at the Blue Lantern Inn Sunday evening.

By Staff Reporter

I saw at the Blue Lantern Inn Sunday evening a beautifully decorated table, profusion of roses and maidens' hair ferns. When a staff reporter happened in and asked the management whose wedding party he was preparing for. The management answered he did not know, simply a telephone order. Just then in walked "Sparky", chaperoning his mother and father, Dr. F. A. Gordon, and grand mother, Mrs. Edward Lee Baker, and proceeded to direct them to his table. After the dinner "Sparky" wandered around the dining room shaking hands with the various guests including Attys. Ceruti, Jones, Talor and Nash; and several ladies including Dr. Vada Somerville, Mrs. Wilson, Mrs. Eugene Johnson, Mrs. Charles Conner, and Mrs. Edna Wheeler. He passed a table that had beenn reserved by Lt. H. N. English and Lt. Virgil T. Ramey of the University Police Station for their new year's celebration. Noting the gold braid upon their arms and the shining star upon their breast, "Sparky" hurried past their table into the kitchen; thanked the chef for their wonderful dinner and did the "Barney Google" out past the same table and bid the Blue Lantern Inn a Happy and Prosperous New Year.

Mrs. Hattie Wilson of 3161 Malobar Street, entertained with a Christmas party Saturday, December 29, 1923. About 38 guests were present. The house was beautifully decorated with Christmas colors and ferns. The ladies were elegantly dressed for the occasion. Everyone was thrilled with the music furnished by a three piece orchestra. A dutch supper was served about mid-night. The guests departed at an early morning hour declaring Mrs. Wilson an excellent hostess.

The Sunshine Art and Literary Club had as their guests to the Community Christmas tree, Saturday, December 29th, the girls from the East Side Mothers' Home. A short program was rendered. SHACKELFORDS CELEBRATE 19TH WEDDING ANNIVERSARY

On Wednesday evening, Dec. 26, 1923, Mr. and Mrs. J. H. Shackelford celebrated the nineteenth anniversary of their wedding, with an elaborate seven-course dinner.

The round banquet table which accommodated nineteen guests was a thing of beauty. In the center was a hand-painted lamp hurled in poinsettas, holly and other Christmas flowers. Around this were banks of flowers. At each place was a crocked mat bordered with pleatings of red and candy baskets to match, which presented a most beautiful scene.

Mr. Shackelford proves himself to be an accomplished carver when two twelve-pound turkeys were placed before him.

Those so fortunate to be present were:

Mr. and Mrs. J. W. Palmer; Attorney and Mrs. E. C. Jennings; Mr. and Mrs. Charlie Lewis; Mr. and Mrs. Turner and bride; Mrs. Holt of Pasadena; Mr. and Mrs. Bell of Portland, Oregon and the host and hostess.

EAGLE BANQUETS EMPLOYES

The entire force, from office boy to editor was banquetted by their progressive employer, Mrs. C. A. Spear-Bass on new year's eve at her residence.

The affair was unique and something so different from the ordinary celebrations held by members of the group. Several days preceeding the affair each member of the force was run down by police officer McClanahan and served with a summons drawn in legal form notifying him to be present on the above date. As each was served excitement ran high, and it was some time before most of them regained their normal composure sufficiently to peruse the sub poena handed them.

The object of the dinner was to bring together the entire force of The Eagle for the purpose of reviewing the work of the past year, and lay a foundation for a greater and better business for 1924.

That the affair was a big success goes without saying. Promptly at 8:30 all were seated and for the next hour turkey, mashed potatoes, cranberry sauce, hot rolls, and other delicacies of the holiday season flew in all directions. Ice cream, black coffee and cigars brought up the rear.

At the conclusion of the repast, Mr. J. B. Bass, as toast master, rapped for order, and in a few brief and well chosen remarks stated the object of the dinner as being a desire on the part of teh Managing Editor to create a better understanding between employer and employe that the business might reach a higher degree of perfection and the public be better served along all lines.

Mr. Mait Solomon, who has charge of the press department, was the first to be called on and gave an instructive five minute talk on "Efficiency", which was well received. Next Mr. Robert Anderson, foreman of the shop gave a timely talk on "The Needs of the Day", following which Attorney Beeks spoke on "The Eagle, its Past and its Future." Mr. John E. Prowd who is chief linotype operator, and one of the oldest employes, delivered an interesting talk on "Hope and Aspiration", Messrs. Adolphus Jones, Hannibald White and S. G. Hamilton also responded. Mr. E. L. Dorsey, of automotive fame spoke on "How to Make the Eagle Greater".

Managing Editor Speaks

At this juncture the toast master introduced to the gathering, the speaker of the evening, Mrs. Bass, and as soon as the applause had cleared she launched into an address which touched on everything in general pertaining to the business. She asked each one present to cooperate with her in her efforts to better serve the public, and stated her desire to seek the confidence of each toward that end. Mrs. Bass at no time spoke of her personal desires except as they affected the group, and her every desire was to assist the race to a better understanding along all lines, that industrial, economic, and political conditions might be greatly improved. That little businesses might grow in to great business enterprises and ultimately a bank, and various other enterprises brought about that will give the race a financial status and rating that will secure for all better positions, opportunities, and consideration at the hand of the Caucasian. At the conclusion of twenty minutes taken up by the Manager, she was applauded again and again. The balance of the evening was spent in social chat, music and amusements.

The new year was ushered in in song and prayer, following which came the end of a perfect day, and each departed for home feeling that they had never spent a better evening, and declaring the hostess truly a progressive employer who has the personal interest of each and all at least more at their hearts own. "Long live the race".

both race groups of the city.

The address of the evening by Mr.
Ceruti was well received. It was
full of wholesome advice to the race,
and an education to the many white
people who attended.

Mrs. L. Botts who went to the hos

The home of Mr. Geo. M. Jones,
1303 Shamrock Ave., was the scene of
a very appreciative radio party on
last Sunday evening. Mr. Knox of
Los Angeles was the good angel that
brought over his radio apparatus and
furnished the party with a real musi
cal treat. The program on the air
was from the vesper services of one
of the large churches of Los Angeles.
In the party who listened to the
rendition of the program on the air
were: Mrs. Anderson, Mrs. Hooks,
Mr. and Mrs. Knox of Los Angeles,
Rev. and Mrs. Reed, Mr. and Mrs. Z.
Simons, Miss E. P. Jones, Miss Anna
Jones, Dr. S. Jones, Mr. and Mrs.
Gimple, Mr. and Mrs. O. M. Jones of
Monrovia and Mr. and Mrs. J. C. Car

have a bootlegging and gambling joint
in our beautiful little city on South

race who has heretofore been regard

man. If it is true the moral and law

Report of the Shiloh A. M. E. Zion Church

Monrovia, California.

To the Pastor and Members of the
Shiloh A. M. E. Zion Church:

GREETINGS: As Church Clerk I
desire to submit my report for the
calendar year of 1923. First, allow
me to say that we have just passed
through the greatest year of our
church's history. God has been gra
cious to us in all things; through His
well directed Providence we have
lost by death only one member, Bro.
Daniel Graham, who was one of the
most faithful of our membership, we
miss him. Other than this we have
been blessed with abundant success
along all lines of our church's activi
ties. Our membership has increased
a hundred per cent, the Sunday School
increased more than one hundred
per cent, also the Verick Christian
Endeavor.

The finance of the church has ex
ceeded the most sanguine expecta
tion. We have received through the
various organizations of the church,
the following amounts: Woman's
Home and Foreign Missionary Socie
ty, $102.20; from the Sunday School,
$138.51; Varick Christian Endeavor,
$60.45; from the Young Woman's Mis
sionary Society, $25.00; from the Buds
of Promise, $5.23; the church proper
raised the unprecedented sum of $3,
283.76. This makes a grand total of
3,589.16. Expenses for the year and
disbursements, $3,395.35, leaving a
balance in the various treasuries of
$195.81.

Our church property has been im

METROPOLITAN BAPTIST CHURCH

37th and Paloma Sts.
Rev. M. C. Carter, Pastor

Metropolitan took on the new year
spirit Sunday past when the pastor
preached with force, a soul stirring
sermon. He took as his subject, "Go
Forward", which, by the expressions
from the well-filled auditorium, filled
each with a determination to "go for
ward" and do more for the Master's
cause in 1924. Sunday afternoon cov
enant and the Lord's supper were cele
brated. There were five accessions to
the church, two of them for baptism.

The pastor will fill the pulpit Sun
day. His morning subject will be "A
Missionary Church". Afternoon, "Sin
ners' Great Need and Heaven's Great
Supply".

WATTS HAS JUNIOR BRASS BAND

Prof. T. R. LeBlanc had a hurried
call October 20th by Mrs. Walton to
come to Watts at once, and he did so.
To his surprise, he met Mrs. Walton
at the hall, and there was a group of
boys, fifteen in number; and she told
him Watts must have a boys' band.
All that he could do was to organize
the boys and up to this date they have
seventeen boys. The name of the band
is Taborian Boys' Band of Watts. Any
boy wishing to join the boys will
please call at Walton hall. All instru
ments have been placed in the boys'
hands two months ago, and the boys
are rehearsing regularly. Prof. Le
Blanc is in charge.

Rev. Atchie J. Williams, Pastor

Both the morning and evening services were well attended. There were strangers from all parts of the city, and some of Mt. Zion's old members were among the visitors Sunday.

The pastor spoke at the morning service from the subject: "Impenitent Sinners without Excuse at the great day." The text was taken from the book of Job, 31:14; "What shall I do, when God riseth up? And when he visiteth, what shall I answer?"

The pastor and members of the Mt. Zion Church worshipped with First Baptist Church of Furlong. Rev. Williams spoke from the subject: "Under the eye of the Almighty." The text was taken from Gen. 16:13; "Thou, God, seest me."

At the evening service, Rev. F. H. Davis preached a wonderful sermon form the subject: "Our Completeness in Christ". All were pleased with this great message.

Eight more children were added to the Sunday School.

Next Sunday the pastor will speak at both services.

The Junior Missionary Society will hold its services with a program at 3 o'clock next Sunday.

Good Singing. All welcome.

TRINITY BAPTIST CHURCH
West 36th and Normandie Ave.

Rev. J. A. H. Eldridge, Pastor

Our Sunday School was well attended, and the lesson taught with power. We are in need of a teacher, come out and help us. A large crowd gathered at eleven o'clock when our pastor gave way to our regular monthly covenant meeting which was enjoyed by all. Our B.Y.P.U. was wise indeed when they reelected Mrs. Francis Spikes as their president for this year, for under her leadership the union has grown to be second to none. Our pastor brought us a burning message at seven thirty o'clock. His text was taken from Matt. 9:37-38. Subject: "Plenteous harvest". He showed us where the harvest truly is ripe, but the laborers are few. Come and worship with us, and we will do thee good. A welcome for all.

BETH EDEN BAPTIST TEMPLE
27th and Paloma.

Our church has changed its name. Its new name was given by the ladies of the church who defeated themen in their drive to raise the $3,000.00. Beth Eden Baptist Temple, like the mighty oak, proud monarch of the forest, has defied the storms and stands at the strategic point of Central Avenue, the Pacific Board Walk and Paloma, at 27th Street.

At present our church is the most commodious church building in town.

BETHEL BAPTIST CHURCH
Holding its Services in the Y. M. C. A.
9th and Hemleck Sts.
Rev. H. D. Prowd, Pastor

Our lesson in Sunday School for the First Sunday in the New Year was most timely, and exceedingly helpful. Remarks by the Superintendent at the close, were well received.

At the 11 o'clock service, Dr. Prowd preached to a splendid audience from Romans 8:37—"More Than Conquerors." It was pointed out that notwithstanding great and numerous trials of the past year, the Church had waded through all as a Conqueror's And that whatever may come during 1924 the same God will bring us "safely through. The message was enjoyed by all. At the close the pastor handed each person present, a stick of "Ramsey's" Candy, telling each to keep sweet during the New Year.

The B. Y. P. U. carried out a good program at the usual hour.

At night the pastor preached from John 15:4—"Abide in Me." Dr. Prowd assured the people that for safety, success and peace, it will be found necessary to abide in the Christ every day of the New Year. This coming Sunday will be Communion, and every member is expected out.

On Monday night following the Conference will be at Bro. and Sis. Gallerson's on Palomares street; matters of importance, everybody be out. The number is 1562—do not forget it. We invite all to our services—Come, praying for a blessing.

PLEASANT HILL BAPTIST CHURCH—
Cor. Bonnie Brae and Court St.
Rev. W. H. Reuter, Pastor

Pleasant Hill is still on fire for God. The battle is raging against sin and we are on the winning side. Souls are being saved, the works of the devil are being torn down; Pleasant Hill has pledged itself this year as never before to work for God. Are you tired of sin? Come to Pleasant Hill. Are you sick in body or mind? Come to Pleasant Hill and be healed. The power is here, you can find rest if you come. The gospel is being preached every night during the week and all day on Sunday. It is your duty to come and hear the truth. All Los Angeles is invited to come and [illegible] word of God. We have [illegible] and strangers [illegible] every Sunday. We have a white-robed [illegible] every Friday during [illegible] and every Friday and third [illegible]

Rev. J. O. Gordon, Pastor

Last Sunday was a soul-stirring day in Tabernacle, the Sunday School was largely attended and the B. Y. P. U. at night also; a most interesting program was rendered with Mrs. Cuffy giving an original reading and Mrs. Mamie B. Smith a solo.

In the morning the Pastor, Rev. Gordon selected for his text, Psalms 17:15—"I Shall be Satisfied when I Awake with Thy Likeness."

At night he preached from Romans 5:11—"The Atonement."

We continue to have new additions to the Church and many of the misguided members are returning back to their church, the new year finds the members of Tabernacle up and about their duties. The Pastor is busy re-organizing the church, and setting it to work as was when he left it before.

NEW HOPE BAPTIST CHURCH
1623 Paloma Street
Rev. A. Lively, Pastor

The auditorium was filled to capacity at each service Sunday, January 1st. There was no sermon in the morning, as it was the first Sunday, at which time New Hope holds its monthly covenant meeting. The pulpit was filled by the pastor at night, assisted by Rev. Banks. Miss Lutitia Robinson was the soloist. She sang "Somebody Knows" in a very sweet manner. As usual, several additions were made to the roll during the day.

Preparations are being made to launch a big rally on Easter Sunday, with the men against the women. A meeting for men only has been called for Sunday, January 13, at 1:30 p.m., immediately after morning services.

It is claimed by the men that the ladies will surely be beaten and the ladies say the men will be put in their places.

Special music for Easter will be prepared by the choir.

BAPTIST MINISTERS UNION
At Pleasant Hill
291 N. Bonnie Brae

The meeting last Monday will be long remembered by all who were present. Dr. Thos. L. Ballou was the order of the day, and delivered a most wonderful address: subject "Larger Activities in Kingdom Building", taken from Isiah 54:2: "Enlarge the place of thy tent, and let them stretch forth the curtains of thine habitations: spare not, lengthen thy cords, and strengthen thy stakes". Truly the address was a masterpiece. The speaker held his hearers spell bound while he urged upon every leader to plan for larger programs, sufficiently large enough to carry out all conditions in the great commission. Truly the Lord is with us.

We were blessed to have ministers of other denominations to worship with us. Come early next Monday in order that you may not miss any part of the program.

Rev. W. H. M. Dickerson, Pres.
Rev. A. T. Hines, Sect.

SECOND BAPTIST CHURCH
740 Maple Street
Rev. T. L. Griffith, Pastor

Last Sunday being the first Sunday in the year, services were well attended in all departments. Sunday School was up to the standard. Election of officers. All officers were elected for twelve months. At 11 o'clock the church was filled to overflowing. The choir was at its best. The pastor preached a wonderful sermon. Subject: "The God that answers by fire", I Kings, 18th chapter and 24th verse. Truly the Lord was in His holy temple. Two additions to the church. One candidate baptized. The B. Y. P. U. has taken on new life to the extent that one will have to get there early to get a seat. An excellent program was rendered by the Women of the union. Collection $41.00. Next Sunday evening the men will have charge of the program. They too had election of officers. Mrs. Henrietta Harper was elected president; a woman that knows how to bring things to pass. Under her efficient leadership the union will be just what it should be. At evening service, communion of the Lord's supper. A young man named Mr. Hampton preached, subject: "This do, in remembrance of me". The hand of fellowship was given to all new members of the church. A cordial welcome awaits all that come within our gates.

FIRST BAPTIST CHURCH
Furlong Tract
Rev. A. T. Hines, Pastor

The first Sunday of the new year brings signs of a genuine awakening. Our strongest members seemed to have taken on new strength, spiritually.

We expect this year to be the happiest and best in the history of First Baptist.

On last Sunday evening the most wonderful reports were given by the secretaries and treasurers of the different auxiliaries for the yar 1923.

Such reports would bear the test of severe criticism. We realize, however, that it is due to the fact that we have an abiding consciousness that we have a leader who is fundamentally right with God. Our wife of [illegible] stood the threshold of [illegible] and every member [illegible] a soul-saving [illegible]

The pastor occupied the pulpit at the evening hour and spoke on: "Resolutions."

This Sunday, January 13th will have good things in store for us. The pastor will preach at both services and the Lincoln Male Quartet will give a selection at the morning service.

You are cordially invited to worship with us at all times.

FIRST A.M.E. ZION CHURCH
Cor. Pico and Paloma Sts.
Rev. W. E. Shaw, Pastor

Sunday, January 13th, the pastor will occupy his pulpit morning and evening.

Monday evening, January 14th, Mme Lula Robinson-Jones, a famed soprano, of New York, will give a recital. Don't fail to hear this great singer.

Tuesday evening, January 15th, opens the revival. The Rev. L. Beard, great woman evangelist of Kansas City, will assist in the meeting. No church can hold the people who come to hear this wonderful preacher.

Last Sunday morning a large, appreciative audience greeted the pastor. A splendid way to start the New Year. We hope to see it continue.

The choir under Prof. Bynum rendered excellent music.

The pastor's morning text was from Zach. 9:12: "Turn you to the stronghold, ye prisoners of hope". At 7 p.m., text, "I am not ashamed of the gospel."

Both sermons were fine indeed and full of gospel truths. Many communicated on this first Lord's day in the new year.

Visitors and friends are always welcome at Zion.

previous records. At this station we have crowned Him Lord of all. Largely due to the effective work of Pastor Holt and his congregation, also the effective work done by Director Pitts and his famous choir. These, too have played a conspicuous part in this campaign. Director Pitts is also at the head of the Los Angeles Music and Sing Association. We appreciate the coöperation of our neighboring pastors of the city and their congregations, Revs. Bean and Shaw, who have been of great service.

Sunday was a gala day as we crowned Him Lord of all, sending nine to the various churches of the city. Sixty-three registered within our gates, eleven for baptism and fifty-two by Christian experience. Come over and help us do a good work for the Master. Visit us at St. Paul.

HAMILTON M. E. CHURCH
Cor. E. 18th St. and Naomi Ave.
Rev. S. M. Beane, Pastor

Sunday services at this fast growing church, were of that high order that usually characterizes them. The pastor preached at the morning and evening hours sermons that uplifted and inspired. The Communion of the Lord's Supper was administered. This was the largest Communion Service in the history of the church. Sunday School continues to grow in interest and does the work that it has to do well. Epworth League interest is manifest. Many pleasant features are planned for the near future. Watch for them. You will always find a cordial welcome here. It is the friendly church, and "Stranger's Home." Come and see.

WESTSIDE MISSION A. M. E. CHURCH—
1609 W. 36th Place
Major G. W. Prioleau, Pastor

Sunday last was a glorious day at the Mission. A full house greeted the pastor at the eleven o'clock service. The offering was very good and was in keeping with the budget system instituted by the pastor for this Conference Year. Missionary Sister Shell was among the worshippers.

The Sunday School was largely attended, seventy-six being present. The pastor was somewhat indisposed; Brother Wm. Washington held forth to a very nice audience.

Come and help us. You are heartily welcome. Many visitors were present.

PHILLIPS CHAPEL C.M.E. CHURCH
1406 Newton Street.
Rev. R. W. Underwood, Pastor

The first Sunday was a glorious day at Phillips Chapel. Every available space and chair was taken. The pastor preached a soul stirring sermon from the 6th chapter of Isa. and the 1st verse. The door of the church was opened and six persons came forward and joined. The choir rendered some beautiful selections during the day. The Sunday School was well attended. Brother Maxey is the superintendent. He is putting the school on a high basis. Every member is requested to be present Sunday to hear the special sermon to be delivered by the pastor.

The Men's Uplift Club and the Busy Bee Literary Club are planning big things this year. The public is cordially invited to our services.

LINCOLN MEMORIAL CONGREGATIONAL CHURCH

NEWS OF CALIFORNIA STATE

REDLANDS

St James Baptist Church
(Rev. Shockeley Pastor)

There was no Sunday morning service owing to the regular pastor being absent and out of the city. The evening services were well attended with Rev. C. S. Holt, our local pastor in charge of the services. Many good things were said and much benefit was derived from his sermon. The church seems in sorrow and sadness owing to the recent loss of Mrs. McMillan who died last Monday, and whose body was shipped back to her old home for burial, the entire family accompanied it. She leaves a husband, two boys and a young Miss to mourn her loss—Our loss is heaven's gain.

The weather still continues to outdo itself here of late, one has to hunt the comfort of the blankets before day to be comfortable—for which we are appreciative. One or two light showers have been added to our rainfall average.

A card from Mrs. Mattie Isom at Chicago stating that all was well on board and now speeding to Buffalo, N. Y. James keeps the trees watered while she is away.

Quite a few delegates of the Convention en route to Los Angeles are passing through our city, a lovely sight to behold; everybody is at the station except Oscar Greer, the handsome sheik. Think he has his orders. Too bad Greer, we will look after your end of the business from now on.

A word from our lovely Supt. of Sunday School, Mrs. Frank Moss upon her vacation. She is in [illegible] enjoying herself.

Oops, listen! Look out boys, one of our famous sheiks is on his last trip to Los Angeles—we don't mean Rudy. She must be a queen and a queen to catch this sharp eagle. Just wait and see, and for fear of impending law suits I will sail no name. Why, Mr. Isom, even purchased cigars. Only goes to show there is a bird for every cage—it matters not he whig.

After having outdone a bevy of queens, the lovely two sisters, Miss Ruth Thomas and Miss Sewilla Johnson will shortly pass through our city en route to Denver to finish up their vanishing tour of the many Southland. They were highly entertained in Los Angeles during their stay there and promise to return to the Angel City just for pastime once again. They have a sister, Mrs. Hickman, in this city. Miss sThomas simply charmed the musical cities with some o fher musical renditions.

Mrs. Frank Malone, the charming wife of one of the colored mechanical force employees, has been slightly indisposed but is o nthe mend. We hope her condition will improve from hour to.

Charming Miss Grace Davis spent a few days in the Big City attending to special church work and reports all set for Convention week.

REDLANDS

Mr. and Mrs. J. H. Johnson and Mr. and Mrs. John Walls motored to Indio Sunday to visit Mr. and Mrs. Hendricks and little daughter; except for a few changes of tires on the old lizzy, they say their trip was lovely.

A party consisting of Mesdames G. Cooper, S. E. Jackson, Ida Thompson and Mrs. Grant James and Mr. and Mrs. Roy Kinnard, spent Sunday in a picnic at Elsinore Springs.

Mrs. Morris, her two daughters and little granddaughter who have been the house-guests of Mr. and Mrs. Kinnard of High Ave., left Saturday evening for their home in Oakland.

Mr. Canson of Los Angeles was visiting in the city last Sunday.

Mrs. S. E. Jackson of 6th street was called to Los Angeles last Sunday to She returned Thursday.

Mrs. Harris and two daughters of Needles are in the city stopping with Mr. and Mrs. Black of High Ave.

Mr. and Mrs. Wm. Taylor, Mr. and Mrs. R. B. Burton and Mrs. Chas. Hughes, motored to Pasadena, Sunday to attend the Western Baptist Association.

Quite a number of Redlanders motored to Pasadena, Sunday. Some of those were Mr. and Mrs. J. H. Scotland and Mrs. and Miss Nash of High Ave.

Rev. Chas. R. Dodge and Mrs. Jessie Taylor who were delegates to the Western Baptist Asspciation which convened at Metropolitan Baptist Church, Pasadena, returned with glowing reports of a most splendid session.

Mrs. Carruthers of Tribune St. is quite indisposed at this writing.

Mr. Robert Lee Jones has recently purchased a lovely home on E Olivet Ave. Mrs. Jones is visiting in the East but we expect she will be home soon to see the home that was purchased while she was away.

Rev. Chas. R. Dodge returned home Monday afternoon and filled the pulpit of the Baptist church Sunday eve. The First A. M. E. Church is putting on pains in making preparation to meet the Annual Conference.

Shiloh A. M. E. Zion Church
Rev. G. W. Reed, LL.B. Minister

For the past three Sundays this church has taken on renewed vigor. Pastor Reed is able to be at his post, putting his characteristic energy into the work, has made this boom as if the summer vacation was over with.

Last Sunday was one of the greatest days in the history of the church, from a spiritual point of view. The services began with an old time Sunrise Prayer Meeting, in which the spirit ran high; it went over into the Sunday School, thence into the morning worship.

The pastor preached on the subject —"The Foundation of the Church." The subject was handled with dexterity and logic, charged with the Holy spirit. At the close, three connected with the church.

The building of the parsonage and community centre are in progress, the parsonage will soon be ready for occupation. Sight-seers and visitors are always welcome to this church.

RIVERSIDE, CAL.

Sunday evening was another epoch-making evening in Riverside. The Missionary Society had charge of the evening program. Several interesting numbers were rendered, among them were: Solo, Mrs. Pauline Rodgers, talented daughter of Mr. and Mrs. Jackson; Solo and Chorus, led by Mrs. Edna Williams, who was also musical directress of the evening and a duett by Mrs. McCorkle and Mrs. Allen. Rev. Beane delivered the message of the evening, which was full of information, plain in delivery; many stood around the door of the edifice and commented long after the services had adjourned. The Missionaries appeared in white, and were pleasing in their appearance. At the opening of the doors of the church, two persons came forward.

Many Riversiders attended the funeral services of Mrs. A. Simpson in Los Angeles, Wednesday past. The services were solemn, yet simple and in keeping with the spirit of the age. Resolutions were read from various churches that knew her and orders of which she was a member. The music was furnished by the Santa Monica Choir, assisted by Bro. Emanuel Hall and Mrs. S. P. Dones. There were ministers from every A. M. E. Church within a radius of one hundred miles present. Pall-bearers were selected from them. There was a profusion of flowers indicating friendship, purity, love and noble purpose, Rev. Jas. Washington, P. E., delivered the principal eulogy, Rev. A. M. Ward, Master of Ceremonies, Conner and Johnson handled the body. Interment at Santa Monica.

The Sunday School of the A. M. E. Church gave a Watmin Bake last Tuesday night in the interest of the S. S. Friends . . It was a great success . Mr. and Mrs. Daugherty and Miss Mary Strickland were the moving spirits.

Riverside has suddenly become a land of "Birthday Surprises" to many who are beyond the date of birthdays. The past week saw two brilliant parties given at the homes of Mr. and Mrs. Culpepper and Mr. and Mrs. Daugherty. Each was a real surprise. In the case of Culppeppers, the wife surprised the husband and in the case of the daughter [illegible] husband surprised the wife [illegible] each it seems to be a case of [illegible] me again. Both were well [illegible] and all present shared the [illegible]

Still there [illegible] Riverside from the number of [illegible] er cities. Among last week, many [illegible] whom worshipped at the A. M. E. Church were: Rev. S. M. Beane, Mr. and Mrs. Holloway, Mr. and Mrs. City and Mrs. Carson of Los Angeles, Mr. Tucker of St. Paul, Min., and Mr. Henry of San Diego.

Somehow my cares seem so much fewer
Since I met you

Nor an anxious dread about tomorrow
That is equal to the strength which I can borrow,
Since I met you.

SOME DONT'S AND BE'S FOR GIRLS

Among some of the striking features of Pastor Shaw's sermon to the girls last Sunday was his list of Don'ts and Be's as follows:

"Don't hunt up the boys. It is natural for them to hunt you up."

"Don't phone up your beau too often if at all. A boy respects and knows a girl that is hard to catch."

"Don't disobey your parents even if they advise you against your wishes—they have had a chance to have better judgment than you have."

"Don't be jealous. Jealousy is silly in old and young. Nagging never made a lover and never will."

"Don't be common. You lose you power of permanent attractiveness by it."

"Don't go with a young man who becomes insanely jealous every time you talk with anybody else. He will make your home a h——l instead of heaven."

"Don't embalm yourself with unnecessary painting. Your natural beauty is far superior to anything artificial."

"Don't spoon too freely. The old-fashioned good-night kiss is about all young people can stand. Modern petting parties lead to pre-mature marriage or something worse."

"Don't talk too much. About all some young women know is the art of endless conversation."

Some Be's For Girls

"Be industrious. Be thrifty. Be neat. Be Independent."

"Be kind. There is nothing that wins and holds friends like kindness and attentiveness to others."

"Be socially cultured. Spooning may kindle the flame of love but it takes culture and personal worth and efficiency to keep it burning."

"Be good. Be Virtuous. Be pure."

"Be religious. Only genuine Christianity can give you those charms and graces that abide forever."

...took place and how he came out ...is hereby related in Mr. Ford's own words to the reporter of the Eagle. His story follows:

"On Sunday, August 12th, near my place of business, 2513 Central Ave., where I was engaged in the Real Estate and Brokerage business, I was in my automobile and was accosted by officers Green, Stevens and Broady, who had run up behind me, saying, "Who is Ford?"

"I answered, "This is Ford."

"Steven said: "I guess you know who we are, don't you Ford?"

Ans: "No, I don't know who you are."

Stevens: "We are officers. Come on, drive us down the street a ways, we want to talk to you."

Ford: "If you have the under arrest, let me close the doors of my business over there."

Stevens: "That's alright, we are just going down the street, you may be able to come back right away."

"They then brought me to 12th and Central Ave., and from there to the Central Police Station, having not yet told what they wanted me for.

"Arriving at the station they carried me into a small room and quizzed me. Coming out they told me my name was Frank Ford, and that they wanted me for killing a man in Birmingham, Ala.

"Of course I knew the charge was preposterous, for I had never been in the State of Alabama, much less Birmingham, but my protests were to no avail. They ordered me locked up and no one was to see me or to talk to me.

"I tried to talk to the jailer and to get in touch with somebody, and finally Officers Broady and Green came along. I asked if they were going to put me in jail and not give me a chance to get any assistance at all, and they said, certainly not, and sent me an attorney of their own choosing.

"This attorney, LeRoy D. Barnett, however, agreed to go forward with proceedings against extradition, and nothing ever came of it. At least I was never called for such a hearing or given opportunity to prove that I could not be the man they wanted in Alabama.

"After 18 days, the two Alabama officers arrived in the persons of District Attorney James G. Davis and Sheriff T. J. Shirley of Birmingham, Alabama. These two officers, accompanied by Officer R. E. Green, ...me off in the Station in a hurry. A Probate Server came in at this time inquiring for R. F. Green and other officers. They would not ...knowledge who they were. I spoke ...Officer Green told me it was ...mistake, but I suggested ...the Probate server anyhow, ...served the papers, but Deputy ...Green told me to go ...

presented when Judge ... ended the trial by refusing to let the case go further. He denounced the procedure of the officers and stated that I should have some sort of redress.

"Now, here I was, brought from my home and business more than two thousand miles away. My funds were exhausted during this long period, but the hand of providence brought to me succor and relief by the kindness of the Colored people of Birmingham; they collected funds to send me back to Los Angeles, where I arrived on Xmas day—my business gone, time lost, and all for what? The imagination of a "Police Snitch" and the lack of opportunity or any chance at all to prove that I had never even been in the State of Alabama.

"I want to make special mention of kindnesses extended to me by the following people of Birmingham:

"J. B. Butler, Prop. of Pythian Temple Barber Shop; Wm. Wallace of the Climax Realty Co.; Mr. ... Davenport, Mgr. of Pythian Temple Barber Shop and the Sheriff, Mr. Shirley.

"I also want to thank the California Eagle for their kindness in permitting me to state my case, also for their generous spirit and opportunity to make known the inside story of my being kidnapped and "shanghied" to Alabama, because somebody wanted some kind of supposed REWARD."

Times Magazine of the pen of John Steven McGroarty, relative to our pioneer Messrs. H. G. Stokes, Noah D. Thomasson, T. A. Green and Editor Bass regarding tribute to the genuine worth of this noted writer, literary critic and humanitarian, who has ever devoted to present our clubs in terms of truth and righteousness when others would belittle and ridicule.

...ary character, hard working, and peaceable citizen, and has a record for truth, sobriety and integrity.

Taking into consideration the inability of the former jury to convict him, the immense cost to the tax payers, and that Johnson is no criminal, and further, that if it were a case of two white men or a white man killing a black man under the same circumstances, there would be no second trial, or possibly no first trial.

We have to speak up for justice, and ask that color shall be no line of demarkation, that justice should be color blind.

Out here where democracy reigns we are supposed to get even handed justice. Every juror who goes in the box is asked the question, will the fact that the defendant is a Negro have any effect upon your verdict. He answers No! but everybody knows that in ninety per cent of the cases tried the color of the defendant carries with the case a certain stain which cannot be overcome, even though a juror swears to the contrary.

Therefore, even tho the judge upon the bench is really fair and impartial, jurors oftimes refuse to go by the facts as produced from the witness stand, but go by the color of the defendant's skin.

This writer believes in the law, we will defend no man of a crime on account of his color. If a black man commits a murder, let him suffer the penalty of his crime. But any man who defends the honor of his home is entitled to even handed justice, even tho he be black or white. And we trust that the case coming to trial will be given this consideration, and if so, Johnson will be vindicated to the utmost.

BLUE LANTERN ENTERTAINS KIDDIES

BLUE LANTERN INN BRINGS XMAS CHEER TO SIX HOOR KIDDIES

With the aid of Miss Gladys Harrip the Blue Lantern Inn gave a free Xmas dinner to 63 boys and girls, gather together by Miss Harris from various charitable institutions in the city.

At the conclusion of the meal, Mr. Wheatman said, "I felt more than paid for the expense I had gone to, in trying to help make Xmas cherry for those unfortunate children; while I noted the gladness and joy that lighted their countenances, when they saw turkey, and strawberry sauce coming, it was a pleasure for me to help to whatever ... to make Xmas a merry one for them."

...both in a business and a social way. One had only to be present at Gamut Club, December 27th to realize this. The Club had been decorated for the occasion by the well known interior decorator, Mr. Porter. While the decorations were admired by all, few realized the care, thought and expense that had been unted to creat the delightful Puritan age effect that blended so perfectly with the numerous wonderful gowns. The whole creating a riot of color at once striking and harmonious. Among some of the gowns noticed was that of Mrs. Hattye Bruce who is the mother of the club being a pioneer resident of Colorado before coming to California some years ago. Her gown was of white crepe satin and narola de chine and pearl trimming. Another very handsome gown was that worn by Mrs. Raymond Clarke. It was made entirely of imported silver brocade en train. Miss Lue Williams wore a heavy jet gown with a side train of orange tulle. Mrs. Anna Smithia's gown was of shell pink taffeta covered by silver lace. Mrs. Arthur Maloney wore a beaded gown of chinese blue. Mrs. Marcia Austin wore lavender georgette over yellow heavily beaded. Mrs. Carolyn Sivers wore white pan velvet and rose chiffon. Mrs. L. D. Barnette wore coral velvet. Mrs. H. Allen's gown was of tangerine faille taffeta and silver lace.

Mrs. F. M. Butler wore a gown of white iridescent over pink and blue tulle. Mrs. P. E. Boyd wore apricot satin de chine trimmed in pearls and rhine stones. Mrs. N. J. Marshall wore a handsome gown of nile green lace. Mrs. Smallwood was stunning in a cloth of gold gown. Mrs. C. Pritchette wore orchid crepe trimmed in French flowers. Mrs. G. Stewart was charming in white Duchess lace over nude chiffon. Mrs. Gran Nelson was beautiful in her gown of Rhines and smothered gray. Mrs. Budgie Dickey wore a French model of silver cloth jade green velvet and seal skin. Mrs. J. Howard wore a quaint gown of peach colored taffeta and old silver. Mrs. Paul Williams wore a beaded gown of white and London fog gray. Mrs. D. M. Johnson wore a gown of orange gri de longre and crystals. Mrs. Laura Bragg was lovely in a gown of turquoise blue velvet over satin with rhinestone and silver trimming. Mrs. E. A. Price wore King's blue and silver. Mrs. Davidson wore ashley chiffon over ocean blue. Mrs. Ruby Watson wore Sicult chiffon over rose satin. Mrs. Lore Williams wore Cattleaia and orchid georgette beaded in colors. Mrs. Chas. West was handsome in a gown of silver and electric blue brocade. There were many, many more lovely gown but it would be impossible to describe them all. The ball was a particular success in every way and everyone is looking forward to the ... ball to be given by the Gamut Club.

EAGLE EDITOR SPEAKS

A splendid program was rendered by the chorus. Mrs. C. A. Bass, Managing Editor of The California Eagle, delivered the Emancipation Address, and from the enthusiastic manner in which her remarks were received, the people were well plased. The speaker deviated from the time worn path of Emancipation orators and took up the question of Emancipation from the weights which hold down the growth of the race in this day and time, paying a glowing tribute to the mothers and fathers who came up from slavery and who had striven to give their children the advantages which they enjoy today. She exhorted these sons and daughters to make the best use of their opportunity and to bring forth a greater emancipation than that which was brought forth in 1863.

The meeting was held under the auspices of the Ministers' Alliance of Pasadena, and was a most successful and notable occasion. Mrs. Ida Ford was mistress of ceremonies. Miss Hunter delivered "Lincoln's Gettysburg Address".

CLUB WOMEN'S COLUMN

Last Friday evening, December 28, a brilliant banquet given by the club women of the Southern Division of the State, honoring Miss Hallie Q. Brown, president of the National Association of Colored Women's Clubs was staged at The Blue Lantern Inn. About one hundred guests responded which taxed the rooms of the Blue Lantern to its capacity. Women in beautiful gowns, and men in evening attire made the scene a beautiful picture.

Mrs. Edna Stewart, Mistress of Ceremonies in pleasing remarks, introduced Mrs. Lula Slaughter, past president of California, who in glowing terms introduced the distinguished guest, Miss Hallie Q. Brown.

Miss Brown in her eloquent manner emphasized the needs of the race, more business men and women, especially our colors and builders.

Mrs. Dorcas Bixby presiding officer of the Southern Division, gracefully told of some of the work of the California women. She also presented beautiful flowers in behalf of the club women.

Too much praise cannot be given to the Blue Lantern Management for the lovely ... served.

...city. The Mt. Zion Baptist Church in particular and the Baptists in general, have a cause for great rejoicing. For in the coming of Dr. Stokes into our midst, we have a ripe scholar, an experienced leader in the practice and polity of the church such as is but few others. Dr. Stokes has been honored with every office in the gift of the National Baptist Convention. He is now the treasurer, and has been for a quarter of a century. Though a septuagenarian, he is the youngest, as well as the noblest Roman of them all.

Dr. Stokes was a life-long friend of Dr. Booker T. Washington, and was his private counsel in critical times, while building up the great Tuskegee Institute. Major Robert Russa Moton, head of Tuskegee, recognized the wisdom of Dr. Stokes, and had him elected to the board of trustees of the school.

Dr. Stkes leaves one of the greatest churches in the South. Its membership is more than 5,000. Most of whom he added while in the pastorate of forty years.

The Doctor is said to be one of the few Negro ministers who are wealthy. This is stating it mildly.

Much time has been spent on two separate occasions in Palestine, where he explored the land made sacred by the life and death of Jesus Christ. These trips have added veneration, which is akin to the prophets.

Through spending most of his days in the South among the prejudiced whites, still that unconquerable spirit and indomitable will have never been swerved from the highest interest of the people whom he served and successfully led, and this has endeared him to both races.

L. A. COUNTY MINISTERS' UNION

The closing of 1923 marked the end of a very successful year's work for the L. A. County Baptist Ministers' Union.

The last meeting of the year was held at the St. Paul Baptist Church, and a most enjoyable meeting it was, and every one present was made to feel blessed for being there.

The work under the leadership of Dr. J. Madison Young for the past six months accomplished many things that will be stepping stones in the advancement of the Union for years to come. Dr. Young, being a man of seasoned experience and measuring up to the standard in everything which adds to Ministerial dignity, was fully capable in every way to place the Union in its rightful place in the world.

Now comes our President-elect, Rev. W. H. M. Dickerson, one whose ability as a leader has already been accepted and we are looking forward for even greater things in the future, and we are praying that the Lord will remain with us and continue to bless the work of the brethren.

The new officers of the new year are:

President, Rev. W. H. M. Dickerson; Vice Pres., Rev. J. H. Holder; Sec't., Rev. A. T. Hines; Treasurer, Dr. W. H. Rosier, Program Committee, Dr. J. Madison Young, Dr. H. D. Prowd, and Dr. W. H. Rosier.

By vote the Union will meet the next six months at Pleasant Hill Baptist Church, 261—North Bonnie Brae Street, Los Angeles.

The public is invited to attend these meetings. Each pastor will urge his membership to attend, each Monday, 11 o'clock.

Rev. W. H. M. Dickerson, Pres.
Rev. A. T. Hines, Sec't.

...ere. Let this be an example for the young students. Nearer home we have the case of Mr. Washington, who has been singing at local theatres for the past five weeks. We have voices among our young men and women in this city as good as that of Mr. Washington, but we have no young men nor women either for that matter who are willing to make the sacrifice for the development of their voices. Most of our serious singers are among those whose ages and family responsibilities prevent them from thinking about a great career. One of the greatest sins that our young people commit is that utter disregard for the beautiful voices that are among the birthrights of the race. May the coming ... at least one ambitious ... among us.

Our local teachers and musicians are realizing that only through co-operation can they hope to improve themselves and the community, and are putting aside their petty jealousies and differences and trying to meet each other on common ground.

There are more students among adults than ever before and miracle ditto, men and boys are crowding the girls and women out of the classes. At concerts one sees as many men almost as women which is proof that we are becoming a musical city. Who can tell what future masters are among these boys around us?

One important new move made last year was the establishment of a local branch of the National Association of Negro Musicians. The M. P. A. is responsible for the move and in planning a great program for the coming year.

The city can boast of a real Chamber Music Society whose purpose is to develop appreciation for the best in music. There is perhaps no similar organization elsewhere in the race with the same scope and purpose.

Altogether Musical Los Angeles is looking forward to its greatest year in its musical history. We urge our readers to lend a hand when ever the opportunity presents itself to assist in this development. May the New Year be a happy one for all.

Mrs. Corinne D. Hicks is President of the local organization.

OMEGA PSI PHI PRESENTS PLEDGES

Skilled in the fine art of hospitality. That was the verdict rendered members of Lambda chapter, Omega Psi Phi fraternity, when, at the close of one of the smartest affairs of the season, the fraternity presented to their assembled guests, the Delta Sigma Theta sorority, three of the most prominent college and professional men in Southern California.

The entertainment was held in honor of the Delta Sigma Theta sorority in acknowledgement of their age-old affiliation with the Omega Psi Phi fraternity, and, at the same time, it afforded the local chapter opportunity to present three of their newly pledged members.

The pledges were Mr. Eugene Johnson, the successful druggist, Mr. Paul R. Williams, well-known architect, and Mr. Charles Lawrence, a student and reader of psychology at the University of California.

The local personnel of the Omega Psi Phi promises to set the criterion for things fraternal and social in Los Angeles and the affair last Saturday night was typical of this promise.

Messrs. C. H. Bodge, Jr. and R. J. Lewis, will be joint hosts tonight at the Quality Cafe, to eight couples, honoring Mrs. Hazel Alexander Burch, and Mrs. Ethel Bryant, of Chicago, with a midnight buffet supper.

Mrs. Horace Clark will be hostess at a party of fourteen persons, on Sunday evening, in the Quality Cafe.

Geo. Dewey Washington In Benefit Recital

George Dewey Washington, the great baritone who has just finished a record breaking engagement at the Grand Theatre, was presented in recital by Mrs. A. C. Richardson last Sunday afternoon at the Birch St. Christian Church. Mr. Washington who comes to us from Seattle has sung in all the larger theaters on this coast and is acclaimed as one of the premier soloists of the West.

The capacity audience received all numbers enthusiastically but most of all they seemed to enjoy the Prologue from "Pagliacci" rendered in Italian. Second only to this number was a group of Spirituals, "Deep River," "Bye and Bye," and "Go Down Moses."

Mrs. Washington was assisted by Miss Leonidas Simmons, Soprano, of the College of Music, U. S. C. Miss Simmons has a wonderful voice, range and maintains excellent control. Both qualities were exhibited to perfection in Cook's "Swing Along."

Mr. Washington was accompanied by Miss Naida McCullough, also of U. S. C.

In many ways the affair was one of the most unique ever staged in this city, giving ample proof that our people will support the youth in his attempts to reach the heights; just before the holidays a young woman was dismissed from her classes at the University of California, Southern Branch, for delinquency in fees; during the holidays the young men of Kappa Alpha Psi learned of it and set to work to raise funds to put her back and to enable her to stay; only enough was raised for the former. Mr. Washington hearing of what these young men were trying to do and feeling the need of supporting such deeds volunteered his fullest support and his services in carrying out the task undertaken. Feeling that the job was more than a few students could handle unaided they accepted the kindness of Mrs. Richardson who ably managed the Recital and told those assembled of the purpose of the affair. The result was most gratifying, one hundred dollars and forty-seven cents were laid on the table in less than five minutes, all of which has since been turned over to the young woman for the furtherance of her education.

There is no question but the people of Los Angeles are behind her young people, th people of our race are awakening to the potential possibilities in the coming generation. Great things can be expected of such a community of race.

Upsilon Chapter of Kappa Alpha Psi wishes to thank those who helped us so nobly in our recent effort. We are pleased to note the confidence placed in us by the people of Los Angeles.

We wish especially to thank Mr. Washington who by his generosity made the affair possible; we wish to thank Mrs. Richardson whose untiring efforts and efficient management were responsible for its success; we wish to thank Miss McCullough and Miss Simmons, also Miss Summons' accompanist; we wish to thank the Birch St. Christian Church for the use of their one. We tank all of those who contributed.

There were many who contributed Five Dollars, we failed to get the names of all of these, a few were: Dr. Nelson, Dr. Hudson, "The California Eagle," "The New Age-Dispatch," the Uniform Rank K. of P., and the Grecian brothers, Alpha Psi Alpha of U. S. C.

On the evening of Sunday, January 20th, we will have the President of our University with us at the Independent Church. All are invited to hear this wonderful speaker.

We thank you again and promise we will not violate the confidence you have put in us.

Golden West Lodge I.B.P.O. of E. of W. No. 85, Will Give Grand Pageant and Charity Bazaar May 3-12.

The Local Elks Lodge, Golden West No. 85, will stage in this city May 3 to 12th inclusive, the most marvelous and gigantic Pageant and charity Bazaar which has ever been attempted by members of our group on the Pacific Coast, in dazzling splendor and gorgeous proportions as only the "Elks" can, the Pageant will mark a new epoch in the amusement annals of this section.

The Elk Lodge is itself the fastest growing and the largest single fraternal order in the entire western country, numbering well nigh one thousand members. Golden West Lodge has gained a reputation second to no other fraternal body for doing things. All of its entertainments have been marked for their huge success, the members thereof pull together to make it so. They have not been content to simply succeed as a lodge, the organization is ambitious and has erected a most splendid home site at 38th Street and Central Avenue, on this site the Elks propose to build the finest Eastern Star Temple of the Magnificent Style.

The big pageant and charity bazaar and the joint efforts manifested will to build, it is admitted and rightly so, that all hands will join with them to make this pageant and exhibit a notable success.

TITLE GUARANTEE COMPANY SEEKS INJUNCTION AGAINST ALEXANDER

In a suit for injunction to keep the city from signing a lease to Titus Alexander for the Beach property, near El Segundo, the Title Guarantee Company of this city, complains that in case Alexander gets the lease, large crowds will congregate there also restaurants and amusement places will be established there and all of this coupled with all the other things would endanger the health, peace and dignity of the great city of Los Angeles. And finally they claim that Titus is getting too big a bargain. In figures the company complains that Titus is getting for the lease price $5,000 a year value equal to $135,000.00, and that this is too much.

Only A

Now as a matter of fact the south of the situation is that our white folks as Roscoe Simmons would say,

Starts May 3rd

This great Pageant and Charity Bazaar will start and continue for ten days not one of which will fail to be a banner day. Something Big every day. The Exhibits will be the finest from all of the various industrious lines of industry.

Master Hand Will Guide

H. L. Leavitt, far famed impresario will have charge of the management of the big show. He is known far and near as a master mind along this line of effort and has successfully conducted the real big Pageants and Exhibitions in the West. The Elks acted wisely in securing a man of the experience and calibre of Mr. Leavett to conduct this affair.

Queen of The Pageant.

A spirited contest will be conducted for the honor of presiding as Queen for the period of the Pageant and Bazaar. From among the number of beautiful ladies entering the contest, the one receiving the higest vote will preside as Queen. Five diamond rings will be given away in the order of which the contestants finish.

The next big feature will be the big Fashion Show at which also five diamond rings will be given away to the five winners.

The management starts early to suppress being late, and there is no question that the public will join in with hearty accord for the success of the Elks in their great undertaking. are jealous of the black folks and they aver that this is too much for colored people. Just think in this democratic country, even though a loyal part thereof is to have one mile of beach at which no line of demarkation is drawn it will spoil them, and of a consequence be too great a boon for common ordinary every day citizens.

To our mind, and, it seems, to us, to all who are fair minded, this injunction, if granted, would be most unfair and unjust. This great big company, with its millions behind it, should not stoop to such small things as to rise up with some false cry and sing the blues simply because some body else out generaled and out lucked them, and got a good bargain on bargain day.

We commend the council on its stand. We have an abiding faith that no court will side with the narrow, false and extorted views of the Title Great Company, and that the injunction will be denied.

THE SPIRIT OF RESURRECTION

Continuation of the Thought Advanced Last Week—"Message to the World."

Geo. W. Bright

For the law of the spirit of life in Christ Jesus hath made me free from the Law of Sin and Death.—Rom. 8:21.

But if the spirit of Him that raised up Jesus from the dead shall also quicken your mortal bodies by his spirit that dwelleth in you—Rom. 8:11.

The 37th of Ezekel is one of the most remarkable exhibitions of the work of the Holy Spirit in the Old Testament, because it introduces with great clearness and definiteness, the doctrine of the Resurrection

This truth, beyond all others, is characteristic of the system of redemption. It might be called the potent sign of the Gospel. Far more than the Cross, the Symbol of baptism expresses the fundamental idea of the Christian Religion; for while the cross speaks only of death, baptism tells also of Resurrection and life. This truth foreshadowed in many Old Testament passages, and doubtless underlying the teachings of all the prophets is brought out here a primary one of the marked ones of Old Testament revelation. Here we have the valley of dry bones. The application of the vision to the spiritual life of the Soul and the church.

There is something worse than the death of a nation, there is something worse than the death of a body, it is the Spiritual Death of those who lie sunk in trespasses and sins. The condition of human souls is like the bones in the valley of vision, very many and very dry. There is no human probability of restoration or life, but there is hope in God, and is resurrection of life.

GEORGE W. BRIGHT,
Ex-Lieut. L. A. F. D.

POLITICAL POT PIE

Wood Wilson premier political worker is out early to keep from being late and busy at the work on the Coolidge end.

Charlie Oliver, also known far and near as a worker in the political field is a Coolidge booster. In the last contest with Johnson and Moore Charlie occupied a front seat in the Johnson band wagon.

The Lincoln League has begun its organization throughout the country, and will pull off the greatest political meeting ever held by colored republicans in Chicago on Lincoln's birthday.

Governor Friend Richardson comes up to the second year of his administration, and a stormy time has been his portion; but he holds his own. The only short coming to our mind is his failure to recognize all elements as a real governor surely and truly for all of the people.

Frank H. Mouser, with assemblyman Pedrotti as a runner up, are the ones so far mentioned who will contest for the colored senatorship at next fall's primaries.

My Friend Recommended You to Me.

Nine persons out of every ten who come into my office write or call me by phone for appointment, greet me with the six following words: My Friend Recommended You to Me, and I appreciate those words beyond expression, they mean more to me than all the gold in the world; for those words show the confidence that reputable citizens have in me and in my business methods. They more than repay me for the effort and hard work that I put forth to have my clients money and worry. I have striven to make a friend out of everyone whom I have had any business dealings with, and those words assure me that I have succeeded. There is not enough money in the whole world to tempt me, or cause me to betray the confidence reposed in me by my clients and I believe that everyone of my clients has sent his or her friend to me. To those seeking homes, or other property, may I serve you? A few of my special prices and terms:

RELIGIOUS VETERAN RETURNING TO L. A.

DR. A. J. STOKES

Dr. A. J. Stokes, Peerless Pulpiteer, Matchless Orator, and for forty years the untrammelled leader of the race, comes to the pastorate of the Mt. Zion Missionary Baptist Church, this city. The Mt. Zion Baptist Church in particular, and the Baptists in general, have a cause for great rejoicing. For in the coming of Dr. Stokes into our midst, we have a ripe scholar, an experienced leader in the practice and polity of the church such as in but few others. Dr. Stokes has been honored with every office in the gift of the National Baptist Convention. He is now the treasurer, and has been for a quarter of a century. Though a sexagenarian, he is the youngest, as well as the noblest Roman of them all.

Dr. Stokes was a life-long friend of Dr. Booker T. Washington, and was his private councilor in critical times, while building up the great Tuskegee Institute. Major Robert Russa Moton, head of Tuskegee, recognized the wisdom of Dr. Stokes, and had him elected to the board of trustees of the school.

Dr. Stokes leaves one of the greatest churches in the South. Its membership is more than 5,000. Most of whom he added while in the pastorate of forty years.

The Doctor is said to be one of the few Negro ministers who are wealthy. This is stating it mildly.

Much time has been spent on two separate occasions in Palestine, where he explored the land made sacred by the life and death of Jesus Christ. These trips have added veneration, which is akin to the prophets.

Through spending most of his time in the South among the prejudiced whites, still that unconquerable spirit and indomitable will have never been swerved from the highest interest of the people whom he served and successfully led, and this has endeared him to both races.

that are noble and good and if we do this with all our might we shall have no time to note the prejudice of others. So if we are to overcome prejudice, we must replace it with good. Condemnation is not good, and therefore will not overcome prejudice. No person is prejudiced, he may think prejudiced thoughts and do prejudiced deeds, but this is because he is ignorant of Christ's Law of Love, by which we are all divinely equal. So if we heap more prejudice on him we cover him deeper in prejudice. About the only way to dig him out is to show him what Love is like; about

or the one which holds the jewel of pure divinity? The first chest represents what the man ignorantly thinks of himself; the second chest represents what God thinks of him.

The Word of God is quick and powerful. So let us try the Christ way and think God's thoughts, which calls for a plus. Let us do the big thing in a big way first and say with a true Christ spirit, "I can readily forgive you for your attitude toward me, for I realize you know not what you do."

THE PSYCHOLOGY OF PREJUDICE
(Continued From Page One)

From the above we learn that Truth has the power to change all things unto itself. "When a man's ways please the Lord, he maketh even his enemies to be at peace with him". Now, whiles I am not a member of any church, nor what most people would classify as a Christian, still the wonderful teachings of Jesus Christ so fascinate me that I believe it would be eminently unfair to set Jesus Christ down as a mere fanatic without first giving his plan a fair trial. We don't know if the idea advanced by Jesus will overcome prejudice or not, but we do know that hating never will, for if it contained any curative property whatever this country would have been a paradise for us long before this. Let us stop to realize the wonderful truth in what Henry Drummond said: "Jesus had no money—he wrote no book—had no army—organized no institution, yet he conquered the world" Christ had none to help him but a few Galilean fishermen and peasants; and, O [illegible] achievement! With no other weapon than Love, they was out against all the hostile forces of the old pagan world!

The National Association for the Advancement of Colored People, 69 Fifth Avenue, New York, today announced that 69,529 signatures were actually in its National Office, affixed to the petition asking the President to pardon the 54 members of the 24th Infantry still serving long prison terms for their connection with the Houston riot of 1917.

The petitions continue to arrive in large numbers and the aggregate is rapidly approaching the 100,000 originally set as a goal. It is expected that within a short time the N. A. A. C. P. will be able to announce its arrangements for presenting the enormous mass of signatures to President Coolidge at the White House, in Washington.

STREETS NOT LINED WITH GOLD

Drifting into the city of Los Angeles every day from all sections of our country, are those who have read and been told of the beauties thereof; but on arriving here they will soon discover that the streets are not lined with gold. However, if those who know the soil would cast their optics about them and seek the land which the law has decreed that the Japanese people cannot lease, rent or buy on which to produce the vegetables required for this wonder city, they would, without the shadow of a doubt obtain more gold than they have ever dreamed of before. We, therefore, along with the acceleration for more business concerns, and a strong support for such firms, also urge that more attention be given to the question of production from the soil, believing that by right, the Negro farmer is the natural successor to the Japanese ,as the truck garden king of the land. The opportunity is at hand; do not pass it by.

FILLING A NICHE

We want to commend the effort being put forth by the Commercial Council for a general revival along business lines, and must state that the effort which this organization is putting forth is the most far reaching one of the last decade at least. It seems that each member, with unselfish devotion, is striving to do the things which mean progress for the greatest number of people.Also that the whole membership realizes that our status as an integral part of the community in which we live, depends upon our capacity and qualification to get in on the program of business effort.

In this organization, the selfish spirit is unknown, and the man who could only see good in "Me, my wife and dog" is not to be found; for the spirit of the organization is for everybody to get in line and make good in business. And if you make the effort, we are here to help you. This is the winning spirit, and on this platform the Commercial Council is truly filling the niche carved out for those who enlist in the march of progress.

RECOGNITION TO ALL GROUPS

The big question at the primaries in May will be whether Senator Johnson, the two fisted fighter, will name the delegation to the Republican National Convention, or whether it shall be named by those who have heretofore opposed his political advancement. There is no denying the fact that the Senator at home is up against the biggest fight in his political career, and as the time for the primaries advances, the battle line will become more and more clearly defined. At this stage of the game there is every indication that the contest will be fought to a close finish, and in all probability the Colored vote will be the deciding factor in the contest. This being so, it would not be unreasonable, and would be only fair and just that on the Republican delegation from this state, along with all other groups, the Colored Republicans should have recognition. And to both Senator Johnson's manager and those who will espouse the cause to President Coolidge, the Soaring Eagle would suggest that a member of this group be placed upon the ballot as a delegate to the National Convention.

SHY ON REPRESENTATION RECOGNITION

The question of representation in th ebody politic of this great state for all people, is one which should, and must be met. For if some semblance of a square deal is not given to our group, somebody is going to wake up to the fact that they will be missing when most needed. The Negro vote in this County and State has raked the chestnuts from the fire on divers occasions for both men and measures, and ingratitude has been the reward. Governor Stevens was an example. And now where is he? Governor Richardson benefited when they turned on Stevens. He has so far failed of any signs of appreciation. Numerous minor officers, congressmen, and U. S. senators have been lifted up by this support, and yet recognition or representation is an unknown quantity. The time, we verily believe, has arrived to fight for both recognition and representation.

DISFRANCHISEMENT IN THE "SOLID SOUTH"

Alabama recently enacted a law which prohibits any American citizen eligible for the Presidency from seeking support in Alabama for Presidential nomination unless he be a citizen of that State.

Alabama's action is the logical outgrowth of the system of disfranchisement of American citizens which prevails in every state of the Democratic "Solid South", in violation of the United State Constitution and in defiance of the principles of representative government. This constitutes the most malignant cancer upon the American body politic today.

It began shortly after the southern states were re-admitted to the union. Its purpose was to prevent the Negro from voting. It was accomplished by various means, such as poll taxes, educational qualifications, property qualifications, etc. Its effect was to reduce the Republican vote in the southern states.

Now the malignant forces which it turned loose threaten to turn upon the Democratic party itself. Having used the weapon of disfranchisement so successfully upon southern Republicans, both white and black, Alabama Democrats now employ it to bludgeon northern Democratic aspirants for the presidential nomination.

Were the evils of this southern practice of disfranchisement confined to the southern states and visited only upon the heads of the Democratic party, the rest of the country would not be necessarily concerned, but such is not the case.

The South claims and obtains representation in the United States House of Representatives on the basis of its Negro and white Republican population. But having used these for a basis of obtaining seats in the House of Representatives, southern Democracy proceeds to refuse its Negro and white Republican citizens the right to go to the polls and vote for representatives in Congress. Eighty members of the House of Representatives from the "Solid South" are holding their seats because by "shot-gun" policy and by dishonest and fraudulent elections the exercise of citizenship of a majority of their communities is prohibited. It is a plain statement of a disreputable fact that there has not been an honest, free election in the solid Democratic South for a quarter of a century.

But the evil extends higher and further. A state's vote in the electoral college is based upon its representation in both branches of Congress. The "Solid South" casts 114 electoral votes in every presidential election. Everybody knows that these votes are sure to be cast for the Democratic nominee regardless of who he is or for what he stands. Everybody knows this is true because honest elections and the free exercise of the franchise is impossible in any of the "Solid South" states.

The Republican party starts into every presidential campaign with a handicap of 114 votes to overcome before it can "begin even" with the Democratic party in a contest for the Presidency. There are certain states in the North which are battle grounds for every presidential campaign. If the Republicans, after an intensive fight, succeed in carrying New York, Indiana, New Jersey, Ohio, Nebraska and West Virginia they have succeeded merely in carrying enough states to balance the 114 electoral votes from the "Solid South" and they must then go out and beat the Democratic party in the remaining northern states.

Or, to put it another way: Democratic disfranchisement of Republican voters gives to the "Solid South" in every presidential election, without any contest whatever, a sufficient number of electoral votes to wipe out the electoral votes of the Republican states of Pennsylvania, Massachusettes, Maine, Illinois, Iowa and Kansas.

The Democratic "Solid South" attempts to justify its defiance of the Constitution, its disfranchisement of American citizens, its undermining of representative government, its pollution of elections, upon the ground that its action is necessary in order to have a "white man's government". If that be true then it should be limited in its representation in the House of Representatives and in the electoral college to the number of white men in the South who govern. That would give the South a "white man's government" in exact proportion to the white man's government in the rest of the country.

WE DELIVER TO ANY PART OF THE CITY

2011 Central Ave. Los Angeles, Cal.

The Master's ministery is nearing its end. The cross is drawing near. Calvary is not far away. As our Lord taught and wrought miracles many were deeply, tremendously impressed. They wanted to be right. They desired to make sure of eternal life. This desire was not deep and lasting with many, but it was there.

Among those who were so affected was a certain ruler, a lawyer, a member of the Sanhedrin, maybap Good Master (Good Preacher), what shall I do to inherit eternal life?" Matthew says he askt "What good thing shall I do?" Matt. 19:16. I want eternal life: What shall I do to get it? What good deed must I do? What special thing shall I do or practice?

A Great Question

A wonderful question, that. Only questions with honest heart of in we are so selfish. We seldom ask such quiring. We want to be flattered. We want to be told that we are right when we are not. And when our pet sin is pointed out we "go away grieved"

The Legal Answer

Jesus said to the man, "Keep the commandments". Well according to his idea, he had done that. He was willing to acknowledge. He was a decent sort. "If that's it, I'm all right. I have done all that from my youth up." Here was a man like Paul, "in the righteousness which is in the law blameless", Phil. 3

A Fine Fellow

And he really was a fine fellow. Jesus lookt at him and loved him; found somethings especially attractive in him. They were under the law. Jesus must give an answer suitable to those under the law.

Yet the Master knew just where his fatal fault was. Morally, legally, the man was all right. Spiritually, he was lost. He loved himself; he loved his money, he loved his property. "What lack have I yet"? The Master will tell you, friend, never fear.

The Answer

The answer Jesus gave was one that required faith, hope, love.

Righteousness cannot come by the law. It is of faith. Read carefully the book of Galations, and you will see.

It required only training and will power to keep the law. Self respect alone will promote and sustain that decent living required by the letter of the law.

But it takes faith and love. Faith in God and love for man, AND love for God to sell what he has and give to the poor, then follow Jesus.

The love of money, is the root of all evil. Covetousness is idolatry. One may keep the letter of the law, (II Cor. 3) or imagine he keeps it, and not love God at all.

We knew a man who would not work Saturdays. That was easy. The trouble was that he would work very little any day. He imagined himself keeping the law. The letter of the commandments said, "Six days thou shalt labor", He lay around and didn't labor at all.

Ah, when Jesus says: "Keep the commandments" it means more than it seemeth. There is no selfish congratulation in the righteousness of God. It means a life of faith, a love, of self denial. "Give alms of such things as ye have, and behold all things are clean unto you.

Not Under Law

We are no longer under the law, but under grace (Rom. 6); but grace takes all thaat we have and gives us all God has. Luke 14, I Cor. 3.

Faith The Answer

The answer to the young man's question was faith. He that believeth on the Son hath everlasting life. John 3:36. "This is the work the Father would have you do* * * * believe on Him, whom He hath sent". John 6. "He that believeth on Me tho he were dead yet shall he live, and whosoever liveth and believeth on Me shall never die" John 11. Faith purifies the heart, sanctifies the soul, renews the spirit, compels obedience.

The obedience of the letter comes from self righteousness, a thing abhorred of God because unclean. The obedience of faith is spiritual in its origin.

Greet 1924 with faith in your heart, and the great question is answered to you. You have eternal life. There can no evil come to you, for all things work together for good. Amen.

GLEANINGS FROM THE PHILOSOPHER

IN PROSE AND VERSE

By: Wendell P. Gladden, Jr.

LIFE'S RUGGED WAY.

As you journey long life's rugged way
Toward the coveted goal of success,
Forget not your struggling brother each day;
Soothe his brow and his wailings suppress.

Forever cheer the disconsolate soul
By little acts of kindness and song;
Then greater will be your strides to the goal,
Though the days may seem weary and long.

MAKE YOUR HOME HAPPY THRU BEING PLEASANT

What does home mean to you? Is it a place you abhor and in which you find no pleasure, or is it a source of comfort and joy.

Home, like life, is what you make it. If you continually find fault, speak harshly and unfriendly to members of the family, and go about nursing a grouch, your conception of home is not likely to be pleasing.

Do you spend most of your time at home? There is no better place to spend it if you know how. Numerous books and magazines, and countless treasures are ever at hand to arrest your attention.

And if you are musically inclined you may find entertainment and amusement right at home. If you are not an instrumentalist, someone else in the family may be able to satisfy your desire.

Seldom do we find those who neither play nor sing nor try to. But if you fall in the latter class, and are fortunate enough to have a phonograph, you should not worry. Great singers accompanied by famous artists will sing for you. Also rag melodies and jazzy strains sung by vaudeville stars may be heard.

Help make your home home-like and pleasant. Don't give way to unhappy thoughts. It is up to you to [illegible] Make it a sacred place of rest and peace; make it a place of kindness and love, and you will never get beyond the beautiful memories and the warming influence of it.

Humble, though home may be, it is not merely a construction of four walls, but a source of satisfaction and joy. Home is a place of safety from trouble; a place of repose and security in time of storms. Make it so!

BE THOROUGH IN SCHOOL AND COLLEGE

Be thorough! Don't go through school and college contented with having learned only a smattering of your subject. Learn all you can.

There are thousands out in the great busy world who are literally thirsting for knowledge; toiling day and night to get an education. Most of these constitute the working class. But there is no excuse for you. You must make good.

Grasp every detail. The thorough training of the American Army was one of the many things which led to its success. A well-balanced and well-trained football team is one whose members lay great stress on thoroughness.

OUT OF THE WEST

Out into the blackness of the night I went
My arms outstretched and face uplifted to the sky;
Beneath the blackened sky I prayed—my spirit rent
With grief and pain until the dawn of day drew nigh.

Out from the blackness of the night I came,
Alone and unafraid to face the world again;
Out from the darkness of despair with higher aim—
And faith to take my place once with other men.

CITY PARKS OPEN TO THE PUBLIC

When you grow weary of attending the theatres there are other places of amusement and rest Among these are th city parks. Now that the winter days are over, and the summer is at hand, there is a longing in every heart to be out in the open where there is plenty of fresh air and beautiful scenery.

Upon arriving at many of the larger parks, one's attention is immediately attracted by moving lakes, endless lawns, nodding trees and whirling merry-go-rounds.

How rsetful it is to watch the ripples on the surface of the lake as you lie upon the lawn. Noisy children crowded into boats glide by. Here and there out on the lake a slipping canoe guided by careful hands, goes silently by; except for the strumming of a ukelele, or the soft chatting of the lovers.

Then, when this scene becomes monotonous, you look about you, oh, just instinctively. You see the cars of the "Scenic Railway," of "The Race Thru The Clouds," filled with yelling women and children, cheering, as they "loop the loop." Or, perhaps, the varied colors of flowers outlined on the beautiful green of the lawns, will awaken your sense of beauty and love of nature. You wander around the park noting the trees and ferns. Sometimes you stop only to listen to the band concert or visit the museum and other places of amusement.

In this way you forget your troubles and find peace and contentment.

Visit the city parks for amusement, rest, and scenery.

TEAM WORK

TEAMWORK SHOULD BE WATCH-WORD THROUGHOUT LIFE

Team-work is the watchword! Everybody pushing and pulling together for all they are worth to a definite end.

No matter how strong the team may be, if the team-mates do not co-operate, their efforts will be in vain. Each individual has a certain work to do and only through the combined effort of all will there be success.

Consider the community as a great organization and the citizens as team-mates. Now this great team has high ideals and aims, and a definite goal toward which it is working. The citizen—the team-mate—must do his part. There must be team-work. He must take a part in civic activities, support worthy organizations, care properly for his home, and take interest in every movement for the good of all.

We are team-mates in life. There is a special work for everyone of us to do. We cannot afford to sit idly by while other team-mates grind out their lives for the sake of humanity. We must strive with them to eliminate petty grievances and prejudices. We must all work for definite purposes. Team-work is the watchword! Let us keep it before us.

SOUNDS AND MELODIES ARE VARIED AND MYSTERIOUS

Have you heard the master violinist render his favorite piece of music? Have you listened with amazement to the thundering, roaring, and ever inspiring tones of the great pipe organ?

There are sounds of many kinds that come into our daily life, but first, let us see just what makes sound and get a clear conception of what it is.

Sound as usually understood, is a vibration or jar of the atmosphere which sets in motion an inner membrane of the ear and causes a sensation to pass along the auditory nerves to the brain.

All sound originates in a quick, short movement of some sounding body, as a piano string, the lip of a bell, the vibrations of the vocal cords, the fluttering of a leaf, to sum up, any material substance capable of conveying a jar to the air.

Have you heard a mother sob and sigh? Have you heard a child's pitiful cry? The rumbling of a passenger train, and the whining of autos, and the noise of traffic are not uncommon to us. All these sounds, and many more, have become a part of our existence.

Sound may be conveyed by gases, liquids, or solids. Liquids and elastic substances like wood are better conveyors.

In free air, not freezing, sound travels about 1093 ft. per second. Moist air carries sound faster than dry air; warm air faster than cold air.

You have heard and witnessed the blowing of horns, whistles and sirens, the ringing of bells, and the shooting of guns, by the cheering populace, welcoming the New Year.

And El Peshine' old blind mule has heard and become so familiar with the noonday whistle that no matter what Al wants to do he must feed that stubborn animal or cease his labors for the day.

We think of sound waves in air as vibrating to and fro in the direction of propagation similar to the turns of a spring, that is, according to a physical fact, alternate waves are longitudinal or compressed waves made up of alternate condensation and rarifactions.

In general, according to another well established rule, the intensity of sound depends on the density of the medium through which the sound is transmitted.

A sound wave is turned back or reflected when it strikes against another body such as a building, cliff, or wooded hillside, or even a cloud. The turning wave is called an echo.

Among the many peculiarities of sound are the whispering galleries. Probably the most famous is that of the dome of St. Paul's, London. Whispering galleries are so constructed that whispers from certain points are plainly heard at another point and at a great distance. These buildings have curved walls or domes. Sound waves set in motion from a certain point near one surface of the curved wall are reflected and caught at a point having the same relative position to the second wall.

In most of our large theaters the audience is amazed at the wonderful effect of the music of combined instrumentation of so many types.

Musical notes vary in pitch from about thirty to four thousand complete vibrations per sond, though the average ear can recognize as notes, sounds making from sixteen to thirty thousand complete vibrations per second.

It is said that a great Italian singer, rendering a solo in a cathedral, reached a note that was a chigh that it caused one of the window panes to vibrate in sympathy and finally break into pieces.

The human voice is the most wonderful of all musical instruments. Music is produced by a pair of membranes on each side of the throat called vocal chords, and also by the vibration of the tongue and lips.

Changing the muscular tension on the vocal chords changes the pitch of voice and changing the shape of the mouth changes the overtones and the quality of tone.

STYLE SUGGESTIONS

By: FLORA DORA

By: Mademoiselle Dorothy Armstrong

Quite chic indeed are the pajamas with their coquettish little bolero jackets, while some are made of colored tussor in Russian style, with high collars and side fastening.

The very latest type of the envelope has almost the whole upper part of tulle and bottom of crepe de chine; the crepe making very rich appliques on the tulle foundation.

A Knitted suit in allover jacquard pattern, was worn at the races recently.

Riding habits are expected to be seriously rivaled this spring by odd breeches of silk, linen, homespun or checked woolens with the solid color coat. Lace flounces and a deep lace bertha are passed over chiffon in a characteristic silhouette, of the bouffant type narrow ribbons of contrasting color mark the joining of lace and chiffon.

The chinese green crepe satin robe, with plain, tight bodice and long, tightly fitting sleeves, ending in a point over the hand. Over the tight silk skirt fall a good many smart daytime coats or 50 inches in length.

Paris universally endorses shorter skirts for fall. This does not mean that extremely short skirts are worn, but merely that a smart length just above the ankle is approved.

Paris alternates attention between black and navy blue for street wear, with navy blue proving more popular than it has been for years.

Simplicity of style without any drastic change in silhouette is the basis of the fall mode.

Lingerie gowns is the latest word from Paris. They are being adopted for afternoon wear. Volles, lace and batistes dominate the materials used in these gowns.

Velvet slippers will be the next in turn. They will appear as soon as the rage for colored kid footwear has ceased.

Among the unique selections of the moment are dresses and wraps made of Persian prints and trimmed with caracul or monkey fur. With these are worn draped turbans with narrow edges of matching fur and Egyptian ornaments at the front.

Pleats and ruffles as well as faggotting ornament graduation frocks. White voile was shown embroidered by hand in French knots.

TENNIS CHATTER

WESTERN FEDERATION OF TENNIS CLUBS FORCED TO CALL OFF FRISCO TOURNEY

(By: Wm. Mells Watson)
(1555 Court St., Drexel 3742)

Yea dear readers 'tis sad but true that a huge monkey wrench about the proportions of Bill Dunn's left shoe has been chucked into the gear case of the Federation's "On To Frisco" machinery which necessitated the calling of a special meeting at President Edward Carlisle's wigwam last Tuesday night, and after letters, telegrams and conditions were thoroughly battled over the heart-sickened body could do nothing but vote unanimously to call off the second Pacific Coast Tennis Championship tournament, scheduled for San Francisco July 4 to 7, 1923.

Shattered Hopes

Too much credit can't possible be showered on the pretty head of that wonderful little president of the Oakland Club, Miss Victoria Grace Shorey who as chairman of the tournament committee has worked so faithfully and almost single-handed for months to bring about the affair successfully and had practically completed every detail in arrangements when now we find it impossible to hold the thing and all her labor and efforts come to naught—it's really appalling not to mention the keen disappointment felt by hundreds of our supporters and well wishers.

Erma Tatum in Hospital

Mrs. Erma Tatum, fifth vice-president of the Federation and adored wife of William Tatum corresponding secretary of the Fed became so ill last Tuesday that she was rushed to the hospital to undergo an operation for apendicitis. Every one of our fraternity hopes for this lovely young woman's speedy recovery, and let's not fail to keep in touch with her condition daily by visits and by phone.

Eddie's Kar

The thriving city of Castaic, California consisting of four farm houses, a service station, many cats, dogs, cattle, sheep, horses and cayotes is situated 46 miles up on the Ridge Route to Frisco. Amid the surroundings for several years has lived with his family of seven the fine looking, long, lean, powerfully built, good natured and jovial Mr. Benjamin Franklin Kay, brother of our prexy's sweet wifey, Mrs. Nellie Kay Carlisle. Uncle Ben is Mayor, Councilman, Sheroff, District Attorney, Chief of Police and Dog Catcher of Castaic and owns a wonderful ranch there, and now that Eddie, Nellie and little Jimmy Carlisle are encumbered with a "hot little Maxwell gas eater" you need not expect to find Eddie and company at the local dug-out Saturday afternoon or Sundays as they are practicing "modern tennis" on Uncle Ben's melon patch. "Yum, Yum!"

ATTENTION! LOOK! BOOST!

The Federated Ladies Clubs of the city are holding their Seventh Annual Exchange at the A. M. E. Zion Church, Pico and Paloma streets, June 25, 26, 27.

Mrs. Clara C. Hulbert has so kindly consented to take charge of the program for the Exchange, for the Southern Division. Clubs wishing to take part, phone Mrs. Hulbert at your earliest convenience. She is anxious to have every club represented, and hopes to present more of an educational hut at the same time enjoyable and entertaining program.

Secure your tickets early, as the Exchange will be greater and larger than ever!

NEWS OF CALIFORNIA STATE

MONROVIA NEWS

Monrovia has been so busy for the last few weeks that she has not had the time to tell the people about her affairs.

Quite a number of Monrovians are on the sick list—Miss Dorothy Chavis of 227 Huntington, the daughter of Mrs. Fannie Chavis is very ill. Mr. James Penny of Maple Ave., Mrs. Cherry of E. Huntington Drive, Mr. J. E. Adams, of E. Maple and Mrs. L. Cooksey of Sherman Drive, are also on the sick list.

Mr. and Mrs. Conley, Mr. and Mrs. Taylor of Duarte Ave., and Mr. Elliott Adams, were week-end visitors to Santa Barbara. They returned home Sunday Evening.

The beautiful cottage of Mrs. Ida Kouton on E. Huntington Drive, has been completed and is now occupied by Mr. and Mrs. Dempsey.

There will be five graduates from among our group, from the Charlotte Ave. Grammar School this session.

Each of the churches in the San Gabriel Valley has held its rallies. Each had splendid results, Duarte A. M. E. was the first and raised btween three and four hundred dollars, Shiloh A. M. E. Zion was second and raised something over seven hundred dollars, Second Baptist, of Monrovia, between three and four hundred dollars. Each of these churches is planning to build or to add to the old buildings. The A. M. E. Church of Duarte is planning to build a model house of worship. The Second Baptist, will enlargen their building, the Zion Methodist, will their building, the Zion Methodist, will ter. The people are coming into this section and the pastors are preparing for them.

Dr. G. W. Reed of the Zion Methodist Church will leave on his vacation, the 26th, inst. The church gave him a vacation at its expense, in gratitude of the faithful service he and his energetic wife have renderd since their pastorate here.

FOUNTAIN CHAPEL A. M. E. CHURCH—
Duarte, California
Rev. Wm. Prince, Pastor

We had three fine congregations too on Sunday to help us observe Children's Day beginning with a large Sunday School under the direction of Miss Sadie Young, our new Assistant Supt. At 11 o'clock the pastor spoke from Mark 9:34. The Lord blessed us in our message and gave us two additions to the church—Sis. Georgia Abernathy, formerly a member of 8th and Towne Ave. Church, L. A., and Sis. Shers from Zion A. M. E. Church, Monrovia. One infant was baptized Our Children's Day program was rendered at night being convenient for the parents to be present. The program was carried out under the direction of Miss Jennie Lockett, our Supt., although she was on crutches on account of the interest Miss Lockett had she could not stay away; she was assisted by our newly robed choir, Mrs. J. C. Redd, directress, Mrs. Pollett, organist.

RIVERSIDE, CAL.

Children's Day services were observed at Second Baptist and Park Ave. Baptist Churches Sunday. The program at both places were of a very good order and the attendance was great. True to the spirit of children, they ever enter into such services with enthusiasm.

The Children's Services of Allen Chapel, will be held next Sabbath. The Sunday School will furnish the music at the morning hour's services, and the Children's Day program will be at night. The pastor will preach a special sermon to children at eleven.

The attendance at all the churches at regular services has taken on its summer aspect, that means more pews than people.

The Presiding Elder will be at the A. M. E. Church the fourth Sunday, in his third quarterly visit. The attendance is usually above par when he comes, let us look forward to a glorious day.

Mrs. Allen and her son Bryant returned from an extended trip to Chicago last Thursday. Though the trip was occasioned by the passing of her mother, she took advantage of her long absence from the Windy City and made many happy calls and outings while there.

The Busy Bee Club voted in its last monthly meeting to take the summer vacation as the object of their efforts had been reached. The work of the past winter and spring has been of valuable help to the church.

The many friends of Mr. and Mrs. Brooks gave the newlyweds a reception Friday night at the Merchantile Hall.

The Grippe has made a recent invasion of the people of Riverside; among those affected were: Mr. and Mrs. Mayes, Mrs. J. R. McCorkle and Mr. and Mrs. Burns Johnston.

Mr. Chism who sustained an injury over the eye last week is very much improved and returns to his employment Tuesday.

Mrs. Bessie Lyons and her little son Mac. C. Lyons returned from a brief trip to Oklahoma, Saturday.

POMONA

Last Sunday at Bethel A. M. E. Church, Mrs. Shells, one of the District workers visited the Sunday School. Rev. Burton is doing splendid work on his charge in Pomona. The Ontario congregation paid Bethel a visit last Sunday.

WATTS NEWS

Mrs. Lishey on South Compton avenue is suffering with a nervous breakdown

Visitors to Watts are urged to inspect the beautiful modern home of Mr. Adams, on Elm street, which is a model of the latest construction.

Oh, say do you see—how our race is coming to the front? Oh, Boy! Just wait!

Mrs. Price on Thaxter street, leaves shortly for a two weeks' visit in Santa Ana.

Miss Minters, on Liberty street, is having a pretty modern cottage built. This shows what a young girl of enterprise and ambition can accomplish.

Children's Day was marked by many joyous celebrations, and the value of cheerfulness, and the nobleness of aiding those in need was forcibly brought to many youthful minds.

Rev. Price held inspiring services last Sunday afternoon.

Mrs. Moss, who has been visiting in Southern California for many months recently left for her home in Montana. She and her husband made many warm friends in this community; all regret to see her go and wish her a speedy return.

Mr. and Mrs. Collins of Ruby St., lost their little baby by death, on last Monday afternoon. Many friends offer condolences on the occasion of his irreparable loss.

Mrs. Ragling and mother of Philadelphia have been spending some time visiting friends in Watts. We wish they would remain and become one of us.

Curry and Hall on South Compton avenue represent just the sort of enterprise Watts needed. And, O my! How the folks do love to go there—and how they hate to leave!

NEEDLES

Real Summer weather is upon us. There were a number of prostrations from heat last week but none, fortunately, among our group. Many wives and daughters are leaving for vacation trips while husbands and sweethearts are joining the "Wish I Could Go" Club.

Last week Messrs. Oscar Clark and Oscar Greer were lavishly entertained at the beautiful home of Mr. and Mrs. Davis in the Warren addition. The accomplished young ladies of the family entertained the guests with music. Mr. Oscar Clark leaves shortly for the East.

Miss Ida Whiteside and her three nieces left last week for a visit in Los Angeles, Oakland, San Francisco and Galveston. Miss Whiteside has made many friends here, especially among the younger set. So long, Ida!

Mr. and Mrs. Frank Moss last week received the sad news of the serious illness of Mr. Moss's sister, Mrs. Hattie White Tarleton, of Oakland. Mrs. Emma Maloney, of Los Angeles, a sister of Mrs. Tarleton, rushed to the stricken woman's bedside. Mrs. Tarleton is owner of a prosperous drug business in Oakland, and has a host of friends throughout the state. It is hoped that she will have a speedy recovery.

The Needles Literary Society, under the leadership of Miss Grace Davis.

Mr. Oscar Greer is busy preparing for a European trip. Catch him, girls, before he learns to speak French abroad!

Mr. Oscar Clark has composed a late musical hit, the Zonesville blues, which is going strong.

WARD CHAPEL A. M. E. CHURCH
1252 E. 25th Street
B. R. Guy, Pastor

Children's Day was observed here last Sunday by the Sunday School at their usual hour with a lovely program, commemorating the day, a goodly number were present and the collection creditable.

At the eleven o'clock services, the Pastor spoke to an attentive audience from the text, Bring all the tithes into the store house, that there may be meat in mine house, and prove me now herewith, saith the Lord of hosts, If I will not open the windows of heaven, and pour you out a blessing, that there will be room to receive it. The congregation seemed to appreciat the service and visitors promised to return. The endeavor was well attended by the young people, and the lesson was instructive and much interest was manifested.

At night Prof. J. W. Johnson preached from the text, she hath done the best she could, the service was performed, and the audience interest attended.

BRIGGS REFUSES KLAN KLEAGLE

Denies A. B. B. Comes Under Walker Law—Says His Organization Is Fighting in the Open for Legitimate Ends

(Crusader Service)

NEW YORK, June 13.—In answer to the reported statement of the Kleagle of the New York Kluxers that the Klan would obey the Walker Law ordering them to unmask nad reveal the membership only "when the African Blood Brotherhodo and other similar organizations among Negroes, Jews and Catholics are forced to publish their rosters," Cyril V. Briggs, Executive Head of the African Blood Brotherhood, emphatically denied today that the Brotherhood comes under the Walker Law.

"The A. B. B.," said Mr Briggs, is not a secret organization. It is a body of Negro workers seeking legitimate ends in an open fight against the oppressors and exploiters of the Negro Race, the overwhelming majority of whose members belong in the ranks of Labor. The work of the A. B. B. is in the open and through such media as consumers' co-operatives, to fight the high cost of living; forums, educational classes, press service, lecture bureau, to disseminate racial and economic enlightenment among the Negro masses; Schools (Calisthenic clubs for adults and juveniles), Tiger Scouts, to keep the Race healthy and to teach discipline and team-work. In addition to these Sick and Death Benefit Department is under process of organization which, when organized, will offer the workers of the Race adequate protection in the field of fraternl insurance. The A. B. B. exacts no oath of its membership. The only initiation ceremony is almost completely covered in the following two paragraphs:

"We welcome you into this Fraternity of African peoples and initiate you, in the spirit, in the ancient ceremony of "African Blood Brotherhood," which was an age-old custom on the banks of the Niger, the Congo and the Nile while yet civilization was young and the blond barbarian wandered in rough sheepskin over the plains of Europe. As in the glorious days of ancient times when sons and daughters of Africa not born of the same parents still became actual blood brothers and sisters through this sacred ceremony, so today the scattered peoples of African descent become one in actual brotherhood under the far-flung standard of the A. B. B.

"We hope that, inspired by the lofty ideals and the practical plans of the Brotherhood and its splendid record of achievement in the cause of race advancement, notably in the promotion of Race Solidarity and the raising of the economic status of Negro workers and protection of their interests, you will take up with willing heart and ready hand this Call to Race Service and salvation than which there is no more sacred call and opportunity in all the world since it is by service to the suffering and oppressed sections of Humanity that we can best help in establishing the "Kingdom of Heaven" upon earth."

"There is not much to reveal of the ritual of the African Blood Brotherhood," said Mr. Briggs, "but all of our ritual, all of our secrets, all of our aims and aspirations could be revealed without proving or even indicating that we sought anything but legitimate aspirations. The A. B. B. is working in the open for legitimate ends, and everybody knows it except the Klan.

"The New York Kleagle accuses us of mobilizing the forces of Organised Labor against it. Well, that is one of our aims as we naturally believe in lining up all the forces and movements to which the Ku Klux Klan is antagonistic. As we make clear in our program: "As, for the purpose of throwing off oppression, the enemies of the Imperialist system are our natural allies by virtue of being in the same camp and opposed to the same enemy, so the enemies of the Klan are our friends in that they fight the foe we fight. The Negro masses must get out of their minds the stupid idea that it is necessary for two groups to love each other before they can enter into an alliance against their common enemy. Not love or hatred, but IDENTITY OF INTERESTS AT THE MOMENT, dictates the tactics of practical people." We have never made a secret of our efforts to line up against the Klan all anti-Klan forces. It is a "dark secret" only in the minds of the Klan."

FORD ACCUSED OF BACKING KLAN

ATLANTIC CITY, June. 13.—Henry Ford was charged with being the financial backer of the Ku Klux Klan in a resolution adopted by the Grand Lodge of the Order of B'rith Abraham in the Hotel Jerome this afternoon. The resolution condemned Ford for his activities against the Jews and response to its introduction was a general denunciation of Ford from all sections of the hall. The resolution was adopted unanimously.

(By The Associated Negro Press)

Atlanta, Ga., June 6.—A novel wrinkle in church procedure was inaugurated when a petition for a receiver for Mount Pleasant Baptist Church colored, and for judgment for $1,000 for attorney fees and money advanced was filed by Roy S. Dreman, a white attorney. Dreman states in his suit that the church had agreed to let him handle the financing and building of a new $6,500 church on a percentage basis. He has advanced several hundred dollars, he says, under an agreement that the trustees were to pay him a stipulated sum each month to defray building expenses. These sums have not been paid, he alleges.

Th petition states that the congregation is insolvent and asks that a receiver be appointed to protect the interests of its creditors.

Dreman does not state how he proposes to keep the brethren and sisters contributing to collections.

Wilberforce, Ohio, June 6.—The coming open tennis tournament promoted by the Wilberforce University on Decoration Day, May 30th, 1923, is creating much interest among local talent and the game is fast booming in this neck of the woods.

The Wilberforce Athletic Club is offering $125.00 in 1st and 2nd prizes for ladies and gentlemen in singles and doubles. The entry is large but with the six fine large double courts there will be little difficulty in meeting the situation.

National champion, Edgar G. Brown, of Chicago and Indianapolis, C. C. Jenkins of Columbus, Lee J. Purnell, Pacific Coast doubles Champion, N. R. Shields, T. R. Pettyjohn, Miss H. Carlynne Payne, Miss Willie Brown of Dayton, Athletic Coach Moore, Prof. B. H. Hard, Major J. E. Green, Dean Gilbert, H. Jones, Miss L. Carrington Lane and Pres. T. C. Carter, President Wilberforce Athletic Club are among the entries.

Atlanta, Ga., June 6.—An echo of the days of terror during the railroad strike last Spring was heard in Fulton Superior Court this week when W. S. Morgan, Atlanta policeman, was on trial charged with the murder of Albert Everett, a colored porter, during a battle with strikers. A group of white strikers assaulted Everett as he left the A. B. & A. shops and it was charged that policeman Morgan had shot him as he lay on the ground bleeding and exhausted from wounds inflicted by the strikers. The policeman plead that he was trying to arrest the Negro as a suspect for having shot a white man. The jury returned a verdict of not guilty in 15 minutes.

Ann Arbor, Mich. June 6.—Colored athletes of late seem to be leaning toward the broad jump, Dehart Hubbard of the University of Michigan who is expected to shatter the big ten record and come close to breaking the world's mark in the running broad jump at the annual track and field games of the western conference at Ann Arbor, June 1 nad 2, is the third colored athlete of recent years to break into the athletic spotlight in this feature.

Sol Butler of Dubuque College, Iowa was one of the first. He was one of the most consistent broad jumpers of a few years ago and seldom failed to clear 23 feet on every effort. Butler, however, was a sprinter and low hurdler and preferred to go in three events instead of one.

Sol was followed by E. O. Gourdin of Harvard, the present holder of the world's record in the running broad jump at 25 feet 3 inches. The Crimson athlete was a fair high hurdler and sprinter until Trainer Pooch Donovan, the old time professional foot racer, saw the possibilities of a record breaker in his colored star. Donovan took him out of the dash and hurdles and trained him for the broad jump with the result a new record was created. Gourdin made his record in 1921.

Now the eyes of the athletic world are focussed on Hubbard, who should smash the record if favorable conditions exist on June 2, at Philadelphia this Spring, rain spoiled his chances. Like Butler and Gourdin, the Maize and Blue star is a sprinter and hurdler. In fact, he may be used in three events at the big ten games as indications are a great battle will result between Michigan and Illinois for the honors.

Chicago, June 6.—Chicago, "top of the world," for Colored America will be the great Mecca for tens of thousands of visitors this year, because of the many conventions to be held here, and others in the Middle West. Three of the big conventions will be right in the "Windy City." Thousands of visitors are arranging their tickets "via Chicago" going or coming to many of the other conventions for, as one prospective visitor stated: "It doesn't seem like we have been in the great middle West unless we spend some time in Chicago."

Chicagoans are preparing to extend the traditional Chicago and western welcome to all who come. The housewives are setting their houses in order; the automobiles are being repainted when not replaced with new ones; the business men are having the thoroughfares put in "apple pie order" with new lights; the organizations and the society lads and lassies are fixing their dates already for public and private social events.

J. A. Jackson, staff representative of The Associated Negro Press, has prepared the following schedule of 1923 conventions:

Where the Conventions Will Be

There is every indication that the colored conventions this year will exceed even those of 1922, according to the early activities that the different committees are exhibiting. For the number of visiting bands, the extent of sales with concession men, the public impression created and the hotel business, volume, the 1922 conventions were all remarkable. The weather breaks were, in the main very favorable. This year the I. B. P. O. Elks of the World are slated for Chicago, and this central location should attract even more than the fifty brass bands that went to Newark. This occurs August 13-16.

The National Negro Musicians meet July 24-26 in the same city this year. The National Negro Tennis Tournament meets there also.

The National Negro Business League and its affiliated bodies have selected Hot Springs, Ark., August 15-17 for their meeting place and time.

The Supreme Lodge [illegible] of the Knights of Pythias will [illegible] 30,000 uniformed Knights to New York the week of August 20.

The N. A. A. C. P., Kansas City, Mo. August 29-Sept. 4.

The New York Odd [illegible]

The I. B. P. O. Elks of the World is set for June 20-30. The National Association for the Advancement of Colored People occurs in Kansas City.

The American Woodmen's Conventions for the different districts are as follows: District No. 1—Oklahoma City, June 4-8; District No. 2—Charleston, S. C., May 14-15; District No. 3—Nashville, Tenn. June 4-8; District No. 4—Columbus, Ohio, July 16-20; District No 5—Baltimore, August 6-10.

The Shriners go to Indianapolis, August 6-12, and since there are more of the membership of this order in the cities of the Middle West than on the Eastern seaboard it is fair to presume that more than the 11,000 people who went to Washington last year will be there.

The Benevolent Protective Order of Reindeers meet the first [illegible] Sept. for three days in Baltimore, Md. [illegible], Rep. Charles D. [illegible] Grand Director, LaMerville, [illegible]

POLITICS AND INDUSTRY

The Negro's political power is increasing almost as fast as his industrial power. He comes from the South where he secures the right to vote merely by his living here. His number is increasing so rapidly in most of the large cities that Negro candidates for office are the rule now rather than the exception.

There are Negro aldermen, magistrates and assemblyman in New York, New Jersey, Pennsylvania, West Virginia, Illinois, Ohio, Washington, Missouri, California and Kansas. In the great Negro ceters of New York, Philadelphia, Baltimore and Chicago (places having more than one hundred thousand Negroes) there is brisk talk of getting a Negro Congressman. To outsiders it would seem that the Negroes in these places are derelict, for not having elected a Congressman before now. But there are problems (not understood by the average outsider) which stand in the way. In all the cities the Negro districts are gerrymandered that the Negro population is usually cut into three or four sections—no one of which is too small to elect a Congressman. This manipulation, however, is still there. The Negroes want an official voice in Washington. They want a national spokesman who must be heard. They want a man of intelligence and courage. They seek some Negro who will stand up a high-class representative and not merely a petty word-healer.

The industrial situation is going to help them put over their political emancipation. The skilled and unskilled are coming. Many independent farmers and small business men are selling their little possessions, getting the money and coming North to start life anew. They have either a little money, or they have good jobs out of which they make money. Having some economic means stiffens the Negro's manhood. The man who is a longshoreman receiving $35 to $70 per week, the brick mason and plasterer earning $18 per day, the dress and waist worker who earns $35 to $50 per week, the bod carrier who makes $5 ot $8 per day, the steel mill hand who earns from $4.50 to $12 per day—is not going to stand around the polls and sell his vote for a dollar, a glass of beer, a tembler of whiskey, a cigar, a promise to get Negroes out of jail when caught gambling and the like.

This Negro who is earning a living by honest labor is seeking a man's chance and a man's goal. He wants to build homes, educate his children, enjoy the theatre, ride in automobiles, invest wisely, organize businesses, lay aside a nest egg.

The white political boss and his petty lieutenants will have to face a new Negro—not the "he'e-de-do-well," the lottery player, the race-track gambler, the petty shark, the city pimp, the general "hustler." The [illegible] and sandwich, and cigar campaign of past days has passed. The New Negro is [illegible] THINKING [illegible] the time. CIVILIZE THEM WITH KRAGS

SAYS U. S. MAJOR

Major Pinger, Released Captive of Chinese Bandits, Asks for Armed Intervention in China.

(Crusader Service)

TIENTSIN, June 13.—"I favor armed intervention. Civilize them with Krags is my motto, and I don't believe many will have to be so civilized to make good little laundry-men of the rest," states Major Roland W. Pinger, U. S. A. one of the fourteen foreigners captured by Chinese outlaws and held on Paotsuku Mountain.

But Major Pinger, who would civilize the comparatively helpless Chinese nation with Krags and machine guns is of a cautious nature. He advises his country that before putting into practice this time-honored anglo-saxon method of establishing law and order and peace a la graveyard, it would be best to consult the Japanese, who are not so helpless as the Chinese and who have rather a plentiful supply of Krags and machine guns themselves and would just leap with joy at the opportunity of catching an American army in any part of Asia. And as long as Japan keeps her present frame of mind on the question of Asia for the Asiatics, neither the United States, in whose borders reigns a terrorism far worse than any to be found in China, nor England or the two anglo-saxon puppy-gods combined are going to civilize Chinese off the face of the earth. Japan stands guard over Asia!

IF GERMANY GOES COMMUNIST!

An Editorial By Cyril V. Briggs

(Crusader Service)

Too long have we viewed world events and problems in the light of what is best for the white man. It is high time that we began to see events and problems in the light of their effect upon ourselves—"through Negro eyes" and on the basis of what is best for our own Race, not for any other race and least of all for the capitalist-imperilist group in control of the destinies of the larger part of the white race.

n the Ruhr, Communists are leading the workers in armed revolt against the German capitalists who are rendered temporarily impotent by reason of the "falling out" that happened between German and French capitalists over the question of how much reparations Germany should be asked to pay to France and Belgium for destruction caused during the World War, and to these two nations, plus Great Britian and the United States for the privilege of having foreign troops billited upon her population. In unoccupied Germany it is reported that "the Communists are making strides beyond their wildest hopes." In Saxony, "the mixed Socialist-Communist Government virtually has capitulated to them." At the same time it is the opinion of observers on the spot that the Communists are not now planning a death grapple with the German capitalists, knowing full well that the French capitalists, while allowing them to harass their German friends in the selfish hope that in this way the German capitalists would be forced to capitulate to French demands, would immediately use the forces of the French Army of Occupation to crush them were they to be so indiscreet as to seize political control at this moment. Rather, the present aim of the German Communists is to prepare the masses for a "final struggle" at a later date, when there will be no French troops on hand to come in at the last minute on the side of the White Guards.

But were Germany to go Communist, now or at some near-future date? What then? The capitalist-imperialist system of Europe, under which our race has suffered grievously for the last three centuries and more, would be menaced as never befor in all its sinful xistence. Communist Germany and Communist Russia would naturally combine their forces for the Class War. And the two would make a redoubtable combination. In all likelihood they would sweep westward in an irresistible rush that would bury capitalist society under it and give the African and Asiatic races a most favorable opportunity for liberating themselves. And this opportunity would not wholly depend on the issue of Class War in Europe, since the very collision of such tremendous forces would be certain to create a temporary condition of chaos in Europe. And that period of chaos should give alert peoples their opportunity for unshackling themselves.

The reaction of such a struggle would not be confined to the Old World but would be apparent in the United States, as well. Here the domineering anglo-saxon would feel less sure of the permanence of this "racial supremacy" and would begin to "back-horse" while concurrently the Negro would be taking on new courage and increasing his demands. And in like manner, the working-class and the capitalist-class. There would be plenty of capitalist-class terrorism against the workers at first, and against the Negro, too,—both as a worker and as a Negro. But "as goes Europe so goes the world," or words to that effect. It is not through a German revolution alone, however, that the present European situation offers possibilities of indirect aid to the legitimate aspirations of the African and Asiatic peoples, and of the World Proletariat for the overthrow of the capitalist-imperialist domination that has for many years cast a pall of sorrow over the hearts of the working-class of every clime and country. The situation in England is just now interesting, but not as imminent. In France, too, the new social forces of Communism threaten the old depradatory system. And to those who understand, that Great Britian and France, particularly the former, are the strong props in capitalist civilization, will come quick realization of the opportunity to the colored races that a social revolution in either of those countries would give rise to.

The collapse of Great Britian would mean opportunity and freedom for hundreds of millions in Asia and Africa. So why should Negroes dread the break-up of the brutal British Empire? Why should they be concerned with the preservation of capitalist civilization—of the capitalist system under which they have been the chief sufferers? Why should they fear the spread of Communism in Germany when the Class-War in Europe means liberation for the "subject peoples?"

New York, N. Y. June 6.—The influx of Negro imigrants from the South has made it necessary to provide more churches and there are many buildings and organizations yet needed before the Negro communities in northern cities will have adequate church ministration, according to the Rev. W. A. C. Hughes, Superintendent Bureau of Negro Work.

"A survey of conditions uncovers situations like that in the Harlem section of New York city. There the entire seating capacity of Christian churches of all creeds will accommodate 20,000 persons. Relaying on two services on Sunday only 40,000 can go to church, leaving 90,000 Negro people for whom there is not a place to worship available. Now the Negro, south or north is devoted to his church, whatever the denomination, and this condition in northern cities today is alarming. The Methodist Episcopal Church, however, is trying to do more than merely provide a place of worship for these folk. It is trying to make the great adjustment easier for them so that they can reap the benefit of their change of residence and environment.

"Large churches formerly used by white congregations, like South Park Methodist Episcopal Church and Trinity Methodist Episcopal Church, Chicago, have been transferred to Colored congregations made up of newly arrived Negro folk into that section. The Hartzell Social and Industrial Center, Chicago, organized by these people, has devoted its educational and institutional classes largely to the problems of the Negro youth from the South. St. Marks Methodist Episcopal Church and Salem Methodist Episcopal Church, in Harlem, New York City, are to have new large establishments, the fromer to be one of the largest churches in the metropolis. The John Wesley Methodist Episcopal Church of Brooklyn, made up of West Indian new-comers, is also enlarged in this movement.

"'East Calvary Church, largest single Methodist Church, and six other Negro churches in Philadelphia, are receiving aid in expansion under the new conditions, from the Board of Home Missions and Church Extension through the Bureau of Negro Work. Sharp Street Memorial Church, Baltimore, has a new community house as prominent in its expansion, which cost $75,000. Asbury Church, Annapolis, has expanded its aid of all kinds, using a three-story building purchased by the Home Missions Board. Scott Memorial Church, Detroit, will enlarge to suit the larger constituency and the call to larger activity. In all the Board of Home Missions and Church Extension through this bureau is making possible over thirty building projects for Negroes in southern cities. t is the part of the church to see that these things, and this denomination is doing its utmost to meet the situation caused by the movement of Colored people to the northern centers."

WASHINGTON, D. C. June 6.—"No longer can the south be left to solve the race problem," said Graham R. Taylor of Chicago speaking before the closing session of the national conference on social work in session here, pointing out that by migration it had spread to a national question, and "the north can no longer point the finger of scorn at the south's violence toward the Negro."

Race prejudice, Mr. Taylor said, will not be diminished, even though the Negro may become further advanced, until the white people have learned to overcome many of the prejudices now held against the Negroes, which in some instances are founded upon a background of myth, misunderstanding and misinformation. Indeed, the advance of he Negro may bring with it the increase of prejudice unless time-honored white prejudices are combated, with the result that the present-day race problem and its solution must "start with the whites," he declared.

Miss Laura J. Abbott of the U. S. Dept of Labor was elected president of the organization. Many prominent colored social workers representing some 20 organizations were present, among them being Eugene K. Jones, J. R. E. Lee, Charles S. Johnson, Jesse O. Thomas, Monroe N. Work, E. T. Attwell, George B. Haynes, Miss Beulah Terrell, Miss Hazel Lymah, Miss Bondine Lee, David Jones, William R. Conners, John T. Clark, Miss Willie Brown, Miss Alice Hull, John C. Dancy A. J. Allison, William M. Ashby, Gordon H. Simpson, Maurice Moss, Mrs. J. F. Horne, R. L. Eley, J. H. Hubert, Miss Eva Bowles, Miss Anna Holbrook, Miss Anita Williams, Mrs. Sarah Fernandis, and Forrester B. Washington.

EDITORIAL REFLECTIONS

By: E. W. Kyle

A true gentleman is one that is always chivalrous towards the "weaker race" even when it is filled with inconsistency and prejudice—his finer sense always tends toward the "clinging vine" even when its clinging has begun to change him. He is a man who rises above race hate and respects the feelings of those farthest down. He is no respector of races and believes we are one big human family.

VENGEANCE

"Vengeance is mine, I will repay" said the Lord.

The man who goes through the world with a grouch, who is always watching for an opportunity to get even with somebody whom he thinks has done him an injury, is put to many disadvantages in trying to carry out that threat. The desire for revenge acts in the system like a leaven of poison, crippling the brain power and inducing unhappiness. No one can do his best when he has the unkind feeling, or resentment toward his fellowmen.

We often wonder how the white man ever expects to get by Saint Peter after living in America all his days. He lives in opposite to the teachings of Christ. He is the expression of his own religious teachings, that HE IS LORD AND MASTER OF THE UNIVERSE and all else are heathens and dwarfs—Men without any hope in God, and eternal misfits in his Creation. But some day he is going to take a tumble from his throne of self-conceitedness and prejudice. He will find himself lost because he has failed to apply the golden rule to his own questioned career. Everybody wants to get away from these old revengeful, grouchy, envious people, who always expect kindness, courtesy and praise, when they only give the nasty side of their character in return. The Black man pays no attention to these old mossbacks and freaks of humanity who are always out of tune with the world.

DOES YOUR BODY REALLY CHANGE?

By Dr. E. B. Lewis, B. Sc. M. D. 1618 1-2 East 9th Street.

Some people believe anything they hear because they are too lazy to think for themselves. How often have you heard a child exclaim, "There goes a haywagon; make a wish". A dressmaker may on a Friday defer to cut a grament until Saturday or even defer it until Monday. And a real estate dealer says that he cannot sell a house because the number has a thirteen in it However, logic keeps some few who really investigate for themselves on the road to real intelligence.

There is as little foundation for these foolish notions as there is for the rumor that "your bodies change every seven years." Almost every part of the anatomy, except the outside of the teeth and part of the bones, changes slowly at all times, for the human structures wear and burn away, then are replaced by new material. This is one of the reasons why you have to eat.

In a sense you "die daily" and build yourself up again from the nourishment taken. Were it possible to mark all the atoms in your food and those that go to make up your body you would certainly find that nearly all the material of the body changes in fr less than seven years or seven days.

But this is an old sorcery number, and in most superstitions where figures are concerned, seven come in. It is frequently asked why, if the body changes so often, marks in the skin remain. The erason is that the form of the body stays, through the material of it comes and goes. The stuff that makes your muscles, flow into and out of them, still things that happened long ago are remembered by them.

On the other hand, there are certain parts of the body which are simply made somewhere else, and are pushed out or up to serve for a little and then to disappear. Take hairs, for instance, those who dye their hair soon find that they must renew the dye every now and then as the hair grows, for the real color begins to show at the roots. The same is true of the outer skin, which si made and pushed up by the inner skin. Marks and stains on the outer skin do not stay, for the cells are soon washed away and replaced by new ones from beneath. But marks in the "true skin" remain and never disappear.

Dr. Lewis will answer questions for readers of this paper on medical, hygienic and sanitation subjects that are of general interest to the public. He cannot always undertake to prescribe or offer advice for individual cases. Where the subject is not of gen[illegible] interest letters will be answered personally, if a stampd and addressed envelope is enclosed. Address all inquiries to Dr. E. B. TEACHERS, LIBRARIES TO USED BY BANKS IN FIGHT ON RADICALISM

(Crusader Service)

ATLANTA CITY, N. J. June 11.—Terrified by the spread of radicalism in this country and the menace it carries to their present State-protected rights to plunder the masses, bankers of the nation are pushing an 'educational' campaign to "stem the tide of radicalism in the United States." Schools and libraries have been enrolled in the work, J. H. Puelicher, Milwaukee, president of the American Banker's Association, today announced before the convention here of the Special Libraries Association. The Churchs and Sunday Schools (white), were enlisted along ago.

vey, "Provisional President of Africa," etc., hid his august person behind a tree, thus escaping the sacrilegious touch of said minions of the law, in the absence of the ample protection of the great and mighty "African Legion" which so often assembled at Liberty Hall to march past their Emperor in latest goose-step fashion and Jamaica "dag-catchers" uniforms. The witness further testified that when he refused to continue offering the stock for sale in States where the law forbade wild-cat ventures, viz: the States having "Blue Sky" laws, he was called a coward by the Hon. Marcus Garvey whom Dean Pickens once dubbed in a moment of "temporary aberration of the intellect" the "lion of Nubia," and whom the witness testified hid behind a tree while two of his pushed out or up to serve for a little of an alien State.

McGroarty Speaks Out for Negro

Dr. Glenn McWilliams, former Secretary to ex-Mayor Woodman of Los Angeles, very kindly telephoned this office Wednesday morning stating that one of the most splendid eulogies he had ever listened to on the life of Lincoln was delivered by John Stevens McGroarty at Knights of Columbus Hall, Tuesday evening, on the occasion of Lincoln's hundred and fifteenth anniversary.

Said Dr. McWilliams, "The feature of the address that appealed to me was the fact that even, though a black face was not visible in the audience, Mr. McGroarty most eloquently reviewed the achievements of the race, and said that if Lincoln could return to the earth at this time he would certainly not be ashamed of his part in the abolition of slavery."

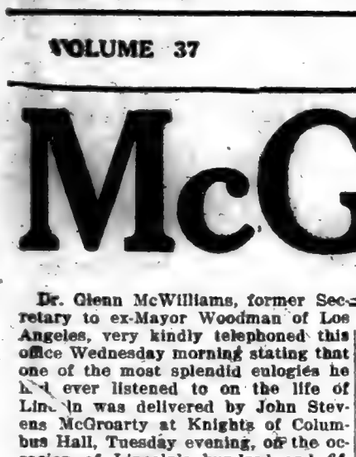
But this is not new or surprising to any class for the author of the famous Mission Play to stand before an all-white audience and tell it that America's most skilled surgeon is a black man, as also the sweetest singer of rhyme was a black man.

John Stevens McGroarty is the one white man in America, who is not afraid to speak out his convictions. He reads history not with prejudice, but with an open mind, and a Christ-like desire to give unto every man his due.

JOHNSON TRIAL REOPENS MONDAY

For the second time within nine months, L. M. Johnson, who, is it alleged, shot and killed Harry Harris, a Jew, in the vicinity of 22nd and Central on last May, will be tried for murder.

The case has been set for Monday, February 18th, and will come up in Judge Avery's Court, Department 19 of the Court House.



It will be remembered that at Johnson's first trial, because of the honest and conscientious convictions of one lone woman, a hung jury resulted. This woman, remained "pat" on the point that Johnson was protecting his home, and shot in defense of the same.

The general opinion as expressed by those who attended the trial of Johnson and who heard all the evidence produced is, that had Johnson been a white man, he would have been acquitted at the first trial on the grounds of self-defense; and further still, that in all probabilities there never would have been a first trial.

It is sincerely hoped that the Courts of our fair city will see fit, at this time, as in the past, to deal out justice to all alike, regardless to color, race or creed.

It is hoped that as many as can will attend the case and lend their moral and sympathetic support to Mr. Johnson's father, who has journeyed here from his home in the Southland and spent his life's earnings in the defense of his son.

MAKES A-1 RECORD

MARY EUGENIA JONES

Among the February graduates as well as among one of the promising literary geniuses of her age is sixteen year old Mary Eugenia Jones.

As a sentiment maker it is the one big desire of the California Eagle to encourage, especially the serious students of the race, and that is why we have selected this young student as the theme of this next with the hope that through this medium we may inspire others to aim at the same heights of scholarship that she has attained.

Mary Eugenia Jones is a member of a large family. Physically she is not strong, and having younger brothers and sisters it has been her duty to make many sacrifices in order that she might aid her mother in the care of these younger ones which she has always done cheerfully.

Nevertheless Miss Jones comes out of McKinley Junior High this February with all Ones as Credits and with the avowed intention of pursuing her studies until she has partaken of all that California, her home State, has to offer.

Woman Jilted by Lover Attempts Suicide

MISS FLORINE WILLIAMS DRINKS BOTTLE OF IODINE

GIRL WELCOMES DEATH AS HER DELIVERER IN LOVE TANGLE

Miss Florine Williams of 1040 East 9th street who conducts a Manicuring Parlor on Central Ave. took the contents of a phial of Iodine at her home just before 10 o'clock Thursday morning and ran to 9th and Central Avenue before falling. She was taken to the drug store on the corner for first aid treatment.

It is said that the cause leading up to this tragedy was the result of a quarrel with her sweetheart early Thursday morning. Miss Williams is said to have attended a reception the evening before and parted with her sweetheart, a member of the band playing for the occasion at 3 o'clock. Her room showed that she had gone through mental suffering, and to end it all she took poison—leaving a letter to the mother who had striven hard to raise her to womanhood.

She was rushed to the Receiving Hospital where it is said she is in a serious condition.

Haitian Athletes to Compete at Olympiad

(Lincoln News Service)

Port-au-Prince, Haiti, Feb. 14.—For the first time in her history Haiti will be represented in the Olympic games. A rifle team of five principals and two alternates, selected from the best shots in the native gendarmerie, will compete in the 400, 600 and 800-meter match, the sum of $10,000, to finance the trip having been used by private subscription. In addition, subscriptions for the same amount are being raised to send two fencers and a small squad of track and field athletes to the Paris games.

This decision on the part of Haiti is the logical outcome of the remarkable growth among the Haitians this year in Soccer, tennis, rifle-shooting, and bicycling. Haitians of the aristocracy, as well as the peasants, have had their banner year in athletics. Soccer hs ousted cock-fighting as the favorite pastime. Tennis is a close second to Socer, with tennis courts being laid out in all parts of the island.

Interesting Facts About Black Americans In Arizona

The Wesley C. Peoples Press Service
2014 1-2 Sutter Street, San Francisco, and Tucson, Arizona.
Special to The California Eagle:

Many people are rapidly coming into this section of the West. While most of them are settling in and Phoenix, yet other sections are getting their portion.

Most of these however, are settling in the cities, yet the country districts are growing. Most of those in the country are engaged in raising cotton.

Up at Yuma I met a race farmer who had moved to that section to go on the land, which they found very difficult to obtain, and in consequence of which they were moving on to the Imperial Valley in California, where they had obtained land, and where they intend to raise cotton. Contrary to the general belief that so many Negroes were leaving the South because of ill treatment conversation with these farmers, who, by the way were from Oklahoma, brought out the fact that they had left that section mainly because of their inability to make a living on the land in that State which they attributed to climatic conditions, the freezing winters, and the deadly havoc wrought by the boll weevil. Otherwise they claimed they fared all right.

anat obtainc HerinlY 'ev

I had the pleasure of visitnig some of the farms and ranches operated by members of the race in this section. They have, in most instances, gone in for a variety of farming. Growing some cotton and gip corn and alfalfa. They also own and operate some orange groves. They all appear to be doing well.

There is a great deal of race prejudice in Arizona. In the cities it is a difficult thing to find a decent place in which to eat. In fact one has to depend almost entirely upon the Chinese who operate restaurants in nearly all towns. It is just as difficult to find a place to sleep. In Tuscon, from where this is written, there are separate schools as there are in Phoenix. I am told that there is no Equal Rights law such as we have in California.

There is a branch of the N.A.A.C.P. here, but many say it is inactive, that there is really no harmony among its members. I have had some interviews with some of the leading white citizens of this State and they all seem to be quite proud of their Negro citizens, and the Negroes themselves say that they have a very liberal white population to deal with. Prof. Cicero Simmons is the principal of the colored schools here and is the out standing figure of the race. He enjoys the confidence of all, both white and black alike, and is a very able man.

The A. M. E. Church of this city has recently purchased some valuable church property here. In addition to that which they already own, which by the way is entirely paid for. They owe approximately two thousand dollars on the new piece. Some opposition developed as to the purchase of the new piece, but the leading white citizens have stood by them and they saw their way clear to pay for it. Rev. Wells is the pastor.

Down in Nogales, I had the pleasure of lunching with Company E of the 25th. The entire first two battalions are at this fort. They are officered entirely, with the exception of the Chaplain, by white men. Some of the men speak very depreciatingly of the future of the Negro as an officer in the U. S. army, and some are so pessimistic as to believe they will disappear. These are indeed a fine body of men and the whole nation should be proud of them. I saw the company mount guard, and the entire 25th infantry band (65 pieces) do their stuff, and believe me, they can do it.

L. A. JOHNSON SUPPORTERS URGE COHEN APPOINTMENT

Spurred by a telegram from J. B. Bass, editor of The California Eagle, now attending the annual session of the Lincoln League at Chicago as committeeman from California, race supporters of Hiram Johnson in this vicinity urged Senator Johnson to vote for the confirmation of Walter Cohen for collector of the port of New Orleans, La. Editor Bass, who is in conference with the leading race Republicans of the country at the session of the Lincoln League in Chicago, realized the necessity of support for Mr. Cohen's appointment and on Wednesday sent the following telegram to Attorney Willis O. Tyler, who is one of the vice presidents of the Johnson-for-president Club of Southern Califorais and is also a member of the Executive Committee.

"Chicago, Illinois.

"W. O. Tyler, Atty. at Law:

"You will do a great and lastng service for the Race by wiring Senator Hiram Johnson at his headquarters here asking his support on confirmation of Walter Cohen. Action will be taken at session of Senate, Monday, 18h. As the outstanding Johnson supporter of our group in California, I have assured leaders here that you will join most heartily in with effort to confirm Cohen.

"J. B. Bass".

Mr. Cohen is one of the strongest race men in the South and is a vigorous and progressive Republican. He received a recess appointment at the hands of the late lamented President Harding, and has since held his position although so far his nomination has not been confirmed by the Senate.

J. B. BASS

WILLIS O. TYLER

Immediately upon receiving Editor Bass' telegram and fully realising the importance of it, Attorney Tyler called a hurried conference with Dr. J. A. Somerville, Attorney S. Grasty, Rev. E. T. Hubbard, Mrs. A. Olivia Wilson, Ollie Jane Hamilton and other prominent Johnson supporters and admirers in this city and the conference indicated the following telegram to Senator Johnson, which was dispatched to him at his Chicago headquarters over the signature of Attorney Willis O Tyler:

"Senaor Hiram W. Johnson,
"% Johnson for Pres. Headquarters,
"Chicago, Illinois.
"Dear Senator:

"Our group here hopes that you can see your way clear to support confirmation of Walter Cohen of Louisiana Action Monday 18th. This will be greatly appreciated and of immense benefit to our race.

"Gratefully,
"Willis O. Tyler."

It is thought the Senate will vote up on his nomination on Monday, the 18th of February, and race folk thru out the country hope for his confirmation. Mr. Cohen has never been a part of that group of politicians in the South who believe in blind, unintelligent action at the National Convention.

The life of Booker T. Washington was reviewed by Mrs. C. B. Hick; Frederick Douglass by Mrs. Alice Patton. Owing to the lateness of the hour, Mrs. Edna Stewart, who was to have reviewed the life of Abraham Lincoln, said she would do so at some future time.

Mrs. Lula Slaughter told of some of the thnigs she had heard and seen when she visited the Frederick Douglass Home, which has been purchesed by the colored club women of the U. S. headed by the late Mary B. Talbot.

A piano solo "Deep River" was rendered by Mrs. Johson. The educational meeting is held to obtain money for a scholarship fund, which is given by the federation annually to some worthy young women.

Mr. McKinney, chairman of program for the Forum, made a strong plea in behalf of the fund, and music was furnished by Mr Emanuel Hall and Mrs. A. C. Billrew. Eleven dollars was the amount given to the fund.

The Harriet Tubman Club of Pasadena held their installation of officers at the home of Mrs. Virgie Corry, Garfield Avenue, Friday, the 8th.

The officers were installed in a most pleasing manner by the state vice-president, Mrs. C. S. Hicks.

Mrs. N. F. Mickens is the newly elected president. Mrs. Alice Overr was hostess and served delicious refreshments.

The Allensworth Club will meet at the home of Mrs. Marshall, 965 S. Normandie Avenue. Take 11th Street Car. A very helpful and inspiring meeting was held at the home of Mrs. Rush, Wednesday the 6th of February.

WASHINGTON LETTER
(Lincoln News Service)

Washington, Feb. 14.—When the Committee on the District of Columbia in the House of Representatives recently ordered a favorable report on a bill to make Lincoln's birthday a legal holiday in the District, Representative Blanton, a Texas Democrat, objected and announced that he would file a minority report against the bill. The measure was favored by representatives of the Grand Army of the Republic; Sons of Veterans; Veterans of Foreign Wars; the District Commissioners, and the American Federation of Labor. This unexpected objection had the effect of awakening the people to the fact that there still lurks in the bosoms of the dominant element of the Democratic party a feeling not altogether in harmony with the predominating spirit of the times. It is thought that if the action of this Democratic congressman indicates the attitude of his party towards honoring a man whose public services gained him such a fond place in the hearts of his countrymen, towards the man who saved the Nation from disolution, who gave it its start on the pathway of industrial freedom and economic prosperity, and who gave his life, there can be no doubt as to the Democratic attitude upon all questions that favorably affect the progress of those who have long been considered as the chief beneficiaries of the policies inaugurated by this Republican martyr, the greatest American.

The sudden and impolitic outburst of Representative Blanton, while ineffective in so far as the passage of the bill is concerned, has not been without a far-reaching and indeterminable political effect. It has disillusioned, on national issues, wavering colored citizens in such doubtful states as New York, New Jersey, Delaware, Maryland, West Virginia, Indiana, Ohio, Michigan, Illinois, Kentucky, and Missouri. It has served as a danger signel to warn them that nationally, at least, the democratic party is neither willing nor ready to receive them; that the allurements of Tammany Hall and the political strategies of the Taggarts and Brennams are for local purposes only; and that the pleasing adaptability of Democratic presidential candidates to existing conditions in those states is merely a pre-election concession to the wishes of the state party leaders. Recognizing a growing disposition on the part of many colored citizens to vote their convictions, as other citizens, on party issues, there have been many evidences of successful attempts on the part of northern democrats to promote the good will of the colored electorate in various communities and to establish an agreeable warking basis that would result in the success of local organizations; but when everything is primed and arrangements have been made by state leaders to deliver this vote to the national ticket, there appears on the stage a Blanton, a Baltimore mayor, or a Kentucky governor, who smears the Democratic scenery with mud, shoots teargas in to the eyes of the colored voters, disrupts the pans of the northern democratic eaders, and makes it impossible for a self-respecting colored citizen to ally himself with them on national issues, regardless of the apparent friendliness of the standard bearer. And it is fortunate indeed for the wavering colored citizens that this hurtful influence in the democratic ranks always uncovers itself at the opportune time, at a time in our development whe a national political mistke might delay the progress of tht race. It is for this reason that we thank Representative Blanton for his opposition to the bill to make Lincoln' Birthday a national holiday in the District of Columbia; why we thank the democratic mayor of Baltimore for his attempt to put over a residential segregation plan in that city, and also the democratic Governor of Kentucky for his references to colored women. The shoals of politics are lined with the wrecks of those whose visions were obscured by prejudices.

Howard University Appropriations Stricken Out on Point of Order

(Lincoln News Service)

Washington, Feb. 14.—Taking exception to an address recently delivered by the Rev. Francis J. Grimke, pastor of the Fifteenth Street Presbyterian Church, and a member of the Trustees' Board of Howard University, on the occasion of the Seventh Annual Convocation of the School of Religion at Howard University, Representative James F. Byrnes, Democrat, of South Carolina, was successful last Tuesday, in having appropriations for the university, amounting to $207,500, striken from the Interior Department Appropriation Bill on pionts of order. Practically every department of Howard University is affected by the "cut".

The congressman, in a speech in the House, declared that Dr. Grimke's address on "What is the Trouble with Christianity Today?" teaches a dangerous doctrine". Mr. Byrnes added that he was opposed to the Congress appropriating money to defray the expense of a course in Theology.

The newly elected officers of the local chapter are: Mr. James McGregor, President; Mr. Malcolm Patton, 1st Vice-President; Mr. Samuel, Sec.; Mr. William Prince, Asst. Sec.; Dr. T. A. Greene, Treas; Mr. John Rout, Critic-Historian and Mr. John Taylor, Sgt.-At-Arms.

L. A. Becoming Mecca of Musical Talent

Los Angeles is rapidly becoming the mecca for talent along artistic lines. The most recent acquisition to our galaxy of artists brot to the attention of the writer is Mrs. Florence M. Brawley, a young woman of exceptional ability, who has completed the course in piano at Fisk University together with having done postgraduate work in as Eastern Conservatory of national reputation, specializing in chorale and vocal music. Aside from being a brilliant pianist and a most thorough instructor, Mrs. Brawley possesses a voice of rare musical quality and is capable of reading at sight with unusual dexterity and ease. A few year ago it was the writer's good fortune to sit at a community sing held at St. Paul A. M. E. Church, Pueblo, Colo., directed by this vivacious young woman and to keenly observe the technique born of real musicianship coupled with a sympathetic ear exercised in blending several hundred voices into one of inspiring harmony as did Mrs. Brawley. Under the leadership of Mrs. Brawley this choir achieved a distinction second to none in the state of Colorado. The sterling qualities and indomitable courage have won for this young woman the respect of the heads of one of the leading commercial houses here where she occupies a position of authority and trust.

Mrs. Brawley, of high culture and refinement, a woman of unassuming manners, is the wife of F. T. Brawley, a cabinet maker of the first water, and brother of Benjamin G. Brawley, author and eminent literary critic whose works are now used as texts in many school systems. This couple has acquired valuable real estate holdings in and around Watts, Calif., and are making for solid citizenship.

—A PATRON OF ART.

In Memory of My Boy
Feb. 14, 1922.

Two years ago you left me dear
It seems as yesterday.
Grandmother and after both have
passed since you have been away.
Sweet memories of you my Arthur
dear,
Will linger with mother always.
Let fate do her worst there are realms
or joy,
Bright dreams of the past which she
cannot destroy,
Which come in the night time of sorrow and care
And bring back the features that joy
used to wear,
Long, long, my heart with such memores be filled,
Like a vase in which roses have once
been distilled.
You may break, you may shatter the
vase if you will,
But the scent of the roses will linger
there still.
Sweetly his arms folded on his breast
As he slumbers in his eternal rest,
With all the pictures that hang on
the wall.
The one of my Arthur is sweetest of
all.

—MOTHER.

It will be remembered that Mr. McGregor journeyed back to Columbus, Ohio in December for the purpose of attending the National Convenetion of Alpha Phi Alpha as its third vice-president. During the convention Mrs. McGregor was the recipient of several distinct and signal honors. He was unanimously elected to the office of second vice-president, having under his jursidiction the Wesern chapter of this powerful Fraternity. Another of the achievements accredited to this brilliant young man, was the excellent address he rendered as one of the three principal speakers at the banquet held at Dayton, Ohio, after the pilgrimage to the home of Paul Lawrence Dunbar. This affair was well attended and included among its guests such personalities as Dr. John Greggs, Pres. of Wilberforce University; Dr. J. E. Moreland of national Y. M. C. A. fame and a trustee of Howard University; Robt. L. Vann, Editor of the Pittsburg Courier and others. The other speakers for the occasion were Dr. Sadie Mosell-Alexander, former National President of the Delta Sigma Theta Sorority and Norman L. McGee, National Secretary of Alpha Phi Alpha. Mr. McGregor spoke on "The Aim of Alpha Phi Alpha." The banquet was given by the Chapter at Dayton.

Alpha Delta Chapter feels proud indeed to have her President so honored by the National body of the oldest and strongest Negro College Fraternity in America.

Mr. McGregor was succeeded as 3rd vice-president by D. Langston Brown, a successful druggist of Columbus, Ohio. Attorney Raymond P. Alexander succeeded himself as 1st vice-president, while Raymond W. Cannon was made President, succeeding S. S. Booker of Baltimore, Md.

The party was thoroughly enjoyed by all and the chapter members were sincere in their congratulations to their new officers and their National vice-president.

liver an address to the convention on the evening of February 12. That same evening, Roscoe Conkling Simmons, president of the Lincoln League, will deliver his address and Medill McCormick, United States Senator from Illinois, will speak on "Abraham Lincoln."

It now seems improbable that Postmaster General Harry S. New will be present, but it is very likely that Senator George Wharton Pepper of Pennsylvania will make the closing address to the convention on the evening of February 13.

Where to Attend Church

BETHEL BAPTIST CHURCH—
Holding Services a Y. M. C. A.

Cor. 9h and Hemlock Ss.

H. D. Prowd, Pastor

....There was great interest in our lesson at Sunday School. The subject: "The Failure at Kadesh" engaged the attention of all present. The story of the two brave men stood out for emulation and was driven home.

At the 11 o'clock service Dr. Prowd preached from John 8:36—"If the Son, therefore shall make you Free, ye shall be free indeed." All in Divine service enjoyed the message for the Master was with us and spoke through the organ of clay.

At the B. Y. P. U. we had an excellent topic before us—Ephesians 3:12 to 21. The discussion was helpful in every respect, and no doubt good was done. The time having arrived for The Lord's Supper, Dr. Prowd spoke on the words—"Until He Come." Once more we had the presence and blesing of The Master. We invite you to hear the sermons this Sunday—Subject at 11 o'clock: "What Will She Do With It?" Subject at 8 o'clock: "Whose House Is It?" Come on time, and come praying.

SECOND BAPTIST CHURCH
740 Maple Avenue

Rev. T. L. Griffith, Pastor

On last Lord's day services were up to the standard. Pastor preached a soul-stirrin sermon, subject: "The Lord of Host is with us;" Psalm 46: 11. Five additions to the church. Quite a few strangers were present, among them a Dr. Booker from Iowa a friend of Pastor Griffith; he was introduced to the church. He spoke in praise of pastor Griffith's work and worth as a minister of the Gospel and Church builder, we are pleased to hear such good reports of our pastor. The Chairman of the Trustee Board, Bro. J. H. Willingham presented the picture of the new church building which was beauiful. In a few well-chosen words he told what was expected of each member and well wisher to put this program over; we are all hoping and trusting that it will not be long now before the real building will be started.

At the evening service Rev. D. Overr of Denver preached a wonderful sermon, subject: "Almost," Acts 26:28. Rev. Overr held the audience for a while as he spoke of the many beautiful truths pertaining to this all important subject.

Remember the Sunday School Rally the 4th Sunday, we want to do our best.

Strangers are always welcome within our gates.

PLEASANT HILL BAPT. CHURCH

Cor. Bonnie Brae and Court

Rev. W. H. Rozier, Pastor

Our Sunday services were above par.

Our Sunday School was well-attended by old as well as young. The Lesson was inspiring and many helpful thoughts were gleaned from it.

Rev. Rozier occupied the pulpit in the A. M. Our hearts were uplifted as he talked with us. The Gospel light is turned on at Pleasant Hill. Now is the time fo rthe Christian to make a decided stand for religious and doctors are being put to a test and nothing but the true word of God will be able to stand. The pure word of God is being given out at Pleasant Hill every night. Come and fortify yourself against the enemy.

A good program is enjoyed in the B. Y. P. U. A free dinner is served every Sunday after A. M. services. All are invited to come and worship with us.

Mr. Hilbert Rozier has just returned home from Howard. He is contemplating entering business. We will hear more from him in the near future.

Mrs. G. Bush one of Pleasant Hill's faithful workers has been very ill, but is now healed through faith in God—all praise is given to Him.

FRST BAPTIST CHURCH
Furlong Tract-53d & Holmes Ave.

Rev. A. T. Hines, Pastor

Our hearts go out in thanksgiving when we say the Lord contiues to bless our efforts.

We had splendid services all day Sunday. The Sunday School was well attended.

We were proud to see such a number of visitors in our midst Sunday morning, the house was filled in the evening in like manner.

In this we see one of the rich promises of our Father who left us with the understanding that if I be [illegible] I will draw all men unto me.

We were also blessed to have as visitors Rev. Bro. Haynes, Whitten, Elmer, Bird, Garrison and Cobb worship with us.

3 p. m. we went to Mt. Olive where our Pastor, Rev. Hines delivered a stirring message that every heart was made sensative to the presence of God.

We [illegible] you to attend our nightly [illegible] the Holy Ghost is here in [illegible] power to heal the body and [illegible]. Three people were [illegible] Sunday evening.

TRINITY BAPTIST CHURCH
West 36th St. and Normandie Ave.
Rev. J. H. Eldridge, Pastor

Sunday, Feb. 9th was observed as Aniversary Day, marking the close of the second year's pastorate of Rev. J. H. Eldridge.

The S. S. at 9:30 was evidence enough to show a large margin of progress since Feb. 9th, 1923. At eleven A. M. the church service was as usual full of spiritual inspiration. The pastor preached from St. Mark 4:39—Peace Be Still. The Choir rendered music in harmony with the spirit of the sermon. One addition at this service.

At 7:30 the pastor preached from Exodus 14:15—Go Forward. This subject was his message to the church for the New Year's Work. Many things and duties were set forth in his discourse to pursue if the church means to go forward.

PEOPLE'S INDEPENDENT CHURCH OF CHRIST
18th and Paloma
Rev. N. P. Greggs, Pastor

A very successful revival, conducted by Evangelist Elizabeth Howard, has just closed; and the results were very fruitful and gratifying.

The pastor, Dr. Greggs, has been away on a thirty-day leave of absence. This short vacation, tho too limited for a complete convalescence, seems to have added much to his physical strength, and all are hopeful and mindful of co-operative plans for his usual strenth and health.

The death of Mrs. L. C. Kenzy was a shock to her many frends. Her funeral was held at Roberts' Undertaking Parlor last Wednesdey, Feb. 6th. The services were conducted by Pastor N. P. Greggs. Dr. Greggs delivered a touching eulogy over the deceased. Sister Kenzy was a very faithful and ardent warker in both the Christian Endeavor Society and the Sunday School. Impressive resolutions were read by Prof. Biggers, president of the Endeavor Society, and by Mrs. Printice, Superintendent of the Sunday School. A very touching talk was made by the Dr. Major Prioleau commemorating the life and works of the deceased Sister Kenzy.

The services all day last Sunday were marked with much enthusiasm and spiritual interest. Pastor Greggs, after nearly thirty days absence on vacation, was again found at his post, greeted with a hearty spirit of welcome and smiles of cheer from his large awaiting audience. The Rev. Dr. Gantt preaced a stirring sermon; the teme of his discourse was "Willing Souls". His sermon was both logical and spiritually inspiring. The choir rendered excellent services all the day, especially at night. Very fitting and touching was the special solo sung by the Director, Prof. Johnson, at the 11 o'clock hour.

The Quarterly Convocation held last Monday night in the church's main auditorium, was one of remarkable excellence. The reports for the past three months revealed many pleasant things of the late accomplishments of the church. The schedule for the year was read by the pastor, outlining the many big programs, all of which are destined to a high ascending climax, mutual to the welfare of every member and entertaining and helpful to the entire public in attendance.

WESLEY M. E. CHURCH
8th and San Julian Sts.
Rev. A. P. Shaw, Pastor

Sunday was a banner day at Wesley. The sermon by Rev. S. M. Beane and the singing by his choir thrilled the large audience which heard them at the morning hour. The pastor preached to a fine audience at the evening service. The offerings for the day were excellent. Six persons united with the church and three came forward for prayer at the evening service. Truly Wesley is marching on.

This Sunday promises to be a great day. The pastor will preach in the morning on "Some of the Joys of the Christian Life". You will miss a spiritual treat if you fail to hear this sermon. Don't wait for others to tell you about it. Hear it for yourself. Hear the pastor's evening sermon on the "Reprobate Mind". He purposes to show that the present disclosures of sensuousness in movie circles and in Pomona indicate the fall of our present civilization. It would be good for a full house to hear this sermon.

If you are looknig for real worship and instruction free from chaff and chaff, come to Wesley. Do you believe it? Come and see.

HAMILTON M. E. CHURCH
Cor. E. 18th St. and Naomi Ave.

Rev. S. M. Beane, Pastor

Sunday was a great day at Hamilton, made doubly so because of the arrangement entered into between the pastor and Rev. Dr. Shaw. Dr. Shaw and his choir had charge of the service, and rendered wonderful service. The spirit of the Lord brooded over the place and nine persons came forward and uited with the church, one of them going to Wesley. It was a great service and an inspiration. The exchange of pulpits and choirs is new in Los Angeles and has proven of great benefit. While Dr. Shaw and his choir were with us our pastor and choir were at Wesley. Let us not make this the last. At night Rev. Cotton, a local preacher of the church, and a former probationer in the Little Rock Conference, preached from the subject, "Weeping for a Wayward Son". Large crowds were present at each service, and all went away happy. A cordial welcome awaits you here at all times. This is the "Strangers' Home". Come and see.

WARD CHAPEL A. M. E. CHURCH

1252 East 25th Street

Rev. B. R. Guy, Pastor

Splendid services were held at this Church last Sunday. Sunday School was very well attended, and presented the appearance of progress.

At the morning services the pastor spoke from the text: "Present your bodies a living sacrifice, holy, acceptable unto God, which is a reasonable service". The audience was large and gave splendid attention, and visitors and others expressed appreciation of the services. One person came forward and united with the church. Both endeavors had good lessons. At night Rev. Redden preached from the text, "Why sit we here till we die". The mixed audience gave earnest attention to all that was said and done.

CHRISTIAN CHURCH

Cor. 33rd and Hooper Avenue

M. Frederick Mitchell, Pastor

Sunday, Monday and Tuesday were outstanding days in the life of our church work.

Sunday morning Prof. P. H. Moss brought us a message that will linger long in our mind. It was indeed a wonderful effort." Sunday evening the regular services were dispensed with and the whole evening was given to the S. S. Institute, closing the Institute Tuesday evening. The interest of those who were present the first evening was so gripped that all with the exception of a few were present each evening.

Prof. Moss is truly a man with a message upon Religious Education. Prominent among those who attended from other churches were, Rev. W. E. Shaw, pastor A. M. E. Zion Church and several of his members; Prof. B. H. Graham; Rev. E. E. Lightner, Congregational pastor; Miss Mary Banks, teacher in city schools; Prof. C. A. Biggers; Pastors' of both the Birch St. and Wall St. Christian Churches and many other reputable members of other churches. Rev. J. W. Madux (white) and Dr. S. C. Cotterell enhanced the success of the Institute with sermonettes.

Regular services next Sunday. All are welcome.

PHILLIPS CHAPEL C.M.E. CHURCH

1406 Newton St.

Dr. R. W. Uuderwood, Pastor

The first Sunday was Quarterly Conference day. Rev. W. B. Butler, D. D. is presiding elder. There were splendid services throughout the day.

The church was packed to its capacity. Several hundred communed during the day. Several hundred dollars were raised durnig the quarter, as well as an unusual increase in the membership. The Second Sunday was another great day at Phillips Chapel. The pastor preached morning and evening. Three persons joined the church durnig the day.

This church looks after its strangers and welcomes them to this church home. When you are looking for friends turn your attention to Phillips Chapel.

Prof. R. M. Mitchell and his choir are still singing the gospel. They make their music a "specialty".

Gospel Sermons—Our pastor's sermons are full of thought and power. He is a great pulpiteer. He grips his audience with the gospel sermons, and cloquence. So powerful are his sermons that persons are converted words that persons are converted during the delivery of his address.

The Sunday School and Epworth League are growing under its superintendent and president. Brother E. D. Maxey is the superintendent of the Sunday School, and Brother Chas. Cook is president of the League. Sunday will be go to church Sunday. Each member is requested to bring some person with them.

BAPTIST MINISTERS UNION

At Pleasant Hill Baptist Church

The interest of these meetings continue to grow, as last Monday's meeting proved. Among the notables who were visitors at the meeting were Rev. Wm. A. Washington, of the Bethel Holiness,this city; Rev. Hawkins, of Alhambra; Dr. David E. Overr of Denver, Colo., and Rev. Lewis, sining evangelist. Dr. Lewis rendered two wonderful selections. The entire city is invited to hear next Monday's program. Don't miss this one. Come early, 11 o'clock.

Rev A. T Hines, Sect.

METROPOLITAN BAPT. CHURCH
37th and Paloma Sts.
Rev. M. C. Carter, Pastor

The Pastor preached by request a strong missionary sermon Sunday A. M. past. His subject was "A Missionary Church." The well-filled auditorium gave evidence that it was one of the greatest sermons that they had ever heard. The music under the direction of Mme. Mozelle Te Outley was excellent and very fitting for the occasion. The pastor filled the pulpit again Sunday P. M. and gave us another great message on Faith. The pastor will fill the pulpit Sunday. His subject will be "How are You Using Your Influence." Rev. M. J. Gibson, one of our Associate Ministers will preach Sunday P. M.

Sunday at 3 p. m. services will be held under the auspices of the Good Samaritan Club, Sister Frances Carter, Pres. Rev. Holder of Zion Hill Baptist Church will preach.

Don't forget our Big Rally starts Sunday, February 17th. Come and help us put the program over.

Sunday was indeed a great day at Grant Chapel; the Pastor preached to a large congregation in the morning and five souls were added to the fold.

"Allen's Day" was fittingly observed at the young people's hour, with a program of songs and readings.

Sister Howard preached at the evening service to a large and attentive audience.

LINCOLN MEMORIAL CONGREGATIONAL CHURCH
34th and Central Ave.
Rev. E. E. Lightner, Pastor

Splendid services were held at this church the past Sunday at both hours. The Pastor occupied the pulpit at the morning service and gave the third in a series on: "Some Questions of Jesus." The text for Sunday was: "What shall it profit a man if he shall gain the whole world and lose his Soul? (Mark 8:36). Prof. G. M. McClellan and Mrs. E. D. Harris sang very effectively the tenor and soprano duet "Hark, Hark my Soul" The Lincoln Male Quartet also added much to the service in rendering one of "Spirituals." In the Sunday School a fine program entitled "The Unfinished work of Lincoln." Mrs. Bass was at her best and held the audience in rapt attention as she told of the virtues of the martyred lover of humanity. The Christian Endeavor held a good session under the leadership of Mr. Robert Hardon. The Pastor will occupy the pulpit at both services this Sunday, February 17th. You are cordially invited to worship with us at all times.

MONROVIA

Monrovia is experiencing one of the greatest revivals in the history of the churches. Evangelist William Lewis is holding up the reputation which he sustained before he came here. The Shiloh A. M. E. Zion Church where he is now conducting a revival campaign, was filled to its capacity Sunday night, and the seating capacity of the church compares favorably with any other church in Southern California. Though the meeting has been on for three nights, thirteen have already been bropght into the fold.

Rev. R. N. Holt, moderator or the Western Baptst Association, together with quite a number of his members from Los Angeles, worshipped with the Second Baptist Church Sunday afternoon, the occasion of the afternoon meeting being the installation of the officers of the Woman's Home and Foreign Missionary Society. Rev. Mr. Holt preached the installation sermon.

Mrs. Lucy Cheery, of Palm Avenue, who has been ill for some time, is able to be out again, to the delight of her many friends.

Bishop L. W. Kyles, A. B., D. D., will preach at the Shiloh A. M. E. Zion Church, Sunday the 27th inst, three o'clock p. m., Bishop Kyles is one of America's greatest Negroes.

Mrs. Susie H. Reed, 241 E. Huntington Drive, has been apponted deputy regster of voters by Mr. Lyons, regster of voters of Los Angeles County. Mrs. Reed is appointed for both Monrovia and Duarte. She served with credit in the same capacity in Los Angeles two years ago. Mr. Lyons was hopeful of having her work in that city again.

Persons coming to Monrovia looking for homes to buy or rent would do well to see Mrs. S. H. Reed at 241 E. Huntington Drive.

The political pot has begun to boil in Monrovia. City election in April is the reason. All of our race group should vote and be ready to put out or in men that will recognize our people in things that are reasonable.

SAN DIEGO

By A. L. Brown

The home of the Raphael family was made to rejoice at the arrival of a ne whoss of the house in the uerson of Robert Arthur Raphael, a son. The stork is quite busy around San Diego these days.

Bethel Baptst Church notes by Raphael Phoenx.—The Sunday School opened on time with a large attendance as usual. Bro. S. Annistead, teacher, has something new in store each Sunday for the many children that attend. The Sunday School is second to none in San Diego.

The morning service was good. Rev. Milton, of Oklahoma, preached. The attendance was fairly good with some visitors present.

At the B. Y. P. U. the live wire of the church, as usual, the program is inspiring. Miss Gordon, the president, puts plenty of life in the union. Mr. Phoenix, the chairman of the program committee, has a cunning way of improving his program by adding new people each Sunday evening.

The evening service was good. Rev. Milon also preached. His text was found in Matt. 25:16. "Christ, The Champion Pugilist", which was well demonstrated.

A grand program has been arranged by Mr. Phoenix for next Sunday evening B. Y. P. U. which will begin at 6:00 o'clock sharp.

Mrs. McCrady, a trained nurse who come to San Diego from Oakland, Cal. may be encouraged to live here. The writer finds Mrs. McCrady a business woman and she may surprise San Diego in the near future if she can find a suitable location.

Household of Ruth will give a big chicken dinner at the home of Mrs. Martha Pirkles, Saturday evening. The Ruths are planning to send delegates to the Grand Lodge this year.

More business for San Diego. Hayden & Hayden will open a new grocery store at 3031 Greeley Avenue. I am sure their ad dwill be found in the Eagle from time to time.

Mr. W. H. Brooks, who injured his leg, is much improved.

One of San Diego's neatest restaurants was recently opened by Mr. and Mrs. January, at National & Ligsbell Streets. Watch The Eagle for their add, which will bring results.

Mrs. Ada Miller, who has been on the sick list for some time is up again.

Miss Viola Carvey, who has planned to leave San Diego for her home was delayed for some reason.

Mr. B. T. Newman is spending a few days in Frisco with some old friends and will return home soon.

Mr. H. E. MacBeth was in the city en route to Los Angeles. Mr. MacBeth has been to Eusenda on some business.

The White Front Garage is making good. Mr. Burch is a pleasant man to meet and will prosper in his businetss efforts. Visit the White Front and find his garage number in The Eagle.

Everyone is watching The Eagle for Slyuester Stewart's Garage, which is located on 9th Street and has consolidated with Jones, the car doctor.

The First Street Baptist Church had its baptism on Sunday morning at Mount Zion Baptist Church. A great service was witnessed. Rev. Thomas is doing big things at the First Church, and invites everyine to visit the various meetings.

Rev. Yonable, who has been stopping with Mr. and Mrs. Watts on 26th Street, is being shown a royal time while here. He preached at Mt. Zion Baptist Church Sunday morning and night to a large crowd. Before his address to the U. N. . A. Sunday he spent at least ten minutes trying to explain the wonderful dinner he was served at the Watts home.

Mrs. Venable, who lives in Los Angeles, is a sister to Mrs. Watts. She accompanied Rev. Venable here and they will return to Los Angeles Thurs day. Quite a family reunion was manifested on their arrival here.

Troup 16 captured the prize for hiking and endurance more than two years ago. They won the championship for long distance and endurance hiking covering 138 miles in 5 days, which title they still hold. Last year they hiked to Sweetwater, a distance of 77 miles, in 4 hours and 10 minutes. 8 hours and 30 minutes for the 34 miles and on last Saturday The Eagle patrol, 8 boys and Scoutmaster made the 34 miles in 7 hours 45 minutes, and I will challenge any troup for the hike.

David Austin, a member of troup 16 was among those who were baptized Sunday by Rev. Thomas at Mt. Zion.

Swain & Swain to open a restaurant on the ninth of the month at 762 3rd Street, Ponsetta Restaurant by name. The Eagle wishes them a success and will assure it if their add is read in The Eagle.

The U. N. I. A. meeting at the Mt. Zion Baptist Church Sunday was a grand success. Rev. Venable was all that he was represented to be.. He is the power behind the throne.. The meeting was well attended, probably the best since the presence of Hon. Marcus Garvey. In referrnig to his address encugh canhot be said. Rev. Venable, who lives in St. Louis, Mo., is well prepared to discuss anythig, and I am sure everyone would be glad to hear him in this lecture. Sunday he showed the real benefit of the Garvey movement to the race, and said it may be years before the value will be treasured, but he insisted that the time must come. He made the organization his strong point, and referred to an incident which occured in St. Louis to one of the beautiful girls of our race that was employed in a white doctor's office. The same occurs where we send our girls to the various hotels as maids only to become the tools of white men, and we men, as he says are responsible for it by not standing together and building concerns of our own to employ them. He repeatedly asked when will the Negro wake up. He said that since the movement is not a back to Arrica movement but its chief object was to organize the race and commercialize the African products and those who desired could unite with Africa, which the race will do in time. It also carries with it industrial ideas for our boys and girls. Rev. Venable highly comments on Garvey's vision to organize the race and has had to suffer as did Christ, our Savior, who redeemed his people. While Mr. Garvey was thrown behind the bars he is not discouraged, and while in prison, he continued to cry freedom of the race. And the ones for whom he was being punshed were damning his soul. But God is in theplan and as you live he will redeem the Negro race, and only through Garvey's method. Every nation or race has its governmet except the Negro, who at prtsent seems contented with conditions that surround him. The question that confronts the whole world today is, "Will the Negro race ever amount to anything?" Will we learn ever to adopt leadership?. The program that preceeded the speaker was timely and well received. The U. N. I. A. hymn was lead by the lady president. The house was led in prayer by Mr. Denny, a strong U. N. I. A. member and race man. After another song tw omniute talks were made by many prominent men. Rev. Dyson was the first to be called upon, then Pre. J. B. Wilkins made an interesting talk on the need of the race. Mrs. C. E. Norwood, Mistress of Ceremonies kept the eyes of the people open by the manner in which she conducted the program and the poem which she read, was the Giant oak dedicated to Garvey, and took the house. Everybody left pleased with what they had seen and heard, and many new members were added to the local branch, and many expressed a desire to become members.

SANTA BARBARA

Sunday was an ideal day and a number of visitors from nearby towns were in the city. Mr. Ed Mays, of Bantwia was in the city. Both churches were well attended. At the Second Baptist, Rev. H. B. Thomas, pastor, and St. Paul A. M. E., Rev. C. A. Harris, Pastor. It being the first Sunday, Second Baptist started early Sunday morning in the Sunday School service and closed at night with praise service and communion. One member was admitted to the church.

The Sunday School of Second Baptist will give a valentine dinner, February 14th, consisting of Virginia baked ham and all the dressing that belongs to a dinner of that kind.

On each Thursday afternoon, at 4:30, the Starlight band of 2nd Baptist Church is continuing to have very interesting meetings at the home of the directress, Mrs. H. J. Stewart. Two members joined last week, and a very merry time was had.

Messrs. Jno. D. Stewart, H. Alexander, A. M. Lewis, were visitors in Los Angeles on Fraternal business last week.

Mr. T. W. Carr is a new arrival in our city and is stopping at the home of his niece, Mrs. J. D. Stewart.

There is always a distant echo of wedding bells among the younger set, and methinks it is ringing loudest around Second Baptist Sunday School.

The Santa Barbara Choral Society, composed of colored folk, made a decided hit in their initial performance before the public at recreation center last Sunday afternoon.

Santa Barbara, sublime and beautiful place to live in, has enjoyed a remarkable stretch of fine weather, and we Barbarenos insist on saying that if you like Southern California, you'll love Santa Barbara. We welcome you.

SEATTLE NEWS

By F. R. Brooks

We are very glad to mention the lovely weather that we are having in Seattle. It is really grand. The beautiful sunshine and balmy breezes are wonderful for this time of the year.

Miss Maude Mayes of Santa Manica, Cal., arrived in this city Monday evening, February 4, 1924, meeting her two dear sisters who had been expecting her since the 1st of February. So when she came to the scene at 10:30 Mondey, there were three sad hearts made glad. This was the first time for quite a number of years that they had all been together. The trio consists of Mesdames Daniels, Harris and Mayers. Mrs Mayes wishes to thank the people of Santa Monica for their kind hospitality during her brief stay.

Mr. Hence Brookins conducts a weekly dancing school each Wednesday evening at Arison's Hall, 627 1st Avenue. It is a nice hall with plenty of ventillation, fine dance floor and is located on the fifth floor. Good music furnished for your convenience. Good order and plenty of nice refreshments.

The Colored Jazz Bands furnishing music at the two dance halls are as follows: The Strand, located on Jackson Street near Sixth, Adams Jazzers, Chas. Anderson, Mgr., Cornet; Mrs. G. H. Wright, Piano; Mr. Leon Jackson, Saxaphone; Mr. R. H. Curdy, Tenor, Banjo; and Mr. Harry Murray, trap drums, and at the Dreamland Dance Hall on Fifth Street between Jackson and King Sts., are Lathrup's Jazzers: Mr. Lathrop, Mgr., Cornet; Mrs. Mannear, Piano; Mrs. Manear, Saxophone; Mr. Jones, Trombone, and Adolph, trap drums. These are two good jazz bands. They also have a real good job. We trust that they will keep dealing out the same good music as in the past and remaining congenial to each other in order to have success.

Bud Murray is the man of the hour at Hence's Pleasure Social, fourteenth and Yealer Way. When you have time to spare, he wants you to call in. They have entertainment from 2 p. m. until 12 p. m.

Mr. John Payne, the celebrated baritone, will soon appear in recital here. Mr. Payne has lived for quite a while in Seattle. But in the last four years has been in Europe studying voice culture.. About six weeks ago he returned to visit his sister, Mrs. Gardner. During his stay he signed an engagement to stage a recital under the auspices of the Mt. Zion Baptist Church, February 28th.. He is expected here about the 16th of February. Now it is up to you to do the next best thing, let us turn out and show our appreciaton to our home boy by giving him a great audience so he can display his talent.

Let me have your order for The California Eagle Please. It is only $2.00 per year, sent direct to your address. It is a live wire paper and is published in Los Aneles. F. R. Brooks, Seattle Agent, Phone East 1344.

SAN BERNARDINO

The residents in the section bounded by sixth, seventh, Harris and "J" streets had quite a fire scare Thursday. The fire was of unknown origin, and destroyed a few sheds, a garage in the rear of the parsonage of the Baptist church. The fire created a draft that carried the cinders quite a distance setting fire to dry grass in vacant lots and the tops of a few houses in the path of the current.

Churches: Allen Day held at the A. M. E. Church Sunday was said to be one of the best for information and entertainment in quite a number of years. The pastor preached on "The Struggles of Christanity, Wesleyanism, and African Methodism". Acts 5:38-39. The program at night was quite a treat, conducted under the auspices of the A. C. E. League, Bro. J. B. Culpepper, President. It was a very elaborate program, consisting of papers, solos, duets, and remarks All appeared to be delighted and benefitted by the service.

Sunday was rally day at the Baptist church, this was the first effort of the church under the Rev. Young, the new pastor. He is full of fire, wit and enthusiasm, just from the East and events are responding to his wish. The time is opportune for all of the members seem to be well satisfied with his services. The amounts raised by clubs: Never failing Club, $77.90; Willing Workers, $41.20; Restless Reapers, $72.00; Lend a Hand, $51.00; The Brotherhood Club, $145.60; The S. School, $25; B. Y. P. U. $17.00. The total raised was $415.00. A good rally, San Bernardino says so.

The social world was quiet for the week. Miss Roena Muckleroy spent a few days with her parents between semesters. Mr. Edward Reid is smiles again, the glom is gone. All San Bernardino knows why. Yes, she recited very beautifully on the program at the A. M. E. Church Sunday night.

The sick are convalescing.

WILLIAM WRIGLEY AGA

The key to the City of Americ has been busy all week entertainin the great National Auto Exhibit a the Coliseum out on the South Side here the last four Republica presents have been nominated. The biggest piece of news was the announcement of President Farley, of the Auburn Motor Car Company that our own Wm. Wrigley, Jr., was responsible for the new impetus given to the production of public attentio attracted by the beautiful new 1924 mode As a director of one of the leading auto business concerns in the country the versatility and indefatigab business genius of this man of the West has again been unmistakably demonstrated. Mr. W. A. Stanley, general manager and secretary of the Wm. Wrigley, Jr. Chewing Gum interests in Europe, China, and the Amicas, expressed publicly and privately, appreciation of his chief for a kindly mention of this company's broad and absolutely square deal poli toward its particular and many colored employees in nearly 100 of the leading race weeklies. The Wrigley company used a number of colored pers for advertising in 1923, and the results were so conspicuous that in 1924 appropriation for P. K.'s Dolemint, Spearmint, and Juicy Fruit will be spread over some fifty more publications.

One of the first remarks ade by Mr. Wrigley upon arriving Monday, on the California Limited, was an emphatic declaration of whom he says is the whole works on Catalina and.

COLONEL ROSCOE C. SIMONS ARRIVES

On the fourth floor of the Wrigley Building at 400 Lake Shore Drive, next to the door with William Butler's name, the personal representative, and national campaign manager of Silent Cal. Coolidge, will be found this name of many a battle scarred G. O. P. campaign, Roscoe C. Simmons, as usual he is next the seat of the mighty. It is going to be hard to beat the strategy of the man in the White House.

MAYOR DEVER SAYS SO

Mayor William E. Dever, Democratic chief executive of the Windy City, showed his hand last week by personally supervising the fight to banny showing here of "The Birth of a Nation". He appointed the Hon. Prod L. Ickes, 1912 Roosevelt leader and one of Senator Hiram Johnson's sponsors as special counsel to the regarly appointed legal aides of the city. Mr. Ickes has been for years a member of the board of the local National Association for the Advancement of Colored People. His son is one of the ardent boosters of tennis in Chicago and absolutely without bias or the snobbish tendencies of some millionaire in his own right. The future Chicago will be in the secure hands of the coming generation of Ickes, Armour, Wrigleys, Dawes, Swifts and McCormicks.

SENATOR JOHNSON MAKES MASTER STROKE OF HIS CAMPAIGN OF THE WEST

Designates Hon. Harold L. Ickes

Personal friend of Theodore Roosevelt and conspicuous member of the executive board of the National Association for the Advancement of Colored People his personal representative and Illinois campaign manager.

By Edgar C. Brown

Chicago, Feb. 6—Senator Hiram Johnson, leading candidate for the Republican nomination, has dispelled every scintilla of doubt as to his rightful accession to the confidence of the colored people of America in the appointment of Honorable Harold L. Ickes, millionaire philanthropist and bosom friend of the late Theodore Roosevelt. Only this week while the respective managers of the Johnson campaign were paying homage to their chief at a banquet Tuesday afternoon at the Internationally famous hotel Drake, on Lake Shore Drive, Harold L. Ickes was representing the City of Chicago as special counsel with Corportion Counsel Francis X. Bush in Jude Sullivan's court, master of chancery, pleading for the enforcement of the Jackson law barring the "Birth of a Nation" from any exhibition in Chicago in spite of the great pressure of the Ku Klux Klan for opportunity to incite another race riot.

For those of us who have learned to expect even to find some of our once designated Republican friends, leaders in the Ku Klux Klan it is nothing less than miraculous to find a white citizen of enviable reputation, like Foraker of old, going on before the respected courts of our land in defense of the interests of the poor colored citizen against public sentiment and the organized forces of prejudice, and race hatred.

Harold L. Ickes, Chicago's leading humanitarian, who has never even sought public office has not been satisfied to contribute to our institutions but he has personally busied himself in the race's interests as a member of the National Association for the Advancement of Colored People for years.

Mr. Ick's advent into the councils of Senator Hiram Johnson's campaign will assure the colored people of the Roosevelt "Square Deal".

DEAR READERS:—The Jackson statute which is a part of the Illinois State Law, was especially framed by Alderman Major R. R. Jackson, a colored man, while in the State Legislature to prohibit just such pictures as the "Birth of a Nation". It is a great step forward to have prominent white citizens protect our own by laws written by colored men.

Miss Elizabeth Perry entertained in honor of Miss Nadine Redmond, a graduate of the Senior High School, class of February, 1924, with an elaborate luncheon Saturday afternoon. The guests were: Misses Nadine Redmand, Ruth Addison, Marjory Vernon, Julia Mercer, and Matilda Kitchey.

Mrs. Winters is in the hospital for an operation. Her friends hope for a successful outcome.

COLONEL ALBERT A. PRAGUE MILLIONAIRE CHICAGO COMMISSIONER

Says he is not a Politician—Publicly Declares he Will Work and Vote for DYER ANTI LYNCHING BILL To Address All Race Conference

By Edgar C. Brown

First and exclusive interview to colored Press

Chicago, Feb. 8.—"Congressman Dyer has overcome in his federal bill to abolish the uncivilized practice of lynching all the objections of the 'pussyfooters' who hide behind constitutional law, state rights et al," declared the millionaire Republican candidate on the Democratic ticket of Illinois for United States Senator to succeed Senator Medill McCormick the man who went to Europe when the Dyer bill came up before the Senate. "I am unalterably opposed to mob rule, and if elected as Illinois Senatore I will not only vote, but work for the passage of such necessary legislaton. It is most apparent in the statistics of the causes given for lynching as set forth in the literature of the National Association for the Advancement of Colored People, that the alleged usual crime of rape is only 2 per cent of the total number, and among the twenty-three last year, two of the lynching victims were women. The mask should be torn from all this smoke screen of misrepresentation. This heinous practice of hanging and burning human beings in this civilized country must stop! Mr. Dyer and the N.A.A.C.P. are rendering the country an inestimable service."

Colonel Albert A. Sprague was one of the managers of the General Wood campaign in 1920. He is the trusted adviser of Mayor William E. Dever as his commisssioner of Public Works, which he accepted despite the duties of his own vast business interests. He is the true type of public servant like the great secretary of the treasury of the United States, the Hon. Andrew Mellon. He recently recommended the appointment of Attorney Earl B. Dickerson to the office of Assistant Corporation Counsel at a salary of $6,000 a year.

Colonel Albert A. Sprague will share honors with Mayor William E. Dever in welcoming the delegates of the All Race Conference to Chicago. He is expected to reiterate his demands for a soldiers' bonus and his platform of America first.

The story in the Chicago Defender saying that Attorney Offord was appointed Ass't Corporation Counsel is a misrepresentation. Earl B. Dickerson was appointed Asst. Corporation Counsel and Mr. Offord was appointed Asst. City Attorney.

The Chicago Defender had nothing to do whatsoever with stopping the "Birth of a Nation". The Mayor and other City Administrators backed by the National Association for the Advancemen of Colored People and prominent colored Democrats investigated the facts and carried it thru.

Popular West Side Belle Led To The Altar

It has been many moons since Los Angeles has witnessed such a scene as was depicted when Rev. H. B. Hawes, Pastor of Westminster Presbyterian Church, West 35th Place and Denker avenue, gave in marriage Miss Daysie Hilda Ford to Mr. William Harold Jordan on Wednesday, anuary 30, 1924.

The church was beautifully decorated with smilax, ferns, palms and cut flowers. Promptly at 7:55 P. M., Mrs. Marian Forsythe, that peerless violinist, started the strains of "O Promise Me," and on the stroke of eight o'clock Miss Ruth Lee struck the first cords of Mendelssohn's Wedding March, as she only can do.

The Bridal Party entered immediately. The attendants were: Maid of Honor, Miss Gladys Ford, sister of the bride, with dress of cream Spanish lace over pink satin carrying a beautiful buquet of pink sweet peas and fern; Matron of Honor, Mrs. Vivian Lee, orchid taffeta and picture hat, carried orchid sweet peas and fern, the Bride's Maids were Misses Anita Wilkins, peach pink taffeta, Velma Jackson, turquois blue taffeta, Inez Johnson, sunburst taffeta, Louise Gardener, orchid taffeta, Nora Lewis, ...e green taffeta and Ella Wright, ...icot taffeta, all wore silver slip..., silver bands on heads and carried variogated colored bouquets. The bride entered by the strains of Lohrengren's Wedding March on the arm of her uncle, Mr. John Lewis, who gave her in marriage. She was fittingly gowned in white satin with silver stitching and chantilly lace, with gorgeous three and one half yard train of white georgette with hand-embroidered medallions of satin roses. The bridal veil was of French tulle caught with a crown of orange blossoms. She wore white brocade satin slippers and long white gloves.

The groom stood waiting at the altar beneath a beautifully constructed arch of smilax and pastel colored blossoms, in his comely full dress suit, accompanied by Mr. Christopher Scott also in neat full dress.

Immediately following the ceremony Miss Frankie Hawkins sang the Wedding Song, "O Promise Me" after which the entire bridal party marched to the reception hall, where a specially prepared table with a five-stack wedding cake was very inviting. Those acting as ushers were: Miss Alice Harrison; Mrs. Leslie Milton; Edgar Johnson; DeAlbert Payne; Haven Johnson; Edwin Jefferson; Melvin Bowden; Earnest Arthur.

The guests were in large numbers and congratulations were in order. The presents were both costly and numerous.

WAR VETERANS NOT LEPERS

(Lincoln News Service)

Washington, Feb. 14.—Disregarding the urgent neccessity of enacting constructive legislation, the benefits of which will reach all of the people, the democrats are now demanding a Congressional investigation of conditions at Walter Reed Hospital in Washington, because Frank J. Irwin, National Rehabilitation Chairman of the Disabled Veterans of the World War, complained to members of a committee that white and Negro patients are cared for in the same wards. An investigation made by W. S. Clark, Liaison representative of the fourth district of the Disabled Americans, revealed to him the horrifying fact that in one ward, where there were 26 white men, two Negroes occupied beds, and in another ward where there were 28 white men, two more Negroes occupied beds. It was found that a total of nine disabler Negroe veterans were occupying beds in six different wards where their white "buddies" are being treated, and so shocking was this information to the Democratic members of Congress, who, since their failure to make the world "safe for Democracy", have been trying to make the United States safe for the democratic party, that Representative Wolf, of Missouri, introduced a typical democratic resolution one day last week, providing a full investigation of Walter Reed Hospital.

What do the Democrats care about relieving the people from burdensome taxes if they can find anywhere, even in a government hospital, an excuse for harping on the color question? They should remember that these nine disabled colored veterans, who are occupying beds at the government hospital, are not nine lepers from remote lands, but, rather, that they are nine American comrades who were maimed or otherwise disabled while fighting under the flag of their country. Surely there is a great deal of "home missionary" work to be done by Bishop Maguire, the leading colored Democrat, among the pagans of his political faith. And he should get on the job at once.

RELIGIOUS VETERAN RETURNING TO L. A.

DR. A. J. STOKES

Dr. A. J. Stokes, Peerless Pulpiteer, Matchless Orator, and for forty years the untrammelled leader of the race, comes to the pastorate of the Mt. Zion Missionary Baptist Church, this city. The Mt. Zion Baptist Church in particular, and the Baptists in general, have a cause for great rejoicing. For in the coming of Dr. Stokes into our midst, we have a ripe scholar, an experienced leader in the practice and polity of the church such as in but few others. Dr. Stokes has been honored with every office in the gift of the National Baptist Convention. He is now the treasurer, and has been for a quarter of a century. Though a sexogenarian, he is the youngest, as well as the noblest Roman of them all.

Dr. Stokes was a life-long friend of Dr. Booker T. Washington, and was his private cuncilor in critical times, while building up the great Tuskegee Institute. Major Robert Russa Moton, head of Tuskegee, recognized the wisdm of Dr. Stokes, and had him elected to the board of trustees of the school.

Dr. Stkes leaves one of the greatest churches in the South. Its membership is more than 5,000, Most of whom he added while in the pastorate of forty years.

The Doctor is said to be one of the few Negro ministers who are wealthy. This is stating it mildly.

Much time has been spent on two separate occasions in Palestine, when he exxplored the land made sacred by the life and death of Jesus Christ. These trips have added veneration, which is akin to the prophets.

Through spending most of his time in the South among the prejudiced whites, still that unconquerable spirit and indomitable will have never been swersed from the highest interest of the people whom he served and successfully led, and this has endeared him to both races.

Don't throw stones if you live in a glass house.

Don't fall out with a man because you owe him.

Don't say you are holy if you have not mastered your temper.

Don't attempt to read the thoughts of others before you have carefully studied yourself.

Don't imagine vain things concerning your own station in life. For he that humbleth himself shall be exhalted.

No one is more sensible than the Negro himself of his incongruous position in the great American Republic, but be it recorded to his everlasting credit, no failure to reap the full award of his sacrifices has ever in the least degree quailfied his loyalty, or cooled his patriotic fervor. His educational and economic progress have gone far to justify his emancipation, and any nation with such loyal and devoted citizens should do all in its power to encourage and help to the extent of giving them full citizenship instead of holding them back and making them suffer because they have a zeal to rise.

Don't get the habit of finding fault—for we are afraid that if you look closely, the fault you think you see in others is your own mind's attitude.

While we pay homage to the sainted Lincoln, let us not forget the 14th of February as the birthday of the "Sage of Anacostia," Hon. Frederick Douglas, one of the most picturesque characters in American history. He was wisely termed, "Grand Old Man" who never surrendered nor ever was cajoled into betraying his race while he lived. In his day there was no let up in his fight for Negro manhood and he went to his grave feeling sure that the principles he taught should forever inspire the coming generation with a greater zeal to reach the highest standard in civilization.

The Divine ordeal of the Gospel Ministry is that of a man true to God in will; to man in sympathy and proclaiming God's method in bringing into right relation to himself, and thus to all things else. But can there be any weight to such divinity if we do not lift up Christ and not man? We fear the awful mess we are making of it all. "We can't fool all the people all the time." So let us get back in the path again. Perhaps we would not have so many troubles if we would do right—if we would tell the truth and quit trying to deceive our people.

John Stevens McGroarty, who some time ago wrote this small article in the magazine section of "The Times" speaks louder and louder in praise of the achievements of the much hated race:

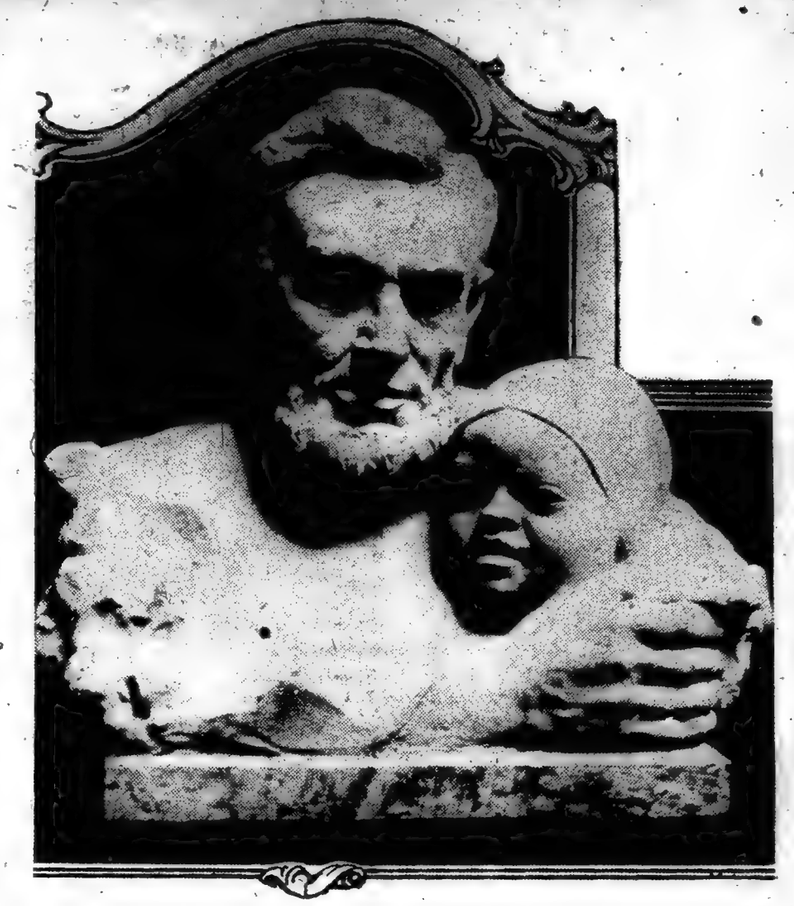
"Another Feather

"The Negro, fighting his way back to his old eminence in the world, may now put another feather in his cap. The feather is to represent Russian literature, concerning which all the high brows in the world are now raving. Things Russian are the fad, these times, both in Europe and America.

"Well, the founder of Russian literature—the inventor of it, as you might say—was a Negro. Folks who say the Negro is racially and hopelessly inferior to the white man might put this in their pipes and it.

"It is, of course, all bosh—this thing of saying that one race is inferior to another. The fact is that God put the same kind of brains in the heads of all the races.

"And, it is also the truth, that if you dig down into it you will find that white men were never the greatest of men, nor did they do the greatest things. We may just as well be honest with ourselves."



ABRAHAM LINCOLN.

Year by year the memory of Abraham Lincoln, seventeenth president of the United States grows sweeter and more sublime to the American.

Nearly every photograph of Lincoln in his many different poses has been used by newspapers and magazines and each year when February 12th rolls round men again turn back the pages of history and read again and again the glorious history of this martyred President.

MANHOOD LOST A KINSMAN.

No doubt the greatest character in the American history as far as the Black man is concerned, is the liberator of the American Negro from the accursed bonds of slavery, and carefully guarded in a secluded room on the top floor of the State De-Partment at Washington, the U. S. Government preserves this document known as the Emancipation Proclamation which is the most interesting of all the autograph documents of our presidents. It was always the fear of Mr. Lincoln that this document would some day be stolen and to guard against this it has been properly protected.

His remarkable success in captivating the popular mind was undoubtedly unconsciousness of self which enabled him to go forward in any undertaking. He forgot himself so entirely until he saw all men created free and equal. A one United America? He was homely, dispassionate, showing all the rough-edge process of his thought as it goes along, yet arriving at his conclusions with an honest kind of every day logic. He was eminently our representative man; when he spoke it seemed that people were listening to their own thinking aloud. The dignity of his thought owes nothing to any ceremonial garb of words, but to the manly movement that comes of settle purpose, and an energy of reason that knows not what rhetoric means.

Mr. Lincoln always addressed the intelligence of men, never their prejudice, their passion, or their ignorance. He was so strong and so persuasive in honest manliness, a civilian during times of the most captivating military achievements; awkward, with no skill in the lower technicalities of manners. He left behind him a fame beyond that of any conqueror; the memory of a grace, higher than that of outward person; and a gentlemanliness, deeper than mere breeding. Never before that startled morning did such multitude of men shed tears for the death of one they had never seen. Never was funeral panegyric so eloquent as the silent lack of sympathy from the Black man's soul, as they met together on the 14th day of February, 1865, to lay their friend and Emancipator away to rest. "The common manhood had lost a kinsman."

SCHOOL SITUATION

We all recognize the truth, that education, with proper facilities, is one of the greatest factors and fundamentals to clarify the vision of the young and help them to prepare themselves to think clearly and meet the grave issues of the future that will be sure to confront them. The child should have every opportunity and facility in this great commonwealth, and its educational institutions should be the best—giving all races the same training; and to all trained minds an opportunity to teach in the departments they are best qualified. There should be no discrimination in the faculty when it comes to selecting teachers for the public schools. The question is causing an unrest among our group because of the fact that the public school boards do not give our race an opportunity to teach in the city schools. Many of our race want separate schools because of this fact—a fact entirely out of the question. We need a united effort on the part of the race in Los Angeles to demand of the School Board a percentage of teachers.

We are almost impatient with the American idea of fair play and justice to those who have been ever loyal and true to the colors. We have always wondered why they selected all the text books that portray the characters of the white race and not one mention of any single deed done by the Negro. It is an injustice that will not hold good in the end. The time of discension and hoodwinking the people into the belief that only one race has been responsible for the establishing of a great American Democracy has past and the young minds are now craving for the truth.

TELLING A LIE.

There are many ways of telling a lie, but perhaps the most potent is acting the lie.

AMONG THE CHRISTIANS.

Men teach, not by their words, but by their actions.

"THE DAYS ARE EVIL"

Ephesians 5:16.

(1) The words carry universal agreement.

(2) It calls for universal concentration of thought.

(3) The chapter is a conclusion of the apostle's exhortation in the 4th chapter on brotherly love, enforced by the consideration of the love of God and of Christ toward us. He repeats His warning against uncleanness, covetousness, drunkenness and other vices and urges upon His hearer a contrary way of living. He exhorts to cordial relations in family life; and calling attention to the condition of the world, He advises that all opportunities be seized to live righteously, the days being evil. (The Test).

The conditions of the time. It is a rule among men to make comparisons of ane period with another in order to detremine the question of better or worse. It therefore becomes us to find out as well as possible just what were the condtions at the time of the apostle's writing. There were four distinct classes of people with which the apostle had to deal..

(1) Open violators of law and order.

(2) Nominal professors of Christianity.

(3) The undecided and timid lookers-on.

(4) The faithful few whom the apostle warns.

What are the conditions of the present time?

In gathering and sifting information as to the times in which we live, we have to look to four places.

The Government—Here we find a sad breaking down in three vital particulars, it is partial and discriminatory, and it is discredited by the great masses. This is the great cause of the unrest of the whole world today.Nomially the war is over, but as a matter of fact the world is in the throes of war today.

The Great Masses—From the Government we turn our attention to the every day people. The people that God loves, for as Lincoln said, "God must love the common people, he made so many of them". Here we find the death struggle between capital and labor. The onward sweep of Boslhevism. The deadly fear of anarchy, the daring of socialism, the now awful fight between the dry and wet forces, the fearfpl increase in crime (The days are evil).

Home—We turn to the home, and here it is the place where the nation is made, here is the place where the schools are made, here is the place where the armies and navies of the world come from, here is the place whence the Church, and the Sunday School take rise, here is the place where we make future mothers and fathers. Is there a place on earth more sacred than home? But, alas, here also we find a colapse, a breaking down of the man, a poor conception, and consequently a disdainful view of the honor and glory cast upon the woman. (Second) Then comes the strugggle of the woman to take whatever place the man is fitted for: and she has carried this so far that she is now assuming the very nature of man. (3.) Then appears the disavowal of leadership. (4) Disrespect of both wife and children, breaking down of the home. As you think today of a surety that the days are evil. shattered homes, you must admit gn-ty olyttt avet bakya'hm

Church—We turn now to the church. No man can tell of the beginning of the church, with the coming of man on the earth, came also the church. Not the outward structure in brick and morter, but the inward worshipper.

(1) Acknowledgement of a Supreme Being. (2) Acknowledgement of Him as Benefactor. (3) Ascription to Him as the maker and director of all things. (4) Acknowledgement of obligation to thanksgiving, and worship being paid to Him. (5) Acceptance of His divine laws, as being holy, just, wise and good. These are some of the main teachings of the churches, but they are breaking down The church teaches brotherly love, this is breaking down. The church teaches the new birth as a candition of membership, this is breaking down. The church teaches the observance of the ten commandments, who keeps them today? The church teaches ane day as theday of rest and for the worship of God, how is that day kept? The church teaches perfection. Is this observed? What a breaking down, what a breaking down. Therefore let us walk correctly, buying up all opportunities of holiness and usefulness, because the days are evil.

Now, it costs something to buy ink, paper, and pay men to stick type together and we have served overtime donating for the sake of the "party."

While we cling firmly to the Republican ship of state we see no reason why you should expect so much more from us than from others who are clinging, and occasionally being refreshed with a little financial breeze.

Now, all we ask, politically, or otherwise, is that you do unto us as ye would that we do unto you, and on this law rests all future political and otherwise favors.

MONTREAL MAY ALLOW JACK JOHNSON TO BOX

Montreal, Canada, Feb. 8.—After undergoing a rigid medical examination here and found to be in wonderful physical condition, the Athletic association passed a resolution favoring the granting of a license to Jack Johnson, ex-heavyweight champion of the world, to box in this city. He was immediately signed to a contract to box Homer Smith, the Kalamazoo heavyweight, here on Feb. 19. It will be remembered that Smith is the gent whom Harry Wills knocked out at the Queensboro stadium, Long Island City, N. Y., last fall.

The examining physician was particularly astonished at Johnson's low blood pressure and declared him much younger than his years. The boxing fans here are keenly interested, and still believe that Jack is a formidable fighter, and much better than scores of other boxers who go about the country fooling the public. A number of business men here are aiding Johnson to stage a comeback, and it is possible he may be seen in action here with Harry Wills or some other good boxer if he makes good with Smith.

THE POWER OF UNDERSTANDING

By C. P. Jones

"Give me understanding and I shall keep thy law, yea, I shall observe it with my whole heart".—Ps. 119:34.

In the daily Examiner of February 1st, I foud the following wise and true editorial.

"WHY WE HATE

"The only reason we hate is that we do not uderstand.

"Those we know we love. Those we do not understand we condemn.

"Many will deny this, but it is worth thinking over.

"Rabbi Goldfinkle relates the experience a traveler once had in crossing a mountain:

"'One morning', he said, 'when the mist hung upon the hills, I was going along my road, when I saw an object at a distance, which I took for a monster. When I came nearer to it, I saw it was a man; when I came close up to him, I found it was my brother.'

"Jews and Gentiles, whites and Negroes, pink-skinned and yellow-skinned men, French and Germans, looking at each other through the mists of bigotry, see but monsters. If they could only approach they would find them to be brothers".

What the Law Means

The law to the Christian is no longer a thing of the letter (II Cor. 3), but is a spiritual thing. It is all, to us, summed up in one sentence, "Thou shalt love thy neighbor as thyself", Ro. 13:8-10. Read closely Galatians 4th and 5th chapters, and this matter will become theologically clear to you. For the Gentiles get their theology from Paul, not from Moses nor even Peter, nor Matthew nor Mark nor Luke, nor John. Paul was the "apostle to the Gentiles... Eph. 2. Gal. 2.

Understanding Editors

But it is not of this we want to speak, but of understanding. The editor of the Examiner is right, deeply, wisely, bravely right. When the editors of our great dailies discover such truhs in their souls, truths so broadly conceived and enunciate them and act upon them and live up to them, better times are here.

The Power of the Press

In many respects the press is now more powerful than the pulpit in reaching the minds and souls of men, and in moulding sentiments. Regrettable as the fact may be, millions read the papers who never hear a sermon. And most men wore quickly heed the papers.

Love of Neighbor

"Give me understanding and I shall keep thy law." And what is that law when boiled down to its real essence? "To love one's neighbors as himself. And what does that mean when interpreted into action? "Whatsoever ye would that men should do unto you, do ye even so unto them". This is all that religion has to teach men; this is "all the law and the prophets".

Even our devotion to God is not to give God peace and happiness, but to make us happy by placing our souls in right relations to God and man.

Unless religion is used to promote love for our neighbor, whoever that neighbor may be, white or black, or yellow or brown, old or young, pretty or ugly, rich or poor, learned or unlearned, it is misunderstood and abused. 'Give me understanding". O, our God, be merciful. Make us understand.

Lack of Understanding—Pride

Our failure to forbear our neighbor in love, our refusal to take up the cross and follow Jesus in this matter, is from lack of understanding. Pride is an unbearagly ignorant thing, although it may be polished and Chesterfieldian manners. Even scientific knowledge and genius of handicraft are nothing when it comes to the problems of the soul and the peace and happiness of man. Give me understanding. Give me understanding.

Vision Needed

Give me understanding and I will see the way of Christ to be right the doctrines of Christ to be true and practicable.

Give me understanding and I will see the ugliness of pride, the emptiness of folly and the eternal reward of seeking and pursuing peace. Give me understanding and I am fit to live with. Without it I am no.

God gave Davis an undersanding. It saved him from his sins and crowned him with glory and honor. God gave Solomon understanding and it made him the most illustrious king of all the ages. God gave Paul understanding and tho it made him a martyr, he was a ready and willing one and how richly thru his Master, Christ Jesus, he has lived and shone all down the centuries.

Mohammed used the sword and spread his faith, a sensual, selfish thing. Paul used self denial and moral suasion and spread the doctrine of the Christ-life "from the river to the end of the earth". Men are hated to Mohammed and frightened there by the sword; they are loved to Christ, and so saved forever from selfishness and sin. Give me understanding. Let me obey the Lord and with all my heating let me get understanding.—Amen.

RED TOP TAXI COMPANY

RAY HENDERSON TO HEAD RED TOP TAXI SERVICE

Probably the biggest and most commendable business enterprise of its kind among local Afro-Americans was launched this week by one of the best liked and most intelligent young business men of our city, Mr. Armour Reymond Henderson, former president of the California Chauffeurs Club inc.

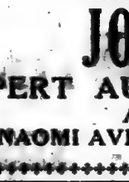
To Mr. Henderson, or Ray, as he is known to his many friends, goes the credit for installing in Los Angeles the first real bona fide taxi cab company equipped with taxi cabs of the latest style, taxi meters and Race men bonded and uniformed holding state and city license as drivers.

Starting with four of the latest Shaw Taxi Cabs, elegantly equipped with the famous 24 horse power continental motor and beautifully finished body in red and white with a capacity of six passengers, the Red Top Taxi Service with its "courteous, capable and careful" drivers promises to rival any of the big companies up town and with Ray Henderson at its helm "twenty cars instead of four is the company's ambition by January, 1925. Get ready to call a Red Top.

TRAFFIC

Traffic officer Rubin Scott, who is one of the new 12 colored officers assigned to the traffic squad recently by chief Vollmer had the following brief remarks to make in a recent interview regarding traffic: "Traffic today is the most discussed subject before the public.

The council, police department, automobile association, car owners, in fact every one is trying to suggest some feasible solution of the over crowded traffic conditions resulting from the rapid growth of the city. To my mind there are two avenues left that if used will greatly assist in minimizing accidents and speeding up traffic in general. First, everyone must learn to realize the fact that the most direct route at times is the longest and that instead of going down the first street, if he or she will just try the next one to that they will perhaps arrive at their point much sooner.



Second, patronize the many business centers surrounding the vicinity in which they live instead of everyone rushing eight or ten miles to make it to Seventh and Broadway. Los Angeles is large and has lots of room and if every one uses more space instead of trying to patronize certain streets, traffic conditions will be made much easier on us, traffic men and the public better served."

As soon as possible make it your buiness to secure a copy of the new traffic ordinances recently passed by the council unless you have more money than sense.

Grade crossings are the most deadly enemies that the automobilist has, so don't be in too big a hurry as tomorrow may find you in jail or at home. Remember, "Stop, Look and Listen". Flowers are somewhat scarce and run high, so be content if you haven't but one car.

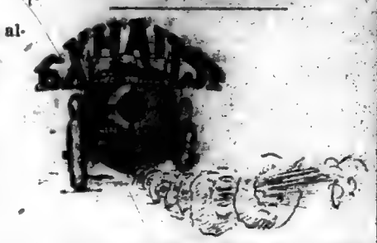
When you speak of Taxi service, always say Elite Taxi.

SCHOOL STOPS

The recent law compelling all motor vehicle drivers to come to a complete stop at certain places designated by white lines drawn on the pavement and during certain hours of the day is very good indeed, but like all new laws it has some parts that could be improved upon.

For instance, if the city or the Automobile Club would provide the schools with a marker similar to the ones that are placed in the Safety Islands in the downtown sections of the city, and instead of having them marked "Keep to Right" have them marked "School-Stop" and have one of the older pupils of the schol set them in the center of the street about half an hour before time for school to convene, it would prevent a lot grinding of brakes suddenly and burning f rubber.

tothofeg avong aeoch ingos pthityEp;



It is next to impossible for a driver to see the places that are marked out until he is right up on them and then if he isn't very careful, some one is liable to run into him from the rear as he too probably did not see that there was a "School Stop" there and was not expecting the driver ahead of him to come to a sudden stop.

It doesn't seem entirely fair to the driver to have to stop during the hours that the children are in school, consequently if the markers were only put out during the periods that the children are actually going from and to school, I believe it would meet the hearty approval of all motorists that are trying to obey the law.

be proved that the world's greatest artists along all lines have very seldom been endowed with wonder talent. One finds that, for the general rule, the ordinary sentiment has reached the highest development. For instance our criticism of Roland Hayes has been seconded by Pierre Key in his article in last Sunday's Times. For the benefit of our readers we are giving the item in full.

"An interesting sentiment is spreading throughout this hard boiled city over the coming recital of Roland Hayes, as readers of this column may recall, is a Negro tenor singer. Until recently his name was not over-well known hereabouts. Those who make a practice of keeping informed about music and musicians were aware (prior to his first New York recital in several years) that he had been making somewhat of a stir in Europe, principally in London. After that appearance, before holiday-time, came a second one. Thereupon the name of Hayes came to mean a very specific something whenever and wherever it was mentioned. The latest recital sung by this remarkable artist was in Town Hall; the forthcoming one is to take place in Carnegie Hall, where there are considerably more than twice the number of seats. We are curious to discover whether they will all be occupied on the basis of tickets purchased to secure them.

"Hayes presents an object lesson for young people ambitious to make careers in music. He started with a voice of agreeable quality, but it was not an exceptional voice as most people regard voices. It had not, for example, great beauty of quality, or power, or anything else of outstanding character. It was serviceable and as we have stated agreeable.

"Then young Hayes went to work in a studio of a Boston singing master. He used his time outside that studio to advantage. In the course of a few years he made his first semi-important public appearance somewhat satisfactorily. New York heard him, somewhat later, and approved of him. He was the best singer of his race who had been discovered in several years, but there were other concert-singers (caucasians) who were regarded as, and who probably were, his superiors.

"Several years have lapsed. Hayes must have made the utmost of them, for he came back an artist of the foremost rank. It was instantly discovered that his European triumphs were not accidental. He had something to offer. He is not one of the school of shouters. Simplicity, sincerity and spirituality are his three distinguishing traits".

Some of the things that our people must learn are: great noise in a speaker, singer, player or preacher is not great art; a great voice is a gift but it is not necessary to make an artist, and that work, hard work is the only secret of success. When we realize this and can appreciate the efforts of our embryo artists we shall be on the highway of culture and equality with other groups. Until that time we have no right to clamor for the respect and consideration due a group that supports and develops its cultural side.

HIGH SCHOOL NOTES

By William Nevison

Jefferson High, the weak-sister of the city league, should have a banner year this season. With the addition of several new baseball stars, and in early start such as they are having, and the fact that they always have a fairly good baseball team, they should give a very lively account of themselves in that line of sport. Jimmie Sims, star second sacker on Long Beach's nine last year, should be a great asset to the Democratic pill-slingers. Sims is also a heavy hitter of no mean ability.

In track, "Jeff" has a new sprinter who hails from Vernon Special in the person of Jim Harris. Alon with Archie Woodyard, the fastest moving thing around these parts, and "Spark Plug" Williams, Jeff will have a trio of sprinters that will knock down many points. Other men who should break into the point column this season are: Bill Bisco in football fame; in the discus; Bob Jackson in the quarter-mile run; Ocie Gresham and Wally Markham in the mile; Levy, Barnett, and Sam Smith, relay team men; and Jack Prayer, also of football fame, in the quarter mile. So. Branch University Student Takes Manly Stand

AGAINST UN-AMERICAN SPEECH

Knowing that it is said that public opinion rules this country, and realizing that public opinion helps to rule it, we feel that the public should be acquainted with certain vital and poignant facts.

The University of California at Los Angeles has a student body of about four thousand persons. Approximately thirty of these persons are black Americans. The University of California is largely supported by the taxes of the people. The last fact mentioned means that the black Americans of this city, thru their labor, are proportionately responsible for the existence of a state university.

The regents of the University, the governing body, are supposedly, the representatives of the will of the people. Of this body of regents, the Hon. Mr. Hayes, of San Jose, is the next to the youngest member. He should represent every type of the noble State of California.

On the anniversary of the birthday of Abraham Lincoln, the Hon. Mr. Hayes addressed the student body of the Southern Branch, a democratic and cosmopolitan group, representing the young manhood and womanhood of all classes and races of America. His subject was "The Greatest American—Abraham Lincoln".

On the evening of the same day, honornig the same occasion, Mr. John Stephen McGroarty addressed the group, largely sectarian, at the Knights of Columbus auditorium. Not a Black American was present. Yet Mr. Groarty eulogized the Negro and lauded him to the skies; everything he said was on the basis of fact. It is said that he brought forth facts honoring the black man that black men never learned. To Mr. McGroarty, poet philosopher, free agent under obligation to none, we owe a debt of gratitude.

But to the Hon. Mr. Hayes, member of the Board of Regents of the University of California representative of the people, honored by their labor, and supposedly in his position to exercise discretionary powers, we can never write his address. In spite of the truth that Abraham Lincoln is remembered by the mass, not because he preserved the Union, but because he freed the slave, the only mention made of the black man within the entire discourse of Hon. Hayes, was in a story of chicken stealing, where the Negro was "darky" and his occupation was thief. He not only said "darky" once, but said it an unusual number of times and, at the end of is little bit of humor he attempted to present a bit of Negro dialect. It was amateurishly presented.

We would not presume to censure or critise any action of Hon. Mr. Hayes, but the reaction, redounding to the degrogation and humiliation of some thirty Negro students, sitting in different parts of the auditorium, surrounded for the most part by their white classmates, smacked of every thing that would tend to do discredit and dishonor to the Negro, and of nothing significant of the Democratic principles of the University of California.

Hon. Mr. Hayes may not see the point; for his edification we will cite two examples: A young lady, hitherto unnoticed, became immediately the object of scorn, sneers, giggles, remarks, raising of eyebrows, etc., until her embarrassment and humiliation became almost great enough to drive her to tears. The writer, sitting far from her, was sincerely humiliated by the too effusive humor of his white associates. The possible conditions arising from such a talk are easily seen by any one of normal intelligence.

We would request of Mr. Hayes to not so address a student body again. We would ask the University of California to post speakers previously as to their appearance as to their audiences and the use of tact (the general mind is easily impressed). We would beseech the community to think upon these things and to take more interest in its power its university, and its students.

Who Is Responsible?

We feel like asking "Is there any punishment too great for a man or men who would sell the women of their race into immoral slavery"?

Two years ago when we visited Stockton we observed that it was impossible for a strange colored woman to walk the streets of this fair city without being subjected to some form of insult.

While visiting the churches we endeavored to call the people's attention to the fact that the only thing that Negroes in that section had commercialized was vice, and if things were to go as they appeared on the surface, there would come a time when the old settlers of the reliable, industrial class would greatly regret that they did not take a hand in a much needed house cleaning.

Now here comes the "Stockton Daily Independent" of Wednesday, February 6, with this front page header.

Arrest Negro Woman As Vags
11 Taken Into Custody in Raid on Colored Section of City

"In a raid by the police on the Negro quarter of the town yesterday 11 colored women were arrested and charged with vagrancy. They were later released on $100 bail to appear before Police Judge Warren H. Atherton Thursday. Their appearance in court will be demanded, it was declared, and bench warrants for their arrest and appearance in court will be issued should they fail to be present in court Thursday.

The eleven women gave their names as Ida Drisden, 30, Helen Duvall, 28, and Stella Overman, 28, all of 305 South Monroe Street; Edna Hopkins, 37, and Ethel Moore, 27, of 412 West Main Street; Beadie Turner, 40, of 32 South Van Buren Street; May Woods, 37, of 345 West Market Street; Jeanette Chapman, 31, of 46 West Market Street; Pauline Murphy, 25, of 130 West Market Street, and Anna Alexander, 23, and Billie Jackson, 28, of 42 South Madison Street.

Starting at Center Street and moving west between Main and Washington Streets, the police squad arrested every woman known to be a vagrant and raided many alleged disorderly houses. The drive followed an influx of vagrant colored women into Stockton, and is the start of a drive to clean the city of vagrant women.

The raiding squad was composed of Captain of Detectives C. O. Smith and Officers Clarence Fredericks, F. J. McHugh and C. Fred Tros.

And this unsigned statement written on the margin of said paper—"All of these women are from Los Angeles, Oakland, and Pasadena. They come here, and make it hard on the rest of us. The Negro men come first, get places for them, and they tell people they are visiting. So you see what they are doing. The Negro men tell them to deal with white, Mexican, or Hindu men, in fact anything but colored. They are disgracing the race running out into the streets grabbing white men trying to pull them in.

We don't want this low class of Negro men and women up here. They had better stay away."

In answer to this protest we suggest that the colored citizens of Stockton who stand for decency demand of the authorities of that city that these immoral lepers be driven out and along with them drive out also those higher up who stand between the law and common decency in their own residential sections for a paltry sum.

A STIRRING GOSPEL MESSAGE

Evangelist Elizabeth Lenwood Howard, who, but a few weeks past so stirred Los Angeles that the enthusiasm of her gospel message is still simmering in the hearts of those who appreciate a deeper gospel message impregnated with what helps man to live better from day to day is holding forth at Watts this week, and is said by those who have heard this powerful woman pulpiteer to be truly the work of the Master.

"The voice of Mrs. Elizabeth L. Howard, which is being heard nightly at Grant Chapel A. M. E. Church is as putting new wine in old bottles. She is logical, forceful and convincing. You will do well to hear her. She speaks each night. Those who will avail themselves of the opportunity to hear her, will receive a message of rare importance.

The voice of Mrs. Howard pleads for a higher Christian perfection. There is no voice in the church today that rings more clear and distant than the voice of Elizabeth Howard.

Among the testimonials that come concerning the effort of Sister Howard is this one from Ohio, which we are publishing because it appeals to reason.

Portsmouth, O., Sept. 10, 1923.
To whom this may come:—

In times like these when the forces of darkness are arrayed with so much subtlety and deception against the influences of life and light, when materialism is sapping the life blood out of the church. It is refreshing to hear a voice of hope and good cheer, a voice that rings out for the highest possible Christian ideals and thunders against the castle dome of wrong. Such is the voice of Mrs. Elizabeth L. Howard of New York, as evangelist of rare merit and power. Hear her.

BOOKER T. WASHINGTON, JR., STIRS UP HORNETS NEST

The following article appeared in last Sunday's edition of the Los Angeles Times. Further comment is unnecessary as said article state facts in brief, and every fair minded reader, black or white must certainly commend Mr. Washington for the brave and fearless stand taken in a matter which not only interests himself, but the race as well for after all what affects one affects all.

Six months or a year ago, Mr. Washington, in Sierra Madre may, we hope, give those who have seen fit to try to make it unpleasant for him and family, an opportunity to study the Negro question somewhat at first hand and pave the way for those who are swimming in both ignorance and prejudice to realize the skin has nothing whatsoever to do with one being respectable, and entitled to respect. It may, we hope, as has been the case in other places where the same trouble has arisen, prove to the objectionist that the Negro is not only a Negro, but an American citizen, and too, more than that, a man, despite the fact that he has suffered 300 years of subjection, humiliation, and been amalgamated by the same fellow; who, as Chandler Owen has stated, practices social equality at night and stirs up race hatred in the day time. And to such an extent that at times you can't tell where the Negro begins and the white man ends, and as such, he is entitled to at least, if nothing more, to reside in the beautiful section of a respectable community commensurate with his means, where his taxes have helped to pay for street improvements, electric lights, gas and installation of sewer mains in preference to being segregated and pushed back to live in grave yard hollows, stockyards, and manufacturing districts, where street improvements are unknown, sewer drainages the vilest, health conditions the most unsanitary. As long as we as a race accept these conditions and continue to see our tax money go to improve white districts, and make no just protest, just so long will you be considered a Sambo, and your place, it matters not what your financial status, is the dog house.

COMMITS ATROCIOUS CRIME

COLORED YOUTH OF VALLEJO CALIF. PROVES TO BE FIEND INCARNATE

By: O. M. McCRUGGS

On Sunday, February 17th, Vallejo awoke to record upon her history the most fiendish and atrocious crime ever perpetrated in the State.

At 109½-rear Carolina street lives a mother (Mrs. Mildred Oliver) and her six children, four boys and two girls; the mother and larger boy laboring daily that the family might have the common necessities of life. But while this little family group was enjoying as best they could life in its fullness, a thief, a robber, a murderer, a brute in human form, violated the sanctity of this home, and with a nickel and [illegible] a big [illegible] doll lured sweet little Rosie who was but six years old to an old shed in the rear of a vacant house in Kissell Dark Alley and there committed a murder unparalleled in the annals of crime.

When little Rosie failed to get the Big Mamma Doll promised to her on entering the shed her human instinct sensing danger and foul play taught her to scream, whereupon Marion Taylor, a twelve year old Negro boy of Napa city, proceeded to strangle her to death and while the gentle zephyrs of the evening bore her sweet little life to that Great Beyond, stripped her of every vestage of clothing, even removing the shoes from her feet, and accomplished his brutal purpose.

After satisfying himself that his victim could no longer make an alarm, he proceeded to make his futile escape. He walked sixteen miles to Napa, his conscience troubled him so that he returned to the scene of his crime, wandered around the outskirts of town until dark and was picked up at the three mile house by a motorist and carried to Napa.

The mother soon after three o'clock began a systematic search of the neighborhood and soon after day break Sunday morning in a shed in the rear of a vacant house the naked body of her little girl was found clothed only in Tulie Mud cold in death. Swiftly the machinery of the Law was put into action; the finger of suspicion pointe dto a colored boy as the police were informed by some of the residents in the vicinity of the Oliver home that Marion Taylor of Napa had been seen in the alley Saturday morning. Bit by bit the cloak of guilt enfolded Taylor, and by 5 o'clock Sunday morning he was apprehended in hiding near Napa and returned by the Vallejo officials. When carried to the scene of his crime he broke down and confessed, explaining every detail even to the position of the body, and where he did the clothes, stating that when he left the shed on Saturday noon the child was "still."

The writer interviewed the boy in the City Prison in company with a Committee of five from the N. A. A. C. P. Vallejo Branch. He stuck to his confession with little or no air of concern as to the enormity of the crime. He stated that he had been taught to do bad things while in bad company. Mrs. Oliver has lived in Vallejo for nearly a year, coming from McCloud, California and has been confined to her bed for four weeks. With this grave burden (next week) before her she has been rendered unconscious and is now in a grave condition.

Much credit and praise is due Mrs. M. G. Gordon who so unstintingly labored from twelve o'clock Saturday midnight until late Sunday afternoon and was instrumental in the apprehension of the prisoner at Napa.

The Vallejo Branch is functioning every angle of the crime, and pledges support of whatever nature to the family. Characteristic of themselves the Colored citizens of Vallejo, the churches and various organizations have rallied to Mrs. Oliver's support.

Police Officer Makes Daring Arrest

Officer F. E. Corley

BANK BURGLAR CAPTURED

Officer F. E. Corley Led Daring Chase Down Central Avenue

Mr. M. Huggins of te Commercial National Bank Says Officer Cause of Arrest

About 2:00 p. m. Monday afternoon Central Avenue at Seventh was the scene of another daring bank robbery when DeGrove Bullock, a young man of 22 years staggen a holdup by entering the bank and giving Assistant Manager, Mr. Huggins, a note through the window, demanding all the money within his reach. Mr. Huggins complied withe the demands after being confronted with an automatic pistol. The robber obtained $1,858, and with gun drawn backed in to the street. He ran to a taxi cab, and, pressing the pistol to the driver's face, ordered him to drive away.

Mr. Huggins ran out of the bank into the street and reported the robbery to officer F. E. Corley, traffic officer at the corner of Seventh and Central, who fired several shots at the fleeing taxi cab. After jumping on the running board of a passing car, officer Corley gave chase down Central Avenue until the robber leaped from the car at Sixth and Gladys and ran to a restaurant on East Fifth Street. When the robber left the restaurant an expressman summoned other officers to help in the chase. The robber ran to St. Francis Hotel and up to his room; where the officers recovered the $1,858 hidden in a water pitcher. He was hiding behind the door when the officers entered the room. Before being taken to jail he is said to have made a confession.

In getting this report from Bank officials of the Commercial National Bank, its Assistant Manager, Mr. M. Huggins, has this to say about the prompt action of officer Corley in making the capture:

"Too much praise can not be given officer F. E. Corley for the part he played in the affair. We would not have made a successful capture if not for his bravery, and we want the people of Los Angeles to know that we appreciate to the highest the remarkable courage and bravery shown at so great a crisis".

MYSTERIOUS DEATH

Mr. Lewis was taken from the studio to the Receiving Hospital in an unconscious condition, and he did not regain consciousness before his death.

ASSAILS KLAN PRAISES N.A.A.C.P. OVER RADIO FROM PROVIDENCE, R. I.

In a Lincoln's Birthday address broadcasted by station WJAR, one of the most powerful radio broadcasting stations in the country, Robert W. Bagnall, Director of Branches of the National Association for the Advancement of Colored People, sent the Association's message out from Providence, Rhode Island. Mr. Bagnall's subject was: "How to Preserve the Spirit of Lincoln in American Life", and his address was part of a one-hour program arranged by the N.A.A.C.P.

Mr. Bagnall pointed out that the Emancipator had stood for equal opprtunity and equal justice fr all. As against this broad spirit of intolerance, the Ku Klux Klan has banded itself together, not to obtain more rights for its members, but to deny right to others. On the other hand the N.A.A.C.P., composed of both white and colored people was working in the spirit of Abraham Lincoln, for the rights of all people irrespective of race, or creed or color.

Following his address Mr. Bagnall has received a letter from Thomas W. Bicknell, of Providence, by radio. I cheered but you did not hear.

"In 1860 I was a student in Brown University and a member of the General Assembly of Rhode Island. My first speech was to open all schools in Rhode Island to Negro Children. In 1863 all schools were opened by Lincoln's Emancipation Proclamation. My life has stood four square with your purposes and arguments. The day of Deliverance is not far off. po relW resshst ctoand

"My dear Mr. President:

"I am taking the liberty of writting to ask clemency for the fifty-four soldiers now confined in prison for participating in the Houston, Texas race riot in the fall of 1917.

CLUB NEWS

Mary E. Reed

A resolution was adopted unanimously by the Los Angeles District, California Federation of Women's Clubs that representatives and agencies of our government be urged upon that nurses properly accredited by duly constituted authorities be recognized as belonging to a profession rather than a trade or occupation.

Mrs. Nancy Warner will be the speaker at Sojourner Truth Club Educational Day, Monday, February 25th at 2:30. Mrs. Warner is a returned missionary from Africa, having been sent by the Missionary Board of the Methodist Episcopal Church. She has lived in Africa for many years and knows whereof she speaks. All were invited to hear her.

Los Angeles Woman Honored in New York.—Community Theatre For Harlem is Object of New Organization

Again Harlem, Colored New York, leads off with a new Negro enterprize. This time a community theatre, where Negro talent will receive due consideration, and impartial recognition.

Perhaps this is the most gigantic movement made directly in the interest of race artists, and the phase of it that is most interesting to Angelenos is the fact that our very own Mrs. Eloise Bibb Thompson is an important member of the staff.

At this time Mrs. Thompson is in New York improving her talent as a short story and senario writer.

PROMINENT ANGELENOS TO PATRONIZE EFFORTS OF YOUNG COLLEGE MEN

If the heavy advance sale of tickets for the College Hi Jinks at Gamut Auditorium, Tuesday evening, February 26th, can be taken as a sign of public interest, then the affair is destined to be a brilliant success.

Following is a partial list of the patrons for the program given by the local chapter of the Alpha Phi Alpha Fraternity on the above date:

Mr. and Mrs. C. E. Conner, Mr. and Mrs. Robert C. Owens, Miss Manila Owens, the Hon. F. M. Roberts, Mrs. F. M. Roberts, Dr. J. A. Somerville, Dr. Vada Sommerville, Mr. and Mrs. Felix Waugh, Mr. Webb King, Mr. Sumner M. Thompson, Mrs. Beatrice Thompson, Dr. and Mrs. R. R. Robinson, Mr. and Mrs. G. P. White, Mrs. Edna Stuart, Mr. and Mrs. W. H. Patton, Mr. and Mrs. Lee C. Allen, Dr. and Mrs. E. C. Nelson, Mr. and Mrs. Hermon Davis, Mr. Jimmie Smith, Mr. Ralph Porter, Mrs. Laura Bragg, Miss Gertrude Chrisman, Miss Bessie Blunett, Attorney and Mrs. Clarence Jones, Dr. H. M. Fairs, Prof. and Mrs. J. C. Banks, Mr. J. C. Banks, Jr., Mr. and Mrs. Lawrence C. Parker, Mr. and Mrs. J. B. Bass, Mr. and Mrs. Morgan Robinson, Hon. Noah D. Thompson, and other prominent personages.

The young men should receive the encouragement of the public in their venture and are prepared to render a pleasing program.

HIGH SCHOOL NOTES

By William Narcisse

The interclass track meet at Jefferson was held last week at which time many race lads priticipated. The 100 yar ddash was won by Williams, alias Tack or Spark Plug, Harrison pulled down third place; in the half mile, Martin was second and Gresham third; 220 yard Hawkins second; 440 yard run, Jackson, second; High jump, Hawkins and Manson finished first and second; shot put, Bisco and Manson, first and second respectively. Interclass meets are open only to novices, boys who have not earned a letter. The purpose of these meets is to secure and develop varsity material. If a mediocre athlete does fairly well or shows some promise of becoming useful to the tract team, he is kept under the surveillance of the coach. With the coach's help and some good, hard, and earnest training, the boy who was once mediocre, can become a point winner.

Tommy Myles, captain of the Roosevelt High track team, won the 100 and 220 yard dashes against San Pedro High School, Thursday.

Last Saturday at the orange show and relay carnival in San Bernadino, Lincoln High School won five out of a possible six relays, and took six of the light cups, Floyd, Duncan, and Salsberg were on the relay teams, and ran some fast laps. In addition to running on relay teams, Duncan, captain de luxe, took third in the open 100 yard dash.

Jefferson's track team defeated the Downey High tracksters 73-40, last Tuesday on the latter's oval. Bisco won the discus with a heave of 103 ft. 10 in.; Woodyard won the century with Harrison a good second; half mile, Gresham second, Markham third Levy second, and Smith third in the 220 yard dash; Harrison placed second in the 440 yd. run; Davis was third in the broad jump; and Tiny Prayer copped second in the shot put. The relay was won by Jeff. Levy, Williams, and Woodyard and a white boy composed the relay team.

The purpose of this campaign is to start the high school boy in the right direction towards his life's work. After the boy fills out the self analysis blank, he is interviewed by some one who is already interested in his line of endeavor.

Assemblyman Fred Roberts delivers the address of the evening. his subject is "Life Preparation."

Pioneer News

The Pioneers were favored with an address by Prof. P. H. Moss. Field Secretary ofReligious Education. His subject was based on Physical efficiency, which was enjoyed exceedingly by the pioneers. The Pioneer club meets at 5:30 p. m. at the Y. M. C. A. every Tuesday. All boys between the ages of 9 and 15 years are eligible for membership.

DANNY EDWARD LOSES TO GOLDSTEIN IN NEW YORK

Little Danny Edwards, the best race bantom weight developed on the coast since the days of Bubbles Robinson was defeated in a ten round bout with Abe Goldstein last Thursday night at the Pioneer Club, New York, which strengthens Abe's and weakens Danny's chance of a crash at Champion Joe Lynch. Edwards has lost five and drawn six and won fourteen battles during his two years of Eastern campaigning.

IN THE MUSIC WORLD

By John A. Gray

Now that Los Angeles is going to have an Opera Company of its own, and that it will be equal to the New York and Chicago Companies, we ought to feel proud that our city is moving up to the ranks of the other great musical centers of the country. This means greater opportunity for the musical student, especially those of our race.

With a permanent orchestra and symphony all other things will easily follow. Schools, colleges and teachers will grow naturally in order to meet the demand.

Perhaps the greatest help that any student can have is the chance of hearing fine music sung or performed by great artists. It is worth a dozen lessons from a teacher.

With all these opportunitnes right at our door we should produce some very worth while singers and players within the next decade. Yet if we measure the future by the past, the outlook will not be very encouraging. Take New York and Chicago for example. These two great centers of culture have not given us the race musicians that they might have given, if our boys and girls had made the most of every opportunity afforded them. But the worst part is that the community at large is not musical. New York with its great colored population is not musical as Los Angeles with its small population. We mean that Negro schools, teachers and performers of the higher sort are not supported in the manner that they should be. Music as an art is not on a level with the theatre and drama, etc., that one finds in that city. The race seems to profit little from the culture and advantages around it.

Why should not Los Angeles produce, within the next ten years, at least one singer of the calibre of Roland Hayes, one pianist of the calibre of Hazel Harrison, and a host of artists of lesser attainments? The opportunities are here, the young people simply have to grasp them.

There is a real future in music for the boy or girl. Great artists earn from two hundred and fifty dollars to one thousand dollars or more for a single recital. But to be a great artist one must begin when young. A virtuoso technique on the piano or violin is difficult to obtain after one has reached the age of seventeen or eighteen. A singer must know music, should know how to play the piano, and must know several languages besides having a good general education inorder to become a great artist. Now is the time to start while the body and mind are young.

Parents you are justified now in sacrificing in order to give your boy or girl a musical career. Don't fail to grasp these wonderful chances right at your door.

CALIOFNIA POPPY ART AND SOCIAL CLUB

The California Poppy Art and Social Club met at the residence of Mrs. Sarlene Houston for their weekly meeting, 2344 E 24th Street, under the auspices of our art instructor, Miss Elizabeth Hairston. The club is progressing on their newest plan. After the business the hostess served dainty refreshments.

THE MONKEY IS ON THE MAIN LINE

Lula Lewis

A few Sundays ago, while listening to a very fine program at the N. A. A. C. P. A. conducted by the Federated Women's Clubs this joke concerning the monkey was related by a certain gentleman. He stated that a certain engineer had, in the past, carried with him a pet monkey on his runs who observed all of his master's actions in working his engine. One day the engineer stopped at a nearby eating house leaving his pet monkey in his cab. While alone, the monkey thought he would try running the engine, so he threw open the throttle and away went the engine at top speed. When the engineer returned all he saw was smoke and dust, so he stepped in the telegraph office and telegraphed ahead saying, "Clear the track for the monkey is on the main line."

As the different questions of how the Negro could be helped to be a better citizen and how he could best serve as a blessing instead of a curse. For this condition of which I am about to speak is one of the great drawbacks of Los Angeles, a dastardly act which is capable of destroying unconsciously more young people than any one act which one part of our group can inflict upon the other and it is this, uppishness, snobishness, and self-conceit. And at this meeting there was also being discussed an article in the Daily Times concerning some segregation idea of some one of the other group. But I could not voice my sentiments in the matters discussed because I too, am a stranger in your midst, only having lived here one and a half years. But I can say this much for your fair city, the climate is ideal ,the Colored man is thrifty, business among you here seems to compare favorably with any city which I have visited and I have visited and I have met many good Christian people here but I have also found in your midst that green-eyed monster of jealousy, envy and hate in the wake of which travels that erronious idea of big "I" and little "u"—"no one is quite as good as I am."

Stop and think awhile, the stranger may be as good as you are, or better. God says, "Be careful of the stranger within your gates lest you entertain the Master in disguise." I speak from experience not only for myself but for many others. In your midst there are a high opinioned few who seem to think they should be honored and looked up to. Some no doubt own homes, some autombiles and a few small bank accounts, some higher education and some paying positions which they seem to think places them on such a high plain that the rest of us should bow our heads in recognition of their greatness. Great is as great does. I may be poor, I may be ugly and curved as it were by poverty but if I have character though I may be a stranger, I too, am great in the sight of God.

I do not believe that we should take into our homes every stranger that comes to town and make a social pet of them without first finding out who they are but we can welcome them into our churches and religious organizations and make them feel at home until such time as they have proven themselves unworthy.

I attended a religious meeting and was received very graciously of which I felt very grateful because I too was of the same faith. On going a second time with the intention of placing my membership with said organization I was met with that high headedness of having to be introduced anew apparently no one had ever met me before. I was a stranger, a poor widow woman. So I was not worth recognition. With sad heart I went home and paid them no more visits. It is just such actions that turn many a young woman to shame and destruction, and yet, no doubt, she has been all of her days in the best society in her home but having for some reason to come here unacquainted and having no one to introduce her has been scorned and been looked down upon in such manner that she finally makes up her mind not to bother these self-styled upperclass but go where she will be treated kindly and that is the class which is always waiting to welcome and drag her down. For myself I ask no favors of Los Angeles as I am preparing to return to my home in the Mid-West where we teach all men up and no men down but I am pleading for those who have to remain among you, be charitable to them and as you climb the ladder of success encourage your brother to do likewise. Aim high and not low and if you find among you anything that is sick with self conteit do not call in the elders of the church to lay hands upon them but rather call in the greatest doctor of the universe "Doctor Common Sense" and he will aid them to clear away the rubbish of conceit from the tracks of intelligence and thereby keep the monkey from getting control of the main line.

Where to Attend Church

WEST SIDE MISSION A. M. E. CHURCH

1569 W. 36th St.
Major G. W. Prioleau, Pastor

The services at the Mission last Sunday were all that could have been desired. Eighty-two were in attendance at Sunday school. Two new teachers offered their services. They are Miss Lucy Lewis and Mrs. Anna Brantley.

The pastor preached to a splendid audience at the morning service. Two were added to the roll. The chalk talk in the afternoon by Mr. McArthur to the A. C. E. League was a grand treat.

On account of circumstances over which we have no control the Missionary Mass Meeting as announced was postponed, but the Rev. Mr. Miller, a non-denominational Evangelist and Mr. McArthur conducted Evangelical services and to say it was a great meeting would be expressing it mildly. The presence of the Holy Spirit was greatly in evidence. Seven held up hands for prayers and one joined the church. The meetings will con

continue this week. Come out on Sunday morning.

WARD CHAPEL A. M. E. CHURCH

1252 East 25th St.
Rev. B. R. Guy, Pastor

Services are still interesting at this church. Last Sunday the Sunday school was well attended and donated $10.00 to the trustee department for books and tuneing the piano. The morning services were well attended with a large crowd, and the pastor spoke very interestingly from the text "Create in me O God, a clean heart, and renew a right spirit in me." Both endeavors were well attended, and had good lessons. At night the pastor spoke from the text "Lord, it is good for us to be here". We were favored with the presence of Rev. C. N. Douglass, an ex-Presiding Elder of the Puget Sound Conference, who made excellent remarks.

The church and Sunday School collected more than $22.00 for books. Next Sunday will be trustee day. Every member and friend please bring 50 cents or more, for the trustee department.

WESLEY CHAPEL M. E. CHURCH

8th and San Julian Sts.
Rev. A. P. Shaw, Pastor

Sunday was an unusually good day at Wesley. At the morning hour, good seats were at a premium. The congregations at Wesley are wonderful. The pastor's morning sermon was one of unusual spiritual power. Four persons united with the church.

This Sunday will be a great day. It is monthly Dollar Day on Repairs and will take the form of a friendly contest between the Old Timers and New Comers. Great interest is being manifested and great raults are expected. Every member and friend is urged to be present at one of the services during he day. The pastor promises two great sermons that you cannot afford to miss.

Special music will be rendered by the Choir. One of the features will be special selections by the Old Timer Singers and the New Comers sinners. The evening song service be unusually interesting and well worth hearing. Don't you believe it? Come and See!

A reception will be tendered Bishop Kyles by the church on Friday evening, Feb. 22nd. The public and all Christian bodies are cordially invited. Fine program and every thing free.

Last Sunday was a gala day in Zion—Rev. Shaw preached two excellent sermons. The morning text was found in St. John 1:42—"In my Father's House are many Mansions." The evening text: "What Must I do to be Saved?" Acts. 16:30.

MT. ZION BAPTIST CHURCH

Rev. Archie Williams, Pastor

On Sunday, February 17th, Rev. Archie Williams preached an inspiring sermon on "What is victory?", II Cor. 14, at Second Baptist Church, at Long Beach. There was a good attendance present, and an enjoyable time was spent. Choir practice every Friday night under the direction of Rev. Williams' direction. Miss Ollie May Burton renders a solo every Sunday.

HAMILTON M. E. CHURCH

Cor. E. 18th St. and Naomi Ave.
Rev. S. M. Beane, Pastor

The pastor occupied the pulpit at both services on last Sunday and preached two splendid sermons: the morning subject being, "God is Love". At night there was a special program in honor of Lincoln, and the pastor preached a sermon from the subject, "The Negro and the New Day". Both of these sermons were much enjoyed by the large number of persons present at each of the services. Sunday School and the League and are doing well in the services that they are rendering. Enthusiasm runs high at each of the services. Many delightful things are in store for the folks of the community and of the church in the very near future. So it will pay you to keep a lookout on what is to happen here at this fast growing church. You will always find a cordial welcome here .It is the "Stranger's Home". Come and see.

TABERNACLE BAPTIST CHURCH, MISSIONARY

The Young People's Society held its meeting at the home of Mrs. Cecil Thomas, 703 Welcome Street, and it was highly enjoyed by everyone who was present. We draw no denominational lines, everybody from 14 to 35 is welcome. The society aims to benefit the community to the best of its ability. The next meeting will be held at the Tabernacle Baptist Church, the first Sunday in March.

NEW HOPE BAPTIST CHURCH

Paloma St. near 18th.
Rev. A. Lively, Pastor

New Hope Church is growing by leaps and bounds. Sunday morning's attendance was a record breaker. Practically every seat in the auditorium was taken. The pastor delivered an able discourse on "Eight Reasons why I believe the Bible is the word of God". The soloist was Mrs. E. Washington. The anthem was "O Lord our God, how Excellent". Five persons united with the church.

At 3 p.m. Rev. David E. Overr, president of the National Baptist Seminary lectured on the "Reason Why Baptists Split". Rev. Overr brought to light many things that have been totally hidden from the Baptists on the Coast, and showed why, in a very explicit manner, that all true-blooded Negro Baptists should belong to the National Baptist Convention, unincorporated. Miss Mab Deurick sang "It's Real".

Evening services were short but interesting. Every member and friend of New Hope is looking forward to the following coming events:

Feb. 25th, "Surprise program" and banquet under the direction of Dewey L. Johnson, given by men only.

March 6th, Interstate Contest under the auspices of Willing Workers' Club, Mrs. Robinson, Pres.

March 10th, Sunday 3 p. m. Ladies' Day.

April 20th, Easer Sunday. "Easter Memories". Cantata by the choir, also Giant Rally with men against women.

New Hope is a "Live" church. Seeing is biliving.

TRINITY BAPTIST CHURCH

Rev. J. A. M. Eldridge, Pastor

Wednesday evening of last week, Bro. F. C. McCall was ordained as our assistant pastor. He passed his examination a week previous receiving 95 per cent. We are expecting great things of Rev. McCall. Sunday was a day of feasting and rejoicing at Trinity. Our Sunday school was well attended. The lesson was taught with power. We were blessed at 11 o'clock by having Dr. David E. Overr, formerly of Denver, Colo. but now of Nashville, Tenn. preached for us. He is indeed a man of power. At three o'clock Rev. A. P. Shaw of Wesley Chapel, and his congregation were with us. He preached a very acceptible sermon for the pastor's aid club. Our financial effort was a great success. Our pastor filled the pulpit at 7:30. He preached on the Beatitudes, which was enjoyed by all. You are always welcome at Trinity. Come and worship with us.

MT. ZION BAPTIST CHURCH

50th and Hooper Ave.
Rev. Archie J. Williams, Pastor

Sunday was indeed a day to be long remembered by those who attended at Mt. Zion. The day was started with a well attended Sunday School.

At the morning service the pastor spoke from the subject: "A Court Trial". Toward the close of the sermon the pastor made a strong appeal for the sinner to think well of Jesus, to believe Him, to accept Him, to take a stand for Him. A young man came forward and said: "From this day on I am for Jesus. I believe His word. I am willing to follow Him."

At 3:30 the pastor spoke for the congregation at the Second Baptist Church, Long Beach. The subject was "What is victory?"

At the evening service at the Mt. Zion church the pastor spoke from the subject: "Jesus the Light of the World". At the close of the sermon the pastor made a strong appeal to those who were Christians and who had not joined any church in this city to start tonight. A young man came forward and declared he wished to go to work.

We had one accession and one candidate for baptism.

Bro. Geo. Arnold and Rev. Williams were the soloists for the day.

METROPOLITAN BAPT. CHURCH

27th and Paloma Sts.
C. C. Carter, Pastor

The beginning of rally at Metropolitan was a grand success both financially and spiritually. The Spirit of the Holy Ghost was prevalent at each service. The pastor brought us a glowing message at morning services. Subject: "The Power of Influence." At 3 p. m. Rev. Holder of Zion Hill and his congregation worshipped with us and brought us a soul-stirring message, subject: "The Hour for Decision." Our own Rev. M. J. Gibson filled the pulpit at the evening service and with no less power preached from the subject: "Child Training."

In the B. Y. P. U. Rev. Z. Deane brought to us an excellent lesson, subject: "Trinity," while Rev. I. N. Whitten in his own way taught the Bible Training Class.

We are thankful for these souls of God who are willing at all times to lay their lives on the altar of services.

The pastor will preach a special evangelistic sermon Sunday A. M. also P. M. Come and hear.

The Good Samaritan Club, Sister Carter, Pres., wishes to thank Zion Hill and their most excellent pastor for their co-operation Sunday past.

PHILLIPS CHAPEL C.M.E.CHURCH

1408 Newton St.
Dr. R. W. Underwood, Pastor

Sunday was a rideal day of worship at Phillips Chapel. Our pastor preached a soul stirring sermon from the 5th chapter of Daniel and the 5t verse. The doors of the church were opened and two persons came forward and united with the church. One of them was converted duirng the deliverp of the sermon.

The church was crowded at each of the services. A spiritual wave swept over the church during the service. Rev. G. W. Ford preached an excellent sermon Sunday evening. Everybody seemed to have enjoyed the message.

Next Sunday will be a great day at Phillips Chapel. The pastor stated that he will begin a series of sermons on the "Divinity of Christ". The choir will render some special music during the day.

Men and Women's day bid fair to be two great days. The men decided to pull as never before. The ladies say they will show the men how to pull. Well, we will see!

The Men's Uplift Club is calling for all men friends of the church to meet the Men's Uplift Club every Tuesday evening at 7:30.

SEATTLE NEWS

By F. R. Brooks

Rev. Jones, pastor of the A. M. E. Church, preached a rousing sermon Sunday morning that was realy interesting to those under the sound of his voice. Rev. Jones is one minister that seems to be so well liked by everybody in Seattle. He is very considerate in the way he conducts his affairs of the church, and is certainly a Christian Gentleman, and a noble speaker. All of you that miss hearing his sermons certainly miss a treat.

Mr. H. E. Mabels has made satisfactory arrangements in regards to buying the propesty at 127 22nd Avenue North, and moved his family into the home, February 4th. He is now comfortably situated at home. It is a fine house and lot. The house is a double tenement, and is equipped with all modern improvements. He has rented out the apartment 125 and lives in apartment 127. Mr. Mabels is quite a business man he also conducts a shoe shining establishment at 1918 3rd Avenue, where he has employed Mr. Morgan Kindale to manage. Mr. Kindale is known as the fastest and best shoe polisher in he ciy.

Mr. Otis Gordon runs and owns the Luzon Barber Shop at 1214 Jackson Street, where you can get the best hair cut in the city. To find out if that is true, give him a trial.

Lawrence Wood and Ace Brooks had a friendly game of casino Friday eneving. They played twenty games and Lawrence was a strong last. Better luck next time Lawrence. Practice up a little more.

Mr. Claude Granger of Kansas City. We three sisters, Hattie Murray, Rebecca Murray and Caroline Murray would like very much to hear from him or to learn of his whereabouts. He is supposed to be located in California. His mother, Mrs. Rebecca Granger is also supposed to be in California. We are his cousins and live in Seattle, 118 22nd Avenue, North.

Mr. Lawrence Brown, the well known piano accompanist, arrived here February 14th from London, England, to join the celebrated baritone, Mr. John Payne, late of London, who will appear in recital at the Mt. Zion Baptist Church, 19th near Madison St., Feb. 28th. Don't fail to hear these artists. Mr. Brown is stopping at 118 22nd Avenue North.

Mr. Reed, Mrs. S. H. Stone's father, is very seriously ill at the Providence Hospital.

Messrs. Baker and Walton, billiard proprietors at 1203 Jackson Street, have a nice place, and well worth your your patronage.

Miss Eva Ford, the well known and popular lady of this city, is now chef of the culinary department at the Kapper Kittle Cafe run and owned by A. A. Taylor. If you feel like eating good chilli con carne take it from me as a good tip and try it. Get it at K. K. C. 2103 East Madison Street.

Mrs. D. H. Parker 1509 So. I Street visited her sister Mrs. Caroline Brooks from Saturday until Monday evening. She reports having the time of her young life. She was visited by a number of friends, gotten together by Mr. F. R. Brooks. Mr. Dixie Robinson, the piano jazz hound, was present and played the piano and Ace Brooks sang lots of jazz songs. They were all Miss Parker's favorites. They served cake and lemonade, and she said she would return again.

MONROVIA

Our group will hold a very important meeting at the Shilch A. M. E. Zion Church on next Monday night. Matters that materially affect our people as a race.

Mrs. M. Payne of Charleston, West Virginia, the daughter of Mr. and Mrs. George M. Jones of this city, left last Tuesday for her home. On leaving she expressed her appreciation for the cordial treatment she received while here.

The revival meeting that is being carried on at the A. M. E. Zion church is gaining momentum each night. Evangelist Lewis is arousing this city as never before. Twenty-three have been added to the church during the nine nights during which the meetings have been going on. The meetings will close next Sunday night, with a great mass meeting with all the churches participating. At three o'clock Bishop L. W. Kyles, A. M., D. D., will speak.

SAN BERNARDINO

Another woman hit by a stray bullet: Mrs. Ingraham of Base Line, was hit on the shoulder by a stray bullet Wednesday afternoon while standing in her yard, on the west side of the house. The missle inflicted only a slight flesh wound, seemingly by an act of Providence as it glazed the top of the shoulder. There is no way of determining the source of the bullet, the person who fired may not ever know that a human being was hit. But great care should be taken in shooting towards residents. This is the second woman shot in the past four months by stray bullets. It will be remembered that Mrs. Beck was hit in a similar manner in November while standing in the yard of her sister on Eyrace Street. Mrs. Ingraham is a pioneer of Methodism in this city well known and well colored. Both are prominent members of the A. M. E. Church, Mrs. Beck having come to the city more recently, she is equally well known and loved.

Many visitors: The Orange Show has attracted thousands to the city. It is reported by the ticket collectors hat 60,000 people visited the first night, many of our group are visiting friends and relatives in the city. Mrs. Brown, Pasadena, with many friends, and her three daughters, visited Mrs. Patterson, her daughter, while in the city; worshiping at the Methodist Church. Mr. Hamilton of Los Angeles, visited his brother and sister, bringing many friends. Many others were in the city. Mr. Carlton and wife spent the week end in Los Angeles. Rev. Reid of Monrovia was in the city on business Wednesday.

Both churches report good services Sunday considering the great attraction, the Orange Show, that has in times past caused many churches to close up for the night srvice. The Presiding Elder will hold the second quarterly communion and conference March 2nd and 3rd at the A. M. E. Church.

RELIGIOUS VETERAN RETURNING TO L. A.

DR. A. J. STOKES

Dr. A. J. Stokes, Peerless Pulpiteer, Matchless Orator, and for forty years the untrammelled leader of the race, comes to the pastorate of the Mt. Zion Missionary Baptist Church, this city. The Mt. Zion Baptist Church in particular, and the Baptists in general, have a cause for great rejoicing. For in the coming of Dr. Stokes into our midst, we have a ripe scholar, an experienced leader in the practice and polity of the church such as in but few others. Dr. Stokes has been honored with every office in the gift of the National Baptist Convention. He is now the treasurer, and has been for a quarter of a century. Though a sexogenarian, he is the youngest, as well as the noblest Roman of them all.

Dr. Stokes was a life-long friend of Dr. Booker T. Washington, and was his private councilor in critical times, while building up the great Tuskegee Institute. Major Robert Russa Moton, head of Tuskegee, recognized the wisdom of Dr. Stokes, and had him elected to the board of trustees of the school.

Dr. Stkes leaves one of the greatest churches in the South. Its membership is more than 5,000. Most of whom he added while in the pastorate of forty years.

The Doctor is said to be one of the few Negro ministers who are wealthy. This is stating it mildly.

Much time has been spent on two separate occasions in Palestine, when he exxplored the land made sacred by the life and death of Jesus Christ. These trips have added veneration, which is akin to the prophets.

Through spending most of his time in the South among the prejudiced whites, still that unconquerable spirit and indomitable will have never been swerved from the highest interest of the people whom he served and successfully led, and this has endeared him to both races.

CHRISTIAN CHURCH
33rd and Hooper Ave.
M. Frederick Whitsett, Pastor

The subject of the pastor's sermon on last Sunday was "Faithfulness Rewarded" and "The Results of Sin". Both discourses were gladly received by the appreciative audience. The B. S. and Y.P.S.C.E. as usual were prolific. The interest ran high especially in the Y.P.S.C.E. The President, Mrs. McNear, is conducting this department in such an admirable way that young girls and boys are given their feet deliberating upon the platform subjects. Last Sunday was one of our very best meetings. Next Sunday evening at the Young People's hour as well as at the church service, Prof. P. H. Moss will appear in his final speeches, leaving his several appointments spot and points. God bless him, for truly he has been a benediction to Los Angeles during his short stay here. Next Sunday morning the pastor will bring an extra special message. He will discuss the beautiful and the sparing powers. All are welcome to all of these services.

BIRCH ST. CHRISTIAN CHURCH
Cor. 14th and Birch Street
Rev. A. W. Jacobs, Pastor

Visitors are always welcomed at all of the services, and are invited to take part in worship and praises to our God and Master. Last Lord's Day brought some glorious opportunities to all present. Sunday School at 9:45 was good. Lessons were well discussed. At 11 a. m. the choir directed by Mrs. F. B. Miller, rendered a most excellent selection. Among the announcements was the notice that Prof. P. H. Moss, National Field Secretary of Bible under the auspices of the United Christian Missionary Society, will preach in this auditorium, next Lord's Day, February 24th, at 11 a. m. You will miss a great treat if you are absent. Also it was announced that the picture of the entire congregation will be taken at the close of services. Following these notices the minister brought another message from the series of sermons on "Old Testament Shadows of New Testament Characters", II Kings 2nd chapter. Y.P.S.C.E. was good, from 7 to 8 p. m. Next Lord's Day Mrs. W. J. Thompson will lead. You will be greatly benefitted by this program. Preaching will follow at 8 p. m., also water baptism conducted by Eld. I. J. Williams. Sept. Bible school at Watts Mission. Come spend the entire day with us. Good music.

MORE BUSINESS FOR HAIR GROWERS.

It looks as if the hair business would be very good this year. The latest edict from Paris is bobbed hair in the morning and long tresses at night.—"Voila."

The rewards of a duty well done are the sweetest and most satisfying in the world.

A man who says behind your back what he can't say to your face is a living definition of a coward.

Well, I guess if King "Tut" had had anything else they would have included it is his burial collection, as it is everything has been found save Madam Tut's every-day hair pins.

It would be well for some of the outstanding followers of the Forum to leave home long enough to see how other people run such institutions as the Forum.

You cannot get right thinking into the mind of yourself, or your child, if you permit wrong conditions to remain in the body. We must cultivate the mind if we want it to grow. It is supported in good red blood, precisely as the body and should not be neglected.

Faith, loyalty, devotion, heroism and principle are vastly important. But before all these things in importance, it is to find out what is reality and not delusion, what is fact and not fiction, what is truth and what is mere supposition.

Co-operation—it's the key that must open the future for the Black men in America.

Until a man has reached the top in his line of endeavor he is not in a position to think that even a majority of his ideas are flawless. Haven't you a long way to go before you reach that state? Let us not get so puffed up that we cannot learn. "There is danger in thinking you are a superior being."

DETERIORATIONS OF POLITICAL INSTITUTIONS.

All political institutions will probably, from whatever cause, tend to become worse by time. If a system were now formed that should meet all the philosophers' and the philanthropists' wishes, it would still have the same tendency; only we do hope that henceforward to the end of time, men's mind will be intensely awake to the nature and operation of their institutions; so that aftr a new era shall commence, governments shall not slide into depravity without being keenly watched, nor be watched without the sense and spirit to arrest their deterioration.

BOYS' VISION OF THE FUTURE

The American manufacturer and often a philanthropist, sees in every boy in the manual training shop a future employee, either master or jouneyman. He is watching the boy and his training today as never before; and if the leaders in education were only alive to the fact it might be turned to good account.

The parent and community also see in that boy a useful citizen, with whatever genius he might possess properly developed. The broad-minded teacher likewise sees in the shop work a practical and concrete application of the boy's mathematics. It is only from some of the older pedagogues of staid ideas that the objection came.

And now the boy himself—since his is the viewpoint that really counts—sees the thing that the rest of us miss: It is the vision of his own future and its gradual attainment by his own efforts. With his high imaginative powers he can see around the stool or chair that he makes a great furniture or impliment factory. In the drafting room he sees himself an architect, etc. Sometimes the picture is overdrawn, but he is forming an ideal and if he is the right boy he can attain it.

If statesmen and leaders of men would publish before they go in the triumph of virtue to the "last audit," or leave to be published after htey are gone, each a frank expression of their motives, cabals, and maneuvers, it would give dignity to that blind adoration of power and rank in which mankind has always superstitiously lived, by supplying just reasons for that adoration. It would also give a new aspect to history and perhaps might tend to a happy exorcism of that evil spirit which has never allowed nations to remain at peace.

No matter what motive prompts war, it is a great slaughterhouse of human lives and in its trail follows chaotic conditions that take centuries to replace. War consists of an infernal abomination when mainted for any object, and according to any measure, not honestly within the obsolute necessities of defence. In these justifying necessities we include the peril to which another nation with perfect innocence on its part may be exposed from the injustice of a third power.

It need not be said that wars, justifiable on either side, on the pure principles of law defence, are the rarest things in history. Whole centuries, all over darkened with the horrors of war, may be explored from beginning to end, without perhaps finding two instances in which any one belligerent power can be pronounced to have adopted every precaution, and made every effort, concession, and sacrifice, required by Christian morality, in order to avoid war.

FREDERICK DOUGLAS

WHAT ABOUT YOUR BIRTH MONTH?

Along with the illustrious characters that decorate the pages of American history, and are known as February children, is Frederick Douglas, commonly called the "Bronze Knight" of the Civil War.

Mr. Douglas was born in Tuckahoe, Maryland, February, 1817 of slave parents. Though kept as a slave on the farm of Edward Lloyd until ten years old he was sent to live as a waiter with a relative of his master in Baltimore, where he learned to read and write. He was next bought by a Boston ship builder in 1832 for whom he became a waiter and later a ship calker.

He escaped from slavery in 1838, and settled at New Bedford, Massachusetts. It was here that his clarion voice first rang out. Phillip, Lovejoy, Sumner and other strong anti-slavery agitators had been heard, but the fire that burned slavery out of the hearts of the American people was first kindled by Douglas. The others who favored the abolition of slavery were those who had seen its evil results, but here was a man who had felt; and when he appeared with his message, it came from a heart that had drunk deeply from the cup of bitterness—and the people heard.

The American Anti-Slavery Society engaged him as lecturer, in which capacity he attracted considerable attention and was greeted by large audiences.

He visited England, collected $750, with which his legal emancipation was purchased from his former master. He established two weekly newspapers at Rochester, New York. In 1877 he published the New National Era in Washington. A year later he was appointed Secretary of a Commission to Santo Domingo, and was named as a Republican presidential elector from New York State in 1872. He served as U. S. Marshall in the District of Columbia from 1877 to 1881. In 1889 President Harrison appointed him minister to Hayti, and the Haytian government made him a commissioner to the Columbian Exposition.

Aside from all of these activities Douglas was an author of no mean ability, and two of his most illustrious contributions were: "My Bondage and My Freedom," and "Narrative of my Experience in Slavery."

As an orator this black man who made his way up from slavery was unequalled. And unlike the average he was unselfish. In spite of the fact that he could have found safety and happiness in Canada or England—Douglas was not content to gain alone his own freedom. When he was in the height of his own glory he never ceased to hear the groans of his less fortunate brothers and sisters who were still bound in the chains of chattel slavery.

As time moves on the glory of this man's character who was once a slave brightens with the years. We have measured him with the other men of his time and find that he stands head and shoulders above them all.

So we place him against the wall of time beside the martyred Lincoln and the halo about Douglas' head shines as brightly as the one that adorns Lincoln's—and while on Lincoln's face there are lines of suffering as those who suffered, on Douglas' these lines are overshadowed by the smile of a conqueror.

Booker T. Washington, Jr., another race man, has been humiliated by the citizens of Sierra Maedra who protested against him and family buying property on one of their main streets. We admire the stand Mr. Washington took—showing the superior qualities between the contending parties. Perhaps these conditions could be eradicated if the white people would come to the fact that, of the two, they show the inferior part of humanity by their ignorance of the race problem and progress of other races. They have only studied their own history and are as ignorant as sin of the others who constitute four-fifths the population of the world. It is rather amusing to us as to what some of these Southern Negro-haters think of us anyway. If they could keep us in the swamps and make us live in huts, huddled together like cattle as they do in some parts of the South, then they would feel that they are our "masters and superiors." But thank God, out in Sunny California, the Black man can be what he wants to be; own all the property he is able to buy and become a useful, law-abiding citizen, as he so desires.

WALLS AND BULWARKS

"Walls and bulwarks"—Isa. 26:1.

A wall is an elevation of any sort of material that may be available or obtainable; which elevation is to protect the place or whatever is therein from danger or discomfort. All the ancient cities were walled. This because foes were many and treacherous, and dangerous wild beasts were numerous in the wildernesses that were not far away from the cities. II Kings 2. They who did not live perpetually behind the walls lived near enough to flee in them in time of danger. Jer. 35.

Walls are therefore a refuge.

Romulus and Remus built walls to Rome. The walls of Babylon said by some to have been twenty miles east and west, and the same north and south and high and thick enough to be accounted impregnable. Therefore Belshazzar felt himself secure and grew the more haughty and secrelegious as the foe beleaguered the city. But he had not counted on the fact that the enemy might change the channel of the river and come in under the gates that spanned the mighty Euphrates.

Jerusalem was walled, and tho a number of times these walls were always repaired and replaced. Even Paris and London were once walled cities. The Chinese about 246-202 B. C. built a wall between them and the Mongols, 1260 miles long, every brick of which is said to have cost a human life. None of these walls afforded adequate and lasting protection. They all at length failed of their purposes.

So God, in His great love for man promised to give the world salvation to take the place of walls and bulwarks. A bulwark was made of logs, stumps, or trees from behind which men fought.

God designed to give the world a salvation thru Jesus Christ which would dispense with these things. Has He done so? After twenty-seven hundred years what do we see? Great cities sprawl themselves all over the landscape and do not think of walls. "Within our gates" has only a figurative meaning, a poetic application. Such has been the power of gospel ligth and the strength of thesale of the church that only in heathen lands do cities require walls; and even there they ar more or less being dispensed with. Salvation is given instead. Despite the hyprocrisy, the covetousness, the hatred, the lust, the banditry, legal and illegal that seem to run rampant, things are better than they were in a sense; for cities no longer require walls. Salvation has taken the place thereof.

Now as to those who have come to know this salvation, no one needs judge or jury or policeman or sheriff to keep them from injuring their fellows. They have salvation. It is their wall of protection. It is also their wall of restraint. They have learned the power of God. They have the wisdom of God. I Cor. 2. They understand the beauty of holiness and the advantage of righteousness. They have the the Christ hope, the Christ mind, the Christ vision, the faith of Christ. They love a holy God. They love, too, their fellowmen; Salvation to them has taken the place of walls and bulwarks. And being by divine arrangement, kings and priests unto God their prayers and their preaching and their testimony and their holy song restrain the world more than they know and even more than the world knows.

But they who have it know enough to praise God for salvation. What is man without it without its holy power and sacred influence? A treacherous savage, an oppressive beast, an unhappy subject of a burdened existence.

Thank God for salvation thru Jesus Christ. Have you got it? Do you know its assurance, its joy and its power? We all may, both now and eternally. Amen.

The Pruits, the Brayles, the McAllisters, the Parkers, and others under the leadership of Mr. Whitley, have a splendid meeting each Sunday evening. Last Sunday evening the discussion was so interesting as to take nearly the entire service, the pastor having taken an active part. Misses Cornelia and Corrine White kindly rendered an instrumental duet on the piano that was very beautiful.

Having rendered a great and profitable service both morning and afternoon, Pastor Holt and his gospel singers under the direction of Prof. C. V. TRAFFIC

BETTER SIGNALING

Most people either are ignorant or don't care about proper signaling. I consider that it would be a great step of the traffic authorities could only put in force a plan to make every one signal properly, as this one very particular duty of every motorist seems so very much overlooked.

Quite often a gentleman driving and smoking will throw off ashes from his cigar or cigarette and goes thru the same movements as when signaling for a left and turn.

Again when some people are so very enthused in converstation they make all kinds of movements with their hand that appear to be signals for certain changes of their course. Some people depend wholly on their electric signalling devices when quite often they are out of order, while at the same time others see both hand and electric signal and fail to obey. To my idea these conditions need a remedy if Los Angeles is to have its bit of accidents reduced.

Mr. Norman Houston, prominent insurance broker, was slightly embarrassed last Tuesday when one of his tires blew up. Fortunately no one was hurt.

BALLOON TIRES

Floating on Air!

John F. Palmer, inventor of the Cord Tire, Patented in 1893; consulting Engineer of Hewitt Rubber Company, Buffalo, N. Y.

The awakening of the public to the advantages of Balloon tires has created a demand broadening and increasing in force each day that passes.

The automobile manufacturer, with his ear to the ground for the vioce of his public, is making all speed possoble to meet a demand created almost over night.

The tire manufacturer, with equipment for tires of standard sizes and construction, is confronted with a demand for tires of balloon type available for use on the millions of automobiles now in use and in the showrooms of dealers.

It would have been better for all concerned if the change to low pressure tires had come about in a more orderly manner as it will take time and experience in the hands of the user to finally settle on the best expression of this new old idea.

The writer has advocated and labored for the adoption of this idea for a great many years and until the Hewitt Rubbber Company took it up, had small encouragement principally because the public mind was not yet educated to demand super-service, comfort, and safety to be had only in what has now been developed and christened BALLOON TIRES.

Pneumatic tires are the one thing that has made modern passenger automobile possible, and that we do not have all the cushioning possible through their use today is due to the fact that all through the years following the inception of the cord tire, there had to be a tremendous development in materials, processes and appliances to bring the tire to a point of development where it would give the phenominal service had today. It is a wonderful thing that a structure of cotton and rubber can, and does, carry at all speeds, vehicles weiging thousands of pounds for a number of miles beyond the wildest dreame of the day when manufacturers limited their guarantee to 3500 miles and were content to set aside a liberal portion of their profits to take care of such of their tires a sfailed to give this much needed service.

The demand of the public was, of course, first for service as measured in tire miles and that at the lowest cost possible. This established a practice of using the smallest tire that would get by. Added to this was the demand of automobile manufacturers for the cheapest tire they woood accept as original equipment. This also spelled smaller tires. Small tires and heavy vehicles necessitated high air pressure to carry the load; hence, the fundamental characteristic of pneumatic tires, cushioning, was relegated to the back-ground and major developments were wholly in the line of service for low cost until today the automobile owner who does not get upwards of ten thousand miles from a tire is apt to carry it back as defective and demand concessions in price on a new tire. Today the public and tire manufacturers alike are awakening to the fact tht it is n absurdity to use a vehicle weighing thousands of pounds to carry a live load of from two to seven people. Thus, we have again turned to the original idea and the demand is—why cannot we have better cushioning in our tires.

Vehicles should be lighter and more comfort in riding should be had by the user. Everything has been done in the way of springs and it is now up to the tire people to give the better tires. the answer is BALLOON TIRES and if the automobile manufacturers develop a car along the same lines we shall in a few years have a more reasonable, sane and satisfactory combination of tire and car that will give a quality of comfort and an upkeep expense, otherwise impossible of achievement.

Get into a flivver equipped with four inch thin-walled tires at twentw-five pounds pressure and you will be surprised at the tremendous increase in comfort and road grip. As cars go heavier, increase the size of your tires. In each you will find the same contribution of lower expense in the way of repairs as, by reason of the fact that the air pressure in your tires is the measure of the pounding received from road imequalities and also the frequency of your visits to the repair shop the new old idea in tires will return dividends in comfort and durability never before had. You will roll along over bulging rock or cobble stones and scarcely know it. Rattling in your car will not develop to the same extent and finally, your gasoline consumption will not be measureably increased, nor will the tires cost you very much more than those you are accustomed to usnig. What does it matter if the initial cost be a little more; what would it matter if you used a little more gasoline; automobiles are not a utilitarian transportation agent, and once you have tried out Balloon tires you will be content with no other equipment on your car.

Some say that Balloon tires steer harder. Perhaps some of then do at slow speed, but it is wholly a matter of design and, if present, it can be eliminated. I would counsel you not to expect absolute perfection today.

We have had twenty-five years of development in the present tire at an expenditure of billions of dollars and while the major portion of the tools, materials and processes used in the tires of today are available in Balloon tire manufacture, it should require but a short period to determine where details in manufacture and application could be improved.

Personally, I have been experimenting for a number of years at te factory of the Hewitt Company in Buffalo and we have achieved to as near perfection as practice has permitted. Doubtless, minor changes will be made but there is no major objection or criticism known today of the large low pressure tire that in our opinion we have not overcome. The final test of course, is years of service in the hands of the user without which no tire can be developed to its final form as only by continued publi cuse under all character of servic under the management of children, adults, truck drivers and bankers, the race driver and on the aristocratic limousine can final judgment be pronounced.

The Balloon tire is here to stay and its development a foregone conclusion to the last word, if the public demands it, as they surely will after a trial of its merits, then manufacturers will furnish them, for you a consummation helpful, alike physically and financially.

Jack Holt has disposed of his chummy roadster and at present is without a car making the accumulation of enough dough to purchase a new Cad.

Mr. and Mrs. George Neimore journeyed to the beach Sunday with a party of friends.

Mr. F. L. Banks of the Eastside Realty Company, accompanied by his family made a trip to Fish Canyon in Ridge Route in his Auburn Beauty Six on last Sunday. Jack rabbits and fish were distributed to his friends on their return.

J. U. Barefield on his way home last Saturday evening, after receiving a severe whist trimming, was so affected that he attempted to climb a telegraph pole with his Paige. His partner, Ellis Cook, finally succeeded in persuading him to desist in his attempt and they both landed home safe. Take a taxi next time, Mr. Barefield.

NEW YORK COMMISSION SAYS RACE BATTLERS TO HAVE EVEN BREAK

By Wiliam Mells Watson

William Muldon, the well known ex-chairman of the New York State Boxing Commission, became famous for his fairness and has the reputation of being so square and upright that he almost bends backward.

Recently George E. Brower, a lawyer and all around sportsman, was appointed chairman of the commission and Muldoon with James A. Farley, are just lay members with little executive power. The pugilistic world has been shaky as to the status of the game under its new head but was suddenly put at ease last week when Chairman Bower outlined his program.

"Brower is glad to get on the job, even tho there is no salary attached. With Muldoon and Brower as a majority vote it's a dead certainty that these grapevine reports of "something wrong" on the Boxing Commission will get scant heed and sparse circulation. The integrity of both men is above suspicion, and, on top of that both are said to be smart enough to realize that everybody in fighting is not to be taken for granted. There's a lot of skill and druggery going on behind their backs and they mean to have this eliminated.

One point Brower makes that is interesting as well as emphatic is the question of mixed matches. For three years the status of Harry Wills has been a mooted question. In cold turkey analysis there were to be no mixed matches when championships were involved."

On this point Brower said:

"The constitution under which boxing returned to New York and legally recognizes no sect, creed nor racial lines. I must uphold this in act and performance. I mean to do so. Wills will NOT be barred from championship matches and is perfectly acceptable as a challenger.

"In Wills case, however, he must prove his fitness as a challenger for Dempsey by taking on others. He must PROVE himself worthy of a championship match by fighting with his fists, not through the newspaper columns where his conversation overshadow his lack of performance."

Can't quarrel with Brower on that stand. And if Mr. Brower and Mr. Muldroon will chase the gamblers and make the weighing in of fighters a matter of public record, as the law provides, all may yet be well with New York's pugilism. Right now New York's pugilism means the Nation's.

California prides herself on the fact that she has the largest registration of Motor vehicles in the United States and in the world. Los Angeles County has the greatest part of that registration, BUT Los Angeles County and particularly the city of Los Angelts has had more accidents than and other city of its size and larger in the United States. WHY? It is the only state in the whole United States with such a large registration of motor vehicles that required no examination before permitting a person to operate a motor vehicle on the public highways.

One thing that would cut ont accidents at least (conservatively estimated, 25 per cent), would be to require every person who intends to operate a motor vehicle upon the highways of the state to undergo a rigid examination such as are required in the States of Illinois, Massachusettes, New York, Michigan and others. There are hundreds of people who are operating motor vehicles on the streets and highways of the city and state who, if they had to undergo a rigid test or examination would not be allowed to drive at all.

With the number of motor vehicles ever increasing on the streets and highways it is high time that those who are permitted to operate them should at least be qualified.

Attempt Assassination

GARAGE MAN VICTIM OF ATTACK

Charles E. Pearl popular proprietor of The Pearl Garage and his wife returned home Sunday evening retired in regular form, but shortly after the lights were out were attacked by two fiends who had hidden themselves in the building sometime, it is presumed, in the early part of the evening.

CHAS. E. PEARL

Mr. Pearl was given what was intended to be a death blow with an electric flat iron by one of the men and when Mrs. Pearl realized that her husband was being attacked she screamed and was also struck on the head and shoulder with the same weapon.

The Pearls are under the efficient care of Dr. Eugene Nelson, but are considered to be in serious condition.

As to whether the crime was committed by robbers or enemies of the family as yet we have been unable to learn.

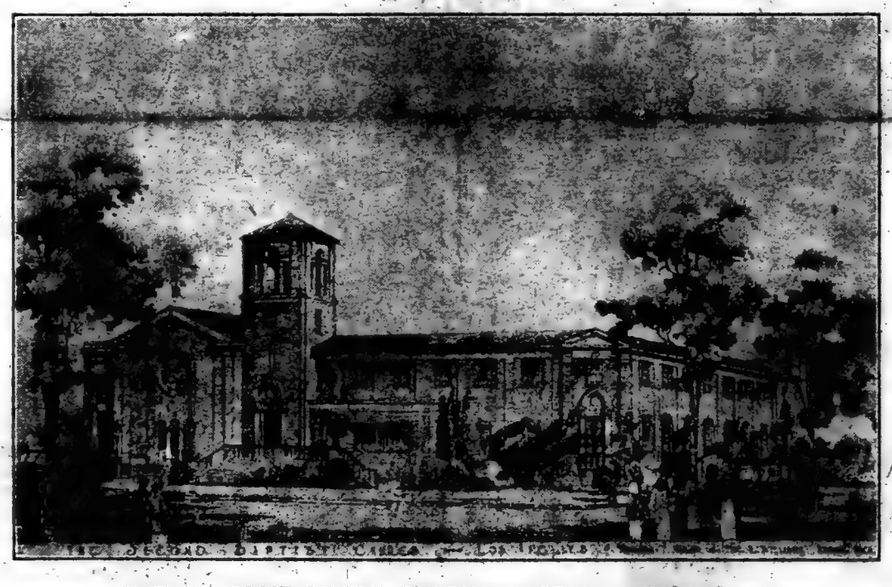
CHARLES GILPIN TO STAR IN NEW PLAY

By: E. L. Dorsey

Simultaneously with the public announcement that Chas. O'Neal, the great playwright and author has completed and has ready for presentation to the public a new play "All God's Chilluns Got Wings" which calls for a cast of black and white actors comes the announcement also that Mr. Chas. Gilpin whose star acting made O'Neil's Emperor Jones the season's sensation a year ago and gained for himself the Spingarn medal, is to appear in a new and entirely different play "Roseanne" the splendid dramatic play of Nan Bagley Stephens, which was recently produced at Greenwich Village theater by a cast of all-white artists.

Mr. Gilpi nretired from the role of Emperor Jones some time ago and since its presentation abroad in Paris the part has been enacted by an Algerian with more or less success.



Mr. Gilpin when in Los Angeles during his Western tour last Spring stated at that time that he would welcome a change and be glad when the opportunity presented itself to divorcing himself from the weird surrounding and background of Emperor Jones.

Mr. Gilpin was deeply sensitive as well as appreciative of the opportunity the play and role of Emperor Jones afforded him to not only place himself as an actor but the entire race as well before the theatrical critics in a challenge for admittance to a higher plane of acting.

Today we note with some degree of pride the passing of Uncle Tom and Sambo and welcome the arrival on the higher plane of theatrical efforts of such names as Gilpin, Roland Hayes, Geo. Dewey Washington, Florence Cole-Talbert and others whose qualifications are being daily favorably criticised by the leading critics of the country. Tomorrow, and too, not the distant tomorrow, we will have dramas not only enacted by an entirely Negro cast but they will be playing to crowded houses with runs indefinite and in the enactment of such heavy plays and operas as King James, Merchant of Venice, Midsummer's Night Dream, Madam Butterfly and other such celebrities as Louis James, Frederick Ward, Katherine Kitter, Carroll and Mary Gardner may wake to find their places in the public's opinion somewhat challenged by the late arrival of such competent actors as the Negro today has championing his cause in a field hitherfore restricted.

Say, some things worth hearing; some things worth seeing, is the Pageant by the Junior Missionary Society of Second Baptist Church, March 12, 1924. Building Fund project.

The Second Baptist Church To Have One Among Largest Churches in Country

FUTURE HOME OF THE SECOND BAPTIST CHURCH

Building Program Of The Second Baptist Church

By T. L. GRIFFITH, PASTOR

The hope of the members of the Second Baptist Church for a new and commodious house of worship is about to become a realization. It is the purpose to commence the construction of the new edifice as near June 15th as possible, and to have it completed by March 15th, 1925. The architects' estimate is that the cost will approximate $125,000.

Two architects, Norman F. Marsh and Paul R. Williams, are associated in the planning, designing and in general architectural service. Mr. Marsh is the official architect of the Southern California Baptist Convention and he has drawn the interior plans. Mr. Paul R. Williams, the only Negro in the United States to become a member of the National Association of Architects has drawn the beautiful design which is shown in the accompanying picture. Both these architects will continue with us until the work is done.

Three general lines of curc needs have been considered in arranging the interior of the new building: worship, religious education, and social service.

No pains have been spared in planning for the worship, which is the fundamental need in church construction. The Building Committee took into account both present and future populations; and it decided it to be most practical to arrange for what is called the expanding auditorium. This is so arranged as to provide for small audiences, and also to accommodate as many as two thousand persons at a single service. The choir stand will accommodate a hundred persons. The baptistry will be elevated and in full view of the entire auditorium. This baptistry will be most beautiful, and the candidates' robing rooms will be on the balcony floor. There will be five front entrances to the balcony, so that entrance and exit will be easy. The main auditorium will front on 24th Street so as to remove the worship from the noise of traffic on Griffith Avenue. It is the earnest hope that this auditorium will serve a large purpose in ministering to the needs of a cosmopolitan institution of worship.

Special consideration is also given to religious education. Five departmental Sunday School rooms are planned for, cradle roll, primary, junior, senior and intermediate. These departmental rooms alone will take care of about a thousand children and young people. But the entire Sunday School arrangement can take care of a much larger number than this. The Sunday School workers are at the present time thinking and working as much as possible toward the new program which will be instituted in the new church edifice.

DR. T. L. GRIFFITH

The third line of work planned for is social service. There will be a Young People's and a Women's reception room. The Benevolent Society is provided for. The work of the Colored Baptists of the State has been considered. There will be a library, and employment agency, a day nursery, and a free clinic. The clinic department will have four rooms. There will also be a kitchen and soda founain. The basement auditorium will be available for entertainments, or as a dining room, and will seat about five hundred persons.

These social features will be organized as to have the building open every day in the week to serve the community needs. The purely recreational features have not been planned for, it being thought best to leave these lines to the work of the Young Men and Young Women's Christian Associations.

The church will hope for the co-operation of the entire community in this building program. Already three GREAT DAYS are being planned; Ground Breaking, Corner Stone Laying and Dedication. The arrangements for these days will be announced in due time.

In the summer of last year the church people and the Io te City Mission Society pledged over $50,000. These pledges are being paid, weekly, and the membership is evincing an amazing loyalty to the program. The property on which this church house is to be erected is paid for, as well as the site on which the present church stands is free of debt. Pastor Griffith is earnest in his effort to give Second Baptist Church and the denomination something that will not only be the pride of the Baptists in California, but the United States at large.

Chairman John T. Adams Addresses Lincoln League

(Lincoln News Service)

Chicago, Feb. 26.—Linking the principles of the martyred President Abraham Lincoln, with the creed of true Republicanism, Chairman John T. Adams, of the Republican National Committee, addressed the Annual National Convention of the Lincoln League, held in this city on the evening of Lincoln's Birthday, 1924. In commemorating the birthday of the Great Emancipator, Chairman Adams said:

"Everywhere, today, the story of Abraham Lincoln is being told anew. In the Halls of Congress, at the village schoolhouse, here in Chicago—everywhere, from border to border—Americans are pausing again in their daily tasks, to speak for a moment of their most precious national memory. Lincoln is immortal. So long as the Republic lasts, his name will last. So long as his memory remains, the Nation will remain. You and I, perhaps, are merely incidents along the way, as the spirit of Abraham Lincoln moves stanchly onward, generation after generation, into the ages. Customs change, standards may alter, faces will fade and new ones will appear, but the story of Abraham Lincoln will always appeal, and bind each new era securely back to the man and the day that made our Union sure.

"It must have been a wonderful thing to live when Lincoln lived—to be his contemporary. It is a wonderful thing to be only a little way removed—to be able, still, to talk with persons who talked with the Great Emancipator—persons who saw him, and knew him, and witnessed the acts which assured him to us all, and to those who will follow. It is a wnderful thing to be able to say: 'Lincoln was a Republican—and I am a Republican'. Often, there is a very real penalty attached to greatness. Almost always to immortality. First we idolize—and then idealize. It is then that we strip from the memory of a man all that made him human—his flesh and blood and bone—and leave in their place mere marble and careless praise. There are many memorials to Abraham Lincoln. He sits in silent splendor, close to the banks of the Potomac. He is remembered in granite and bronze in many places.

"But none of these things however beautiful, however inspired, are Lincoln. We must not permit ourselves to look upon them as such. The things that are Lincoln cannot be wrought from metal or shaped in stone. Humility of heart, homeliness of mind, and gentle patience with lesser men, these were the simple attributes that made Lincoln an immortal memory. Without them he would still have been great, but he would not have been the Lincoln we love to recall. Because of these attributes, he brought a ruptured Nation through the horrow of internal war with its soul single and in tact. Because of them, he cleansed victory of vain glory and gave dignity in defeat.

"Lincoln was a Republican and we are Republicans. That is why we are here together. Never before has it been more of a privilege openly to reassert our faith in our party. But it is not enough to say merely that we are Republicans. We must aspire to that Republicanism which was laid down for us so clearly by the man we remember now.

"What the Nation was given—these news could reasonably have dreamed of the America of today, a mere handful of men brought into existence a document so fundamentally sound, so thoroughly American, that no [illegible] movement or plot has been able to

RELIGIOUS VETERAN RETURNING TO L. A.

DR. A. J. STOKES

Dr. A. J. Stokes, Peerless Pulpiteer, Matchless Orator, and for forty years the untrammelled leader of the race, comes to the pastorate of the Mt. Zion Missionary Baptist Church, this city. The Mt. Zion Baptist Church in particular, and the Baptists in general, have a cause for great rejoicing. For in the coming of Dr. Stokes into our midst, we have a ripe scholar, an experienced leader in the practice and polity of the church such as in but few others. Dr. Stokes has been honored with every office in the gift of the National Baptist Convention. He is now the treasurer, and has been for a quarter of a century. Though a sexogenarian, he is the youngest, as well as the noblest Roman of them all.

Dr. Stokes was a life-long friend of Dr. Booker T. Washington, and was his private cuncilor in critical times, while building up the great Tuskegee Institute. Major Robert Russa Moton, head of Tuskegee, recognized the wisdm of Dr. Stokes, and had him elected to the board of trustees of the school.

Dr. Stkes leaves one of the greatest churches in the South. Its membership is more than 5,000. Most of whom he added while in the pastorate of forty years.

The Doctor is said to be one of the few Negro ministers who are wealthy. This is stating it mildly.

Much time has been spent on two separate occasions in Palestine, when he exxplored the land made sacred by the life and death of Jesus Christ. These trips have added veneration, which is akin to the prophets.

Through spending most of his time in the South among the prejudiced whites, still that unconquerable spirit and indomitable will have never been swerved from the highest interest of the people whom he served and successfully led, and this has endeared him to both races.

WOMEN STAY IN YOUR PLACE

The women of Phillips Chapel C. M. E. Church have deliberately challenged the men of said church for a financial rally commonly called men and women's day. Last year the women were victorious over the men: but this year the men will show the women where they belong. Whenever the men and women's day has been staged, the men have proved to the women that men are first. Phillips Chapel men have organized a men,s chorus club, and they are extending to all men of the city an invitation to come and help us in both the financial and singing club. Phillips Chapel men really helped in making the men of the other churches effect victory.

As we have given mutually, we feel that it is high time to receive mutually. We are callnig upon every man, of every church, of every age and of every stage of life to come and help us in our rally the fourth Sunday in March, and we will show the women where they belong.

N.A.A.C.P. WINS SCHOOL DISCRIMINATION CASE IN COFFEYVILLE, KANSAS

Segregation of white and colored pupils in Junior High School is forbidden, by the terms of a court decision, obtained after a legal battle fought in Coffeyville, Kansas, by the local branch of the National Association for the Advancement of Colored People, it was announced today. The attorney for the N.A.A.C.P. was Elisha Scott, of Scott and Vandyne, who was the first attorney to be employed by Robert L. Hill from Arkansas.

According to Mr. Scott, the case "settles the question in this state as to discrimination in high schools. As you perhaps know a number of cities in Kansas have made a discrimination aganist colored people in the high schools, especially the so-called Junior High Schools."

Writing to congratulate the N.A.A.C.P. on the victory, Mr. Scott says:

"I am very grateful to the Association for the good work which they have done and the decision in this case is going to mean that the membership in Kansas will increase by leaps and bounds."

NOTICE FRIENDS

I wish to make known my thanks to God for being able to be up and out again.

I also wish to extend my sincere gratitude to those who called, administered, and added to my comford during my illness.

NEGRO ARISTOCRACY A CENTURY AGO

4500 Negro Owners of Slaves in 1840

Taking up the study of the Free Negro in the United States, the Research Department of the Association for the Study of Negro Life and History, directed by Dr. C. G. Woodson, decided to make this statistical report as to the heads of families, their ownership of slaves and social relations with the whites. The aim was to facilitate the further study of this neglected group. Most of these people have been forgotten, for persons supposedly well informed in history are surprised to learn today that about a half million, almost one-seventh of the Negroes of this country, were free prior to the emancipation in 1865. They can hardly believe that 4500 of these were owners of slaves themselves in 1830, and in many cases controlled large plantations.

The census record shows that the majorty of the Negro owners of slaves were such from the point of view of philanthropy. In many instances the husband purchased a wife or vice versa. The slaves belonging to such families were few compared with the large numbers found among the whites on the well developed plantations. Slaves of Negroes were in some cases the children of a free father who had purchased his wife. If he did not thereafter emancipate the mother, as so many such husbands failed to do, his own children were born slaves and were thus reported by the enumerators.

Some of these husbands were not anxious to liberate their wives immediately. They considered it advisable to put them on probation for a few years, and if they did not find them satisfactory they would sell their wives as other slave holders disposed of Negroes. For example, a Negro shoemaker in Charleston, Souh Carolina, purchased his wife for $700; but on finding her hard to please, he sold her a few months thereafter for $750, gaining $50 by the transaction. Dr. C. G. Woodson personally knew a man in Cumberland county, Virginia, whose mother was purchased by his father who had first bought himself. Becoming enamored of a male slave, she gave him her husband's manumission papers that they might escape together to free soil. Upon detecting this plot, the officers of the law got the impression that her husband had turned over the papers to the slave, and arrested the freedman for the supposed offense. He had such a difficulty in extricating himself from this complication that his attorney's fees amounted to $500. To pay them he disposed of his faithless wife for that amount.

Benevolent Negroes often purchased slaves to make their lot easier by granting them their freedom for a nominal sum or by permitting them to work it out on liberal terms. Joby Barry Meachum, a Negro Baptist Minister in St. Louis, thus came into possession of as many as 20 slaves by 1836. The exploitation type of Negro slaveholder, moreover, sometimes feeling the sting of conscience liberated his slaves. Thus did Samuel Gigson, a Negro of Mississippi, in 1844, when he brought his slaves to Cincinnati, Ohio, and settled them on free territory.

Practically all of these Negro slaveholders were in the South. Slavery, however, at that time had not been exterminated altogether in the North, and even there the Negro was following in the footsteps of the white man, as this report will show.

In the South where almost all of the Negro slaveholders were, moreover, round, we find some of them competing with the large planters in the number of slaves they owned. Most of such Negroe proprietors lived in Louisiana, South Carolina, Maryland and Virginia, as did the majority of all slave owners.

Excepting those of Louisiana, one may say that most of the Negro owners of slaves lived in urban communities. In those parts of the South where the influence of the kind planter near the coast was not felt the Negro owner of slaves did not infrequently appear. The free Negroes themselves, moreover, encountered such difficulties in the lower South and Southwest that they had to seek more hospitable communities in free states.

American Woodmen Campaign

Giant of Negro Fraternals Launches Drive For Members

The American Woodmen, commonly referred to as the "Giant of Negro Fraternals" and the "Millionaire Insurance Company", will begin its Anniversary Membership Drive, March 1st. A special dispensation has been allowed the Los Angeles camps for this campaign which will take place during the month of April. The Los Angeles Camps already number nine hundred members all of which have been secured since the organization of the camps in Los Angeles eighteen months ago, and it is expected that the goal for a thousand members will be reached and passed long before the close of the drive. Prof. B. H. Graham, organizer of the Los Angeles Camps, and Supervising Deputy of the Woodmen in the state of California, is ably assisted by Deputies J. E. Rector, H. K. Watkins and R. Edwards. The last statistical report of Fraternal Insurance societies compiled and published by the National Fraternal Monitor, showed the assets of the American Woodmen to be one million sixteen thousand, two hundred two dollars ($1,016,202.99), which placed it in the rank of millionaire societies. The American Woodmen employ around fifteen hundred colored men and women, with a monthly pay roll of thirty-five thousand or nearly half a million dollars a year. The society operates on the adequate rate and life insurance in amounts from $250 to $3000, paying sick, accident, burial, and death benefits.

One of the new departments recently installed by the Los Angeles office is an employment bureau by means of which it is hoped to find work for the unemployed members of the organization free of charge. Mr. Graham is the authority for the further statement that within a short time, the Green Cross Nurse Corps will have on its staff at least one and probably two trained nurses whose duty shall be to visit and administer to the sick members daily.

Scores of people are coming to Los Angeles weekly who are members of camps in towns and cities in other states. These ar easked to identify themselves with the local camps at once for their own protection. The Los Angeles office is located at 1400 Central avenue. Telephone Humboldt 7360. Those wishing to take advantage of the low dispensation should do so without delay.

COLORED BUILDERS FORM ORGANIZATION

(Lincoln News Service)

Washington, Feb. 26.—Colored mechanics in this city, engaged in the building trades, have organized a Washington Builders Association, originally formed at Hampton Institute, Va. In this manner local trade artisans expect to stimulate interest and efficiency in the colored workman as a factor in a local industry. Roscoe I. Vaughn, the well-known architect, who designed and erected the New Prudential Bank at 715 Florida Avenue, N. W., was elected president of the local branch, which will disseminate knowledge of building changes and materials, and urge the training of colored mechanics, as well as he fostering of trade schools for colored youth.

Lvermore, a member of the executive committee of the Republican National Committee, and originator of the courses.

African Question At Paris Peace Conference

(Lincoln News Service)

New York, Feb. 26—Writing under the title of "African Questions at the Paris Peace Conference", an ambitious Anglo-Saxon author has published a book which deals with the conditions and needs of the African people. The author has described the German policy as advocated for Africa, and states that it was Germany's plan to establish "new Germanies" in the African continent. The author handles his subject ethnologically, politically, and economically, and works out a number of conclusions as colonial expert to the American commission of inquiry on the African situation, which were later accepted and written into the Paris settlement.

WEST SIDE MISSION A.M.E. CHNRCH
1509 W. 36th Street
Major G. W. Prioleau, Pastor

Last week was a blessing to the Mission. Revs. Miller and McArthur, non-denominational Evangelists, were istrumental in doing good for the mission. The children of the community were gathered together every afternoon to hear excellent "Chalk talks", which opened to them the scriptures as nothing else could have done. The evening meetings were productive of great good, two converts and eight accessions. Next Sunday will be our regular monthly communication. The pastor expects every member to be present. Friends and visitors are welcome.

WARD CHAPEL A.M.E. CHURCH
1252 East 25th St.
Rev. B. R. Guy, Pastor

Services here are still encouraging. Our Sunday school showed much interest. Attendance good.

At the morning services the pastor spoke from the text, "Whosoever lappeth water as a dog lappeth, set to themselves." The mixed audience gave earnest attention and showed their appreciation. Both endeavors were alive, and had good lessons. At night the pastor spoke from the text, "As it is written, there is none good, no, not one". The audience was attentative, and three persons came forward and knelt at the altar for prayer. Next Sunday will be general class and sacrament day. You are cordially invited to worship with us.

PHILLIPS CHAPEL C.M.E. CHURCH
1406 Newton Street.
Dr. R. W. Underwood, Pastor

Last Sunday was featured with two strong sermons by our pastor, and good music throughout the day. Several distinguished visitors were present, among whom was Dr. Starnes, the specialist, who made a splendid talk. Sunday is communion day. Every member is asked to be present. The pastor stated that he would soon start a series of sermons on the "Divinity of Christ". The church has put on a ten thousand dollar drive for the purpose of building a new church to house our growing congregation. The men's Uplift Club decided to out do the women in this campaign. Of course the women say that it cannot be done.

Special music will be rendered Sunday. Come out and listen. Strangers, this is your home.

FIRST A. M. E. ZION CHURCH
Cor. Pico and Paloma St.
Rev. W. E. Shaw, Pastor

Sunday, March 2nd, Rev. W. E. Shaw, the pastor, will speak at 11 a. m. This is the first Sunday. Let it be a banner one for Christ. Large audiences attended the morning and evening services on last Sabbath to hear our beloved bishop. His morning theme: "The Kingdom of God", was found Dan. 2:34, 35. The evening theme: "Lessons from the life of Moses", or "The Fundamental evidences of success in the Life of a Christian"

These sermons were both characteristic of the strong type of sermons the bishop always preaches. He will remain on the coast until after convocation which convenes in this month, March 12th. The public is cordially invited to attend.

Prof. Bynum's choir rendered extraordinary fine music at the reception Friday evening, and at the Sunday services. The Rev. L. Beard, who has returned from Oakland after a very successful campaign there was presented with a lovely set of Bible Commentaries by the Bible Class and its friends. She leaves Wednesday night for her home in St. Louis, Mo.

A Sabbath well spent, brings a week of content. Come and worship with us. You are heartily welcome.

Special notice: 3:00 p. m. Sunday, March 2nd Rev. D. J. Garland, our returned Missionary from Africa, will deliver a remarkable address. Hear him.

WESLEY M. E. CHURCH
EEighth and San Julian Sts.
Rev. A. P. Shaw, Pastor

The contest between the Old Timers and New Comers was closed last Sunday with the Old Timers in the lead. The final battle will take place this Sunday. If you have not helped, you may do so this Sunday.

Sunday promises to be a great day at Wesley. The pastor will preach both morning and evening and will conduct the communion service at the end of each service. Every member is urged to come to one or both services during the day.

The choir will render special music. Mrs. Norman, recently from New York City, will be the morning soloist. Wesley promises helpful services to all who worship with us. Come and see.

ZION HILL BAPTIST CHURCH
36th and Hooper Ave.
Rev. Archie J. Williams, Pastor

Last Sunday morning Rev. L. B. Brown, pastor of the Beth Eden Baptist Church, preached and Rev. Archie Williams preached at the Beth Eden Baptist Church. Both congregations enjoyed the change. At the evening service the pastor spoke from the subject: "The Vaine of Our Soul".

Next Sunday the Pastor will speak at both services.

FIRST BAPTIST CHURCH
Furlong Tract
Rev. A. T. Hines, Pastor

We had a great day Sunday. Our services were well attended. Rev. Featherstone preached for us Sunday morning.

At 2:00 o'clock our pastor, Rev. Hnies motored to Alhambra, together with more than sixty followers, where he preached a most wonderful sermon for Rev. B. Williams, in so much that those who were standing on the porch and in the yard rejoiced together with those who were able to get on the inside. All hearts seemed to be open for the reception o fthe truth.

To our visiting friends our Bible study was suspended last week on account of the Baptist Convocation and Conference of pastors. They continue now, however, as usual.

Our pastor is booked to preach at Beth Eden Baptist Church 27th and Paloma next Sunday, March 2nd, at 3 p. m. All are cordially invited.

SECOND BAPTIST CHURCH
740 Maple Avenue
Rev. T. L. Griffith, Pastor

Services last Lord's day up to the standard. Pastor filled the pulpit at 11 o'clock taking for his subject, John 3 and 9. A wonderful sermon delivered on being born again. Three additions to the church. The choir again at its best under the direction of Mrs. Luvenia Harper Patterson. Owing to the illness of our own Mrs. Marie Overstreet Jackson we hope for her a speedy recovery, and that she will soon be able to resume her duties. Sunday evening service was given over to the Sunday School in a great rally for the building fund. Supt. S. P. Johnson is leading the men and boys, and Mrs. M. R. Caviness is leading the women and girls. A short program was rendered which was enjoyed by all. Mr. Thomas Griffith delivered an address, subject: "The Young Man", to the Sunday School. Miss Banks read a paper, "The Sunday School". Collection taken. Supt. Johnson was all smiles. He led his forces well. The women and girls will bring up the rear next time. Collection $240.43. Strangers always welcome.

BETHEL BAPTIST CHURCH
Holding Services in the Y. M. C. A.
9th and Hemlock Sts.
Rev. H. D. Prowd, Pastor

Our Subject in Sunday School was both instructive and inspiring. All were interested in—"The Period of the Judge." The Superintendent and Pastor made quite an impression on the young, by telling them, none can tell what the future holds for each one of them—all were in the preparation.

Attention was called to the death of our dear little Vera Brooks, of Sister Johnson's Class. She was worthy to enter the Kingdom prepared for her.

At the 11 o'clock service Dr. Prowd preached from Isaiah 6:8—"Here Am I, Send Me." All benefitted from the word and gave glory to God.

At the B. Y. P. U. "The Care of the Poor," a Missionary Subject, was most delightfully discussed. Miss Lillian Prowd was the acting President and she did splendidly. Mr. L. H. Prowd surprised and delighted us with a most instructive Paper on the Lesson.

We cordially invite all to our services, but urge that they come praying. We have special sermons this Sunday—Come and worship with us!

TRINITY BAPTIST CHURCH
36th and Normandie Ave.
Rev J. A. H. Eldridge, Pastor

Our Sunday School is growing rapidly under the management of its live wire superintendent, Mr. A. A. Lassiter and his staff of active teachers. Our pastor preached at the morning service to an appreciative audience from 1 Cor. 2:15. The message was very helpful and instructive. Rev. F. C. McCall (our assistant pastor), preached a soul stirring sermon at 7:30 from this text: "Ye must be born again". Trinity is very proud of her son.

Our B. Y. P. U. is indeed a live wire organization making rapid progress under the leadership of Mrs. F. Spikes. All are welcome.

LINCOLN MEMORIAL CONGREGATIONAL CHURCH
34th and Central Ave.
Rev. E. E. Lightener, Pastor

Sunday, March 2nd will be observed as Communion Day at this Church. The Pastor will give the closing message in a series on: "Some Questions of Jesus", at the morning hour, following which the Tord's Supper will be administered. Let not your seat be vacant at the Lord's table. At the evening hour a visiting brother will be the speaker. Splendid services were held the past Sunday. The pastor filled the pulpit at both services using as his text in the morning: "Wist ye not that I must be about my Father's business?" In the evening he spoke on: "God Our Refuge". The singing of the Lincoln Male Quartette led by Prof. G. M. McClellan is adding much to the services. You are cordially invited to worship with us at all times.

BIRCH STREET CHRISTIAN CHURCH
Cor. 14th and Birch Streets
Rev. A. W. Jacobs, Pastor

We have felt many times before that a climax had been reached in our services, but last Lord's Day outweighed them all. Good Bible school at 9:45 a. m., Bro. W. J. Thompson in charge. At 11 a. m., Prof. Moss, who has been in the city for five weeks, holding Sunday School Institutes, took charge and brought a message from the text "Whose Image is this?" He sent his message directly to the heart of his hearers, and each one present expressed very clearly their feelings of interest and enthusiasm. After his sermon there came foryard and uniter with the church, Mr. and Mrs. Blackburn of Oklahoma, also Mrs. Southerland, who has recently come to our city from Cuba. She made the good confession and will very soon receive water baptism. At 7 p. m. Mrs. W. J. Thompson took charge of the Y.P.S.C.E. and had a very good meeting. At 7:50 regular evening services. The subject discussed by the minister was, "Why the Church of Chrst Baptizes". Following this service, Bro. I. J. William conductor of the Watts Mission, administered the solemn right of bapism to a newly converted Sister who united with them ni the work at tthe Mission. You are alwaye welcome at our service. Come.

EVANGELST LEWIS CLOSES GREAT REVIVAL

What he considers one of his greatest efforts in California was the revival held by the Rev. W. M. Lewis, at Monrovia, which closed last Sunday.

Both races participated in the nightly service, and great was the spirit of enthusiasm demonstrated by both white and colored. Many are the invitatione extended to the Rev. Lewis by the white clergy of Monrovia. Rev. Lewis' ten days revival at Monrovia not only stirred the church goers up to a deeper appreciation of their duty, but likewise netted the Monrovia Church twenty-five souls.

So favorably impressed were the whites of Monrovia with the work, that Evangelist Lewis is doing that they have invited him to visit their religious conference that is being held at Long Beach this week.

The next territory to be invaded by evangelist Lewis is Watts. Let all Southern California hear this gospel singer who is bringing men into the fold by the magnetic power of his voice.

PEOPLE'S INDEPENDENT CHURCH OF CHRIST
18th and Paloma
Rev. N. P. Greggs, Pastor

Last Sunday was an historic day for the people of the Independent Church, ti was the Annual Celebration of the Christian Endeavor. The program of the services was marked with accelerated interest. At the eleven o'clock hour a magnificent audience thronged the church auditorium; many distinguished visitors were present. As a result of the masterly sermon preached by Dr. Greggs, fifteen persons were spiritually touched to unite themselves with this christian institution, and many present, were made to testify to the name of Jehovah aloud. A most inspirnig and well prepared program was rendered in the evening, under the auspices of the Christian Endeavor Society. Excellent numbers were rendered by special talent from Hamilton M. E. Church Epworth League, from the Phillips Chapel C. M. E. Church Endeavor Society, from the B. Y. P. U. of New Hope Baptist Church and by many of the Endeavor workers of the Independent Church. The People's Independent Choir was at its best and sang at its best. The speaker of the evening was introduced by the Christian Endeavor President, Prof. C. A. Biggers. This address by Atty. M. H. Broyles, was filled with logic, science and inspiration, and brought meditation to the minds of his entire audience. A very fitting response was given by the Sunday School Superintendent, Mrs. B. E. Prinfice. Mrs. C. J. Smith, chairman of the Program Committee, acted as Mistress of Ceremonies. The entire program as a whole, was one of par-excellence.

Next Sunday is another historic day for this church institution; it will be the Annual Celebration and the seventh Anniversary of the entry of the church body in their magnificent auditorium. A large free will offering is expected, and an overflowing audience is sure to be in attendance. This will be a special day of days. A special invitation is very cordially extended to the visitors.

SANTA MONICA CALVARY MISSIONARY BAPTIST CHURCH
Rev. Frank James, Pastor

Throughout the day the Spirit of God was with us. S. S. teachers took charge of their classes thirty minutes. Lesson reviewed by Supt. H. C. Hawkins (whose equal is hard to find) and many helpful thoughts were riveted in the minds of his school.

Morning service: Devotional Service led by deacon I. Liggins and Mr. J. Barber with Miss R. McClain at the piano. Dr. W. M. R. Carter preached a sermon that will not be soon forgotten.

Afternoon service: Many visitors were present and everybody took part in the devotional exercises, and when Rev. Mr. E. Z. Martin, of Monrovia, took the stand, it was easy to observe that the Spirit of God was with, in and upon him. He took his text, outlined his subject, and by his being a student of the Pacific Theological Seminary, was enabled to handle his subject with lightening like vividness. After the sermon, Dr. Carter installed the officers of the Children's band, and the officers of the Pastor's aid Society.

Evening service: After the hearts of the congregation had been made in readiness by the usual devotions, Dr. Carter being filled with the Spirit of Mission, gave the Bay people something to think about; he spoke on one of the greatest subjecs of he day. He pointed out, and convinced us of our gross negligence (relative to his subject) in a way, that brought tears, laughter and other demonstrations of interest. Oh, you missed much by not being there.

THE ANNUAL BAPTIST CONVENTION

Pleasant Hill Baptist Church, of which the Rev. W. H. Rozier is pastor, was the meeting place for the Annual Baptist Convocation last Monday, Tuesday, and Wednesday. The meeting was carefully advertised and the churches of Southern California were well represented. Timely were the discussions entered into and inspiring the papers and addresses.

Rev. W. R. Carter, Superintendent of Negro education, took pains in the arrangement of the program which was dignified and high-class in every way. Those who availed themselves of this opportunity were benefitted in a way that will redown to the edification of the Baptists in the community.

MONROVIA

A very large number of representative race men and women of Monrovia met at Shiloh A. M. E. Zion Church last Monday night, and organized what is to be known ac the Coolidge Republican Club of Monrovia. Mr. W. D. Hollins was made chairman and Mrs. L. Cheery, secretary. Mr. Hollins, after a few chosen remarks called upon Rev. G. W. Reed to make a talk, which he did outlining the reasons why the members of our race should organize at this time. The approaching presidential primaries, city election and the election of state legislatore and other important state and county officials make it paramount that we should organize for the fray, said Mr. Reed. Monrovia has a large colored voting population now and in a close vote our group holds the balance of power. After expressions by others the above organization was formed. An executive committee was appointed with Rev. G. W. Reed as chairman. This committee will have charge of the political end of the club and will make recommendations to the organifiation of such men and issues as it believes will serve the best interest of all the people. The personnel of the committee is as follows: Rev. G. W. Reed, chairman; Thomas Bain, J. Fisher, D. Taylor, M. Cheery, Mrs. Yancy, Mrs. M. C. Jones, Mrs. M. C. Jones, Mrs. G. V. Edwards, and Mr. H. C. Conley.

The Monrovia woman's Community club met at Zion Methodist Church and held a very interesting meeting. The meeting adjourned and came in and took part in the organizing of the Coolidge club.

Some people ought to learn how to forget the things that are behind and have sense enough to lock-step with progress. The man or woman in Monrovia who is so blind that he or she can not see the difference in the progress of Monrovia even in the last eight months is blind and can not see further than the end of his nose.

Race meetings are not for the purpose of grinding personal axes. Evangelist William Lewis has been here and gone, but Monrovia and vicinity know that he has been here. The revival campaign which he conducted at the A. M. E. Zion Church was an entire success from the beginning to the end. Twenty-eight souls were converted or reclaimed. Sunday night the church was crowded to overflowing and the Evangelist seemed to be at his best. The large audience responded excellently to the offering which was raised for the benefit of the evangelist. Drs. A. P. Shaw, of Wesley Chapel and S. M. Bean of Hamilton M. E. Churches of Los Angeles, Revs. Bentley, Hammock, Slaughter, Prince, Davis and White attended the meetings. The presence of the ministers gave inspiration to the services. Rev. Reed, the pastor of the church, says.

Miss Hallie Q. Brawn, president of the National Federation of Colored Women's Clubs, will speak at the A. M. E. Zion Church Thursday evening, March 6th. Miss Brown is one of the greatest speakers before the public today. All monrovia should hear her.

SAN DIEGO

By A. L. Brown

A Douglass League was organized Tuesday at the First St. Baptist Church. The league is to look after the welfare of the Negro race of San Diego, and will also take care of the political affairs. Rev. Dyson, one of San Diego's progressive workers, who came to us from Ohio, is the founder. W. L. Johnson, editor of the San Diego Eagle was assigned chairman of the evening. But when all the offices had been filled he turned the chair over to the executive head, E. J. Botts one of San Diego's bright young men, who was elected to that office. Mr. Botts has much to be proud of in being able to represent our people at any occasion necessary. Mr. S. D. Richardson was elected vice president. This should make a great pull for the league as Mr. Botts and Mr. Richardson have been old team mates on many occasions, and there record stands second to none. Todoy they stand as a light house on the coast. L. J. Knight was elected sect. and A. L. Brown, treasurer, W. L. Johnson, was made chairman of the by-laws committee, with E. J. Gentry, Rev. Dyson, John Hidleburg, L. J. Knight working with him. From all indications the league will soon be able to reach every race man and woman in San Diego. Men, women and children are asked to join. Any difficulties you may have bring them to the League. Let us join hands for something in San Diego and get the habit—say meet me at the league tonight.

Colored Farmers Should Organize

(Lincoln News Service)

Washington, Feb. 26.—Representatives of white farm organizations have been holding a series of conferences with senators and representatives here for several months, explainnig the legislative needs of the farmer. Plans for farm relief, both legislative and departmental, have been discussed and a number of the farmers have appeared as witnesses before the Senate and House Agricultural Committees. Unfortunately, the colored farmers are not generally affiliated with the white farmers in their local organization, and but a very few locals of their own, the result of whic is a deplorable lack of useful information that is absolutely necessary to successful farming and marketing. Certainly the problems of these farmers are not less of importance than those of other racial groups, and it is thought by many who are interested tat if it is impossible to work out a plan that will permit of full participation in the organized activities of other farmers, then the nearly one million colored farmers, who are doing business on invested capital amounting to more than two billion dollars, should get together as early as possible and organize local associations wherever it is necessary, and thereafter effect essential arrangemente for state and national organizations. Especially important is the need of organization among those who hope to participate in the important system of agrcultiral credits and in the cooperative marketing benefits. The following editorial from "The Rural Messenger", our only Negro agricultural publication, in speaking of conditions in the southern states, says in its December issue:

"Negro farmers should be given every advantage of intermediate credits recently provided for by Congress. Many of these agricultural credit acts don't aid heneeded Negro farmers of the South. Something is deficient when it comes to Negro farmers being benefitted by such credit movements. In many of the southern states we know where the financial power is that aids farmers, but the trouble is, as a rule, we can't get the power. When it comes to the Negro farmer, he is simply left out. That is all.

"Negro farmers should be allowed to function in local cooperative financial [illegible] should not be facilities for one racial group [illegible] group is simply benefited. Negro farmers need financial assistance as much as any other racial group of farmers in the country. When they fail to get it, well, it simply means that more Negroes are leaving the farms in the South. The Federal Credit Act is all right but the rub comes with the local credit corporations beginning to function. We trust that Negro farmers will be given ample opportunity to benefit by this act".

The above condition, however, is not peculiar to the South, but also obtains in many other localities in the northern and border states where nearly 70,000 colored farmers operate 3,300,000 acres of farmland, valued at $220,000,000. They, too are having difficulties due to local opposition to their membershfp in existing organiations. Unless this local opposition to their membership can be overcome, as it has been in many instances, the only hope for the colored farmers, is to create their own organizations because the laws enacted by Congress require membership in such organizations before the benefits are made available. This cooperative plan is absolutely necessary because of the impossibility of dealing directly with 6,443,343 individual farmers located in 3,065 counties in 48 states. Before starting organizations, however, a committee of colored farmers in each locality should discuss the question of membership with the officials of local associations.

BEDTIME STORIES IN A PULLMAN SMOKER

The Humble Philosopher

"Why, that fellow's our Assistant Superintendent of Service, now", said amiddle-aged gentleman to his traveling companion, as he unbuttoned a handsome frock coat and drew forth a cigar of tremendously large proportions. "He made a job for himself and openings for hi sassociates, so that our factory now has a fine group of colored mechanics."

"Well, how came you to take him on?" asked the other gent, as he hiscarded his cigartette and sat up to take notice, while I decided to "listen in" and gather some real live information about a seemingly impossible subject as a colored Assistant Superintendent of Service.

"'Twas a joke", replied the genial manufacturer, and I guess if I'd thot Bog was in earnest I wouldn't have made him the offer I made. I'm glad he was serious, though, as it helped him, gave some fine workmen a chance, and helped to put my company really on the map.

"Here's the way it all happened", continued the manufacturer, as he lighted his huge perfecto. Bob Hodges was the porer I always rode with [illegible] and every Saturday night Am I he was a porter, you see, [illegible] with. One Saturday night, Bob complained about having to make the run, with his mother sick at home. I asked him why he didn't get a job in town, and as quick as a wink Bob asked me for one at the factory. Little thinking ha he was in earnest, I told him to stop in the office the next time he was in Cleveland, and I'd ry to fix him up. You can hardly imagine my surprise when on the first of the month SEVEN

Bob showed up, told me he had quit the rtad, and asked for a job. All I can give you at present is a janitor's job, Bob, I told him, and $60.00 a month is all it pays." "Good", he said: 'I'm ready to hit'.

"So Bob went on as a janitor, and pretty soon, as the business grew, he had risen to be Chief Janitor, and had the privilege of hiring his own men. In less than a year after we had put our new buildings Bob had six assistants, all fine chaps, who worked hard and conscientiously.

"One day, one of our best patternmakers was taken ill, and we were pushed for men and time with which to complete some contract work. We telegraphed around town for pattern makers, but couldn't locate a single one. I was feeling mighty blue, when Bob entered, with a quizzical smile on his face.

"'Understand you need a patternmaker,' he said, uietly. 'I got a good one downstairs, if you'd like to try him, sir'. Bob continued.

"'Where is the man? Send him up to the Superintendent, at once'" I cried, scarcely able to believe Bob.

"Well, sir, Bob brought up one of his colored janitors, and don't you know that fellow could make patterns as skillfully as any man whom I have ever seen.

"After that we were short of mechance two or three times, and don't you know that Bob had a man on the force for practically every job in the plant. That sure did teach me a lesson, and when the department managers had a meeting, I ordered them to take on colored men whenever they came prepared to deliver the goods. Shrewd Bob Hodges had created jobs for his people out of nothing. Every time he hired a man, he had hired a man with a trade, and when the opportunity came, Bob was able to fill the gap, and fill it right. We've got about twenty-five colored mechanics out there now, and we don't have to worry about emergencies, for we've got a man, should we need one, for every job at the plant. I guess he could fill my place, if necessary", the genial employer concluded, with a hearty laugh.

Just then, I felt a nudge on my arm, which I found to be coming from the porter.

"Say, Mister," he whispered, "you please ask the gent how's Bob Hodges?. I'm a relative by [illegible] and perhaps he'd give me a chance."

WILSON-JONES MARRIAGE

An interesting surprise of the New Year was the announcement of the marriage of Mrs. Sarah Jones to Roy W. Wilson of Chicago.

On last Tuesday evening, promptly at 10 o'clock to an expectant crowd, Dr. Arthur J. Booker and the groom came strolling down the stairs as if there were no one present but them. Chas. D. Conner appeared and joined these two gallant gentlemen. Mrs. Hooker appeared on the scene and was escorted to a place of honor by Mr. Conner. Little Mary Garrott, daintily attired in peach organdie with wreath of pink roses as bandeau, and carrying a basket of flowers strewing them as she came down the stairs, as everyone now was on their tip-toes wondering what was to come, Rev. J. G. Gordon stumbled with a bag of beans spilling them over the floor. Mrs. Conner reproaching him for same, and while the attention was called to the argument, Mrs. Sarah Jones, accompanied by her brother, Clarance Blnett, joined the group on the stairway. At this moment Rev. Ward stepped up to settle the argument. Finding a walnut in the beans that had been spilled, he proceeded to open it and exclaimed, "Here it is in a nut-shell—Mr. and Mrs. Roy W. Wilson, married in Santa Ana, February 4th, 1924."

During this time Mrs. Clara C. Hulbert had arranged a wonderful program which was interspersed during the ceremony. Solo Miss Anna Mae Leiber Griffith; Violin Solo, Mrs. Bessie Dones; Contralto Solo, Mrs. Naomi Pharr; after which Rev. Densby invoked the blessings. At this time Mrs. Chas. D. IN THE MUSIC WORLD

By John A. Gray

Culture! How often one sees and hears this word. To the average person this word means the mere acquiring of a few nice manners and customs, or speaking knowledge of some of the world's great things. This is, however, not its meaning in th elarger sense.

Dane Rudhyar gives this definition in the Musical Quarterly. "A culture may be defined as the sum-total of the powers of the Mind released into operation through various social agencies, and enlivened by a certain type of emotions, during a definite period and in a definite race, or racial group."

Thus all art, literature, social works, political constitutions, engineering works, hygiene and medical discoveries affecting the collective health of a nation, etc. are agencies through which this "sum-total" of he powers of Mind are released into operation.

In other words one can measure the mental development of a people or nation by the tangible evidences of their mental activities.

In our race music is the greatest evidence of our mental development. Individuals may have achieved greatness along other lines but the pulse of te race is felt and its earfbeat is heard only through music. A clue to the mentality of our forefathers can be heard in the words of our folk-songs. Their conception of God and the hereafter is shown in the spirituals or religious songs. The play songs show the humorous side of their natures, and all of them sound the depths of their emotions. Music was their greatest mode of self- expression. We are thus able to get an outline of their culture as manifested during that period.

Today, the "blues" and other jazz songs are the agencies through which the soul of the race is discerned. From the lowest man or woman to the University student; from the intellectuals down to the common people, this form of music mirrows onr present day culture. Not so much in the music itself, which is but a roughening of the old rhythms and cadences, but in the words. Just as the words of the old songs expressed the mental side of the people of that age, so the words of these new songs express the mental side of this present day race people. They are nearly all based upon sex-appeal and some are really immeral.

You say that only a small part of the people sing them. Not so. Some of these songs may be heard from the lips of all classes of people and the majority of the people respond subconsciously to them.

Since, "a race is, in reality, a collective organism, animated by a collective Miud, swayed by collective impulses and emotions, and expressing itself through collective deeds," this manifestation of our culture from a musical standpoint is not very gratifying.

Important Fed Meeting Wednesday March 5, Parish Hall

By William Mells Watson
1133 E 34th St., Humboldt 5331-J

The Western Federation of Tennis Clubs will hold forth at Parish Hall next Wednesday night, March 5th, and all 14 of the representatives had better be on hand or else they won't see what the Fed does with the Alpha Parthenial Tennis Club's resignation which has been laying on the table two months, also the Delta Club of Oakland six months ago shot a hot resignation to he Fed and immediaely after asked for it to be tabled until they held a meeting, evidently they are still holding said meetnig. Fed can't do much under the circumstances, but give both clubs honorable discharges. Bankruptcy messed up the fog belt club but the Parthenial girlies simply quit the Fed, blew in about a hundred iron men on that swell wiggle at Normandie and re-organized as the Parthenial Social Club. Can't hate 'em at that as you can't play tennis at the Quality Cafe anyhow.

Racketeers, Riverside and San Diego

Well the three big dates on the tennis callenders is the Racketteers' open tournament Easter week, the Tennis Organizers' Club's visit with the Riverside Tennis Club Easter Saturday, and Mt. Rubidoux Easter at sunrise, then comes the big show, the Third Annual Pacific Coast Championship Tournament at San Diego, July 4 and 5. Does that look like the four remaining clubs in the Federation are dead or dying? Certainly nix.

Bulah who is ranked as our fourth best racket swinger on the coast is now sewing buttons on officer William Louis Jones' uniform. Maudie really playe her brand of tennis on a baby grand piano, and is not insulted when addressed as Mrs. William Mells Watson.

The Rev. Father Walter Thomas Cleghorn egineered the Halls-Jones struggles and Rev. J. D. Gordon refereed the opening of the Rosemond-plays her brand of tennis on a baby

James Sebron Harris of the Racketteers and brother of champion Juliaette celebrated his 14th anniversary January 17th. If the Parthenial Univ. Club had not resigned from the federation in December the club would have been five years old January 26. Bill Tatum of West Side wasn't quit 40 on January 29th. Little Bernice Pinchback, Tom's and Berdie's, entertained a gang of kiddies Monday, February 17th, her 5th birthday. Mrs. Ruby Corine Watson of West Side Ladies' Club celebrated February 19th as her anniversary.

Negroes In Congress

Are Negro citizens represented in Congress? Not adequately, all will agree. While it can not be expected that many colored men or women should be elected to Congress, it does seem that there should be a few—at least one or two—considering the grea number of Negroes among the voters. For a few colored individuals to old high office ond draw high salaries would not in itself help the race at large; but there should be some one in Congress if possible under the present system of voting, but there is a system in use in some countries, by which every minority has the same share f representatives, that its voters are when compared with the whole number of voters. This is called

Proportional Representation

This menas that if any state has ten representatives in Congress then any party or class of people who are and tenth of the voters can choose one representative. If they are two-tenths of the voters, they can elect two-tenths of the representatives. Other numbers the same way. This is perfectly fair, and it is also perfectly practicable. It only needs to have the method of election planned right. Furthermore, our United States conetitution permits it, only we must have an act of Congress giving the States heir option of whether to use proportional representation or the present system.

On the other hand, even with proportional representation, it would be impossible to elect a colored representative in any state where the colored voters are less than the proportion of one representative. But what could do them would be to bunch their votes so that out of all the candidates running (all of them being for congressman at large, and not by districts) they could elect at least one white man who would be a good sure friend of the colored people.

It should be pointed out tha in his system the congressmen are noe elected by districts, each district with only one member. Instead, all the members of Congress from one State are to be elected at large, and the candidates that get enough share of the votes to count for one member are elected. This is the way the members of the city council are elected in Cleveland, Ohio, and a few other cities. It ought to be the universal method.

The way it is now, where they are elected by districts, the party or class with the largest vote gets all the representation there is, that is, one member. But when they are elected at large, all in a bunch, they can be divided amongst the different parties or classes within a party in proportion to the votes.

Colored citizens throughout the North, where their votes are counted, ought to make proportional representation their chief demand. It is of fifty times the value to them that southern delegates in convention are. The only thing that should take rank with with proportional representation, as an issue for colored voters, is the prevention of lynching. Congress would pay heed to this demand, and it is only right; and it would be such a service to the country as a whole to bring in proportional representation, that it would give much prestige to Negro voters as a class.

Further information about this method of voting, and giving justice to minorities, can be had from the Proportional Representation League, Franklin Bank Building,, Philadelphia. They are urging this reform on general principles, for all classes.

(Signed) PROPORTIONALIST.

Special Correspondence

Charlotte, N. C., Feb. 18, 1924.—Breaking a rigid Southern tradition that no Negro shall appear before a white female audience in any representative capacity, Charles Satchell Morris, Jr., of Norfolk, Virginia, the famous colored journalist and orator, was invited to address the students of the Flora McDonald College, at Red Springs, North Carolina, on Friday morning. The institution is the leading school of the Scotch Presbyterians in the south, its attendants numbering hundreds coming from every state in this section.

The noted orator spoke to a vast throng in the city on Thursday night, at which time several members of the faculty as well as a large number of the young women heard him, as a result of which he was tendered an invitation to speak at the girls' seminary. He was cordially received by the student body when he stepped upon the platform and graciously introduced by the president. He held the students spell bound by his wit and humor, his logic and his fervent appeals for "My struggling, aspirnig hopeful race", couched in brilliant language.

The speaker declared "The Negro in the South is the acid test of the courage and the Christianity of the American white man. In proportion as my weak and often times defenseless race is accorded just and equitable treatment here in Dixie, will the dominant group succeed not only in the marts of peace and commerce, but in the grander realms of human service. I appeal to this magnificent group of the queenly daughters of the South, the lineal descendants of its idols to let no color blind your eyes, to truth, or hatred steel your hearts to action. The fallacious doctrine that might makes right must be supplanted by the gospel of the winged Prince of Peace that right makes might, and truth is God." He was tendered a great reception at the conclusion of his speech, many showering upon him the warmest congratulations.

THE NEWSPAPER

It is not the office of the newspaper to adapt, or set forth any literary style. Instead its duty or obligation to the community in which it lives is to convey the news to the people in the quickest and most accurate way possible. Nor should the newspapers show and favoritism to friends; lean to any particular religious, political or fraternal organization, because of any indirect affiliation.

A newspaper established in a community, and supported by the people of said community, should be the voice of said people.

People Too Should Be Charitable

And the people should bear the same relationship to the newspaper that it bears to them. Be charitable. Because you are a devout advocate of the church, don't feel that only church news should fill the columns of your local newspaper; and the same is true of society, politics, etc., etc.

The newspaper does not go into the home, and tell the mother that she should not use the rod in correcting her child, if it did it would soon be shown its corner by mothers—Now, my dear public, you would be surprised to know just how many self styled censors attempt to dictate the policy of a newspaper.

A physician Tells His Patient of a Censor In Order That He May Submit Himself to The Knife and be cured.

Some tell us that we should publsh only the bright side of Negro life. That his crimes should be carefully covered over by good deeds, and accomplishments. Now, if a physician were afraid that his patient upon learning that he had a cancer, would die because of fear he would not suggest the operation that possibly saves his life. So would the newspaper call the attention of its reading public to the fact that unmoral censors are eating into the heart of the Nation, and the black man who is less than one hundred years up from chattel slavery is lavishly contributing his part to the downfall of the Nation.

It Is Our Policy To Give The Young People a Chance.

Recently there has come into our newspaper midst a young University Student who desires to become an editorial writer by experience. We have opened our columns to this young student of journalism, and like all other youthful writers he is at fahrenheit, but we hope that you will be as charitable towards him as we have been. Just give him a chance like Mt. Vesuvius he too will cool.

MAN FADES AS A LEAF

Amid this glowing life of the vernal season, there are languor, and sickness and infirm old age and death. While nature smiles, there are many pale countenances that do not. Sometimes you have met, slowly pacing the green meadow, or the garden, a figure emaciated by illness, or feeble with age; and were the more forcibly struck by the spectacle as seen amid a luxuriance of life. For a moment, you have felt as if all the living beauty faded, or receded from around in the shock of the contrast. You may have gone into a house beset with roses and all the pride of spring, to see a person lingering and sinking in the last feebleness of mortality. You may have seen a funeral train passing through a flowery avenue, the ground which is the depository of the dead, bears, not the less for that, its share of the beauty of spring. The great course of Nature pays no regards to the particular circumstances of man, no suspension, no sympathy.

THE INDIVIDUALIZATION POLCY

The policy of denying to the Indian a group existence, and at the same time of denying him personal option in matters of property, of parental authority, of amusement, and even of religion, this policy which is sanctioned by the belief that the Indian, as a race, must perish from the earth in order that, naked of memories, homeless, and a fugitive, some creatures with American blood in their veins may rush to the arms of civilization.

JACK MOONFIXER AND THE BELLES LETTRES CLUB

The last bon mot from the Belles Lettres Club to "Jack Moonfixer" calls forth a brief survey of the controversy existing between our college students and the gentleman who who fails for some reason to emerge from pseudonymity.

In the first place, "Jack Moonfixer" appointed himself arbiter of all things pertaining to Los Angeles and its citizens. His was a grandiose aping after Arthur Brisbane and Heywood Broun. Indeed he thought himself inspired by the Muse; and was unrelenting in his centure, contempt, and disdain; and everyone who failed to regard things from his own narrow and depraved viewpoint. Some shallow minds hailed him as the author of a new science of living, and cunningly adulated him and duped him into believing himself to be on intellectual god; when, as a matter of fact, his bungling and fatuous manner precluded any possibility of him being such. He expressed contempt for objects which others—and they were in a position to now—regarded with a stern sense of respect.

In the second place, he was so restlessly discontent with his alarming mania for ridicule that he took up his pen to cripple the college machine. Through what the Belles Lettres Club has recently described —and accurately described—as his fatuous arrogance, he berated ever and anon our young people. They cannot open their baby mouth for what he is not ready to slam his rusty fist into it.

He is the high priest o fthose who worship any movement which tends to discourage youth. He snarls and bites and truculently belittles their fraternities and sororities. He laughs like a lunatic at their various but wholesome interests.

But, strangely enough, whil ehe has always been energetic in condemning these objects of wholesome amusement and self-expression, he has tried to defend as suitable and desirable, those poor specimens of sermons which we hear in our churches, which we are too often nauseated by and disgusted with. An insult to the ministerial imbecility of Los Angeles is an insult to him—all of which seems to warrant the astute suspicion that he must be one of them. His conception of a good sermon is one replete with platitudes. How could anything be more jejune, insipid, and boresome to those who are accustomed to listening to men who dare not face an audience without carefully and meticulously and elaborately preparing a discourse upon some timely and universal theme!

All of this silly arrogance hastened the deliberate but abortive attack of the Belles Lettres Club. They could not tolerate him, and, consequently, set themselves to the one task of taking this truculent tyrant through that horny horoughfare that leads to trouble. By their scorching criticism and scathing satire—some of which is worthy of almost a permanent place in the literature of social protest—they stripped him of his ostentious guise, and behold! he stood before the world a half-baked fatuous ass.

He may continue to anonymously and lavishly pour forth his vaporized effusions, for he has no sense for the eternal fitness of things; but leave him to his inexorable fate and he will go down, as other upstarts and imposters have gone, into a black, bottomless pit of blessed oblivion.

WOODROW WILSON

In the death of Woodrow Wilson, the American people lose their greatest apostle of democracy, most practical idealist, and their most able and brilliant advocate of internationalism.

Comnig upon the stage of human affairs when Europe was about to desiccate into continental jealousy, feud and disaster, no other man was better fitted than he to foresee that sooner or later the whole world must enter into war for the preservation and perpetuation of those high ethical principles and broad, humans sympathies which we call democracy. His foresight in the matter became more and more acutely recognized when, two years later, half of Europe had been swept into a storm of controversy and bloodshed; and, as the time came when the American people as a self-respecting people could no longer suppress their indignation over the cruel and inhuman treatment given her citizens abroad, no man ever appealed more earnestly to their spirit of self-sacrifice than he. None ever placed upon a loftier plane the issues for which onr Allies were fighting; and for which America must needs tak eup and defend if the world was to be made safe for democracy.

And now the man has suffered, and conquered, and died, even his bitterest enemies acknowledge him as the savior of mankind in her most critical period. He was in himself the embodiment of magnanimity and tolerance; and his words will go down ni history as part and parcel of the wisest counsel and most penetrating insight ever addressed to the human heart and to the human understanding.

In his youth at Princeton, he stood out vividly as a personalitl. By his arduous labors in writing and speaking, and by his omniverous reading, he became a master of a vigorous English style. By his unabated interest in the political sciences and his ineffable ardor for understanding them, he became an established authority on all matters pertaining to the control and operation of a large government. His contributions to the yarious magazines have no counter-part in American literature and will be eagerly read and re-read by generations yet to come.

His essaye, "When a Man Comes to Himself", "What is a College For?" and his last public message, published ni the August number of the Atlantic Monthly, "The Road Away From Revolution," are all destined to be followed and eagerly sought for when both men and man are in dire need of enlightened guidance.

So long as there shall b ea just apreciation for the true, the beautiful, the heroic in human conduct; so long as these shall be given a just response to the dignified conservatism of any great leader, just so long will Woodrow Wilson live in the hearts and institutions of his country, in the hearts and institntions of mankind.

SENATOR REED AND THE OIL SCANDAL

Senator Reed, in opening his campaign for the Democratic Presidential nomination, firmly avers that the corruption and iniquity involved in the oil scandal has not been fully laid bare. He charges McAdoo with having received the substantial sum of $1,000,000, and yet, he argues, McAdoo did not appear in a singl elaw-suit.

Now if these charges against high morality and clean statesmanship are true, why then, did not the senator fully and thoroughly bring to book these misdemeanors before entering upon his campaign?

Certainly his chances of receiving hte Democratic nomination would have been mor eobvious. He would have received a stirring ovation from the American people for insisting on cleannig out every iota of fraud and deceit that has ever tainted and contemned our public offices. But it seems to us that the senator's choleric outbursts in chargnig his colleagues with holding from the people certain stories which might lead to the conviction or banishment of prominent officials is merely one of his old and familiar tricks for getting publicity.

Whatever charges he may make against McAdoo, and however relentless he may be in proving them, the fact remains that the latter holds a singular and peculiar place in the Democratic party which the former can never hope to aspire, however deeply his indignation over these matters may impress an unthinging American people.

EMMA LU VIEWS THE HI JINKS

Rah! Rah! Rah! And they were off! Meaning the Hi (there was one girl), Jinks (and thirteen boys), who made their debut before an appreciative audience, last Tuesday evening at the Gamut Club on South Hope Street. The Jinks also must have had something to do with the lateness of the program, since the "Hi" was there quite early in the evening. The Alpha Delta Chapter of the Alpha Phi Alpha Fraternity, all students at the University of Southern California and Malcolm H. Patton, Jr., were responsible for the Musicale, which was well staged under Mr. Patton's direction, and partly written by him. There was much pep in the opening scenes that kept the audience laughing hilariously most of the time. Malcolm H. Patton easily took the lead, closely followed by John Taylor and William Stoard. On the whole the play was cleverly done, interserced with old jokes, given a new twist, that completely won the audience. The Quartette by Arthur and William Prince, William Stoard and Aramise Fouche deserves special mention, for the way they sang "Lucky Jim" and other numbers with equal splendor.

The quarrel scene from Julius Caesar by Samuel Danley and Malcolm Patton showed marked dramatic ability and for the minute one's imagination was carried away to the days of Brutus and Cassius when Rome ruled the world.

Although the characters in the "Debate" worked hard to put the scene over, they failed completely, to produce the results that had won their audience in the opening scenes.

The Alpha Phi Alpha is planning bigger and better entertainments for the future, having made this one splendid "try-out" they assure us that no one will be the least bit disappointed in their next Hi-Jinks.

JESUS THE SUBSTITNTE
By O. P. Jones

"But we see Jesus, who was made a little lower than the angels, for the suffering of death, crowned with glory and honor: that He by the grace of God should taste death for every man". Heb. 2:9.

This is the essence, the all in all of the gospel—Jesus tasting death for every man. For all men are sinners Is it not remarkable—no matter what their difference of physiogonomy, of racial distinction, of birth and training, of education and power, of religious tradition, color, hair texture, stature, or what not, they are all sinners. There is the same moral obloquey and turpitude, the same selfishness, treachery, lust, ambition for power, greed, revengefulness, murderousness. Nor wealth nor poverty, nor education nor training, nor heritage, nor genius makes any difference. All are sinners. All come short of the glory of God. All, by nature hate holiness, and love themselves. Except of course those who have had a change of heart.

Yes, I grant it, men are naturally religious, but there is never a religion of wisdom and love and holy equity, but a thing of selfish superstition and corruption. Even the gods they invent are tricky and lustful and corrupt.

But the Bible gives us a vision, a revelation of the true God. He is holy, just, and good; longsuffering and gracious, slow to anger and plentious in mercy.

Yet with Him the wages of sin is death. This is not a mere fight, wherei God is implacably vengeful of those who please Him; it is just inevitably so in the nature of existence. Sin is transgression of the law; the law was ordained unto life. They who keep it live; they who break it die. What difference does it make how the parent may love the child, if it disobeys and does that which kills it? "Honey don't drink that; it is poisonous, it will kill you". The child disobeys or forgets, goes on and drinks it, gets into convulsions and dies, or is saved from death by the most heroic measures. The wages of sin is death. The commandment was ordained unto life. It was broken.

"Darling, don't play with that gun. It is loaded." But the child does not heed. A sudden discharge. A scream. The child or one of its companions lies in a pool of blood, dead. The commandment was not a prohibition of pleasure. It was ordained unto life by the wisdom and tender love of the parent. But the child would not heed it. Result, death.

"Keep out of the street, precious. You will get run over and killed". Play on the sidewalk or on the vacant lot". But the child will not heed. He gets with others and they play in the street. Autos race by. Somebody gets confused. A child is struck and run over. Death. Aching hearts, lasting regrets, sorrow, death. The wages of sin is death.

Now the moral commandments given us by inspiration from God are also ordained unto life. But do we keep them? No. Scarcely as wise as even our children we disbelieve our teachers and pursue onr own way to. — death.

It is worse than that. We have inherited from Adam, thru our foreparentts a tendency to disobedience, a pull toward the wrong, an inclination to evil, a mind, called in the Bible "the carnal mind" (Ro. 8), which is itself death. For death is not mere dissolution nor annihilation nor obliteration, nor eternal sleep; it is separation from God, who is real life (John 14:6) It is the extinction of the good, the noble, holy, the true within us. The divine graces give place to darkness, disorder, confusion, hopelessness, corruption, and lo we are dead. The passing of physical breath is only one phase of death. Real death is to be banisht from God and His glory.

Now Jesus tasted of death for us that we might not die. It was the divine arrangement. A holy mystery understood only by faith, but very satisfying to him who believes. We are dead in trespasses and in sins, but we believe God's testimony concerning His son. (John 5:10.11.) We believe that God so loved the world that He ave His only begotten Son that whosoever believeth in Him should not perish, but have everlasting life. John 3:15,16. We receive the atonement. Faith is victory. We live. Sin loses its charm and power. Darkness gives way to light. Confusion gives way to peace. We love God. Heaven opens o us. Our citizenship is transferred to glory. We conceive and an eternal hope. The fight of faith begins. We are happy. We live. We have eternal life. Delight ecstatic! glory ineffable! Hope transcendent! Day breaks! We are the children of light, the sons and daughters of peace, the royal heirs of glory. The cross prevails. Jesus died and rose again. We believe it. Our guilt is gone. We live. We have eternal life. For Jesus the life of God, lives again in all who believe. II Cor. 13. Amen.

TRAFFIC

Don't cut the buttons at street intersections unless you have more dollars than sense.

Give a fire plug plenty of air. Even when the car so parked has a driver you are infringing on te law and while a policeman seldom molests you nevertheless he has the right to and might usurp that right on you.

By the way have you a copy of the traffic rules? If not get one at your first opportunity. Read up and save policemen holding you up.

It is absolutely against the law to drive a car without a windshield. Didn't know it? Neither did the other fellow, but he found out last week.

Right and left turns are permissable throughout the down town business section only before 9:30 a. m. and after 9:15 p. m.

If you are in he habit of sneaking by standing street cars outside the congested district, better from now on apply krakes and wait.

Remember, street car patrons have some rights and if you accidently hit one or run them down it might temporarily, if not permanently deprive you of your liberty.Then to the person you hit might, I say might, be your sister, mother, brother or sweetheart, and then what?

Of course most of you know it is against the law to park your car in the street all night, but if you don't and have been leaving Henry out, just arrange to make other arrangements before the law makes some for you.

YOUR NEW LICENSE

Before we shall have gone to print this week the tim limit for securing your 1924 license sh liahevaXZ@&Ib your 1924 license shall have expired.

The Motor Vehicle Department, the several auto clubs, the many auto dealers, and accessories houses have all done their bit to assist you in keeping within the law. Many, in fact a large majority,, have taken advantage of the opportunity offered them, but there are many who just neglected to do so. The result is that they now find themselves not only liable to arrest, but subject to the payment of an extra 50 cents.

AUTOMOBILE DEVELOPMENT

The automobile as a unit is here to stay. The aeroplane to be sure has challenged the auto's right to popularity and usefulness, and one cannot fail to admit that in its challenge it has found some who champion its cause, and while the war did much to bring it into practical existence, the time never will come when one will really see each a real competitor of the other, saye Mr. Craig of the L. E. C. Garage. Its a long way from the days of Whistling Billy (white steamer) to the present.

Some twenty odd years have passed and improvement upon improvement in motor design has given the world today the most useful piece of transportation. Useful alike in fact and positively essential to both the aeroplane and the automobile is the motor. The Seldon patent which was granted by the government in 1892, and incorporated the gasoline engine with the steering arrangement of the auto, giving it the name automobile came near proving Henry Ford and other manufacturers of autos hemesis in that, it controlled the output by exacting a royalty of so many dollars on each auto turned out. This was of no sequence as long as the out put was on a small basis; but when Henry and others got to making thousands instead of hundreds, the royalty ran into such large figures that it began to prove an unbearable burden and threaten to curtail developments. Mr. Ford by this time had become such a factor in the auto world that he found himself financially able to challenge Mr. Seldon's patents. And following two suits that cost a million or more the second one was decided in his favor and henceforth royalties ceased and the development of the auto took place on a new lease of life until today we find it a legitimate factor in every walk of life. The poor, the rich, the manufacturer, the consumer, the business man, and last but not least, society in general, are all dependent upon the auto to such an extent that it is indispensable to their welfare.

OUR POLICY

This section is given over to the exclusive news and advertisements of the automobile. Each week we aim to furnish you with one or more articles on the auto itself, in addition to supplying you with the weekly happenings. Last week we featured an article on Balloon Tires written by the person who not only created the idea but actually introduced them to the public. We are indebted to J. B. Woods and Company, distributors of Hewett Tires for the article appearing.

INDUSTRIAL CONDITIONS GOOD

(Lincoln News Service)

Washington, Feb. 21.—Because of his friendly attitude towards colored wage earners, anything that is said by Judge Elbert H. Gary, Chairman of the United States Steel Corporation, is of special interest to our group, which is hoping to participate more fully in the industrial activities of the nation. In a recent interview Judge Gary is quoted as saying, concerning the future business outlook: "The situation is better than it has been in a long time. It is fundamentally sound in every essential respect. To this time—I emphasize that phrase—there is nothing that suggests it will not continue to be sound, and even improve. Several basic factors are responsible for these conditions. Foremost among them I should place the firm hand and sound practices that characterize the present administrative branch of the government, from President Coolidge downward. Of hardly less bearing is the inherently healthy condition of affairs in the country. Our national income is steadily and irresistibly increasing. The value of farm products was never greater. There is virtually no unemployment.

This encouraging news will be read by many colored men and women throughout the country, wage earners and business and professional men, who realize that the economic salvation of the race depends largely upon the prosperity of such industries as are represented by Judge Gary who gives employment to thousands of our people. They will be largely influenced by his views on public questions, to the consternation of the deacons of the mire who thrive best in the muddy waters of discontent, made turbid by general unemployment and poverty.
